Dear Surrounding Landowner,

In the initial notification that you received regarding the Highlands Wind Energy Facilities (attached), we requested that you assist us with contact details of any labourers and occupiers on your property so that they can be included in the public participation process. We have not received any response from you in this regard.

Please could you confirm if there are any individuals residing or working on your properties adjacent to the proposed development site, and send us the names and any contact details of the individuals residing or working there.

Thank you for your assistance.

Kind Regards,

Anja Albertyn

Telephone 072 446 5566

Comments

AA phoned GA introduced herself as working for the Environmental Consultants conducting the EIA for the Highlands wind energy project. JC confirmed he has been receiving notifications regarding the project. He explained that he practices law in Wellington/Paarl and has not been farming there for 20 years. His brother in law Jeremy van Niekerk operates the farming on Far 420 Doornkraal. AA enquired if there are people residing or working on the farm. Regulations requires AA to inform occupants on adjacent properties about the project and how it could affect them and give them opportunity to comment. JC enquired how a wind farm could affect workers on a neighbouring sheep farm. AA explained that according to the social specialist study the main impact to adjacent properties is visual, and would be unlikely to affect the workers on a sheep farm next door negatively, as their farming operations would not be affected. Neighbouring hunting and tourism operations relying on tourists are however concerned that they may be affected negatively. The community impact is expected to be positive with increased job and business opportunities and a Community Trust benefitting community members would be set up. JC enquired if the turbines will be on Bruintjiehoogte ridges. AA explained that they are not on Bruintjieshoogte itself, but south of the R63 on ridges that would be visible from the R63 and neighbouring farms. JC asked AA to please email him a map and a link to the figures in the report so that he can see if he is affected. AA confirmed that she will send a link and a figure, but that she can also post a hardcopy. JC enquired if he could come to the office to see a hardcopy when he is in town. AA confirmed that this is possible. JC gave AA the details of the occupier Jeremy van Niekerk, who will have details of the three people residing on the property.

Comments

AA phoned and introduced herself. JvN acknowledged that he knows about the Highlands project but he does not own the property and that all correspondence has to go through the owner Johan Coetzee. AA confirmed that Mr Coetzee gave her JvN's number and has told her to call him for the occupiers details. AA explained the purpose of holding a meeting for the farm occupiers and allowing them to comment on the project. JvN explained that three individuals live on the property and work for him, and that AA is welcome to come and talk to them. JvN enquired where the access road to the site will be. AA confirmed that the existing road going through Farm 420 will be upgraded and used. Therefore the project could affect JvN's operations and he should read the reports in order to comment. AA explained that should environmental authorisation be obtained the project will need to also be successful in a bid to Eskom, so it could be some years before the road gets upgraded. AA will email a link to the reports to JvN with a map so that he can study the proposed layout. JvA advised that he requires two days notice to organise a focus group meeting and AA should contact him 2 days before she wants to come.

Dear Jeremy,

Thank you for taking my call earlier. As discussed we would like to inform the three individuals residing on the property you manage 420 Doornkraal about the proposed development on the adjacent property. We will be in touch in this regard to hold a meeting with them on the property in the week of 15 October 2018.

You can download the documents for public review at this link:

<https://arcusconsulting.co.za/projects/highlands-wind-energy-facilities-basic-assessment-reports-for-public-review/>

I have also attached a map showing the proposed development and location of the access road that runs through the Farm 420 Doornkraal (the grey line in the south east of the project site).

Please do not hesitate to contact me with any queries or comments.

Comments

AA phoned GA at 15:12, introduced herself as working for the Environmental Consultants conducting the EIA for the Highlands wind energy project. GA confirmed he knew about Arcus conducting the environmental authorisation process. AA explained that they are required to ensure that not only the landowners but also the occupiers, residents and people working on adjacent properties, are informed about the project and are given the opportunity to comment. AA would like to come to GA's farm and hold a meeting with the affected people there to explain the project, the possible impacts and record their comments or hand out comment sheets. It will take 30 minutes to an hour maximum. GA explained that he has already been to a meeting with the project developers and social specialist, and that he is opposed to the proposed development. AA reiterated that not only the landowners but also the residents and employees must be given opportunity to comment. GA says he understands this. GA said that he has to first go back and speak to the others and take this to them before he can give the go ahead. He did not explain who the others were. AA asked if there are people residing or working on the property. GA confirmed that one individual resides there and several others reside in Somerset East, but work on the property. AA asked that GA please contact her with a response as soon as possible.

Dear Mr Henderson,

We are planning to conduct meetings in your area for people working and living on the properties adjacent to the proposed Highlands Wind Energy Facilities, in order to inform them about the proposed development, and enable them to comment on it. Please could you assist us with this for the people on your farm? We would come to your farm and speak to your staff / people living there at a time suitable for you and them. It would only take about half an hour to an hour maximum. We are looking at the week around 17 or 18 October 2018.

Please could you let me know your phone number or give me a call on 076 265 8933 or 021 412 1529 to discuss if this is possible?

Or, if there is nobody living or working on the Farm RE/145 Uitkyk, or any other affected property in the area you may own, please confirm this and we will make a note not to contact you again in this regard.

Thanks very much for your assistance.

Telephone 082 516 2441

Comments

AA phoned DH and introduced herself. DH confirmed that he had received the emails regarding the meetings Arcus wishes to hold with farm workers. DH confirmed that he has 10 people working/residing on his farm and that Arcus is welcome to come and talk to them. DH stated that he is not opposed to the wind farm, but that his neighbour Mr Fleming Jensen is very upset and will not want to talk to us. AA explained that the people working for Mr Fleming Jensen also need to be given opportunity to comment, if they are opposed or in support of the project. DH explained that an Afrikaans interpreter will need to be present for the meeting, and that some of his workers are illiterate. AA confirmed that the meeting is especially important then and that it can be held in Afrikaans and that this way their verbal comments can be recorded. AA and DH agreed that AA will email DH proposed dates for the meeting.

Subject: Highlands RE: Occupiers details

Dear Ms Albertyn

Below email refers, as well as other similar ones sent to other of our clients.

The notification and inclusion of “occupiers” is a critically important aspect of any project such as the Highlands wind farm proposal(s) and is specifically accounted for within the EIA Regulations.

Notwithstanding concerns and associated risks to my clients of your requests around the Protection of Personal Information Act it would be appropriate to respond on behalf of my clients that unfortunately The Regulations do not make provision for them to assist, act for or undertake any tasks specifically required of the person conducting the public participation process and the EAP.

However, in order to be of some help we would advise you to contact the Department of Environmental Affairs (Ms. Dee Fischer) who undertook the Strategic Environmental Assessment (SEA) which determined that the subject Cookhouse REDZ, within which said “occupiers” reside and our clients properties fall, be proclaimed under the auspices that the SEA was the product of a comprehensive (scoping) process of public consultation during which affected parties were extensively consulted. On that basis you would be reasonably expected to obtain from the DEA all the names and details of those you seek since they are within, and affected by, the SEA Cookhouse REDZ (as your motivation Highlands WEF evidences in its substantial reliance upon the same SEA).

Kind regards

Andre van der Spuy

Subject: Occupiers details

Dear Mr Badenhorst,

As previously communicated we are trying to arrange a meeting with the people working and/or residing on your property. Please could you send me a list of names and cell phone numbers of your staff (if they agree), so that we may contact them. We want to ensure they have been informed of the proposed Highlands Wind Energy facilities development and enable them to provide their comments. Alternatively please could you provide them with my phone number 076 265 8933 and advise them that they can send a “please call me”, or a missed call, and they will be phoned back. We are hoping to set up a meeting with them in Somerset East.

Unfortunately we have no other means of obtaining information regarding the contact details of the occupants of your property than through you.

Kind Regards,

Subject: Highland Wind Energy facility

Dear Mr Walter,

Thank you for taking my call earlier. We will be in the area all day tomorrow meeting with workers and residents of the farms affected by the proposed Highlands wind energy project, to inform them about the project and give them opportunity to comment. We would like to visit your farm and speak to anyone residing/working there anytime from 2pm (we have a meeting at Driefontein at 1pm). It should only take about half an hour. Please could you let me know if it is possible to come tomorrow, while we are already there. I could also try and move some of the other meetings on neighbouring farms around if it can only be arranged in the morning.

Thanks very much for your assistance.

Kind Regards, Anja

Subject: RE: Highland Wind Energy facility

Dear Ms Albertyn

My client , Fritz Walters, has advised me that you have been in contact with him without having the courtesy or ethical conscience to include myself. I imagine you have adopted such approach on the advice of Tony Barbour perhaps?

It is noted that you have quickly responded in this manner after my email of yesterday to you in which your request for “occupiers” details was refused. The clients have now been properly advised of the real intentions of your unethical and scheming approach and **have been advised not to engage or assist you in any further manner**. I have also advised my clients of Arcus’ similar unethical approach in the Umsinde Emoyeni Wind Farm application (Murraysburg) and where promises made to my clients there were ultimately not honoured in the consultation process and the affair was manipulated to serve the interests of the Applicant alone. I wish to place on record that I have absolutely no trust in you or your Company on account of previous experiences (and now these) and I have advised my clients to adopt the same attitude in order to protect their interests and legal rights.

At the same time we recognise the legal and independent rights of “occupiers”, as such are termed under NEMA.

Relevant officials of the DEA are copied in here for their own record.

Sincerely

Andre van der Spuy

Thank you for your e-mail.

I will be out of office (and with intermittent cell phone reception) between 1 and 8 October 2018, returning to office on Tuesday, 9 October 2018.

Should you require assistance in the interim, please contact my colleagues, Ms. Kate Handley (0729551489) or Ms. Sandy Gardner (0722035609). Kate can also be reached on khandley@nsmithlaw and Sandy can be reached on sgardner@nsmithlaw.co.za.

I will respond to your e-mail on my return to office.

Kind regards
Nick

Comments

AA phoned, introduced herself and asked to speak to Fleming Jensen. LJ advised that Mr Jensen is not available and will be on holiday until 20 October. AA explained that Arcus wants to set up a meeting with the farm workers in order to ensure they know about the project and have an opportunity to comment. LJ said that all farm workers are going on leave from today and will only return to work on 20 October 2018. AA enquired if there are other means of contacting the farm workers. LJ said that this number AA called is the only way of contacting them, as there is no cell phone reception in the area. AA enquired if LJ can advise any other means of contacting the farmworkers to speak to them. LJ responded that this phone number is the only means of contacting them. AA thanked LJ for her time.
