NEW Mama in Klerksdorp
MAMA ZAMU

Am here to thank Mama Zamu. My name is Pauline from Kuma Village. I am here to testify about Mama Zamu. From radio station I got her number and I went to her office. She gave me R10 to put in my account. After that I went back home within 7 hours I started to receive money into my account in a week. I had a total of 9.2 million. I bought my new house and my new Toyota Fortune and I only gave her a donation. I really appreciate it Mama Zamu.

NOTIFICATION: ENVIRONMENTAL AUTHORIZATION APPLICATION PROCESS.

In accordance with the requirements of Chapter 6 of the Environmental Impact Assessment (EIA) Regulations (Government Notice R982 as amended, promulgated under the National Environmental Management Act 107 of 1998 - NEMA), notice is herewith given of an application/s which will be subjected to a public participation process.

Mine Waste Solutions (Pty) Ltd (MWS), hereafter referred to as the applicant has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required environmental authorisation processes (including the statutory public participation), and to compile and submit the required documentation

Applicant: Mine Waste Solutions (Pty) Ltd (MWS)
Application/s: • Environmental Authorisation (EA) in accordance with the NEMA- Listed activity/ies:
 o Listing Notice 1, Activity 46.
 • Water Use Licence (WUL) in accordance with the National Water Act - NWA (Act 36 of 1998) - Listed activity/ies:
 o Listed Water uses: Section 21 (c) and Section 21 (i) (if applicable).

Additional listed activities and/or water uses may be identified during the process.

Location: The proposed pipelines traverse the following properties: portions 2, 6, 7 and 15 of the Farm Bufilefontein 443 IP; portions 0, 2, 5, 12, 13, 24, 37, 57, 70, 8191 and 103 of the Farm Hartbeesfontein 422 IP; portions 30 and 33 of the Farm Stilfontein 408 IP; portion 0 of the Farm OMV 534 IP and portion 0 of the Farm Wildebeestpan 442 IP within the City of Matlosana Local Municipality, North West Province. The proposed return water pipeline is located approximately 7.5km north-east of the town Orkney and 16km south-east of Klerksdorp Central. The pipeline has the following coordinate points: Start: 26°53'37.90"S and 26°52'30.26"E; Middle: 26°54'6.66"S and 26°50'43.59"E; and End: 26°54'9.07"S and 26°49'22.65"E. The proposed slurry pipeline is located approximately 6.5 km north-east of the town Orkney and 13.5km east of Klerksdorp Central. The pipeline has the following coordinate points: Start: 26°53'16.65"S and 26°48'1.76"E; Middle: 26°51'44.98"S and 26°48'17.89"E; and End: 26°50'15.40"S and 26°48'5.58"E.

The Applicant is planning to install additional pipeline infrastructure to meet the planned Life of Mine (LOM) production rates and increase the volume of return water from Kareerand TFS to the reclamation pump stations. The current slurry and return water infrastructure fail to meet the requirements of the planned LOM and impacts on the long-term sustainability of the MWS operations. The proposed new infrastructure is considered an upgrade and expansion of the existing reclamation pipeline infrastructure and is as follows:

- An additional 750mm diameter return water pipeline along the existing pipeline route from Kareerand TFS to Midway Dam; and
- The installation of a new 6.2km slurry pipeline from Midway Dam towards the MWS Plant. The new pipeline will be installed alongside the existing pipelines and tie-in made upon commissioning whereafter the existing pipeline will be repurposed to a process water line.

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) for undertaking a Basic Assessment process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and application/s. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest or any comments, in writing or telephonically, to EIMS. Please note that only registered I&AP's will be informed of future project information and opportunities for participation.

By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at www.eims.co.za/public-participation. In order to avoid missing out on opportunities for public participation please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, as soon as possible to EIMS at:
