

# Rustenburg Kloof Rotary makes a difference

**R**USTENBURG - The Rustenburg Kloof Rotary Club recently held its 25th charter dinner at the Royal Marang Hotel. The District Governor, Martin Forsyth-Thomson and his wife Christina attended the dinner along with other invited guests, past presidents and current Rotarians.

The District Governor read out a letter of congratulations from the Rotary International President, Sukuji Tanaka of Japan+, to the Rustenburg Kloof Rotary Club and then handed a copy of the letter to the club president, Sibusiso Kekana. In the letter, President Sakuji thanked the Rustenburg Kloof Rotarians for

the service that they have rendered to the Rustenburg community for the past 25 years.

"To be able to keep serving the community the Rustenburg Kloof Rotary Club needs to grow and to this end we were also very privileged to induct Brenda Klopper as a member of the club".

"The Rustenburg Kloof Rotary Club took the opportunity to recognise Kim Katuta as a Paul Harris Fellow, for her selfless contribution and ongoing efforts at Dayspring Children's Village. The Rotarians also got the opportunity to congratulate Margaret Slyper of Selly Park Secondary school on

being recognised as a Paul Harris Fellow for her work with the Interact Club at the school. Together with the staff at Selly Park Secondary, Mrs Slyper reinforces the ideal of community service as a desirable attribute amongst the students at the school".

"The Club also recognised the many friends we have in our community and thanked them for their generous support over the years. Without their support, our task would be much more difficult".

The evening was one of wonderful fellowship, lots of laughter and a gourmet meal provided by the Royal Marang hotel.

**ENVIRONMENTAL IMPACT ASSESSMENT (EIA), ENVIRONMENTAL MANAGEMENT PROGRAMME (EMP) FOR TWO SAMANCOR CHROME PROPOSED MINES: VARKENSVLEI AND NOOITGEDACHT IN NORTH-WEST/ LIMPOPO AND HAAKDOORDRIFT IN LIMPOPO**

**DRAFT SCOPING REPORT AVAILABLE FOR COMMENT**

**INVITATION TO PUBLIC OPEN HOUSE**

Samancor Chrome (Samancor) is applying for authorisation to start two new chrome mines. Samancor Chrome has applied for mining rights on each of the following farms:

- **Varkensvlei 403 KQ and Nooitgedacht 406 KQ (Varkensvlei and Nooitgedacht)**  
 Samancor Chrome currently holds prospecting rights on the farms Varkensvlei 403 KQ (portions 1, 2 and remainder) and Nooitgedacht 406 KQ (portions 2, 6, 7 and 10). The project site lies across the border of the North West and Limpopo Provinces, 150 km north of Pretoria and 130 km east of Bela-Bela. The area falls under the Moses Kotane Local Municipality (North West) and Thabazimbi Local Municipality (Limpopo).
- **Haakdoordrift 374 KQ (Haakdoordrift)**  
 Haakdoordrift: This proposed project area is located on Portion 0 of the farm Haakdoordrift 374 KQ. This farm is located in the Limpopo Province, in the magisterial district of Thabazimbi, approximately 15 km south-south-west of Thabazimbi and 50 km north of Northam. The Haakdoordrift farm spans approximately 3,500 hectares in extent.

The mining right applications were submitted to the Department of Mineral Resources (DMR, Polokwane Regional Office) for mining rights in terms of the Mineral and Petroleum Resources Development Act (No 28 of 2002) (MPRDA). Under the MPRDA Regulations, Samancor Chrome is required to submit an Environmental Management Programme (EMP) for each project which must be based on an Environmental Impact Assessment (EIA).

Each mine will also require a water use licence (WUL) and an Integrated Water and Waste Management Plan (IWWMP).

Samancor Chrome will be undertaking several listed activities applicable to both proposed projects that require environmental authorisation via the EIA process in terms of the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), as amended and the EIA Regulations GN R 544 and GN R 545. The competent authority that will make the decision on whether or not to approve the undertaking of the NEMA listed activities at Varkensvlei and Nooitgedacht is the Department of Environmental Affairs (DEA). For the proposed Haakdoordrift operation, the competent authority is the Limpopo Department of Economic Development, Environment, and Tourism (LEDET).

Golder Associates Africa (Pty) Ltd, an independent environmental and engineering company, is conducting the respective EIAs and licencing processes for Samancor Chrome.

**PUBLIC COMMENT INVITED**

Stakeholders are invited to register as Interested and Affected Parties (I&APs) and to participate in the EIA process by:

- commenting on the Draft Scoping Report;
- identifying issues of concern and suggestions for enhanced benefits.

# Aliza-Aviela nagmaal

Die bejaardes van Thabazimbi was Woensdag 27 Maart weer uitgenooi na die jaarlikse Aliza-Aviela nagmaal. Dit het voorafgegaan met 'n nagmaal diens by die NG Kerk Thabazimbi en daar was na die diens 'n lekker gekookte ete wat deur die susters van die Kerk voorberei is. Op die foto is Oom Jan en Bettie van den Berg, Tannie Hanlie Steenekamp en Hentle Botha.

Die bejaardes aan die tafel was Oom Hannes en Winny Fourie, Nan Dreyer, Oom Soon de Clerq, Tannie Bellie en Oom Dries Welgemoed.

Die bejaardes van die tafel wat die ete geniet het was Oom Filo Kleynhans, Oom Frans Schutte, Tannie Chrissie de Beer, Tan. Joey Bassone en Tannie Aggie Vos.

Die bejaardes aan die tafel was Oom Hans en Bets Oosthuizen, Dieta Bronkhorst, Magda Bendé, Evonne en Boet van Niekerk.

# Vir Bella

Ek was nog nooit 'n kat-mens nie. Ja, katte is vir my mooi en alles, maar ek het nog nooit 'n 'konneksie' met 'n kat gehad nie. Honde is anders. Dis asof ons mekaar sommer uit die staanspoor 'vind' wanneer ons ontmoet.

Toe kom Bella. Haar naam het sy gekry, omdat sy ewe hars die hangklok by die agterdeur gelui het. Sy het agtergekom dat, as sy dit doen, kom iemand kyk wie lui die klok. Logies: as sy dan miaau, kry sy 'n kopvryfie, of selfs iets om te eet of drink.

So het my en Bella se vriendskap begin. Ek is toegelaat om haar koppie te vryf as sy oor die veiligheidshek 'hang' (sy haak haar elmbogies agter die trailies in, en hang so halflyf by die deur in) en sy is toegelaat om dan met my te gesels. Vryf ek haar, prrrrrrr sy vir 'n ander wêreld. Is ek besig om iets an-

ders te doen, word daar al miaauend vir my vertel wat die dag gebeur het. (As ek haar net kon verstaan!)

Skielik... is daar niks. Geen miaau om my welkom te heet nie, geen klokke wat lui om aan te kondig dat sy daar is nie. Bella is net weg. Ek sal seker nooit weet wat met haar gebeur het nie, maar ek sal haar altyd onthou. Die grys streepkatjie wat vir altyd my opinie oor katte verander het.

Ek is seker dat 'n mens, wat nie van diere hou nie, se lewe baie leeg is. Weet diesulkes hoe sielsaiwend daardie onvoorwaardelike liefde en kameraadskap is? Dit laat 'n chaotiese dag somer vinnig beter lyk. As jy hartseer is, voel hulle dit aan en troos. 'n Siek baas of nonna word somer gou gesond 'gedokter' met 'n soenijie of 'n verspottigheid om jou te laat lag. Mense kan 'n mens tog so seer maak - diere sal nooit die hart seermaak nie.

Kom ons pas ons vierpoot-dokters en -sielkundiges op ... hulle waarde het geen prys nie!

**RE-APPLICATION BY SAMANCOR CHROME FOR A MINING RIGHT ENVIRONMENTAL AUTHORISATION WATER USE LICENCE AND WASTE MANAGEMENT LICENCE ON THE FARM VARKENSVLEI 403 KQ, NORTH-WEST PROVINCE – LP 30/5/1/2/3/2/1(0130) EM**

**INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY AND COMMENT ON DRAFT SCOPING REPORT**

On 12 August 2016 Samancor Chrome reapplied for a mining right on portions 0, 1 and 2 of the farm Varkensvlei 403 KQ. This application included both opencast and underground mining, and the ore will be processed by wet methods. In terms of the new EIA Regulations GN R.982/983/984/985 that commenced on 8 December 2014, an application for a mining right triggers an application for environmental authorisation, which must be supported by a scoping and impact assessment process and which must also be submitted to the Department of Mineral Resources (DMR). In terms of changes in the legislation on waste management (GN R.632/633) that commenced on 24 July 2015, Samancor Chrome must also apply for a waste management licence and a water use licence.

The proposed project area is located in the Magisterial District of Waterberg in the Limpopo Province, about 13 km west of the town of Northam and 80 km north of Rustenburg. The farm lies on the border between the North West and Limpopo Provinces and the proposed mining operation will stretch across the provincial border.

In terms of the recent changes in legislation, the DMR is the competent authority for the consideration of the applications for a mining right, environmental authorisation and a waste management licence. The Department of Water and Sanitation must consider the application for a water use licence.

Golder Associates Africa (Pty) Ltd, an independent environmental and engineering company, has been appointed to undertake the above authorisation processes on behalf of Samancor Chrome.

**INVITATION TO REGISTER AS INTERESTED AND AFFECTED PARTY AND TO COMMENT**

Subsequent to its previous application to the DMR, Samancor is required to undertake a re-submission of the above mentioned Draft Scoping Report, providing further opportunity for stakeholder input. Stakeholders are invited to register as Interested and Affected Parties (I&APs) and to participate in the above process by commenting on the Draft Scoping Report and/or identifying issues of concern and suggestions for enhanced benefits.

The Draft Scoping Report will be available for public review and comment for a period of 30 days from **Friday, 26 August 2016 to Monday, 26 September 2016**. # Frantic search for survivors

**ITALY:** HUNDREDS NOW CONFIRMED DEAD AND HUNDREDS MORE HURT IN POWERFUL QUAKE

» **Tale of heroism surfaces of gran saving young boys by hiding them under bed.**

## Accumoli

**T**he death toll from a powerful earthquake that shook central Italy rose to 247 yesterday, officials said, as rescuers desperately searched for survivors in the rubble of devastated mountain villages.

Hundreds of others were injured, some critically, and an unknown number were trapped under the ruins of collapsed buildings after Wednesday's pre-dawn quake.

Amid scenes of carnage, dozens of emergency services staff and volunteers were determined to attempt to pluck more survivors from the ruins.

Rescuers had pledged to work through the night in the hope of finding people alive in the mangled wreckage of homes.

Prime Minister Matteo Renzi had earlier warned that the toll would likely rise after visiting the badly hit village of Amatrice.

Hundreds of people spent a chilly night in hastily assembled tents with aftershocks making it too risky for them to return home.

Scores of buildings were reduced to dusty piles of masonry in communities close to the epicentre of the quake, which

had a magnitude of between 6.0 and 6.2.

It hit a remote area straddling Umbria, Marche and Lazio at a time of year when second-home owners and other visitors swell the numbers staying there. Many of the victims were from Rome.

The devastated area is just north of L'Aquila, the city where some 300 people died in another quake in 2009.

Most of the deaths occurred in and around the villages of Amatrice, Accumoli and Arquata del Tronto.

Guido Bordo, 69, lost his sister and her husband after they were trapped inside their holiday house in the hamlet of Illica, near Accumoli. "There's no sound from them, we only heard their cats," he said.

"I wasn't here. As soon as the quake happened, I rushed here. They managed to pull my sister's children out, they're in hospital now," he added, wringing his hands in anguish.

Among the victims was a nine-month-old baby girl whose parents survived, an 18-month-old toddler and two other young children who died with their parents in Accumoli.

Two boys aged four and seven were saved by their quick-thinking grandmother, who ushered them under a bed as soon as the shaking began, according to reports. She also survived but lost her husband.

Renzi said it was too early to consider what might have been done to prevent the

disaster. "Today is the time for tears and emotion," he said, vowing that his government would start reconstruction work yesterday.

"Half the village has disappeared," said Amatrice mayor Sergio Pirozzi, surveying a town centre that looked as if had been subjected to a bombing raid.

The tremors were strong enough to be felt 150km away in Rome, where authorities ordered structural tests on the Colosseum.

Some of the worst damage was in Pes-

cara del Tronto, a hamlet near Arquata in the Marche region where the bodies of the dead were laid out in a children's park.

With residents advised not to go back into their homes, temporary campsites were set up in Amatrice and Accumoli as authorities looked to find emergency accommodation for more than 2 000 people.

Amatrice was packed with visitors when the quake struck.

Three minutes later the clock on the village's 13th-century tower stopped. — AFP

## RE-APPLICATION BY SAMANCOR CHROME FOR A MINING RIGHT ENVIRONMENTAL AUTHORISATION WATER USE LICENCE AND WASTE MANAGEMENT LICENCE ON THE FARM VARKENSVLEI 403 KQ, NORTH-WEST PROVINCE – LP 30/5/1/2/3/2/1(0130) EM INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY AND COMMENT ON DRAFT SCOPING REPORT

On 12 August 2016 Samancor Chrome reapplied for a mining right on portions 0, 1 and 2 of the farm Varkensvlei 403 KQ. This application included both open cast and underground mining, and the ore will be processed by wet methods. In terms of the new EIA Regulations GN R.982/983/984/985 that commenced on 8 December 2014, an application for a mining right triggers an application for environmental authorisation, which must be supported by a scoping and impact assessment process and which must also be submitted to the Department of Mineral Resources (DMR). In terms of changes in the legislation on waste management (GN R.632/633) that commenced on 24 July 2015, Samancor Chrome must also apply for a waste management licence and a water use licence.

The proposed project area is located in the Magisterial District of Waterberg in the Limpopo Province, about 13 km west of the town of Northam and 80 km north of Rustenburg. The farm lies on the border between the North West and Limpopo Provinces and the proposed mining operation will stretch across the provincial border.

In terms of the recent changes in legislation, the DMR is the competent authority for the consideration of the applications for a mining right, environmental authorisation and a waste management licence. The Department of Water and Sanitation must consider the application for a water use licence. Golder Associates Africa (Pty) Ltd, an independent environmental and engineering company, has been appointed to undertake the above authorisation processes on behalf of Samancor Chrome.

### INVITATION TO REGISTER AS INTERESTED AND AFFECTED PARTY AND TO COMMENT

Subsequent to its previous application to the DMR, Samancor is required to undertake a re-submission of the above mentioned Draft Scoping Report, providing further opportunity for stakeholder input. Stakeholders are invited to register as Interested and Affected Parties (I&APs) and to participate in the above process by commenting on the Draft Scoping Report and/or identifying issues of concern and suggestions for enhanced benefits.

The Draft Scoping Report will be available for public review and comment for a period of 30 days from Friday, 26 August 2016 to Monday, 26 September 2016. ### RE-APPLICATION BY SAMANCOR CHROME FOR A MINING RIGHT ENVIRONMENTAL AUTHORISATION WATER USE LICENCE AND WASTE MANAGEMENT LICENCE ON THE FARM VARKENSVLEI 403 KQ, NORTH-WEST PROVINCE – LP 30/5/1/2/3/2/1(0130) EM INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY AND COMMENT ON DRAFT SCOPING REPORT

On 12 August 2016 Samancor Chrome reapplied for a mining right on portions 0, 1 and 2 of the farm Varkensvlei 403 KQ. This application included both opencast and underground mining, and the ore will be processed by wet methods. In terms of the new EIA Regulations GN R.982/983/984/985 that commenced on 8 December 2014, an application for a mining right triggers an application for environmental authorisation, which must be supported by a scoping and impact assessment process and which must also be submitted to the Department of Mineral Resources (DMR). In terms of changes in the legislation on waste management (GN R.632/633) that commenced on 24 July 2015, Samancor Chrome must also apply for a waste management licence and a water use license.

The proposed project area is located in the Magisterial District of Waterberg in the Limpopo Province, about 13 km west of the town of Northam and 80 km north of Rustenburg. The farm lies on the border between the North West and Limpopo Provinces and the proposed mining operation will stretch across the provincial border.

In terms of the recent changes in legislation, the DMR is the competent authority for the consideration of the applications for a mining right, environmental authorisation and a waste management licence. The Department of Water and Sanitation must consider the application for a water use licence.

Golder Associates Africa (Pty) Ltd, an independent environmental and engineering company, has been appointed to undertake the above authorisation processes on behalf of Samancor Chrome.

#### INVITATION TO REGISTER AS INTERESTED AND AFFECTED PARTY AND TO COMMENT

Subsequent to its previous application to the DMR, Samancor is required to undertake a re-submission of the above mentioned Draft Scoping Report, providing further opportunity for stakeholder input. Stakeholders are invited to register as Interested and Affected Parties (I&APs) and to participate in the above process by commenting on the Draft Scoping Report and/or identifying issues of concern and suggestions for enhanced benefits.

The Draft Scoping Report will be available for public review and comment for a period of 30 days from Friday, 26 August 2016 to Monday, 26 September 2016. The report, as well as a Registration and Comment Sheet, will be available at the public places listed below and also on the following website: [www.golder.com/public](http://www.golder.com/public).

**RE-APPLICATION BY SAMANCOR CHROME FOR A MINING RIGHT ENVIRONMENTAL  
AUTHORISATION WATER USE LICENCE AND WASTE MANAGEMENT LICENCE ON THE FARM  
VARKENSVLEI 403 KQ, NORTH-WEST PROVINCE – LP 30/5/1/2/3/2/1(0130) EM**

**INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED  
PARTY AND COMMENT ON DRAFT SCOPING REPORT**

On 12 August 2016 Samancor Chrome reapplied for a mining right on portions 0, 1 and 2 of the farm Varkensvlei 403 KQ. This application included both opencast and underground mining, and the ore will be processed by wet methods. In terms of the new EIA Regulations GN R.982/983/984/985 that commenced on 8 December 2014, an application for a mining right triggers an application for environmental authorisation, which must be supported by a scoping and impact assessment process and which must also be submitted to the Department of Mineral Resources (DMR). In terms of changes in the legislation on waste management (GN R.632/633) that commenced on 24 July 2015, Samancor Chrome must also apply for a waste management licence and a water use license.

The proposed project area is located in the Magisterial District of Waterberg in the Limpopo Province, about 13 km west of the town of Northam and 80 km north of Rustenburg. The farm lies on the border between the North West and Limpopo Provinces and the proposed mining operation will stretch across the provincial border.

In terms of the recent changes in legislation, the DMR is the competent authority for the consideration of the applications for a mining right, environmental authorisation and a waste management licence. The Department of Water and Sanitation must consider the application for a water use licence.

Golder Associates Africa (Pty) Ltd, an independent environmental and engineering company, has been appointed to undertake the above authorisation processes on behalf of Samancor Chrome.

**INVITATION TO REGISTER AS INTERESTED AND AFFECTED PARTY AND TO COMMENT**

Subsequent to its previous application to the DMR, Samancor is required to undertake a re-submission of the above mentioned Draft Scoping Report, providing further opportunity for stakeholder input. Stakeholders are invited to register as Interested and Affected Parties (I&APs) and to participate in the above process by commenting on the Draft Scoping Report and/or identifying issues of concern and suggestions for enhanced benefits.

The Draft Scoping Report will be available for public review and comment for a period of 30 days from **Friday, 26 August 2016 to Monday, 26 September 2016**. The report, as well as a Registration and Comment Sheet, will be available at the public places listed below and also on the following website: **www.golder.com/public**.
