Our ref: 1566/jp

To whom it may concern

Dear Sir or Madam:

**NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN THE ENVIRONMENTAL AUTHORISATION PROCESSES FOR THE PROPOSED HARMONY VALLEY TAILINGS STORAGE FACILITY PROJECT, IN MATJHABENG LOCAL MUNICIPALITY, FREE STATE, SOUTH AFRICA**

Harmony Gold Mining Company Limited (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to undertake the necessary environmental authorisation and associated consultation processes. EIMS will compile and submit the required documentation in support of applications for:

- Integrated Environmental Authorisation (EA) and Waste Management License (WML) in accordance with the National Environmental Management Act – NEMA (Act 107 of 1998)- Listed activity: Listing Notice 2, Activity 15 as well as the National Environmental Management: Waste Act – NEMWA (Act 59 of 2008)- Activity B11; and
- Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998). Water uses: Section 21 (c), Section 21 (i) and Section 21 (g).

The exact activities to be applied for will be confirmed during the process. Additional activities may be identified during the process. A full Scoping and Environmental Impact Assessment application process will be followed.

A new deposition site will be required for Harmony One Plant to replace the FSS2 and St. Helena 4 Tailings Storage Facilities by July 2024. Several alternative sites were identified and assessed as possible suitable deposition sites for the tailings from Harmony One Plant but were found not feasible. Following a review of other possibilities for the One Plant's future tailings deposition, an option to utilise the space between the Free State North 1 (FSN) and Free State North 2 (FSN) TSFs and portion of the footprint of the FSN4 TSF as shown in the map has been identified as a possible deposition site. The TSF will cover an area of approximately 1.24 km<sup>2</sup>. The proposed TSF will be located on Farm portions Rietpan 14 (O) and Ouders Gift 48 (O/RE).

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) and in the Water Use Licence Application and Appeals Regulations, 2017 (GNR 267 of 24 March 2017) for undertaking a Scoping and Environmental Impact Assessment (EIA) and WULA process. In accordance with Chapter 6 of the EIA Regulations Section 41 of the NWA, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and application/s. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest or any, in writing or telephonically, to EIMS no later than **10 May 2023**. Please note that only registered I&AP's will be informed of future project information and opportunities for participation.

By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at [www.eims.co.za/public-participation](http://www.eims.co.za/public-participation). In order to avoid missing out on opportunities for public participation please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, as soon as possible to EIMS at:

Ons ref: 1566/jp

Vir wie dit mag aangaan

Geagte Meneer of Mevrouw:

**KENNISGEWING MET BETREKKING TOT GELEENTHEID OM AAN DIE OMGEWINGSAANSOEKPROSESSE TE NEEM TE NEEM VIR DIE VOORGESTELDE HARMONY VALLEY TAILINGS STOORFASILITEITSPROJEK, IN MATJHABENG PLAASLIKE MUNISIPALITEIT, VRYSTAAT, SUID-AFRIKA.**

Harmony Gold Mining Company Limited (hierna na verwys as die aansoeker) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Omgewingsevalueringpraktisyn (EAP) aangestel om die nodige omgewingsmagtiging en gepaardgaande konsultasieprosesse te onderneem. EIMS sal die vereiste dokumentasie saamstel en indien ter ondersteuning van aansoeke vir:

- Geïntegreerde Omgewingsmagtiging (EA) en Afvalbestuurslisensie (WML) in ooreenstemming met die Nasionale Omgewingsbestuurswet – NEMA (Wet 107 van 1998)- Gelyste aktiwiteit: Noteringskennisgewing 2, Aktiwiteit 15 asook die Nasionale Omgewingsbestuur: Afvalwet – NEMWA (Wet 59 van 2008)- Aktiwiteit B11; en
- Watergebruiklisensie (WUL) in ooreenstemming met die Nasionale Waterwet – NWA (Wet 36 van 1998). Watergebruik: Artikel 21 (c), Artikel 21 (i) en Artikel 21 (g).

Die presiese aktiwiteite waarvoor aansoek gedoen moet word, sal tydens die proses bevestig word. Bykomende aktiwiteite kan tydens die proses geïdentifiseer word. 'n Volledige Omvang- en Omgewingsimpakstudie aansoekproses sal gevolg word.

'n Nuwe afsettingsterrein sal benodig word vir Harmony One-aanleg om die FSS2- en St. Helena 4-uitskotstoorsfasiliteite teen Julie 2024 te vervang. Verskeie alternatiewe terreine is geïdentifiseer en beoordeel as moontlike geskikte afsettingsterreine vir die uitskot van die Harmony One-aanleg, maar is gevind nie haalbaar. Na 'n hersiening van ander moontlikhede vir die Een Plant se toekomstige uitskotneerlegging, 'n opsie om die ruimte tussen die Vrystaat Noord 1 (VSN) en Vrystaat Noord 2 (VSN) TSF's en gedeelte van die voetspoor van die FSN4 TSF te benut soos getoon in die kaart is geïdentifiseer as 'n moontlike afsettingsterrein. Die TSF sal 'n gebied van ongeveer 1,24 km<sup>2</sup> dek. Die voorgestelde TSF sal geleë wees op Plaasgedeeltes Rietpan 14 (0) en Ouders Gift 48 (0/RE).

EIMS sal die prosedures volg soos omskryf in die Omgewingsimpakbepaling (OIB) Regulasies (GRN982 van 2014, soos gewysig) en in die Watergebruiklisensie Aansoek (WULA) en Appèlregulasies, 2017 (GNR 267 van 24 Maart 2017) vir die onderneem van Omvang- en Omgewingsimpakstudie en WULA proses. In ooreenstemming met Hoofstuk 6 van die OIB-regulasies en Artikel 41 van die NWA, sal 'n openbare deelnameproses onderneem word. U word hiermee uitgenooi om te registreer en kommentaar te lewer op die voorgestelde projek en aansoek/s. Om te verseker dat jy geïdentifiseer en geregistreer word as 'n B&GP en dat jou kommentaar vasgelê word, dien asseblief jou naam, kontakbesonderhede, die rede vir jou belangstelling of enige kommentaar, skriftelik of telefonies, by EIMS in teen nie later nie as die **10 Mei 2023**. Neem asseblief kennis dat slegs geregistreeerde B&GPe ingelig sal word oor toekomstige projekinligting en geleenthede vir deelname.

Deur as 'n B&GP te registreer, stem jy in tot die versameling en verwerking van jou persoonlike inligting soos per die EIMS Privaatheidskennisgewing beskikbaar by [www.eims.co.za/public-participation](http://www.eims.co.za/public-participation). Om te verhoed dat geleenthede vir publieke deelname misgeloop word, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse met betrekking tot hierdie aansoek, so gou moontlik in by EIMS by:

**NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN THE ENVIRONMENTAL AUTHORISATION PROCESSES FOR THE PROPOSED HARMONY VALLEY TAILINGS STORAGE FACILITY PROJECT, IN MATHJABENG LOCAL MUNICIPALITY, FREE STATE, SOUTH AFRICA.**

Harmony Gold Mining Company Limited (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to undertake the necessary environmental authorisation and associated consultation processes. EIMS will compile and submit the required documentation in support of applications for:

- Integrated Environmental Authorisation (EA) and Waste Management License (WML) in accordance with the National Environmental Management Act – NEMA (Act 107 of 1998)- Listed activity: Listing Notice 2, Activity 15 as well as the National Environmental Management: Waste Act – NEMWA (Act 59 of 2008)- Activity B11; and
- Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998). Water uses: Section 21 (c), Section 21 (i) and Section 21 (g).

The exact activities to be applied for will be confirmed during the process. Additional activities may be identified during the process. A full Scoping and Environmental Impact Assessment application process will be followed.

A new deposition site will be required for Harmony One Plant to replace the FSS2 and St. Helena 4 Tailings Storage Facilities by July 2024. Several alternative sites were identified and assessed as possible suitable deposition sites for the tailings from Harmony One Plant but were found not feasible. Following a review of other possibilities for the One Plant's future tailings deposition, an option to utilise the space between the Free State North 1 (FSN) and Free State North 2 (FSN) TSFs and portion of the footprint of the FSN4 TSF as shown in the map has been identified as a possible deposition site. The TSF will cover an area of approximately 1.24 km<sup>2</sup>. The proposed TSF will be located on Farm portions Rietpan 14 (O) and Ouders Gift 48 (O/RE).

As a potential interested and affected party, you are invited to register and comment on the project. In order to ensure that you are identified and registered as an Interested and Affected Party and that your comments are captured, please submit your name, contact details, the reason for your interest or any comments, in writing or telephonically, to EIMS. Please note that only registered I&AP's will be directly informed of future project information and opportunities for participation. In order to avoid missing out on opportunities for public participation please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, as soon as possible to EIMS.

**KENNISGEWING MET BETREKKING TOT GELEENTHEID OM AAN DIE OMGEWINGSAANSOEKPROSESSE TE NEEM TE NEEM VIR DIE VOORGESTELDE HARMONY VALLEY TAILINGS STORFASILITEITSPROJEK, IN MATHJABENG PLAASLIKE MUNISIPALITEIT, VRYSTAAT, SUID-AFRIKA.**

Harmony Gold Mining Company Limited (hierna na verwys as die aansoeker) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Omgewingsbeoordelingspraktisyn (EAP) aangestel om die nodige omgewingsmagtiging en gepaardgaande konsultasieprosesse te onderneem. EIMS sal die vereiste dokumentasie saamstel en indien ter ondersteuning van aansoek vir:

- Geïntegreerde Omgewingsmagtiging (EA) en Afvalbestuurslisensie (WML) in ooreenstemming met die Nasionale Omgewingsbestuurswet – NEMA (Wet 107 van 1998)- Gelyste aktiwiteit: Noteringskennisgewing 2, Aktiwiteit 15 asook die Nasionale Omgewingsbestuur: Afvalwet – NEMWA (Wet 59 van 2008)- Aktiwiteit B11; en
- Watergebruiklisensie (WUL) in ooreenstemming met die Nasionale Waterwet – NWA (Wet 36 van 1998). Watergebruik: Artikel 21 (c), Artikel 21 (i) en Artikel 21 (g).

Die presiese aktiwiteite waarvoor aansoek gedoen moet word, sal tydens die proses bevestig word. Bykomende aktiwiteite kan tydens die proses geïdentifiseer word. 'n Volledige Omvang- en Omgewingsimpakstudie aansoekproses sal gevolg word.

'n Nuwe afsettingsterrein sal benodig word vir Harmony One-aanleg om die FSS2- en St. Helena 4-uitskotstoorfasiliteite teen Julie 2024 te vervang. Verskeie alternatiewe terreine is geïdentifiseer en beoordeel as moontlike geskikte afsettingsterreine vir die uitskot van die Harmony One-aanleg, maar is gevind nie haalbaar. Na 'n hersiening van ander moontlikhede vir die Een Plant se toekomstige uitskotneerlegging, 'n opsie om die ruimte tussen die Vrystaat Noord 1 (VSN) en Vrystaat Noord 2 (VSN) TSF's en gedeelte van die voetspoor van die FSN4 TSF te benut soos getoon in die kaart is geïdentifiseer as 'n moontlike afsettingsterrein. Die TSF sal 'n gebied van ongeveer 1,24 km<sup>2</sup> dek. Die voorgestelde TSF sal geleë wees op Plaasgedeeltes Rietpan 14 (O) en Ouders Gift 48 (O/RE).

As 'n potensiële belanghebbende en geïntegreerde party word u uitgenooi om te registreer en kommentaar te lewer op die projek. Om te verseker dat jy geïdentifiseer en geregistreer word as 'n Belangstellende en Geïntegreerde Party en dat jou kommentaar vasgelê word, dien asseblief jou naam, kontakbesonderhede, die rede vir jou belangstelling of enige kommentaar, skriftelik of telefonies, by EIMS in. Neem asseblief kennis dat slegs geregistreerde B&GP's direk ingelig sal word oor toekomstige projekinligting en geleenthede vir deelname. Om te verhoed dat geleenthede vir publieke deelname misgeloop word, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse met betrekking tot hierdie aansoek, so gou moontlik by EIMS in.

**NON-GOVERNMENTAL ORGANIZATION****NOTICE 1743 OF 2023****NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN THE ENVIRONMENTAL AUTHORISATION PROCESSES FOR THE PROPOSED HARMONY VALLEY TAILINGS STORAGE FACILITY PROJECT, IN MATHJABENG LOCAL MUNICIPALITY, FREE STATE, SOUTH AFRICA**

Harmony Gold Mining Company Limited (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to undertake the necessary environmental authorisation and associated consultation processes. EIMS will compile and submit the required documentation in support of applications for:

- Integrated Environmental Authorisation (EA) and Waste Management License (WML) in accordance with the National Environmental Management Act – NEMA (Act 107 of 1998)- Listed activity: Listing Notice 2, Activity 15 as well as the National Environmental Management: Waste Act – NEMWA (Act 59 of 2008)- Activity B11; and
- Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998). Water uses: Section 21 (c), Section 21 (i) and Section 21 (g).

The exact activities to be applied for will be confirmed during the process. Additional activities may be identified during the process. A full Scoping and Environmental Impact Assessment application process will be followed.

A new deposition site will be required for Harmony One Plant to replace the FSS2 and St. Helena 4 Tailings Storage Facilities by July 2024. Several alternative sites were identified and assessed as possible suitable deposition sites for the tailings from Harmony One Plant but were found not feasible. Following a review of other possibilities for the One Plant's future tailings deposition, an option to utilise the space between the Free State North 1 (FSN) and Free State North 2 (FSN) TSFs and portion of the footprint of the FSN4 TSF as shown in the map has been identified as a possible deposition site. The TSF will cover an area of approximately 1.24 km<sup>2</sup>. The proposed TSF will be located on Farm portions Rietpan 14 (O) and Ouders Gift 48 (O/RE).

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) and in the Water Use Licence Application and Appeals Regulations, 2017 (GNR 267 of 24 March 2017) for undertaking a Scoping and Environmental Impact Assessment (EIA) and WULA process. In accordance with Chapter 6 of the EIA Regulations Section 41 of the NWA, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and application/s. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest or any, in writing or telephonically, to EIMS within 30 days of the publication of this notice. Please note that only registered I&AP's will be informed of future project information and opportunities for participation.

By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at [www.eims.co.za/public-participation](http://www.eims.co.za/public-participation). In order to avoid missing out on opportunities for public participation please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, as soon as possible to EIMS at:

**NIE-REGERINGSORGANISASIE****KENNISGEWING 1743 VAN 2023****KENNISGEWING MET BETREKKING TOT GELEENTHEID OM AAN DIE OMGEWINGSAANSOEKPROSESSE TE NEEM TE NEEM VIR DIE VOORGESTELDE HARMONY VALLEY TAILINGS STOORFASILITEITSPROJEK, IN MATHJABENG PLAASLIKE MUNISIPALITEIT, VRYSTAAT, SUID-AFRIKA.**

Harmony Gold Mining Company Limited (hierna na verwys as die aansoeker) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Omgewingsevalueringspraktisyn (EAP) aangestel om die nodige omgewingsmagtigings en gepaardgaande konsultasieprosesse te onderneem. EIMS sal die vereiste dokumentasie saamstel en indien ter ondersteuning van aansoeke vir:

- Geïntegreerde Omgewingsmagtiging (EA) en Afvalbestuurslisensie (WML) in ooreenstemming met die Nasionale Omgewingsbestuurswet – NEMA (Wet 107 van 1998)- Gelyste aktiwiteit: Noteringskennisgewing 2, Aktiwiteit 15 asook die Nasionale Omgewingsbestuur: Afvalwet – NEMWA (Wet 59 van 2008)- Aktiwiteit B11; en
- Watergebruiklisensie (WUL) in ooreenstemming met die Nasionale Waterwet – NWA (Wet 36 van 1998). Watergebruik: Artikel 21 (c), Artikel 21 (i) en Artikel 21 (g).

Die presiese aktiwiteite waarvoor aansoek gedoen moet word, sal tydens die proses bevestig word. Bykomende aktiwiteite kan tydens die proses geïdentifiseer word. 'n Volledige Omvang- en Omgewingsimpakstudie aansoekproses sal gevolg word.

'n Nuwe afsettingsterrein sal benodig word vir Harmony One-aanleg om die FSS2- en St. Helena 4-uitskotstoortasiteite teen Julie 2024 te vervang. Verskeie alternatiewe terreine is geïdentifiseer en beoordeel as moontlike geskikte afsettingsterreine vir die uitskot van die Harmony One-aanleg, maar is gevind nie haalbaar. Na 'n hersiening van ander moontlikhede vir die Een Plant se toekomstige uitskotneerlegging, 'n opsie om die ruimte tussen die Vrystaat Noord 1 (VSN) en Vrystaat Noord 2 (VSN) TSF's en gedeelte van die voetspoor van die FSN4 TSF te benut soos getoon in die kaart is geïdentifiseer as 'n moontlike afsettingsterrein. Die TSF sal 'n gebied van ongeveer 1,24 km<sup>2</sup> dek. Die voorgestelde TSF sal geleë wees op Plaasgedeeltes Rietpan 14 (0) en Ouders Gift 48 (0/RE).

EIMS sal die prosedures volg soos omskryf in die Omgewingsimpakbepaling (OIB) Regulasies (GRN982 van 2014, soos gewysig) en in die Watergebruiklisensie Aansoek (WULA) en Appèlregulasies, 2017 (GNR 267 van 24 Maart 2017) vir die onderneem van Omvang- en Omgewingsimpakstudie en WULA proses. In ooreenstemming met Hoofstuk 6 van die OIB-regulasies en Artikel 41 van die NWA, sal 'n openbare deelnameproses onderneem word. U word hiermee uitgenooi om te registreer en kommentaar te lewer op die voorgestelde projek en aansoek/s. Om te verseker dat jy geïdentifiseer en geregistreer word as 'n B&GP en dat jou kommentaar vasgelê word, dien asseblief jou naam, kontakbesonderhede, die rede vir jou belangstelling of enige kommentaar, skriftelik of telefonies, by EIMS binne 30 dae vanaf die publikasie van hierdie kennisgewing. Neem asseblief kennis dat slegs geregistreeerde B&GPe ingelig sal word oor toekomstige projekinligting en geleenthede vir deelname.

Deur as 'n B&GP te registreer, stem jy in tot die versameling en verwerking van jou persoonlike inligting soos per die EIMS Privaatheidskennisgewing beskikbaar by [www.eims.co.za/public-participation](http://www.eims.co.za/public-participation). Om te verhoed dat geleenthede

vir publieke deelname misgeloop word, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse met betrekking tot hierdie aansoek, so gou moontlik in by EIMS by:

# Comments and Responses 1566 Harmony Valley TSF

Ms Nokukhanya Gabela

Date 2023/04/20 Method Email

## Comment

Good day As discussed telephonically I am Nokukhanya from Bloem Water. You sent a notification to the former Sedibeng water that is now Bloem Water regarding the proposed project 1566. Bloem water would like seek clarity on the exact location of the proposed tailing dam, this is because we have an existing bulk water pipeline in the vicinity. We have been on site but would like someone on your side to confirm the exact position of the proposed dams. Please advise on your availability to be on site and we can plan accordingly. Regards

## Response

Dear Nokukhanya, Please note that your email has been received. As per our telephonic conversation, please forward me your concerns and I will relay the message to my project manager.

Date 2023/05/10 Method Email

## Comment

Good day Do we have an update on the email request below? Regards

## Response

Dear Nokukhanya, Thank you for your email. For some reason, your original message did not reach me as intended. I only received a blank email with your details, and nothing else. I've now had a chance to go through your message's content since the message was attached to this email. For your interest, I have included a Google Earth map, just to highlight the affected area. I think this will provide more clarity as to where the Valley TSF will be located. As illustrated, the Valley TSF is located between three other facilities (area marked in purple and pink). I think this should help to better understand the footprint of the project. Please let me know if the pipeline will be affected and if you need any other information in this regard.

## Comment

Good day Lucien Please see email below for your attention. Regards -----Original Message-----  
From: Tseliso Motsie<tselisom@bloemwater.co.za> Sent: Friday, 12 May 2023 12:32 To: Nokukhanya Gabela<nokukhanyag@bloemwater.co.za> Cc: Maweni Maduna<mawenim@bloemwater.co.za> Subject: FW: Project 1566 Good afternoon  
Nokukhanya, Your email below and the attachment refers. After receiving the attached map, myself and Mr. Maduna visited the site again. We inspected the site of the proposed tailings dam. According to our assessment, the bigger part of the proposed tailings dam is behind the two existing mine tailings dams, with a narrow portion extending towards our pipeline, but situated between the two existing mine tailings dams as indicated on the attached map. We measured the distance from the closest point of the proposed tailings dam to our existing pipeline and found it to be approximately 800m. We think that the proposed tailings dam is far enough not to affect our pipeline. Furthermore, we propose that the consultants provide us with designs and specifications of the proposed tailings dam, which should clarify acid water

## Response

Dear Nokukhanya, Your email has been received and comments and requests noted. Please note that additional assessments such as the Groundwater Impact Assessment is still underway, and this information will be provided in due course. I will add the included details to our I&AP database

# Comments and Responses 1566 Harmony Valley TSF

## Ms Nokukhanya Gabela

seepage effect on our pipeline for the worst-case scenario. These are required since our existing pipeline lies approximately 150m from one of the existing tailings dam in the vicinity. Acid water from that tailings dam has affected our pipeline in a way that is corroded and leaks from time to time. As an affected party (I&AP), please request that we be listed in their affected stake holder register and be notified of any developments and valuable information. Kind Regards

Attention MR LUCIEN JAMES. AS DISCUSSED TODAY 01 MAY 2023, ATTACHED FIND THE DOCUMENTATION SEND TO MR BEYERS NEL IN CONNECTION WITH THE NICK VAN DER WALT SHOOTING RANGE SITUATED ON OUDERS GIFT FARM 48 (O/RE). WILL PEASE LET ME KNOW IF YOU RECEIVED THIS E.MAIL IN GOOD ORDER. REGARDS

### Response

Dear sir, This is to confirm receipt of your email and the attached document. I will be adding your details to our database for further correspondence about this project.

Date 2023/05/03 Method Email

### Comment

This is in the middle of Ouder gift farm.

### Response

Dear sir, Thank you for the information provide. I've included an additional map which highlights the TSF footprint in pink and purple. I've also added a pin on the area where the shooting range is located, as per Harmony. I've relayed your information to Harmony who will be able to assist if you have any further concerns. In terms of this project, the proposed activities will not interfere with the continued operation of the shooting range.

Good day

As discussed telephonically I am Nokukhanya from Bloem Water. You sent a notification to the former Sedibeng water that is now Bloem Water regarding the proposed project 1566. Bloem water would like seek clarity on the exact location of the proposed tailing dam, this is because we have an existing bulk water pipeline in the vicinity. We have been on site but would like someone on your side to confirm the exact position of the proposed dams. Please advise on your availability to be on site and we can plan accordingly.

Regards

Dear Nokukhanya,

Your email has been received and comments and requests noted. Please note that additional assessments such as the Groundwater Impact Assessment is still underway, and this information will be provided in due course.

I will add the included details to our I&AP database.

Subject: FW: Project 1566

Good afternoon Nokukhanya,

Your email below and the attachment refers. After receiving the attached map, myself and Mr. Maduna visited the site again. We inspected the site of the proposed tailings dam. According to our assessment, the bigger part of the proposed tailings dam is behind the two existing mine tailings dams, with a narrow portion extending towards our pipeline, but situated between the two existing mine tailings dams as indicated on the attached map.

We measured the distance from the closest point of the proposed tailings dam to our existing pipeline and found it to be approximately 800m. We think that the proposed tailings dam is far enough not to affect our pipeline.

Furthermore, we propose that the consultants provide us with designs and specifications of the proposed tailings dam, which should clarify acid water seepage effect on our pipeline for the worst-case scenario. These are required since our existing pipeline lies approximately 150m from one of the existing tailings dam in the vicinity. Acid water from that tailings dam has affected our pipeline in a way that is corroded and leaks from time to time.

As an affected party (I&AP), please request that we be listed in their affected stake holder register and be notified of any developments and valuable information.

Kind Regards

Dear Nokukhanya,

Thank you for your email. For some reason, your original message did not reach me as intended. I only received a blank email with your details, and nothing else. I've now had a chance to go through your message's content since the message was attached to this email.

For your interest, I have included a Google Earth map, just to highlight the affected area. I think this will provide more clarity as to where the Valley TSF will be located. As illustrated, the Valley TSF is located between three other facilities (area marked in purple and pink). I think this should help to better understand the footprint of the project. Please let me know if the pipeline will be affected and if you need any other information in this regard.

KIND REGARDS

Dear Nokukhanya,

Thank you for your email. For some reason, your original message did not reach me as intended. I only received a blank email with your details, and nothing else. I've now had a chance to go through your message's content since the message was attached to this email.

For your interest, I have included a Google Earth map, just to highlight the affected area. I think this will provide more clarity as to where the Valley TSF will be located. As illustrated, the Valley TSF is located between three other facilities (area marked in purple and pink). I think this should help to better understand the footprint of the project. Please let me know if the pipeline will be affected and if you need any other information in this regard.

Subject: FW: Project 1566

Good afternoon Nokukhanya,

Your email below and the attachment refers. After receiving the attached map, myself and Mr. Maduna visited the site again. We inspected the site of the proposed tailings dam. According to our assessment, the bigger part of the proposed tailings dam is behind the two existing mine tailings dams, with a narrow portion extending towards our pipeline, but situated between the two existing mine tailings dams as indicated on the attached map.

We measured the distance from the closest point of the proposed tailings dam to our existing pipeline and found it to be approximately 800m. We think that the proposed tailings dam is far enough not to affect our pipeline.

Furthermore, we propose that the consultants provide us with designs and specifications of the proposed tailings dam, which should clarify acid water seepage effect on our pipeline for the worst-case scenario. These are required since our existing pipeline lies approximately 150m from one of the existing tailings dam in the vicinity. Acid water from that tailings dam has affected our pipeline in a way that is corroded and leaks from time to time.

As an affected party (I&AP), please request that we be listed in their affected stake holder register and be notified of any developments and valuable information.

Kind Regards

Good day

As discussed telephonically I am Nokukhanya from Bloem Water. You sent a notification to the former Sedibeng water that is now Bloem Water regarding the proposed project 1566. Bloem water would like seek clarity on the exact location of the proposed tailing dam, this is because we have an existing bulk water pipeline in the vicinity. We have been on site but would like someone on your side to confirm the exact position of the proposed dams. Please advise on your availability to be on site and we can plan accordingly.

Regards

Dear Nokukhanya,

Thank you for your email. For some reason, your original message did not reach me as intended. I only received a blank email with your details, and nothing else. I've now had a chance to go through your message's content since the message was attached to this email.

For your interest, I have included a Google Earth map, just to highlight the affected area. I think this will provide more clarity as to where the Valley TSF will be located. As illustrated, the Valley TSF is located between three other facilities (area marked in purple and pink). I think this should help to better understand the footprint of the project. Please let me know if the pipeline will be affected and if you need any other information in this regard.

Hi Sir,

Could you please forward me a map which demarcates the shooting range? I'd like to forward it, together with the letter to my project manager.

**Attachments:** Shooting Range map.jpg

Dear sir,

Thank you for the information provide. I've included an additional map which highlights the TSF footprint in pink and purple. I've also added a pin on the area where the shooting range is located, as per Harmony.

I've relayed your information to Harmony who will be able to assist if you have any further concerns. In terms of this project, the proposed activities will not interfere with the continued operation of the shooting range.

KIND REGARDS  
LUCIEN JAMES
