## Meeting Minutes

<b>Subject</b>	Pre-application Meeting for Gauteng Rapid Land Release Programme (GRLRP) - Unitas Park - Extension 16 and Evaton West - Project F, G, H and I, Gauteng Province
<b>Date</b>	19 August 2020
<b>Time</b>	10h00
<b>Attendance</b>	Dan Motaung (DM) (Gauteng Department of Agriculture and Rural Development) Boitshoko Buthelezi (BB) (Phumaf Holdings) Ngoni Gandiwa (NG) (Phumaf Holdings) Sikelela Mnguni (SM) (Phumaf Holdings) Gerda Bothma (GB) - GCS Water & Environmental Consultants Lehlogonolo Mashego (LM) - GCS Water & Environmental Consultants
<b>Apologies</b>	None

### 1. Introduction and Welcome

- GB welcomed all present and introduced the meeting as the Pre-application Meeting.
- A disclaimer was expressed of the session being recorded and that the meeting outcomes will further be shared (see Appendix 1).
- All attendees were requested to introduce themselves for the purpose of all parties being acquainted with the stakeholders involved and present.

### 2. Attendance Register and Apologies

- No apologies were received.

### 3. Discussion

- *Unitas Park - Extension 16*
  - Dan Motaung (DM) indicated that it is critical to include a Traffic Impact Assessment (TIA) and Geotechnical Assessment (GA) in addition to the proposed assessments. These assessments are also to be submitted to the department. It was since confirmed in the meeting that the assessments have been covered for the respective sites under the Engineering Assessments conducted and this will further be incorporated into the environmental application accordingly.
  - A great issue faced within Gauteng Province are the issues associated with waste (solid and liquid) and this is to be accounted for in the proposed developments. Maintenance and the available capacity needs to evidently allow for connections and

efficient connections into the municipal grid and to be able to handle the increase capacity.

- Ngoni Gandiwa (NG) indicated that the current proposal especially regarding this site is to make provision for a package plant to deal with the sewage issue and the expected flow will be large. Any associated impacts relevant to the Environmental Impact Assessment (EIA) are still to be verified at this stage.
- *Evaton West - Project F*
  - Include the applicable TIA and GA - DM
  - DM indicated that considering that there is an alleged drainage line traversing the site (natural drainage line) this will require a Storm Water Management Plan (SWMP). This needs to be submitted and drafted by a qualified Engineer or professional. The impacts associated with lack of storm water are vast in lower income communities, this is to be curbed and accounted for accordingly.
- *Evaton West - Project G*
  - Include the applicable TIA and GA - DM
  - DM noted that the Critical Biodiversity Areas (CBA) data is not to be omitted without further verifying with a qualifying Specialist. The site itself is evidently degraded and transformed and would not necessarily warrant any environmental protection. To this nature a Land-use application/enquiry detailing the site observations and sensitivities must be submitted to have the department confirm and accept the approach.
- *Evaton West - Project H*
  - Include the applicable TIA and GA - DM
  - DM noted again that the CBA data is not to be omitted without further verifying with a qualifying Specialist. The site itself is evidently degraded and transformed and would not necessarily warrant any environmental protection. To this nature a Land-use application/enquiry detailing the site observations and sensitivities must be submitted to have the department confirm and accept the approach.
- *Evaton West - Project I*
  - Include the applicable TIA and GA - DM
  - DM indicated that considering that there is an alleged drainage line traversing the site (natural drainage line) this will require a SWMP. DM indicated that the SWMP submitted to the municipality and to the department serve different purposes and this needs to be taken into consideration when submitting the respective reports.
- *Public Participation*
  - The intent of carrying out the public participation process (PPP) is in line with Chapter 6 of the National Environmental Management Act, 1998 (NEMA) (Act No. 107 of 1998) as amended and the Covid-19 response guidelines as issues on 05 June 2020. We have

since moved to Level 2 and as such, await on the updated guidelines to inform any changes to the way the PPP will be conducted.

- The proposed PPP will include virtual activities as far as possible.
- The proximity of the Evaton West sites will potentially work in the collectives' favour if a combined PPP is conducted and a separate process initiated for the Unitas Park site.
- Should a combined approach be followed then all interested and affected parties (I&APs) are to be included and ensure that the message gets through to all I&APs. This needs to be managed carefully whilst ensuring that it is efficiently carried out in accordance with the NEMA regulations. - DM
- Suggestion with regards to project announcement is not to start too early as the community's response, cannot be pre-empted should this be done. - DM

#### **4. General**

- Where there are wetlands and areas of sensitivity on site, the necessary buffer zones are to be applied. These need to be included in the Specialist Assessments - DM.
- Low-cost housing generally does not account for spacing and greening or functional open areas. This is a recommendation was provided by DM and it was since confirmed in the meeting that this is an added component proposed to be included in support of the developments. - DM

#### **5. Way Forward and Closure**

Action	Role	Date
Internal project team to regroup and pave the response from the meeting way	GCS + Phumaf	20 August 2020
Meeting minutes to be distributed accordingly	GCS	24 August 2020
Submit PPP plan for approval	GCS	28 August 2020
Combination approach of PPP must be submitted to department for approval	GCS	28 August 2020
Submit a Land-use Application/Enquiry	GCS	28 August 2020

Meeting was closed off at 11:10, the meeting outcomes will be shared accordingly, so comments and input may be shared for **three (3) days** from the date of receipt.

# **APPENDIX D2**

## NEMA Application

**Application Form for Environmental Authorisation in terms of National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2014 (Version 3)**

**For official use only**

NEAS Reference Number:  
Provincial Reference Number:  
Date Received:

**Kindly note that:**

1. This application form is current as of December 2014. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been published or produced by the competent authority.
2. This form must be used for an application(s) for Environmental Authorisation in terms of Chapter 4 of the Environmental Impact Assessment Regulations, 2014.
3. If, in addition to this application, you must also apply for a Waste Management License in terms of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) ("the Waste Act") and/or an Atmospheric Emission License in terms of the National Environmental: Air Quality Act, 2004 (Act No. 39 of 2004) ("NEM:AQA"), then separate application forms in terms of the applicable legislation must be completed and submitted simultaneously to the relevant licensing authorities, but a single EIA process must be undertaken. Copies of such applications must be attached to this Application Form. However, if the intention of the applicant is to undertake an Integrated Process (Integrated Authorisation), the applicant or the EAP is advised to seek guidance from the competent authority prior to commencing with the EIA process.
4. The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
5. The use of the phrase "**not applicable**" in the form must be done with circumspection. Should it be done in respect of material information required by the competent authority for assessing the application, it may result in the refusal of the application.
6. **Three copies** of this form must be submitted at the offices of the relevant competent authority as detailed below prior or simultaneously with the submission of the Basic Assessment Report or the Scoping and Environmental Impact Report.
7. **One hard copy and Two CDs-PDF of the Draft Reports (BAR, Scoping Report and EIR) for commenting purposes during public participation process must be submitted to the Department.**
8. No faxed or e-mailed applications shall be accepted. Only hand delivered, couriered or posted applications will be accepted
9. Unless protected by law, all information filed in on this application will become public information on receipt by the competent authority. Any interested and affected party should be provided with the information contained in this application on request, during any stage of the application process.

10. The environmental data collected as part of the assessment process (spatial, species, etc.) must be submitted to the department in electronic format. Spatial data should be in the format of zipped shapefiles in WGS 84 projection and an accompanying explanatory document or metadata. Species and other environmental data should be in a spreadsheet format clearly linked to the relevant spatial data (i.e. wetland species list linked to wetlands delineation). If submitting an application via EIA online system data can be upload there, if not using the EIA online system for an application the data should be zipped and emailed to [environmentdata@gauteng.gov.za](mailto:environmentdata@gauteng.gov.za). The shapefiles must be labelled / named using the GAUT reference number given and the type of data for the application (e.g. "GAUT002\_1819\_E0001\_wetlands" no spaces).

## 1. DEPARTMENTAL DETAILS

### Postal Address

Gauteng Department of Agriculture and Rural Development  
Attention: Deputy Director: Strategic Administrative Unit of the Sustainable Utilization of the Environment (SUE) Branch  
P. O. Box 8769  
Johannesburg  
2000

### Physical Address

Administrative Unit of the Sustainable Utilisation of the Environment (SUE) Branch  
Ground floor, Umnotho House, 58 Eloff Street  
Johannesburg

Queries should be directed to the Strategic Administrative Unit at:

Administrative Unit telephone number (011) 240 3377  
Departmental central telephone number (011) 240 2500

View the Department's website at [http:// www.gauteng.gov.za](http://www.gauteng.gov.za) for the latest version of the documents

## Application for Environmental Authorisation in terms of NEMA

Proof of payment must accompany this application. The application will not be processed without proof of payment unless one of the exclusions provided for in the fee Regulations is applicable AND such information in the exclusion section of this application form has been confirmed by this Department.

## 2. FEES

Gauteng Department of Agriculture and Rural Development' details for the payment of application fees

### Payment Enquiries:

Contact person: Boniswa Belot  
Tel: (011) 240 3377/3051  
Email: [Boniswa.Belot@gauteng.gov.za](mailto:Boniswa.Belot@gauteng.gov.za)

### Department Banking details:

Bank Name: FNB Bank  
Account Name: GPG Agriculture & Rural - Supp acc

**APPLICATION**

Account Number: 62305766878  
 Branch Name and Number: Commercial Account Services – 210-554  
 Reference number: Project Reference Number (to be obtained from the Department) followed by 4 Xs e.g. GAUT0021920I0001XXXX (please note that this bank account has a transaction rule with a 20 alpha/numeric reference, filled with X, quote this reference number when making payment)

Application form to be submitted with proof of payment attached- Annexure 1

Tax exemption status:  
 Status: Tax Exempted

**EXCLUSIONS**

An applicant is excluded from paying fees if:

- The activity is a community based project funded by a government grant; or
- The applicant is an organ of state.

Applicants are required to tick the appropriate box below to indicate that either proof of payment is attached or that, in the applicant's view, exclusion applies. Proof and a motivation for exclusions must be attached to this application form as Annexure 2.

Proof attached

Exclusion applies

TYPE OF EXCLUSION	Tick where applicable. Proper motivation must be attached to the application
The activity is a community based project funded by a government grant	√
The applicant is an organ of state	√

**FEE AMOUNT**

Application	Fee
Applications for an environmental authorisation for which basic assessment is required in terms of the Environmental Impact Assessment Regulations	R2 000
Application for an environmental authorisation, for which S&EIR is required in terms of the Environmental Impact Assessment Regulations	R10 000

**1. BACKGROUND INFORMATION**

**Project applicant Details**

Project applicant:	Department of Human Settlements (DHS)		
Trading name (if any):	Department of Human Settlements (DHS) - Provincial		
Responsible position, e.g. Director, CEO, etc.:	Project Director, Rapid Land Release Programme Planning and Property Management		
Contact person:	Daniel Molokomme		
Postal address:	Private Bag X79, Marshalltown		
Postal code:	2001	Cell:	-
Telephone:	011 085 2593	Fax:	011 355 6211
E-mail:	<a href="mailto:Daniel.Molokomme@gauteng.gov.za">Daniel.Molokomme@gauteng.gov.za</a>		

Please duplicate the above section in instances where there is more than one applicant.

**Local Municipality Details**

Local municipality:	Emfuleni Local Municipality		
Contact person:	Ms Nomvula Thulo		
Postal address:	PO Box 3, Vanderbijlpark		
Postal code:	1900	Cell:	-
Telephone:	016 440 7628	Fax:	016 950 5050
E-mail:	<a href="mailto:NomvulaT@emfuleni.gov.za">NomvulaT@emfuleni.gov.za</a>		

Please duplicate the above section in instances where there is more than one Municipality.

**Land Owner Details**

Land owner:	Department of Human Settlements (DHS) - Gauteng Provincial Government		
Contact person:	Daniel Molokomme		
Postal address:	Private Bag X79, Marshalltown		
Postal code:	2001	Cell:	-
Telephone:	011 085 2593	Fax:	011 355 6211
E-mail:	<a href="mailto:Daniel.Molokomme@gauteng.gov.za">Daniel.Molokomme@gauteng.gov.za</a>		

Please duplicate the above section in instances where there is more than one landowner. Consent use form in Addendum 1 must be filled if the applicant is not landowner or person in control of the land where the development will / is taking place. Further, the above section must be duplicated in instances where there is more than one landowner.

**Environmental Assessment Practitioner (EAP) Details**

Professional affiliation/registration:	SACNASP Pr.Sci.Nat		
Contact person (EAP):	Ms Gerda Bothma		
Company:	GCS Water and Environmental Consultants (Pty) Ltd		
Postal address:	PO Box 2597, Rivonia		
Postal code:	2128	Cell:	082 322 6806
Telephone:	011 803 5726	Fax:	011 803 5745
E-mail:	<a href="mailto:gerdab@gcs-sa.biz">gerdab@gcs-sa.biz</a>		

**2. PROJECT INFORMATION**

**Project Title:**

Gauteng Rapid Land Release Programme (GRLRP) – Unitas Park Extension 16

**Scope of the Activity:**

The Gauteng Rapid Land Release Programme (GRLRP) aims to fast track the release of serviced stands from state-owned land to qualifying beneficiaries. Phumaf Holdings was appointed to assist the Department of Human Settlements, Water and Sanitation with all pre-planning, planning work, design and construction management to enable the release of the identified stands.

GCS Water and Environmental Consultants (Pty) Ltd has been contracted by Phumaf Holdings (Pty) Ltd to undertake the environmental authorization processes required for the stands in order for compliance to the National Environmental Management Act (NEMA) (Act 107 of 1998, as amended).

The site is approximately 149 hectares in extent. Refer to **Annexure 3** for the Locality and Regional maps respectively, indicating the surrounding residential allotment townships. Unitas Park is inside of the 2010 urban edge. The site is zoned as "agriculture".

**Application Process Followed**

(BA OR Scoping & EIA)

Scoping and Environmental Impact Assessment

**Other Authorisations Required**

LEGISLATION	AUTHORISATION REQUIRED		APPLICATION SUBMITTED	
	YES	NO	YES	NO
<b>SEMA's</b>				
National Environmental Management: Air Quality Act				
National Environmental Management: Biodiversity Act				
National Environmental Management: Integrated Coastal Management Act				
National Environmental Management: Protected Areas Act				
National Environmental Management: Waste Act				
<b>National legislation</b>				
Mineral Petroleum Development Resources Act				
National Water Act				
National Heritage Resources Act				
Others: Please specify				

Please provide proof of any authorisations obtained in terms of the above as Annexure 6.

**Property Description**

Description of the property/properties where activity is proposed to be undertaken:	Unitas Park Ext. 16 is located within Unitas Park, to the north east of the R54 (Houtkop Road). The R82 is runs north-south approximately 2.3 km to the east of the site. The N1 is about 11 km to the north west of the site. Sebokeng lies to the north west of the site, with Vereeniging to the south. The R59 is runs from Vereeniging to Meyerton in the north west of the site. The site is currently vacant, with immediate adjacent land portions also being vacant.		
Farm/ Erf name(s) & number(s) (including portion/ holding) of all proposed sites:	Erf 2630 Farm Houtkop IQ 594		
Property size(s)(ha) of all proposed sites	149ha		
Property size(s) (m <sup>2</sup> ) of all proposed sites:	1490000 m <sup>2</sup>		
Development footprint size(s) in ha/m <sup>2</sup> :	As above.		
SG Digit code(s) of all proposed sites:	T0IQ0000000059400225		
Coordinates of all proposed sites:	Latitude (S)	26° 37'	31.07"
	Longitude (E)	27° 54'	10.83"

**Note:** Coordinates must be provided in degrees, minutes and seconds using the Hartebeesthoek94 WGS84 co-ordinate system. Where numerous properties/sites are involved (e.g. linear activities), please attach a list of property descriptions separately.

<b>Physical/Street address of proposed sites:</b>	Erf 2630, Skippie Botha and Langraad Roads.
<b>Current Zoning of site(s)</b>	Agriculture

**Orientation Maps**

<b>Locality map:</b>	<p>A locality map must be attached to the application form as <b>Annexure 3</b>, as an Appendix. The scale of the locality map must be at least 1:50 000. For linear activities of more than 25 kilometres, a smaller scale e.g. 1:250 000 can be used. The scale must be indicated on the map. The map must include the following:</p> <ul style="list-style-type: none"> <li>• an accurate indication of the project site position as well as the positions of the alternative sites, if any;</li> <li>• road names or numbers of all the major roads as well as the roads that provide access to the site(s)</li> </ul>
----------------------	--

## APPLICATION

Application Form for Environmental Authorisation in terms of National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2014 (Version 3)

- a north arrow;
- a legend;
- the prevailing wind direction; and
- GPS co-ordinates (Indicate the position of the proposed activity with the latitude and longitude at the centre point for each alternative site. The co-ordinates should be in degrees and decimal minutes. The minutes should be to at least three decimal places. The projection that must be used in all cases is the WGS-84 spheroid in a national or local projection)
- the locality map and all other maps which must be in colour;
- locality map showing property boundaries and numbers within 100m of the site, and for poultry and/or piggery, locality map showing properties within 500m and prevailing or predominant wind direction;
- the 1m contour intervals for gentle slopes must be indicated on the plan and whenever the slope of the site exceeds 1:10, the 500mm contours must be indicated on the plan;
- areas with indigenous vegetation (even if it is degraded or infested with alien species);
- locality map must show exact position of development site or sites;
- locality map showing and identifying (if applicable) public and access roads; and
- the current land use as well as the land use zoning of each of the properties adjoining the site or sites.

Note that separate maps can be used in the event it is not feasible have all the information on one map.

Should any activities in GN R. 985 be applied for, please provide a map indicating the triggering area (e.g. Critical Biodiversity Area, Protected Area, etc.) overlaid by the study area as **Annexure 4-1**. In addition, a Screening Report and Departmental Screening Report have been included as **Annexure 4-2**.

**3. ACTIVITY INFORMATION**

**Activity(s) Applied For**

An application may be made for more than one listed or specified activity that, together, make up one development proposal. All the listed activities that make up this application must be listed below.

Indicate the number of the relevant Government Notice:	Activity No (s) (relevant notice): e.g. Listing notices 1, 2 or 3	Describe each listed activity as per the wording in the listing notices:
GN R327, 07 April 2017 – Listing Notice 1	<b>12</b> The development of – (ii) infrastructure or structures with a physical footprint of 100m <sup>2</sup> or more; where such development occurs – (c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse.	The proposed site occurs within 32 metres of a water resource.
GN R327, 07 April 2017 – Listing Notice 1	<b>25</b> The development and related operation of facilities or infrastructure for the treatment of effluent, wastewater or sewage with a daily throughput capacity of more than 2 000 cubic metres but less than 15 000 cubic metres.	The development of a sewage treatment package plant which is estimated at being phased in two phases with an expected capacity of 10 mega-litres respectively.
GN R327, 07 April 2017 - Listing Notice 1	<b>27</b> The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation.	Site clearance of indigenous vegetation highly likely to exceed 1 ha.
GN R327, 07 April 2017 - Listing Notice 1	<b>28</b> Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.	Site is 149ha in extent and currently zoned for agriculture.
GN R325, 07 April 2017 – Listing Notice 2	<b>6</b> The development of facilities or infrastructure for any process or activity which requires a permit or licence or an amended permit or licence in terms of national or provincial legislation governing the generation or release of emissions, pollution or effluent.	The development proposes to exceed a daily throughput capacity of 2 000 cubic meters.
GN R325, 07 April 2017 – Listing Notice 2	<b>15</b> The clearance of 20 hectares or more of indigenous vegetation.	The site is 149ha in extent. It is likely that indigenous vegetation is to be cleared in excess of 20 ha.
GN R325, 07 April 2017 – Listing Notice 2	<b>25</b> The development and related operation of facilities or infrastructure for the treatment of effluent, wastewater or sewage with a daily throughput capacity of 15 000 cubic metres or more.	The development of a sewage treatment package plant which is estimated at being phased in two parts with an expected capacity of

		10 mega-litres respectively, i.e. potential total of 20 000 cubic metres.
GN R324. 07 April 2020 – Listing Notice 3	<b>4</b> The development of a road wider than 4 metres with a reserve less than 13,5 metres. c. Gauteng vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority; vii. Sites identified as high potential agricultural land in terms of Gauteng Agricultural Potential Atlas; xii. Sites zoned for conservation use or public open space or equivalent zoning.	The site is zoned for agriculture and is classified as having a very high sensitivity in respect to the terrestrial biodiversity. Soweto Highveld Grassland = Vu.
GN R324. 07 April 2020 – Listing Notice 3	<b>12</b> The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan. c. Gauteng iii. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.	Site is in 149ha in extent, currently zoned for agriculture and it is highly likely that indigenous vegetation of more than 300 m <sup>2</sup> will be cleared.
GN R324. 07 April 2020 – Listing Notice 3	<b>14</b> The development of – (ii) infrastructure or structures with a physical footprint of 10 square metres or more; where such development occurs— (c) if no development setback has been adopted, within 32 metres of a watercourse, measured from the edge of a watercourse; excluding the development of infrastructure or structures within existing ports or harbours that will not increase the development footprint of the port or harbour. c. Gauteng vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority; x. Sites zoned for conservation use or public open space or equivalent zoning.	Site is in close proximity of NFEPA system, is currently zoned as agriculture and falls within a very high sensitivity of terrestrial biodiversity due to a vulnerable ecosystem.
GN R324. 07 April 2020 – Listing Notice 3	<b>15</b> The transformation of land bigger than 1000 square metres in size, to residential, retail, commercial, industrial or institutional use, where, such land was zoned open space, conservation or had an equivalent zoning, on or after 02 August 2010. b. Gauteng i. All areas.	The site is 149ha in extent and is currently zoned as agriculture.

Please note that any authorisation that may result from this application will only cover activities applied for.

**Sector Based Project Description**

Please indicate which sector the project falls under by crossing out the relevant block in the table below:

Green economy + "Green" and energy-saving industries		Greenfield transformation to urban or industrial form	
Infrastructure – electricity (generation, transmission & distribution)		Biodiversity or sensitive area related activities	
Biofuels		Potential of metal fabrication capital & transport equipment – arising from large public investments	
Basic services (local government) – electricity and electrification		Boat building	
Basic services (local government) – area lighting		Manufacturing – automotive products and components, and medium and heavy commercial vehicles	
Infrastructure – transport (roads, land strips)		Manufacturing – plastics, pharmaceuticals and chemicals	
Basic services (local government access roads)		Manufacturing – clothing textiles, footwear and leather	
Basic services (local government) – public transport		Forestry, paper, pulp and furniture	
Infrastructure – water (bulk and reticulation)		Business process servicing	
Basic services (local government) – sanitation		Basic services (local government) – education	
Basic services (local government) – waste management		Basic services (local government) – health	
Agricultural value chain + agro-processing (linked to food security and food pricing imperatives)		Basic services (local government) – housing	
Infrastructure – information and communication technology		Basic services (local government) security of tenure	
Tourism + strengthening linkages between cultural industries and tourism		Other	
Basic services (local government) – public open spaces and recreational facilities			

**4. GUIDELINES**

**4.1 Gauteng Pollution Buffer Zones Guideline, March 2017**

Where applicable, the developer must incorporate the Pollution Buffers in the planning and design of the development to protect people and the environment from harmful/toxic emissions. The decision on the buffer size to be maintained is subject to a Departmental review process. The buffers are as follows:

BUFFER GUIDELINES	TICK WHERE APPLICABLE
Best case buffer of 1500m and worst case buffer of 750m must be maintained in <u>Category 1 industries</u> , such as Sasol, Arcelor Mittal, Scaw Metal, Eskom power stations etc. as per paragraph 6.2.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.	N/A
Best case buffer of 500m and worst case buffer of 250m must be maintained in <u>Category 2 industries</u> , such as container depot in City Deep, panel beater workshops, tanneries etc. as per paragraphs 6.2.2 and 7.1 of the Gauteng Pollution Buffer Zones Guidelines, March 2017.	N/A
Best case buffer of 100m and worst case buffer of 50m must be maintained in <u>Category 3 industries</u> , such as warehousing and distribution operations as per paragraphs 6.2.3 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.	N/A
Best case buffer of 800m and worst case buffer of 500m must be maintained for <u>Sewage treatment works</u> as per paragraphs 6.2.4 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.	√
Landfill sites have the following Maximum Buffer sizes as per paragraphs 6.2.5 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017: <b>Class A is 2000m</b> <b>Class B is 1000m</b> (where Class B accepts hazardous waste, the buffer is 2000m) <b>Class C is 400m</b> <b>Class D is 200m</b>	N/A
Best case buffer of 100m and worst case buffer of 0m must be maintained for <u>Mine Dumps</u> (rock dumps or stockpiles) as per paragraphs 6.2.6 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.	N/A
Best case buffer of 1000m and worst case buffer of 500m must be maintained for <u>Mine Slimes Dams and Ash Dumps</u> as per paragraphs 6.2.7 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.	N/A
Best case buffer of 5000m and worst case buffer of 2000m must be maintained for the <u>Pelindaba Nuclear Facility Complex</u> as per paragraphs 6.2.8 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.	N/A
The Gauteng Pollution Buffer Zones Guideline is not applicable to my development.	√

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial statements and for providing a clear audit trail.

2. The second part of the document outlines the various methods used to collect and analyze data. It includes a detailed description of the sampling techniques employed, as well as the statistical tests used to evaluate the results.

3. The third part of the document provides a comprehensive overview of the findings of the study. It discusses the implications of the results and offers recommendations for future research and practice.

4. The fourth part of the document contains a list of references to the literature cited in the study. This includes both academic journals and books, providing a solid foundation for the research.

5. The fifth part of the document is a conclusion that summarizes the key points of the study and reiterates the importance of the findings.

6. The sixth part of the document is an appendix that provides additional information and data that are not included in the main body of the text.

7. The seventh part of the document is a glossary of terms used throughout the study, ensuring that all readers have a clear understanding of the terminology.

8. The eighth part of the document is a list of figures and tables, providing a visual representation of the data and results.

9. The ninth part of the document is a list of abbreviations used in the study, ensuring that all readers can understand the shorthand used in the text.

10. The tenth part of the document is a list of acknowledgments, thanking those who have supported the research and provided valuable feedback.

THE UNIVERSITY OF  
 THE SOUTH PACIFIC  
 SUVA, FIJI

DEPARTMENT OF  
 ACCOUNTING  
 SUVA, FIJI

**WASTE**

What approaches will be adopted to minimise quantities of waste generated and disposed of such as waste separation at source to enable reuse, reduction, recovery and recycling.

Waste reduction through recycling at source will be encouraged to reduce the waste pile (e.g. bottles, tins and paper and cardboard) however given the nature of the development, it is not expected that there will be a huge reduction in volume.

Further information will be provided in the Scoping Report.

If not, state the reasons why your development will not explore and achieve waste reduction and separation at source.

-

**DESIGN/LAYOUT OF DEVELOPMENT**

How will the design or layout of the development facilitate resource efficiency (i.e. orientation or location of development) through all phases?

Please refer to comment pertaining energy efficiency.

Further information will be provided in the Scoping Report.

If not, state the reasons why your development will not explore various layouts/designs to achieve resource efficiencies.

-

**MATERIALS**

In which phase of the development will the use of virgin materials be substituted with recycled/reused materials to reduce costs and emission of GHG while promoting environmentally friendly developments?

Construction phase as far as practically possible.

If not, state the reasons why your development will not explore and achieve materials efficiencies.

-

## 5. PUBLIC PARTICIPATION PROCESS

If public participation process and other aspects of EIA process had already been undertaken prior to submission of this application form to the competent authority, a summary of public participation processes and steps followed to date must be described in the table below.

According to the Permitting Directions (GNR 650, 05 June 2020) published in terms of the Disaster Management Act (Act 57 of 2002) regarding the measures to address, prevent and combat the spread of COVID-19 relating to National Environmental Management Permits and Licenses, by the Department of Environment, Forestry and Fisheries (DEFF), it is stipulated that a public participation process plan (PPPP) needs to be compiled and submitted to the Competent Authority (CA) prior to commencing with the public participation process contemplated in Chapter 6 of the 2014 EIA Regulations (as amended). Subsequent to the issued directive, the submission of the PPPP is no longer required by the department due to the relaxation of the alert level. The confirmation from the competent authority in this regard is appended as **Annexure 7-1**. It is to be noted that no stakeholder engagement has been conducted to date and further details regarding the PPP progress and engagement details will be included in the Scoping Report. Note that the consultation process will be undertaken in accordance with the requirements stipulated in Chapter 6 of the EIA Regulations.

Additionally, a pre-application meeting has been held for the proposed development see **Annexure 7.2** for meeting outcomes.

**6. SOCIO-ECONOMIC VALUES**

Provide details on the anticipated socio-economic values associated with the proposed project

Anticipated CAPEX of the project on completion

What is the expected capital value of the activity on completion?

What is the expected yearly income that will be generated by or as a result of the activity?

Will the activity contribute to service infrastructure?

Will the activity contribute to a public amenity?

Total number of new employment opportunities to be created in the **construction phase** of this activity.

Of these opportunities how many are:

Women

**People with disabilities**

Female

Male

**Youth**

Female

Male

What is the expected value of the employment opportunities during the construction phase?

What percentage of this will accrue to previously disadvantaged individuals?

How many new skilled employment opportunities created in the construction phase of the project?

How many new un-skilled employment opportunities created in the construction phase of the project?

Total number of new employment opportunities to be created in the **operational phase** of this activity.

Of these opportunities how many are:

Women

**People with disabilities**

Female

Male

**Youth**

Female

Male

What is the expected current value of the employment opportunities during the first 10 years?

What percentage of this will accrue to previously disadvantaged individuals?

How many new skilled employment opportunities created in the operational phase of the project?

How many un-skilled employment opportunities created in the operational phase of the project?

**Need and desirability of the activity**

Motivate and explain the need and desirability of the activity (including demand for the activity):

The land release plan is aimed at prioritizing the release of land and identifying land parcels that are currently not in use. Releasing these land parcels will provide an opportunity for the province to rapidly transform its economy to include small businesses in all sectors, including that of urban agriculture.

Indicate any benefits that the activity will have for society in general:

Released land will address housing, economic, social cohesion and agricultural needs. Land will, in addition, also be made available for people who want to build houses for themselves, as well as for urban agriculture, township businesses, sports and recreational purposes.

Indicate any benefits that the activity will have for the local communities where the activity will be located:

Temporal work opportunities during the construction phase and opportunities for small enterprises

**7. LIST OF ANNEXURES**

		YES	N/A
Annexure 1	Proof of payment of a fee for this application		
Annexure 2	Proof and a motivation for exclusions from paying a fee		
Annexure 3-1	Locality map		
Annexure 3-2	Regional map		
Annexure 4-1	Geographical area map triggering a listed		
Annexure 4-2	Screening Reports		
Annexure 5	Project schedule		
Annexure 6	Proof by way of copies of Environmental Authorisations obtained for the same property or submission of such applications		
Annexure 7-1	Public participation process plan		
Annexure 7-2	Pre-application Meeting Minutes		
Addendum 1	Consent use of land form		
Addendum 2	Declaration by the applicant		
Addendum 3	Declaration by the environmental assessment practitioner		

**ADDENDUM 1**

**Note: This section is not applicable as the Landowner is the applicant as well.**

**8. CONSENT USE**

Consent in terms of Regulation 39 of the 2014 NEMA EIA Regulations by the landowner or person in control of the land that the proposed activity/ies may be undertaken on the land in question

**When to use this form**

Note: This form must be completed when an application for amendment in terms of the 2014 NEMA EIA Regulations is submitted where the proposed amendment will impact on the activity undertaken/to be undertaken on the land or if the amendment relates to the transfer of rights and obligations.

**Notes for completing and submitting this form**

- (1) This form is current as of December 2014. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been released by the Department.
- (2) This form must be attached to the application form for amendment.
- (3) Unless protected by law, all information contained in the form will become public information.

**ADDENDUM 2**

**9. DECLARATIONS**

**DECLARATION OF THE APPLICANT**

I **Daniel Molokomme**, declare under oath that I -

- am, or represent, the applicant in this application for **Gauteng Rapid Land Release Programme, Unitas Park – Extension 16**;
- have appointed / will appoint (delete that which is not applicable) an Environmental Assessment Practitioner (EAP) to act as the independent EAP for this application
- will provide the EAP and the competent authority with access to all information at my disposal that is relevant to the application;
- will be responsible for the costs incurred in complying with the Regulations, including but not limited to -
  - costs incurred in connection with the appointment of the EAP or any person contracted by the EAP;
  - costs incurred in respect of the undertaking of any process required in terms of the Regulations;
  - costs in respect of any fee prescribed by the Minister or MEC in respect of the Regulations;
  - costs in respect of specialist reviews, if the competent authority decides to recover such costs; and
  - the provision of security to ensure compliance with conditions attached to an environmental authorisation, should it be required by the competent authority;
- will ensure that the EAP is competent to undertake the EIA process with respect to this application and that the EAP-
  - know the Act and the regulations, and how they apply to the proposed development
  - know any applicable guidelines and policies
  - performs the work objectively, even if the findings do not favour the applicant
  - disclose all information which is important to the application and the proposed development
- will inform all registered I&APs of any decisions taken by the competent authority in this regard;
- am responsible for complying with the conditions of any environmental authorisation issued by the competent authority;
- hereby indemnify the Government of the Republic, the competent authority and all its officers, agents and employees, from any liability arising out of the content of any report, any procedure or any action which the applicant or EAP is responsible for in terms of these Regulations;
- will not hold the competent authority responsible for any costs that may be incurred by the applicant in proceeding with an activity prior to obtaining an environmental authorisation or prior to an appeal being decided in terms of these Regulations;
- will perform all other obligations as expected from an applicant in terms of the Regulations;
- all the particulars furnished by me in this form are true and correct; and
- realise that a false declaration is an offence in terms of the EIA Regulations, 2014 and the NEMA.

**ADDENDUM 3**

**10. DECLARATION OF THE EAP**

I **Gerda Bothma**, declare that -

- I act as the independent environmental practitioner<sup>1</sup> in this application for **Gauteng Rapid Land Release Programme: Unitas Park – Extension 16**;
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant
- I declare that there are no circumstances that may compromise my objectivity in performing such work;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, Regulations and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, Regulations and all other applicable legislation, policies and guidelines;
- I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing - any decision to be taken with respect to the application by the competent authority; and - the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;
- I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public at large and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties, state department and competent authority will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;
- I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;
- I will keep a register of all interested and affected parties that participated in a public participation process; and
- all the particulars furnished by me in this form are true and correct;
- I will perform all other obligations as expected from an environmental assessment practitioner in terms of the Regulations; and

<sup>1</sup> In the event where the EAP or specialist is not independent (Regulation 13(2) and (3) of the EIA Regulations, 2014), the proponent or applicant must, prior to conducting public participation, appoint another EAP or specialist which meets all the general requirements including being independent, to externally review all work undertaken by the EAP or specialist, at the applicant's cost appointed to manage the application.

Annexure 1  
Proof of payment of a fee for this application

## Proof of Payment Exclusion

Environmental authorisation (EA) application form does not include a proof of payment, the motivation for the exclusion is provided in Annexure 2.

Annexure 2  
Proof and a motivation for exclusions from paying a fee

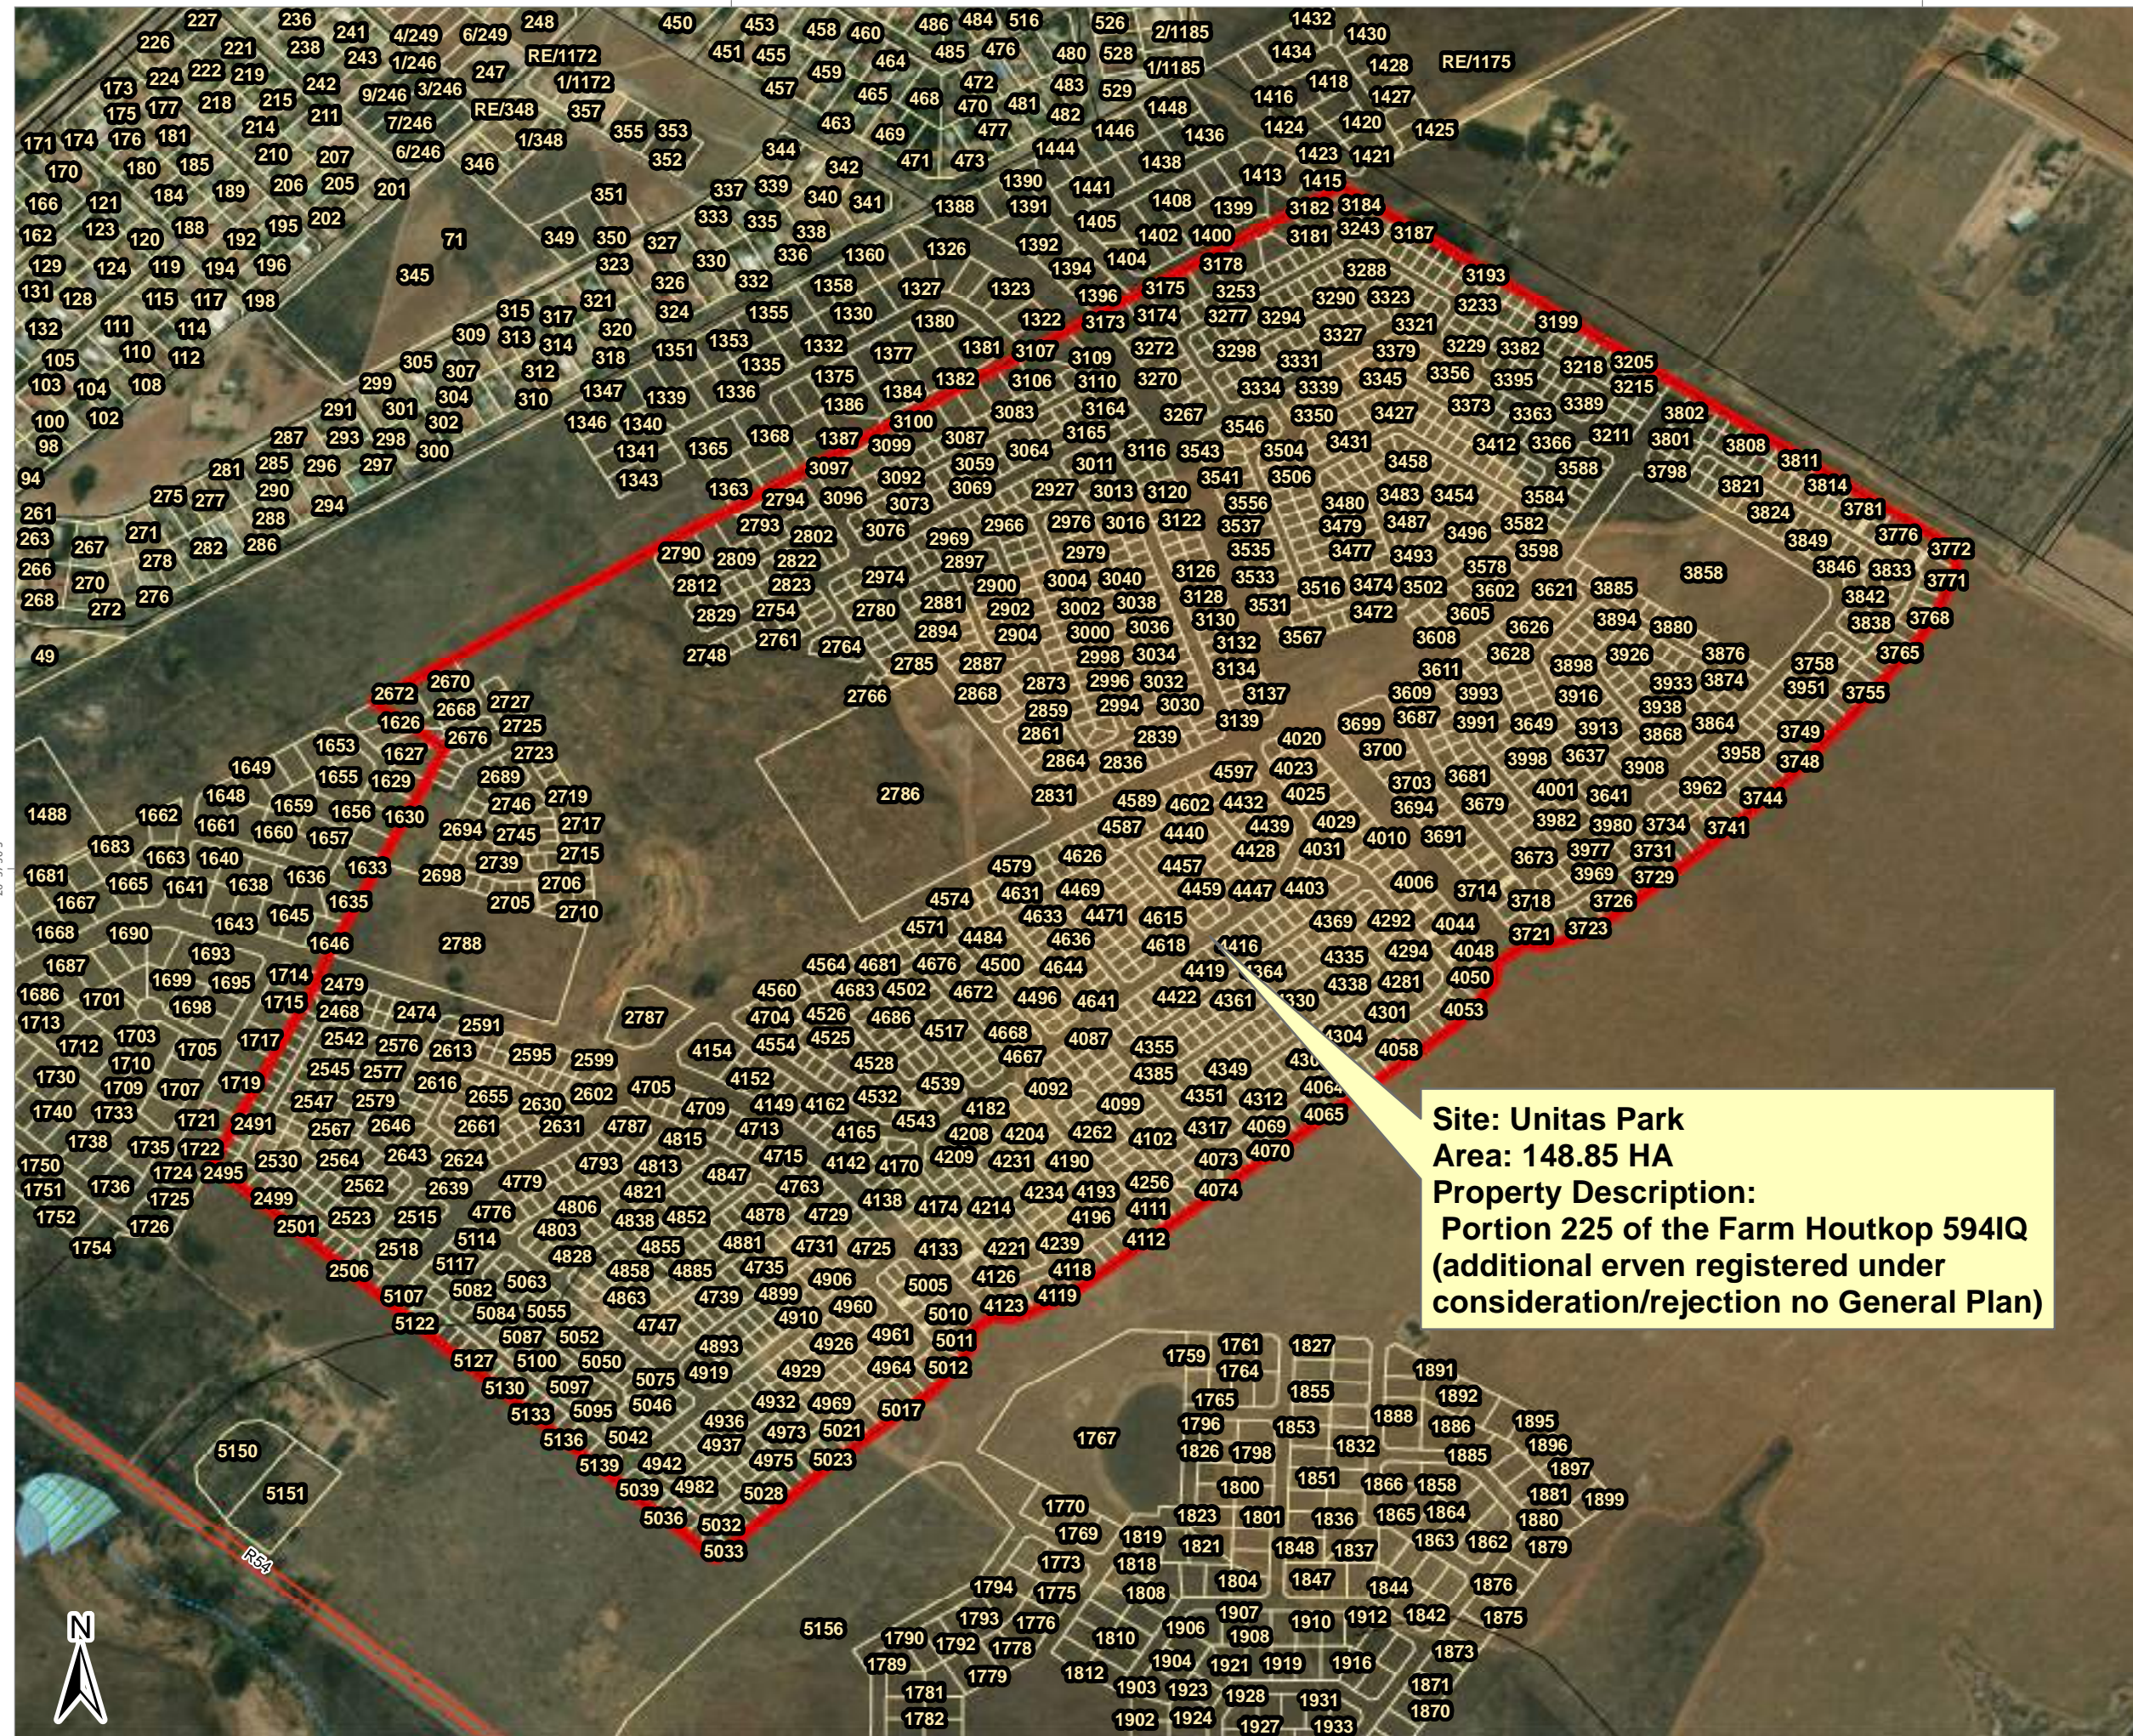

## Exclusion Motivation

The applicant of the proposed development is the Provincial Department of Human Settlement (DHS) now merged and called the Department of Human Settlements, Water and Sanitation (DHWS) (which is an organ of state) and the activity is community-based. Given the aforementioned background this qualifies this application to the exclusion of paying the associated fees with the environmental authorisation (EA) application.

## **1 BACKGROUND AND INTRODUCTION**

### **1.1 Background**

The Gauteng Rapid Land Release Programme aims to fast track the release of serviced stands from state-owned land to qualifying beneficiaries. Phumaf Holdings was appointed to assist the Department of Human Settlements with all pre-planning, planning work, design and construction management to enable the release of the identified stands.

GCS Water and Environment has been contracted by Phumaf Holdings to undertake the environmental authorization processes required for the stands in order for compliance to the National Environmental Management Act NEMA (Act 107 of 1998, as amended). This Report provides details of an Environmental Screening exercise undertaken in order to confirm the required authorization process, and to identify risks associated with the process.

### **1.2 Brief Project Description**

Unitas Park ext 16 is located within Unitas Park, to the north east of the R54 (Houtkop Road). The R82 runs north-south approximately 2.3km to the east of the site. The N1 is about 11km to the north west of the site. Sebokeng lies to the north west of the site, with Vereeniging to the south. The R59 runs from Vereeniging to Meyerton in the north west of the site. The site is currently vacant, with immediate adjacent land portions also being vacant. There is evidence of a wetland or some surface water on the site, as well as to the south east of the site. A drainage line appears to run from the site towards Houtkop Road to the south west, where the surface water drains under the road and continues to flow into a National Freshwater Ecosystem Protection Area (NFEPA). The buffer of the NFEPA includes a portion of the south west of the site.

The site is approximately 149 hectares in extent. Refer to the maps below (Figure 1-1, Figure 1-2 and Figure 1-3) for the location and regional locality map, indicating the surrounding residential allotment townships. Unitas Park is within the 2010 urban edge.

Figure 1-1: Unitas Park ext 16 Locality Map

Figure 1-2: Unitas Park Regional Locality

Figure 1-3: Google Earth Imagery of Unitas Park Project (2020).

## 2 DETAILS OF THE EAP

GCS Water and Environment (Pty) Ltd (GCS) have been appointed as the independent Environmental Assessment Practitioners (EAP) to undertake the environmental screening for this site. Sharon Meyer is the dedicated Project Manager and Environmental Assessment Practitioner (EAP). Gerda Bothma is the dedicated Project Manager and Environmental Assessment Practitioner (EAP). She is a Professional Natural Scientist (*Pr. Sci. Nat.*) with the South African Council for Natural Scientific Professionals (SACNASP).

The contact details of the EAP are provided in Table 2.1.

Table 2.1. Name and Address of Environmental Assessment Practitioner.

Company Name:	GCS Water and Environment (Pty) Ltd
Company Representative:	Gerda Bothma
Telephone No.:	+27 (0)11 803 5726

ITEM	COMPANY CONTACT DETAILS
Facsimile No.:	+27 (0)11 803 5745
E-mail Address:	gerdab@gcs-sa.biz
Postal Address:	PO Box 2597, Rivonia, 2128

### 3 LEGISLATIVE BACKGROUND

The policy and legislative context applicable to the potential development of Unitas Park ext 16 is summarized in **Table 3.1**, and detailed thereafter. Note that this screening process addresses only the first four Acts listed in the table below. The Spatial Planning and Land Use Management Act (SPLUMA) is a land use management process which is part of a separate process.

**Table 3.1: Applicable Legislation and Guidelines.**

APPLICABLE LEGISLATION AND GUIDELINES USED TO COMPILE THE REPORT	REFERENCE WHERE APPLIED
The Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996)	Purpose of the process
National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA)	Throughout document
National Water Act, 1998 (Act No 36 of 1998) (NWA)	Throughout document
The National Heritage Resources Act, (Act No. 25 of 1999) (NHRA)	This will be addressed as a Notice of Intent to Develop to SAHRA
Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) (SPLUMA)	Not part of this document, will be applied for separately.

Below is a description of how these laws are relevant to the project and what needs to be done to comply with the laws.

#### 3.1 The Constitution of the Republic of South Africa

The Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) is the supreme law and all other acts must comply with it and are subservient to it. The Constitution sets out the rights and obligations for every person in South Africa and aims to address past social injustices. With respect to the environment, Section 24 of the constitution states that:

“Everyone has the right:

- a) To an environment that is not harmful to their health or well-being;
- b) To have the environment protected, for the benefit of present and future generations, through reasonable legislative and other measures that:

- i. Prevent pollution and ecological degradation;
- ii. Promote conservation; and
- iii. Secure ecologically sustainable development and use of natural resources while promoting justifiable economic and social development”.

All developers are thus duty-bound to constitutional, legislative, and other measures to prevent pollution and ecological degradation, promote conservation and to develop in a sustainable manner as far as is reasonably possible. The constitutional environmental right elevates the importance of environmental protection and conservation and emphasises the significance that South Africans attach to an environment that is not harmful to their health or well-being.

### **3.2 National Environmental Management Act (Act No. 107 of 1998)**

#### **3.2.1 NEMA Principles**

The NEMA provides the environmental legislation framework and establishes an integrated environmental management system for South Africa. It aims to prevent pollution and degradation of South Africa’s natural resources while promoting sustainable economic and social development.

These principles serve as guiding principles for a project and they are binding, enforceable and justiciable.

#### **3.2.2 NEMA 2014 Environmental Impact Assessment (EIA) Regulations GNR982**

The Department of Environmental Affairs (DEA) has developed a list of activities which are likely to have an impact on the environment. The list of activities was published in 2014 (GN 982) and were separated into three listing notices (GN R983, GN R984 and GN R985) and were amended by the Department in 2017 and again in 2018. The amended list of activities is referred to as GN R983, GN R984 and GN R985.

Any activity which is listed under these notices requires an environmental assessment to be conducted and approved before the activity can proceed. Activities falling under Listing Notice 1 (GN R983) or Listing Notice 3 (GN R985) require a Basic Assessment (BA) to be conducted while any activity falling under Listing Notice 2 (GN R984) requires a full Scoping and Environmental Impact Reporting (S&EIR) process to be conducted.

### **3.3 National Water Act, (Act 36 of 1998, as amended)**

The National Water Act NWA, is founded on the principle that the National Government has overall responsibility for and authority over water resource management, including the

equitable allocation and beneficial use of water in the public interest. A person can only be entitled to use water if the use is permissible under the Act. Water Use is defined broadly and must be licensed unless it is listed in Schedule 1 as an existing water use or is permissible under general authorization. . Section 21 of the NWA lists the water uses for which a water use licence (WUL) is required. The NWA recognises that the entire ecosystem and not just the water itself in any given water resource constitutes the resource and as such needs to be conserved. No activity may therefore take place within a watercourse unless it is authorised by DWS.

### **3.4 The National Heritage Resources Act, (Act No. 25 of 1999)**

The National Heritage Resources Act, (Act No. 25 of 1999) (NHRA) requires Heritage Resources Impact Assessments for various categories of development stipulated in Section 38 of the Act. It also provides for the grading of heritage resources and the implementation of a three-tier level of responsibilities and functions for heritage resources to be undertaken by the national and Provincial Authorities, depending on the grade of the heritage resource. The Act defines cultural significance, archaeological and paleontological sites and materials (Section 35), historical sites and structures (Section 34), and graves and burial sites (Section 36) that fall under its jurisdiction. Archaeological sites and material are generally those resources older than a hundred years, including gravestones and grave dressing. Procedures for managing graves and burial grounds are set out in Section 36 of the NHRA. Graves older than 100 years are legislated as archaeological sites and must be dealt with accordingly. Section 38 of the NHRA makes provision for application by developers for permits before any heritage resource may be damaged or destroyed.

This Act is only applicable if any heritage resources such as sites of cultural significance, archaeological and paleontological sites and materials; historical sites and structures; and/or graves and burial sites are within the proposed development area.

### **3.5 Listed and specified activities**

#### ***3.5.1 Listed and specified activities in terms of NEMA***

**Table 3.2** below examines the Listed Activities which may potentially be triggered by this development.

Due to the fact that the site is larger than 20 hectares and is located within the urban edge, some of the following activities according to the National Environmental Management Act NEMA (Act 107 of 1998, as amended) and EIA Regulations 2014 may be triggered:

Table 3.2: Listed Activities potentially triggered by this development.

NOTICE	ACTIVITY NO.	ACTIVITY	APPLICABLE
1	9	The development of infrastructure exceeding 1 000 metres in length for the bulk transportation of water or storm water– (i) with an internal diameter of 0,36 metres or more; or (ii) with a peak throughput of 120 litres per second or more; excluding where– (a) such infrastructure is for bulk transportation of water or storm water or storm water drainage inside a road reserve or railway line reserve; or (b) where such development will occur within an urban area.	NA Site is within the urban edge
	10	The development and related operation of infrastructure exceeding 1 000 metres in length for the bulk transportation of sewage, effluent, process water, waste water, return water, industrial discharge or slimes -  (i) with an internal diameter of 0,36 metres or more; or  (ii) with a peak throughput of 120 litres per second or more;  excluding where–  (a) such infrastructure is for the bulk transportation of sewage, effluent, process water, waste water, return water, industrial discharge or slimes inside a road reserve or railway line reserve; or  (b) where such development will occur within an urban area.	N/A. Site is within the urban edge.
	11	The development of facilities or infrastructure for the transmission and distribution of electricity–  (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts; or  (ii) inside urban areas or industrial complexes with a capacity of 275 kilovolts or more;  excluding the development of bypass infrastructure for the transmission and distribution of electricity where such bypass infrastructure is–  (a) temporarily required to allow for maintenance of existing infrastructure;  (b) 2 kilometres or shorter in length;  (c) within an existing transmission line servitude; and  (d) will be removed within 18 months of the commencement of development.	NA. Electricity supply to be provided will be less than the identified threshold within the urban edge.
	12	The development of–  (i) dams or weirs, where the dam or weir, including infrastructure and water surface area, exceeds 100 square metres; or  (ii) infrastructure or structures with a physical footprint of 100 square metres or more;  where such development occurs–  (a) within a watercourse;	Yes. Site occurs within 32m of a water resource.

		<p>(b) in front of a development setback; or</p> <p>(c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse;</p>	
	24	<p>The development of a road—</p> <p>(i) for which an environmental authorisation was obtained for the route determination in terms of activity 5 in Government Notice 387 of 2006 or activity 18 in Government Notice 545 of 2010; or</p> <p>(ii) with a reserve wider than 13,5 meters, or where no reserve exists where the road is wider than 8 metres;</p> <p>but excluding a road—</p> <p>(a) which is identified and included in activity 27 in Listing Notice 2 of 2014;</p> <p>(b) where the entire road falls within an urban area; or</p> <p>(c) which is 1 kilometre or shorter.</p>	<p>NA</p> <p>Site is located within the urban edge.</p>
	27	<p>The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—</p> <p>(i) the undertaking of a linear activity; or</p> <p>(ii) maintenance purposes undertaken in accordance with a maintenance management plan.</p>	<p>Yes</p> <p>Site clearance of vegetation highly likely to exceed 1 ha</p>
	28	<p>Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development:</p> <p>(i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or</p> <p>(ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;</p> <p>excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.</p>	<p>Yes</p> <p>Site is 149ha in extent and currently zoned for agriculture.</p>
2	15	<p>The clearance of an area of 20 hectares or more of indigenous vegetation, excluding where such clearance of indigenous vegetation is required for—</p> <p>(i) the undertaking of a linear activity; or</p> <p>(ii) maintenance purposes undertaken in accordance with a maintenance management plan.</p>	<p>Yes</p> <p>The site is 149ha in extent. It is likely that indigenous vegetation is to be cleared in excess of 20 ha.</p>
	27	<p>The development of a road—</p> <p>(iii) with a reserve wider than 30 metres; or</p> <p>(iv) catering for more than one lane of traffic in both directions;</p> <p>but excluding a road—</p> <p>(a) for which an environmental authorisation was obtained for the route determination in terms of</p>	<p>NA</p> <p>Site is located within the urban edge.</p>

		<p>activity 5 in Government Notice 387 of 2006 or activity 18 in Government Notice 545 of 2010, in which case activity 24 in Listing Notice 1 of 2014 applies;</p> <p>(b) which is 1 kilometre or shorter; or</p> <p>(c) where the entire road falls within an urban area.</p>	
3	4	<p>The development of a road wider than 4 metres with a reserve less than 13,5 metres.</p> <p>c. Gauteng</p> <p>i. A protected area identified in terms of NEMPAA, excluding conservancies;</p> <p>ii. National Protected Area Expansion Strategy Focus Areas;</p> <p>iii. Gauteng Protected Area Expansion Priority Areas;</p> <p>iv. Sites identified as Critical Biodiversity Areas (CBAs) or Ecological Support Areas (ESAs) in the Gauteng Conservation Plan or in bioregional plans;</p> <p>v. Sites identified within threatened ecosystems listed in terms of the National Environmental Management Act: Biodiversity Act (Act No. 10 of 2004);</p> <p>vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority;</p> <p>vii. Sites identified as high potential agricultural land in terms of Gauteng Agricultural Potential Atlas;</p> <p>viii. Important Bird and Biodiversity Area (IBA);</p> <p>ix. Sites or areas identified in terms of an international convention;</p> <p>x. Sites managed as protected areas by provincial authorities, or declared as nature reserves in terms of the Nature Conservation Ordinance (Ordinance 12 of 1983) or the NEMPAA;</p> <p>xi. Sites designated as nature reserves in terms of municipal Spatial Development Frameworks; or</p> <p>xii. Sites zoned for conservation use or public open space or equivalent zoning.</p>	<p>Potentially.</p> <p>The site is zoned for agriculture and is classified as having a very high sensitivity in respect to the terrestrial biodiversity.</p> <p>Soweto Highveld Grassland = Vu,</p>
	12	<p>The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.</p> <p>c. Gauteng</p> <p>i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;</p> <p>ii. Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or bioregional plans; or</p>	<p>Potentially</p> <p>Site is in 149ha in extent, currently zoned for agriculture and it is highly likely that indigenous vegetation of more than 300 m2 will be cleared.</p> <p>The site is regarded as</p>

		<p>iii. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.</p>	<p>having a very high terrestrial biodiversity sensitivity. Soweto Highveld Grassland = Vu.</p>
<p>14</p>		<p>The development of—</p> <ul style="list-style-type: none"> <li>(i) dams or weirs, where the dam or weir, including infrastructure and water surface area exceeds 10 square metres; or</li> <li>(ii) infrastructure or structures with a physical footprint of 10 square metres or more;</li> </ul> <p>where such development occurs—</p> <ul style="list-style-type: none"> <li>(a) within a watercourse;</li> <li>(b) in front of a development setback; or</li> <li>(c) if no development setback has been adopted, within 32 metres of a watercourse, measured from the edge of a watercourse; excluding the development of infrastructure or structures within existing ports or harbours that will not increase the development footprint of the port or harbour.</li> </ul> <p>c. Gauteng</p> <ul style="list-style-type: none"> <li>i. A protected area identified in terms of NEMPAA, excluding conservancies;</li> <li>ii. National Protected Area Expansion Strategy Focus Areas;</li> <li>iii. Gauteng Protected Area Expansion Priority Areas;</li> <li>iv. Sites identified as Critical Biodiversity Areas (CBAs) or Ecological Support Areas (ESAs) in the Gauteng Conservation Plan or in bioregional plans;</li> <li>v. Sites identified within threatened ecosystems listed in terms of the National Environmental Management Act: Biodiversity Act (Act No. 10 of 2004);</li> <li>vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority;</li> <li>vii. Sites or areas identified in terms of an international convention;</li> <li>viii. Sites managed as protected areas by provincial authorities, or declared as nature reserves in terms of the Nature Conservation Ordinance (Ordinance 12 of 1983) or the NEMPAA;</li> <li>ix. Sites designated as nature reserves in terms of municipal Spatial Development Frameworks; or</li> <li>x. Sites zoned for conservation use or public open space or equivalent zoning.</li> </ul>	<p>Potentially Site is in close proximity of NFEPA system, is currently zoned as agriculture and falls within a very high sensitivity of terrestrial biodiversity due to a vulnerable ecosystem, even though the site is degraded. Soweto Highveld Grassland = Vu.</p>

	15	<p>The transformation of land bigger than 1000 square metres in size, to residential, retail, commercial, industrial or institutional use, where, such land was zoned open space, conservation or had an equivalent zoning, on or after 02 August 2010.</p> <p>b. Gauteng</p> <p>i. All areas.</p>	<p>Potentially. The site is currently zoned as agriculture.</p>
--	----	--	---

Therefore, this site requires an Environmental Impact Assessment in terms of NEMA and the EIA Regulations (2014) in order to authorise development for purposes of residential, mixed, retail, commercial, industrial or institutional use.

### 3.5.2 *Listed and specified activities in terms of Section 21 of the NWA*

The following water uses are triggered due to the development site falling within the 500m buffer of both the NFEPA and the watercourse:

- Section 21 (c) - *Impeding or diverting the flow of water in a watercourse;*
- Section 21 (d) - *engaging in a stream flow reduction activity;* and
- Section 21 (i) - *altering the bed, banks, course or characteristics of a watercourse;*

Therefore, this site requires a Water Use Authorisation/General Authorisation in terms of the NWA in order to authorise the water uses associated with the development.

## 4 BASELINE ENVIRONMENTAL DESCRIPTION

### 4.1 Biophysical Environment

The site is not located within a sensitive area as delineated by the Gauteng Conservation Plan. However, to the north west there is a Critical Biodiversity Area associated with a tributary of the Rietspruit. This tributary has been identified as a National Freshwater Ecosystem Priority Area (NFEPA) and is of high conservation value. See Figure 4-1 below. The south western portion of Unitas Park ext 16 is located within the 500m buffer of the NFEPA as well as within the 500m buffer of the watercourse (Rietspruit). From site investigation it is likely that there is surface water on site, even if this is temporary or ephemeral.

The site is located within the Soweto Highveld Grassland ecosystem type, which is listed as Vulnerable (GN 1002, GG 34809, 2011). However, during the site inspection, the land was noted as being heavily disturbed due to anthropogenic practices such as agriculture as well as being surrounded by development. Thus, does not present a good opportunity to preserve this ecosystem type.

According to the Department of Environmental Affairs, the following sensitivities pertain to the site:

- Agricultural theme- High sensitivity
- Animal species theme- Medium sensitivity
- Aquatic biodiversity theme- Low sensitivity
- Plant species theme- Medium sensitivity
- Terrestrial biodiversity theme- Very high sensitivity (Soweto Highveld Grassland ecosystem- vulnerable)

### 4.2 Socio-economic Environment

According to the Sedibeng Growth and Development Strategy 2 (Sedibeng District Municipality, 2012), the Unitas Park population is of low-Living Standards Measurement with a low access to services. This places the community as vulnerable to impact. The community also has a high unemployment rate. These factors must be considered when proposing development within Unitas Park. The community is not positioned to address impacts to their human health, living conditions or environment. Therefore, it is important that the developer communicate with neighbouring community members in order to minimize negative impacts of the development. This will be focused within the construction phase of the project.

According to the Department of Environmental Affairs, the following sensitivities pertain to the site:

- Civil aviation theme- High sensitivity
- Defence theme- Low sensitivity

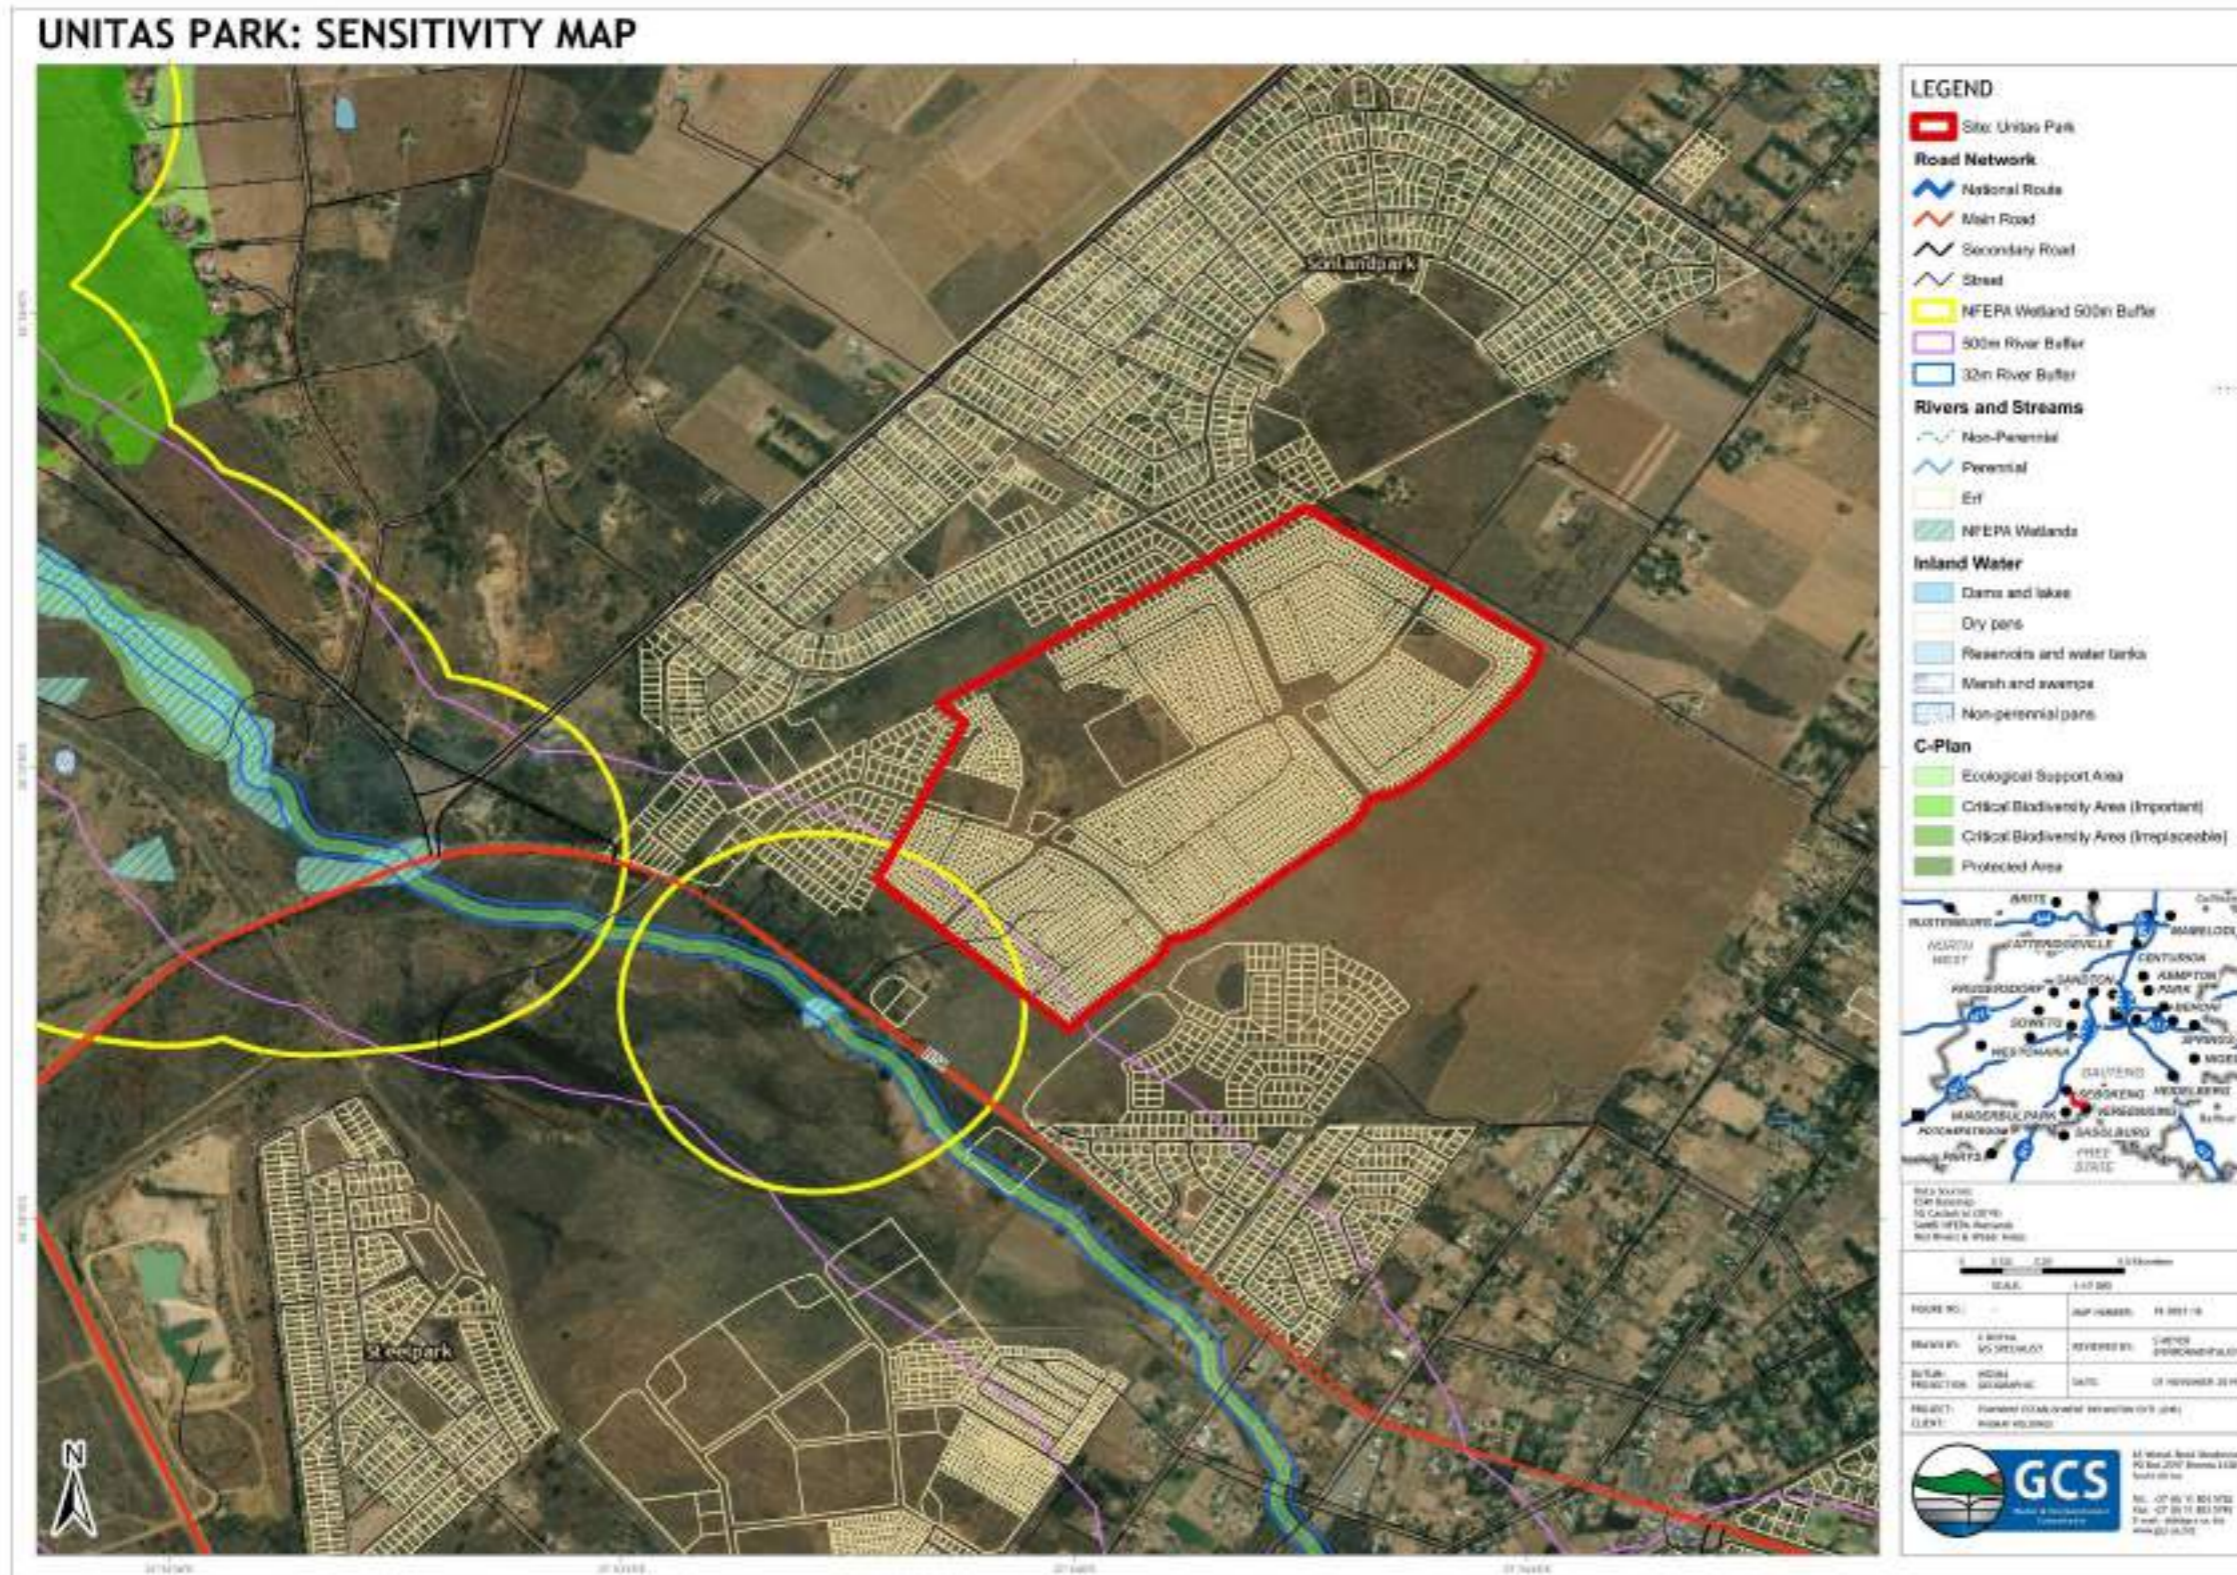

Figure 4-1: Unitas Park ext 16 Sensitivity Map

**Table 4.1: Preliminary Impacts Identified.**

POTENTIAL ENVIRONMENTAL IMPACT	IDENTIFIED ACTIVITY	RECOMMENDED MITIGATION MEASURES	ACTION PLAN
GEOLOGY			
Altering of geological strata	Foundations	Little to no impact and therefore no mitigation necessary	Compile and implement an Environmental Management Plan.
TOPOGRAPHY AND DRAINAGE			
Alteration of natural topography	Residential development	Stormwater drainage is an important consideration. This will impact on the quality and quantity of surface water reaching the Rietspruit tributary.	Undertake ecological and wetland screening. Implement a stormwater management plan during construction. Compile and implement an Environmental Management Plan. Water Use License will be required under Section 21 (c), (d) and (i).
SOILS, LAND USE AND LAND CAPABILITY			
Loss of soil resource, land use and land capability	Residential development	This site and most of the surrounding area is vacant. It is important to understand the land capability, and this should be carried out as a desktop study to inform the EIA.	Desktop Land capability study.
Contamination of soil resources	Residential development	Impact to the critical biodiversity area and watercourse to south west of the site. This needs to be managed, especially during construction.	Compile and Implement an Environmental Management Plan.

POTENTIAL ENVIRONMENTAL IMPACT	IDENTIFIED ACTIVITY	RECOMMENDED MITIGATION MEASURES	ACTION PLAN
			Undertake wetland and ecological assessment.  Implement Environmental Awareness and Response Plan.
SURFACE WATER			
Change in Drainage patterns	Residential Development	Ensure drainage to the downstream tributary remains constant. Investigate the potential impact to the watercourse and the NFEPA.	Design for optimal drainage and compile and implement a Stormwater Management Plan.  Implement Environmental Awareness and Response Plan.  Ecological and wetland assessment.
Contamination of Surface Water resources	Residential Development	Keep clean and dirty water areas separate and don't allow for contaminated water or spills to enter the environment	Compile and Implement Stormwater Management Plan and Environmental Management Plan.  Implement Environmental Awareness and Response Plan.  Ecological and wetland assessment.
HYDROGEOLOGY			
Potential contamination of groundwater resources	Residential Development	Little to no impact expected	Compile and Implement Environmental Management Plan.

ECOLOGY			
Disruption of ecological connectivity	Residential Development	No land use changes or other disturbances of animals outside of the study area should be allowed.  The NFEPA and wetland buffer will be impacted and need to be assessed.	Signs should be erected on site and access roads limiting the speed to no more than 40 km/hour.  Compile and Implement Environmental Management Plan.  Wetland and ecological assessment.
Loss and degradation of faunal habitat	Residential Development	Impacts should be limited	Prohibit habitat degradation or destruction outside of boundary fences.  Compile and Implement Environmental Management Plan.  Wetland and ecological assessment.
Loss of biodiversity	Residential Development	Biodiversity will be higher and more sensitive closer to the NFEPA and watercourse and this must be investigated.	Compile and Implement Environmental Management Plan.  Wetland and ecological assessment.
Spreading of weeds and alien vegetation	Residential Development	Little to no impact expected. However, the NFEPA and watercourse will be impacted upon by any change in vegetation.	Compile and Implement Environmental Management Plan.  Wetland and ecological assessment.
NOISE			
Noise nuisance	Construction phase	Workers should be equipped with appropriate gear to ameliorate the effects of noise levels.  Construction activities will be limited to the hours of 07h00 to 18h00 weekdays.	Compile and Implement Environmental Management Plan.

AIR QUALITY			
Fugitive dust releases	Construction Phase	Manage dust during construction phase.	Compile and Implement Environmental Management Plan. Implement speed limits on roads. Implement dust suppression.
HERITAGE			
Possible damage to heritage artefacts	Residential development	Little to no impact expected.	Notice of Intent to Develop submitted to SAHRA Compile and Implement Environmental Management Plan. Implement Environmental Awareness and Response Plan.
SOCIO-ECONOMIC			
Increase in crime	Influx of job seekers	Manage the site access. Manage employee movement. Provide a grievance mechanism with adjacent landowners.	Compile and Implement Environmental Management Plan. Stakeholder Communication Strategy and Grievance Mechanism.
Noise and dust	Construction Phase	Addressed above.	Compile and Implement Environmental Management Plan.

## 5 RECOMMENDATIONS AND WAY FORWARD

### 5.1 Authorisations

Numerous NEMA listed activities are triggered (see Section 3.5.1) and therefore a full Scoping and Environmental Impact Assessment (S&EIR) is required for authorisation. In addition, water uses are triggered through NWA and so a Water Use License Application (WULA) will need to be submitted with the Department of Water Affairs (See Section 3.5.2).

The S&EIR will be carried out through the following phases :

- Project Initiation and pre-Application Meetings;
- Project Announcement and Draft Scoping Report;
- Specialist Investigation;
- Public Review and Meetings;
- Submit Final Scoping Report;
- Updated Specialist Reports;
- Draft Impact Assessment Report for public review;
- Final Impact Assessment Report submission;
- Follow up with Competent Authority.

The WULA will be carried out through the following phases:

- Project Initiation and Pre-Application Meeting;
- Wetland assessment and matrix;
- Confirm GA or WULA;
- Authority Site Visit;
- Complete forms and technical reports;
- Public Review of Submission; and
- Submission and Follow up.

### 5.2 Supporting Documents / Activities

From the findings of this environmental screening process, it is evident that potential environmental and social impacts may be of moderate to high consequence. Therefore, the required processes, EIA and WULA, have been triggered. Several supporting assessments, processes and reports are recommended, and should be carried out in tandem with the licensing and authorisation processes.

The following specialist studies should be carried out to clarify the sensitivity of the site:

- Aquatic ecology and wetland assessment;
- Ecological assessment; and
- Agricultural assessment.

It is recommended that the following is carried out in order to follow best practice and minimise environmental harm:

- Environmental Management Plan (EMP) is compiled and implemented during the construction phase.
- An ecological and wetland assessment is carried out to confirm the sensitivity of the wetland and watercourse, so as to input recommendations to the EMP.
- An Environmental Control Officer (ECO) is employed by the client during the construction phase to audit the site on a regular basis and ensure compliance of to the EMP.
- A Notice of Intent to Develop (NID) should be sent to the South African Heritage Resources Agency (SAHRA) to indicate the proposed development.

### **5.3 Way forward and Conclusion**

GCS recommends that specialist investigations are carried out on site to determine the sensitivity of the potential watercourse, the indigenous vegetation as well as to determine whether or not the site represents a good opportunity to preserve highly sensitive agricultural land, as indicated in the DEA screening report.

GCS will undertake the S&EIR process on behalf of the client.

GCS will provide a quotation to undertake all of the assessments and reports required to support the EIA and WUL application processes. A meeting will be set up with the client in order to discuss the way forward, including timelines and deliverables.

Development footprint<sup>1</sup> vertices:  
 No development footprint(s) specified.

### Wind and Solar developments with an approved Environmental Authorisation or applications under consideration within 30 km of the proposed area

No	EIA Reference No	Classification	Status of application	Distance from proposed area (km)
1	14/12/16/3/3/2/753	Solar PV	Approved	13.4

### Environmental Management Frameworks relevant to the application

<b>Environm          ental          Managem          ent          Framewor          k</b>	<b>LINK</b>
---	-------------

<sup>1</sup> “development footprint”, means the area within the site on which the development will take place and includes all ancillary developments for example roads, power lines, boundary walls, paving etc. which require vegetation clearance or which will be disturbed and for which the application has been submitted.

Gauteng EMF	<a href="https://screening.environment.gov.za/ScreeningDownloads/EMF/Zone_1, Zone_2, Zone_3, Zone_4, Zone_5.pdf">https://screening.environment.gov.za/ScreeningDownloads/EMF/Zone_1, Zone_2, Zone_3, Zone_4, Zone_5.pdf</a>
----------------	---

## Environmental screening results and assessment outcomes

The following sections contain a summary of any development incentives, restrictions, exclusions or prohibitions that apply to the proposed development site as well as the most environmental sensitive features on the site based on the site sensitivity screening results for the application classification that was selected. The application classification selected for this report is: Transformation of land | From agriculture or afforestation | Transformation of land - From agriculture or afforestation.

### Relevant development incentives, restrictions, exclusions or prohibitions

The following development incentives, restrictions, exclusions or prohibitions and their implications that apply to this site are indicated below.

Incentive, restriction or prohibition	Implication
Strategic Transmission Corridor-Central corridor	<a href="https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/GNR_350_of_13_April_2017.pdf">https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/GNR_350_of_13_April_2017.pdf</a>
Air Quality-Vaal Triangle Airshed Priority Area	<a href="https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/Final_VTAPA_AQMP_20090408_-15_April_2009.pdf">https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/Final_VTAPA_AQMP_20090408_-15_April_2009.pdf</a>

Map indicating proposed development footprint within applicable development incentive, restriction, exclusion or prohibition zones

**Project Location: Unitas Park Extension 16**

**Proposed Development Area Environmental Sensitivity**

The following summary of the development site environmental sensitivities is identified. Only the highest environmental sensitivity is indicated. The footprint environmental sensitivities for the proposed development footprint as identified, are indicative only and must be verified on site by a suitably qualified person before the specialist assessments identified below can be confirmed.

Theme	Very High sensitivity	High sensitivity	Medium sensitivity	Low sensitivity
Agriculture Theme		X		
Animal Species Theme			X	

Aquatic Biodiversity Theme				X
Civil Aviation Theme		X		
Plant Species Theme			X	
Defence Theme				X
Terrestrial Biodiversity Theme	X			

### Specialist assessments identified

Based on the selected classification, and the environmental sensitivities of the proposed development footprint, the following list of specialist assessments have been identified for inclusion in the assessment report. It is the responsibility of the EAP to confirm this list and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation.

<b>N o</b>	<b>Specialist assessment</b>	<b>Assessment Protocol</b>
1	Agricultural Impact Assessment	<a href="https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/DraftGazetted_Agriculture_Assessment_Protocols.pdf">https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/DraftGazetted Agriculture Assessment Protocols.pdf</a>

## Results of the environmental sensitivity of the proposed area.

The following section represents the results of the screening for environmental sensitivity of the proposed site for relevant environmental themes associated with the project classification. It is the duty of the EAP to ensure that the environmental themes provided by the screening tool are comprehensive and complete for the project. Refer to the disclaimer.

**Subject:** RE: GRLRP - Confirmation of PPP Plan Submission

Good day,

The Public Participation Process Plan (PPPP) is no required for any new developments initiated under the Covid-19 Level 1 and a normal process should be followed henceforth. However, the Covid-19 preventive measures must till be applied when conducting a PPP.

Regards

Dan

**Subject:** GRLRP - Confirmation of PPP Plan Submission

Good day Dan

Following the planned action to submit the application forms for the proposed township development for Unitas Park and Evaton West respectively; please note that we have not formally received an updated directive published in terms of the Disaster Management Act which advises us to still submit a public participation process (PPP) plan during Alert Level 1 and by that token would like to formally confirm the requirement from the department in line with the regulations.

Kind regards  
Lehlogonolo

## Meeting Minutes

<b>Subject</b>	Pre-application Meeting for Gauteng Rapid Land Release Programme (GRLRP) - Unitas Park - Extension 16 and Evaton West - Project F, G, H and I, Gauteng Province
<b>Date</b>	19 August 2020
<b>Time</b>	10h00
<b>Attendance</b>	Dan Motaung (DM) (Gauteng Department of Agriculture and Rural Development) Boitshoko Buthelezi (BB) (Phumaf Holdings) Ngoni Gandiwa (NG) (Phumaf Holdings) Sikelela Mnguni (SM) (Phumaf Holdings) Gerda Bothma (GB) - GCS Water & Environmental Consultants Lehlogonolo Mashego (LM) - GCS Water & Environmental Consultants
<b>Apologies</b>	None

### 1. Introduction and Welcome

- GB welcomed all present and introduced the meeting as the Pre-application Meeting.
- A disclaimer was expressed of the session being recorded and that the meeting outcomes will further be shared (see Appendix 1).
- All attendees were requested to introduce themselves for the purpose of all parties being acquainted with the stakeholders involved and present.

### 2. Attendance Register and Apologies

- No apologies were received.

### 3. Discussion

- *Unitas Park - Extension 16*
  - Dan Motaung (DM) indicated that it is critical to include a Traffic Impact Assessment (TIA) and Geotechnical Assessment (GA) in addition to the proposed assessments. These assessments are also to be submitted to the department. It was since confirmed in the meeting that the assessments have been covered for the respective sites under the Engineering Assessments conducted and this will further be incorporated into the environmental application accordingly.
  - A great issue faced within Gauteng Province are the issues associated with waste (solid and liquid) and this is to be accounted for in the proposed developments. Maintenance and the available capacity needs to evidently allow for connections and

efficient connections into the municipal grid and to be able to handle the increase capacity.

- Ngoni Gandiwa (NG) indicated that the current proposal especially regarding this site is to make provision for a package plant to deal with the sewage issue and the expected flow will be large. Any associated impacts relevant to the Environmental Impact Assessment (EIA) are still to be verified at this stage.
- *Evaton West - Project F*
  - Include the applicable TIA and GA - DM
  - DM indicated that considering that there is an alleged drainage line traversing the site (natural drainage line) this will require a Storm Water Management Plan (SWMP). This needs to be submitted and drafted by a qualified Engineer or professional. The impacts associated with lack of storm water are vast in lower income communities, this is to be curbed and accounted for accordingly.
- *Evaton West - Project G*
  - Include the applicable TIA and GA - DM
  - DM noted that the Critical Biodiversity Areas (CBA) data is not to be omitted without further verifying with a qualifying Specialist. The site itself is evidently degraded and transformed and would not necessarily warrant any environmental protection. To this nature a Land-use application/enquiry detailing the site observations and sensitivities must be submitted to have the department confirm and accept the approach.
- *Evaton West - Project H*
  - Include the applicable TIA and GA - DM
  - DM noted again that the CBA data is not to be omitted without further verifying with a qualifying Specialist. The site itself is evidently degraded and transformed and would not necessarily warrant any environmental protection. To this nature a Land-use application/enquiry detailing the site observations and sensitivities must be submitted to have the department confirm and accept the approach.
- *Evaton West - Project I*
  - Include the applicable TIA and GA - DM
  - DM indicated that considering that there is an alleged drainage line traversing the site (natural drainage line) this will require a SWMP. DM indicated that the SWMP submitted to the municipality and to the department serve different purposes and this needs to be taken into consideration when submitting the respective reports.
- *Public Participation*
  - The intent of carrying out the public participation process (PPP) is in line with Chapter 6 of the National Environmental Management Act, 1998 (NEMA) (Act No. 107 of 1998) as amended and the Covid-19 response guidelines as issues on 05 June 2020. We have

since moved to Level 2 and as such, await on the updated guidelines to inform any changes to the way the PPP will be conducted.

- The proposed PPP will include virtual activities as far as possible.
- The proximity of the Evaton West sites will potentially work in the collectives' favour if a combined PPP is conducted and a separate process initiated for the Unitas Park site.
- Should a combined approach be followed then all interested and affected parties (I&APs) are to be included and ensure that the message gets through to all I&APs. This needs to be managed carefully whilst ensuring that it is efficiently carried out in accordance with the NEMA regulations. - DM
- Suggestion with regards to project announcement is not to start too early as the community's response, cannot be pre-empted should this be done. - DM

#### **4. General**

- Where there are wetlands and areas of sensitivity on site, the necessary buffer zones are to be applied. These need to be included in the Specialist Assessments - DM.
- Low-cost housing generally does not account for spacing and greening or functional open areas. This is a recommendation was provided by DM and it was since confirmed in the meeting that this is an added component proposed to be included in support of the developments. - DM

#### **5. Way Forward and Closure**

Action	Role	Date
Internal project team to regroup and pave the response from the meeting way	GCS + Phumaf	20 August 2020
Meeting minutes to be distributed accordingly	GCS	24 August 2020
Submit PPP plan for approval	GCS	28 August 2020
Combination approach of PPP must be submitted to department for approval	GCS	28 August 2020
Submit a Land-use Application/Enquiry	GCS	28 August 2020

Meeting was closed off at 11:10, the meeting outcomes will be shared accordingly, so comments and input may be shared for **three (3) days** from the date of receipt.

**NOTICE IN TERMS OF SECTION 38(2) AND 62(6) OF THE EMFULENI MUNICIPALITY SPATIAL PLANNING AND LAND USE MANAGEMENT BY-LAWS, 2018, FOR THE SIMULTANEOUS AMENDMENT OF THE VEREENIGING TOWN PLANNING SCHEME, 1992 AND THE REMOVAL AND AMENDMENT OF RESTRICTIVE CONDITIONS IN RESPECT OF ERF 616 VEREENIGING.**

I, Mr. G.F. de Jager of Pace Plan Consultants, being the authorized agent of the owner of Erf 616 Vereeniging, situated on 45-Senator Marks Avenue, Vereeniging, hereby give notice in terms of Section 38(2) of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, that I have applied to the Emfuleni Local Municipality in terms of Section 62(6) of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, for the removal and amendment of certain restrictive conditions described in the Title Deed of Erf 616 Vereeniging and the simultaneous amendment of the Vereeniging Town Planning Scheme, 1992, in terms of Section 38 of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, with the rezoning of Erf 616 Vereeniging from "Residential 1" to "Institutional" for a place of public worship and ancillary offices, height of 1 storey, coverage of 50%, F.A.R. of 0.5 and building lines of 2m from the rear boundary and 0m on all other boundaries.

All relevant documents relating to the application will be open for inspection during normal office hours at the office of the Strategic Manager, Land Use Management, First Floor, Old Trust Bank Building, corner of President Kruger Street and Eric Louw Street, Vanderbijlpark and at the office of the agent hereunder, for 28 days from 13 January 2021. Any person, who wishes to object to the application or submit representations in respect thereof, must lodge the same in writing to the Municipal Manager at the named address or to PO Box 3, Vanderbijlpark, 1900, or fax to 0169505533 within 28 days from 13 January 2021.

Agent address: Pace Plan Consultants, 70A Chopin Street, Vanderbijlpark SW 5, 1911, Tel: 0834465872, christo@paceplan.co.za; DATE OF FIRST PUBLICATION: 13 January 2021 F2884

**NOTICE IN TERMS OF SECTION 38(2) AND 62(6) OF THE EMFULENI MUNICIPALITY SPATIAL PLANNING AND LAND USE MANAGEMENT BY-LAWS, 2018, FOR THE AMENDMENT OF THE VANDERBIJLPARK TOWN PLANNING SCHEME, 1987 AND THE SIMULTANEOUS AMENDMENT OF RESTRICTIVE CONDITIONS IN RESPECT OF ERF 535 VANDERBIJLPARK SOUTH EAST NO. 7.**

I, Mr. G.F. de Jager of Pace Plan Consultants, being the authorized agent of the owner of Erf 535 Vanderbijlpark South East No. 7, situated on 26 James Chapman Street, Vanderbijlpark SE 7, hereby give notice in terms of Section 38(2) of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, that I have applied to the Emfuleni Local Municipality in terms of Section 62(6) of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, for the amendment of certain restrictive conditions described in the Title Deed of Erf 535 Vanderbijlpark South East No. 7 and the simultaneous amendment of the Vanderbijlpark Town Planning Scheme, 1987, in terms of Section 38 of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, with the rezoning of Erf 535 Vanderbijlpark South East No. 7 from "Residential 1" to "Residential 4" for student housing with a coverage of 50%, height of 3 storeys and building lines of 0m on the street and side boundaries and 1,5m from the rear boundary.

All relevant documents relating to the application will be open for inspection during normal office hours at the office of the Strategic Manager, Land Use Management, First Floor, Old Trust Bank Building, corner of President Kruger Street and Eric Louw Street, Vanderbijlpark and the office of the agent hereunder, for 28 days from 13 January 2021. Any person, who wishes to object to the application or submit representations in respect thereof, must lodge the same in writing to the Municipal Manager at the named address or to PO Box 3, Vanderbijlpark, 1900, or fax to 0169505533 within 28 days from 13 January 2021.

Agent address: Pace Plan Consultants, 70A Chopin Street, Vanderbijlpark SW 5, 1911, Tel: 0834465872, christo@paceplan.co.za; DATE OF FIRST PUBLICATION: 13 January 2021 F2888

**VANDERBIJLPARK TOWN PLANNING SCHEME, 1987**

In compliance with clauses 12 and 19 of the Vanderbijlpark Town Planning Scheme, 1987, read with clause 36(2) of the Emfuleni Municipality Spatial Planning and Land Use Management By-Laws, 2018, notice is hereby given that Mr. W. Louw the authorized agent, intends to apply to the Emfuleni Local Municipality for the Council's consent to the erection and use of buildings on the under mentioned land and/or to use the under mentioned land, namely: ERF: 903 SUBURB: VANDERBIJLPARK SOUTH EAST 2 (S.E.2)

STREET ADDRESS: 51 HENDRIK VAN ECK BOULEVARD  
AREA: 1107 m<sup>2</sup>  
FOR: PLACE OF INSTITUTION for overnight facilities (only for patients) and treatment for patients in the biokinetic practice.

Particulars of the application will be filed with the Municipal Manager of the Emfuleni Municipality Council on or before 13 January 2021 and may thereafter be inspected at the office of the Manager, Land Use Management, Emfuleni Local Municipality First Floor, EDP Building, c/o President Kruger and Eric Louw Streets, Vanderbijlpark during normal office hours or an electronic copy can be obtained from the applicant.

Any person having any objection to the erection and use of the proposed building or to the proposed use of land must lodge such objection, together with the grounds thereof, in writing, either per registered mail, hand delivered, facsimile or e-mail with the Municipal Manager, P.O. Box 3, Vanderbijlpark, 1900 or fax to (016) 9505533 or e-mail: erikavdw@emfuleni.gov.za and with the under mentioned address within twenty eight (28) days after the said date.

Address of the authorized agent: Mr. W. Louw, 1 Schubert Street, Vanderbijlpark, 1911 Cellular / Fax: 0833848784 / 0665463812, e-mail: wilmelouwvaal@gmail.com F2902

**Application regarding Portion 1 of Erf 2434, Three Rivers, Registration Division I.Q., Gauteng Province.**

The public is hereby notified that the owner of the said erf, Ms. Bianca Oosthuizen, appointed Conradie, van der Walt & Associates to submit an application to the Emfuleni Local Municipality (ELM). This application was submitted on 27 October 2019 in terms of Section 5(5) of the Gauteng Removal of Restrictions Act, 1996 (Act 3 of 1996); and Schedule 2 of the ELM Spatial Planning and Land Use Management By-law (2016) for the removal of restrictions A(b), B(b), and B(c) in Title T38073/2019, and for the simultaneous amendment of the Vereeniging Town Planning Scheme, 1992, by the rezoning of the property from "Residential 1" to "Residential 2" with a density of "20 dwelling units per hectare" restricted to a maximum of 8 dwelling units subject to certain conditions. The erf is located at 67 Brandmuller Drive, Three Rivers. The contact details of Munette Greeff, the agent handling the application, is 071 283 6541; munette@davidco.za; or No. 187, Road 4, Eloff, 2211. The application is open for inspection during office hours at the Department of Land Use Planning, EDP Building, Cnr. of President Kruger and Eric Louw Street, Vanderbijlpark for 28 days from 15 January 2021. Objections, representations, or comments on the application must be submitted in writing or by email to the abovementioned office, or at PO Box 3, Vanderbijlpark, 1900, or AntonM@emfuleni.gov.za on or before 11 February 2021. **NOTIFICATION OF AN ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (ACT NO. 107 OF 1998) FOR, UNITAS PARK, GAUTENG PROVINCE.**

GCS Ref No: 19.0921  
GDARD Ref No: 002/20-21/E0042

**Background and Project Description**  
The Department of Human Settlements (DHS) aims at fast tracking the release of serviced stands from State owned land to qualifying beneficiaries through the Gauteng Rapid Land Release Programme (GRLRP). As part of this programme, the Unitas Park - Extension 16 Development has been identified for implementation. The proposed project entails the phased establishment of a mixed-use residential development inclusive of the following land uses: low, medium and high density residential; student village; mixed use; innovation hub; social/educational; public open space and sports facility.  
The proposed project site is located on Portion 222 of the farm Houtkop 549 IQ within Unitas Park (Erf 2680), in-between the towns of Vereeniging, Sebokeng and Vanderbijlpark, falling within the Emfuleni Local Municipality and Sedibeng District Municipality. The site is approximately 149 hectares in extent, falls within the 2010 urban edge and is zoned as "agriculture".

**Project Progress and Participation:**  
GCS Water and Environmental Consultants (Pty) Ltd (GCS), has been appointed to undertake the necessary environmental processes for the above-mentioned Project and this notification forms part of the public consultation process as required by the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) EIA Regulations (2014, as amended) and the National Water Act, 1998 (Act 36 of 1998) (NWA).

**Opportunity to Participate:** Interested and affected parties ("I&APs") are hereby invited to register as a stakeholder for this Project. I&APs should please use the 19-0921 reference number when commenting and must provide their comments together with their name, contact details (preferred method of notification, e.g. e-mail address or fax number) and a disclosure of any direct business, financial, personal or other interest which that party may have in the approval or refusal of the application, to the contact persons indicated below, within **30 calendar days** (i.e. the deadline for comments is **15 February 2021**) from the date of commencement (**15 January 2021**) in accordance with the statutory requirements.

**Activities for which Environmental Authorisation is being sought:**  
The Project triggers the following potential Listed Activities in terms of the NEMA EIA Regulations (2014, as amended), the NWA and the National Heritage Resources Act (Act No. 25 of 1999):  
• GN R327, 07 April 2017, Listing Notice 1 - Activities 12, 25, 27, and 28  
• GN R325, 07 April 2017, Listing Notice 2 - Activities 15 and 25  
• GN R324, 07 April 2017, Listing Notice 3 - Activities 4, 12, 14 and 15  
• Section 21 of the NWA (Water Use License Application)  
• Section 38 of the NHRA (Heritage Permitting)

The Draft Scoping Report and Supporting Documentation can be accessed at the following link from 15 January 2021:

## INTRODUCTION

The purpose of this Background Information Document (BID) is to provide all Interested and Affected Parties (I&APs) with information in respect of the Application for Environmental Authorisation.

In addition to the aforesaid, the BID aims to:

- Introduce and explain the Scoping and Environmental Impact Assessment (S&EIA) Process, as well as other related parallel environmental processes;
- Introduce and explain the Public Participation Process (PPP), which is prescribed by the *National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA)*;
- Invite all I&APs to comment on:
  - The ecological, physical, socio- economic aspects of the project as well as any other issues of concern;
  - The proposed public participation and environmental assessment process, and
  - Any other suggestions which might be of relevance.

### WHAT IS AN S&EIA and EMP AND WHAT DO THEY CONTAIN?

The *National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA)* prescribes the processes to be followed when compiling the Scoping and Environmental Impact Assessment (S&EIA) and the Environmental Management Programme (EMP), in respect of the NEMA listed activities, which forms the legal basis of this authorisation.

The process aims to ensure that all relevant factors are considered when evaluating the potential environmental impacts of a project, as well as developing appropriate environmental management measures to mitigate these impacts. The purpose of the S&EIA is to assess the current environment in which a proposed activity will take place and assess all potential impacts in terms of its extent, duration, intensity and significance relating to the specific activity. The EMP describes the goals and objectives for environmental management to minimise or eliminate the potential environmental impacts; the action plans to bring effect to those goals and objectives; the procedures to be implemented to ensure integration of environmental management into the daily operations; as well as a plan to raise awareness of employees and the surrounding community with regards to environmental management.

**PROJECT BACKGROUND**

The Department of Human Settlements (DHS) aims at fast tracking the release of serviced stands form State owned land to qualifying beneficiaries through the Gauteng Rapid Land Release Programme (GRLRP). Phumaf Holdings (Pty) Ltd (Phumaf) was appointed as the responsible Managing Engineers to undertake all preliminary planning, planning, design and construction management to enable the release of the identified stands. GCS Water and Environmental Consultants (Pty) Ltd (GCS) has been sub-contracted by Phumaf to undertake the environmental authorisation (EA) processes and associated Public Participation Processes (PPP) required for the stands in order for compliance to the National Environmental Management Act (NEMA) (Act 107 of 1998, as amended) and/or Supporting Environmental Management Acts (SEMA's). This background information document (BID) provides the background details for the proposed development, associated exercises undertaken in order to comply with the required authorisation process, and acts as a baseline document for all interested and affected parties (I&APs).

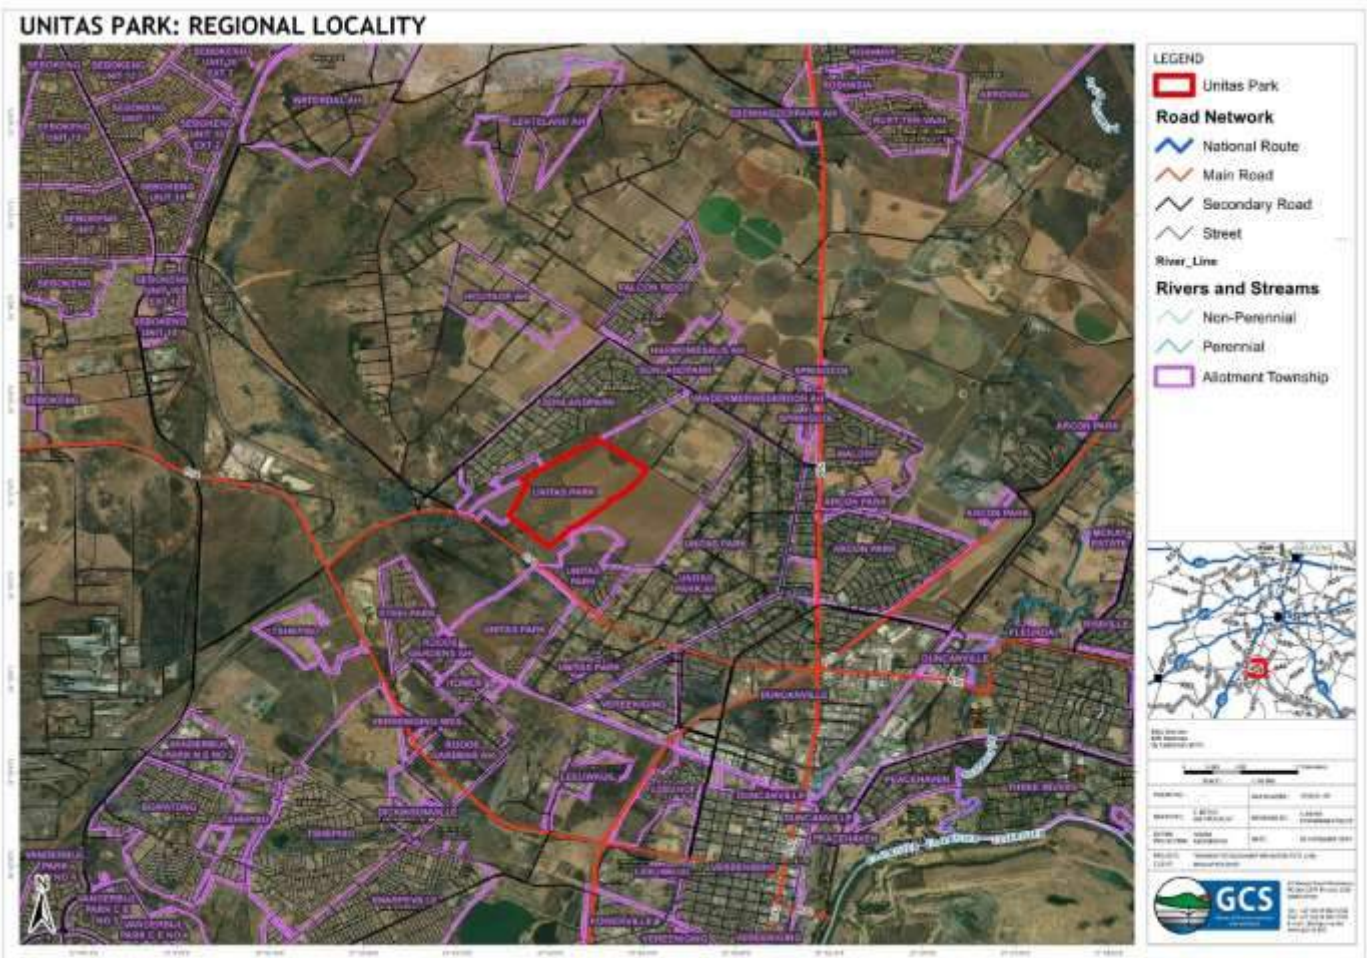

Figure 1: Site Locality Map and Regional Boundaries

**PROJECT DESCRIPTION**

The site is planned to have a township layout, with 2680 erven. This was approved; however, not proclaimed or registered due to constraints with the waste-water treatment capacity, and electricity upgrades required. The release strategy is for a proposed 7 250 units comprising of mixed high density and to achieve the proposed yield, the existing layout will have to be withdrawn and a new application submitted.

The area is located within Unitas Park, Vereeniging within the Sedibeng District Municipality and Emfuleni Local Municipality, 6 km north-west of the Vereeniging central business district (CBD), sandwiched between roads R54 and R42. The R82 is runs north-south approximately 2.3km to the east of the site. The N1 is about 11km to the west of the site and R54 runs through the site. Sebokeng lies to the north west of the site, with Vereeniging to the south east. The closest towns include Homer (3.1 km from the proposed site), Roods Gardens (3.3 km from the proposed site), Steelpark (4.9 km from the proposed site), Vereeniging (8.8 km from the proposed site) and Houtkop (9.6 km from the proposed site). Access to the site is via Skippie Botha and Langraad Roads and the predominant adjacent land use is residential and agricultural.

The area is currently zoned as Farmland on a dolomitic zone in terms of Geophysics. The site is approximately 149 hectares in extent and is owned by the Gauteng Provincial Government. The proposed site is currently vacant, with immediate adjacent land portions also being vacant. There is evidence of a wetland or some surface water on the site, as well as to the south east of the site. A drainage line appears to run from the site towards Houtkop Road to the south west, where the surface water drains under the road and continues to flow into a National Freshwater Ecosystem Protection Area (NFEPA). The buffer of the NFEPA includes a portion of the south west of the site.

Figure 3: Unitas Park Sensitivity Map

**LOCALITY**

Province:	Gauteng
District:	Sedibeng District Municipality
Local Municipality:	Emfuleni Local Municipalities
Extent:	149 hectares
Zoning:	Farmland
Ownership:	Gauteng Provincial Government Deed No. T942/2015
Current Use:	Vacant
Nearest Towns:	Homer, Roods Gardens, Steelpark, Vereeniging and Houtkop
Release Strategy:	Mixed High Density
Farm Portions affected:	225 of Farm Houtkop 594IQ.

**PROPOSED SPECIALIST ASSESSMENTS**

The following specialist studies are proposed:

- Aquatic ecology and wetland assessment;
- Ecological assessment;
- Soils, land use, land capability assessment;
- Wetland and aquatics;
- Heritage assessment;
- Traffic assessment; and
- Socio-economic assessment.

**REGULATORY CONTEXT:****THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (NEMA)**

Section 24(1) of NEMA requires that the potential consequences or impacts on the environment of listed activities must be considered, investigated, assessed and reported on to the competent authority. Where Environmental Impact Assessment has been identified as the instrument to be utilised, an application for EA needs to be submitted. The identified activities are listed under Government Notice (GN) R327, R325 and R324 of the 2014 NEMA Regulations respectively (as amended).

The listed activities (Table 1.1) triggered require an application for an EA in the form of an EIA process.

**NATIONAL WATER ACT, 1998 (ACT 36 OF 1998) (NWA)**

A Water Use License Application may need to be compiled and submitted to the Department of Human Settlement, Water and Sanitation (DHWS) to ensure the legality of the proposed project's water uses.

The Water Use License Application (if required) will be conducted for the project in parallel with the EIA and EMP process for any activity in terms of Section 21 of the NWA.

Table 1.1: Identified Listed Activities under NEMA

NR	Activity
<b>Listing Notice 1 (GN R327)</b>	
12	The development of– (i) dams or weirs, where the dam or weir, including infrastructure and water surface area, exceeds 100 square metres; or (ii) infrastructure or structures with a physical footprint of 100 square metres or more; where such development occurs – a) within a watercourse; b) in front of a development setback; or c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse.
25	The development and related operation of facilities or infrastructure for the treatment of effluent, wastewater or sewage with a daily throughput capacity of more than 2 000 cubic metres but less than 15 000 cubic metres.
27	The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for – (i) the undertaking of a linear activity; or (ii) maintenance purposes undertaken in accordance with a maintenance management plan.
28	Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare; excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.
<b>Listing Notice 2 (GN R325)</b>	
15	The clearance of an area of 20 hectares or more of indigenous vegetation, excluding where such clearance of indigenous vegetation is required for– (i) the undertaking of a linear activity; or (ii) maintenance purposes undertaken in accordance with a maintenance management plan.
25	The development and related operation of facilities or infrastructure for the treatment of effluent, wastewater or sewage with a daily throughput capacity of 15 000 cubic metres or more.
<b>Listing Notice 3 (GN R324)</b>	
4	The development of a road wider than 4 meters with a reserve less than 13.5 meters in c) Gauteng within (i) A protected area identified in terms of NEMPAA, excluding conservancies; (ii) National Protected Area Expansion Strategy Focus Areas; (iii) Gauteng Protected Area Expansion Priority Areas; (vii) Sites identified as high potential agricultural land in terms of Gauteng Agricultural Potential Atlas; (xii) Sites zoned for conservation use or public open space or equivalent zoning.
12	The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan, in c) Gauteng within (iii) On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.
14	The development of– (ii) infrastructure or structures with a physical footprint of 10 square metres or more; where such development occurs– a) within a watercourse; b) in front of a development setback; or c) if no development setback has been adopted, within 32 metres of a watercourse, measured from the edge of a watercourse. c) Gauteng (i) A protected area identified in terms of NEMPAA, excluding conservancies; (ii) National Protected Area Expansion Strategy Focus Areas; (iii) Gauteng Protected Area Expansion Priority Areas; (x) Sites zoned for conservation use or public open space or equivalent zoning.
15	The transformation of land bigger than 1000 square metres in size to residential, commercial, retail, industrial or institutional used where such land was zoned open space, conservation or had an equivalent zoning, on or after 02 August 2010. b) Gauteng (i) All areas.

## PUBLIC PARTICIPATION PROCESS

Public involvement is an essential part of any environmental assessment / authorisation process. You have been identified as an I&AP who may want to receive information regarding the above-mentioned project. You will be given the opportunity to provide your input into the EA process and to receive information. All comments will be recorded and presented to the project team and regulatory authorities. You will receive feedback on how your comments have been taken into account and the outcome of the assessment.

I&APs include any person who will be directly or indirectly involved and/or affected by the project. To be recognized as an I&AP one must register with GCS to be added to the stakeholder database for the project. You may communicate via fax, email or telephone to obtain further information or comment on the proposed project. All registered I&APs will be kept informed of the decision taken by the GDARD.

Proposed steps in the process are as follows:

<b>Step 1:</b> Notify I&APs and identify issues	<ul style="list-style-type: none"> <li>• Notify I&amp;APs of the project proposal;</li> <li>• Identify any issues/concerns of I&amp;APs;</li> <li>• Provide I&amp;APs with a BID on the project, including a locality map and a Registration and Comment Sheet; and</li> <li>• I&amp;APs are required to register their interest in the project to receive further project information.</li> </ul>
<b>Step 2:</b> I&AP review of Draft Scoping Report (DSR)	<ul style="list-style-type: none"> <li>• Issues and concerns raised by I&amp;APs are contained in a CRR;</li> <li>• The DSR is released for a <b>30-day</b> commenting period; and</li> <li>• All registered I&amp;APs on the project database are notified in writing of the opportunity to comment.</li> </ul>
<i>To assist I&amp;APs with their understanding of the project, a public meeting or consultation in a similar manner, to which all I&amp;APs are invited or will be involved, will be held during the review period. Copies of the report will be made available on request from GCS.</i>	
<b>Step 3:</b> Final Scoping Report (FSR)	<ul style="list-style-type: none"> <li>• Comments received from I&amp;APs during the review process are considered in the compilation of the FSR; and</li> <li>• The FSR is submitted to the Competent Authority.</li> </ul>
<b>Step 4:</b> Draft EIR and EMP for I&AP review	<ul style="list-style-type: none"> <li>• Compilation and release of a Draft EIR for a <b>30-day</b> review period.</li> </ul>
<b>Step 5:</b> Final EIR and Draft EMPR	<ul style="list-style-type: none"> <li>• The Final EIR, including the CRR and EMP will be compiled for submission to the Competent Authority for decision making.</li> </ul>
<b>Step 6:</b> Environmental Authorisation and Appeal Period	<ul style="list-style-type: none"> <li>• All registered I&amp;APs will be notified in writing of the decision by the Competent Authority regarding the authorisation, being positive or negative for the project. All I&amp;APs will also be notified of the appeal period, as well as the manner of appeal.</li> </ul>
<b>Public Notification</b>	<p>A major part of the PPP is to notify members of the public of the proposed activities, particularly those who may be directly or indirectly affected by the proposed project. This will be achieved via the following means:</p> <ul style="list-style-type: none"> <li>• The placement of an advertisement in a regional newspaper;</li> <li>• Notices in English will be placed at the site;</li> <li>• Distribution of BIDs to landowners and occupiers of land adjacent to the proposed prospecting area and to I&amp;APs on request; and</li> <li>• Local authorities will be notified in writing and automatically registered as I&amp;APs.</li> </ul>
<b>How to comment</b>	<ul style="list-style-type: none"> <li>• Should you wish to register as an I&amp;AP in order to be kept informed, please complete the registration form on the overleaf and submit to GCS via fax, post or email.</li> <li>• Any further enquiries can be directed to GCS telephonically, or via fax or email.</li> <li>• It is important that you provide your contact details so that we can respond to your comments or questions.</li> </ul>
<b>Kindly note that should you require any other party to be contacted, please provide their contact details as well.</b>

**NOTES:**

# APPENDIX D6

## Site Notices

# NOTIFICATION OF AN ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (ACT NO. 107 OF 1998) FOR UNITAS PARK, GAUTENG PROVINCE.

GCS Ref No: 19.0921  
GDARD Ref No: 002/20-21/E0042

## Background and Project Description

The Department of Human Settlements (DHS) aims at fast tracking the release of serviced stands from State owned land to qualifying beneficiaries through the Gauteng Rapid Land Release Programme (GRLRP). As part of this programme, the Unitas Park – Extension 16 Development has been identified for implementation. The proposed project entails the phased establishment of a mixed use residential development inclusive of the following land uses: low, medium and high density residential; student village; mixed use; innovation hub; social/educational; public open space and sports facility.

The proposed project site is located on Portion 222 of the farm Houtkop 549 IQ within Unitas Park, in-between the towns of Vereeniging, Sebokeng and Vanderbijlpark, falling within the Emfuleni Local Municipality and Sedibeng District Municipality. The site is approximately 149 hectares in extent and falls within the 2010 urban edge. The site is zoned as “agriculture”.

## Project Progress and Participation:

GCS Water and Environmental Consultants (Pty) Ltd (GCS), has been appointed to undertake the necessary environmental processes for the above-mentioned Project and this notification forms part of the public consultation process as required by the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) EIA Regulations (2014, as amended) and the National Water Act, 1998 (Act 36 of 1998) (NWA).

Opportunity to Participate: Interested and affected parties (“I&APs”) are hereby invited to register as a stakeholder for this Project. I&APs should please use the 19-0921 reference number when commenting and must provide their comments together with their name, contact details (preferred method of notification, e.g. e-mail address or fax number) and a disclosure of any direct business, financial, personal or other interest which that party may have in the approval or refusal of the application, to the contact persons indicated below, within 30 calendar days (i.e. the deadline for comments is **15 February 2021**) from the date of commencement (**15 January 2021**) in accordance with the statutory requirements.

### Activities for which Environmental Authorisation is being sought:

The Project triggers the following potential Listed Activities in terms of the NEMA EIA Regulations (2014, as amended), the NWA and the National Heritage Resources Act (Act No. 25 of 1999) (NHRA):

- GN R327, 07 April 2017, Listing Notice 1 – Activities 12, 25, 27, and 28
- GN R325, 07 April 2017, Listing Notice 2 – Activities 15 and 25
- GN R324, 07 April 2017, Listing Notice 3 – Activities 4, 12, 14 and 15
- Section 21 of the NWA (Water Use License Application)
- Section 38 of the NHRA (Heritage Permitting)

The Draft Scoping Report and Supporting Documentation can be accessed at the following link from 15 January 2021:

- [www.gcs-sa.biz/Documents](http://www.gcs-sa.biz/Documents)

**PLEASE NOTE:** Due to COVID19 restrictions, no hard copies of the report will be available for review at public venues. However, the report is available electronically via the GCS Website (link provided above) or a CD can be made available upon request.

Please submit all comments directly to GCS on or before **15 February 2021**, as follows:

Subject: RE: GRLRP: Unitas Park - Final Scoping Report (DSR)\_from 03 March 2021  
Date: 03.03.2021 13:53:48 (+0100)

Good day stakeholders

The Draft Scoping Report for the Unitas Park Township Development was made available for public review from 15 January to 15 February 2021. The report was finalised and no significant changes were made. The Final Scoping Report has been submitted to the competent authority, the Gauteng Department of Agriculture and Rural Development (GDARD) for their review and approval. A copy of the report can be downloaded from the GCS website at the following link - <http://www.gcs-sa.biz/documents/>.

Interested and Affected Parties are requested to submit any further comments on the Final Scoping Report to GCS between 03 March to 06 April 2021, see contact details below. Comments on the Final Scoping Report will be considered with the compilation of the Draft Environmental Impact Assessment Report (DEIAR).

GCS Water and Environment (Pty) Ltd (GCS)

**To:** Lehlo Mashego <[lehlo@gcs-sa.biz](mailto:lehlo@gcs-sa.biz)>  
**Cc:** Gerda Bothma <[gerdab@gcs-sa.biz](mailto:gerdab@gcs-sa.biz)>  
**Subject:** GRLRP: Unitas Park - Draft Scoping Report (DSR)\_from 15 Jan 2021

Dear stakeholders

I have spoken to a few of you personally to let you know of the Scoping and Environmental Impact Assessment (S&EIA) underway for the proposed Township Development in Unitas Park – Extension 16, Emfuleni Local Municipality.

Please find attached a Background Information Document (BID) with more information.

As mentioned to you, the Draft Scoping Report (DSR) is now available and may be accessed on the link provided below.

Link: <http://www.gcs-sa.biz/public-documents/>

We are engaging with all stakeholders virtually and advise that you contact the undersigned to schedule accordingly. Do note that you are welcome to distribute the attached information and the email to people in your area that may be interested and/or affected.

Note: Advertisements with regards to the opportunity to become involved were published in the Sedibeng Ster (13 January - 19 January 2021). Your participation in this project will be appreciated.

*Please make use of the attached comment sheet to provide your comments on the DSR on or before **15 February 2021**.*

Lehlogonolo Mashego / Gerda Bothma  
Tel: 011 803 5726, Fax: 011 803 5745,  
E-mail: [lehlo@gcs-sa.biz](mailto:lehlo@gcs-sa.biz) / [gerbab@gcs-sa.biz](mailto:gerbab@gcs-sa.biz)  
Mail: P O Box 2597, Rivonia, 2128

We are looking forward to your participation.

Kind regards  
Lehlogonolo Mashego

**APPENDIX D8**  
Comments & Response Report

# **Comments and Responses Report (CRR)**

**Version 3  
August 2021**

This Comments and Responses Report (CRR) **Version 3** provides a summary of the comments, questions and issues raised by stakeholders since the announcement of the application on 15 February 2021 for a Regulatory Process for an Environmental Authorisation for the proposed Unitas Park – Extension 16 Township Development in Gauteng Province.

- Version 1 of the CRR is appended to the Final Scoping Report and records issues and concerns raised during the announcement and consultative period of the project from 15 January 2021 to 15 February 2021.
- Version 2 of the CRR is appended to the Draft Environmental Impact Assessment Report and records issues and concerns raised during the consultative period of the project from 03 March 2021 to 06 April 2021.
- Version 3 of the CRR is appended to the Final Environmental Impact Assessment Report and records issues and concerns raised during the consultative period of the project from 20 July 2021 to 19 August 2021.

<b>APPENDIX A</b> .....	13
<b>APPENDIX B</b> .....	14
<b>APPENDIX C</b> .....	15

ISSUE OR CONCERN	CONTRIBUTOR		DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
<b>Comments received during the review period of the Draft Scoping Report (15 January to 15 February 2021)</b>					
<p>The proposed development will need to account for the service and maintenance issues present within the area. This includes but not subjected to the roads, sewage issues and electrical issues.</p>	Ms	Elize Aucamp	Emfuleni Local Municipality – Ward Councillor	18 Jan 2021	<p>Verbal, during site notice placement.</p> <p>Noted. All service and maintenance issues will be addressed during the assessment process. It can be noted that tthe proposed development requires 20MVA electricity supply. Of this 5MVA is already available at the Eskom Sonland Substation – Emfuleni installed this to supply the old Unitas Park project. This will suffice for the first 2 phases at least, and the balance will become available later. It should be noted that Emfuleni will take over operation and maintenance of the electrical network once the development is complete.</p> <p>Furthermore, the proposed development area falls within the Emfuleni Local Municipality (Metsi-A-Lekoa) Water jurisdiction and the municipality serves as both the Water and Sanitation Service Authority as well as the Water and Sanitation Service Provider.</p> <p>The Total Peak Water Demand for the proposed development=283,227 l/s or 25ML/day.</p> <p>The Emfuleni Local Municipality is responsible for the provision and maintenance of roads and stormwater infrastructure in its area of jurisdiction.</p>

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
						The Proposed development Total Peak Sewer discharge=203,891 l/s or 18ML/day.
It is not recommended that there be provision of students given the proximity of institutions from the site.	Ms	Elize Aucamp	Emfuleni Local Municipality – Ward Councillor	18 Jan 2021	Verbal, during site notice placement.	This comment has been noted and further investigation regarding the feasibility of the proposed student housing.
Where I should apply in order to obtain a stand in this portion of land (222 Houtkop 549 IQ, Unitas Park). Cause now we got many scams where people are robbed and occupy fraudulent land, please I need your help. May the lord be with you, thanks.	Mr	Abel Ignatius Mbele	Interested and affected party (I&AP)	18 Jan 2021	Email correspondence	Your query has been noted and brought to the attention of the applicant for further attention.
Forward me the map for Unitas Park Extension 16 Development. And process on land application	Mr	Lucas Matshela Sehanka	Gauteng Department of Sport, Arts, Culture and Recreation (GDSACR)	14 Jan 2021	Email correspondence	The request for the project maps was shared.  Please note that the Land Application for the proposed Township Establishment procedure for Emfuleni Local Municipality is done in terms of Section 44 of the Emfuleni Local Municipality Spatial Planning and Land Use Management By-Law, 2016.
All development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <a href="http://sahra.org.za/sahris/">http://sahra.org.za/sahris/</a> . We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.  Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Amendment Application Process. As per section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the	Ms	Nokukhanya Khumalo	South African Heritage Resources Agency (SAHRA)	18 Jan 2021	Email correspondence	Thank you for the email below.  Please note that a case has been opened, we have not yet received the case ID as that would've been shared for ease of reference.

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
<p>assessment must comply with section 38(3) of the NHRA.</p> <p>Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA Amendment process are submitted as part of the application.</p>						
<p>Sonlandpark, Falcon Ridge, Waldrift, Duncanville and surroundings areas are already struggling with power and water infrastructure. A project like this will place extra strain on an already weak infrastructure and should not be done.</p>	Mr	Herman van Staden	Homeowner	21 Jan 2021	Email correspondence with Comments and Registration form as deliverable	<p>The proposed development requires 20MVA electricity supply. Of this 5MVA is already available at the Eskom Sonland substation – Emfuleni installed this to supply the old Unitas Park project. This will suffice for the first 2 phases at least, and the balance will become available later. It should be noted that Emfuleni will take over operation and maintenance of the electrical network once the development is complete.</p>
<p>Sonlandpark, Falcon Ridge, Waldrift, Duncanville and surroundings areas are already struggling with power and water infrastructure. A project like this will place extra strain on an already weak infrastructure and should not be done.</p>	Ms	Alta Oosthuizen	Homeowner	21 Jan 2021	Email correspondence with Comments and Registration form as deliverable	
<p>Sonlandpark, Falcon Ridge, Waldrift, Duncanville and surroundings areas are already struggling with power and water infrastructure. A project like this will place extra strain on an already weak infrastructure and should not be done.</p>	Mr	Christo Oosthuizen	Homeowner	22 Jan 2021	Email correspondence with Comments and Registration form as deliverable	<p>The proposed development will discharge into the Leeuwkuil wastewater treatment works which according to Emfuleni still need to be upgraded and rehabilitated in order to accommodate future developments like the proposed Unitas Park Ext 16. There is a proposal of an on-site above ground WWTW for the proposed development. The treatment plant will comprise of 2x10 MLPD Aboveground Steel Tank Wastewater Treatment Facility.</p>
<p>Sonlandpark, Falcon Ridge, Waldrift, Duncanville and surroundings areas are already struggling with power and water infrastructure. <p>Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application, and are submitted to SAHRA at the beginning of the Public Review periods. Once all these documents have been uploaded, I will be able to issue an informed comment as per section 38(4) and 38(8) of the NHRA.</p>						
<p>It is clearly stated that the township layout for 2680 erven was approved but must be withdrawn and a new application must be submitted. I Therefore see no reason for any comments on the current development and request that the new application be made available to us for further comments.</p>	Cllr	Elize Aucamp	Ward Councillor	17 Feb 2021	Email correspondence	<p>Correct, a township application on the said property with a township layout for 2680 erven was approved previously, however it will be withdrawn as it has lapsed and as indicated in the Draft Scoping Report (DSR), did not accommodate different residential densities and it did not comply with the latest environmental and geotechnical requirements for the site. Comments therefore are not required for the previously approved application, but for the new application as is contained in the Urban Design Framework and as envisaged within the DSR.</p>
<p>I was instructed by the community to ask that a public participation meeting be held, not all the residents has access to emails, data etc and therefore the process is not fair.</p>	Cllr	Elize Aucamp	Ward Councillor	17 Feb 2021	Email correspondence	<p>The request for a public participation meeting has been noted and further public engagement during the environmental impact assessment phase of the project will take this request into consideration.</p>
<p>The Scoping Report must comply with Regulation 21 (3) of the Environmental Impact Regulations, 2014 as amended, and must contain all information set out in Appendix 2 of the above -mentioned Regulations.</p>	Mr	Steven Mukhola	Gauteng Department of Agriculture and Rural Development	23 Feb 2021	Email correspondence	<p>The Scoping Report has been compiled in terms of Appendix 2 of the EIA Regulations, 2014 as amended.</p>

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
			(GDARD) – Director: Impact Management			
A description of all the activities to be undertaken must be listed, specified and must be inclusive of all associated structures and infrastructures such as access routes and bulk services connection.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	The details of all proposed activities to be undertaken have been included in Section 1.6 of the Scoping Report.
The development footprint size of the proposed activity must be clearly defined in relation to the site development and layout plan.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	Noted. Detailed maps will be provided to indicate the development footprint vs the site development and layout plan.
The proposed development must correspond with activities applied for under the Environmental Impact Assessment (EIA) Regulations, 2014 as amended.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	All activities applied for under the EIA Regulations, 2014 as amended are in line with the proposed developmental works and objectives.
The draft scoping report indicates the presence of unchanneled valley bottom within the study area.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	That is correct, further investigation is underway.
A detailed site development and layout plan overlain by a composite sensitivity map must be attached in scoping report. This plan must be an A3 size and take into consideration all activities listed inclusive of associated infrastructure such as access routes and bulk services connection. The plan must also reflect buffer zones as indicated on page 34 of the Ecological Impact Assessment Report prepared by Gareth Preen dated 24 March 2020.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	The detailed site development and layout plan has been appended in the Scoping Report.
The proposed site is affected by a dolomite in terms of the Department recommend that a dolomite stability assessment be conducted and be included in the draft EIAR.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	The dolomite stability assessment has been initiated and will further form part of the submission of the DEIAR.
Comparative assessment of all alternatives taking into consideration, the sensitive areas on the site, surrounding land uses, nature and scale of activity components must be done, and outcomes reported.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	Noted, thank you. A comparative assessment will form part of the assessment process.

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
A credible method of impact assessment, impact identification, rating and mitigation must be used to determine the impact of the proposed development on the biophysical environment on the site.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	Noted, thank you. A credible methods of impact assessment will be used during the EIA phase
1.1 A detailed master storm water management plan (SWMP) must comply with the Sustainable Urban Drainage Systems (SUDS) Principles and consider source, local and regional controls.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	Noted, thank you. The Master SWMP will comply with the SUDS principles and will further be included in the EIA phase.
1.2 A site (project) specific Environmental Management Programme (EMPr) which is practical and enforceable is attached the draft scoping report. However, the EMPr must be in line with the content requirement as stipulated in Appendix 4 of the Environmental Impact Assessment (EIA) Regulations, 2014, and must incorporate management and mitigation measures to impacts identified during the assessment and in the specialist studies.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	The compilation of the site-specific EMP is based on Appendix 4 of the EIA Regulations, 2014 as amended.
1.3 The Public Participation process (PPP) must be carried out in accordance with the minimum requirements of Chapter 6, Public Participation, GN R326, of the EIA Regulations 2014 as amended.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	The nature of the conducted PPP is in line with Chapter 6 of the EIA Regulations, 2014 as amended. It is to be further noted that given the respectively Covid-19 guidelines, alternatives were and will further be applied to ensure that all protocols are followed.
1.4 All the specialist studies included in the Draft Scoping Report must be included in the Draft EIAR not in the Final Scoping Report.	Mr	Steven Mukhola	GDARD – Director: Impact Management	23 Feb 2021	Email correspondence	Noted, thank you.
<b>Comments received during the review period of the Final Scoping Report (03 March to 06 April 2021)</b>						
The scoping report and plan of study for environmental impact assessment which is submitted in respect of the above-mentioned application and received by this Department on 02 March 2021 has been approved.	Ms	Xoliswa Bobelo	GDARD – Control Environment al Officer	24 Mar 2021	Email correspondence	Noted, thank you.

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
You may accordingly proceed with undertaking the environmental impact assessment in accordance with the tasks that are outlined in the plan of then study for environmental impact assessment.						
1. The EIAR must comply with Appendix 3 of the Environmental Impact Regulations (EIAR), 2014 as amended.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted. GCS herewith confirm that the EIAR is in compliance with Appendix 3 of the EIA Regulations 2014 (as amended).
2. A description of all the activities to be undertaken must be listed, specified and must be inclusive of all associated structures and infrastructures such as access route and bulk services connection.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	The comments has been noted.
3. The proposed development must correspond with activities applied for under the Environmental Impact Assessment (EIA) Regulations, 2014 as amended.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted, GCS will ensure that the development correspond with activities applied for in terms of the EIA Regulations 2014 (as amended).
4. The development footprint size of the proposed activity must be clearly defined in relation to the site development and layout plan.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	The comment has been noted.
5. The report indicated the presence if unchanneled valley bottom 1 within the study area. However, the Sensitivity Map Number 19-0921-16-V2 drawn by N Naidoo and reviewed by L Mashego date 26 February 2021 indicate that the proposed development intrudes the edge of the 500m River Buffer, but located outside the 32m buffer zone measured from the edge of the riparian zone.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	The comment has been noted and alignment will finalised prior to the submission of the FEIR.
6. A detailed site development and layout plan date 2021-02-22 attached as Appendix D in the report must be overlain by the sensitivity map number 19-0921-16-V2 dated 26 February 2021. This plan must be an A3 size and take into consideration all activities listed inclusive of associated infrastructure such as access routes and bulk services connection and must reflect proper legend.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted. Please refer to Figure 5-1 of the Draft EIR for the required detailed site development and layout sensitivity plan.

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
7. Phases 1 and 4 of the proposed development as indicated in the site development and layout plan are affected by a dolomite in terms of the Department's Geographic Information System. Therefore, the Department recommend that a dolomite stability assessment be conducted and form part of the application for an environmental authorisation.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted. Please refer to Appendix B1 of the Draft EIR for Dolomite Stability Investigation.
8. Comparative assessment of all alternatives taking into consideration, the sensitive areas on the site, surrounding land uses, nature and scale of the activity components must be done, and outcomes reported.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted, a detailed comparative assessment has been included in the Draft EIR. Please refer to Section 5.
9. A credible method of impact assessment, impact identification, rating and mitigation must be used to determine the impact of the proposed development inclusive of the proposed on-site above ground biological wastewater treatment facility on the biophysical environment on the site.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted, please refer to the Draft EIR; Section 10 for the methodology and Section 12 for the impact assessment.
10. A detailed master storm water management plan for the site (including storm water management measures to be installed for the operational phase) must be developed by a suitably qualified engineer and approved by the Local Municipality.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	A detailing Preliminary Design Report (PDR) has been developed with an inclusion of storm water management plan outline.
11. A site (project) specific Environmental Management Programme (EMPr) which is practical and enforceable is attached the scoping report. However, the EMPr must be in line with the content requirements as stipulated in Appendix 4 of the Environmental Impact Assessment (EIA) Regulations, 2014, and must incorporate management and mitigation measures to impacts identified during the assessment and in the specialist studies.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted. Please refer to Appendix E of the Draft EIR for the site specific EMPr. GCS confirm that the aforementioned EMPr has been compiled in accordance with the requirements of Appendix 4 of the EIA Regulations of 2014 (as amended).
12. The Public Participation process must be carried out in accordance with the minimum requirement	Ms	Xoliswa Bobelo	GDARD – Control	24 Mar 2021	Email correspondence	Noted. Public consultation is being undertaken in accordance with Chapter 6 of the EIA Regulations of 2014 (as

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
of Chapter 6, Public Participation, GN 326, of the EIA Regulations 2014 as amended.			Environmental Officer			amended), taking cognisance of all required Covid-19 protocols.
13. A confirmation from the relevant authority with regards to provision of bulk services (e.g. water supply, sewerage and waste disposal, energy, storm water) and related services such as road infrastructures is required. This must include a description infrastructure, specifications, layout, capacity and the planned routes.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Written feedback is currently pending from the relevant departments, however consultation with the responsible municipal has been undertaken with the Technical Team.
14. The Specialist Reports which are attached as Appendix C “Specialist Reports” in the draft scoping report and any other Specialist Studies recommended must form part of the environmental impact assessment report.	Ms	Xoliswa Bobelo	GDARD – Control Environmental Officer	24 Mar 2021	Email correspondence	Noted. All specialist reports have been included as part of this Draft EIR, please refer to Appendix B.
<b>Comments received during the review period of the Draft Environmental Impact Report (20 July to 19 August 2021)</b>						
The report is being circulated in Emfuleni Land Use Management department for comments.	Ms	Moratuwa Mthimkhulu	Emfuleni Local Municipality	20 Jul 2021	Email correspondence	The comment has been noted.
Thank you for the notifying SAHRA about the progress on this application, please upload the documents to the relevant case on SAHRIS. If a case has not been created, please create it and upload all documents to receive comments on SAHRIS.	Ms	Nokukhanya Khumalo	South African Heritage Resources Agency	21 Jul 2021	Email correspondence	The comment has been noted.
<b>Comments received after the review period of the Draft Environmental Impact Report</b>						
1 The proposed Unitas Park Township Development is rightfully listed under Listing Notice 1(GN R327), Listing Notice 2 (GN R325) and Listing Notice 3(GN R324). This means that the potential impacts of this activity must be considered, investigated and assessed and reported to the authority.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. The potential impacts associated with the proposed development activities have been considered, investigated and assessed in the EIA Report. Please refer to Section 10 of the report.

ISSUE OR CONCERN	CONTRIBUTOR		DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE	
2 On the document it is rightfully mentioned that there is a wetland on the site, as well as to the south east of the site. A drainage line run from the site towards Houtkop Road to the south west, where the surface water drains under the road and continues to flow into a National Freshwater Ecosystem Protection Area. The proposed development will have an impact on the amount and speed of water that will flow into the National Freshwater Ecosystem Protection Area.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. Please refer to the Ecological and Wetland Study in Appendix B4, the Hydrological Study in Appendix B3 and the EMPr in Appendix E for information and mitigation measures pertaining the aquatic environment of the development site and additional mitigation measures in the EMPr.
3 Specific ecological measures must be undertaken to slow or control the flow of water coming from the proposed development. Soil erosion from the site and from storm water must be mitigated to ensure that soil that is washed from the site does not have adverse effects on the National Freshwater Ecosystem Protection Area.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. Please refer to the various mitigation measures outlined within the EMPr in Appendix E and the Ecological and Wetland Study in Appendix B4 as well as the Hydrological Study in Appendix B3.
4 If the Environmental Authorization is issued and development starts, the impacts of dust from the site must be managed by suppression. Proper waste management must be introduced and maintained throughout the life of the development. Burning of any waste is prohibited and is punishable by municipal by-laws.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. Please refer to the various mitigation measures in this regard as outlined within the EMPr in Appendix E.
5 A proper Spill Response Plan must be developed and implemented throughout the life of the development. This is to cater for any accidental fuel/oil spillages during construction. Any accidental spillages are to be reported to authorities and recorded.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. Please refer to the measures outlined within the EMPr in Appendix E in this regard.
6 No contaminated water, fuel or oil spillages must be allowed to enter the ground water, aquifer or municipal storm water system. If any of the above accidentally occurs, it must be stopped, mitigated and reported to authority.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. Please refer to the measures outlined within the EMPr in Appendix E in this regard.
7 A Storm Water Management Plan must be developed to properly control, channel and manage storm water runoff from the site. Any soil and rubble dug from the site during development must be		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted. Stormwater management measures were addressed as part of the Civil Engineering Services Preliminary

ISSUE OR CONCERN	CONTRIBUTOR			DATE OF CONTRIBUTION	MEANS OF CONTRIBUTION	RESPONSE
disposed of according to proper waste management protocol.						Design Report compiled by Phumaf (March 2021) and included as an Appendix within the Hydrological Study In Appendix B3. For waste management protocols, please refer to the measures outlined in the EMPr in Appendix E.
8 Environmental Management Inspectors are to be given full access and cooperation as they will be regularly conducting site inspections to monitor and to enforce compliance with the Environmental Authorization. The Section supports the Unitas Park Township Development subject to compliance with above conditions.		Zamani Mabena	Emfuleni Local Municipality	24 August 2021	Email correspondence	The comment has been noted, thank you.

**To:** Lehlo Mashego  
**Subject:** inquiry

Good morning Hloni I hope you are doing well under this pandemic period. My name is Abel Mbele and I am hereby requesting to you if you can assist me with the information regarding to where I should apply in order to obtain a stand in this portion of land ( 222 Houtkop 549 IQ, Unitas Park ). Cause now we got many scams where people are robbed and occupy fraudulent land, please I need you help. May the lord be with you, thanks.

## **APPENDIX B**

Email Correspondence

**From:** Lehlo Mashego  
**Sent:** Tue, 19 Jan 2021 11:47:59 +0000  
**To:** Nokukhanya Khumalo  
**Cc:** Gerda Bothma  
**Subject:** RE: GRLRP: Unitas Park - Draft Scoping Report (DSR)\_from 15 Jan 2021

Good Day Nokukhanya

Thank you for the email below.

Please note that a case has been opened, we have not yet received the case ID as that would've been shared for ease of reference.

Kind regards  
Lehlogonolo

**Cc:** Gerda Bothma <gerdab@gcs-sa.biz>  
**Subject:** RE: GRLRP: Unitas Park - Draft Scoping Report (DSR)\_from 15 Jan 2021

Good morning,

Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <http://sahra.org.za/sahris/>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.

Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Amendment Application Process. As per section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA.

Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA Amendment process are submitted as part of the application.

Kind Regards,  
Nokukhanya Khumalo

**Subject:** GRLRP: Unitas Park - Draft Scoping Report (DSR)\_from 15 Jan 2021

Dear stakeholders

I have spoken to a few of you personally to let you know of the Scoping and Environmental Impact Assessment (S&EIA) underway for the proposed Township Development in Unitas Park – Extension 16, Emfuleni Local Municipality.

Please find attached a Background Information Document (BID) with more information.

As mentioned to you, the Draft Scoping Report (DSR) is now available and may be accessed on the link provided below.

Link: <http://www.gcs-sa.biz/public-documents/>

We are engaging with all stakeholders virtually and advise that you contact the undersigned to schedule accordingly. Do note that you are welcome to distribute the attached information and the email to people in your area that may be interested and/or affected.

Note: Advertisements with regards to the opportunity to become involved were published in the Sedibeng Ster (13 January - 19 January 2021). Your participation in this project will be appreciated.

*Please make use of the attached comment sheet to provide your comments on the DSR on or before **15 February 2021**.*

Good day Alta

Apologies for the delayed response.

Do note that your registration form has been received and thank you for your contribution.

It is to be noted that all received comments will be incorporated and addressed into the Comments and Response Report (CRR). The first version of the CRR will be made available along with the distribution of the Final Scoping Report.

Additionally, the draft Scoping Report may still be accessed on the link provided below.

Link: <http://www.gcs-sa.biz/public-documents/>

Should you wish to engage further, please do not hesitate to contact us accordingly

Kind regards  
Lehlogonolo

Good day Mr Lekgotla

Following the email below regarding the available draft Scoping Report for Unitas Park Township Development, may you kindly assist with the below detailed aspect/s.

We are currently running the consultation period and as such have identified the municipality as a key stakeholder, given this we would appreciate comment from the municipality with comments/input from the Environmental, Planning and Engineering departments respectively.

Kindly advise on the need for any additional information regarding the proposed project.

Kind regards  
Lehlogonolo  
(076 837 5240)

Subject: RE: GRLRP: Unitas Park - Final Scoping Report (DSR)\_from 03 March 2021  
Date: 03.03.2021 13:53:48 (+0100)

Good day stakeholders

The Draft Scoping Report for the Unitas Park Township Development was made available for public review from 15 January to 15 February 2021. The report was finalised and no significant changes were made. The Final Scoping Report has been submitted to the competent authority, the Gauteng Department of Agriculture and Rural Development (GDARD) for their review and approval. A copy of the report can be downloaded from the GCS website at the following link - <http://www.gcs-sa.biz/documents/>.

Interested and Affected Parties are requested to submit any further comments on the Final Scoping Report to GCS between 03 March to 06 April 2021, see contact details below. Comments on the Final Scoping Report will be considered with the compilation of the Draft Environmental Impact Assessment Report (DEIAR).

GCS Water and Environment (Pty) Ltd (GCS)

Good day stakeholders

Following the finalisation of the Scoping Phase, kindly note that the Draft Environmental Impact Report (DEIR) is now available for your review.

The DEIR includes the various specialist assessments conducted for the study as well as the Environmental Management Programme (EMPr) and is electronically available for review and comment from **20 July to 19 August 2021.**

Readers are referred to the complete version of the DEIR and the document can be accessed electronically at <http://www.gcs-sa.biz/documents/>.

Please provide your written comment by using the attached comment sheet or send us an email. All comments received will be recorded in the Comments and Responses Report (CRR). Please review comments received thus far and responses to those comments in the CRR which is appended to the DEIR. Comments made and received during the review of this report will be included in the CRR which will be included in the Final Environmental Impact Report (FEIR).

Comments on the DEIR should reach GCS by **19 August 2021** and can be forwarded to:

**Subject:** RE: GRLRP: Unitas Park - Final Scoping Report (FSR)\_from 03 March 2021

Good day stakeholders

The Draft Scoping Report for the Unitas Park Township Development was made available for public review from 15 January to 15 February 2021. The report was finalised and no significant changes were made. The Final Scoping Report has been submitted to the competent authority, the Gauteng Department of Agriculture and Rural Development (GDARD) for their review and approval. A copy of the report can be downloaded from the GCS website at the following link - <http://www.gcs-sa.biz/documents/>.

Interested and Affected Parties are requested to submit any further comments on the Final Scoping Report to GCS between 03 March to 06 April 2021, see contact details below. Comments on the Final Scoping Report will be considered with the compilation of the Draft Environmental Impact Assessment Report (DEIAR).

Dear stakeholders

I have spoken to a few of you personally to let you know of the Scoping and Environmental Impact Assessment (S&EIA) underway for the proposed Township Development in Unitas Park – Extension 16, Emfuleni Local Municipality.

Please find attached a Background Information Document (BID) with more information.

As mentioned to you, the Draft Scoping Report (DSR) is now available and may be accessed on the link provided below.

Link: <http://www.gcs-sa.biz/public-documents/>

We are engaging with all stakeholders virtually and advise that you contact the undersigned to schedule accordingly. Do note that you are welcome to distribute the attached information and the email to people in your area that may be interested and/or affected.

Note: Advertisements with regards to the opportunity to become involved were published in the Sedibeng Ster (13 January - 19 January 2021). Your participation in this project will be appreciated.

*Please make use of the attached comment sheet to provide your comments on the DSR on or before **15 February 2021**.*

Lehlogonolo Mashego / Gerda Bothma

**COMMENTS ON THE DRAFT SCOPING REPORT FOR THE PROPOSED DEVELOPMENT OF  
UNITAS PARK EXTENSION 16 ON PORTION 225 OF THE FARM HOUTKOP 594 IQ,  
EMFULENI LOCAL MUNICIPALITY**

The above matter has reference.

This letter serves to inform you that the Department of Agriculture and Rural Development ("the Department") has reviewed the above-mentioned application report.

The Department will like to comment as follows:

- The Scoping Report must comply with Regulation 21 (3) of the Environmental Impact Regulations, 2014 as amended, and must contain all information set out in Appendix 2 of the above-mentioned Regulations.
- A description of all the activities to be undertaken must be listed, specified and must be inclusive of all associated structures and infrastructures such as access routes and bulk services connection.
- The development footprint size of the proposed activity must be clearly defined in relation to the site development and layout plan.
- The proposed development must correspond with activities applied for under the Environmental Impact Assessment (EIA) Regulations, 2014 as amended.
- The draft scoping report indicates the presence of unchanneled valley bottom within the study area.
- A detailed site development and layout plan overlain by a composite sensitivity map must be attached in scoping report. This plan must be an A3 size and take into consideration all activities listed inclusive of associated infrastructure such as access routes and bulk services connection. The plan must also reflect buffer zones as indicated on page 34 of the Ecological Impact Assessment Report prepared by Gareth Preen dated 24 March 2020.
- The proposed site is affected by a dolomite in terms of the Department's Geographic Information System. Therefore, the Department recommend that a dolomite stability assessment be conducted and be included in the draft EIAR.
- Comparative assessment of all alternatives taking into consideration, the sensitive areas on the site, surrounding land uses, nature and scale of activity components must be done, and outcomes reported.
- A credible method of impact assessment, impact identification, rating and mitigation must be used to determine the impact of the proposed development on the biophysical environment on the site.

- 1.1 A detailed master storm water management plan must comply with the Sustainable Urban Drainage Systems (SUDS) Principles and consider source, local and regional controls.
- 1.2 A site (project) specific Environmental Management Programme (EMPr) which is practical and enforceable is attached the draft scoping report. However, the EMPr must be in line with the content requirements as stipulated in Appendix 4 of the Environmental Impact Assessment (EIA) Regulations, 2014, and must incorporate management and mitigation measures to impacts identified during the assessment and in the specialist studies.
- 1.3 The Public Participation process must be carried out in accordance with the minimum requirements of Chapter 6, Public Participation, GN. R326, of the EIA Regulations 2014 as amended.
- 1.4 All the specialist studies included in the Draft Scoping Report must be included in the Draft EIAR not in the Final Scoping Report.

If you have any queries regarding the contents of this letter, please contact the official of the Department at the number or email address indicated above.

Yours faithfully,

Mr. Steven Mukhola  
Director: Impact Management  
Date: 19/02/2021

**ACCEPTED SCOPING REPORT: THE PROPOSED DEVELOPMENT OF UNITAS PARK  
EXTENSION 16 ON PORTION 225 OF THE FARM HOUTKOP 594 IQ. EMFULeni LOCAL  
MUNICIPALITY**

The scoping report and plan of study for environmental impact assessment which is submitted in respect of the above-mentioned application and received by this Department on 2 March 2021 has been approved. You may accordingly proceed with undertaking the environmental impact assessment in accordance with the tasks that are outlined in the plan of study for environmental impact assessment.

Notwithstanding the above, your attention is drawn to the following requirements that must be addressed in the Environmental Impact Assessment Report (EIAR):

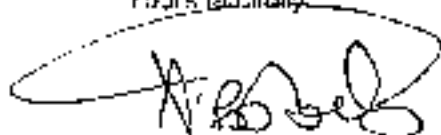

- 1) The EIAR must comply with Appendix 3 of the Environmental Impact Regulations (EIAR), 2014 as amended.
- 2) A description of all the activities to be undertaken must be listed, specified and must be inclusive of all associated structures and infrastructures such as access routes and bulk services connection
- 3) The proposed development must correspond with activities applied for under the Environmental Impact Assessment (EIA) Regulations, 2014 as amended.
- 4) The development footprint size of the proposed activity must be clearly defined in relation to the site development and layout plan.
- 5) The report indicates the presence of unchanneled valley bottom 1 within the study area. However, the Sensitivity Map Number 19-0921-16-V2 drawn by N Naidoo and reviewed by I Mashoga dated 26 February 2021 indicate that the proposed development intrudes the edge of the 500m River Buffer, but located outside the 32m buffer zone measured from the edge of a riparian zone.
- 6) A detailed site development and layout plan dated 2021-02-22 attached as Appendix D in the report must be overlain by the sensitivity map number 19 0921-16-V2 dated 26 February 2021. This plan must be an A3 size and take into consideration all activities listed inclusive of associated infrastructure such as access routes and bulk services connection and must reflect proper legend.

- 7) Phases 1 and 4 of the proposed development as indicated in the site development and layout plan are affected by a dolomite in terms of the Department's Geographic Information System. Therefore, the Department recommends that a dolomite stability assessment be conducted and form part of this application for an environmental authorisation.
- 8) Comparative assessment of all alternatives taking into consideration, the sensitive areas on the site, surrounding land uses, nature and scale of activity components must be done, and outcomes reported.
- 9) A credible method of impact assessment, impact identification, rating and mitigation must be used to determine the impact of the proposed development *inclusive of the proposed on-site above ground biological wastewater treatment facility* on the biophysical environment on the site.
- 10) A detailed master storm water management plan for the site (including storm water management measures to be implemented temporarily during the construction phase and permanent measures to be installed for the operational phase) must be developed by a suitably qualified engineer and approved by the Local Municipality.
- 11) A site (project) specific Environmental Management Programme (EMPr) which is practical and enforceable is attached to the scoping report. However, the EMPr must be in line with the content requirements as stipulated in Appendix 4 of the Environmental Impact Assessment (EIA) Regulations, 2014, and must incorporate management and mitigation measures to impacts identified during the assessment and in the specialist studies.
- 12) The Public Participation process must be carried out in accordance with the minimum requirements of Chapter 6, Public Participation, GN. R325, of the EIA Regulations 2014 as amended.
- 13) A confirmation from the relevant authority with regards to provision of bulk services (e.g. water supply, sewerage and waste disposal, energy, storm water) and related services such as road infrastructures is required. This must include a description of the infrastructure, specifications, layout, capacity and the planned routes.
- 14) The following Specialist Reports which are attached as Appendix C "Specialist Reports" in the draft scoping report and any other Specialist Studies recommended must form part of the environmental impact assessment report:
  - Ecological Impact Assessment Report prepared by Gareth Preen dated 24 March 2020.
  - Bulk Services Availability Report prepared by Rofhiwa Mabohe dated 17 October 2019.
  - Bulk Electrical Services Report prepared by Kenneth Chitenhe dated 25 September 2019.
  - Outline Scheme Report prepared by Kenneth Chitenhe dated 22 May 2020.
  - Traffic Impact and Access Study Report prepared by Sikelele Mnguni dated 2 November 2020.
  - Civil Engineering Services Outline Scheme Report prepared by Edward Williams dated 20 May 2020.
  - Heritage Impact Assessment Report prepared by Mr. J. van der Wall dated March 2020.
  - Palaeontological Impact Assessment Report prepared by Prof Marion Barnford dated 9 March 2020.
  - Agricultural Agro-Ecosystem Specialist Assessment Report prepared TerraAfrica Consult cc dated 22 October 2020.
  - Socio-Economic Impact Assessment Study prepared by Urban-Econ dated April 2020.

If you have any queries regarding the contents of this letter, please contact the official of the Department at the number or email address indicated above.

#### **RE: REQUEST FOR EXTENSION OF SUBMISSION TIMEFRAME FOR THE ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR THE PROPOSED TOWNSHIP DEVELOPMENT ON ERF 2630 UNITAS PARK EXTENSION 16, EMFULENI LOCAL MUNICIPALITY, GAUTENG PROVINCE**

Following the planned submission of the Draft and thereafter the Final Environmental Impact Assessment Report (EIR), GCS Water and Environment Consultants (Pty) Ltd herewith would like to request extension of the submission deadline for the aforementioned EIR (GAUT 002/20-21/E0042), in terms of Section 3(7) of the EIA Regulations, 2017 (GNR 326).

Following the comments received from the Department dated 19 March 2021, kindly note that in order to ensure that the following expressed components are fulfilled prior to the submission of the EIR, an extension to the legislated EIA process timeframe will be required:

- Finalisation of Specialist Assessments to account for all potential impacts. Investigations is currently in process and preliminary indications from the specialists is that the reports would only be available mid-June.
- Sourcing of the required zoning certificate - a request has been made prior to the submission of the application to the Department, however the project team has not yet been successful. The project team will keep following up on the request but the reference of engagement with the relevant department will be appended to the EIR.
- Comparative assessment of alternatives considered and site selection motivation.
- Sourcing of commenting authority comments, including Emfuleni Local Municipality and Department of Human Settlement, Water and Sanitation.

- An updated, detailed Stormwater Management Plan is required.

The Applicant and the responsible Environmental Assessment Practitioner (EAP) is currently addressing these components as well as the concerns raised by the interested and affected parties (I&APs). Based on the additional works required, which were not anticipated, we therefore respectfully request an extension of the legislated timeframe to resolve all of the aspects outlined above. It is envisaged the Final EIR, upon completion of the additional specialist study and subsequent 30-day public participation process, will be submitted by end July 2021.

Please do not hesitate to contact us should you have any queries regarding the above.

Kind regards

Gerda Bothma

#### **RE: REQUEST FOR EXTENSION OF SUBMISSION TIMEFRAME FOR THE ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR THE PROPOSED TOWNSHIP DEVELOPMENT ON ERF 2630 UNITAS PARK EXTENSION 16, EMFULENI LOCAL MUNICIPALITY, GAUTENG PROVINCE**

Following the planned submission of the Draft and thereafter the Final Environmental Impact Assessment Report (EIR), GCS Water and Environment Consultants (Pty) Ltd herewith would like to request extension of the submission deadline for the aforementioned EIR (GAUT 002/20-21/E0042), in terms of Section 3(7) of the EIA Regulations, 2017 (GNR 326).

Following the comments received from the Department dated 19 March 2021, kindly note that in order to ensure that the following expressed components are fulfilled prior to the submission of the EIR, an extension to the legislated EIA process timeframe will be required:

- Finalisation of Specialist Assessments to account for all potential impacts. Investigations is currently in process and preliminary indications from the specialists is that the reports would only be available mid-June.
- Sourcing of the required zoning certificate - a request has been made prior to the submission of the application to the Department, however the project team has not yet been successful. The project team will keep following up on the request but the reference of engagement with the relevant department will be appended to the EIR.
- Comparative assessment of alternatives considered and site selection motivation.
- Sourcing of commenting authority comments, including Emfuleni Local Municipality and Department of Human Settlement, Water and Sanitation.

- An updated, detailed Stormwater Management Plan is required.

The Applicant and the responsible Environmental Assessment Practitioner (EAP) is currently addressing these components as well as the concerns raised by the interested and affected parties (I&APs). Based on the additional works required, which were not anticipated, we therefore respectfully request an extension of the legislated timeframe to resolve all of the aspects outlined above. It is envisaged the Final EIR, upon completion of the additional specialist study and subsequent 30-day public participation process, will be submitted by end July 2021.

Please do not hesitate to contact us should you have any queries regarding the above.

Kind regards

Gerda Bothma

Environmental Unit Head/Senior Environmental Consultant

BCC: RE: GRLRP: Uitas Park - Draft Environmental Impact Report (DEIR)\_from 20 July 2021

Date: 20.07.2021 17:20:36 (+02:00)

Good day stakeholders

Following the finalisation of the Scoping Phase, kindly note that the Draft Environmental Impact Report (DEIR) is now available for your review.

The DEIR includes the various specialist assessments conducted for the study as well as the Environmental Management Programme (EMPr) and is electronically available for review and comment from **20 July to 19 August 2021.**

Readers are referred to the complete version of the DEIR and the document can be accessed electronically at <http://www.gcs-sa.biz/documents/>.

Please provide your written comment by using the attached comment sheet or send us an email. All comments received will be recorded in the Comments and Responses Report (CRR). Please review

comments received thus far and responses to those comments in the CRR which is appended to the DEIR. Comments made and received during the review of this report will be included in the CRR which will be included in the Final Environmental Impact Report (FEIR).

Comments on the DEIR should reach GCS by **19 August 2021** and can be forwarded to:

Lehlogonolo Mashego  
Tel: 011 803 5726, Fax: 011 803 5745,  
E-mail: [lehlo@gcs-sa.biz](mailto:lehlo@gcs-sa.biz)  
Mail: P O Box 2597, Rivonia, 2128

Kind regards  
Lehlogonolo Mashego

**Subject:** RE: GRLRP: Unitas Park - Final Scoping Report (FSR)\_from 03 March 2021

Good day stakeholders

The Draft Scoping Report for the Unitas Park Township Development was made available for public review from 15 January to 15 February 2021. The report was finalised and no significant changes were made. The Final Scoping Report has been submitted to the competent authority, the Gauteng Department of Agriculture and Rural Development (GDARD) for their review and approval. A copy of the report can be downloaded from the GCS website at the following link - <http://www.gcs-sa.biz/documents/>.

Interested and Affected Parties are requested to submit any further comments on the Final Scoping Report to GCS between 03 March to 06 April 2021, see contact details below. Comments on the Final Scoping Report will be considered with the compilation of the Draft Environmental Impact Assessment Report (DEIAR).

**Subject:** GRLRP: Unitas Park - Draft Scoping Report (DSR)\_from 15 Jan 2021

Dear stakeholders

I have spoken to a few of you personally to let you know of the Scoping and Environmental Impact Assessment (S&EIA) underway for the proposed Township Development in Unitas Park – Extension 16, Emfuleni Local Municipality.

Please find attached a Background Information Document (BID) with more information.

As mentioned to you, the Draft Scoping Report (DSR) is now available and may be accessed on the link provided below.

Link: <http://www.gcs-sa.biz/public-documents/>

We are engaging with all stakeholders virtually and advise that you contact the undersigned to schedule accordingly. Do note that you are welcome to distribute the attached information and the email to people in your area that may be interested and/or affected.

Note: Advertisements with regards to the opportunity to become involved were published in the Sedibeng Ster (13 January - 19 January 2021). Your participation in this project will be appreciated.

*Please make use of the attached comment sheet to provide your comments on the DSR on or before **15 February 2021**.*

Lehlogonolo Mashego / Gerda Bothma  
Tel: 011 803 5726, Fax: 011 803 5745,

## "Soccer Indaba for referees needed": Club bosses

**Zacharia Nale**  
SHARPEVILLE.- The much anticipated SAFA Sedibeng SAB League match between Real Barcelona FC and Ghetto Seven failed to materialise at the George Thabe Stadium in Sharpeville over the weekend as match officials claimed the field was not professionally marked.

This is even though earlier the Emfuleni Local Football Association's (ELFA) Super League teams played at the same venue that was officiated by the very same referees. Real Barcelona FC is one of the team's that are challenging for the league title with Perfect Academy topping the log standing garnering 31 points from 14 games and Barcelona FC fourth on the log with 24 points and less than four games to go to complete the season. However, Barcelona FC have a game in hand and hope to win all their remaining matches. In another game, VUT FC finished the game with eight players after three of their players got marching orders. VUT FC is topping B Stream with 30 points from 12 games while Real Hearts FC are second on the log with 26 points and a game in hand.

One of the club officials who didn't want to be named for fear of being victimised by the referees told *Sedibeng Ster Sport* that it is that time of the season when match officials decisions are questionable.

"It is always the case at this time of the season because the very same officials have an interest in certain teams,

and this kills our football. There is a need for a Soccer Indaba to address some of these of these things. The match officials are the ones who decide which teams must win the league. I'm very disappointed and something must be done about this before it is too late," said a club official.

Club officials believe that a Referees Soccer Indaba is needed for SAFA Sedibeng SAB League. "There is a need for a Soccer Indaba to address some of these of these things. The match officials are the ones who decide which teams must win the league." Illustration Photo: Zacharia Nale

**GCS** Water & Environmental Consultants

**NOTIFICATION OF A BASIC ASSESSMENT APPLICATION PROCESS IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (ACT NO. 107 OF 1998) FOR, EVATON WEST PROJECT I, GAUTENG PROVINCE.**

GCS Project Reference: 19.0921  
GDARD Reference: GAUT 002/21-22/E2906 (previous ref: GAUT 002/20-21/E0031)

**Background and Project Description:**  
The Provincial Department of Human Settlements (DHS) aims at fast tracking the release of serviced stands form State owned land to qualifying beneficiaries through the Gauteng Rapid Land Release Programme (GRLRP). The proposed project, "Evaton West - Project I", is planned to have a township layout. The site located within Evaton West on Erf 14540 IQ, directly to the east of the Golden Highway (R553). The site is approximately 4.32 hectares in extent and is inside of the 2010 urban edge, zoned as "public open space/parks".

**Activities for which Environmental Authorisation is being sought:**  
The following potential Listed Activities in terms of the National Environmental Management Act (NEMA) Environmental Impact Assessment (EIA) Regulations 2017, and the National Heritage Resources Act (Act No. 25 of 1999):

- GN R327, 07 April 2017, Listing Notice 1 - Activity 30
- GN R324, 07 April 2020, Listing Notice 3 - Activity 4, 12 and 15
- Section 38 of the NHRA (Heritage Permitting)

**Project Progress and Participation:**  
GCS Water and Environment Consultants (Pty) Ltd (GCS), has been appointed to undertake the necessary environmental processes for the above-mentioned project and this notification forms part of the public consultation process as required by NEMA and NHRA. This project was previously subjected to public consultation during February/March 2021 where the Draft Basic Assessment Report (DBAR) was made available for public review. Due to further investigations which needed to be incorporated, a Revised DBAR in now being made available for public consultation.

**Opportunity to Participate:**  
Interested and affected parties ("I&APs") are hereby invited to participate. A requested is made to all I&APs, please use the "19-0921" reference number when commenting, provide comments together with your name, contact details (preferred method of notification, e.g. e-mail address or fax number) and a disclosure of any direct business, financial, personal or other interest which that party may have in the approval or refusal of the application, to the contact person indicated below, within 30 days (i.e. the deadline for comments is 05 July 2021) from the date of commencement (04 June 2021) in accordance with the statutory requirements.

The Revised DBAR and Supporting Documentation can be accessed at the following link from 04 June 2021:  
• www.gcs-sa.biz/Documents

**PLEASE NOTE:** Due to COVID19 restrictions, no hard copies of the report will be available for review at public venues. However, the report is available electronically via the GCS Website (link provided above) or a CD can be made available upon request.

Please submit all comments directly to GCS on or before 05 July 2021, as follows:

Ref: Comments  
File: Unitas Park Township

**SUBJECT: Draft Environmental Impact Report (DEIR) Unitas Park Township Development**

**Comments from Environmental Management Section Emfuleni Local Municipality**

1 The proposed Unitas Park Township Development is rightfully listed under Listing Notice 1(GN R327), Listing Notice 2 (GN R325) and Listing Notice 3(GN R324). This means that the potential impacts of this activity must be considered, investigated and assessed and reported to the authority.

2 On the document it is rightfully mentioned that there is a wetland on the site, as well as to the south east of the site. A drainage line run from the site towards Houtkop Road to the south west, where the surface water drains under the road and continues to flow into a National Freshwater Ecosystem Protection Area. The proposed development will have an impact on the amount and speed of water that will flow into the National Freshwater Ecosystem Protection Area.

3 Specific ecological measures must be undertaken to slow or control the flow of water coming from the proposed development. Soil erosion from the site and from storm water must be mitigated to ensure that soil that is washed from the site does not have adverse effects on the National Freshwater Ecosystem Protection Area.

4 If the Environmental Authorization is issued and development starts, the impacts of dust from the site must be managed by suppression. Proper waste management must be introduced and maintained throughout the life of the development. Burning of any waste is prohibited and is punishable by municipal by-laws.

5 A proper Spill Response Plan must be developed and implemented throughout the life of the development. This is to cater for any accidental fuel/oil spillages during construction. Any accidental spillages are to be reported to authorities and recorded.

6 No contaminated water, fuel or oil spillages must be allowed to enter the ground water, aquifer or municipal storm water system. If any of the above accidentally occurs, it must be stopped, mitigated and reported to authority.

7 A Storm Water Management Plan must be developed to properly control, channel and manage storm water runoff from the site. Any soil and rubble dug from the site during development must be disposed of according to proper waste management protocol.

8 Environmental Management Inspectors are to be given full access and cooperation as they will be regularly conducting site inspections to monitor and to enforce compliance with the Environmental Authorization. The Section supports the Unitas Park Township Development subject to compliance with above conditions.
