1. INTRODUCTION

Environmental Impact Management Services (Pty) Ltd (EIMS) was appointed by Atoll Metal Recovery (Pty) Ltd as an independent Environmental Assessment Practitioner (EAP) to assist in undertaking a PPP, conducting a Basic Assessment (BA), and submitting the Basic Assessment Report (BAR) and an Environmental Management Programme (EMPR) in support of a Prospecting Right Application. The Application is to prospect for aggregate and dolomite over a portion of portion 1 of the farm Modderfontein 76 IR which is located approximately 5 km east of Benoni and 5 km north of Brakpan, in Gauteng, South Africa. In accordance with the provisions of the National Environmental Management Act (NEMA) and Minerals and Petroleum Resources Development Act (MPRDA), applications have been submitted for a Prospecting Right (PR) and for Environmental Authorisation (EA).

This Comments and Responses Report (CRR) has been compiled as an appendix to the BAR and EMPR that has been compiled in support of the Prospecting Right Application and application for Environmental Authorisation and outlines the Public Participation Process (PPP) which has been undertaken in accordance with the provisions of the NEMA and MPRDA.

South Africa, being one of the countries with the most progressive constitutions, enshrined the public's right to be involved in decisions that may affect them in its Constitution. Section 57(1) of the new Constitution that provides: "*The National Assembly may (b) make rules and orders concerning its business, with due regard to representative and participatory democracy, accountability, transparency and public involvement*". This provision, along with several others gave rise to many new trends in South African legislation. In environmental legislation, the idea of public participation (or stakeholder engagement) features strongly and especially the National Environmental Management Act (Act 107 of 1998, NEMA – as amended) and the recent regulations passed under the auspices of this Act makes very strict provisions for public participation in environmental decision-making.

Public participation can be defined as..."a process leading to a joint effort by stakeholders, technical specialists, the authorities and the proponent who work together to produce better decisions than if they had acted independently" (Greyling, 1999, p. 20). From this definition, it can be seen that the input of the public is regarded as very important indeed.

The PPP is designed to provide sufficient and accessible information to Interested and Affected Parties (I&APs) in an objective manner to assist them to:

- Raise issues of concern and suggestions for enhanced benefits;
- Verify that their issues have been recorded;
- Assist in identifying reasonable alternatives;
- Contribute relevant local information and knowledge to the environmental assessment;
- Comment on the findings of the environmental assessments; and
- Obtain information on the outcome, i.e. the competent authority's decision, and how and by when the decision can be appealed.

This CRR lists all verbal and written issues raised by I&APs and stakeholders during the public participation period undertaken for the BA process. A breakdown of the public participation process is given within the following sections.

2. PUBLIC PARTICIPATION DURING THE BASIC ASSESSMENT PROCESS

The Public Participation Process outlined below follows the requirements of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) (MPRDA) for a Prospecting Right Application and Chapter 6 of GNR 982 promulgated under the National Environmental Management Act (Act 107 of 1998) (NEMA, as amended) for an application for Environmental Authorization.

2.1. IDENTIFICATION OF INTERESTED AND AFFECTED PARTIES

The I&APs referred to in this CRR include:

- ✎ The Landowner;
- ✎ Lawful land occupiers;
- ✎ Pre-identified and registered key stakeholders;
- ✎ I&APs who responded to a previous Prospecting Right Application that was submitted by the Applicant under reference number GP30/5/1/1/2/10382PR; and
- ✎ All I&APs who responded to the initial notification for this application and requested to be registered.

The pre-identified I&APs were identified through the identification of key interest groups and authorities. Many of the key I&APs were pre-identified but some have also registered in response to the initial notification (please refer to Appendix B5 for I&AP Database).

The proposed prospecting area falls within portion 1 of the farm Modderfontein 76IR and is approximately 86.55 ha in extent (the total extent of portion 1 of the farm Modderfontein 76IR is 772.5977 hectares). The registered landowner of portion 1 of the farm Modderfontein 76IR is New Modder Township (Pty) Ltd (according to title deed), represented by Mr. James Stuart. The landowner has been notified about the proposed project and invited to participate via post, fax and/or email (please refer to Appendix B5 for the I&AP Database).

2.2. NOTICES, ADVERTISEMENTS AND BACKGROUND INFORMATION DOCUMENTS

This section provides details on the notifications that were distributed as part of the BA process to date.

2.2.1. INITIAL NOTIFICATION

Notification during the initialisation of the project was undertaken as follows:

- ✎ An advertisement (in English) was placed in the Ekurhuleni News (please refer to Appendix B2 for proof of advertisement);

- ✎ A2 Correx notices (in English and Afrikaans) were placed around the study area in 4 locations, (please refer to Appendix B2 for proof of site notice placement);
- ✎ A Background Information Document (BID) (in English) was prepared and distributed to all pre-identified all I&APs such as the landowner, government organisations, NGOs and other organisations that might be affected (please refer to Appendix B4);
- ✎ The landowner within the proposed prospecting area was identified and written notification was distributed to them (please refer to Appendix B3).
- ✎ Notification letters (English), faxes, and emails (in English) were distributed to all pre-identified key I&APs including government organisations, NGOs, relevant municipalities, ward councillors and other organisations that might be affected (refer to Appendix B4).

The notices and written notification provided I&APs with an opportunity to submit their initial issues/queries/concerns to the independent Environmental Assessment Practitioner (EAP), Environmental Impact Management Services (Pty) Ltd (EIMS), of which the contact person, contact number, email and faxes were clearly stated on the notice. Comments/concerns and queries were encouraged to be submitted in any of the following manners:

- ✎ Electronically (fax, email)
- ✎ Telephonically, or
- ✎ Written letters.

2.2.2. BASIC ASSESSMENT REPORT PUBLIC NOTIFICATION

Notification for the BAR public notification period will be disseminated via notification letters, faxes, and/or emails to all pre-identified key Interested & Affected Parties (I&APs) as well as I&APs registered during the initial notification period. I&AP's will be provided with an additional period of 30 days in which to review and comment on the BAR and to submit any additional comments, queries or concerns regarding the project to EIMS. Following completion of the 30 day review period, the BAR and IRR will be updated with any additional comments from I&AP's prior to the reports being submitted to the DMR for adjudication. The BAR will be available for 30 days from the 18th of February 2016 to the 19th of March 2016, for review and comment.

2.2.3. BASIC ASSESSMENT REPORT PUBLIC MEETING

Based on the previous consultation undertaken it was identified that a public meeting should be held, in particular to address concerns raised by residents of the Rynsoord community. As such a Public Meeting has been planned for 9th March 2016. I&AP's were notified of the specific date, time and venue on the 17th February 2016.

All comments received by EIMS to date have been included in this report as part of the Basic Assessment Report submitted to the Gauteng Department of Mineral Resources (Gauteng DMR, the competent authority). Table 1 below summaries the PPP

TABLE 1: OPPORTUNITIES PROVIDED FOR PUBLIC PARTICIPATION

PUBLIC PARTICIPATION PHASE			
ACTION	DESCRIPTION	PUBLICATION/PLACE	DATE
Announcement of Basic Assessment Project.	Newspaper Advertisement.	Ekurhuleni News	28 January 2016.
Initial Public Notification.	Placement of site notices.	A2 notice boards were placed around the study area.	28 January 2016.
Initial Public Notification.	Notification of key I&APs.	Key I&APs were notified via registered post, fax and/or email.	27 January 2016.
Basic Assessment Report Public Notification.	Notification of key I&APs of the availability of the Basic Assessment Report for public review.	Key I&APs were notified via registered post, fax and/or email.	16 February 2016.
I&AP review and comment on BAR	Availability of BAR on the EIMS website for review by I&APs (17 February 2016 – 10 March 2016)	Key I&APs were notified via registered post, fax and/or email.	17 February 2016.
Basic Assessment Report Public Meeting	Notification of key I&APs of the Public meeting.	Key I&APs were notified via registered post, fax and/or email.	17 February 2016.

3. SUMMARY OF ISSUES RAISED BY I&AP'S

All comments received during the PPP have been included in this IRR (Appendix E6) and summarised in Table 2

TABLE 2: SUMMARY OF ISSUES RAISED BY I&APS

Interested and Affected Parties	Consulted	Date	Issue	Response	Report Reference
Key Stakeholders
