NOTICE OF A BASIC ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

GRID CONNECTION INFRASTRUCTURE, INCLUDING 132KV OVERHEAD POWERLINE, SWITCHING STATION AND ANCILLARIES, FOR THE GREAT KAROO WIND FARM, NORTHERN CAPE

Applicant: Great Karoo Wind Farm (Pty) Ltd

Proposed Activity: The construction and operation of grid connection infrastructure required to connect and evacuate the generated power of the authorised Great Karoo Wind Farm to the national electricity grid. The grid connection infrastructure required includes a switching station to be developed adjacent to the authorised Great Karoo Wind Farm substation and a 132kV double- or single-circuit overhead powerline (up to 14km in length) connecting to the Eskom Hidden Valley substation (currently under construction to the west of Great Karoo wind farm). The pylon structures of the power line will be up to 32m high and the power line will be developed within the servitude of up to 40m wide. A grid connection corridor of 300m-750m wide for the power line and a 500m corridor for the switching station has been identified and assessed for the grid connection infrastructure. Where possible, the switching station will be accessed via the authorised access road to the Great Karoo Wind Farm substation. However, where this is not feasible during construction, a service track along the length of the power line servitude of up to 4m wide will be required to allow for large crane movement. This track will be rehabilitated following construction to a typical 'jeep' track (i.e. off-road track) for use during operation. Other associated infrastructure includes drainage line crossing infrastructure (culverts) and temporary laydown area/s that will be rehabilitated upon completion of the construction phase. All grid connection infrastructure will be positioned inside the assessment corridor, outside of identified environmental sensitive areas.

Location: ~44km south of Sutherland and ~50km north of Matjiesfontein within the Northern Cape Province and falls within the Namakwa District Municipality and the Karoo Hoogland Local Municipality. The affected properties include:

- » Farm Kentucky 206;
- » Remaining Extent of the Farm De Hoop 202.
- » Remainder of Portion 1 of the Farm Orange Fontein 203; and

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as read with Government Notice R324 – R327, as amended (2017), a Basic Assessment (BA) is required to be undertaken in support of an application for Environmental Authorisation. Savannah Environmental (Pty) Ltd is undertaking the required BA and public participation process for the project.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR THE GRID CONNECTION INFRASTRUCTURE FOR THE GREAT KAROO WIND FARM, NORTHERN CAPE

Project Name	Applicant
Grid connection infrastructure, including 132kV Overhead Power Line, Switching Station and ancillaries, for the Great Karoo Wind Farm, Northern Cape	Great Karoo Wind Farm (Pty) Ltd

Project details: Development of grid connection infrastructure to connect the authorised Great Karoo Wind Farm to the national electricity grid. The project is located ~44km south of Sutherland and ~50km north of Matjiesfontein, within the Namakwa District Municipality and the Karoo Hoogland Local Municipality, and will consist of the following infrastructure:

- A double or single circuit 132kV overhead power line consisting of up to two sets of cables on a single set of pylon structures which will be up to 32m high.
- Service tracks along the length of the power line, to be rehabilitated down to a jeep track for maintenance during operation.
- Temporary laydown area/s.
- A switching station (up to 100m x 100m) to be developed adjacent to the authorised Great Karoo Wind Farm substation.

A grid connection assessment corridor of 300m has been identified for the power line, which widens to ~740m wide for the eastern section of the power line. In addition, a 500m assessment area for the placement of the switching station.

Project Location: The proposed grid connection infrastructure traverses three (3) affected properties, namely:

- » Farm Kentucky 206
- » RE Portion 1 of the Farm Orange Fontein No. 203
- » The Farm De Hoop 202

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation. An application for Environmental Authorisation has been lodged with the Department of Environment, Forestry and Fisheries (DEFF), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report Available for Review & Comment: A BA Report for the project has been compiled and is available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/grid-infrastructure/great-karoo-wef-grid-connection/>. The 30-day review and comment period is from **Tuesday, 3rd of November until Thursday, 3rd of December 2020**. Please submit written comments to the contact person below on or before **Thursday, 3rd of December 2020**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

HIER IS SUID-AFRIKA SE DRIE SLIMSTE EN MOOISTES

SHUDUFHADZO MUSIDA van Limpopo is Saterdag 24 Oktober 2020 gekroon as Meisje Suid-Afrika 2020. Sy het 'n graad in Filosofie, Politiek en Ekonomie aan die Universiteit van Pretoria verwerf en werk tans aan 'n Honneursgraad aan Wits Universiteit. Eerste Prinses is Thato Mosehle, 'n mediese dokter van Klerksdorp en tweede Prinses is Natasha Joubert van Pretoria. Sy het 'n B. Comm-grad.

JAPIE OOR HY EN SY MEDEBOERE

Beter tye wag op 'n nuwe horison

Geagte Leser,

Dat tye vir boeremense moeilik is, word nie betwyfel nie. Dit is droogtes, die onsekerheid rondom grond-ontseining, veiligheidsrisiko's en die staat se onvermoë om dit doeltreffend aan te spreek, ens. Boonop word boere deur sommige op 'n haatdraende manier aangespreek. As liedjies nie gesing word om boere dood te maak nie, word hulle uitgekryt as grond-die-e en word brandstigting aangemoedig.

As al hierdie faktore saamgevoeg word, kan 'n mens verstaan waarom boere mismooedig raak. Hierdie mismooed word versterk deur wat ons in die media sien, maar nog erger, wat ons vir mekaar sê. As jy aan 'n "WhatsApp"-groep behoort, is die trant van gesprekke meestal negatief en word in die proses ook baie fop-nuus versprei.

Ek dink dit sal ons loon om te kyk na hoe ander mense moeilike omstandighede suksesvol hanteer het. Die bekende filosoof Nietzsche het gesê: "To live is to suffer, to survive is to find some meaning in the suffering." Verder sê hy: "He who has a why to live can bear almost any how." Dit is makliker gesê as gedaan. Wanneer 'n boer met 'n halwe sakkie aartappels agter op sy bakkie na sy lammeroerie ry, is dit nie maklik nie.

En tog moet daar, op watter wyse ookal, 'n manier gevind word om deur hierdie moeilike

tyd te kom. Alles is nog nie verlore nie. Moet ons nie weer ons droom vir ons boerdery terugkry nie? Moet ons nie weer begin droom oor 'n weidingstelsel wat ons veld sal laat herstel en moontlik ons weerstand teen die volgende droogte verhoog nie? Moet ons nie weer droom oor ons seleksie-mikpunt vir ons skaap nie? Kan ons meer selekteer vir hoër produktiwiteit om te kompenseer vir laer getalle? Laer getalle sal op sig self ons weerstand teen die volgende droogte verhoog.

Sien ons nog die donkies met sy wit blommetjies langs die pad? Dink ons daaraan met hoe min reën hierdie plant lang lote stoot, meestal onder die beskerming van ander groter bosse? As ons deur die veld ry, sien ons nog die waterlopie wat 'n knik in die pad veroorsaak? Dink ons daaraan dat hier eens water geloop het en dat hier weer water sal loop? Daar waar nou net bossies staan, kan ons onthou dat die rantjie eens 'n rooi voorkoms gehad het soos wat die rooisaadras bokant die bosse uitroon?

Kom ons ontdek weer opnuut hoekom ons boer. Dit sal ons help om die huidige omstandighede te hanteer en nou op te offer vir 'n beter tyd wat vir ons op die horison lê en wag.

Groete, Japie.

25 Jaar gelede

NOORDWESTER: 24 November 1995. Verlede Saterdag 11 November het die Calvinia duiweklub sy jaarlikse prysuitdeling, veiling en afsluitingsfunksie gehou. By die geleentheid was sommige van die borge ook teerwoordig. Hulle het die aand so geniet dat drie van hulle, OPH Nel, Theuns Nel en Koos Hanekom vir hulself 'n duif gekoop het.

Niemandsland

Die mens geskep deur die Hoër Hand. Absoluut perfek behalwe een gebrek. Op jou rug is daar 'n kol waar dinge lol. Dis daar waar die muskiete byt. Bloed suig vir hul aptyd. Dis hier waar geen hand kan reik want arm net te kort so wil dit lyk. Ek glo die Liewe Heer met sy skepping van die mens was tog aspris. Hy wou seker maak dat ek en jy afhanklik is. Dus om daardie kol te krap moet ek na my buurvrou stap en haar vra om my rug te krap. Vandag betaal ek onderhoud reg oor ons land. Als is die gevolg van die kol op my rug. Ook bekend as Niemandslaan.

- Danie J. van Zyl

Neef Gert se Sêgoed

Raak die spoor byster en jy is van die pad af.
