Subject: ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE (DFFE Ref.No.: 14/12/16/3/3/2/401): Notification of Availability of Environmental Impact Assessment Report for review and comment
Attachments: SE2015-Waste_Recovery_Plant_EIAr_Notification-FINAL.pdf

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Stakeholder and Interested & Affected Party,

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform you, as registered interested and affected party (I&AP), that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail, and attached notification letter, serves to inform you that the Environmental Impact Assessment Report (EIAr) is available for your review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

The EIAr is available on Savannah Environmental's website [click here](#) as from Friday, 16 April 2021.

Kind regards,

By email:

Dear Ms Mathebula,

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR
KWA-GUQA, MPUMALANGA PROVINCE
(DEFF Reference No.: 14/12/16/3/3/2/401)**

**NOTIFICATION OF AVAILABILITY OF THE ENVIRONMENTAL IMPACT
ASSESSMENT REPORT FOR REVIEW AND COMMENT**

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform you, as a commenting Official, that DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

The proponent, Anglo African Metals (Pty) Ltd (the South African registered company of Fodere Titanium), has developed a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials. The process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed by the proponent is also demonstrated to extract aluminium as aluminium oxide (Al_2O_3), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum ($CaSO_4$). The project is known as the Zero Waste Recovery Plant.

The Zero Waste Recovery Plant is proposed to be located on the Remaining Extent of the Farm Highveld Industrial Park Number 1230 JS, approximately 17 km west of eMalahleni town in the eMalahleni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga.

The development area is approximately 4 ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium (Highveld) property¹. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

The main infrastructure associated with the facility includes the following:

- » Chemical plant area, where all process chemicals including acid are produced, stored and handled as required by the waste recovery process.
- » Substation and plant utility unit as interface and controlling unit for the electricity utilised by the plant during operation.
- » Slag stockpile.
- » Crushing plant.
- » Mill.
- » Product area for storage of the various products produced through the recovery process.
- » Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- » Fuel storage area with a fuel storage tank (or tanks, as required) of up to 70m³ for the bulk storage of gas (LPG or similar) utilised in the waste recovery process.
- » A security area.
- » Parking lot.
- » Admin and control room including offices and ablutions for staff.

The Zero Waste Recovery Solution triggers the need for following environmental permits:

- » **Environmental Authorisation (EA)** from the National Department of Forestry, Fisheries and the Environment (DFFE), in consultation with the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs, in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and Environmental Impact Assessment (EIA) Regulations (GNR 326). An Integrated Application for Environmental Authorisation (EA) is being conducted to consider the waste management licence requirements below.
- » A **Waste Management License (WML)**, from the DFFE for the recovery of waste, as is proposed as part of the Zero Waste Recovery Plant, as well as the construction of the infrastructure for this purpose trigger such activities, in accordance with the National Environmental Management: Waste Act (No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921).
- » An **Atmospheric Emission License (AEL)**, from the Nkangala District Municipality, in accordance with the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), and List of Activities resulting in Atmospheric Emissions published in GNR 893, specifically subcategory 4:20 – recovery of metallurgical slag.

An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management License (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. The S&EIA process will also support the future application for an Atmospheric Emission License (AEL) in terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), for subcategory 4:20 – recovery of metallurgical slag. Savannah Environmental is undertaking the required EIA and public participation process for the project.

¹ As of June 2021, owned by Highveld Industrial Park (Pty) Ltd

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of the Regulation 43(2) of the EIA Regulations, 2014, as amended, your Department is hereby notified that the Environmental Impact Assessment Report (EIAR) is available for review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

In addition, the Atmospheric Impact Report in support of the future AEL application is also being made available for your Department's review and comment during this same period included as **Appendix D** of the EIAR for review and comment.

The restrictions enforced to curb the spread of the COVID-19 virus has placed limitations on making hard copies of the reports available. Therefore, the report is available electronically for downloading from our stakeholder engagement platform at <https://savannahsa.com/public-documents/other/waste-recovery-plant/>. As per our approved public participation plan submitted to the DFFE, you can also request that an electronic copy of the EIAR be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the EIAR by **Tuesday, 18 May 2021** via our public participation portal (link provided above) or:

Telephone: 011 656 3237

Mobile: 060 978 8396

Fax: 086 684 0547

Post: PO Box 148, Sunninghill, 2157

E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter of Savannah Environmental at the above-mentioned contact details.

All comments received during the 30-day review and comment period will be recorded and included in the Final EIA Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

- » Crushing plant.
- » Mill.
- » Product area for storage of the various products produced through the recovery process.
- » Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- » Fuel storage area with a fuel storage tank (or tanks, as required) of up to 70m³ for the bulk storage of gas (LPG or similar) utilised in the waste recovery process.
- » A security area.
- » Parking lot.
- » Admin and control room including offices and ablutions for staff.

The Zero Waste Recovery Solution triggers the need for following environmental permits:

- » **Environmental Authorisation (EA)** from the National Department of Forestry, Fisheries and the Environment (DFFE), in consultation with the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs, in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and Environmental Impact Assessment (EIA) Regulations (GNR 326). An Integrated Application for Environmental Authorisation (EA) is being conducted to consider the waste management licence requirements below.
- » A **Waste Management License (WML)**, from the DFFE for the recovery of waste, as is proposed as part of the Zero Waste Recovery Plant, as well as the construction of the infrastructure for this purpose trigger such activities, in accordance with the National Environmental Management: Waste Act (No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921).
- » An **Atmospheric Emission License (AEL)**, from the Nkangala District Municipality, in accordance with the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), and List of Activities resulting in Atmospheric Emissions published in GNR 893, specifically subcategory 4:20 – recovery of metallurgical slag.

An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management License (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. The S&EIA process will also support the future application for an Atmospheric Emission License (AEL) in terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), for subcategory 4:20 – recovery of metallurgical slag. Savannah Environmental is undertaking the required EIA and public participation process for the project.

¹ As of June 2021, owned by Highveld Industrial Park (Pty) Ltd

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of the Regulation 43(2) of the EIA Regulations, 2014, as amended, your Department is hereby notified that the Environmental Impact Assessment Report (EIAR) is available for review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

In addition, the Atmospheric Impact Report in support of the future AEL application is also being made available for your Department's review and comment during this same period included as **Appendix D** of the EIAR for review and comment.

The restrictions enforced to curb the spread of the COVID-19 virus has placed limitations on making hard copies of the reports available. Therefore, the report is available electronically for downloading from our stakeholder engagement platform at <https://savannahsa.com/public-documents/other/waste-recovery-plant/>. As per our approved public participation plan submitted to the DFFE, you can also request that an electronic copy of the EIAR be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the EIAR by **Tuesday, 18 May 2021** via our public participation portal (link provided above) or:

Telephone: 011 656 3237

Mobile: 060 978 8396

Fax: 086 684 0547

Post: PO Box 148, Sunninghill, 2157

E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter of Savannah Environmental at the above-mentioned contact details.

All comments received during the 30-day review and comment period will be recorded and included in the Final EIA Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE
NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Mr Lekota,

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform your Department that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail and attached notification letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for your Department's review and comment from Friday, 16 April 2021 until Tuesday, 18 May 2021.

The EIAR is available on Savannah Environmental's website LINK.

Kind regards,

[SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015](#)

16 April 2021

Mr Mthobisi Ngcobo
Director: Directorate Air Quality
Department of Forestry, Fisheries and the Environment

By email:

Dear Mr Ngcobo,

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR
KWA-GUQA, MPUMALANGA PROVINCE
(DEFF Reference No.: 14/12/16/3/3/2/401)**

**NOTIFICATION OF AVAILABILITY OF THE ENVIRONMENTAL IMPACT
ASSESSMENT REPORT FOR REVIEW AND COMMENT**

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform you, as a commenting Official, that DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

The proponent, Anglo African Metals (Pty) Ltd (the South African registered company of Fodere Titanium), has developed a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials. The process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed by the proponent is also demonstrated to extract aluminium as aluminium oxide (Al_2O_3), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum ($CaSO_4$). The project is known as the Zero Waste Recovery Plant.

The Zero Waste Recovery Plant is proposed to be located on the Remaining Extent of the Farm Highveld Industrial Park Number 1230 JS, approximately 17 km west of eMalahleni town in the eMalahleni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga.

The development area is approximately 4 ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium (Highveld) property¹. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

The main infrastructure associated with the facility includes the following:

- » Chemical plant area, where all process chemicals including acid are produced, stored and handled as required by the waste recovery process.
- » Substation and plant utility unit as interface and controlling unit for the electricity utilised by the plant during operation.
- » Slag stockpile.
- » Crushing plant.
- » Mill.
- » Product area for storage of the various products produced through the recovery process.
- » Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- » Fuel storage area with a fuel storage tank (or tanks, as required) of up to 70m³ for the bulk storage of gas (LPG or similar) utilised in the waste recovery process.
- » A security area.
- » Parking lot.
- » Admin and control room including offices and ablutions for staff.

The Zero Waste Recovery Solution triggers the need for following environmental permits:

- » **Environmental Authorisation (EA)** from the National Department of Forestry, Fisheries and the Environment (DFFE), in consultation with the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs, in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and Environmental Impact Assessment (EIA) Regulations (GNR 326). An Integrated Application for Environmental Authorisation (EA) is being conducted to consider the waste management licence requirements below.
- » A **Waste Management License (WML)**, from the DFFE for the recovery of waste, as is proposed as part of the Zero Waste Recovery Plant, as well as the construction of the infrastructure for this purpose trigger such activities, in accordance with the National Environmental Management: Waste Act (No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921).
- » An **Atmospheric Emission License (AEL)**, from the Nkangala District Municipality, in accordance with the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), and List of Activities resulting in Atmospheric Emissions published in GNR 893, specifically subcategory 4:20 – recovery of metallurgical slag.

An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management License (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. The S&EIA process will also support the future application for an Atmospheric Emission License (AEL) in terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), for subcategory 4:20 – recovery of metallurgical slag. Savannah Environmental is undertaking the required EIA and public participation process for the project.

¹ As of June 2021, owned by Highveld Industrial Park (Pty) Ltd

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of the Regulation 43(2) of the EIA Regulations, 2014, as amended, your Department is hereby notified that the Environmental Impact Assessment Report (EIAR) is available for review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

In addition, the Atmospheric Impact Report in support of the future AEL application is also being made available for your Department's review and comment during this same period included as **Appendix D** of the EIAR for review and comment.

The restrictions enforced to curb the spread of the COVID-19 virus has placed limitations on making hard copies of the reports available. Therefore, the report is available electronically for downloading from our stakeholder engagement platform at <https://savannahsa.com/public-documents/other/waste-recovery-plant/>. As per our approved public participation plan submitted to the DFFE, you can also request that an electronic copy of the EIAR be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the EIAR by **Tuesday, 18 May 2021** via our public participation portal (link provided above) or:

Telephone: 011 656 3237

Mobile: 060 978 8396

Fax: 086 684 0547

Post: PO Box 148, Sunninghill, 2157

E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter of Savannah Environmental at the above-mentioned contact details.

All comments received during the 30-day review and comment period will be recorded and included in the Final EIA Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

16 April 2021

Mr MJ Mojapelo
Director
Department of Public Works, Roads and Transport
Mpumalanga Province

By email

Dear Mr Mojapelo,

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR
KWA-GUQA, MPUMALANGA PROVINCE
(DEFF Reference No.: 14/12/16/3/3/2/401)**

**NOTIFICATION OF AVAILABILITY OF THE ENVIRONMENTAL IMPACT
ASSESSMENT REPORT FOR REVIEW AND COMMENT**

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform you, as a commenting Official, that DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

The proponent, Anglo African Metals (Pty) Ltd (the South African registered company of Fodere Titanium), has developed a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials. The process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed by the proponent is also demonstrated to extract aluminium as aluminium oxide (Al_2O_3), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum ($CaSO_4$). The project is known as the Zero Waste Recovery Plant.

The Zero Waste Recovery Plant is proposed to be located on the Remaining Extent of the Farm Highveld Industrial Park Number 1230 JS, approximately 17 km west of eMalahleni town in the eMalahleni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga.

The development area is approximately 4 ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium (Highveld) property¹. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

The main infrastructure associated with the facility includes the following:

- » Chemical plant area, where all process chemicals including acid are produced, stored and handled as required by the waste recovery process.
- » Substation and plant utility unit as interface and controlling unit for the electricity utilised by the plant during operation.
- » Slag stockpile.
- » Crushing plant.
- » Mill.
- » Product area for storage of the various products produced through the recovery process.
- » Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- » Fuel storage area with a fuel storage tank (or tanks, as required) of up to 70m³ for the bulk storage of gas (LPG or similar) utilised in the waste recovery process.
- » A security area.
- » Parking lot.
- » Admin and control room including offices and ablutions for staff.

The Zero Waste Recovery Solution triggers the need for following environmental permits:

- » **Environmental Authorisation (EA)** from the National Department of Forestry, Fisheries and the Environment (DFFE), in consultation with the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs, in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and Environmental Impact Assessment (EIA) Regulations (GNR 326). An Integrated Application for Environmental Authorisation (EA) is being conducted to consider the waste management licence requirements below.
- » A **Waste Management License (WML)**, from the DFFE for the recovery of waste, as is proposed as part of the Zero Waste Recovery Plant, as well as the construction of the infrastructure for this purpose trigger such activities, in accordance with the National Environmental Management: Waste Act (No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921).
- » An **Atmospheric Emission License (AEL)**, from the Nkangala District Municipality, in accordance with the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), and List of Activities resulting in Atmospheric Emissions published in GNR 893, specifically subcategory 4:20 – recovery of metallurgical slag.

An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management License (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. The S&EIA process will also support the future application for an Atmospheric Emission License (AEL) in terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), for subcategory 4:20 – recovery of metallurgical slag. Savannah Environmental is undertaking the required EIA and public participation process for the project.

¹ As of June 2021, owned by Highveld Industrial Park (Pty) Ltd

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of the Regulation 43(2) of the EIA Regulations, 2014, as amended, your Department is hereby notified that the Environmental Impact Assessment Report (EIAR) is available for review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

In addition, the Atmospheric Impact Report in support of the future AEL application is also being made available for your Department's review and comment during this same period included as **Appendix D** of the EIAR for review and comment.

The restrictions enforced to curb the spread of the COVID-19 virus has placed limitations on making hard copies of the reports available. Therefore, the report is available electronically for downloading from our stakeholder engagement platform at <https://savannahsa.com/public-documents/other/waste-recovery-plant/>. As per our approved public participation plan submitted to the DFFE, you can also request that an electronic copy of the EIAR be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the EIAR by **Tuesday, 18 May 2021** via our public participation portal (link provided above) or:

Telephone: 011 656 3237

Mobile: 060 978 8396

Fax: 086 684 0547

Post: PO Box 148, Sunninghill, 2157

E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter of Savannah Environmental at the above-mentioned contact details.

All comments received during the 30-day review and comment period will be recorded and included in the Final EIA Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

16 April 2021

Mr Stanford Macevele
Deputy Director: Water Quality Management
Department of Water and Sanitation
Mpumalanga Province

By email:

Dear Mr Macevele,

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR
KWA-GUQA, MPUMALANGA PROVINCE
(DEFF Reference No.: 14/12/16/3/3/2/401)**

**NOTIFICATION OF AVAILABILITY OF THE ENVIRONMENTAL IMPACT
ASSESSMENT REPORT FOR REVIEW AND COMMENT**

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform you, as a commenting Official, that DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

The proponent, Anglo African Metals (Pty) Ltd (the South African registered company of Fodere Titanium), has developed a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials. The process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed by the proponent is also demonstrated to extract aluminium as aluminium oxide (Al_2O_3), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum ($CaSO_4$). The project is known as the Zero Waste Recovery Plant.

The Zero Waste Recovery Plant is proposed to be located on the Remaining Extent of the Farm Highveld Industrial Park Number 1230 JS, approximately 17 km west of eMalahleni town in the eMalahleni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga.

The development area is approximately 4 ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium (Highveld) property¹. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

The main infrastructure associated with the facility includes the following:

- » Chemical plant area, where all process chemicals including acid are produced, stored and handled as required by the waste recovery process.
- » Substation and plant utility unit as interface and controlling unit for the electricity utilised by the plant during operation.
- » Slag stockpile.
- » Crushing plant.
- » Mill.
- » Product area for storage of the various products produced through the recovery process.
- » Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- » Fuel storage area with a fuel storage tank (or tanks, as required) of up to 70m³ for the bulk storage of gas (LPG or similar) utilised in the waste recovery process.
- » A security area.
- » Parking lot.
- » Admin and control room including offices and ablutions for staff.

The Zero Waste Recovery Solution triggers the need for following environmental permits:

- » **Environmental Authorisation (EA)** from the National Department of Forestry, Fisheries and the Environment (DFFE), in consultation with the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs, in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and Environmental Impact Assessment (EIA) Regulations (GNR 326). An Integrated Application for Environmental Authorisation (EA) is being conducted to consider the waste management licence requirements below.
- » A **Waste Management License (WML)**, from the DFFE for the recovery of waste, as is proposed as part of the Zero Waste Recovery Plant, as well as the construction of the infrastructure for this purpose trigger such activities, in accordance with the National Environmental Management: Waste Act (No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921).
- » An **Atmospheric Emission License (AEL)**, from the Nkangala District Municipality, in accordance with the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), and List of Activities resulting in Atmospheric Emissions published in GNR 893, specifically subcategory 4:20 – recovery of metallurgical slag.

An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management License (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. The S&EIA process will also support the future application for an Atmospheric Emission License (AEL) in terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), for subcategory 4:20 – recovery of metallurgical slag. Savannah Environmental is undertaking the required EIA and public participation process for the project.

¹ As of June 2021, owned by Highveld Industrial Park (Pty) Ltd

AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of the Regulation 43(2) of the EIA Regulations, 2014, as amended, your Department is hereby notified that the Environmental Impact Assessment Report (EIAR) is available for review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

In addition, the Atmospheric Impact Report in support of the future AEL application is also being made available for your Department's review and comment during this same period included as **Appendix D** of the EIAR for review and comment.

The restrictions enforced to curb the spread of the COVID-19 virus has placed limitations on making hard copies of the reports available. Therefore, the report is available electronically for downloading from our stakeholder engagement platform at <https://savannahsa.com/public-documents/other/waste-recovery-plant/>. As per our approved public participation plan submitted to the DFFE, you can also request that an electronic copy of the EIAR be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the EIAR by **Tuesday, 18 May 2021** via our public participation portal (link provided above) or:

Telephone: 011 656 3237

Mobile: 060 978 8396

Fax: 086 684 0547

Post: PO Box 148, Sunninghill, 2157

E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter of Savannah Environmental at the above-mentioned contact details.

All comments received during the 30-day review and comment period will be recorded and included in the Final EIA Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Mr Mayeisela,
CC: Mr Nkanbinde & Mr Buthelezi

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform your Department that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail and attached notification letter serves to inform you that the Environmental Impact Assessment Report (EIAr) is available for your Municipality's review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

The EIAr is available on Savannah Environmental's website [LINK](#).

Kind regards,

ProposalDescription:

Environmental Impact Assessment Process for the Fodere Titanium Zero Waste Recovery Solution and associated infrastructure near Kwa-Guqa Mpumalanga Province

Expanded_Motivation:

The project is known as the Fodere Titanium Zero Waste Recovery Solution. The waste recovery plant is proposed to be located on Portion 48 of Farm Elandsfontein 309 JS, approximately 17 km west of eMalaheni town in the eMalaheni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga (refer to Figure 1). The development area is approximately 4 ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium property. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

Good morning Gideon

The contact person at the Municipality is Mr. Thabane Buthelezi at this number 083 207 8147, point numbers (1, 2 and 4).

Kindly ignore the condition of the Environmental Hygiene Act, we use it mostly on Abattoir applications, (point number 3).

When the Municipality come for site inspection; before/after approval of the land use rights applied for, the above adequate services must be available on site. It is not for the Municipality to provide the services on site, unless there is a services agreement signed between you and the Municipality the Municipality (point number 5).

Kind regards,

Ntombifutsi T. Mathebula (Prof. Planner-2682)
Town & Regional Planner

Good day Ntombifuthi,

Following the focus group meeting and your comments below on a few land use and spatial planning items, please could I request your assistance as a starting point by seeing if you have any of the contact persons related to the queries highlighted below?

This letter serves to confirm that the Department supports the application for development of a waste recovery plant at the Highveld titanium oxide from slag materials on Portions 48 Elandsfontein 309 JS, subject to:

1. Consent from the Municipality in terms of Spluma By-law be obtained.

-is there a contact you might know of at the land use planning department of the municipality?

2. All other building regulations and streets sizes will be in accordance with the current Land Use Scheme of the Local Municipality.

-the land use planning department of the municipality would also be the correct persons to obtain the street size and building regulations.

3. The stipulations of the Environment Hygiene Act, 1992 (Act 121 of 1992) must be complied with.

-You don't have a copy of the latest version of this act that you could share by any chance?

4. The municipality has a newly approved Land Use Scheme, the rights if granted must after consultation with the applicant be in the new LUS.

-the land use planning department of the municipality would also be the correct contact persons for this correct?

5. The Municipality to make sure that these adequate services (water, electricity, sanitation, access) are available to the applicant.

-Do you perhaps have a contact details for correct person to address this query to at the municipality?

Thanks,

savannah

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Stakeholders,

The proponent, Anglo African Metals (Pty) Ltd (the South African registered company of Fodere Titanium), has developed a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials. The process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed by the proponent is also demonstrated to extract aluminium as aluminium oxide (Al₂O₃), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum (CaSO₄). The project is known as the Zero Waste Recovery Plant.

The Zero Waste Recovery Plant is proposed to be located on the Remaining Extent of the Farm Highveld Industrial Park Number 1230 JS, approximately 17 km west of eMalahleni town in the eMalahleni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga. The development area is approximately 4 ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium (Highveld) property. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

We would like to take this opportunity of inviting you, as an Organ of State and/or Key Stakeholder, to attend the online Key Stakeholder Workshop taking place on:

DATE: Thursday, 06 May 2021

TIME: 14h00

VIRTUAL PLATFORM: Microsoft TEAMS

The purpose of the Key Stakeholder Workshop is to present the following:

- brief background to the proposed project;
- an overview of the Environmental Impact Assessment Process followed;
- a summary of the key environmental findings as documented in the Environmental Impact Assessment Report; and
- an opportunity to seek clarity and raise comments and/or concerns; and
- to record comments raised at the FGM

You are most welcome to extend this invitation to a Colleague who you believes need to be informed and part of the public participation process to attend the meeting or should you not be available to attend.

We encourage your participation in the EIA and Public Participation Process. We would like to thank you in anticipation for your active and meaningful contribution to the EIA processes.

We look forward to meeting you and we are positive for a fruitful Key Stakeholder Workshop.

Availability of the Environmental Impact Assessment Report

Just a friendly reminder that the Environmental Impact Assessment Report was made available for your and the Officials' review and comment from **Friday, 16 April 2021** and the comment period ends on **Tuesday, 18 May 2021**.

Please do not hesitate to contact me on (011) 656 3237 / 3256 should you require any additional information.

Kind regards,

(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Mr Monareng,

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform your Department that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail and attached notification letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for your Department's review and comment from **Friday, 16 April 2021** until **Tuesday, 18 May 2021**.

The EIAR is available on Savannah Environmental's website [click here](#)

Subject: SE2015| Fodere Zero Waste EIA ref number (14/12/16/3/3/3/401)
Importance: High

Hi Lunga,

Please can I ask your assistance with the reference number check for this project – the final scoping report acceptance has 14/12/16/3/3/**3**/401, however the Scoping Acceptance has 14/12/16/3/3/**2**/401.

I understand the 14/12/16/3/3/**2**/401 one to be incorrect as it refers to the first application form submitted that was rejected for on proof of payment, and that the 14/12/16/3/3/**3**/401 applies. Please will you check and confirm for me?

Thanks,

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE
NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Mr Lekota,

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform your Department that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail and attached notification letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for your Department's review and comment from Friday, 16 April 2021 until Tuesday, 18 May 2021.

The EIAR is available on Savannah Environmental's website LINK.

Kind regards,

Good morning Mr. Nkabunde

I am contacting you in regard with the above-mentioned project to secure a meeting with your Municipality and Head of Offices.

We would like to propose a virtual meeting, if possible, on one of these following dates and time slots:

Monday, 03 May 2021 at 14h00 – 16h00

Wednesday, 05 May 2021 at 09h00 – 11h00 or 10h00 – 12h00 or 14h00 – 16h00

The purpose of the meeting is to present the key environmental findings as documented in the Environmental Impact Assessment Report (EIAr) that is currently available for review and comment. For ease of reference please see attached notification letter sent to Nkangala District Municipality date 16/04/2021.

If required, we will send Nkangala District Municipality a formal invitation.

Greetings,

t: +27 (0)11 656 3237

Dear Cllr Mthimkulu,

Again, thank you for attending the Focus Group Meeting this morning.

As promised:

- herewith the link [click here](#) and the release code is: tgh7NN for downloading the EIAr and Appendices.
- the presentation of the FGM which you are most welcome to share for any other colleague at the Municipality.

Please do not hesitate to contact us should you experience any problem with downloading the EIAr and Appendices and we will send it via WeTransfer.

Dear Cllr Makpeplao - please let us know when you will be available to present the project to you and your Ward Committee Members.

Kind regards,

savannah

**PROPOSED DEVELOPMENT OF A ZERO WASTE RECOVERY PLANT AND ASSOCIATED INFRASTRUCTURE
NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Mr Mojapelo,

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform your Department that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail and attached notification letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for your Department's review and comment from Friday, 16 April 2021 until Tuesday, 18 May 2021.

The EIAR is available on Savannah Environmental's website [click here](#)

Kind regards,

Good morning Mrs. Skosana and Mr. Nembilwi

I am contacting you in regard with the above-mentioned project to secure a meeting with your Municipality and Head of Offices.

We would like to propose a virtual meeting, if possible, on one of these following dates and time slots:

Monday, 03 May 2021 at 14h00 – 16h00

Wednesday, 05 May 2021 at 10h00 – 12h00 or 14h00 – 16h00

The purpose of the meeting is to present the key environmental findings as documented in the Environmental Impact Assessment Report (EIAR) that is currently available for review and comment. For ease of reference please see attached notification letter sent to Nkangala District Municipality date 16/04/2021.

If required, we will send Nkangala District Municipality a formal invitation.

Greetings,

Shandré van der merwe

NEAR KWA-GUQA, MPUMALANGA PROVINCE
(DFFE Reference No.: 14/12/16/3/3/2/401)**

Dear Mr Mojapelo,

Savannah Environmental (Pty) Ltd, the appointed Environmental Assessment Practitioner (EAP) notified you as a registered interested and affected parties (I&APs), in November 2020 of the availability of the Scoping Report for the above-mentioned project for your review and comments. The final Scoping Report was submitted to the Department of Forestry, Fisheries and the Environment (DFFE) on 08 January 2021.

We would like to take this opportunity to inform your Department that the DFFE has accepted the final Scoping Report and approved the Plan of Study for the Environmental Impact Assessment (EIA) in terms of Regulation 22 (a) of the EIA Regulations, 2014, as amended. The letter in this regard was received, on Thursday, 18 February 2021.

This e-mail and attached notification letter serves to inform you that the Environmental Impact Assessment Report (EIAr) is available for your Department's review and comment from Friday, 16 April 2021 until Tuesday, 18 May 2021.

The EIAr is available on Savannah Environmental's website [click here](#)

12 November 2020

Dear Stakeholder and Interested & Affected Party,

DEVELOPMENT OF A WASTE RECOVERY PLANT AT HIGHVELD STEEL NEAR WITBANK, MPUMALANGA PROVINCE

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS AND AVAILABILITY OF SCOPING REPORT FOR REVIEW AND COMMENT

Anglo African Metals (Pty) Ltd is proposing the development a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials which process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed will also extract aluminium as aluminium oxide (Al_2O_3), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum ($CaSO_4$).

A suitable tailings/slag resource which can be processed using their developed technology has been identified at the EVRAZ Highveld Steel and Vanadium site located between Balmoral and eMalahleni in Mpumalanga Province. The waste recovery plant is proposed to be located on Portion 48 of Farm Elandsfontein 309 JS. The development area is approximately 4ha in extent and is contained within the EVRAZ Highveld Steel and Vanadium property. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement.

The main infrastructure associated with the facility includes the following:

- » Chemical plant area, where all process chemicals including acid are produced, stored and handled as required by the waste recovery process.
- » Substation and plant utility unit as interface and controlling unit for the electricity utilised by the plant during operation.
- » Slag stockpile.
- » Crushing plant.
- » Mill.
- » Product area for storage of the various products produced through the recovery process.
- » Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- » A security area.
- » Parking lot.
- » Admin and control room including offices and ablutions for staff.

The plant will be developed to process 2000 tonnes of tailings/slag per month, approximately 3 tons per day and will be primarily fuelled by Liquefied Petroleum Gas (LPG) and Sasol gas brought into site by dedicated transport truck deliveries.

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

The Zero Waste Recovery Solution triggers the need for following environmental permits:

- » **Environmental Authorisation (EA)** from the National Department of Environment, Forestry and Fisheries (DEFF), in consultation with the Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs, in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and Environmental Impact Assessment (EIA) Regulations (GNR 326).
- » A **Waste Management License (WML)**, from the DEFF for the recovery of waste, as is proposed as part of the Zero Waste Recovery Solution, as well as the construction of the infrastructure for this purpose trigger such activities, in accordance with the National Environmental Management: Waste Act (No. 59 of 2008) (NEM:WA), and the List of Waste Management Activities (GNR 921).
- » An **Atmospheric Emission License (AEL)**, from the Nkangala District Municipality, in accordance with the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), and List of Activities resulting in Atmospheric Emissions published in GNR 893.

Anglo African Metals (Pty) Ltd (the South African registered company of Fodere Titanium) appointed Savannah Environmental as the independent environmental consulting company in accordance with NEMA and Regulations 21 to 24 of the 2014 EIA Regulations (GNR 326) in support of an integrated application for Environmental Authorisation (EA) and a Waste Management License (WML). The S&EIA process will also support the future application for an Atmospheric Emission License (AEL).

As part of the environmental studies, Interested and Affected Parties (I&APs) will be actively involved through the public involvement process being undertaken by Savannah Environmental. You and/or the organisation, which you represent, has been identified as an I&AP for the proposed projects as described above. A Background Information Document (BID), which provides further information on the EIA process as well as the nature and extent of the proposed Waste Recovery Plant, is attached to this letter and is also available for download from the Savannah Environmental stakeholder engagement platform at <https://www.savannahsa.com/public-documents/other/>.

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a BA process. The consultation process for this project has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the DEFF. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation on our stakeholder engagement platform as per the link provided above.

Where I&APs do not have the applicable facilities or access to internet, provision has been made to include these I&APs in the consultation process through direct consultation or by consulting with the Ward Councillor, the ward committee members, community representatives and local community forum members.

AVAILABILITY OF SCOPING REPORT FOR REVIEW AND COMMENT

As an Interested and Affected Party (I&AP), you are hereby notified that the Scoping Report (SR) is available for your review and comment from **Friday, 13 November 2020** until **Monday, 14 December 2020**.

The restrictions enforced to curb the spread of the COVID-19 virus has placed limitations on making hard copies of the Scoping Report available at public places such as libraries and municipal offices. Therefore, the report is available electronically for downloading from our stakeholder engagement platform at <https://www.savannahsa.com/public-documents/other/>. As per our approved public participation plan submitted to the DEFF, you can also request that an electronic copy of the Scoping Report be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the Scoping Report by **Monday, 14 December 2020** via our public participation portal (link provided above) or:

Telephone: 011 656 3237
Mobile: 060 978 8396
Fax: 086 684 0547
Post: PO Box 148, Sunninghill, 2157
E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter or Ronald Baloyi of Savannah Environmental at the above-mentioned contact details.

All comments received during the 30-day review and comment period will be recorded and included in the Final Scoping Report for submission to the DEFF in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

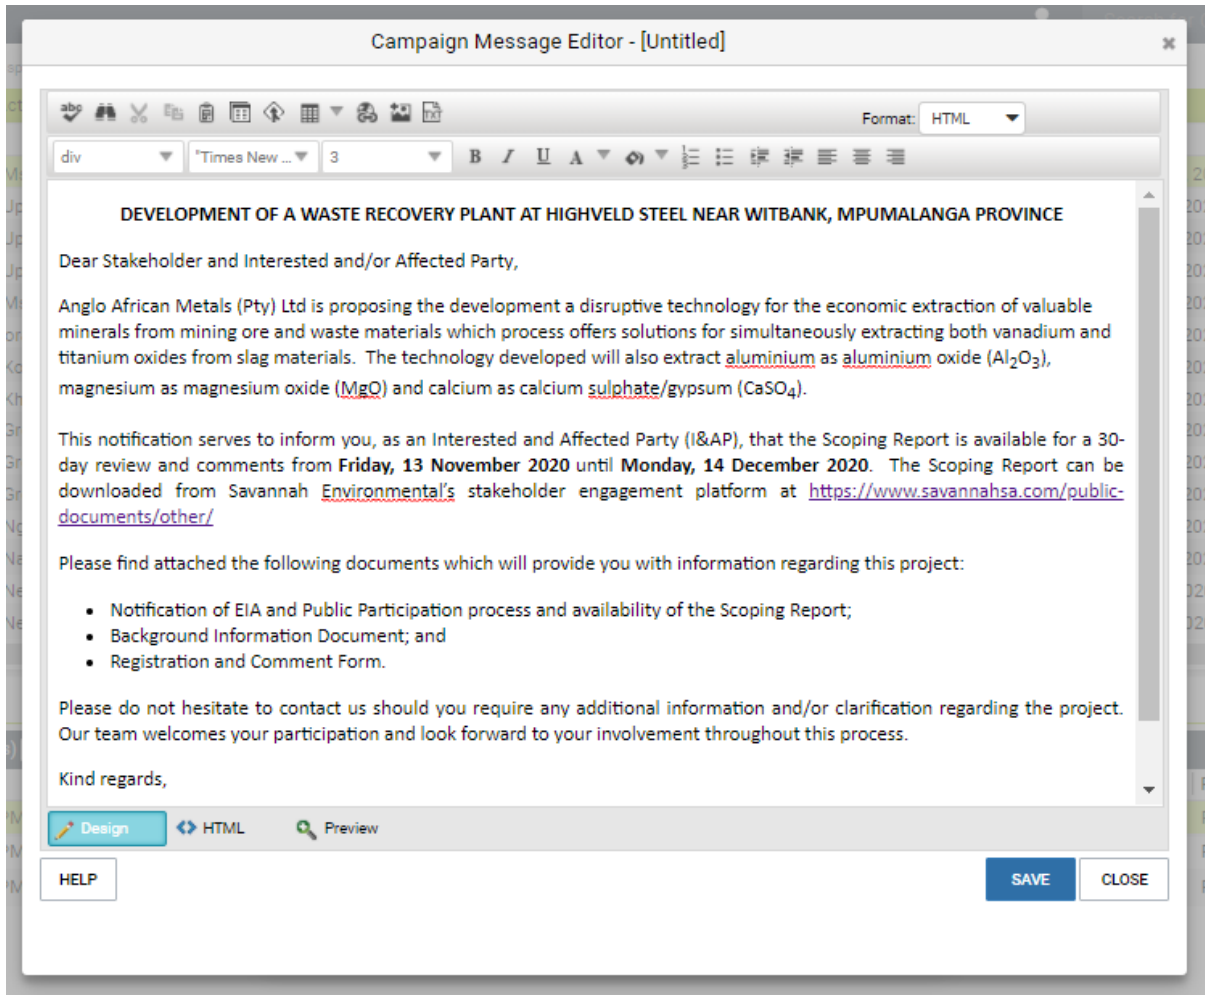

Nicolene Venter

Waste Recovery Plant

Development of a Waste Recovery Plant at Evraz Highveld Steel Vanadium Near Witbank, Mpumalanga Province

Applicant: Anglo African Metals (Pty) Ltd

Proposed Activity: The development a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials which process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed will also extract aluminium as aluminium oxide (Al_2O_3), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum ($CaSO_4$). The plant will be primarily fuelled by Liquefied Petroleum Gas (LPG) and Sasol gas.

The main infrastructure associated with the facility includes the following:

- Chemical plant area, where all process chemicals including acid are produced, stored and handled as required by the waste recovery process.
- Substation and plant utility unit as interface and controlling unit for the electricity utilised by the plant during operation.
- Slag stockpile.
- Crushing plant.
- Product area for storage of the various products produced through the recovery process.
- Reagent area, for the storage and handling of reactants utilised in the waste recovery process.
- A security area.
- Parking lot.
- Admin and control room including offices and ablutions for staff.

Location: The waste recovery plant is proposed to be located on Portion 48 of Farm No. 309. The development area is contained within the EVRAZ Highveld Steel and Vanadium property. The site is accessible directly off the R104, from the N4 turnoff near Kwa-Guqa informal settlement, approximately 17km west of eMalahleni within the eMalahleni Local Municipality, Nkangala District Municipality, Mpumalanga Province.

Environmental Impact Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Scoping and Environmental Impact Assessment (EIA) process is required for the Zero Waste Recovery Solution. Savannah Environmental is undertaking the required environmental assessment and public participation process for the project. An application for the project has been lodged with the Department of Environment, Forestry and Fisheries (DEFF), as the competent authority.

To: Savannah Public Process
Subject: RE: WASTE RECOVERY PLANT: Notification of Environmental Impact Assessment and the Availability of the Scoping Report for review and comment

Good Morning

Thank you for notifying SAHRA of the proposed development, SAHRA does not accept mailed or emailed applications for comment or decision making since 2013. In order to receive comments from SAHRA, please create a case on our online platform called SAHRIS: <https://sahris.sahra.org.za/>. Here, you can then submit all relevant documentation related to an EA application (for comments in terms of section 38(8)) or for decision in terms of section 38(1) application.

Kind Regards,
Nokukhanya Khumalo

DEVELOPMENT OF A WASTE RECOVERY PLANT AT HIGHVELD STEEL NEAR WITBANK, MPUMALANGA PROVINCE

Dear Stakeholder,

Anglo African Metals (Pty) Ltd is proposing the development of a disruptive technology for the economic extraction of valuable minerals from mining ore and waste materials which process offers solutions for simultaneously extracting both vanadium and titanium oxides from slag materials. The technology developed will also extract aluminium as aluminium oxide (Al₂O₃), magnesium as magnesium oxide (MgO) and calcium as calcium sulphate/gypsum (CaSO₄).

This notification serves to inform you, as an Interested and Affected Party (I&AP), that the Scoping Report is available for a 30-day review and comments from **Friday, 13 November 2020** until **Monday, 14 December 2020**. The Scoping Report can be downloaded from Savannah Environmental's stakeholder engagement platform at <https://www.savannahsa.com/public-documents/other/>

Please find attached the following documents which will provide you with information regarding this project:

- Notification of EIA and Public Participation process and availability of the Scoping Report;
- Background Information Document; and
- Registration and Comment Form.

Please do not hesitate to contact us should you require any additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

To: Ria Barkhuizen (NR)
Cc: Ronald Baloyi
Subject: RE: WASTE RECOVERY PLANT: Notification of Environmental Impact Assessment and the Availability of the Scoping Report for review and comment

Dear Jan,

Thank you for taking my call today.

As discussed below the e-mail received from Ria Barkhuizen and as mentioned SANRAL will submit their comments on the scoping report early January 2021 (probably 4th January 2021).

Looking forward to receive your Department's comments.

Kind regards,

From: Ria Barkhuizen (NR)

Subject: RE: WASTE RECOVERY PLANT: Notification of Environmental Impact Assessment and the Availability of the Scoping Report for review and comment

Good day

This email is an acknowledgement of receipt for your enquiry.

Please note that your enquiry will be evaluated and a response provided within 30 days, in line with requirements of Section 29 of the Spatial Planning and Land Use management Act (Act No.16 of 2013) read with Section 3 of the Promotion of Administrative Justice Act (Act No.3 of 2000).

Should you not receive any response within 30 days, kindly follow up on the enquiry by responding to Jan Oliver who will be dealing with it and will convert back to you. He can be contacted on (012) 426-6200 / 426-6242.

DEVELOPMENT OF A WASTE RECOVERY PLANT AT HIGHVELD STEEL NEAR WITBANK, MPUMALANGA PROVINCE

Dear Stakeholder and Interested and Affected Party,

With reference to the attached notification letter sent on Thursday, 12 November 2020 per e-mail, this e-mail serves to inform you that the comment period for the Scoping Report (SR) is ending on **Monday, 14 December 2020**.

As you may recall, the review and comment period for the SR was from Friday, 13 November 2020 to Monday, 14 December 2020.

Thank you to those Stakeholders and Interested and Affected Parties who submitted their written comments and those who had not yet submitted written comments, we kindly request that you do so before or on **Monday, 14 December 2020**.

Kind regards,

Subject: RE: WASTE RECOVERY PLANT: SANRAL's comments on the Scoping Report
Attachments: SKM_28721010710230.pdf

For attention: Nicolene Venter

Dear Madam

Your letter dated 13 November 2020 has relevance.

SANRAL has no objection to the development of a waste recovery plant at Evraz Highveld Steel and Vanadium as no national roads will be affected by such development.

Yours sincerely,
Jan Oliver

Dear Jan,

Wishing you and your colleagues a prosperous 2021!

Jan, thank you for taking my call a few minutes ago – just following up whether SANRAL will be submitting comments as advised by Ria Barkhuizen (see e-mail dated 19 November 2020).

For ease of reference, please find attached the notification letter regarding the availability of the scoping report and herewith the unique code for access to the report on our website: <https://www.savannahsa.com/public-documents/other/waste-recovery-plant/>, the unique code is: tgh7NN

Dear Jan,

Thank you for taking my call today.

As discussed below the e-mail received from Ria Barkhuizen and as mentioned SANRAL will submit their comments on the scoping report early January 2021 (probably 4th January 2021).

Looking forward to receive your Department's comments.

Kind regards,

From: Ria Barkhuizen (NR)

Good day

This email is an acknowledgement of receipt for your enquiry.

Please note that your enquiry will be evaluated and a response provided within 30 days, in line with requirements of Section 29 of the Spatial Planning and Land Use management Act (Act No.16 of 2013) read with Section 3 of the Promotion of Administrative Justice Act (Act No.3 of 2000).

Should you not receive any response within 30 days, kindly follow up on the enquiry by responding to Jan Oliver who will be dealing with it and will convert back to you. He can be contacted on (012) 426-6200 / 426-6242.

Tx and Regards

Ronald Baloyi
