**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED 10MW NORTHAM SOLAR PV FACILITY NEAR THABAZIMBI, LIMPOPO PROVINCE
(LEDET Ref. No.: To be issued)**

Dear Stakeholder and Interested & Affected Party,

Northam Platinum Limited is proposing the development of a solar Photovoltaic (PV) facility and associated infrastructure on Portion 2 of the Farm Zondereinde 384, located approximately 35km south of Thabazimbi and 18km northwest of Northam, between the R510 in the west and the R511 in the east, within the Thabazimbi Local Municipality, Waterberg District Municipality, Limpopo Province.

The solar PV facility will have a contracted capacity of 10MW, and will use fixed tilt, single or double axis tracking PV technology to harness the solar resource on the project site. The purpose of the proposed project is to generate electricity for exclusive use by the Zondereinde Mine, following which any excess power produced will be distributed to the national grid, if applicable. The construction of the PV facility aims to reduce the Zondereinde Mine's dependency on direct supply from Eskom's national grid for operation activities, while simultaneously decreasing the mine's carbon footprint.

In order to evacuate the generated power to the Zondereinde Mine, a grid connection needs to be established. An overhead power line will be established to connect the on-site substation on the Northam solar PV facility site to the existing substation at the Zondereinde Metallurgical Complex. The overhead power line will run for 500m from the PV site to the side of the Eskom yard and will be at a minimum height of 5.5m. The power line is designed to have a capacity of 33kV but will be operated at 6.6kV.

Please find attached the following documents:

- Background Information Document which provides additional information regarding the application for the Northam Solar PV and associated Infrastructures; and
- Registration and Comment Form

Please do not hesitate to contact us should you require any additional information and/or clarification regarding the project.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED 10MW NORTHAM SOLAR PV FACILITY NEAR THABAZIMBI, LIMPOPO PROVINCE
(LEDET Ref. No.: To be issued)**

Dear Stakeholder and Interested & Affected Party,

Our notification letter dated 19 July 2021 in which you, as registered Interested and Affected Party (I&AP) was informed that the Basic Assessment Report is available for your review and comment, has reference.

This e-mail serves to inform you that the review and comment period is ending on **Thursday, 19 August 2021**.

The Basic Assessment Report is available for download from Savannah Environmental's website [Click Here](#)

We would like to thank those stakeholders and I&APs who submitted their written comments and urge those who had not yet done so, to please submit your written comments before or on **Thursday, 19 August 2021**.

Please do not hesitate to contact us should you require any additional information or clarification.

Northam Solar PV Facility

Notice of a Basic Assessment & Public Participation Process: Proposed 10mw Northam Solar PV Facility, Limpopo Province

Project Name:

Proposed 10MW Northam Solar PV Facility

Applicant:

Northam Platinum Limited

Proposed Activity: The development of a 10MW Solar Photovoltaic (PV) Facility including associated infrastructure to be located within Northam Platinum Limited's Zondereinde mine area.

Project Location: ~35km south of Thabazimbi and 18km northwest of Northam, between the R510 in the west and the R511 in the east, within the jurisdiction of the Thabazimbi Local Municipality, which forms part of the Waterberg District Municipality, on the following farm property: Portion 2 of the Farm Zondereinde 384 (T0KQ0000000038400002).

Infrastructure associated with the Solar PV Facility will occupy up to 20ha and include the following:

- Solar PV array comprising PV modules and mounting structures;
- Inverters and transformers;
- Cabling between the project components;
- On-site substation to facilitate the connection between the Solar PV Facility and the mine electrical distribution system as needed;
- Combined gatehouse, site offices and storage facility;
- A 33kV over-head power line for the distribution of the generated power which will be connected to the existing substation at the Zondereinde Metallurgical Complex.
- Temporary laydown areas; and
- Access paved road, internal roads and fencing around the development area.

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act, 1998 (Act No 107 of 1998), as read with Government Notice R326, R327 and R324, as amended, a Basic Assessment (BA) is required for the Environmental Authorisation of this project. Savannah Environmental is undertaking the required BA and public participation process for the proposed project.

Basic Assessment Report available for public review and comment: Savannah Environmental has compiled a BA Report in support of the application for Environmental Authorisation. The BA Report and associated documentation will be available for public review and comment from **Monday, 19 July 2021** until **Thursday, 19 August 2021**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

Subject: NORTHAM 10MW SOLAR PV: Announcement of the Basic Assessment and Public Participation Process

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED 10MW NORTHAM SOLAR PV FACILITY NEAR THABAZIMBI, LIMPOPO PROVINCE
(LEDET Ref. No.: To be issued)**

Dear Stakeholder and Interested & Affected Party,

Northam Platinum Limited is proposing the development of a solar Photovoltaic (PV) facility and associated infrastructure on Portion 2 of the Farm Zondereinde 384, located approximately 35km south of Thabazimbi and 18km northwest of Northam, between the R510 in the west and the R511 in the east, within the Thabazimbi Local Municipality, Waterberg District Municipality, Limpopo Province.

The solar PV facility will have a contracted capacity of 10MW, and will use fixed tilt, single or double axis tracking PV technology to harness the solar resource on the project site. The purpose of the proposed project is to generate electricity for exclusive use by the Zondereinde Mine, following which any excess power produced will be distributed to the national grid, if applicable. The construction of the PV facility aims to reduce the Zondereinde Mine’s dependency on direct supply from Eskom’s national grid for operation activities, while simultaneously decreasing the mine’s carbon footprint.

In order to evacuate the generated power to the Zondereinde Mine, a grid connection needs to be established. An overhead power line will be established to connect the on-site substation on the Northam solar PV facility site to the existing substation at the Zondereinde Metallurgical Complex. The overhead power line will run for 500m from the PV site to the side of the Eskom yard and will be at a minimum height of 5.5m. The power line is designed to have a capacity of 33kV but will be operated at 6.6kV.

Please find attached the following documents:

- Background Information Document which provides additional information regarding the application for the Northam Solar PV and associated Infrastructures; and
- Registration and Comment Form

Please do not hesitate to contact us should you require any additional information and/or clarification regarding the project.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

Subject: SE2990 - Northam 10MW Solar PV
Attachments: SE2990_Northam_PV_BID.pdf

Good day, Roland

Thank you for taking my call earlier.

As discussed, the Allied Farms Solar Park has been identified as an Interested and affected party for the proposed Northam 10MW solar PV project.

The project will entail the development of a 10MW solar PV facility within the NHM's Zondereinde mine area. The purpose of the proposed project is to generate electricity for exclusive use by the Zondereinde Mine, following which any excess power produced will be distributed to the national grid, if applicable. The construction of the PV facility aims to reduce the Zondereinde Mine's dependency on direct supply from the Eskom's national grid for operation activities, while simultaneously decreasing the mine's carbon footprint.

Please see a background information document attached for your perusal.

Should you require further information the Basic Assessment Reports can be downloaded from our website:

- Northam 10MW Solar PV: <https://savannahsa.com/public-documents/energy-generation/northam-solar-pv-facility/>

The release code for the above-mentioned Reports is: pap36PV5

Should you have any further questions, please do not hesitate to contact me.

Kind Regards,

savannah

Subject: SE2990 - Northam 10MW Solar PV

Good day, Izel

Thank you for taking my call earlier.

As discussed, the Platinum Solar Park has been identified as an Interested and affected party for the proposed Northam 10MW solar PV project.

The project will entail the development of a 10MW solar PV facility within the NHM's Zondereinde mine area.

The purpose of the proposed project is to generate electricity for exclusive use by the Zondereinde Mine, following which any excess power produced will be distributed to the national grid, if applicable. The construction of the PV facility aims to reduce the Zondereinde Mine's dependency on direct supply from the Eskom's national grid for operation activities, while simultaneously decreasing the mine's carbon footprint.

Please see a background information document attached for your perusal.

Should you require further information the Basic Assessment Reports can be downloaded from our website:

- Northam 10MW Solar PV: <https://savannahsa.com/public-documents/energy-generation/northam-solar-pv-facility/>

The release code for the above-mentioned Reports is: pap36PV5

Should you have any further questions, please do not hesitate to contact me.

Kind Regards,

savannah

Good day Tumelo

We are struggling to register as I and APs for the proposed project. We have concerns with regards to Portion 2 of Zondereinde. Kindly share the Draft BA so that we can review and comment.

Your response will be highly appreciated.

Hi Ursula

Thanks for copying me in the below and attached.

I have tried to access the documents on the link but it requires a password.

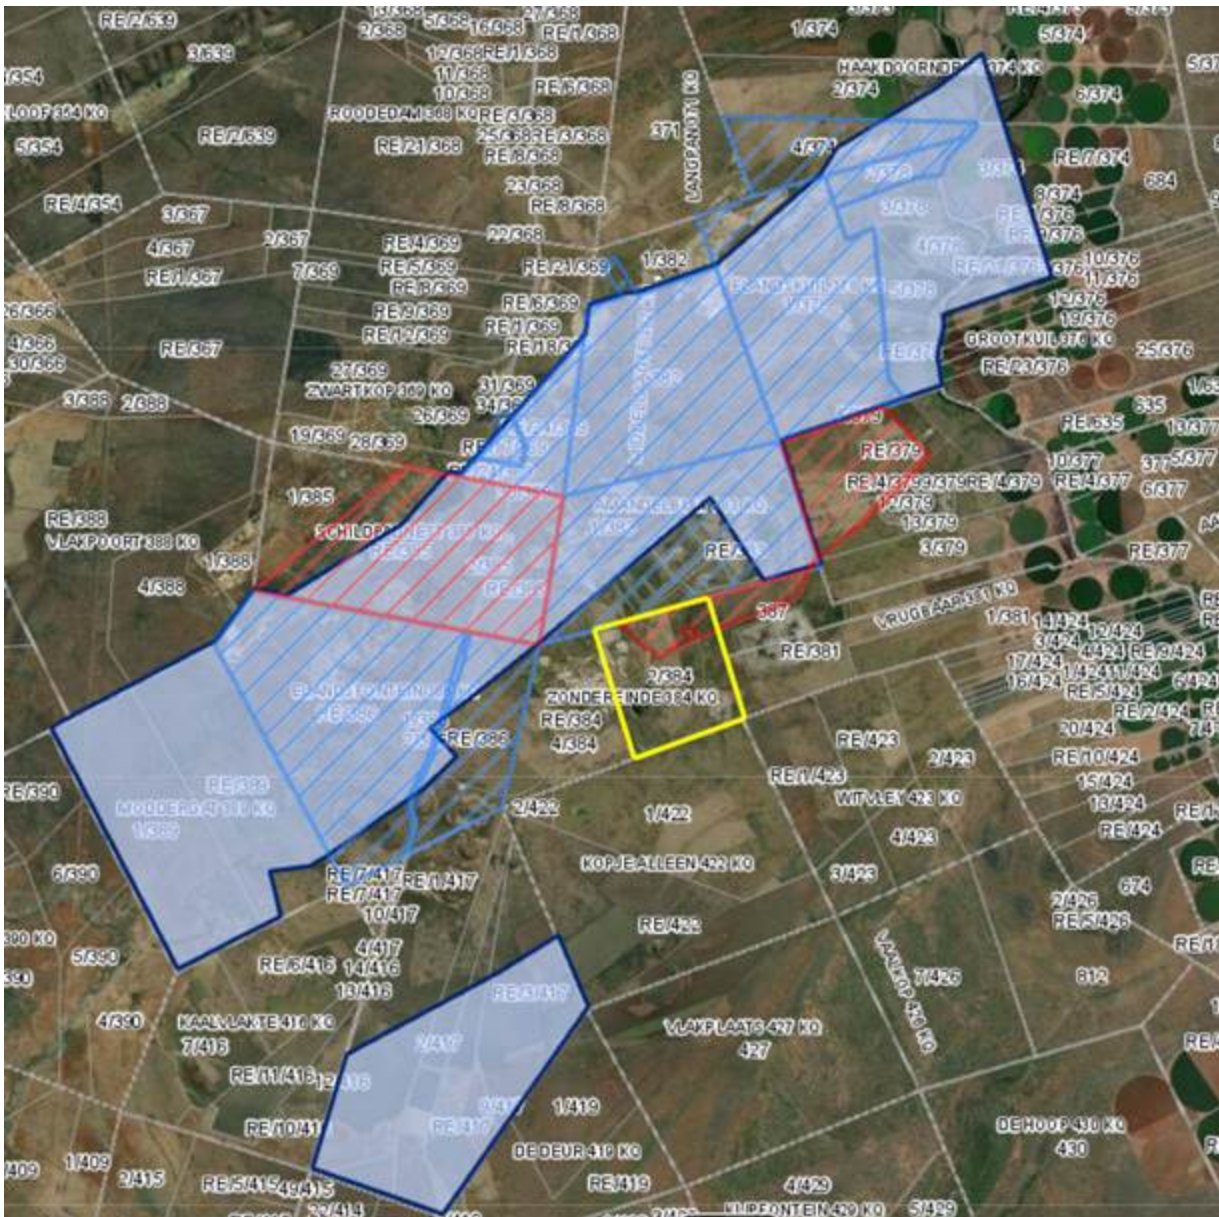

Who is running with this from the Mines side? In other words who is reviewing the documents and assessing the impact?

From my point of view, they indicate that the project is earmarked on Portion 2 of Zondereinde, and we have a lease over a small portion of that farm so we need to check what the layout of the solar PV project will look like.

In the below map the yellow polygon is Portion 2 of Zondereinde and I just wanted to show more or less where it lies in relation to the mine.

We would need a more accurate description of where exactly the PV plant will be and where the electrical lines will run to make any form of comment. Are you able to access the documents on the website provided?

Regards

**BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED 10MW NORTHAM SOLAR PV FACILITY
NEAR THABAZIMBI, LIMPOPO PROVINCE
(LEDET Ref. No.: To be issued)**

Dear Ms. Ursula Marvey

Our e-mail dated 14 July 2021 in which you were informed of the commencement of the Basic Assessment (BA) and Public Participation Process for the Northam 10MW Solar Photovoltaic (PV) project has reference (attached for ease of reference).

This e-mail serves to inform you, as the property owner of the farm Amandelbult 383 has been identified as an adjacent property owner that could be impacted by the proposed project. The EIA Regulations require that the owner or person in control of the land as well as occupiers of the affected and/or adjacent properties, which could be impacted by the project, are informed of the BA process in writing. In this regard, please could you kindly inform any other persons (tenants, employees, farm managers and workers etc.) residing on your property of this BA processes being undertaken. Should you or any other occupier of your property have an interest in this project, please register yourselves as Interested and Affected Party (I&AP) by completing and returning the attached stakeholder registration/comment form.

The e-mail dated 14 July 2021 also served to inform you that the BA Report is available for review and comment from **Monday, 19 July 2021** until **Thursday, 19 August 2021**. The BA Report is available for download from our website at [CLICK HERE](#).

Please do not hesitate to contact us should you require any additional information.

Kind regards,

savannah
