ATTENTION: MR. M.PRETORIUS

Sir

PERMISSION GRANTED FOR QUARRYING ACTIVITIES AT BLOCUSO TRUST

Three borrow pits in the Blocuso area have been identified as a potential source for filling material for the repair and upgrade of canals and bridges at the Curries Camp and Soverby irrigation schemes. All three borrow pits are located on the property of Blocuso Trust, as per attached layout.

Material obtained from the borrow pits will only be used for the irrigation projects at Blocuso Trust, funded under Department of Agriculture's Flood Relief Program.

The borrow pits will be registered with Department of Mineral Resources. Operations at these borrow pits will be managed according to an Environmental Management Plan, to ensure that all activities are done in a harmless and environmental safe manner. The borrow pits will be rehabilitated at the completion of the project.

The Blocuso Trust, as registered owner of the properties on which these proposed borrow pits are located, hereby grants permission for the quarrying activities as described above.

Mr Roelof Brink (Chairperson: Blocuso Trust)

An application for Environmental Authorization has been submitted to the Northern Cape Department of Environment and Nature Conservation: NC/BA/26/ZFM/KAI/2013 (NCP/EIA/00002362/2013).

Applications for mining permits for the 3 borrow pits that to be used to source material will be submitted to the Northern Cape Department of Mineral Resources in terms of the Minerals and Petroleum Resource Development Act, 2002 (Act No. 28 of 2002). The borrow pits are located on Remaining extent of Block No. 644.

In addition to the environmental authorisation to be obtained for the proposed low water bridge and mining permit for the borrow pits, a water use license application will be submitted to the Northern Cape Department of Water Affairs for activities that will require a license or general authorization in terms of Section 21 of the National Water Act (Act No. 36 of 1998).

In order to ensure that you are identified as interested and/or affected parties, please submit your name, contact information, and interest in the matter in writing to the contact person given below within 40 days of publication of this advertisement

Public participation is an integral part of the EIA, mining permit application and water use license application processes and aims to involve Interested and Affected Parties (I&AP's) in the process by notifying them of the proposed project and encouraging them to voice their issues and concerns, which are included in the Environmental Impact Assessment Report, Environmental Management Programme and are taken into consideration during the authorities assessment of the project.

You are kindly requested to complete the comments form and give any comment/concern or input with regard to the environment that you may have to the public participation practitioner (details below). If no comments are received within 40 days it will be accepted that you do not have any objections against the project.
