

APPENDIX 1:

Qualification, Declaration and CV of EAP

I, Stephen van der Westhuizen, declare that —

General declaration:

- I act as the independent environmental practitioner in this application
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant
- I declare that there are no circumstances that may compromise my objectivity in performing such work;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, Regulations and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, Regulations and all other applicable legislation;
- I will take into account, to the extent possible, the matters listed in regulation 8 of the Regulations when preparing the application and any report relating to the application;
- I have no, and will not engage in, conflicting interests in the undertaking of the activity;
- I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing - any decision to be taken with respect to the application by the competent authority; and - the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;
- I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;
- I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;
- I will keep a register of all interested and affected parties that participated in a public participation process; and
- I will provide the competent authority with access to all information at my disposal regarding the application, whether such information is favourable to the applicant or not
- all the particulars furnished by me in this form are true and correct;
- I will perform all other obligations as expected from an environmental assessment practitioner in terms of the Regulations; and
- I realise that a false declaration is an offence in terms of regulation 71 of the Regulations and is punishable in terms of section 24F of the Act.

Disclosure of Vested Interest (delete whichever is not applicable)

- I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Regulations.

I have a vested interest in the proposed activity proceeding, such vested interest being:

Profession: Environmental Geologist

Date of Birth: 20 December 1955

Parent Firm: Site Plan Consulting CC (and previously jointly with Settlement Planning Services (Setplan))

Position in Firm: Member (previously Director of Setplan)

Years with the Firm: 34 years with Site Plan Consulting and Setplan

Nationality: RSA

Education:

| Year | Qualification | Institution |
|-------------|--|---|
| 1972 | Senior Certificate Matriculation | Hottentots Holland High School, Somerset West, South Africa |
| 1973 - 1976 | Bachelor of Science (BSc) Geology | University of Stellenbosch |
| 1977 - 1979 | Master of Town and Regional Planning (cum laude) | University of Stellenbosch |

Professional Qualifications:

Member of the Geological Society of South Africa.
 Member of the South African Council for Planners (under the Planning Professions Act; 36 of 2002 (Registration number A/310/1985))

Languages and Degree of Proficiency:

English (fluent, read, write)
 Afrikaans (fluent, read, write)

Countries of Work Experience:

South Africa, Lesotho, Namibia, Botswana, Angola

Scope of Training and Experience:

- Background training in the earth sciences and spatial planning, and 34 years of practical experience in these fields.
- Four year partnership with industrial engineers in project feasibility, design and construction supervision in parallel with Site Plan between 1983 and 1986.
- Specialist expertise in construction project impacts including having served as lead environmental planner in Setplan's award winning Lesotho Highlands Water Project Team.
- Author of over 300 Environmental Management Programme Reports (EMPRs) for mines and quarries submitted to the Department of Minerals and Energy/Mineral Resources related to dam and road construction, commercial aggregate supplies and the mining of various minerals (salt,

diamonds, rare earths, dimension stone granite and marble, kaolin, gypsum, copper, veldspar and pegmatite minerals).

- Feasibility studies/mining cost assessments and rehabilitation cost calculations.

In addition to geological, mine planning and mine rehabilitation investigations Stephen has been extensively involved in researching the feasibility of mining operations. Of specific reference is his experience in:

- Compilation of monthly and annual cash flow analyses for amongst others: Messrs. Titan Lime; Grabouw (Palmiet) Quarry (a large metropolitan quarry to serve Cape Town); Prieska Gypsum mines.
- Valuation of material reserves in State expropriation cases.
- Rehabilitation cost (Quantum) calculations for all mines for which EMPR's have been compiled (in excess of 300 to date). Such valuations include quantification of cost of removal of facilities and the site's rehabilitation as well as assessment of the value of such facilities which may be taken over by the land owner, which costs are either deducted from royalties payable or from responsibility for rehabilitation.
- Quantum calculation for Alexkor Diamond Mine,
- Quantum calculation for Transhex Group LOR mines
- Rehabilitation calculation for Afrimat National
- Economic assessments of mineral deposits such as the Platinum/Chrome reserves west of the Pilanesberg as the basis for infrastructure investment by the Development Bank of Southern Africa.

His experience extends into feasibility studies and environmental considerations for non-mining infrastructure investment appraisals, conducted by Setplan for DBSA project appraisals (project values of up to R75 million).

Relevant Project Experience:

Prospecting Rights (including public participation and compilation of EMPlans (inclusive of EIAs)):

- Groen River Diamond prospecting
- Kuruman dolomitic aggregate
- Berg River Limestone
- Rare Earth Minerals, Namaqualand
- Three Rivers Prospecting – Breede River Valley

Mining Permits and Rights (including full Public Participation and compilation of EMPs inclusive of EIAs)

- Rare Earth Minerals, Steenkampskraal, Knersvlakte
- Palmiet Quarry (within Kogelberg Biosphere)
- Numerous quarries for Afrimat Limited (Stanford, Kliprug, Hartebeestfontein (Kusile power station))
- Kuipersbult (Medupi power station) ,
- Numerous Granite Dimension-stone mines, including Naroehuis Granite Mine,
- Lafarge Group quarries (large commercial quarry sites in Cape Town, East London, Port Elizabeth, Saldanha and other)
- Borrow Pits to serve renewable energy projects in Tsitsikamma, Molteno, and Sutherland Districts
- Numerous salt and gypsum extraction mining operations
- ..over 300+ Mining Authorizations over the past 34 years

Environmental Performance Assessments (monitoring) of the following sites on one off or regular basis:

- Numerous Granite Dimension stone mines, including Naroehuis Granite Mine,

- Numerous SANRAL and Provincial Road contract quarries and borrow pits, (Stilbaai, Graafwater, Hopetown-Strydenberg)
- Hermanus River gravel mine
- Numerous Sand Mines, including Kersfontein sand mine, Doornfontein sand mine,
- Assessment of nation-wide mining operations of Afrimat Limited (35+ mining sites)

Closure Applications (for mining and prospecting operations):

- O'Okiep Copper Company
- Alexkor SOC – Compilation of Closure Plan
- SANRAL and provincial Road contract quarries and borrow pits, (Stilbaai, Graafwater, Hopetown-Strydenberg)
- Alexkor; Closure rehabilitation of historic disturbances

Other non-mining tasks

- Lesotho Highlands – Katse Dam. Integration of Lesotho Highlands Phase 1b into the physical, economic and environmental planning of north-west Lesotho.
- Numerous resort developments on the Eastern Cape coast.
- Strategic feasibility and initial planning of Madikwe Game Reserve.
- Richards Bay; Bay and Beachfront Development Plan, including stabilization of Pelican Island.
- Served as an External Examiner in the Department of Geomatics at the University of Cape Town for the past 15 years

Profession: Environmental Scientist

Date of Birth: 12 November 1990

Parent Firm: Site Plan Consulting

Position in Firm: Trainee Environmental Consultant/GIS operator

Years with the Firm: 2 and half years

Nationality: RSA

Education:

| Year | Qualification | Institution |
|------|--|---|
| 2008 | Senior Certificate Matriculation | Wesbank High School, Kuilsriver, South Africa |
| 2012 | Bachelor of Science (BSc) Environmental and Water Sciences | University of the Western Cape |
| 2013 | BSc (Honours) Environmental and Water Sciences | University of the Western Cape |
| 2016 | MSc (Cum Laude) Environmental and Water Sciences (Hydrology) | University of the Western Cape |

Languages and Degree of Proficiency:

English (fluent, read, write)
 Isixhosa (fluent, read, write)
 Afrikaans (Fair)

Countries of Work Experience:

South Africa

Scope of Training and Experience:

- Conducting basic EIA's and processes of determining project impacts, NEMA, ISO standards
- Good understanding of project implementation processes, water law, environmental law, and wastewater processes.
- Environmental and Water Sciences: emphasis on Catchment hydrology, Groundwater Hydraulics, Geomorphology, Zoology, Botany.
- With experience on use of ArcGIS, digitizing, creating Geodatabases.
- Writing of research proposals.
- Presentation (SAN CIAHS, Ground Water Division, Literacy Facilitator)
- Hydrologic data analysis and Hydrological modelling (MSc thesis)
- Comprehensive knowledge of hydrological modelling concepts and processes, especially the ACRU Hydrological model and the Pitman Model
- Research methodology processes
- 2 and half years full time employment by Site Plan Consulting, including

- Environmental Performance Assessments and EIA/EMP compilation
- GIS mapping and plan compilation
- GIS data mapping interface with excel spreadsheet generation in rehabilitation cost calculations
- Compiling Environmental Authorisation applications mining and borrow pit closures
- CorelDraw software comprehensive knowledge
- Assessment of site specific environmental impacts
- Public Participation Process (I&AP stakeholder engagements)
- Comprehensive understanding of NEMA and MPRDA in Environmental Authorisation applications
- Understanding of rehabilitation costing and aspects thereof
- Determination of Rehabilitation costs for Borrow Pits
- West coast dust plumes analysis

Relevant Project Experience:

Mining Permits and Rights (including full Public Participation and compilation of EMPs inclusive of EIAs)

- 4 mining Permits for Sutherland Borrow Pits
- 1 borrow pit Mining Permit application in Klipheuwel
- 1 Mining Permit application in Copperton, Prieska

Environmental Performance Assessments (monitoring) of the following sites on one-off or regular basis:

- Final EPA for 3 borrow Pits in Humansdorp
- Final EPA for Libode borrow pit
- Final EPA for prospecting in Klawer area, Vanrhynsdorp
- Final EPA for Prospecting in Phillipi, Western Cape

Closure Applications (for mining and prospecting operations):

- Compilation of Closure Applications for 3 borrow Pits in Humansdorp
- Compilation of Closure application for prospecting in Klawer area, Vanrhynsdorp
- Compilation of Closure application for Libode Borrow pit
- Compilation of closure application for Kouga Borrow pit

Other non-mining tasks

- Monitoring of precipitation and streamflow predictions of the Langrivier stream in Jonkershoek
- Surface water-Groundwater interaction in the Rawsonville ("Gevonden River", tributary of Smalblaar River)
- Pumping tests on fracture rock aquifers and the cape flats aquifer
- Stream (Kuilriver) assessment of sediment transport and cross-sectional geomorphological characteristics
- Stream characteristics monitoring in the Agalhas area.

Appendix 2:

Community Rights on State land Erf 226 Vioolsdrif and Community Support for Application
by Zhongfei Mining Development through the Ward Councillor minutes of
meeting held on 10-11-2018

NOTULE - VERGADERING GEHOU OP 10-11-2018

VIOOLSDRIFT & ROOIWAL GEMEENSKAPPE: IN VERBAND MET GROND HERVORMING (LAND CLAIME) OP 226 MET CHINESE

Opening: Raadslid Markus

Albei gemeenskappe het ooreengekom dat hulle met die boor van minerale vir proefstukke (samples) kan voortgaan. Die voorwaardes daarin verbonde is dat Chinese mans net hulle ambags manne mag gebruik en die res van die werkers moet uit die gemeenskap kom van die twee dorpe.

Die gemeenskappe vra ook dat wanneer daar sal gemyn word, wil hulle aandeelhouers (shareholders) wees binne die mynbou en wil deel uitmaak van beleging (investment), want hulle voel dis grond. In die verlede was die gemeenskappe agter weë gelaat en hulle voel dis grond en hulle wil baat daarby vind. Die Chinese het ooreengekom met die gemeenskap dat hulle sal voldoen aan die gemeenskappe se se voorwaardes en dat wanneer hulle die boor sertifikaat ontvang vand die DMR dat hulle moet terug kom na die gemeenskappe.

Op hierdie noot het die vergadering verdaag. Ons wag nou net vir die Chinese, want ons mense wil werk hê, so hulle moet so gou as moontlik terug voering gee as hulle die sertifikaat het.

Byvoorbaat Dank.

Rdl. Markus

03 January 2016

Sir/ Madam,

RE: Land Claim on Vioolsdrift 226

Your letter dated 1 February 2015 is hereby acknowledged and the contents thereof are noted.

Please be advised that there is a valid land claim on the Remainder of Erf 226 Vioolsdrift-Suid. The claim was gazetted in the Government Gazette as notice number 927of 2009 on 3 July 2009.

Due to the nature and size of the claimed land, the Office of the Regional Land Claims Commissioner: Northern Cape has taken a decision to settle the claim in phases. An agreement was reached with the claimant community to establish three legal entities in a form of Communal Property Associations (CPAs). To date, the Office of the Regional Land Claims Commissioner: Northern Cape has managed to register 1 CPA (Rooiwaal CPA) and is in the process of registering the remaining two CPAs.

The Vioolsdrift-Suid claimant community has taken a resolution not to allow any mining applications in the Remainder of Erf 226 until the claim has been finalized. This resolution has been submitted in writing to both the Office of the Regional Land Claims Commissioner: Northern Cape and the Department of Mineral Resources. Further, the Vioolsdrift-Suid claimant community has indicated their desire to apply for mining and prospecting rights themselves, and as a result, the Department of Mineral Resources has made a commitment to assist the claimant community in applying for prospecting and mining rights on Erf 226.

I trust you find the above in order.

Yours Sincerely,

Ms. MM Du Toit

Chief Director: Land Restitution Support

Office of the Regional Land Claims Commissioner: Northern Cape

KENNISGEWING VAN "VIOOLSDRIF BLACK" MYNBOU PROSPEKTEER-REG AANSOEK: OPE-DAG EN ROEP VIR KOMMENTAAR

Prospekteer perseel geleë langs en agter Weermag Grens-Patrolle geboue in Kotzeshoop

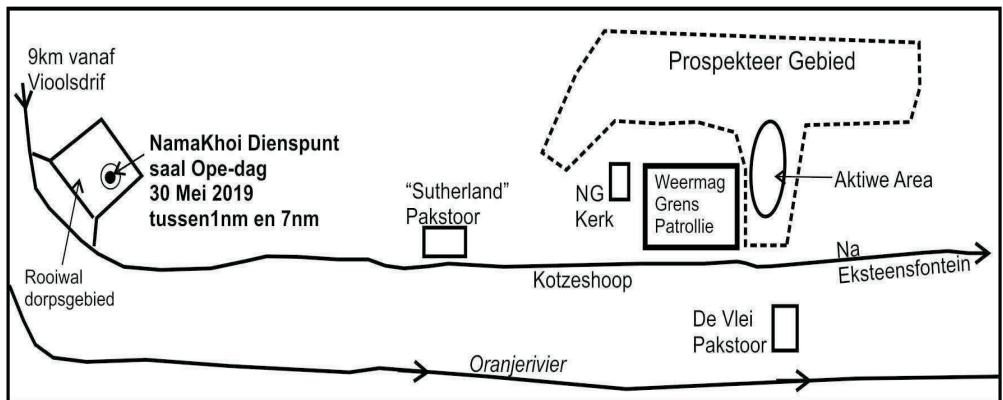

U word hiermee in kennis gestel dat aansoek om mynbou prospekteer-reg gedoen is deur Zhongfei Mining Development (Pty) Ltd by Departement Minerale Hulpbronne; Noordkaap in terme van Artikel 16 van die Wet op Minerale-en Petroleum Hulpbronne Ontwikkeling (Wet 28 van 2002 soos gewysig) vir prospektering van swart "graniet" op 143 hektaar op Erf 226 restant; Violdrif.

U word ook hiermee uitgenooi om op Donderdag 30 Mei 2019 tussen 1nm en 7nm in die NamaKhoi Rooiwal Dienspunt Saal 'n uitstalling van die kaarte en fotos van die beoogde aktiwiteite na te gaan en vraë aan die aansoeker se personeel in die saal te stel om enige onduidelikhede uit te klaar.

Voorlopige Bestek Opname Verslaë (Draft Scoping Reports), 'n beskrywing van beoogde aktiwiteite sal ook vanaf 30 Mei tot 30 Junie beskikbaar wees vir U om na te gaan by die: NamaKhoi Rooiwal Dienspunt kantoor, die Steinkopf biblioteek in Pionierstraat (naby Poskantoor/Pep Stores), en die Springbok biblioteek in Namakwastraat.

U kan ook deur die konsultante Site Plan Consulting 'n elektroniese afskrif van die verslag by onderstaande kontak-nommers aanvra.

Die beoogde aktiwiteite stel die projek bloot aan Gelyste Aktiwiteite onder die Staats Kennisgewings 327, 325 en 324 gepubliseer in 2014 en 2017 onder die Wet op Nasionale Omgewingsbestuur (Wet 107 of 1998 soos gewysig):

Om te registreer as 'n geïntereseerde of geïmpakkeerde party en of kommentaar op die verslag te gee word U hiermee uitgenooi om U naam, kontak inligting, belang in die aanleentheid en/ of kommentaar/ beswaar op skrif te stel om die onderstaande adres teen 1 Julie 2019 te bereik. Na afloop van sodanige kommentaar periode sal slegs geregistreerde geïntereseerde of geïmpakkeerde partye verder van die proses in kennis gestel word.

Kontak besonderhede vir registrasie as 'n geregistreerde geïntereseerde of geïmpakkeerde party of om kommentaar te gee is: Site Plan Consulting, Posbus 28, Strand, 7139, Tel: 021 854 4260, Faks: 021 854 4321, Epos: siphumelelo@siteplan.co.za.
Kontakpersone Steve van der Westhuizen of Siphumelelo Mbali.

KENNISGEWING VAN "VIOOLSDRIF BLACK" MYNBOU PROSPEKTEER-REG AANSOEK: OPE-DAG EN ROEP VIR KOMMENTAAR

Prospekteer perseel geleë langs en agter Weermag Grens-Patrollie geboue in Kotzeshoop

U word hiermee in kennis gestel dat aansoek om mynbou prospekteer-reg gedoen is deur Zhongfei Mining Development (Pty) Ltd by Departement Mineraal Hulpbronne; Noordkaap in terme van Artikel 16 van die Wet op Mineraal-en Petroleum Hulpbronne Ontwikkeling (Wet 28 van 2002 soos gewysig) vir prospektering van swart "graniet" op 143 hektaar op Erf 226 restant; Violdrif

U word ook hiermee uitgenooi om op Donderdag 30 Mei 2019 tussen 1nm en 7nm in die NamaKhoi Rooiwal Dienspunt Saal 'n uitstalling van die kaarte en fotos van die beoogde aktiwiteite na te gaan en vraë aan die aanseker se personeel in die saal te stel om enige onduidelikhede uit te klaar.

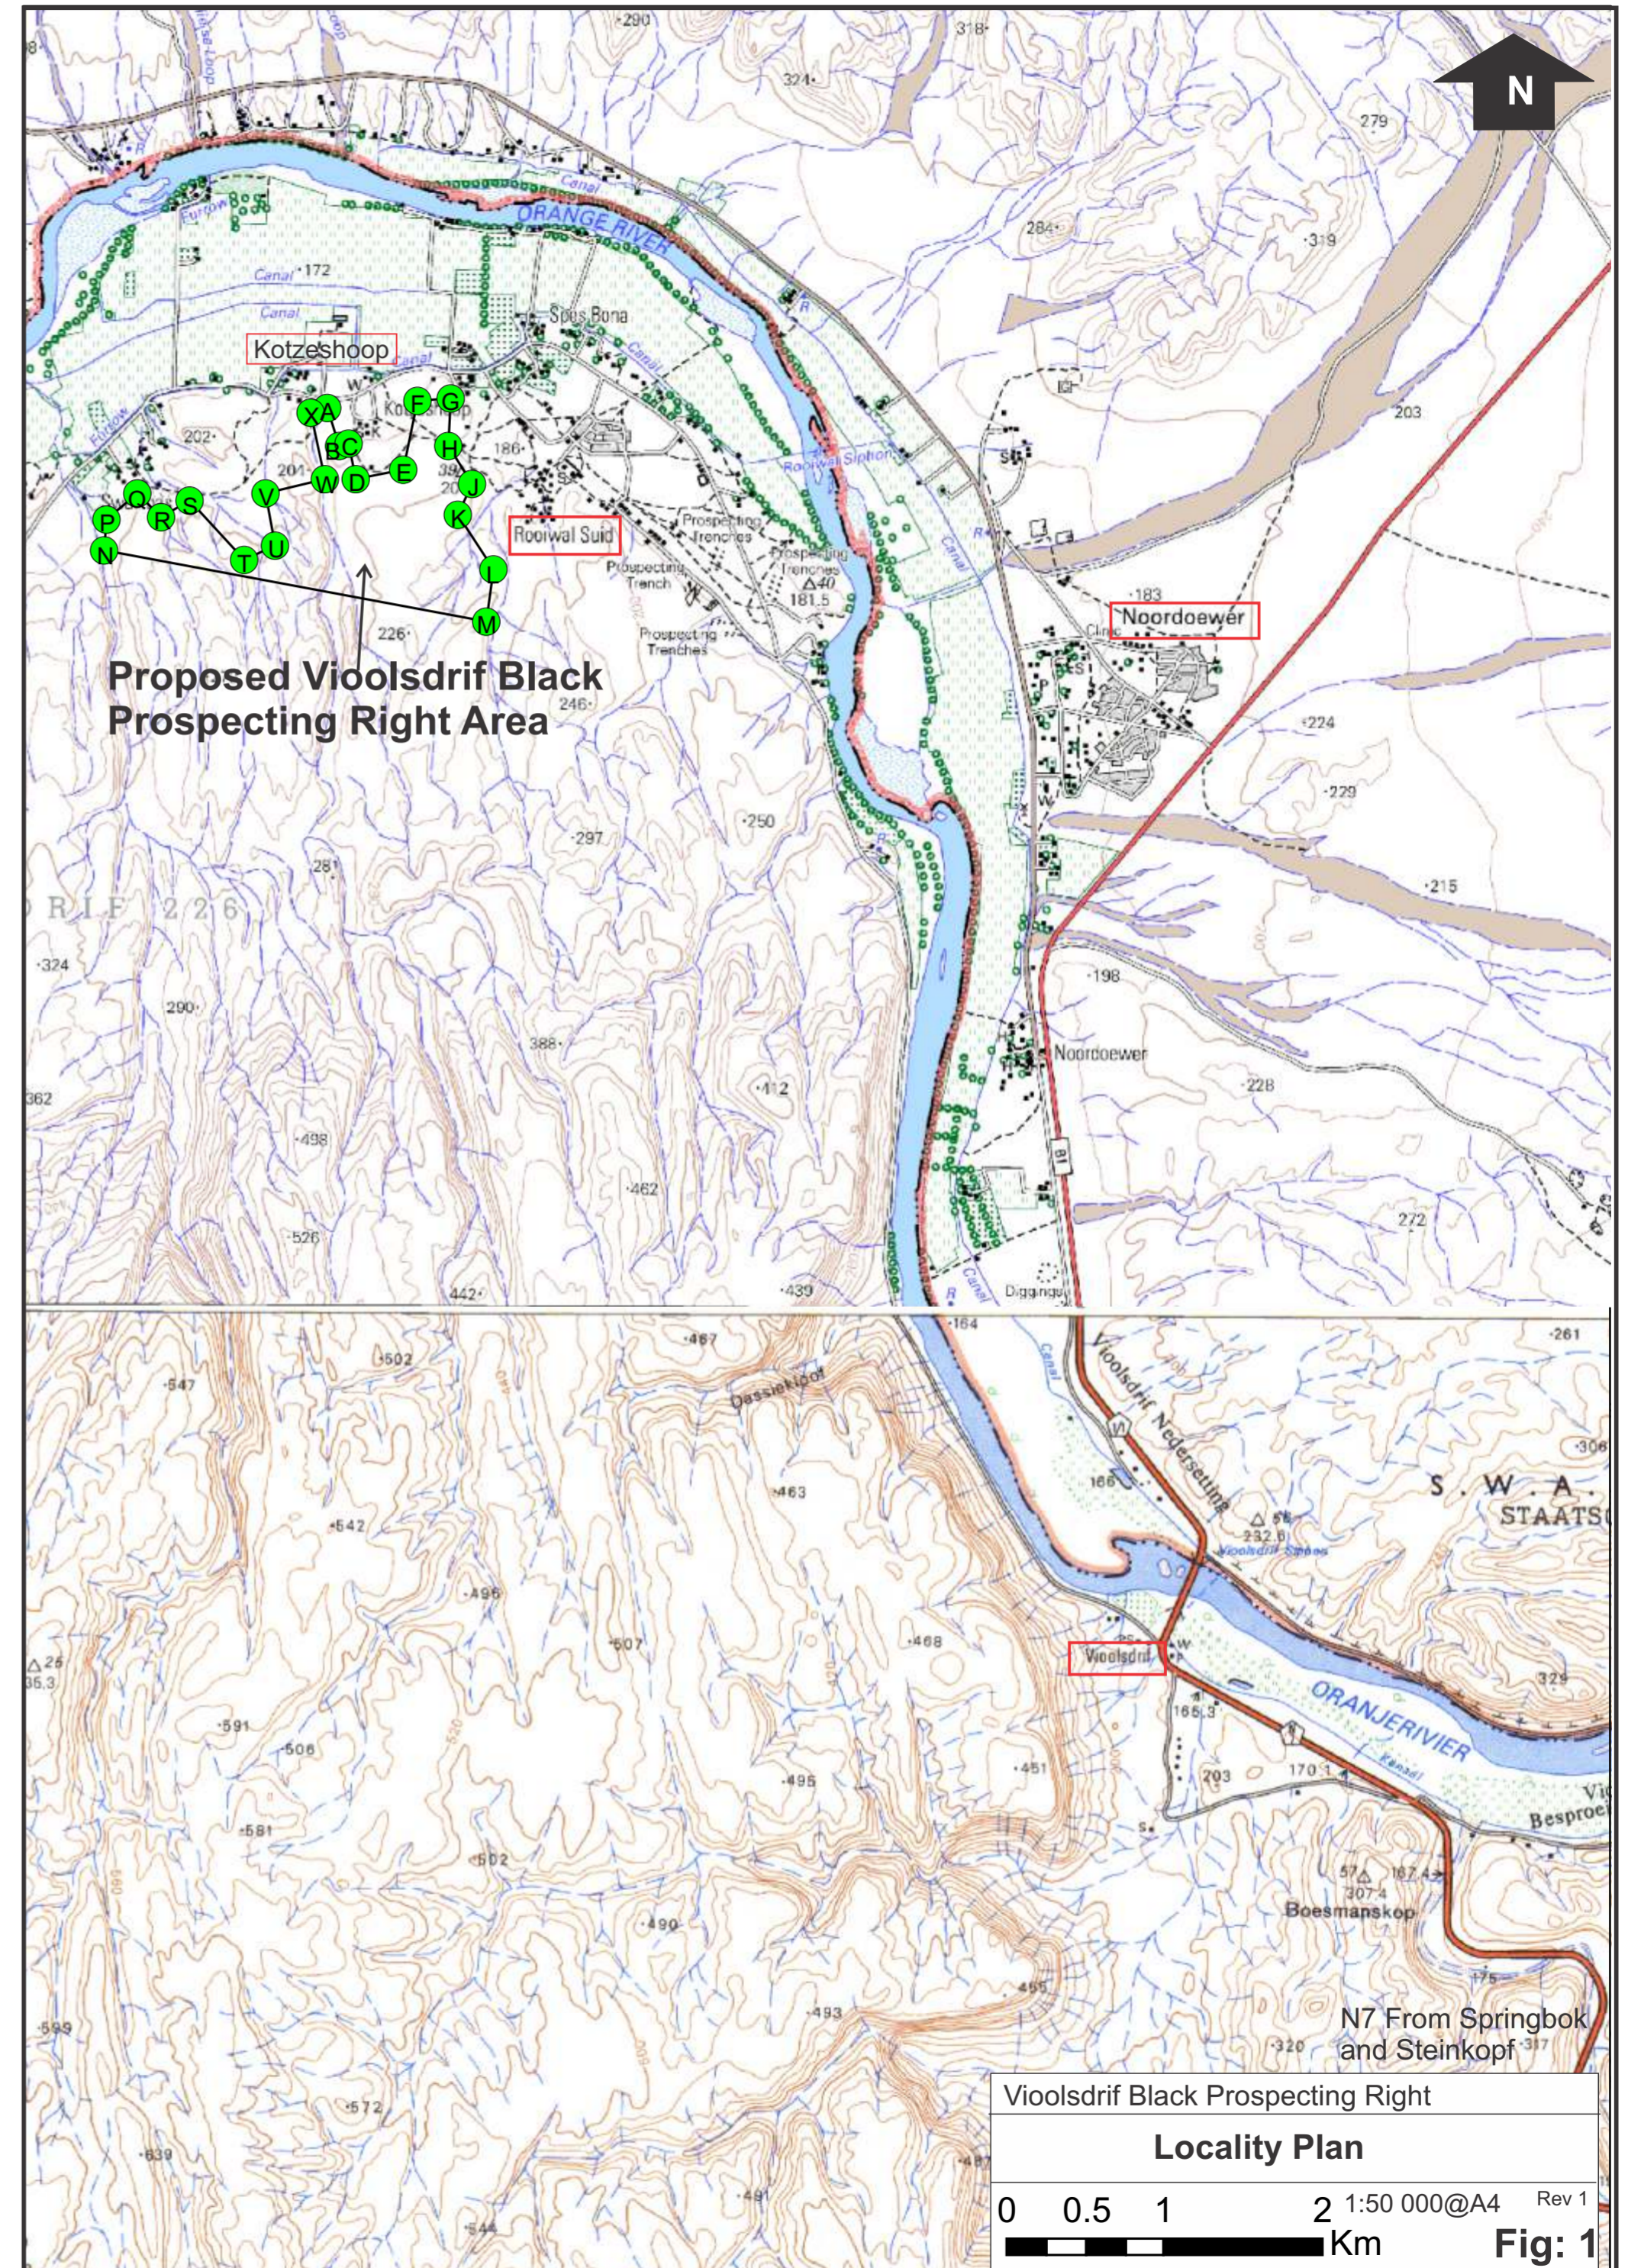

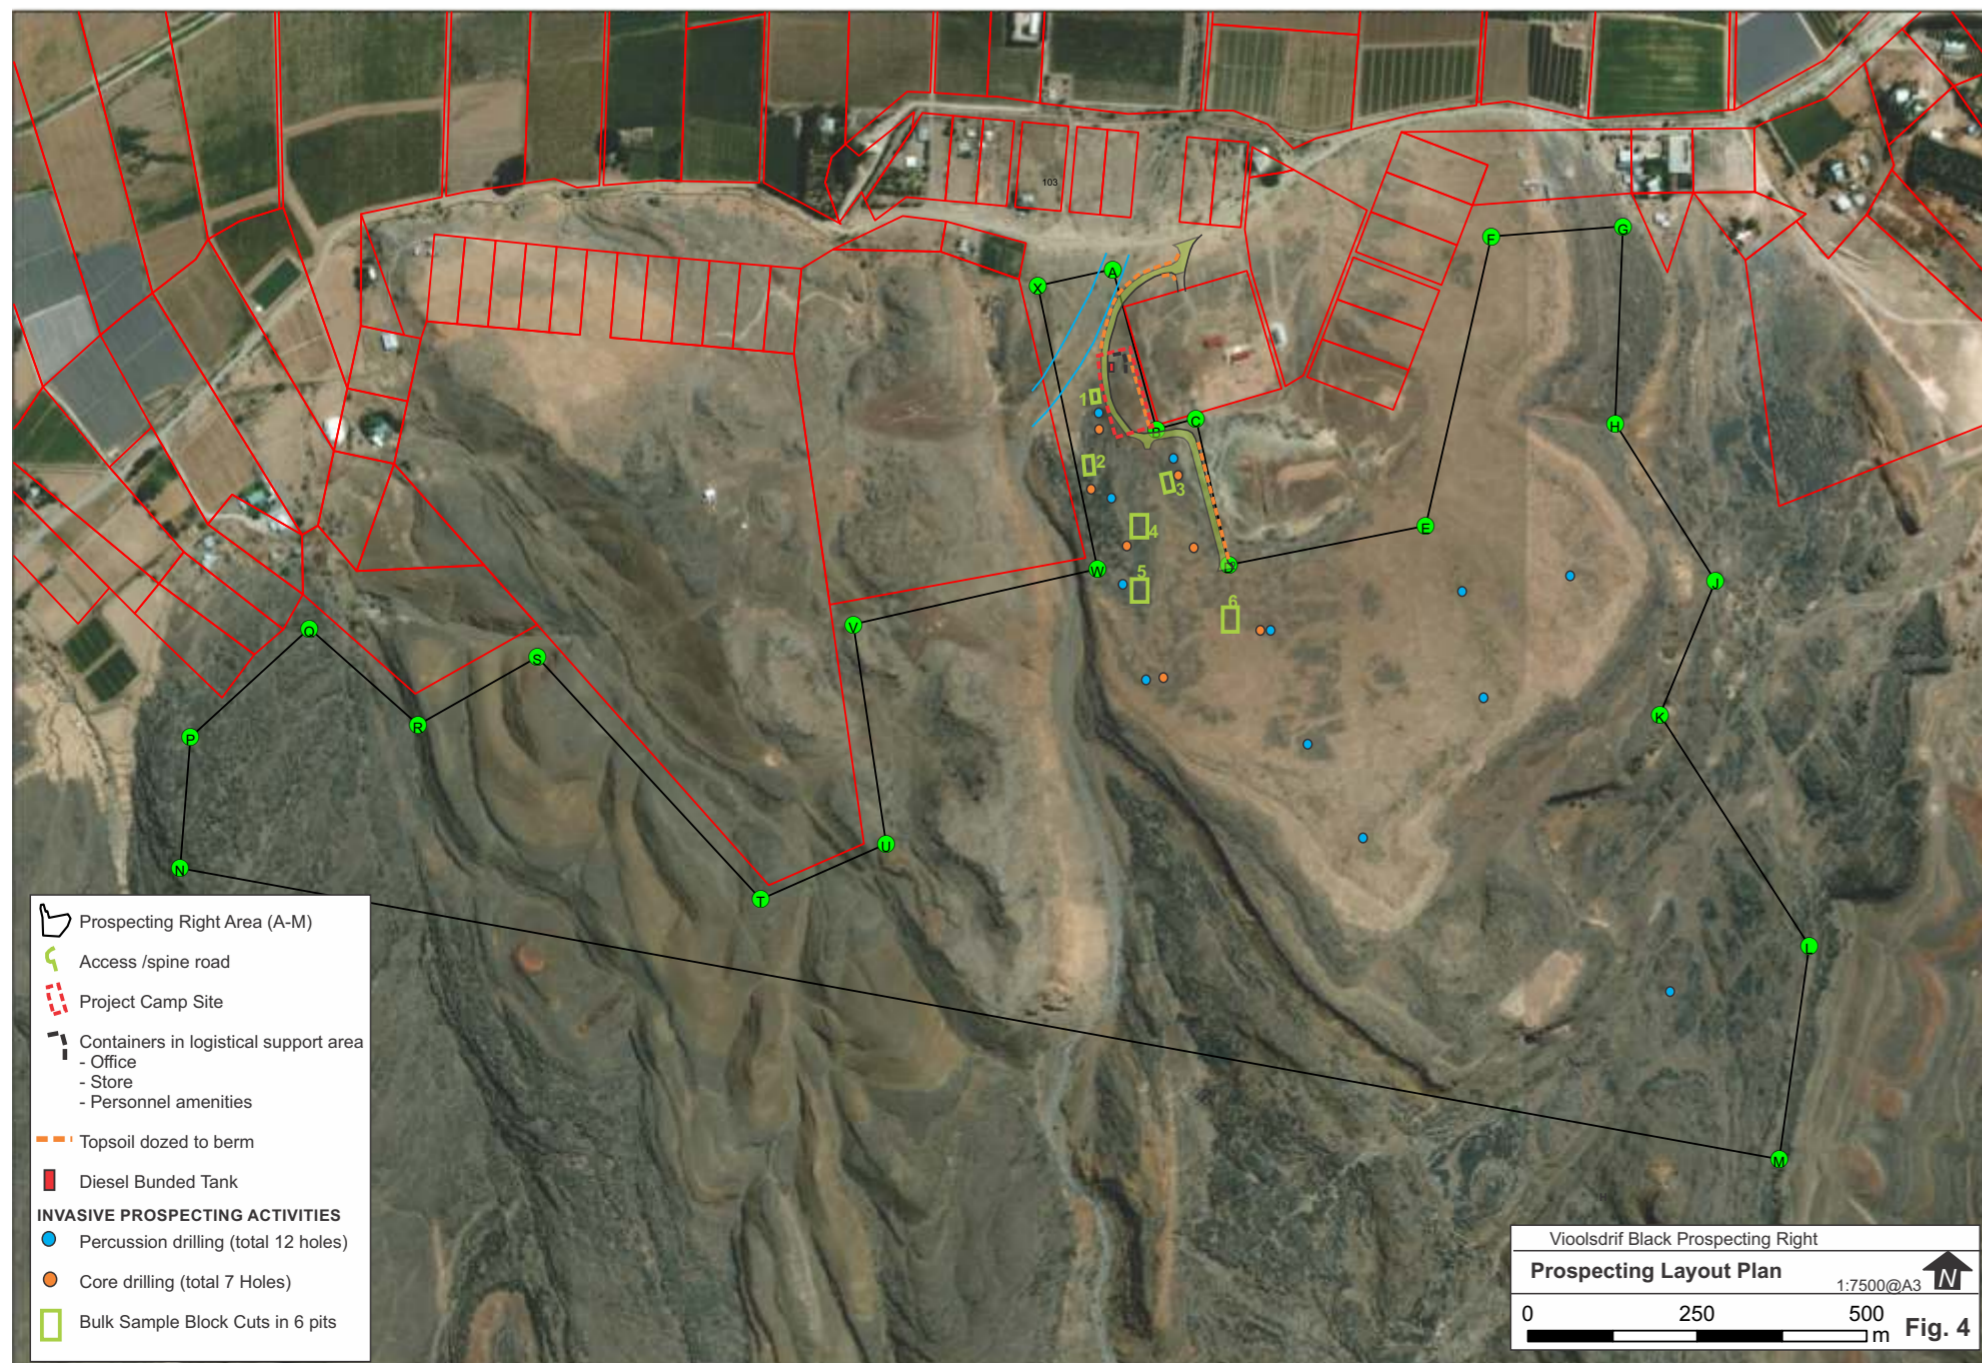

Voorlopige Bestek Opname Verslaë (Draft Scoping Reports), 'n beskrywing van beoogte aktiwiteite sal ook vanaf 30 Mei tot 30 Junie beskikbaar wees vir U om na te gaan by die: NamaKhoi Rooiwal Dienspunt kantoor, die Steinkopf biblioteek in Pionierstraat (naby Poskantoor/Pep stores), en die Springbok biblioteek in Namakwastraat.

U kan ook deur die konsultante Site Plan Consulting 'n elektroniese afskrif van die verslag by onderstaande kontak-nommers aanvra.

Die beoogde aktiwiteite stel die projek bloot aan Gelyste Aktiwiteite onder die Staats Kennisgewings 327, 325 en 324 gepubliseer in 2014 en 2017 onder die Wet op Nasionale Omgewingsbestuur (Wet 107 of 1998 soos gewysig):

VIER SAPD-NETBAL-SPELERS HOU DIE NOORD-KAAP NAAM HOOG

"Die vier SAPD-netbalspelers uit die Noord-Kaap gaan deel wees van die prestige-span in Pretoria by TUCKS. Die wedstryde sal op Supersport 10 uitgesaai word..."

Die SAPD-netbalspelers van die Noord-Kaap hou die vlag hoog deur die provinsie by Telkom se netbalpremierliga te verteenwoordig.

Volgens polisiewoordvoerder, kol. Mashay Gamielien,

gaan vier SAPD-netbalspelers uit die Noord-Kaap deel wees van die prestige-span in Pretoria by TUCKS. Die wedstryde sal op Supersport 10 uitgesaai word.

Een van die vier spelers, SPO Leoni Ross is as die assistent-afrigter vir die Noord-Kaap se diamantespan gekies. Ross dien die polisie

in die beskerming- en sekuriteitsdiense.

Twee konstabels, Melanie Coetzee van Nababeep SAPD en Fureka Mentoor van die Roodepan SAPD asook sersant Zintle Kabinda, 'n statistikus van die Kagisho SAPD, vorm deel van die span wat in die liga speel. Die liga strek oor ses weke

en die span speel elke naweek vanaf 10 Mei tot 9 Junie 2019.

PORT ELIZABETH

Die twee konstabels, Coetzee en Mentoor is ook gekies om die Noord-Kaap in Augustus te verteenwoordig in Port Elizabeth by die SA's SPAR Netbal Toernooi. Mentoor is ook genomineer om die SAPD te verteenwoordig in Angola by die SARPCO spele in dieselfde maand.

Dear Madam,

**PROSPECTING RIGHT APPLICATION BY ZHONGFEI MINING DEVELOPMENT (PTY) LTD ON ERF 226
REMAINDER, VIOOLSDRIF SETTLEMENT, NAMAQUALAND, NORTHERN CAPE:
CALL FOR COMMENT ON DRAFT SCOPING REPORT
DEPARTMENT MINERAL RESOURCES REF: NC 30/5/1/1/2/12377 PR**

Please be advised that Zhongfei Mining Development (Pty) Ltd has lodged an application for a Prospecting Right with the Department Mineral Resources in terms of Section 16 of the MPRDA (as amended), to prospect for Dimension Stone (Black Dolomite) on a 143.788ha portion of Erf 226 Remainder in the Vioolsdrif Settlement, Namaqualand, Northern Cape.

As such, included herewith please find a copy of the Draft Scoping Report in respect of the envisaged Prospecting operations for your perusal and comment.

You are hereby requested to provide any comment you have in respect of the attached document to the contact details below on or before 1 July 2019. If you do not respond you will be deemed to have no comment in this phase.

As a recognised Interested and Affected party, you will receive further documentation during the forthcoming draft Environmental Impact Assessment and Environmental Management Program report (EIA-EMPr) phase, and will be kept abreast of the status of this Prospecting Right Application process.

**PROSPEKTEER-REG AANSOEK DEUR ZHONGFEI MINING DEVELOPMENT (PTY) LTD OP ERF
226 RESTANT, VIOOLSDRIF NEDERSETTING, NAMAQUALAND, NOORD-KAAP:
ROEP VIR KOMMENTAAR OP
VOORLOPIGE BESTEK OPNAME VERSLAG (DRAFT SCOPING REPORT)
DEPARTEMENT MINERAAL HULPBRONNE VERWYSING: NC 30/5/1/1/2/12377 PR**

U word hiermee as kontak person van die Vioolsdrif NG Kerk genootskap in kennis gestel dat aansoek om mynbou prospekter-reg gedoen is deur Zhongfei Mining Development (Pty) Ltd by Departement Mineraal Hulpbronne; Noordkaap in terme van Artikel 16 van die Wet op Mineraal-en Petroleum Hulpbronne Ontwikeling (Wet 28 van 2002 soos gewysig) vir prospektering van swart "graniet" op 143 hektaar op Erf 226 restant; Vioolsdrif (Soos angedui in angehegte sketskaart).

Verder tot die plakkate wat in die omgewing opgeplak is ter uitnoding van die inwoners van die Rooiwal/Kotzeshoop area na die Ope-Dag uitstalling van kaarte en fotos wat die voorgestelde prospekter-aktiwiteite uitbeeld in die NamaKhoi Dienspunt Saal te Rooiwal op Donderdag 30 Mei 1nm tot 7nm word U (as kontak met die kerk gemeenskap van die NG Kerk te Rooiwal) hiermee as 'n moontlike geïntereeserde of geïmpakteerde party beskou en uitgenooi om die angehegte voorlopige Bestek Opname Verslag (Draft Scoping Report) na te gaan tussen 30 Mei and 1 Julie as basis van enige kommentaar wat die kerk genootskap wil lewer of beswaar maak. Veder vra ons U ook om deur die Kerk's raadslede, die lede van die kerk aan te moedig om die verslag by die NamaKhoi Dienspunt kantoor na te gaan.

Enige kommentaar wat die Kerk gemeenskap wil lewer of beswaar maak moet op skrif gestel word om Site Plan Consulting by onderstaande kontak-nommers/adres te bereik voor 1 Julie. Sodanige skriftelike kontak sal die Kerk gemeenskap registreer as 'n geïntereeserde of geïmpakteerde party en hulle gekose verteenwoordiger sal dan van tyd tot tyd skriftelik ingelig word by die adres van hulle skrywe soos die aansoek proses vorder.

Site Plan Consulting, Posbus 28, Strand, 7139, Tel: 021 854 4260, Faks: 021 854.4321, Epos: siphumelelo@siteplan.co.za. Kontakpersone Steve van der Westhuizen of Siphumelelo Mbali.

U kan ook ter enige tyd telefonies of per epos skakel indien U enige verdere inligting verlang.

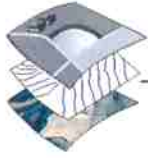

Die uwe

Dear Sir,

**PROSPECTING RIGHT APPLICATION BY ZHONGFEI MINING DEVELOPMENT (PTY) LTD ON ERF 226
REMAINDER, VIOOLSDRIF SETTLEMENT, NAMAQUALAND, NORTHERN CAPE:
CALL FOR COMMENT ON DRAFT SCOPING REPORT
DEPARTMENT MINERAL RESOURCES REF: NC 30/5/1/1/2/12377 PR**

Please be advised that Zhongfei Mining Development (Pty) Ltd has lodged an application for a Prospecting Right with the Department Mineral Resources in terms of Section 16 of the MPRDA (as amended), to prospect for Dimension Stone (Black Dolomite) on a 143.788ha portion of Erf 226 Remainder in the Violsdrif Settlement, Namaqualand, Northern Cape.

As the Violsdrif Border Operational Base facilities and site are directly adjacent to the proposed prospecting activities, in your capacity as local officer you are engaged in this process of considering environmental impact of the project on the activities and facility of the SANDF Border Operational Base and requested to refer the matter your unit's relevant headquarters for comment they may have (in such referral you can provide us with the contact details and we can assist in providing them with a report copy).

As such, included herewith please find a copy of the Draft Scoping Report in respect of the envisaged Prospecting operations for your perusal and comment.

You/your unit are hereby requested to provide any comment you have in respect of the attached document to the contact details below on or before 1 July 2019. If you do not respond you will be deemed to have no comment in this phase.

As a recognised Interested and Affected party, you or your referred headquarters will receive further documentation during the forthcoming draft Environmental Impact Assessment and Environmental Management Program report (EIA-EMPr) phase, and will be kept abreast of the status of this Prospecting Right Application process.

Subject: RE: Meeting with CPA'S

Good day Mr Hearn,

We acknowledge your email of yesterday 27 June. We note that this is however the first email we received from you. Meanwhile, we have dealt with a fax comment by Mr Thomas Fredericks and Mr Michael Heyn who had both attended the 30 May 2019 Open day in their personal capacities but Mr Fredericks had noted that Mr Michael Heyn is the chairman of the Rooiwal CPA.

We are therefore very glad to now have initiated formal contact with the 3 CPA's. Despite our meeting of October 2018 with Daphne Markus and Mr Lorenzo Farber of the municipality and our seeking of contact persons and organisations in sending invitations to attend the Open Day Scoping held in Rooiwal on 30 May, we had not managed to establish formal contact with the CPA organisations.

It is important to note that the purpose of the scoping phase and calling for I&APs to register in the Open day, was to identify interested and affected parties and consequently your email contact now initiates formal registration of the CPAs in the process.

Please therefore provide us with the name of the correct contact person/s, address and contact details (Telephone, fax, and email and physical address for courier delivery) of each of the 3 CPAs in order that we can distribute copies of the Scoping Reports and any other correspondence to you/them.

Regarding a meeting to discuss the project formally with the CPAs administrations, we are unfortunately committed to other tasks for the month of July. Accordingly the best we can do in the meanwhile is to send you copies of the Scoping Report placed at the libraries of Steinkopf and Springbok and the Rooiwal Diens Punt and distributed to all I&APs identified at the time.

We emphasise that now having established contact with you during the scoping process, such contact will be recorded in our process of registration and any inputs you will have can be discussed in a meeting of early August and you and the full community as registered interested and affected parties and in your capacities as landowners, will be part of the participatory process under the EIA-EMP phase in August-September during which further documentation and discussion thereof will take place for comment before any final documentation for decision-making by DMR will be submitted in this Prospecting Right application process.

While elements of the application have many local Rooiwal consideration, the overriding application deals with matters common to all 3 CPAs and consequently we ask whether meeting the CPAs administrations can be dealt with by all 3 bodies participating in one meeting?, in order to achieve consensus. As a matter of interest, is there any distinction on map between the three CPAs areas of administration?

While our current process of engagement in Scoping and technical environmental impact assessment in August-September deals with technical impacts and community comments thereon, the anticipated meeting with the CPAs will be the avenue for working towards the anticipated "participatory/shareholders agreement" between the community (CPAs) and the Applicant to be put in place during the pending Mining Right application. The commitment of the applicant to such participatory/shareholders agreement was again confirmed to community members who attended the open day by the applicants present during the open day.

As there is no merit of engaging the community in the high cost risk of prospecting, it is appropriate that the agreement to which the applicant has committed is formulated when the mining project is being defined on the basis of positive prospecting.

We thank you for making the contact and look forward to having your structured organisation to communicate with

Regards
Steve van der Westhuizen

Attention: Mr Craig Donald

CONSULTATION IN TERMS OF REGULATION 49 (3) OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT 1998, (ACT 107 OF 1998) AS AMENDMENT FOR THE APPROVAL OF AN ENVIRONMENTAL AUTHORISATION (EA) FOR PROSPECTING ACTIVITIES AND RELATED MINING ACTIVITIES, PORTION OF ERF 226 REMAINDER IN THE VIOOLSDRIFT SETTLEMENT WITHIN NAMAQUALAND ADMINISTRATIVE DISTRICT, NORTHERN CAPE PROVINCE.

The Reference is made to the above-mentioned report with the cover letter dated 28 May 2019, with Reference number NC 30/5/1/1/2/12377 PR.

The Department of Water and Sanitation (DWS) has assessed the above-mentioned application and wish to comment as follows:

1. The applicant shall take a note of Section 22(1) of the National Water Act, 1998 (Act 36 of 1998), "Permissible water use", a person may only use water-
 - a) without a license-
 - I. if that water use is permissible under Schedule 1;
 - II. If that water is permissible as a continuation of an existing lawful use (section 32); or
 - III. If that water use is permissible in terms of general authorisation issued under section 39;
 - b) If the water use is authorised by a licence under this Act; or
 - c) If the responsible authority has dispensed with a licence requirement under subsection (3), (of the same Act).
2. Therefore any other water use activities as outlined in section 21 of the National Water Act, 1998 (Act 36 of 1998) associated with the proposed project that are not

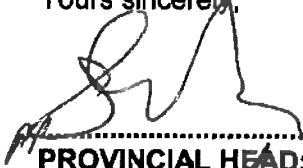

NATIONAL DEVELOPMENT PLAN
Our Future - make it work

permissible as indicated on paragraph 1 above shall have to be authorised by DWS prior to such water use activities taking place.

3. All relevant sections and regulations of the National Water Act, 1998 (Act 36 of 1998) regarding water use must be adhered to.
4. No pollution of surface water or ground water resources may occur due to any activity on the property.
5. The minimizing of waste must be promoted and alternative methods for waste management must be investigated.
6. A buffer area for the execution of a water use as contemplated in Sections 21 (c), (i) and (j) of the National Water Act, 1998 (Act 36 of 1998) must be applied to any wetland or any water resource within a distance of 500 meters upstream or downstream from the boundary of any wetland
7. Chemical toilets facilities be on-site during prospecting phase of project to be used by workers, such toilets facilities must be located outside of the 1:100 year floodline and such toilets facilities must be regularly monitored on daily basis and sewer content must be disposed of at a nearest authorised Wastewater Treatment Works in agreement with Water Service Authority;

Should you have any queries, do not hesitate to contact the office at the above mentioned contact details for clarifications.

Yours sincerely,

.....

Appendix 6:

Draft Environmental Awareness Induction Training Manual

DRAFT ENVIRONMENTAL AWARENESS INDUCTION TRAINING MANUAL

Vioolsdrif Black Prospecting Right:

May 2019

INTRODUCTION

Environmental management is a team effort. All management and staff are responsible for avoiding environmental damage/reducing environmental risk, and ensuring good environmental management.

The keys to achieving this are:

- Environmental Induction Training
 - Should a new operator/labourer be employed from outside of the company or from another site within the company, then the site manager must briefly go through the environmental issues which would apply to that persons post as part of the induction of that person.
 - **Training:** Each and every employee must go through an environmental training process where at least the following items area covered:
 - The oil/fuel management company procedures must be explained to the employees. The reason for the procedures must also be explained (i.e. to not impact on groundwater, surface water, soil quality etc.).
 - The domestic and industrial waste management procedures & method must also form part of the training
 - Alien vegetation management in the Prospecting Right area
 - Restriction of activities to the Prospecting Right Area with special restrictions to specific areas as may be demarcated by clearly visible posts as No-Go areas. Reporting to supervisor or management if/when a demarcation post is broken or removed
 - Emergency management procedures such as dealing with oil spills or fires must also be drilled

Such training will, in this case, be carried out by the site manager or the designated Environmental Control Officer (ECO)

- Being aware of the environment (natural and built) and the need to protect them.
- Understanding and recognising the things to protect and the do's and don'ts.
- Knowing and appreciating the importance of the reporting procedures.
- Taking pride in good environmental housekeeping and good neighbour relations.

It is imperative that the site manager during monthly meetings (Environmental, health and safety meetings) emphasises the importance of minimising impact generation reducing risk. Such awareness of impact and risk generators shall be a continuous monitoring function by all personnel engaged in the site activities who should report high impact generation or increased risk levels the site supervisor/ quarry manager in order that intervention by temporary cessation of the activity can be considered by management until resolved.

1) Legal Requirements

- Requirement of the MPRDA:
 - to have an EIA/ EMP Environmental Management Plan available on site at all times (***show the document, the approved EMP, to all staff in the induction and briefly note the items it covers***).
- National Environment Management Act. *If you don't work according to the EMP the mine will be classified as non-conforming and may:*
 - Result in loss of Prospecting Authorization or imposition of a fine.
 - Raise issues if/when applying for further Prospecting Rights.
- Additional laws
 - National Water Act:
 - use of water.
 - discharge of sewage.
 - control of surface water.
 - quality of stormwater discharged from site.
 - avoidance of groundwater contamination by oils, sewage or other.
 - prevention of impact on groundwater aquifers.

2) Targets:

- Understanding of what is contained in the EIA/ EMP
- Understanding of the context of this Prospecting area as it relates to surrounding legal/planning considerations.
- Buy-in and appreciation by staff of the need for environmental protection (especially as it pertains to site rehabilitation and staying away from No-Go areas).
- Good results in internal Reporting and Environmental Performance Assessments.
- Understanding the content and each person's responsibility as it pertains to implementation of guidelines and monitoring of potential impacts.

3) Why do we need Environmental Management?

- A) It is an integral part of normal good management (Good Housekeeping) on the prospect of the quarry site, the loading sites and their access roads together with:
- Safety of the employees, the other road users, pedestrians and all farming activities.
 - Efficiency (Productivity).
 - Planning (specific activities in specific areas).
 - Avoidance of potential damage to adjacent properties or natural systems (no off-road vehicle turning in the veld etc.)
- B) The prospecting is part of the larger environment and may have an impact in terms of:
- Vegetation (explain about Critical Biodiversity Areas).
 - Visual impact (albeit distant) from surrounding land-users.
 - Dust generation.
 - Noise.
 - Safety,
 - Threat of fire to adjacent natural systems or agrarian uses (grazing/crops).
 - Generation of silt which can enter the stream causing turbidity affecting natural habitat and/ or irrigation systems

- C) Any **NO GO/ fenced-off/ demarcated** areas must be respected:
- They are important to preserve sensitive areas (botanical or other).
 - Point these areas out to staff on the ground (i.e. not just from the EIA/ EMP) as being **all areas outside of the prospecting permission**.
- D) Integration of the prospecting area with surrounding land uses / users requires that the following be limited through proper action by the staff:
- Excessive areas of disturbance.
 - Lack of successful rehabilitation (topsoil management).
 - Noise.
- E) Define monitoring programme responsibilities in accordance with EIA/ EMP provisions
- Daily checking of equipment for oil leaks, reverse safety hooters/ safety lights and normal vehicle lights and management of systems by all staff.

4) Who does the damage to the Environment?

A) Management:

- (i) by not being fully informed themselves of the content of the EMP and other decisions/controls.
- (ii) by not informing the staff of proper procedure and the environmental consequences of incorrect activities.
- (iii) by not conducting regular monitoring.
- (iv) by not developing their own personal sensitivity to environmental impact.
- (v) by not maintaining good neighbourliness

B) Equipment Operators:

- (i) by driving equipment or moving items like pipes or cables outside of demarcated roadways, movement areas.
- (ii) by dumping material in veld (outside of demarcated areas).
- (iii) by beginning to move material or dump material before topsoil has been removed.
- (iv) By not reacting and not immediately reporting fuel, oil or hydraulic fluid leaks.

C) General Staff:

- (i) Use of the veld as a toilet (NOT ALLOWED) (Acquaint staff with the facilities provided).
- (ii) Littering with lunch wrappings, bottles.
- (iii) Short-cut walking paths.
- (iv) Causing of fire or failure to report fire or threat of fire as soon as it is seen (whether generated by quarry activities or outsiders).

5) What the Staff should be aware of to look out for:

- Allocated and demarcated storage or dump areas:
 - Don't dump anywhere else!!
 - If in doubt ask first!!

- **Fenced off/No-go areas**
 - **All areas outside of the Prospecting Permission Approved /Demarcated/ Fenced Area**
 - Strictly no tolerance of staff movement onto adjacent farms without authorization.
 - Don't enter these areas and don't drive into them.
 - Haulage to take place only along selected/ prescribed access routes
- **Recognise NO GO areas and**
 - Don't disturb them.
 - Don't drive into them.
 - Don't walk through them.
 - Don't use them as toilet areas.
- **Oil, fuel or hydraulic leaks**
 - As soon as you see these, report them to the operator or the foreman/manager.
- **Know the on-site refuelling/ greasing and oil change procedure** if you are involved in it to know how to avoid pollution.
- **Acquaint yourself with the use of the hydrocarbon clean-up kit and where it is kept**
- **Report littering**
- **Recognise (know the difference between) domestic waste and industrial waste** and use correct procedures for their disposal.
- **Recognise the threat of fire**
 - Immediately report any threat of fire or fire if seen.
 - Strictly no fires permitted on site.

6) Fire Reporting Procedure and Oil, Fuel, Hydraulic Leaks

If you see a fire/leak starting or threat of fire in the veld take the following action:

- Make safe what you are doing at the time.
- Leave your task and report the fire/leak to the nearest supervisor / manager.

7) Other non-urgent environmental incidents reporting procedure

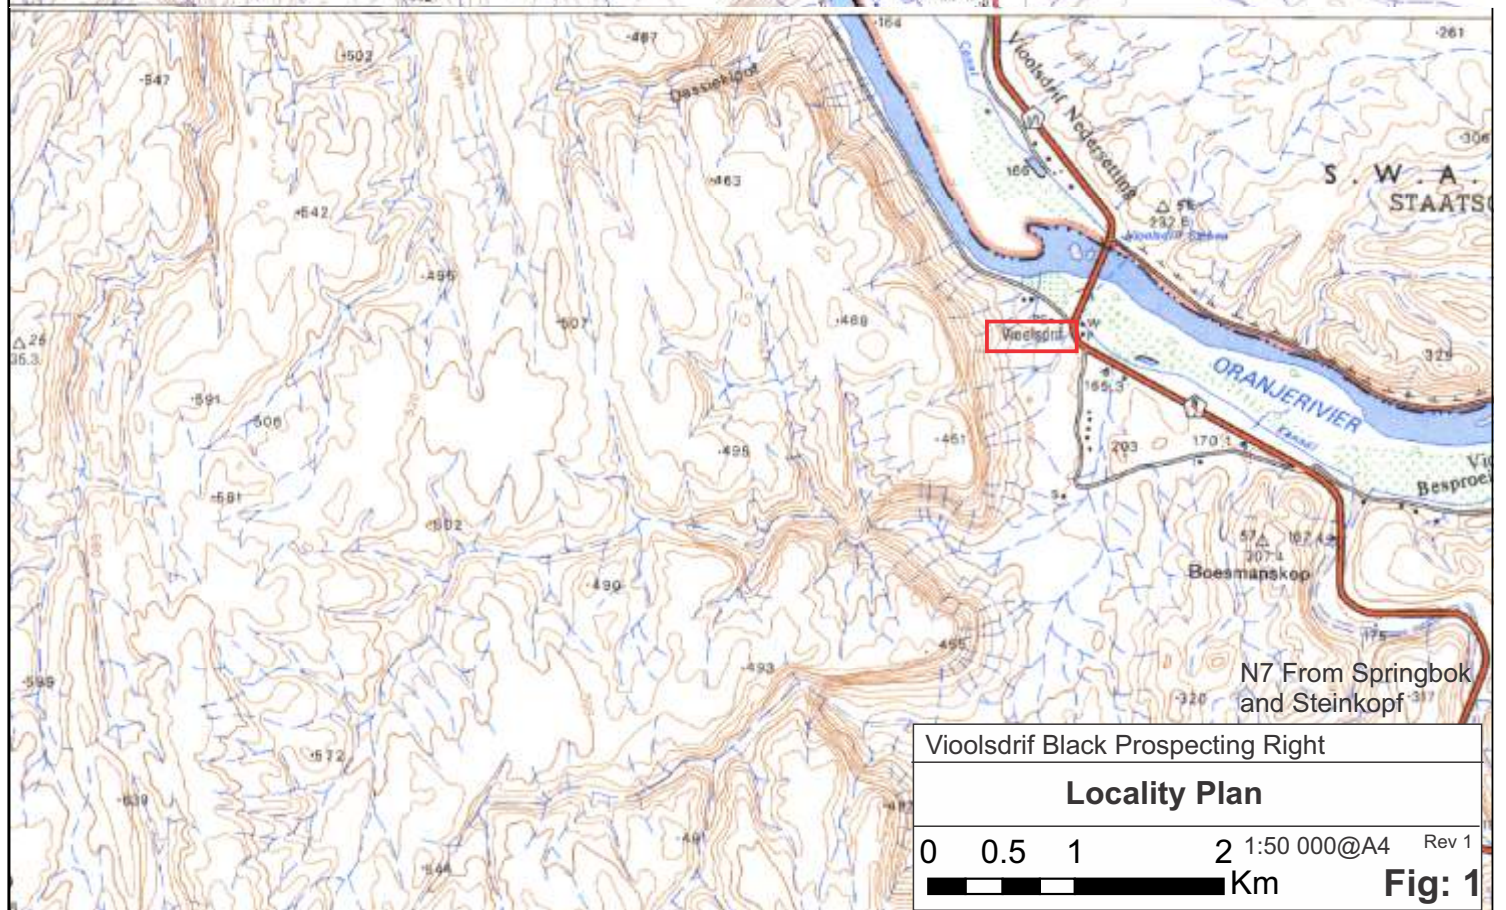

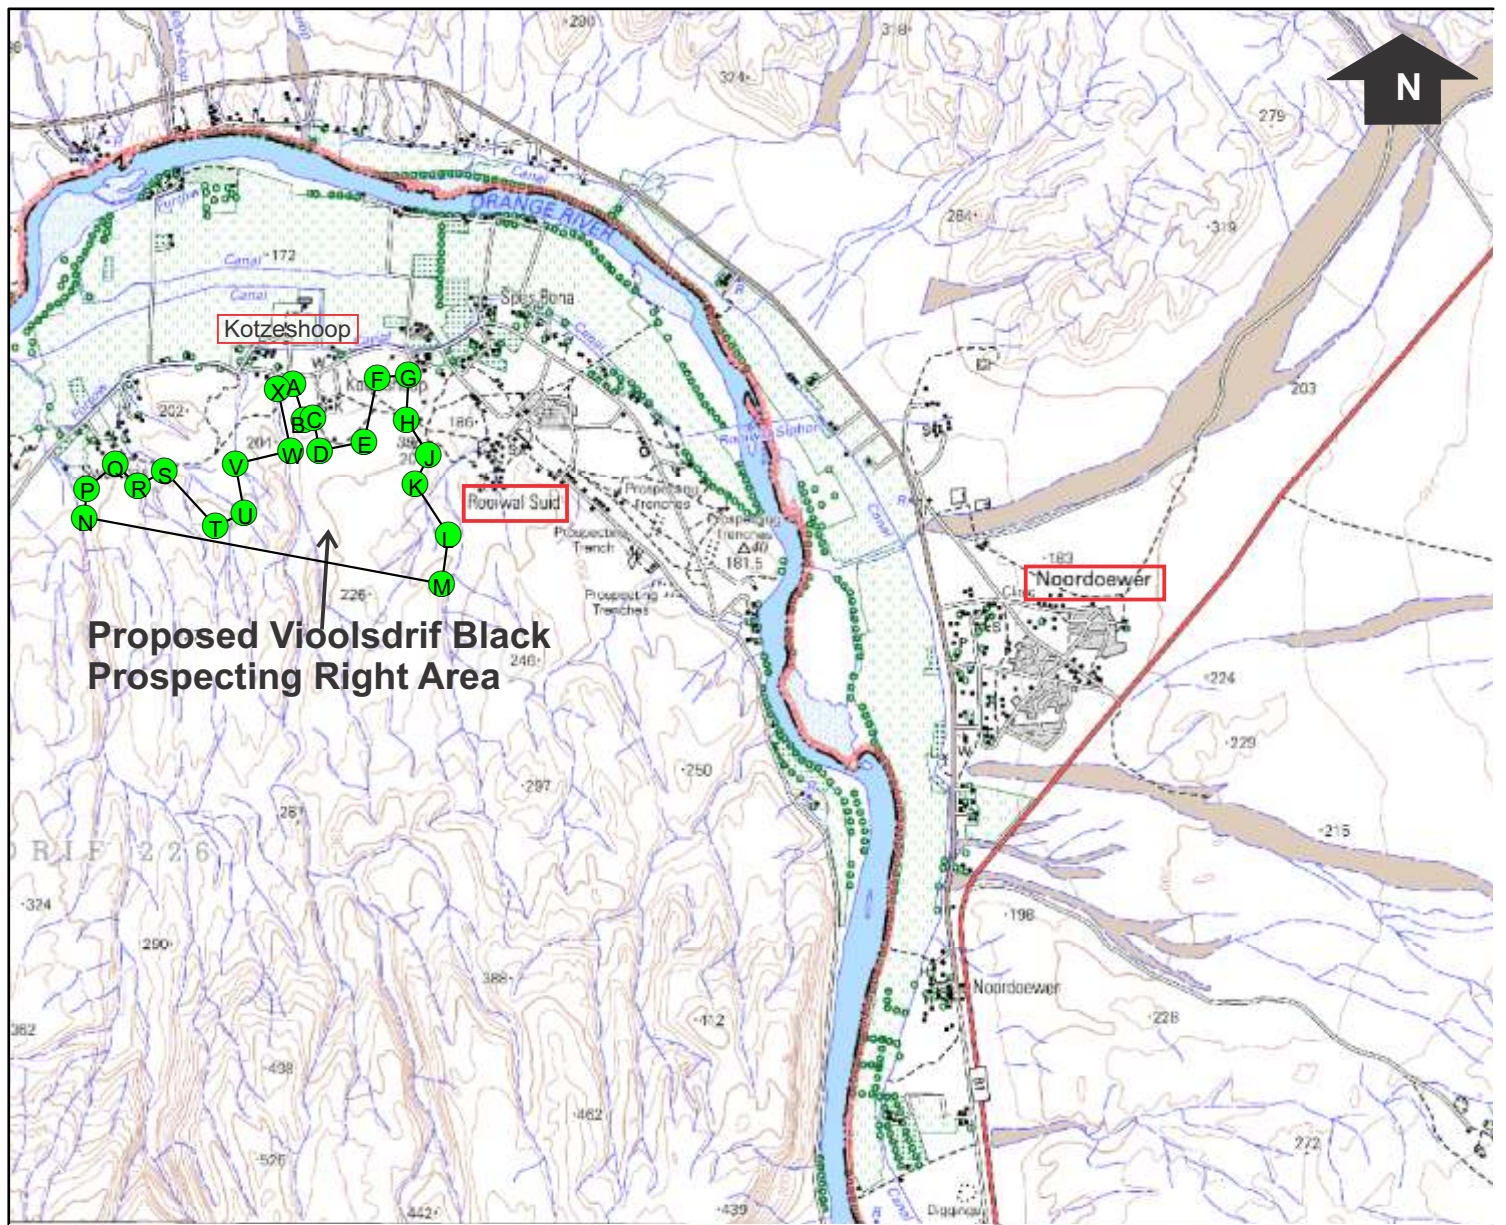

These include littering, unnecessary damage to vegetation, etc. Report these at end of shift or lunch time to supervisor/ manager who shall record environmental incidents in an incident book, to report on them during annual audits.

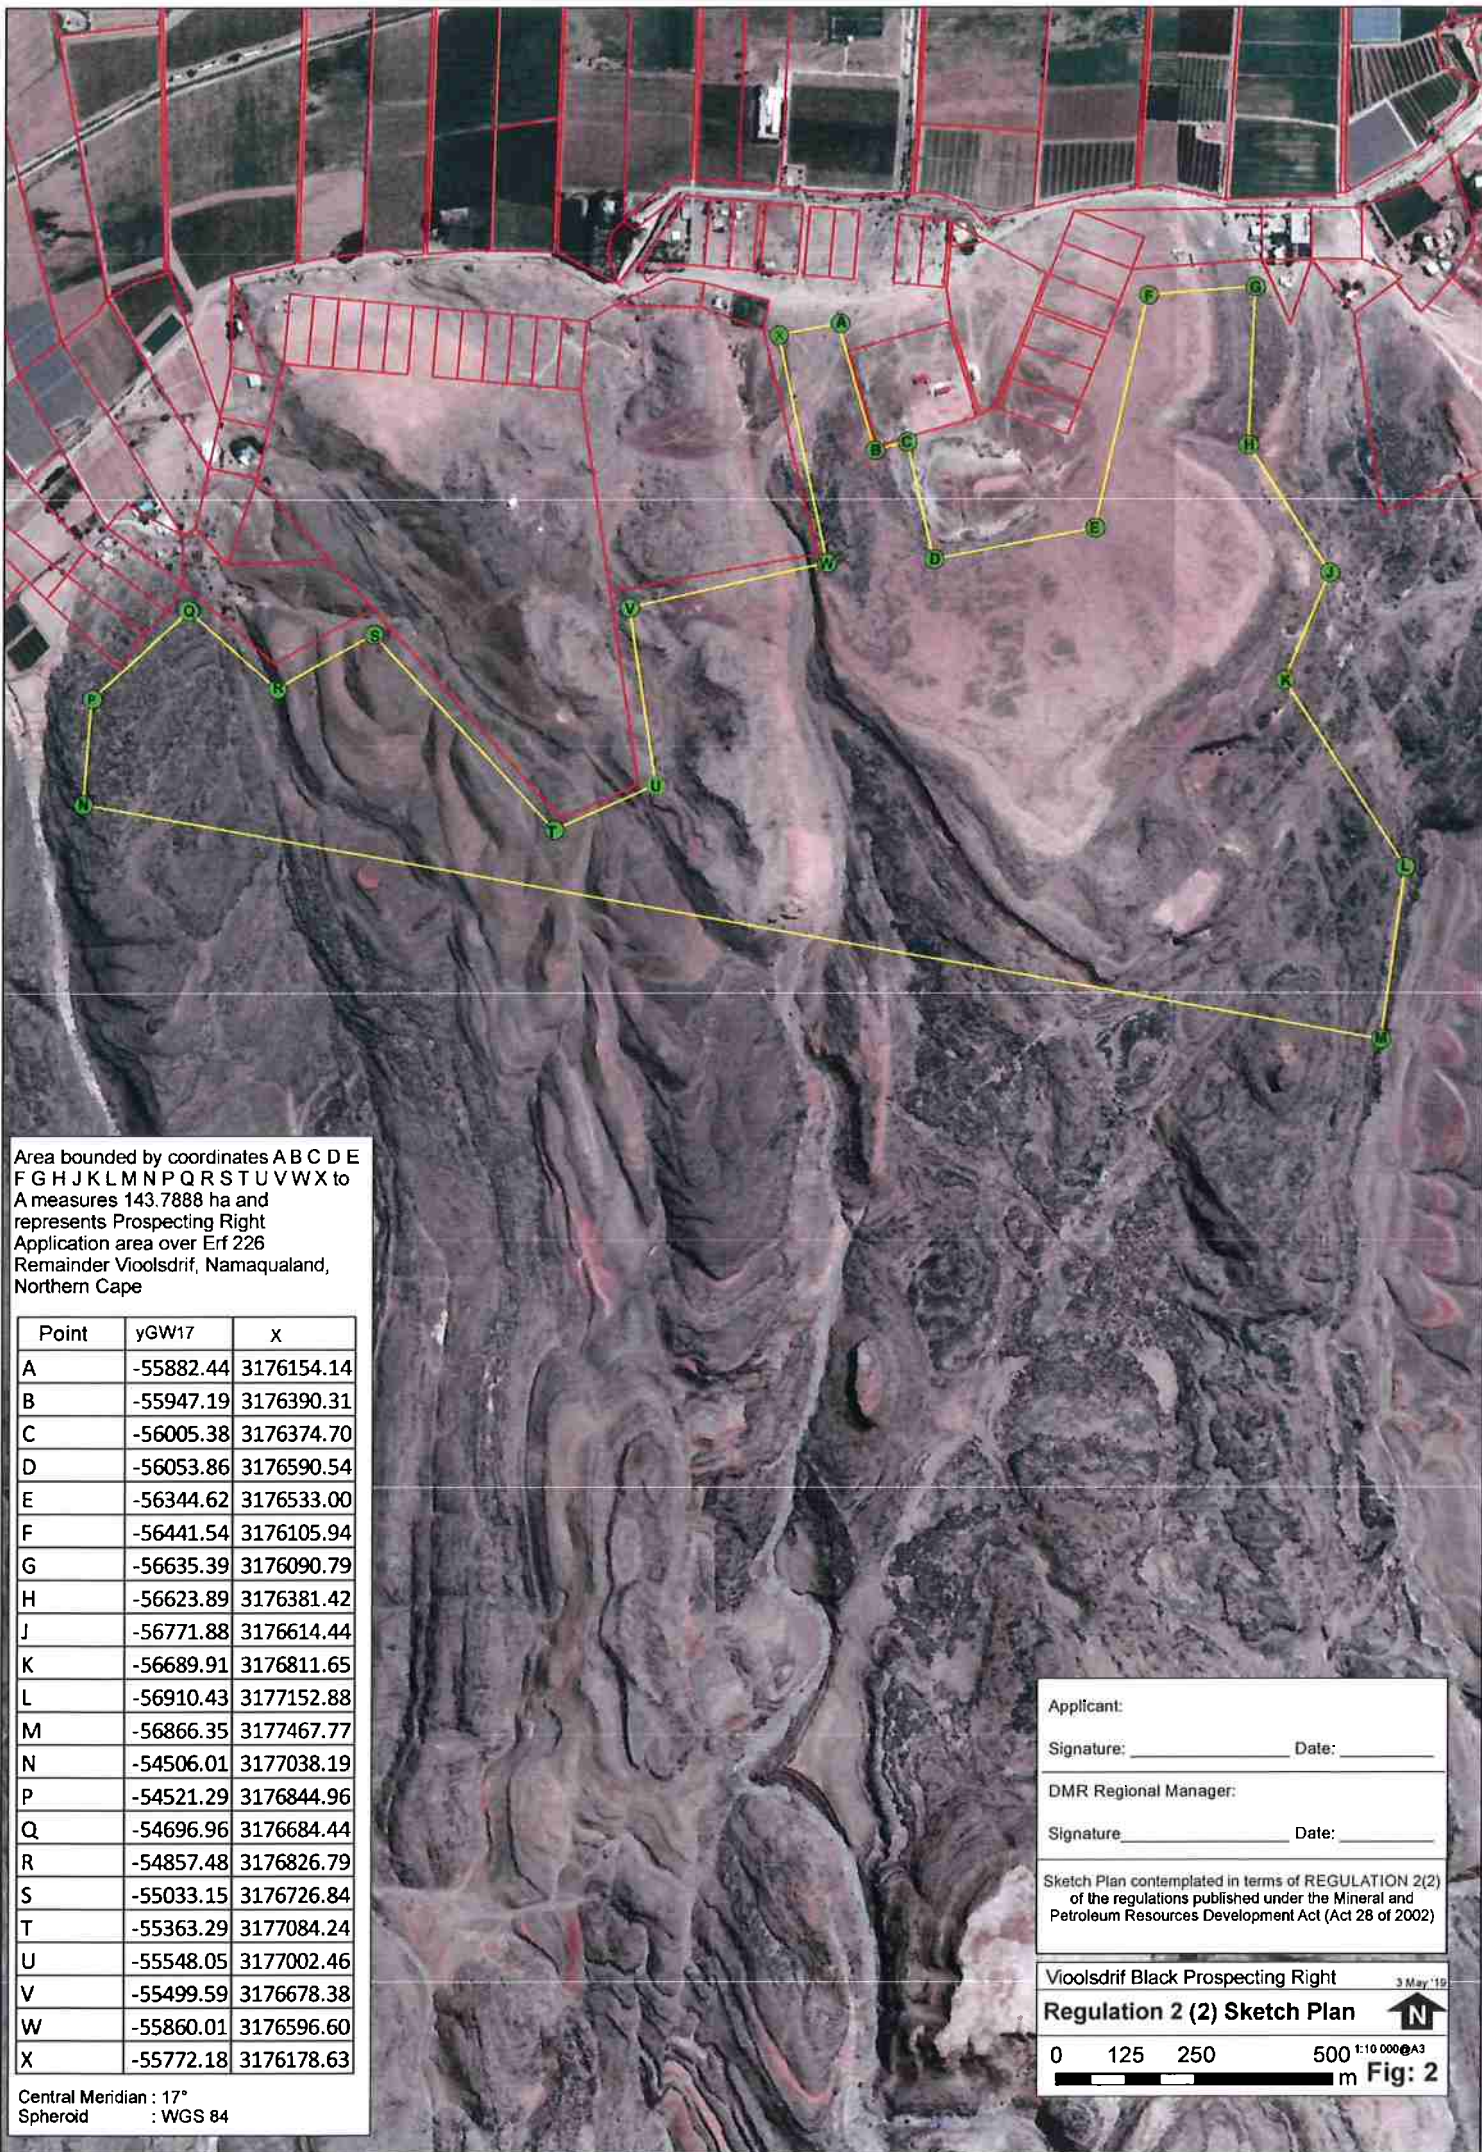

8) Penalties for Environmental Damage

Bring employee attention specifically to:

- Fines.
- Conditions in employment contract.
- Animal snaring, stock theft or fruit picking:
 - a. Grounds for immediate dismissal.
 - b. Will be reported to the police for prosecution.
