# About Red Kite Environmental Solutions

Red Kite Environmental Solutions (Pty) Ltd is an independent consulting practice, built on the fundamental environmental principles of assisting our clients in conservation, protection, mitigation and management of natural resources when utilising these resources in an economically sustainable manner.

Our independence is ensured by the fact that it is strictly a consultancy organisation, holding no equity in any project, and with ownership solely by staff. This permits our consultants to be flexible and responsive to provide clients with conflict-free and objective support on crucial issues.

Red Kite has an interdisciplinary team of highly skilled professionals with extensive experience in environmental management, as well as a practical understanding of mining and industrial requirements, and their associated problems and challenges.

Using experience and a multi-disciplinary approach to holistic environmental management, we can provide professional assistance, consultation and project management on all aspects of environmental impact assessments, environmental, waste and water management programmes as required by the regulatory authorities.

Owing to the increasing market demand we are also now available to offer additional professional services in terms of environmental performance assessments, monitoring and related auditing.

With the advantage of being associated with various other specialists in the environmental field,

Red Kite Environmental Solutions (Pty) Ltd can provide specialist input on almost any environmental issue or concern to provide the most efficient and cost-effective management strategy through associated environmental ethics and integrity.

# Our Vision

Red Kite Environmental Solutions (Pty) Ltd's vision is to become one of the most preferred consultancies within the industry in providing environmental and auditing services to an array of clients.

# Our Mission

We are determined to utilise and apply environmental legislation in order to provide quality environmental services with integrity and fairness while not compromising our codes of professional conduct and codes of ethics in assisting our clients.

# Our Values

Red Kite Environmental Solutions (Pty) Ltd is guided by the principles of sustainable development, which meets the needs of the present without compromising the ability of future generations, to meet their own social and economic needs.

**We strive to be a  
force for good in  
water, fauna and  
flora conservation  
through knowledge,  
innovation and  
empowering people  
and business to  
make a difference.**

# Our Services
