

Appendix 2 – Site photographs

Photo 1: Site 1 is located west of the main gravel road that traverses the area that is under application.

Photo 3: Site 1 was under cultivation many years ago and the area is clearly characterized with secondary growth.

Photo 3: Site 1 is bordered by the Blinkwaterspruit to the west with a well-defined riparian area and mountains in the back.

Photo 4: Site 1's north eastern boundary is a tributary to the Blinkwaterspruit that also has a riparian zone. This tributary is also the northern boundary of site 2.

Photo 5: Site 2 is directly adjacent east of the main gravel road through the area under application.

Photo 6: Facing east over site 2.

Photo 7: The area east of the road includes two sites that are applied for. One is a previously cultivated area (Site 2).

Photo 8: Facing east over Site 3 from the gravel road.

Photo 9: Site 3 is an area classified as natural woodland that presents more trees but is not pristine.
