Importance: High

Dear Raisibe

I would like to confirm our telephone conversation on 26 March 2015 regarding the above-mentioned project, as follows:

The NEMA EIA Regulations 2014, which came into effect in December 2014, stipulate that an application submitted after the commencement of these Regulations for an amendment of an EMPr which was issued in terms of the MPRDA must be dealt with in terms of Chapter 5 of these Regulations. Chapter 5 stipulates different approaches for non-substantive and substantive amendments. We agreed that, as the proposed amendment would entail a change in scope, the process described in Part 2 of Chapter 5 (Regulations 31 to 33) should be followed.

You indicated that DMR does not have a specific format for an amendment application, thus we should submit the application in the format of the Application for Environmental Authorisation Form.

I would like to thank you for your assistance in the above regard. We will proceed with the application as above.

Best regards,
Ena
