Public Participation Process

Appendix 4 (I): Site Notice

NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION

Notice is given in terms of the National Environmental Management Act (Act 107 of 1998) (as amended) and the Minerals and Petroleum Resources Act (Act No.28 of 2002) (as amended), of an Integrated Basic Assessment process to be followed for a Prospecting Right and Environmental Authorisation application to the Department of Mineral Resources.

Project Name: Welgedacht C Prospecting Right

Applicant: Wozimart (Pty) Ltd

Date of Notice: 16 January – 22 February 2019

Project Description: The Applicant wishes to apply for a Prospecting Right (PR) and associated Environmental Authorisation (EA) for the proposed Welgedacht C Project on an area of approximately 771 ha. The Applicant intends to prospect for coal on the below mentioned properties.

Location & Property Description:

The study area falls in the Ekurhuleni Metropolitan Municipality, Gauteng Province.

The PR and EA applications will include Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR, Gauteng Province. Pansy Avenue is located West, Stofberg Avenue to the South, Laris Street to the North and the N12 running between the mentioned farm portions. Mandela Park borders the study area to the North, Enviroserv Holfontein to the East, Persida to the South, and Welgedacht SH to the West.

Register and submit comments:

Interested and/or Affected Party (I&AP) are hereby requested to register in order to receive updates of the process and afforded the opportunity to provide comments on the above-mentioned project. Please submit your name, contact information and interest in the matter, in writing, to the contact person provided below. All registered I&APs will be notified when the draft scoping report will be available for review.

To register as an I&AP and to submit comments regarding this matter please contact:

Dean Stone at the traffic lights at the intersection leading into Slovo Park. The lights were damaged during the protest.

Slovo residents protest

Slovo Park - Protests broke out in Slovo Park last Tuesday and Wednesday.

The community was allegedly protesting for jobs at a nearby coal company.

The road was closed on Wednesday morning as the protesters were burning tyres and hurling stones at cars.

By Wednesday, the situation

had calmed down, but there was still heavy police presence on the road.

The traffic lights at one of the intersections were also damaged overnight.

Ward Clr Dean Stone says: "While I respect people's right to protest, they should not damage municipal property."

Springs police spokesperson

Capt Johannes Ramphora has similar sentiments and condemned road closures and the damage to people's cars.

"There was a criminal element by some during the protests which led to looting at several spaza shops.

"There are a few cases that have been opened and the police will be doing a thorough investi-

gation," says Ramphora.

The Addie has heard rumours of a meeting scheduled between the community and management from the coal company, but we have not been able to confirm this as the company did not respond to our requests for comment.

We will publish more information as it becomes available.

Help find missing Collen

KwaThema - The police need the assistance of the community to find the missing Simon Collen Shabangu.

The 23-year-old left his home on January 4 to go and fix his computer in Springs, but did not return.

Investigating officer WO James Marema says Simon left in the early hours of the

morning and the family did not see what he was wearing.

"His phone has since been off and no one has seen or heard from him.

"We are calling on anyone who might have information about his whereabouts to come forward or contact my office on 011 812 4600," he says.

Simon Collen Shabangu

Man hijacked by four suspects

Reedville - A man was hijacked last Monday while visiting his friend in Santiago Street in Reedville.

The victim was parked at the gate, calling his friend to open up for him when he was approached by three men and a woman.

The woman started swearing at him and the male suspects, who were armed with firearms, demanded the keys from him.

The victim was then forced into the boot of his car and they drove off with him.

The victim was later dropped off in Bapsfontein where the suspects took his shoes, cellphone and wallet, which contained R340.

The car was later recovered in Tembisa.

No one was injured during the course of the hijacking.

Siphiso Ngelwa was last seen on January 12.

Tsakane teen missing

Tsakane - Siphiso Ngelwa (17) was last seen on January 12 allegedly leaving his house with his friend at around 6.30pm.

He was wearing black Nike takkies and a navy blue cap.

A case has been opened at the Tsakane SAPS.

Anyone with information is to contact Det Const Ngema on 011 363 5300.

Robbery on Etwatwa off-ramp

Etwatwa - A woman was robbed on the Etwatwa off-ramp after her car had a flat tyre.

The victim was with her neighbour, who she had called

for help, when they were approached by three men.

The suspects, who were armed with knives and pangas, divided the victims and took things from them.

The woman was robbed of her money, cellphone, wristwatch and bank cards.

Nothing was taken from the male victim as he managed to run away.

NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION

Notice is given in terms of the National Environmental Management Act (Act 107 of 1998) (as amended) and the Minerals and Petroleum Resources Act (Act No.28 of 2002) (as amended), of an Integrated Basic Assessment process to be followed for a Prospecting Right application and an Environmental Authorisation application to the Department of Mineral Resources.

DMR REF NO: GP 30/5/1/1/2 (10553) PR

Project Name: Welgedacht C Project

Applicant: Wozimart (Pty) Ltd

Project Description: The Applicant wishes to apply for a Prospecting Right (PR) and associated Environmental Authorisation (EA) for the proposed Welgedacht C Project on an area of approximately 771 ha. The Applicant intends to prospect for coal on the below mentioned properties.

Location & Property Description:

The study area falls in the Ekurhuleni Metropolitan Municipality, Gauteng Province. The PR and EA applications will include Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Hoffontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR, Gauteng Province. Pansy Avenue is located West, Stofberg Avenue to the South, Laris Street to the North and the N12 running between the mentioned farm portions. Mandela Park borders the study area to the North, Enviro-serv Hoffontein to the East, Persida to the South, and Welgedacht SH to the West.

Date of Notice: 25 January - 23 February 2019

Interested and/or Affected Parties (I&APs) are hereby requested to register in order to receive updates of the process and afforded the opportunity to provide comments on the above-mentioned project. Please submit your name, contact information and interest in the matter, in writing, to the contact person provided below. Alternatively please contact the office on the number provided below. All registered I&APs will be notified when the draft BA report will be available for review and the date of the public meeting.

<p>J. Oliver</p>	<p>SANRAL</p>	<p>28 January 2019</p>	<p>The below comments were received from SANRAL:</p> <p><u>The National Roads Agency SOC Limited (SANRAL) has no objection to the issuing of a Prospecting Right by the Department of Mineral Resources, subject to the following conditions:</u></p> <p><u>SANRAL requirements relevant to prospecting:</u></p> <ul style="list-style-type: none"> • In the interest of road safety, drilling operations or exploration activities are not allowed inside the road reserve boundaries of any national road nor within a distance of 20 metres from the road reserve boundary – in this case national route N12; • No direct access to a drilling site may be established from a national road without the written approval of SANRAL; • Drilling sites shall be reinstated to their original condition on completion of drilling/prospecting operations; • Where SANRAL properties outside the road reserve boundaries of national roads, currently on lease are affected, the written permission of the occupant(s) of the affected property(ies) will be obtained before the commencement of any prospecting activities on the property(ies) concerned. <p><u>SANRAL requirements relevant to mining:</u></p> <ul style="list-style-type: none"> • Before mining commences an extensive traffic impact study shall be prepared by a registered traffic engineer and submitted to SANRAL for approval. This study will, apart from others, investigate the additional heavy vehicle traffic road trips generated, the tonnages of coal and gravel transported on roads for determination of the E80's, measures to negate the impact thereof on roads, and mining contribution towards maintaining and upgrading of roads affected; • The applicant will adhere to sections 44 "Access to and egress from national roads", 46 "Damaging of national roads", and 48 "Structures and other works on, over or below national roads and certain other land" of the National Roads Agency Limited and national Roads Act, 1998, Act No. 7 of 1998, and other relevant legislation; • No structures, including earth safety berms shall be established within the 60 metre building restriction area measured from the N12 road reserve boundaries without the written approval of SANRAL; • No direct access to national route N12 will be permitted. • No blasting within a distance of 500 metres of national N12 will be permitted without the written authorization of SANRAL. <p>There is no need to not register SANRAL as an I & AP as environmental, socio-economic and cultural issues falls outside the ambit of SANRAL.</p> <p>Yours faithfully</p>  <p>REGIONAL MANAGER: NORTHERN REGION</p>	<p>Thank you for your response, we will record this and include it in the final basic assessment report that will be submitted to the DMR in March 2019.</p> <p>The requirements relevant to prospecting has been noted and discussed with the client. No prospecting activities will occur within a road reserve of a national road. All relevant written permission will be obtained where necessary.</p> <p>The requirements relevant to mining cannot be addressed by the current application as this is only for prospecting.</p>
------------------	---------------	------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p>Jannie Neuhoff</p>	<p>Landowner: Portions 19 and 20 of the Farm Holfontein 71 IR</p>	<p>1 February 2019</p>	<p>Comments made during consultation meeting with Mr Neuhoff:</p> <p>Mr Neuhoff is a directly affected landowner and also an adjacent landowner regarding the proposed project.</p> <p>Mr Neuhoff is concerned with regards to the following:</p> <ul style="list-style-type: none"> • Dust pollution • Groundwater pollution and quantities: Farmers and small holdings in area are dependent on groundwater (boreholes) – minimal supply from municipality • Visual pollution • Property value loss adjacent to a mine • Loss of high agricultural potential land <p>Even though the impacts of prospecting is low compared to mining activities, we all know that eventually a prospecting right leads to a mining right application. Accordingly, the future impacts of mining within this area should be taken into account now.</p> <p>Currently busy with the development of residential units and a supermarket adjacent the proposed prospecting area and extends until 1km from the boundary. Possible future mining could have economic and social impacts on such developments.</p> <p>Mr Neuhoff provided Enviro-Insight a copy of: Coal, water and mining flowing badly (K Forrest & L Loate, June 2017). Mr Neuhoff would like to draw the attention to the DMR on the findings of this study, and the negative impacts coal mining has on the agricultural sector.</p>	<p>The impacts regarding prospecting was included in the basic assessment report, and is specifically addressed in sections Error! Reference source not found. page Error! Bookmark not defined. and Error! Reference source not found. page Error! Bookmark not defined.</p> <p>Only impacts with regards to prospecting activities can be assessed and addressed for the current project. All mining related impacts need to be addressed if a mining right application is applied for.</p> <p>Mr Neuhoff would like to draw the attention to the DMR on the findings of Coal, water and mining flowing badly (K Forrest & L Loate, June 2017), and the negative impacts coal mining has on the agricultural sector</p>
-----------------------	-------------------------------------------------------------------------------	----------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

LT Berman	Landowner: Portions 5, 64, 65 and 67 of the Farm Holfontein 71 IR	6 February 2019	<p>Comments made during consultation meeting with Mr Berman and his daughter Tzipporah:</p> <p>Mr Berman is a directly affected landowner and also an adjacent landowner regarding the proposed project.</p> <p>Mr Berman wanted information on the project and was under the impression this was for another project (Welgedacht Mining Right Application which affects other properties of Mr Berman). After explaining that this project is for prospecting right on different properties, Mr Berman required background information on the project. Mr Berman has worked with the applicant before and was willing to provide access to his properties for specialists to conduct their fieldwork.</p> <p>The following concerns were raised:</p> <ul style="list-style-type: none"> • compensation for damage to property, • will drilling take place during the planting season, • will the results of the drilling be communicated to him, • dust pollution, • drilling impact on groundwater 	<p>The EAP explained the current project to Mr Berman and indicated that this is separate from other mining or prospecting right applications or permits.</p> <p>The concerns addressed regarding this project involving prospecting activities has been included in the Basic Assessment report.</p>
Rossgro Boerdery	Landowner: Portion 66 of the Farm Holfontein 71 IR	8 February 2019	No direct comments received	The EAP provided background information on the project and explained what the project entails and what can be expected.

Alfred Gama	Landowner: Portion 32 of the Farm Welgedacht 74 IR	4 March 2019	<p>1) The farm depends on underground water (boreholes). I wonder whether my borehole supply will be adversely affected.</p> <p>2) The structures are also on the farm. Will they not be damaged (cracks) with the mining</p> <p>3) Pollution of the water by the drilling. Is there any negative impact on the water.</p>	<p>1) Underground water supply will not be affected as the drilling will occur away from surface water bodies (including boreholes). The drilling, if done appropriately, will not impact on the quantity of underground water. Drilling has occurred in the region before and no reduction in groundwater has been reported by any landowner.</p> <p>2) No structures will be damaged by prospecting activities. Drilling will occur away from structures where impacts will be less.</p> <p>3) As mentioned, drilling has occurred previously on some of the surrounding farms and has been monitored. No negative impacts from drilling are anticipated regarding groundwater pollution. This will be monitored throughout the project and will be addressed accordingly should an accident occur. Spill kits will be available on site for unforeseen events, but if the mitigation measures are followed and the contractor operates in a responsible manner no pollution of groundwater should occur.</p>
-------------	----------------------------------------------------	--------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

1 INTRODUCTION

Wozimart (Pty) Ltd (hereafter the applicant) has appointed Enviro-Insight CC as the Environmental Assessment Practitioner (EAP) to undertake an Environmental Authorisation (EA) associated with the proposed Welgedacht Prospecting Right (PR) Application on an area of approximately 771 ha. An application for a PR was lodged by Wozimart (Pty) Ltd with the Department of Mineral Resources (DMR) on 4 September 2018, reference number GP30/5/1/1/2/ (10553) PR, and was accepted in terms of section 16 of the Minerals and Petroleum Resources Development Act, 2002 (MPRDA, as amended) on the 1st of October 2018. A 50 day extension period was requested from the DMR on 11 December 2018 which was granted. A Basic Assessment process in terms of the amendments to the Environmental Impact Assessment Regulations (2014) published under Government Notice NO. 326 in Gazette No. 40772 of 7 April 2017 promulgated in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) will be followed. The PR and EA applications include Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR, Gauteng Province.

This Background Information Document (BID) has been developed to:

- Provide a description of the proposed Project;
- Provide an overview of the environmental regulatory processes which will be undertaken in accordance with the South African legislation; and
- Provide details of the Public Participation Process (PPP) and how Interested and Affected Parties (I&APs) can become involved.

2 PROJECT LOCATION AND DESCRIPTION

The PR and EA applications will include Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR, Gauteng Province. Pansy Avenue is located West, Stoffberg Avenue to the South, Laris Street to the North and the N12 running between the mentioned farm portions. Mandela Park borders the study area to the North, Enviro-serv Holfontein to the East, Persida to the South, and Welgedacht SH to the West (Figure 2-1; Figure 2-2). The Regulation 2(2) plan as per the MPRDA showing the land to which the application relates to is indicated in Figure 2-3.

The proposed project will take approximately 60 months to complete. Five phases has been proposed and entails the following (The Prospecting Work Program will finalise the methodology and timeframes associated with the project):

- Phase 1 (12 months): Includes desktop study, geophysical survey, field geological mapping, data interpretation and planning
- Phase 2 (12 months): Diamond Core Exploration Drilling of 4 core drill holes, Logging, Sampling and Analyses, Rehabilitation of Drilling Sites and Data Interpretation and Resource Modeling

- Phase 3 (18 months): Diamond Core Exploration Drilling of 6 core drill holes, Logging, Sampling and Analyses, Rehabilitation of Drilling Sites and Data Interpretation and Resource Modeling
- Phase 4 (12 months): Diamond Core Exploration Drilling of 4 core drill holes, Logging, Sampling and Analyses, Rehabilitation of Drilling Sites and Data Interpretation and Resource Modeling
- Phase 5 (6 months): CPR, EIA, Feasibility Study

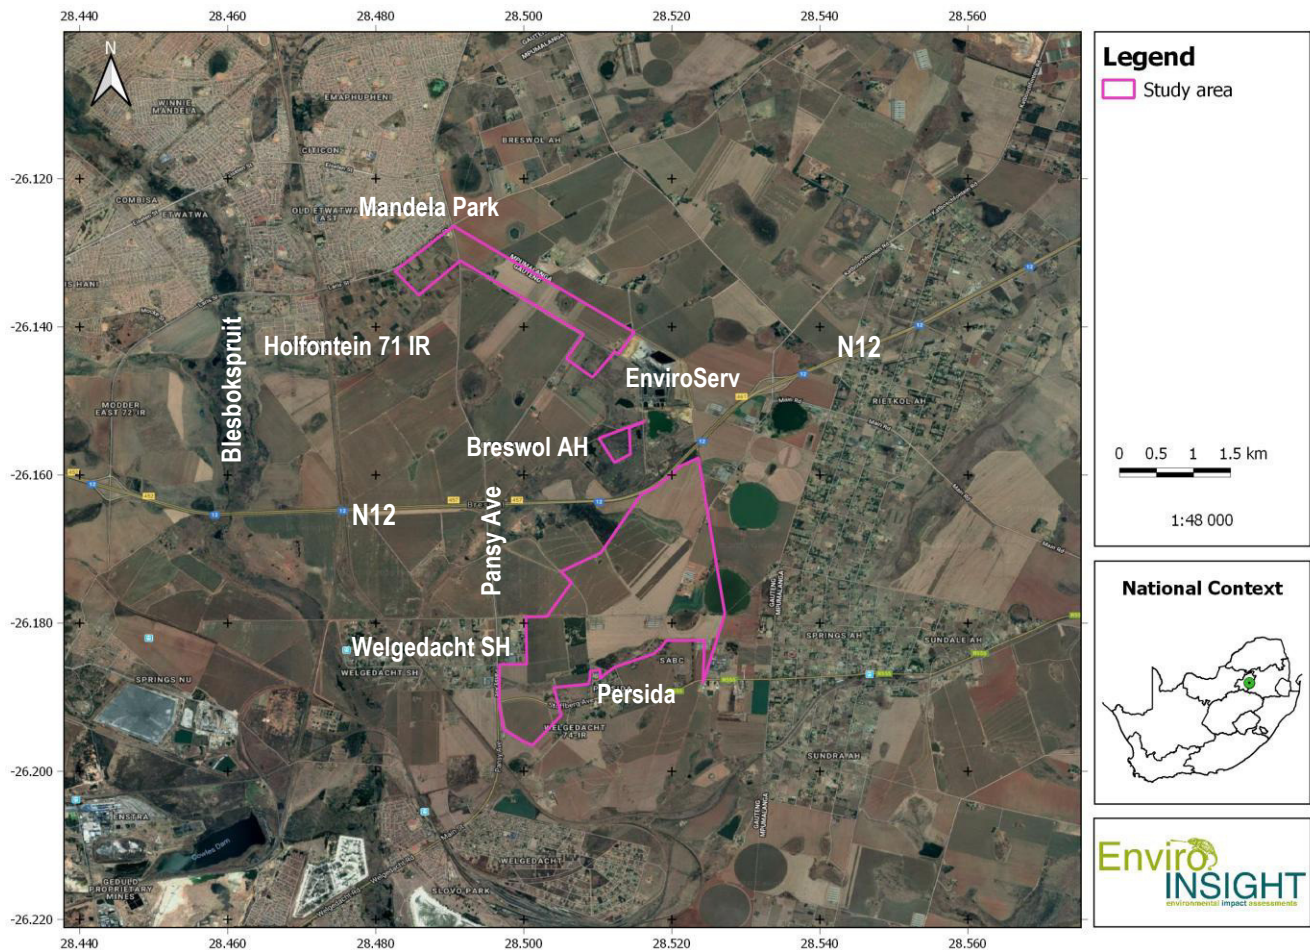

Figure 2-1: Locality map of the study area indicating nearest towns and main roads.

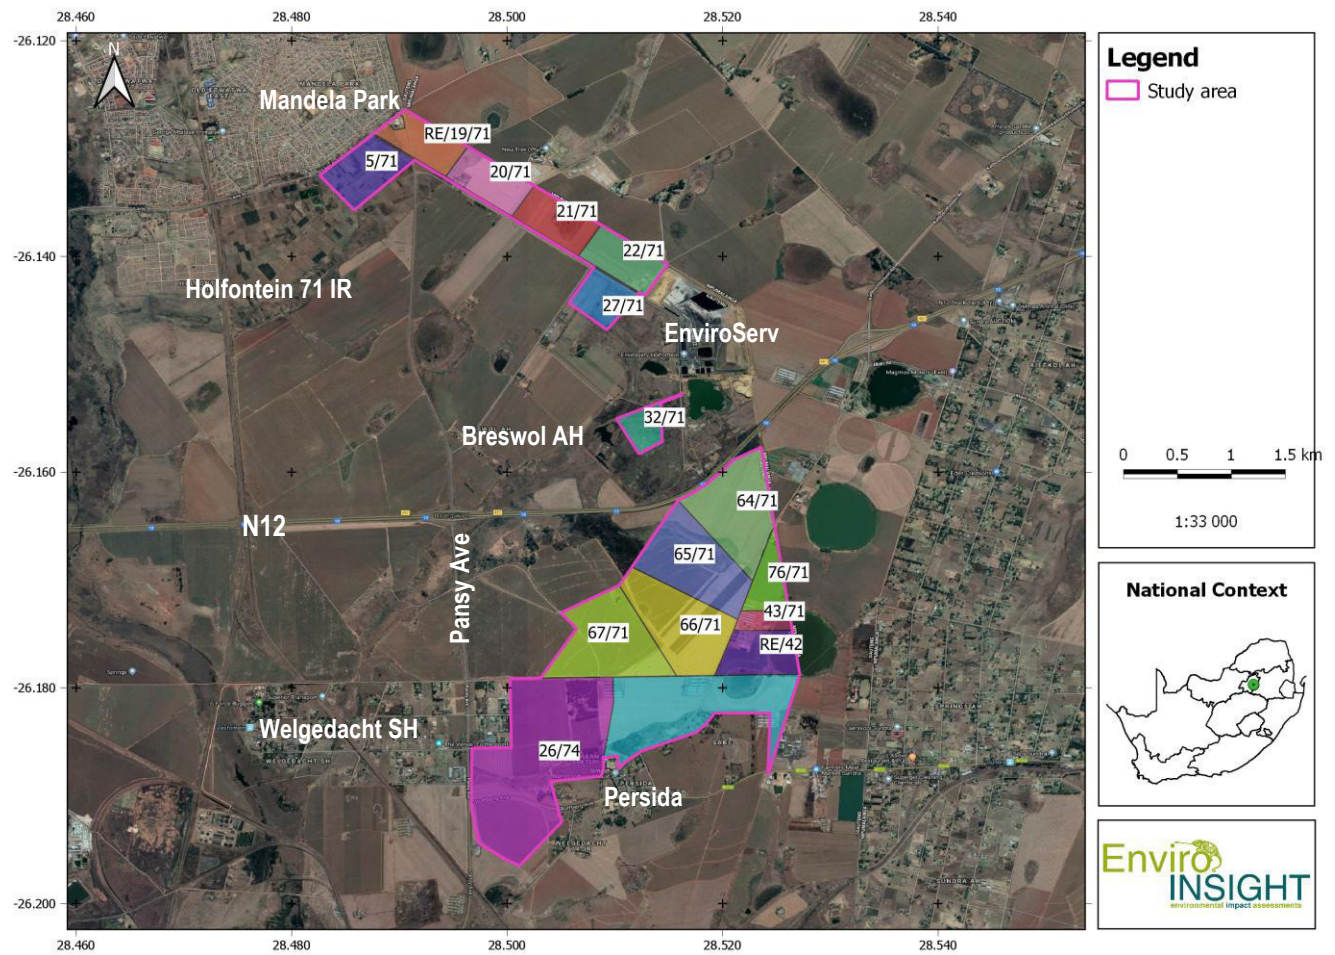

Figure 2-2: Locality map indicating farm portions applicable to the application.

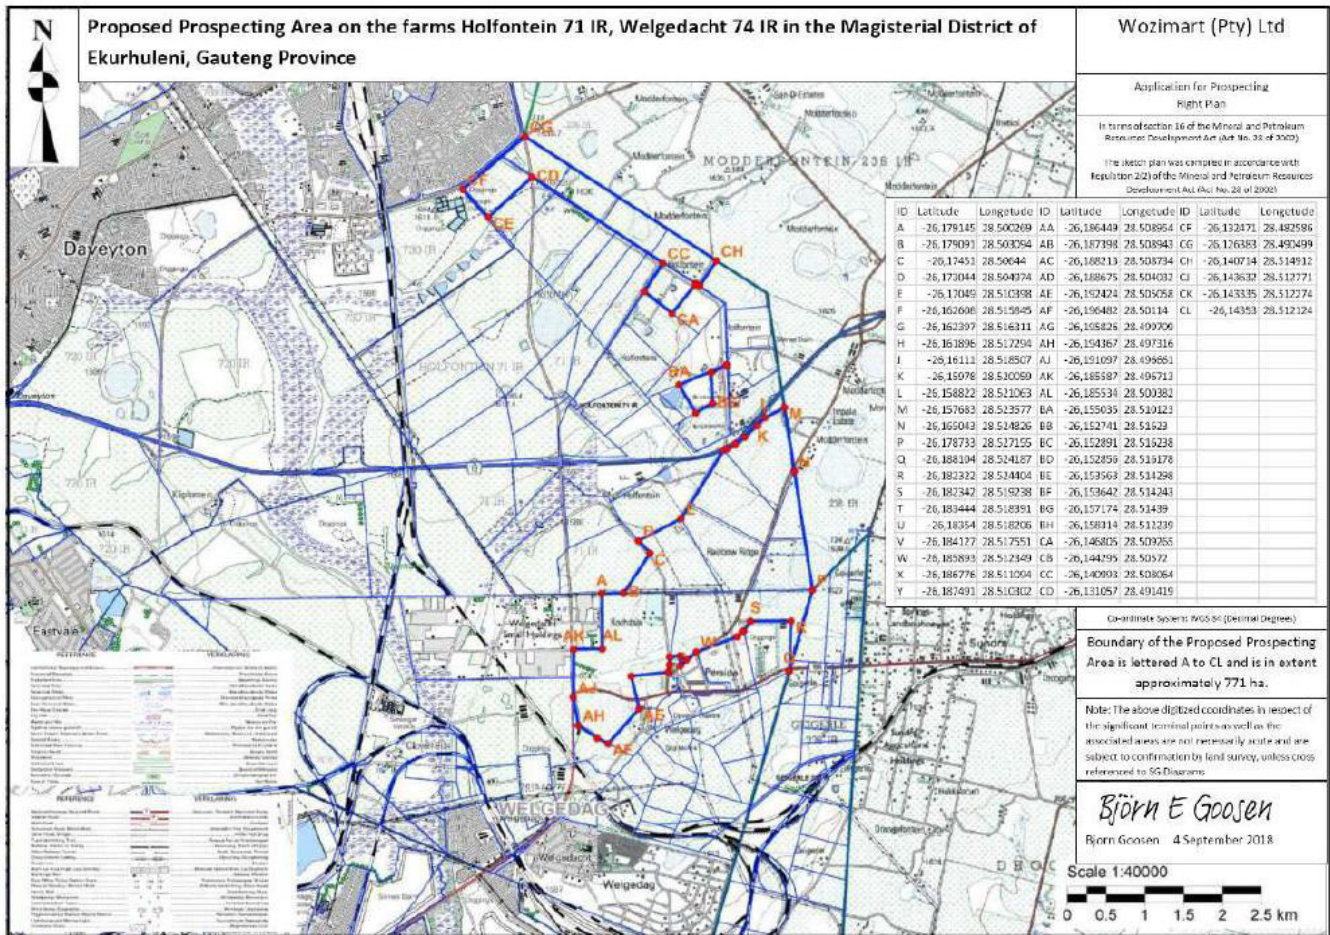

Figure 2-3: Plan contemplated in regulation 2(2) showing the land to which the application relates.

Contact Person: Bjorn Goosen / Dirk Fourie

4 LEGISLATIVE PROCESS

The applicant is required to submit an application for a prospecting right in terms of Section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) with the DMR. In support of the application to obtain the prospecting right, the applicant is required to conduct a Basic Assessment (BA) process that needs to be submitted to the DMR for adjudication, which includes activities triggered under the Environmental Impact Assessment Regulations of 2014 (as amended) promulgated under the National Environmental Management Act, 1998 (Act 107 of 1998).

The proposed prospecting right constitutes various listed activities which have been listed within the scheduled activities of Listing Notice 1 and 3 in Government Notice Regulation No 324, 325 and 327 (2014 EIA regulations as amended on 7 April 2017) and therefore require a Basic Assessment (BA) process to be followed. Prior to any listed activity being approved by the DMR, it is required that an environmental authorisation process is undertaken and a report is submitted to the relevant environmental authority for consideration.

The purpose of the BA process is to ensure that potential environmental, economic and social impacts associated with operation and closure/ rehabilitation of a project are identified, assessed and appropriately managed.

The requirements for the BA process are specifically contained in Chapter 4 Part 2 and Appendix 1 of the NEMA Reg No 326 (amended on 7 April 2017). According to Section 19 (3) of GNR No 326: *"...where the application for an environmental authorisation is for prospecting, exploration, or extraction of a mineral or petroleum resource, including primary processing, or activities directly related thereto, the basic assessment report must address the requirements as determined in the regulations, pertaining to the financial provision for the rehabilitation, closure and post closure of prospecting, exploration, mining or production operations, made in terms of the Act."*

The BA process can take up to 90 days to complete from submission of application to the final submission of the BAR to the DMR. The competent authority must within 107 days of receipt of the BAR in writing confirm whether the EA application has been granted or refused.

5 SPECIALIST STUDIES

Proposed specialist studies to assess the environmental impacts during the BA process:

- Wetland Delineation;
- Terrestrial Ecology Assessment; and
- Heritage Impact Assessment.

These studies will form part of the impact assessment in the BAR and the information used to be included in the environmental management programme (EMPr).

6 PUBLIC PARTICIPATION PROCESS (PPP)

6.1 OBJECTIVES OF PUBLIC PARTICIPATION

- Provides Interested and Affected parties (I&APs) with an opportunity to voice their support, concerns and questions regarding the project, application or decision;
- Provides an opportunity for I&APs, EAP and the Competent Authority (CA) to obtain clear, accurate and understandable information about the environmental, social and economic impacts of the proposed activity or implications of a decision;
- Provides I&APs with the opportunity of suggesting ways of reducing or mitigating negative impacts of an activity and for enhancing positive impacts
- Enables the applicant to incorporate the needs, preferences and values of affected parties into the application;

6.2 LEGISLATION

The PPP must comply with the several important sets of legislation that require public participation as part of an application for authorisation or approval; namely:

- The Mineral and Petroleum Resources Development Act (Act No. 28 of 2002 - MPRDA) as amended;
- The National Environmental Management Act (Act No. 107 of 1998 - NEMA) as amended.

Adherence to the requirements of the above-mentioned Acts will allow for an Integrated PPP to be conducted, and in so doing, satisfy the requirement for public participation referenced in the Acts. The details of the Integrated PPP are provided below.

6.3 IDENTIFICATION OF I&APS

An Interested and Affected Parties (I&AP) database will be compiled of key stakeholders and I&AP's identified for notification of the Environmental Authorisation Application. The I&AP database includes, amongst others; landowners, communities, regulatory authorities and other specialist interest groups. I&AP's are notified of the proposed project through site notices, public notices and newspaper advertisements. Where contact information is available email notifications has also been sent out.

6.4 NOTIFICATION AND REGISTER OF I&APS

The PPP commenced on 16 January 2019 with an initial notification and call to register, ending on the 23 of February 2019. The notification procedure included:

- Erection of site notices;

- Advertisement in local newspaper;
- Identification of direct landowners and the surrounding landowners;
- Identification of key stakeholders;
- Distribution of public notices by hand or via email;
- Distribution of BID to registered I&APs; and
- Distribution of letters to landowners.

Registered letters and emails were composed and sent to the identified authorities, identified adjacent landowners, ward councillors and I&APs that have registered thus far.

6.5 NOTIFICATION OF AVAILABILITY OF DRAFT BASIC ASSESSMENT REPORT

With submission of the application to the DMR, the formal BA process has been initiated, as per the NEMA Regulations (2014, as amended). The Draft Basic Assessment Report (DBAR) will be available to stakeholders and I&APs for a period of 30 days to review and provide comments. All registered I&APs will be notified via email of the availability of the DBAR and the location. An electronic copy will be made available from the Enviro-Insight website: <http://www.enviro-insight.co.za/download-it/project-downloads/>.

Registered I&APs will be informed about availability of reports and scheduled stakeholder meetings. Comments raised by stakeholders will assist in informed decision-making for authorities, and provides information to be considered by the project team and specialists conducting studies.

REGISTRATION AND COMMENT FORM

January 2019

Registered Interested and Affected Parties (I&APs) will be informed of ongoing developments during the process. The draft Basic Assessment Report for comment will be available for a period of 30 days at a public location and on Enviro-Insight website: <http://www.enviro-insight.co.za/download-it/project-downloads/>.

Comments raised by stakeholders will assist in informed decision-making for authorities and provides information to be considered by the project team and specialists conducting the Environmental Impact Assessment process. Please register as an I&AP and provide comments by sending this form, or other written correspondence, to the contact details provided below:

Enviro-Insight CC

Dear Landowner,

You are hereby informed that Enviro-Insight CC was appointed as Environmental Assessment Practitioner (EAP) by Wozimart (Pty) Ltd to conduct a Basic Assessment process for the proposed Welgedacht Prospecting Right and Environmental Authorisation applications. The Applicant intends to prospect for coal on Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR.

Please refer to the attached letter for more details. Please register as an interested and affected party by providing your contact details in order to receive updates throughout the process, and indicate which of the above properties are applicable to you as a landowner in order for Enviro-Insight to verify the details.

Should you have any queries please do not hesitate to contact me. I trust you find the above in order.

Kind Regards,

Corné Niemandt

Dear Mr Berman,

Thank you for your telephone call. As indicated in the email and our telephone discussion, please indicate which properties belong to you that is affected by the proposed application.

Regarding specialist studies, Enviro-Insight is requesting permission to obtain access to your properties for the following specialist:

- Fauna and flora
- Wetland
- Heritage

Please take note that no drilling will take place as permission has not been obtained for this. The specialists only require to do a site visit to verify onsite conditions and compile species lists. The heritage specialists require inputs regarding historical buildings and graves on site which should be protected in situ. In order to assist the specialists please grant them permission to access your properties and provide us with information that might be relevant.

A Background Information Document was sent this morning providing information regarding the project. For your convenience please see attached.

Should you have any queries please do not hesitate to contact me.

Kind Regards,

Corné Niemandt

REGISTRATION AND COMMENT FORM

January 2019

Registered Interested and Affected Parties (I&APs) will be informed of ongoing developments during the process. The draft Basic Assessment Report for comment will be available for a period of 30 days at a public location and on Enviro-Insight website: <http://www.enviro-insight.co.za/download-it/project-downloads/>.

Comments raised by stakeholders will assist in informed decision-making for authorities and provides information to be considered by the project team and specialists conducting the Environmental Impact Assessment process. Please register as an I&AP and provide comments by sending this form, or other written correspondence, to the contact details provided below:

Enviro-Insight CC

Reference: GP 30/5/1/1/2 (10553) PR

Attention: Mr Corné Niemandt

Tel: 012 807 0637

Email: corne@enviro-insight.co.zawww.enviro-insight.co.za**Postal address:**

Unit 8, Oppidraai Office Park

862 Wapadrand Rd

Wapadrand Security Village

Pretoria 0081

Please fill in your contact details below for the project database

Title, Full Name	MR JONATHAN (JON) HERICOURT				
Designation	SVP - OPERATIONS				
Cellphone	012 849 5453	Tel	011 730 7726	Fax	N/A
Email	jon.hericourt@gold1.co.za				
Postal Address	PO Box 262, Petersfield, Springs				
	Gauteng			Code	1566

Please indicate which sector you represent and also provide a name (if applicable)

Government Department	
Municipality	
Community	
Non-Government Organisation	
Business	GOLD ONE GROUP / MODDER EAST GOLD MINE

If you are a landowner or land occupier, please indicate which farm(s) and portion(s) you reside on

Landowner	
Land occupier	<p>CLOVERFIELD No 75 IR + MINING RIGHT OVER MODDER EAST 72 IR, ^{GOLD ASSOCIATED MINERALS}</p> <p>CLOVERFIELD 75 IR, MODDERFONTEIN 76 IR, GEDULD 123 IR, WELGEDACHT 74 IR, HOLFONTEIN 71 IR.</p>

Please complete the questions below to assist with the stakeholder engagement process:

How do you think the project might impact (affect) you?

We have future plans to mine the Black Reef & Main Reef in certain parts of our MR which may overlap with the possible exploration area.

How do you think the project might impact (affect) your socio-economic conditions? (e.g. livelihoods, farm, business, household)

would depend on what is finally proposed as far as mining of coal is concerned

If you are a landowner or occupier, what is your land currently being used for?

Only occupying Cloverfield 75 IR, so this would not be impacted. Future possible shaft to access gold resources could be on Holfontein 71 IR.

Suggest ways that these impacts can be managed, avoided and / or fixed?

Close liaison between Gold One and the Coal Company to ensure we address any potential issues as early as possible.

Are there any environmental, social or heritage features on the proposed project area we need to be aware of? If possible, please indicate these locations on a map or by providing GPS coordinates.

Good day Mr Gama,

You are hereby informed that Enviro-Insight CC was appointed as Environmental Assessment Practitioner (EAP) by Wozimart (Pty) Ltd to conduct a Basic Assessment process for the proposed Welgedacht Prospecting Right and Environmental Authorisation applications. The Applicant intends to prospect for coal on Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR.

Please refer to the attached letter and Background Information Document for more details. Please register as an interested and affected party by providing your contact details in order to receive updates throughout the process, and indicate which of the above properties are applicable to you as a landowner in order for Enviro-Insight to verify the details.

Should you have any queries please do not hesitate to contact me. I trust you find the above in order.

Kind Regards,

mx.google.com rejected your message to the following email addresses:alfred.gama.sunrays@gmail.com

The address you sent your message to wasn't found at the destination domain. It might be misspelled or it might not exist. Try to fix the problem by doing one or more of the following:

1. Send the message again, but before you do, delete and retype the address. If your email program automatically suggests an address to use, don't select it.

2. Clear the recipient AutoComplete cache in your email program by following the steps in this article: [Status code 5.1.1](#). Then resend the message, but before you do, be sure to delete and retype the address.
3. Contact the recipient by some other means (by phone, for example) to confirm you're using the right address. Ask them if they've set up an email forwarding rule that could be forwarding your message to an incorrect address.

mx.google.com gave this error:

The email account that you tried to reach does not exist. Please try double-checking the recipient's email address for typos or unnecessary spaces. Learn more at <https://support.google.com/mail/?p=NoSuchUser v14si3911886pfc.76 - gsmt>

Subject: Proposed Welgedacht Prospecting Right Application - Public Notification

Good day Mr Gama,

You are hereby informed that Enviro-Insight CC was appointed as Environmental Assessment Practitioner (EAP) by Wozimart (Pty) Ltd to conduct a Basic Assessment process for the proposed Welgedacht Prospecting Right and Environmental Authorisation applications. The Applicant intends to prospect for coal on Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR.

Please refer to the attached letter and Background Information Document for more details. Please register as an interested and affected party by providing your contact details in order to receive updates throughout the process, and indicate which of the above properties are applicable to you as a landowner in order for Enviro-Insight to verify the details.

Should you have any queries please do not hesitate to contact me. I trust you find the above in order.

Kind Regards,

Corné Niemandt

5 February 2019 at 09:04

Dear Mr Neuhoff,

You have been identified as a surrounding landowner for the proposed Welgedacht Prospecting Right Application. You are hereby informed that Enviro-Insight CC was appointed as Environmental Assessment Practitioner (EAP) by Wozimart (Pty) Ltd to conduct a Basic Assessment process for the proposed Welgedacht Prospecting Right and Environmental Authorisation applications. The Applicant intends to prospect for coal on Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR.

Please refer to the attached **Public Notice** and **Background Information Document** for more details. Please take note that the **Draft Basic Assessment report** is available for review until **4 March 2019**. The DBAR is available on Enviro-Insight website: <http://www.enviro-insight.co.za/download-it/project-downloads/> - Welgedacht C Prospecting Right – Draft BAR – 1 February 2019

A hard copy is available at Rowan Feed located on Portion 42 of the farm Holfontein 71 and can be accessed via Katboschfontein Road. Please contact Dr Jacobus Greeff on 081 861 5600 to gain access.

Please take note that a **public meeting** has been scheduled for Wednesday 13 February 2019 at 17:30 at the Hadida's Garden Estate.

Please register as an interested and affected party by providing your contact details in order to receive updates throughout the process, and indicate which properties surrounding the proposed project are applicable to you as a landowner.

Should you have any queries please do not hesitate to contact me. I trust you find the above in order.

Kind Regards,

31 January 2019 at 08:57

Dear Landowner,

You are hereby informed that Enviro-Insight CC was appointed as Environmental Assessment Practitioner (EAP) by Wozimart (Pty) Ltd to conduct a Basic Assessment process for the proposed Welgedacht Prospecting Right and Environmental Authorisation applications. The Applicant intends to prospect for coal on Portions 5, 19, 20, 21, 22, 27, 33, 42, 43, 64, 65, 66, 67 and 76 of the farm Holfontein 71 IR and Portions 26 and 32 of the farm Welgedacht 74 IR.

Please refer to the attached letter and Background Information Document for more details. Please register as an interested and affected party by providing your contact details in order to receive updates throughout the process, and indicate which of the above properties are applicable to you as a landowner in order for Enviro-Insight to verify the details.

I trust you find the above in order. Should you have any queries please do not hesitate to contact me.

Proposed Welgedacht Prospecting Right: Specialists access to properties

3 messages

Corné Niemandt <corne@enviro-insight.co.za>

7 February 2019 at 15:22

To: Aylana Berman <berman.aylana@gmail.com>, tzipporah.henstock@icloud.com

Dear Mr Berman,

Thank you for your time and inputs on 6 February 2019. As discussed with you during our meeting, specialists would require to gain access to the property in order to assess the physical features including wetlands, grasslands and heritage features. Is it possible for the specialists to gain access on Wednesday 13 February 2019? As discussed, they will only walk around on the property and take photos, no damage will be done to the crops or any infrastructure. Furthermore, if you have information regarding historical buildings or graves located on your property please share this information with us. Look forward to hearing from you.

Good day Mr Brink,

I tried contacting you since last week but have not managed to get through. I spoke to your colleague Mr Britz Reinders regarding a proposed meeting and obtaining information from Enviro-serv. He suggested I contact you to arrange a meeting. Enviro-Insight would like to schedule a meeting this Wednesday (13 February 2019) at your office to discuss the above mentioned project as well as to obtain information on your groundwater monitoring reports. Please indicate a suitable time between 11:00 and 13:00. Alternatively, please suggest a suitable date and time this week.

Should you have any queries please do not hesitate to contact me.

To: Neil Brink <NEILB@enviroserv.co.za>

11 February 2019 at 12:34

Hi Neil,

Thank you for your response. Please take note that my email has two parts to it. The first part is for a proposed prospecting right application currently underway where I require participation from EnviroServ as portion 22 of Holfontein 71 IR is affected (as per my previous public notices sent out to you for this project). I am not sure if portion 33 also belongs to EnviroServ, accordingly I require input from your side. It would be good to meet at some stage to discuss this project. If possible, please send a representative from EnviroServ to attend the public meeting on 13 February 2019, otherwise we will arrange for next. Please take note that the draft BAR is available for review until 4 March 2019, and inputs from all landowners would be preferred.

The second part is based on an existing prospecting right and proposed Welgedacht Coal Mine project which affects your portion 23 of Holfontein 71 IR (we were not the environmental consultants on the project but I am assisting with the Water Use Licence Application (WULA) for this project). As part of the WULA for the proposed Welgedacht coal mine, additional groundwater information has been requested by the Department of Water and Sanitation. To avoid drilling additional holes on properties, we are requesting existing groundwater reports or data in order to incorporate the data into the modelling for the final WULA report submitted to DWS. The information is not to analyse the data and indicate compliance/non-compliance, all data will be treated as confidential. If you do not mind, can the geohydrologist on our project Mr Matthew Damhuis please contact your consultant to discuss this and see where we can obtain information to avoid drilling.

Looking forward to your response.

Dear Interested and/or affected party,

Please take note that the Draft Basic Assessment Report (DBAR) for the Proposed Welgedacht C Prospecting Right (GP 30/5/1/1/2 (10553) PR) is available for review until 4 March 2019.

The DBAR is available on Enviro-Insight website: <http://www.enviro-insight.co.za/download-it/project-downloads/> - Welgedacht C Prospecting Right – Draft BAR – 1 February 2019

A hard copy is available at Rowan Feed located on Portion 42 of the farm Holfontein 71 and can be accessed via Katboschfontein Road. Please contact Dr Jacobus Greeff on 081 861 5600 to gain access.

Please provide your comments via email, post or by filling in the Registration and Comment Form attached to the Draft BAR available at the above location. Please do not remove the report unless directly organised with Mr Corné Niemandt.

Please direct your written comments to:

mx.google.com rejected your message to the following email addresses:

alfred.gama.sunrays@gmail.com

The address you sent your message to wasn't found at the destination domain. It might be misspelled or it might not exist. Try to fix the problem by doing one or more of the following:

1. Send the message again, but before you do, delete and retype the address. If your email program automatically suggests an address to use, don't select it.
2. Clear the recipient AutoComplete cache in your email program by following the steps in this article: [Status code 5.1.1](#). Then resend the message, but before you do, be sure to delete and retype the address.
3. Contact the recipient by some other means (by phone, for example) to confirm you're using the right address. Ask them if they've set up an email forwarding rule that could be forwarding your message to an incorrect address.

mx.google.com gave this error:

The email account that you tried to reach does not exist. Please try double-checking the recipient's email address for typos or unnecessary spaces. Learn more at <https://support.google.com/mail/?p=NoSuchUser I9-v6si3659223ejh.293 - gsmtpt>

Good morning Neil,

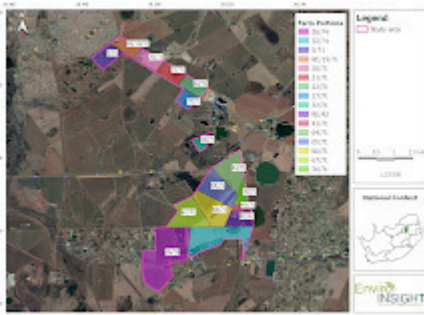

Thank you for the information provided by John to our specialist, I appreciate it. Can you please confirm whether Portion 32 of the Farm Holfontein 71 IR belongs to EnviroServ, or please indicate whom I can contact in your organisation to obtain this information from. Please refer to the attached map for more information.

Your assistance is appreciated.

Thank you for confirming Neil, appreciate it.

Based on this, portion 32 is included in the Prospecting right application for the proposed Welgedacht project. As indicated previously, the draft basic assessment report is available for review on our website <http://www.enviro-insight.co.za/download-it/project-downloads/> until 4 March 2019. Should you have any comments or queries please let me know.

I trust you find this in order.

Kind Regards,

Corné Niemandt

OFFICE OF THE REGIONAL LAND CLAIMS COMMISSIONER: GAUTENG

No. 9 Bailey Lane, Arcadia, 0007 | Private Bag X 03, Arcadia, 0007

Tel: (012) 310 6500 | Fax: (012) 323 0312

Enquiries: Desiree Tsholofelo Kgole
Telephone: (012) 310 6500/6578

Dear Mr / Ms Corné Niemandt

LAND CLAIMS ENQUIRY – PORTION 26 AND 32 OF THE FARM WELGEDACHT 74, REGISTRATION DIVISION IR, GAUTENG

We refer to your letter dated **15 January 2019**.

We confirm that there is an existing land claim against the Property. The claims were lodged as per attached list of claimants.

The claim was lodged in terms of the Restitution of Land Rights Amendment Act, 2014 (Act No 15 of 2014) ("the Amendment Act") which, amongst others, reopened the lodgement of claims for a period of five years.

The validity of the Amendment Act was challenged in the Constitutional Court. The Constitutional Court found the Amendment Act to be invalid because of the failure of Parliament to facilitate public involvement as required by the Constitution. The Amendment Act ceased to be law on 28 July 2016.

The Constitutional Court ordered that the claims that were lodged between 1 July 2014 and 27 July 2016 are validly lodged, but it interdicted the Commission from processing those claims until the Commission has finalised the claims lodged by 31 December 1998 or until Parliament passes a new law providing for the re-opening of lodgement of land claims. Parliament was given until 27 July 2018 to pass such a law.

Parliament has so far not been able to pass new legislation and has instead approached the Constitutional Court for an extension until 29 March 2019. As a result the Commission will, unless directed otherwise by Constitutional Court, not be processing claims lodged between 1 July 2014 until 27 July 2016 until a new Act is passed by Parliament and signed into law by the President. The Commission will contact you directly and communicate widely once we have been granted permission to begin dealing with these claims.

For further enquiries please contact

Solomon Maruma at solomon.maruma@drdlr.gov.za , telephone 012 310 6588

Edith Mokgoko at Edith.mokgoko@drdlr.gov.za , telephone 012 310 6573

Yours faithfully

MS. C. BENYANE
CHIEF DIRECTOR
OFFICE OF THE REGIONAL LAND CLAIMS COMMISSION
GAUTENG PROVINCE

DATE: 23/11/19

OFFICE OF THE REGIONAL LAND CLAIMS COMMISSIONER: GAUTENG

No. 9 Bailey Lane, Arcadia, 0007 | Private Bag X 03, Arcadia, 0007

Enquiries: Ms Desiree T Kgole
Telephone: (012) 310-6500/6578

Other claimants who also lodged their claims on **WELGEDACHT 74 IR.**

R/3/117/261/42660	SIBIYA DOROSIA CONSTANCE	2014-12-22
R/3/117/261/84895	NTSOANE MOLOI GLORIA	2015-07-29

OFFICE OF THE REGIONAL LAND CLAIMS COMMISSIONER: GAUTENG
No. 9 Bailey Lane, Arcadia, 0007 | Private Bag X 03, Arcadia, 0007
Tel: (012) 310 0500 | Fax: (012) 323 0312

1. Section 11(7) of the Restitution of Land Rights Act provides as follows:

11 (7) Once a notice has been published in respect of any land -
(a) no person may in an improper manner obstruct the passage of the claim

sA) no person may sell, exchange, donate, lease, subdivide, rezone or develop the land in question without having given the regional land claims commissioner one month's written notice of his or her intention to do so, and, where such notice was not given in respect of

(i) any sale, exchange, donation, lease, subdivision or rezoning of land and the Court is satisfied that such sale, exchange, donation, lease, subdivision or rezoning was not done in good faith, the Court may set aside such sale, exchange, donation, lease, subdivision or rezoning or grant any other order it deems fit;

(ii) any development of land and the Court is satisfied that such development was not done in good faith, the court may grant any order it deems fit;

The above section has been misinterpreted to mean that once a claim has been lodged the land owner cannot sell, donate, develop, lease, exchange or donate. While in actual fact it means the land owner cannot do those things listed in (i) above after a notice of claim has been published in a government gazette notice without giving one month notice of your intention to do so to the Regional Land Claims Commissioner having a jurisdiction over such land and/or property.

After the claim has been found to be valid the office must publish a gazette notice of claim first in a government gazette notice, and if anyone wants to do anything listed in (i) above must give a written notice to the RLCC.
