Notice: Scoping and Environmental Impact Assessment (S&EIA) process for the proposed offshore Production Right and Environmental Authorisation Application for Block 11B/12B by TotalEnergies EP South Africa B.V.
Invitation to register as an Interested and Affected Party, comment on the Draft Scoping Report

Background: TotalEnergies EP South Africa B.V. (TEEPSA) together with its joint venture partners, QatarEnergy, CNR International (South Africa) Limited, and a South African consortium, Main Street 1549 held an Exploration Right (Exploration Right Ref. No.: 12/3/067) over Block 11B/12B, offshore from the Southern Cape coast, South Africa. TEEPSA now seeks to convert its Exploration Right for the block into a Production Right in terms of Sections 83 to 86 of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA: Act 28 of 2002), to allow for the development and production of gas and condensate in Licence Block 11B/12B.

Nature of activity: Proposed development and production related activities include: the drilling of up to six development wells, laying of deep-water subsea manifolds and flowlines to connect the production wells to the existing PetroSA FA Platform at Block 9, and exploration related activities, which might include the drilling of four exploration wells, sonar surveys, seafloor sampling surveys, and metocean surveys.

Location: Block 11B/12B is within the South African Exclusive Economic Zone in the Outeniqua Basin. The closest north-eastern point of the application area is ±75 km from Cape St Francis. The closest north-western point is ±120 km from Mossel Bay.

Applicant: The applicant is TotalEnergies EP South Africa B.V.

As part of the application process, an application for an Environmental Authorisation (EA) in terms of the National Environmental Management Act, 1998 (NEMA: Act 107 of 1998) must also be submitted. The application for EA must be supported by a scoping and environmental impact assessment process in accordance with the Environmental Impact Assessment (EIA) Regulations 2014, as amended. The EA application must be submitted to the Petroleum Agency of South Africa (PASA) for a recommendation to the Minister of Minerals and Energy, who will decide on whether to grant the EA.

Environmental Assessment Practitioner (EAP): WSP Group Africa (Pty) Ltd.

Invitation to register as an interested and affected party (I&AP): Parties who wish to participate in, and receive information about, the proposed project and opportunities to comment during the Scoping, EIA, and public participation process, must register as I&APs by contacting the WSP Public Participation Office, visiting the data-free website, or scanning the QR code.

Empower yourself for future success

Entrepreneurs offered chance of a lifetime

A recent report by the Global Entrepreneurship Monitor shows a significant increase in entrepreneurial activity in SA from 10.8% in 2019 to 17.5% in 2021.

This overall positive entrepreneurial activity is to be welcomed. So why have these numbers increased? What are the driving forces behind entrepreneurship?

Among other motivators was the need to earn a living in difficult economic times, followed by the desire to become successful.

This also follows Covid-19, which saw many jobs being lost and entrepreneurial ventures, with little outside support, fail! This is a good reason for people to empower themselves now and learn to succeed in this space.

Enabling entrepreneurs is key to harnessing their enthusiasm and desire for growth and ultimately ensuring that they become entrenched as established businesses in SA – leading to job creation and upliftment in our communities.

There has never been a better time to take an idea or small business further than right now.

With this in mind, and to help entrepreneurs, start-ups and SMEs turn those dreams into reality, Firstwatch Whisky is offering 100 lucky entrepreneurs the opportunity of a lifetime — to be part of a business course designed especially by Over the Rainbow, a company specialising in training within the field of entrepreneurship.

The aim is to share vital skills that will assist in business longevity and growth.

To have a great dream or the beginnings of a promising business is one thing, but to be empowered to take things forward efficiently is a whole different ballgame, one that this course is designed to offer the established and budding entrepreneur.

Even though this is an “online” learning experience, there will be plenty of online engagement with lecturers and other groups of entrepreneurs.

This top-notch online platform is specifically designed for the selected entrepreneurs and comes with everything needed from the beginning to the end of this course.

Participants will certainly not be left on their own to work their way through the course. There will be regular 90-minute question and answer sessions with experts, with a maximum of 50 students joining a webinar/conference call via the platform.

Entrepreneurs are encouraged to refrain from putting their ambitions on hold and to apply now to gain the insight and skills needed to thrive in our current environment.

ADVERTENSIE: KENNISGEWING

Kennisgewing: Proses van Omvangbepaling en Omgewingsimpakbepaling (OB&OIB) vir die voorgestelde afdandige Produksiereg en Omgewingsmagtigingsaansoek vir Blok 11B/12B deur TotalEnergies EP South Africa B.V.

Uitnodiging om as 'n belangstellende en geaffekteerde party te registreer en kommentaar op die konsep-Omvangbepalingsverslag te lewer.

Agtergrond: TotalEnergies EP South Africa B.V. (TEEPSA), tesame met talle gesamentlike ondernemingsvennote, QatarEnergy, CNR International (South Africa) Limited, en 'n Suid-Afrikaanse konsortium, Main Street 1549, het 'n Eksplorasiereg (Eksplorasiereg met verwysingsnommer 12/3/067) oor Blok 11B/12B, afdandig van die Suid-Kaapse kus, Suid-Afrika gehou. TEEPSA is nou van voorneme om hulle Eksplorasiereg vir die blok om te skakel in 'n Produksiereg ingevolge artikel 83 tot 86 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne, 2002 (MPRDA: Wet kondensaat in Lisensieblok 11B/12B).

Aard van aktiwiteit: Voorgestelde ontwikkeling- en produksieverwante aktiwiteite sluit in: Die sinking van tot ses ontwikkelingsboorgate, die lê van diepwater, ondersese spruitpype en vloeielyne om die produksieboorgate aan die bestaande PetroSA FA-platform by Blok 9 te verbind, en eksplorasieverwante aktiwiteite wat die sinking van vier eksplorasieboorgate, sonaropnames, opnames vir monsterneming op die seabodem, en meteorologiese en oseanologiese opnames insluit.

Ligging: Blok 11B/12B lê binne die Suid-Afrikaanse Eksklusiewe Ekonomiese Sone in die Outeniekwakom. Die naaste noordoostelike punt van die toepaslike gebied is ± 75 km vanaf Kaap St Francis geleë. Die naaste noordwestelike punt is ± 120 km vanaf Mosselbaai geleë.

Aansoeker: Die aansoeker is TotalEnergies EP South Africa B.V.

As deel van die aansoekproses moet 'n aansoek om 'n Omgewingsmagtiging (OM) ingevolge die Wet op Nasionale Omgewingsbestuur, 1998 (NEMA: Wet 107 van 1998) ook ingedien word. Die aansoek om OM moet gestuur word deur 'n proses van omvangbepaling en omgewingsimpakbepaling in ooreenstemming met die Omgewingsimpakbepaling (OIB) Regulasies 2014, soos gewysig. Die OM-aansoek moet by die Petroleumagentskap van Suid-Afrika (PASA) ingedien word vir 'n aanbeveling aan die Minister van Minerale en Energie, wie sal besluit of die OM toe te staan of nie.

Omgewingevalueringspraktisyn (OEP): WSP Group Africa (Pty) Ltd.

Uitnodiging om as 'n belangstellende en geaffekteerde party (B&GP) te registreer: Partye wat wil deelneem aan en inligting wil ontvang oor die voorgestelde projek en geleenthede om kommentaar te lewer tydens die proses van Omvangbepaling, OIB en openbare deelname, moet as B&GP's registreer deur die WSP Kantoor vir Openbare Deelname te kontak, die datavrye webwerf te besoek, of die QR-kode te skandeer.

Konsep-Omvangbepalingsverslag beskikbaar vir openbare kommentaar: Die konsep-Omvangbepalingsverslag is vanaf **Donderdag 01 Desember 2022 tot Vrydag 03 Februarie 2023** vir openbare oorsig beskikbaar. BETAAL NADAT WERK GEDOEN IS

Ek is Ashley Adams, 43 jaar oud. Ek woon in Platteklouf, Kaapstad. Ek het Moses gekontak om my finansiële te help, selfs met my vrou moes hy gehelp het toe ek my werk verloor het. Die bank het my huis en al my voertuie geneem.

Moses, 'n Arabiese kruiedokter, het my gehelp met olie wat ek moes gebruik wat hy aan my gegee het. Eerstens wen ek die Lotto, my vrou het teruggekom, ek het nuwe voertuie gekoop en ek betaal my huis kontant. Ek het ook 'n tender vir die bou van huise deur die No.2 Gateway in Kaapstad gekry. Ek het 3 kinders en al 3 studeer in privaat skole.

Dankie Moses.

'n Nuwe generasie Super Puma Striker-seuns is besig om onder die afrigting en mentorskap van Jeremy Davids hul vaardighede as sokkerspelers te slyp. Dié span het op 26 November teen die span van United Boys gespeel, en met 1 doel teenoor 0 gewen.

"Om met die jongspan te werk, is nie altyd maklik nie," het Davids gesê, maar vinnig bygevoeg dit is "oor en oor die moeite werd". Op die foto pronk die spannetjie voor die aanvang van hulle wedstryd teen United Boys.

ADVERTENSIE: KENNISGEWING

Kennisgewing: Proses van Omvangsbepaling en Omgewingsimpakbepaling (OB&OIB) vir die voorgestelde aflandige Produksiereg en Omgewingsmagtigings-aansoek vir Blok 11B/12B deur TotalEnergies EP South Africa B.V.

Uitnodiging om as 'n belangstellende en geaffekteerde party te registreer en kommentaar op die konsep-Omvangbepalingsverslag te lewer.

Agtergrond: TotalEnergies EP South Africa B.V. (TEEPSA), tesame met hulle gesamentlike ondernemingsvennote, QatarEnergy, CNR International (South Africa) Limited, en 'n Suid-Afrikaanse konsortium, Main Street 1549, het 'n Eksplorasiereg (Eksplorasiereg met verwysingsnommer: 12/3/067) oor Blok 11B/12B, aflandig van die Suid-Kaapse kus, Suid-Afrika gehou. TEEPSA is nou van voorneme om hulle Eksplorasiereg vir die blok om te skakel in 'n Produksiereg ingevolge artikel 83 tot 86 van die Wet op die Ontwikkeling van Minerale en Petroleumhulpbronne, 2002 (MPRDA: Wet 28 van 2002) om voorsiening te maak vir die ontwikkeling en produksie van gas en kondensaatsaai in Lisensieblok 11B/12B.

Aard van aktiwiteit: Voorgestelde ontwikkeling- en produksieverwante aktiwiteite sluit in: Die sinking van tot ses ontwikkelingsboorgate, die lê van diepwater, ondersese spruittype en vloeielyne om die produksieboorgate aan die bestaande PetroSA FA-platform by Blok 9 te verbind, en eksplorasieverwante aktiwiteite wat die sinking van vier eksplorasieboorgate, sonaropnames, opnames vir monsterneming op die seebodem, en meteorologiese en oseanologiese opnames insluit.

Ligging: Blok 11B/12B lê binne die Suid-Afrikaanse Eksklusiewe Ekonomiese Sone in die Outeniqua-wakom. Die naaste noordoostelike punt van die toepaslike gebied is ± 75 km vanaf Kaap St Francis geleë. Die naaste noordwestelike punt is ± 120 km vanaf Mosselbaai geleë.

Aansoeker: Die aansoeker is TotalEnergies EP South Africa B.V.

As deel van die aansoekproses moet 'n aansoek om 'n Omgewingsmagtiging (OM) ingevolge die Wet op Nasionale Omgewingsbestuur, 1998 (NEMA: Wet 107 van 1998) ook ingedien word. Die aansoek om OM moet gestaaf word deur 'n proses van omvangsbepaling en omgewingsimpakbepaling in ooreenstemming met die Omgewingsimpakbepaling (OIB) Regulasies 2014, soos gewysig. Die OM-aansoek moet by die Petroleumagentskap van Suid-Afrika (PASA) ingedien word vir 'n aanbeveling aan die Minister van Minerale en Energie, wie sal besluit of die OM toe te staan of nie.

KENNISGEWINGS / NOTICES

NOTIFICATION ADVERTISEMENT

Notice: Scoping and Environmental Impact Assessment (S&EIA) process for the proposed offshore Production Right and Environmental Authorisation Application for Block 11B/12B by TotalEnergies EP South Africa B.V.

Invitation to register as an Interested and Affected Party, comment on the Draft Scoping Report

Background: TotalEnergies EP South Africa B.V. (TEEPSA) together with its joint venture partners, QatarEnergy, CNR International (South Africa) Limited, and a South African consortium, Main Street 1549 held an Exploration Right (Exploration Right Ref. No.: 12/3/067) over Block 11B/12B, offshore from the Southern Cape coast, South Africa. TEEPSA now seeks to convert its Exploration Right for the block into a Production Right in terms of Sections 83 to 86 of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA: Act 28 of 2002), to allow for the development and production of gas and condensate in Licence Block 11B/12B.

Nature of activity: Proposed development and production related activities include: the drilling of up to six development wells, laying of deep-water subsea manifolds and flowlines to connect the production wells to the existing PetroSA FA Platform at Block 9, and exploration related activities, which might include the drilling of four exploration wells, sonar surveys, seafloor sampling surveys, and metocean surveys.

Location: Block 11B/12B is within the South African Exclusive Economic Zone in the Outeniqua Basin. The closest north-eastern point of the application area is ±75 km from Cape St Francis. The closest north-western point is ±120 km from Mossel Bay.

Applicant: The applicant is TotalEnergies EP South Africa B.V.

As part of the application process, an application for an Environmental Authorisation (EA) in terms of the National Environmental Management Act, 1998 (NEMA: Act 107 of 1998) must also be submitted. The application for EA must be supported by a scoping and environmental impact assessment process in accordance with the Environmental Impact Assessment (EIA) Regulations 2014, as amended. The EA application must be submitted to the Petroleum Agency of South Africa (PASA) for a recommendation to the Minister of Minerals and Energy, who will decide on whether to grant the EA.

Environmental Assessment Practitioner (EAP): WSP Group Africa (Pty) Ltd.

Invitation to register as an interested and affected party (I&AP): Parties who wish to participate in, and receive information about, the proposed project and opportunities to comment during the Scoping, EIA, and public participation process, must register as I&APs by contacting the WSP Public Participation Office, visiting the data-free website, or scanning the QR code.

An ancient San rock art reveals new meaning

From p.12

Behind the rock face

We have noted already that the San universe is divided into different realms. Contact between these often interacting realms is sometimes depicted in the art by long lines that link images or sometimes appear to pass through the rock face. San shamans or medicine people (called *!gi:ten* in |Xam) move along or climb these 'threads of light' as they journey between realms to heal the sick, make rain and perform other tasks. The |Xam called these out-of-body journeys *!xãũ*. They obtained the power needed to accomplish them by summoning potency from strong things, such as the eland.

The inter-realm nature of the line is further evidenced by the three creatures depicted moving along it. The two moving upward are quadrupeds or four-legged animals: one is non-specific and one has a tail and human arms. These images may depict the sort of bodily changes that *!gi:ten* say they experience during out-of-body journeys.

The faint white creature moving down the line was for us the climax of our work. It is clearly birdlike (*!gi:ten* often speak of flying). But closer inspection revealed that, though faint, it has a rhabok antelope head with two straight black horns, a black nose and mouth.

It also has two 'wings' emanating from its shoulders. In short, it is a hybrid form – part bird and part buck. In addition, it has two white lines coming out of the back of its neck. It was from this spot that *!gi:ten* expelled the sickness that they drew out of the bodies of sick people.

For many people, the detail and the complexity of the images at this site come as a surprise. Yet they are typical. San rock art ranks among the best in the world if we consider its beauty, its intricacy and the rich sources of explanation on which we can draw.
