S - FM	Hartenbos, Southern Cape, Oudtshoorn.	Mornings and afternoon

A Scoping and Environmental Impact Assessment process is starting.

TotalEnergies has applied for a Production Right to produce gas and condensates from Licence Block 11B/12B, more than 75km offshore between Jeffreys Bay and Mossel Bay. They propose to drill 6 production wells to supply the existing PetroSA FA Platform via undersea pipelines and to drill 4 exploration wells.

A virtual public meeting will be held on the 7th December 2022 from 5h30 pm to 7h30 pm. A draft scoping report is available for comment until the 3rd February 2023.

Please register as a stakeholder by sending a WhatsApp to 076 694 3842, or an e-mail to teepsaEIA@wsp.com so we can keep you informed.

'n Proses van Omvangsbepaling en Omgewingsimpakbepaling gaan nou begin.

TotalEnergies het aansoek gedoen om 'n Produksiereg om gas en condensate uit Lisensieblok 11B/12B, meer as 75 km afluandig tussen Jeffreysbaai en Mosselbaai, te produseer. Hulle stel voor om 5 produksieboorgate te sink om die bestaande PetroSA F-A-platform via ondersese pyplyne te voorsien, en om 4 eksplorasiëboorgate te sink.

'n Virtuele openbare vergadering sal op 7 Desember 2022 van 5.30 nm tot 7.30 nm gehou word. 'n Konsep-Omvangbepalingsverslag is tot 3 Februarie 2023 vir kommentaar beskikbaar.

Registreer asseblief as 'n belanghebbende deur 'n WhatsApp na 076 694 3842 of 'n e-pos na teepsaEIA@wsp.com te stuur sodat ons u op hoogte kan hou.
