Subject: EXPANSION OF KOLOMELA MINE: ENVIRONMENTAL IMPACT ASSESSMENT

Message Kolomela Mine Expansion - Notification Letter .pdf (342 KB)

## ATTENTION: INTERESTED AND AFFECTED PARTIES

Dear Sir/ Ma'am

### EXPANSION OF KOLOMELA MINE

#### ENVIRONMENTAL IMPACT ASSESSMENT: NOTIFICATION OF AMENDED LAYOUT, APPLICATION IN TERMS OF THE NEW EIA REGULATIONS (2014) UNDER THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT AND APPLICATION OF IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT

Sishen Iron Ore Company (Pty) Ltd, part of Kumba Iron Limited is proposing the amendment of mining operations at Kolomela Mine, 12.5 km south west of Postmasburg in the Northern Cape Province. The amendment includes expansion of the existing of waste rock dumps, the mining of new pits on the farms Ploegfontein and Kapstevl and the inclusion of Dense Media Separation (DMS) processing as well as additional workshops. This will allow for an increase in production from 9 to 16 million tonnes per annum (Mtpa). A new explosives magazine, haul roads and sewage treatment works will also be constructed.

Public participation for the expansion of Kolomela Mine commenced in November 2013. An Environmental Scoping Report was completed as part of the Environmental Impact Assessment (EIA) process in mid-2014. Comments on the reports were received from interested and affected parties (IAPs) and documented. Subsequently, the details and layout of the proposed expansion activities have been finalised. In addition, the legislation governing the EIA process under the National Environmental Management Act has also changed and mining waste is now also included under the definition of waste as defined in the National Environmental Management: Waste Management Act.

This email and the attached letter serves to inform you of the:

- proposed layout and objectives of the expansion activities at Kolomela Mine;
- submission of a new application to the Department of Mineral Resources for authorisation of activities listed under the National Environmental Management Act, EIA Regulations (GN983, 984 and 985) of 2014;
- submission of an application for waste management activities as listed (GN921) under the National Environmental Management Waste Act.

**As an interested and affected party, we would like to afford you an opportunity to provide additional comment, given the revised application process, finalised layout and new production objectives for Kolomela Mine.** Note that comments already made in the consultation process undertaken to date are still valid and have been incorporated.

All additional issues and concerns must be submitted to Synergistics by the **30 April 2014** for inclusion and consideration during the compilation of the EIA report. Comments are to be submitted in writing to:

**NOTIFICATION OF PUBLIC PARTICIPATION PROCESS FOR THE KOLOMELA MINE EXPANSION PROJECT AT KOLOMELA MINE, POSTMASBURG.**

This Background Information Document (BID) provides interested and affected parties (IAP) with information on the proposed project and invites them to participate in the public consultation process of the Environmental Impact Assessment (EIA) process.

You are invited to register as an IAP for the proposed Kolomela Expansion (KolEx) Project at the Kolomela Mine, near Postmasburg, Northern Cape Province.

You are requested to raise concerns and ask questions about this project. Please complete and return the comment sheet attached to Synergistics Environmental Services within 14 days. There will also be additional opportunities in the future for you to participate and provide comments.

**Please complete the project specific registration / comment sheet and send to:**

# Background Information Document

## **ENVIRONMENTAL ASSESSMENT PROCESSES FOR THE KOLOMELA EXPANSION PROJECT AT THE KOLOMELA MINE, NEAR POSTMASBURG, NORTHERN CAPE PROVINCE.**

**December 2013**

The Kolomela Mine is an open pit mining operation in the Northern Cape Province. The mine is located approximately 12 kilometres south west from the town of Postmasburg. The Kolomela Expansion (KolEx) Project will comprise a brownfields expansion of the current Kolomela Mining operations to increase the overall production of the mine by approximately 3 million tonnes per annum.

Sishen Iron Ore Company (Pty) Ltd appointed Synergistics Environmental Services (Pty) Ltd (Synergistics) as the independent Environmental Assessment Practitioner responsible for the applications required under South African environmental legislation and to undertake the Environmental Impact Assessment (EIA) process.

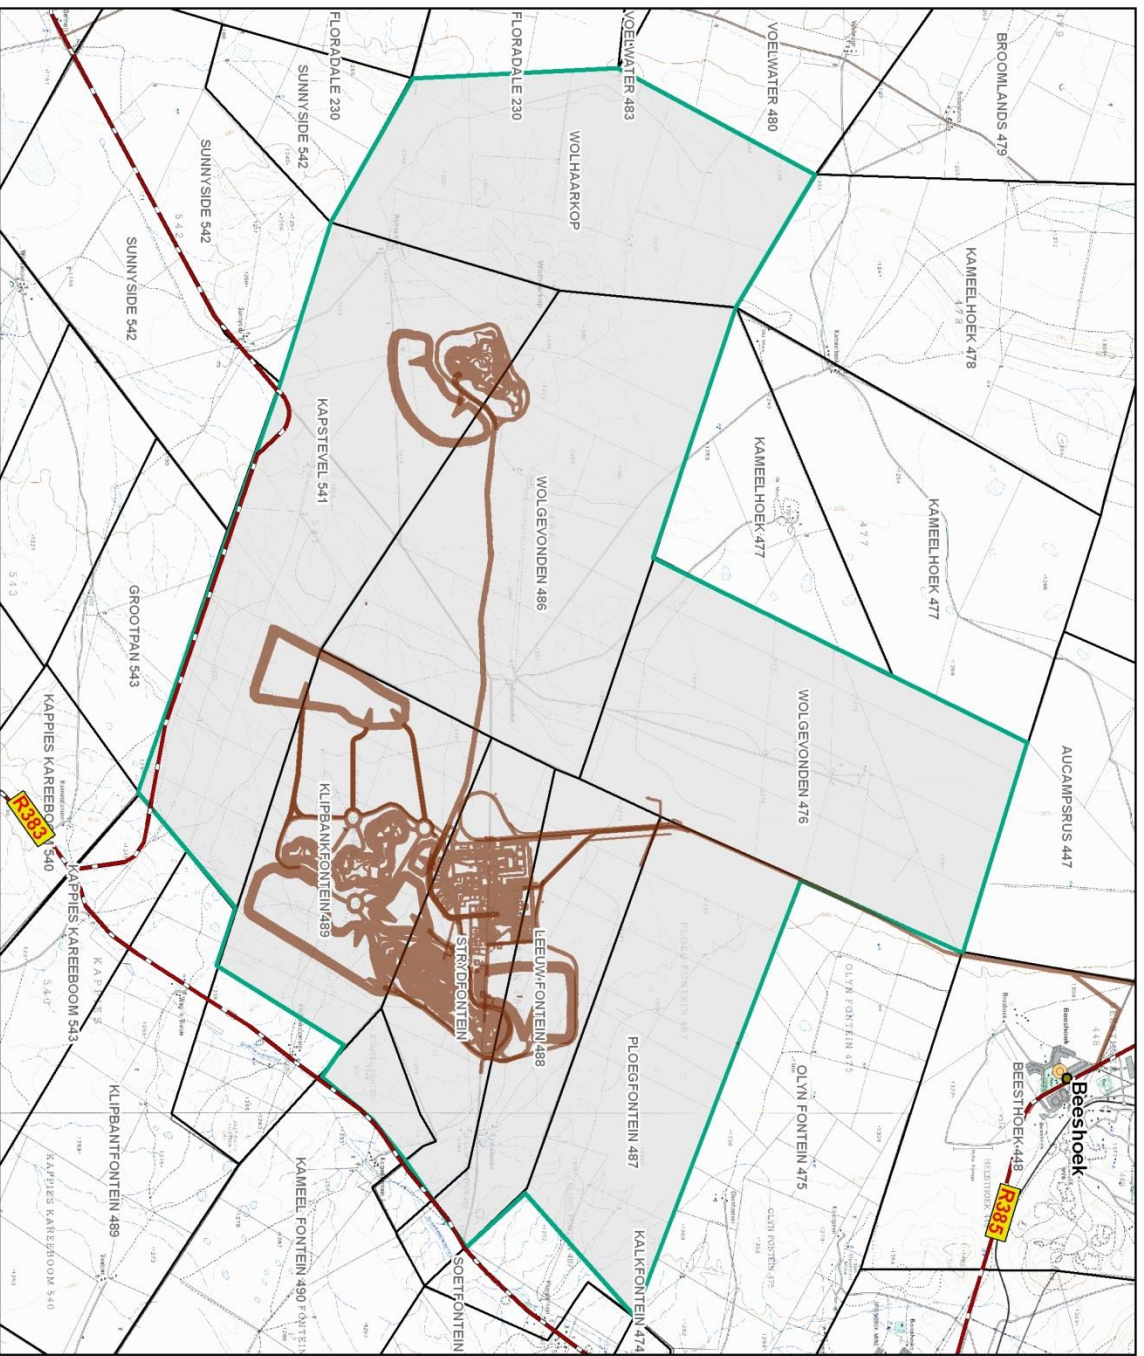

### **PURPOSE OF DOCUMENT**

This Background Information Document (BID) provides initial information to Interested and Affected Parties (IAPs) about the environmental applications and the EIA process being undertaken for the KolEx Project.

This document forms the first part of the public consultation process, and aims to elicit comments, questions and responses regarding the proposed project. Initial issues raised will be considered when planning the studies to be undertaken as part of the EIA process.

## PROJECT DESCRIPTION

The Sishen Iron Ore Company (Pty) Ltd, part of Kumba Iron Ore Limited (hereafter Kumba), owns and operates Kolomela Mine located approximately 12 km south west of Postmasburg and 80 km south of the Sishen Mine in the Northern Cape Province.

The Minister of Mineral Resources granted a mining right for iron ore on 5 May 2008 authorising the exploitation of iron ore by Kumba on the farms Ploegfontein 487, Remainder of Leeuwfontein 488, Strydfontein 614, remainder of Klipbankfontein 489, Portion 1, 2, 3, and the remainder of Kapsteviel 541, Wolhaarkop 485, Welgevonden 476 and Welgevonden 486.

Kumba is also the holder of the surface rights of these properties. The Kolomela mining right {(NC) 069 MR}, is valid until 17 September 2038 unless cancelled or suspended.

The Kolomela Mine is an open pit mining operation aimed at producing approximately 9 million tonnes of iron ore per annum. Current mining operations involve mining from three pits on the farms Leeuwfontein 488, Strydfontein 614, remainder of Kapsteviel 489 and portion 1, 2, 3, and the remainder of Kapsteviel 541. Iron ore reserves have also been identified on the farms Ploegfontein 487 and Kapsteviel 541.

Existing processing facilities involve a direct shipping ore (DSO) operation involving crushing and screening of the recovered ore material into stockpiles of 'lump' and 'fines' for transportation by rail to Saldanha Bay.

The Kolomela Expansion (KolEx) project is a brownfield expansion of the current Kolomela Mining operations to increase the overall production of the mine. The project is currently in pre-feasibility stage and various options are still being considered. A detailed project description will be provided in the scoping report planned for submission January 2013

The Environmental Impact Assessment (EIA) will mainly be in support of the following applications:

- **Amendment to the existing Environmental Management Programme (DMR Ref: NC 30/5/3/2/1/069EM)** in terms of **Section 102** of the Minerals and Petroleum Resources Development Act No 28 of 2002;

- **Amendment to the existing integrated water use licence (Licence Number: 25051648)** in terms of **Section 21** of National Water Act No 36 of 1998;
- **Environmental Authorisation** in terms of **GNR 544**; Activity 9,11,12,13,18,22,23,28,37&42; **GNR 545 Activity** 3,5,10 &15 (**DENC Ref No: NC/EIA/15/ZFM/TSA/POS3/ 2013**).

### Mining requirements

The expansion project would require additional infrastructure to support the increase in overall production of the mine. At this stage various options are still being considered, including the accelerated mining of current pits and the potential feasibility of mining of additional pits. More information regarding this will be provided in the draft Scoping report.

### Plant requirements

Ore is currently hauled from the pits to a primary crusher. Dry DSO material is crushed and screened through a single crushing train with three crushing stages (Primary, secondary and tertiary) to produce the required product specifications. Once crushing of the ore is complete; it is temporarily stored on the product bed stockpiles before being loaded onto the rail and transported to Saldanha Bay.

Two types of material are considered for treatment as part of the KolEx Project:

1. High grade (DSO) ore;

The current Kolomela plant was initially designed to process 9 million tonnes of iron ore per annum and therefore the plant capacity would need to be increased to cater for an overall increase in production of the mine.

At this stage various plant option alternatives are still being considered and more information regarding this will be provided in the draft Scoping report.

2. Normal grade ore (material that requires beneficiation).

The construction of permanent and/or temporary beneficiation plants are also still being considered to enable Kolomela to process lower grade ores, which would then be blended into product ores to obtain required product specification. More information

regarding this will be provided in the draft Scoping report.

### **Supporting Infrastructure Requirements**

It is anticipated that additional supporting infrastructure will need to be established at the Kolomela Mine. At the present time the infrastructural requirements have not been accurately defined, however it would most likely include, water management infrastructure (pollution control dams and water supply dams), additional office requirements, additional fuel storage requirement, additional change house, additional workshops with First Aid Rooms, sewage treatment facility, Laboratory, housing infrastructure etc.

## **ENVIRONMENTAL LEGAL PROCESSES**

The KolEx Project will require various environmental approvals prior to commencement with construction or operational activities relating to the expansion project. Below is the list of applicable legislation and main applications for the project.

### **National Environmental Management Act, (Act No 107 of 1998) (NEMA)**

EIA regulations have been published (Government Notices R543 to R546) in terms of the National Environmental Management Act (No 107 of 1998). Activities listed in the EIA regulations require authorisation from Northern Cape Department of Environmental Affairs and Nature Conservation (DENC) prior to commencement.

The following listed activities will most likely form part of the KolEx Project:

- Clearance of vegetation to allow for mining activities (GNR 545 Activity 15 and GNR 544 Activity 23);
- Construction of haul roads and service roads at the mine (GNR 544 Activities 22);
- Construction of facilities for the storage of dangerous goods i.e. fuel and dangerous goods (GNR 544 Activity 13, 42; GNR 545 Activity 3);
- Construction of water storage and related distribution infrastructure i.e. storage dams and pipelines (GNR 544 Activity 9, 12 & 37 and GNR 545 Activity 10);
- Disturbance of watercourses (pans and drainage lines) (GNR 544 Activity 11 and 18); and

- Construction of facilities that may result in the generation or release of emissions or pollution (pollution control dams) (GNR 544 Activity 28 and GNR 545 Activity 5).

The necessary application forms were submitted to DENC in October 2013 and have been accepted by the department (Please refer to reference numbers above). An EIA process will be undertaken in support of the application to determine the environmental and social impact of the abovementioned activities.

### **National Water Act (Act No 36 of 1998) (NWA)**

A new application and/or an amendment of the existing integrated water use licence (IWUL) will be submitted in consultation with and to the Department of Water Affairs (DWA); for potential Section 21 water uses to be triggered. These water uses to be triggered may include the following:

- Additional dewatering requirements to ensure water levels are dropped below pit excavations to ensure safe continuation of work.
- Impeding or diverting the flow of water in a watercourse; for additional stormwater diversion infrastructure etc.
- Aquifer recharging by surplus water obtained from pit dewatering activities.
- Disposing of waste in a manner which may detrimentally impact on a water resource; additional waste rock dumps, upgrading sewage treatment plan, expansion of tailings storage facility etc. may be required.

The exact section 21 water uses to be triggered by the KolEx Project will be provided once more detail about the project has been quantified. An updated integrated water and waste management plan (IWWMP) will also be submitted in support of the required applications.

### **Minerals and Petroleum Resources Development Act, (Act No 28 of 2008) (MPRDA)**

The current approved EMP for the Kolomela Mine (DMR Reference: MC 30/5/3/2/1/069EM) does not cover the proposed new activities to be undertaken as part of the KolEx Project and therefore an amendment to the existing EMP is required.

Section 102 of the MPRDA states; that an EMP cannot be amended or varied without obtaining written consent from the Minister first. A letter of intent to

amend the EMPR will be submitted to the Northern Cape Department of Mineral Resources (DMR).

EMP amendment will be submitted to the DMR to communicate the environmental impacts of the new activities to be undertaken as part of this project.

### **Other legislative requirements**

Various other authorisations, permits and/or licences may be required, the details of which will be confirmed as the project planning continues:

- **National Environmental Management: Waste Act (No 59 of 2008);**
- **National Environmental Management: Air Quality Act (No 39 of 2004);**
- **National Environmental Management: Biodiversity 2004 (Act 10 of 2004);**
- **Northern Cape Nature Conservation Act, 2009 (No 9 of 2009);**
- **National Forests Act, 1998 (Act No 84 of 1998);**
- **National Heritage Resources Act, 1999 (Act No. 25 of 1999);**
- **Northern Cape Planning and Development Act, 1998 (No 7 of 1998).**

## **APPLICATION PROCESS**

An integrated EIA process, taking cognisance of the requirements of the NEMA, the MPRDA, and NWA will be undertaken complemented by a combined public participation process (PPP).

An EIA is a study that is undertaken to determine the effect that a planned operation will have on the environment and surrounding communities. Once the impact is known, mitigation measures can be developed. The EIA process consists of a scoping and impact assessment phase.

### **Scoping**

Scoping involves the identification of environmental issues and concerns. Public input is a key component of the scoping phase of the assessment. During the scoping process the plan of study for the EIA is determined with the terms of reference for the different environmental aspects to be investigated.

### **Environmental Impact Assessment (EIA)**

This involves the review of available projects and environmental information to identify the potential

environmental impact and to assess the level of significance thereof. Specialists will be involved to provide expert opinion on the above, incorporating computer modelling where necessary and feasible. This assessment will include specialist studies to assist in predicting the impact on air quality, groundwater, surface water, ecology, traffic, heritage resources and the socio-economic environment.

The findings of the impact assessment and the proposed measures identified to mitigate any negative effects will be documented in an Environmental Impact Report. The findings will be presented and discussed with the public and the draft and final reports will be made available for public comment.

### **Environmental Management Programme (EMP)**

EMP will be developed aimed at addressing identified mining impacts and developing mitigation measures to reduce environmental risks to acceptable levels. Recommendations of the specialists are used to assist in developing the EMP.

### **Integrated Water and Waste Management Plan (IWWMP).**

The updating of the existing IWWMP document will seek to assimilate existing and new specialist studies, environmental management programmes, conditions of the water use licences and current operational management procedures to provide coherent structure for the identification and management of waste and water at Kolomela Mine, including the KolEx Project.

The IWWMP provides an overview of the operations undertaken at Kolomela Mine with special attention to waste and water related activities;

## APPLICATION PROCESS CONTINUED

- Provides a description of the current operational and baseline ecological conditions to be used as a base to measure impacts against;
- Provides a risk assessment for all activities that have waste and water related impacts;
- Details an integrated environmental management plan which includes specific measures taken to manage the risks identified;
- Provides an overview of the monitoring systems used and/or to be used to record activities and their impacts, to detect operational deficiencies and take corrective action; and
- Defines operational management measures required to implement, maintain and communicate this documented system and identifies knowledge gaps.

The updated IWWMP will serve as a technical report to the new and/or amendment IWUL in elaborating the specific water uses and their impacts on the receiving environment.

## Agtergrondinligtings- dokument

### **OMGEWINGSIMPAK-BEPALING PROSES VIR DIE KOLAMELA UITBREIDINGS PROJEK OP DIE KOLOMELA MYN, NABY POSTMASBURG, NOORD KAAP PROVINSIE.**

**Desember 2013**

Die Kolomela-myn is 'n oopgroef mynbou operasie in die Noord-Kaap wat 9 miljoen ton ystererts per jaar uitvoer. Die myn is ongeveer 12 kilometer suid-wes van Postmasburg geleë. Die Kolomela Uitbreidings Projek behels die uitbreiding van die huidige Kolomela Myn operasies om die totale produksie van die myn te verhoog met ongeveer 3 miljoen ton per annum.

Synergistics Environmental Services (Edms) Bpk is aangestel deur Sishen Iron Ore Company (Edms) Bpk as onafhanklike omgewings-konsultante wat verantwoordelik is om die Omgewingsimpak-bepaling(OIB) uit te voer, sowel as al die aansoeke in te dien wat volgens die Suid Afrikaanse Omgewingswet verpligtend is rakende die projek.

#### **Doel van die dokument**

Hierdie Agtergrondinligtings-dokument (AID) verskaf aan belanghebbende en geaffekteerde partye (B&GP) inligting oor die voorgestelde projek, nodige implikasies op die omgewing, sowel as die omgewingsimpak-bepaling proses wat onderneem word vir die Kolomela Uitbreidings Projek.

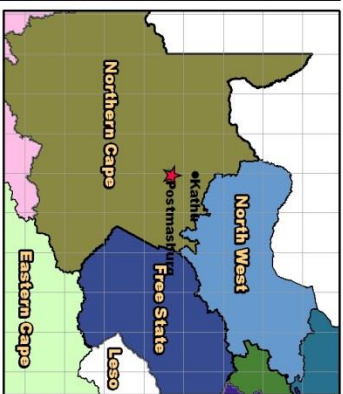

Hierdie dokument vorm deel van die vereiste openbare deelname proses aan die projekte en dien om kommentaar, vrae en reaksies rakende die voorgestelde projek in te samel. Aanvanklike kwessies sal tydens die beplanning oorweeg word as deel van die omgewingsimpak-bepaling (OIB) proses.

## BESKRYWING VAN PROJEC

Die Sishen Iron Ore Company (Edms) Bpk (SIOC), deel van die Kumba Iron Ore Limited (Kumba), besit en bedryf die Kolomela-myn wat ongeveer 12 km suid-wes van Postmasburg en 80 km suid van die Sishen-myn geleë is in die Noord Kaap Provinsie.

Die Minister van Minerale Hulpbronne het 'n mynreg vir ystererts op 5 Mei 2008 uitgereik aan SIOC vir die ontginning van ystererts op die plase Ploegfontein 487, Leeuwfontein 488, Strydfontein 614, Klipbankfontein 489, Gedeelte 1, 2, 3, en die restant van Kapsteviel 541, Wolhaarkop 485, Welgevonden 476 en Welgevonden 486.

SIOC is ook die eienaar van die oppervlak regte van hierdie eiendomme. Die Kolomela mynbou reg {(NC) 069 MR}, is geldig tot 17 September 2038, tensy dit gekanselleer of opgeskort word.

Die Kolomela-myn is 'n oopgroef mynbou-operasie gemik op die ontginning van ongeveer 9 miljoen ton ystererts per jaar. Huidige mynbou bedrywighede behels ontginning vanuit drie putte op die plase Leeuwfontein 488, Strydfontein 614, res van Kapsteviel 489 en Gedeelte 1, 2, 3, en die res van Kapsteviel 541.

Bestaande verwerking fasiliteite behels 'n "direct shipping ore" (DSO) operasie waar erts eers gebreek en gegraadeer word. Die ystererts word dan op hope van verskillende grade gestoor vir die vervoer op die spoorlyn na Saldanha vir uitvoer doeleindes.

Die Kolomela Uitbreidings projek is deel van 'n bestaande projek uitbreiding van die huidige Kolomela Myn operasies om die totale produksie van die myn te verhoog. Die projek is tans in pre-haalbaarheid stadium en verskeie opsies word nog oorweeg. Die gedetailleerde projek beskrywing sal verskaf word in die omvangs-bepalings verslag vir voorlegging Januarie 2013.

Die omgewingsimpak-bepaling (OIB) sal hoofsaaklik ter ondersteuning van die volgende aansoeke wees:

- **Wysiging van die bestaande Omgewingsbestuur program (EMPr) verslag (DMR Verw: NC 30/5/3/2/1/069EM)** in terme van **Artikel 102** van die Minerale en Petroleum hulpbronontwikkeling Wet No 28 van 2002;

**watergebruikslisensie (Nr: 25051648)** in terme van **Artikel 21** van die Nasionale Waterwet No 36 van 1998 (NWA);

- Omgewingsmagtiging in terme van regulasies (**GN 544; Aktiwiteite 9,11,12,18,22, 23,28,37,42&53; GN 545 Aktiwiteite 3,5&15** uitgevaardig kragtens Nasionale Omgewingsbestuur (No 107 van 1998) (DENC) **No: NC/EIA/15/ZFM/TSA/POS3/2013**).

### Mynbou vereistes

Die uitbreidings projek sal vereis dat bykomende infrastruktuur benodig word om die totale produksie van die myn te ondersteun. Op hierdie stadium word daar nog verskeie opsies oorweeg, insluitend die versnelde ontginning van huidige kuipe en die potensiele haalbaarheid van die ontginning van bykomende gate. Meer inligting hieroor sal voorsien word in die oorspronklike Omvangbepalings-verslag.

### Installasie vereistes

Erts word tans gemyn uit die kuipe na 'n primêre ertsbreker toe. Droë DSO materiaal word vergruis en gesorteer deur 'n enkele breker-trein (klipmeul) met drie stadiums van vergruising (primêre, sekondêre en tersiêre) om die vereiste produk spesifikasies te produseer. Sodra die breek van die erts voltooi is, word dit tydelik op die produksie voorraad-bed gestoor. Hierna word dit op die spoor gelaai en vervoer na Saldhana Baai.

Twee tipes materiaal word oorweeg vir die behandeling:

1. Hoë graad (DSO) erts;

Die huidige Kolomela plant is aanvanklik ontwerp om 9 miljoen ton ystererts per jaar te verwerk, dus, sal die verwerkings kapasiteit moet verhoog om voorsiening te maak vir 'n algehele toename in die produksie van die myn.

Op hierdie stadium word verskeie opsies vir instellasiemoontlikhede steeds oorweeg en meer inligting, ten opsigte hiervan sal in die konsep Omvangbepalings-verslag genoem word.

2. Normale graad erts (materiaal wat verwerking benodig).

Die konstruksie van permanente en / of tydelike bykomende instellasies is ook nog onder oorweging

wat Kolamela in staat sal stel om laer graad erts te verwerk. Hierdie erts sal dan gemeng word met produk erts om vereiste produk spesifikasie te bereik. Meer inligting ten opsigte hiervan sal in die konsep Omvangbepalings-verslag genoem word.

### **Ondersteunende infrastruktuur vereistes**

Daar word verwag dat bykomende ondersteunende infrastruktuur gevestig sal moet word op die Kolemela Myn. Op die oomblik is die infrastrukturele vereistes nie akkuraat gedefinieer nie, maar dit sal waarskynlik, waterbestuur infrastruktuur (besoedeling beheer damme en watervoorsieningsdamme, bykomende kantoor vereistes, addisionele brandstof stoor vereistes, addisionele kleedkamer fasiliteite, addisionele werksinkels met noodhulp fasiliteite, 'n riool behandeling fasiliteit, 'n laboratorium, en behuising behels.

## **OMGEWINGSREGSPROESSE**

Die Uitbreidings Projek sal verskeie omgewings aspek goedkeurings benodig voor die konstruksie of operasionele aktiwiteite met betrekking tot die uitbreiding projek mag begin. Hieronder is die lys van die toepaslike wetgewing en die belangrikste aansoeke vir die projek.

### **Nasionale Omgewingsbestuur (No 107 van 1998) (NEMA)**

Omgewingsimpak bestuur regulasies (OIB-regulasies) is afgekondig in die Goewermentskennisgewings 543 tot 546 in terme van die Wet op Nasionale Omgewingsbestuur (No 107 van 1998), soos gewysig. Aktiwiteite wat in die OIB-regulasies gelys word, vereis magtiging van die Noord Kaapse Departement van Omgewing en Natuurbewaring (DENC) voordat daarmee begin mag word.

Regulasies is gepubliseer (Goewermentskennisgewings R543 tot R546) in terme van die Nasionale Omgewingsbestuur (No 107 van 1998). Aktiwiteite gelys in die OIA regulasies vereis dat magtiging van die DENC eers ontvang moet word voor aktiwiteite mag begin.

Die volgende gelyste aktiwiteite sal waarskynlik deel wees van die uitbreidings projek:

- verwydering van plantegroei om toe te laat dat mynbou-aktiwiteite kan plaasvind (GN 545 Aktiwiteit 15 en GN 544 Aktiwiteit 23);

- konstruksie van die afstand- en diens paaie by die myn operasie (GN 544 Aktiwiteit 22);
- konstruksie van fasiliteite vir die berging van gevaarlike materiaal dws brandstof en gevaarlike goedere (GN 544 Aktiwiteite 42; GN 545 Aktiwiteit 3);
- konstruksie van waterberging fasiliteite en verwante infrastruktuur dws opgaardamme en pypleidings (GN 544 Aktiwiteite 9, 12 & 37);
- verskuiwing van waterweë (panne en dreinerings lyne) (GN 544 Aktiwiteite 11 en 18); en
- konstruksie van fasiliteite wat kan lei tot die opwekking of vrystelling van emissies of besoedeling (besoedelings-beheer damme) (GN 544 Aktiwiteit 28 en GN 545 Aktiwiteit 5).
- Potensiële Uitbreiding van bestaande spoorweg-infrastruktuur binne die Kolomela Myn (GN 544 Aktiwiteit).

Die nodige aansoekvorms is ingedien aan DENC in November 2013 en is daarvolgens deur die departement aanvaar (Verwys asseblief na toepaslike verwysingsnommers). Die OIA proses sal onderneem word ter ondersteuning van die aansoek om die omgewings- en sosiale impak van die bogenoemde aktiwiteite te bepaal.

### **Nasionale Waterwet (Nr 36 van 1998) (NWA)**

'n Nuwe aansoek en/of In wysiging sal ingedien word vir 'n watergebruik lisensie (WUL) in konsultasie met die Departement van Waterwese (DWA); vir potensiële Artikel 21 water gebruiks aktiwiteite. Hierdie voorgestelde water gebruike mag dalk die volgende insluit:

- Addisionele ontwatering vereistes om te verseker dat water vlakke val tot onder put opgrawings sodat veilige voortsetting van die werk bereik kan word.
- Belemmering of wegkeer van die vloei van water in 'n waterloop vir addisionele stormwater afleiding infrastruktuur ens.
- Waterdraer herlading deur surplus water wat uit put-ontwaterings aktiwiteite bekom is.
- Ontslae raak van afval wat op 'n wyse weggedoen word wat 'n nadelige invloed op 'n waterhulpbron kan hê; addisionele afval, mynhoop, die opgradering van 'n riool behandelings- plan, die uitbreiding van uitskot stoor fasiliteite ens. mag moontlik vereis word.

## OMGEWINGSMAGTIGING PROSES

Die presiese Artikel 21 water gebruik regulasies wat geaktiveer kan word deur die uitbreiding projek sal in meer spesifieke terme bespreek word wanneer meer inligting oor die projek beskikbaar is. 'n Geïntegreerde water en afvalbestuur plan sal ook voorgelê word ter ondersteuning van die vereiste aansoeke.

### **Minerale en Petroleum Hulpbronne Ontwikkelings Wet, 2002 (Nr. 28 van 2002) (MPRDA)**

Die bestaande Omgewingsbestuur Program verslag vir die Kolamela Myn (DMR Verw: MC 30/5/3/2/1/069EM) dek nie die voorgestelde nuwe aktiwiteite wat onderneem moet word as deel van die Kolomela uitbreidings Projek nie en benodig dus 'n wysiging aan die bestaande EMPr.

Artikel 102 van die MPRDA meld dat 'n EMPr nie mag verander of verskil van die oorspronklike sonder skriftelike toestemming van die Minister nie. 'n Brief van voorneme om die EMPr te wysig sal na die Noord-Kaapse Departement van Minerale Hulpbronne (DMR) voorgelê word.

EMPr wysiging sal voorgelê word aan die DMR om die omgewings impak van die nuwe aktiwiteite as deel van die projek se ondernemings te kommunikeer.

### **Ander wetlike vereistes**

Verskeie ander magtigings, permitte en / of lisensies sal moontlik nodig wees, toepaslike inligting sal bevestig word as die projek beplanning voort gaan:

- **Nasionale Omgewingsbestuur Afval Wet 2008 (Nr 59 van 2008);**
- **Nasionale Omgewingsbestuur Lug gehalte wet 2004 (Nr 39 van 2004);**
- **Nasionale Omgewingsbestuur Biodiversiteit 2004 (Nr 10 van 2004);**
- **Noord-Kaap Wet op Natuurbewaring, 2009 (Nr 9 van 2009);**
- **Nasionale Bosbou Wet, 1998 (Nr 84 van 1998);**
- **Nasionale Erfenishulpbronne wet, (Nr 25 van 1999);**
- **Noord-Kaap Beplanning en Ontwikkeling Wet, 1998 (Nr 7 van 1998).**

'n Geïntegreerde OIB-proses, met inagneming van die vereistes van die NEMA, die MPRDA, en NWA sal onderneem word, aangevul deur 'n gekombineerde gesamentlike proses van openbare deelname.

Die OIB is 'n studie wat onderneem word om die impak van 'n beplande operasie te bepaal in terme van die omgewing en omliggende gemeenskappe. Sodra die impak bepaal is, kan versagtende maatreëls ontwikkel word. Die OIB proses sluit 'n bestekopname en impakstudie fase in.

### **Bestekopname**

Hierdie proses sluit die identifikasie van belangrike omgewingskwessies en kwellings in. Openbare insette is 'n belangrike komponent van die bestekopname fase van die projek. Tydens die bestekopname proses, om die plan van studie vir die OIB te bepaal, word as terme van verwysing die verskillende omgewings aspekte wat ondersoek moet word gebruik as eerste fase.

### **Omgewingsimpak-bepaling (OIB)**

Hierdie behels die hersiening van die beskikbare projekte en inligting oor die omgewing om die moontlike impak op die omgewing te identifiseer, asook om die vlak van beduidendheid van hierdie impak te bepaal. Spesialiste sal betrokke wees om kundige advies te gee oor die bogenoemde, waarin rekenaarmodellering onderneem sal word waar nodig en haalbaar. Hierdie assessering sal spesialis studies bestaan in die voorspelling van die impak op die kwaliteit van die lug, grondwater, oppervlakwater, ekologie, verkeer, erfenis hulpbronne en die sosio-ekonomiese omgewing.

Die bevindinge van die impakstudie en die voorgestelde maatreëls wat geïdentifiseer is om enige negatiewe uitwerking daarvan te beperk, sal gedokumenteer word in 'n Omgewingsimpakverslag. Die bevindinge sal aangebied word aan, en bespreek word met die publiek en die konsep en finale verslae sal beskikbaar gestel word vir openbare kommentaar.

### **Omgewingsbestuur Programme (EMPr)**

EMPr sal ontwikkel met die doel om identifisering van mynbou-impakte, ontwikkelings- en versagtende maatreëls in te stel en dus die omgewing risiko's te verminder tot aanvaarbare vlakke. Aanbevelings van die spesialiste sal gebruik word as deel van die ontwikkeling van die EMPr.

## **Geïntegreerde Water en Afvalbestuur Plan (IWWMP)**

Die opdatering van die bestaande IWWMP dokument sal poog om die volgende te voorsien: bestaande en nuwe spesialis studies, omgewingsbestuur programme, toestande van die water gebruik lisensie en huidige operasionele bestuur prosedures om sodoende 'n samehangende struktuur te verskaf vir die identifisering en bestuur van afval en water by Kolomela-myn en die uitbreidings projek.

Die IWWMP bied oorsig oor die operasies wat onderneem word by Kolomela-myn met spesiale aandag aan die afval en water-verwante aktiwiteite. Spesialiste sal aangestel word om:

- 'n beskrywing te voorsien van die huidige operasionele en basislyn ekologiese toestande wat as 'n basis gebruik sal word om impak teen te meet;
- 'n risiko assessering aan te bied vir alle aktiwiteite rakende afval en water verwante impakte;
- 'n gedetailleerde en geïntegreerde omgewingsbestuur plan te verskaf wat spesifieke maatreëls insluit met die doel om die geïdentifiseerde risiko's te bestuur;
- om 'n oorsig te gee van die monitering sisteem wat in gebruik is, of gebruik sal word, om die impak te moniteer, en ook om moontlike tekortkominge van hierdie sisteem uit te lig en te korrigeer
- operasionele bestuurs maatreëls benodig vir implementering te definieer, handhawing en kommunikasie van hierdie gedokumenteerde stelsel, sowel as die identifisering van gapings in kennis uit te wys.

Die opgedateerde IWWMP sal dien as 'n tegniese verslag aan die nuwe en / of gewysigde IWUL vir die uitwerking van die spesifieke gebruike van water en die impak daarvan op die omgewing.

## OMGEWINGSMAGTIGING PROSES VERVOLG

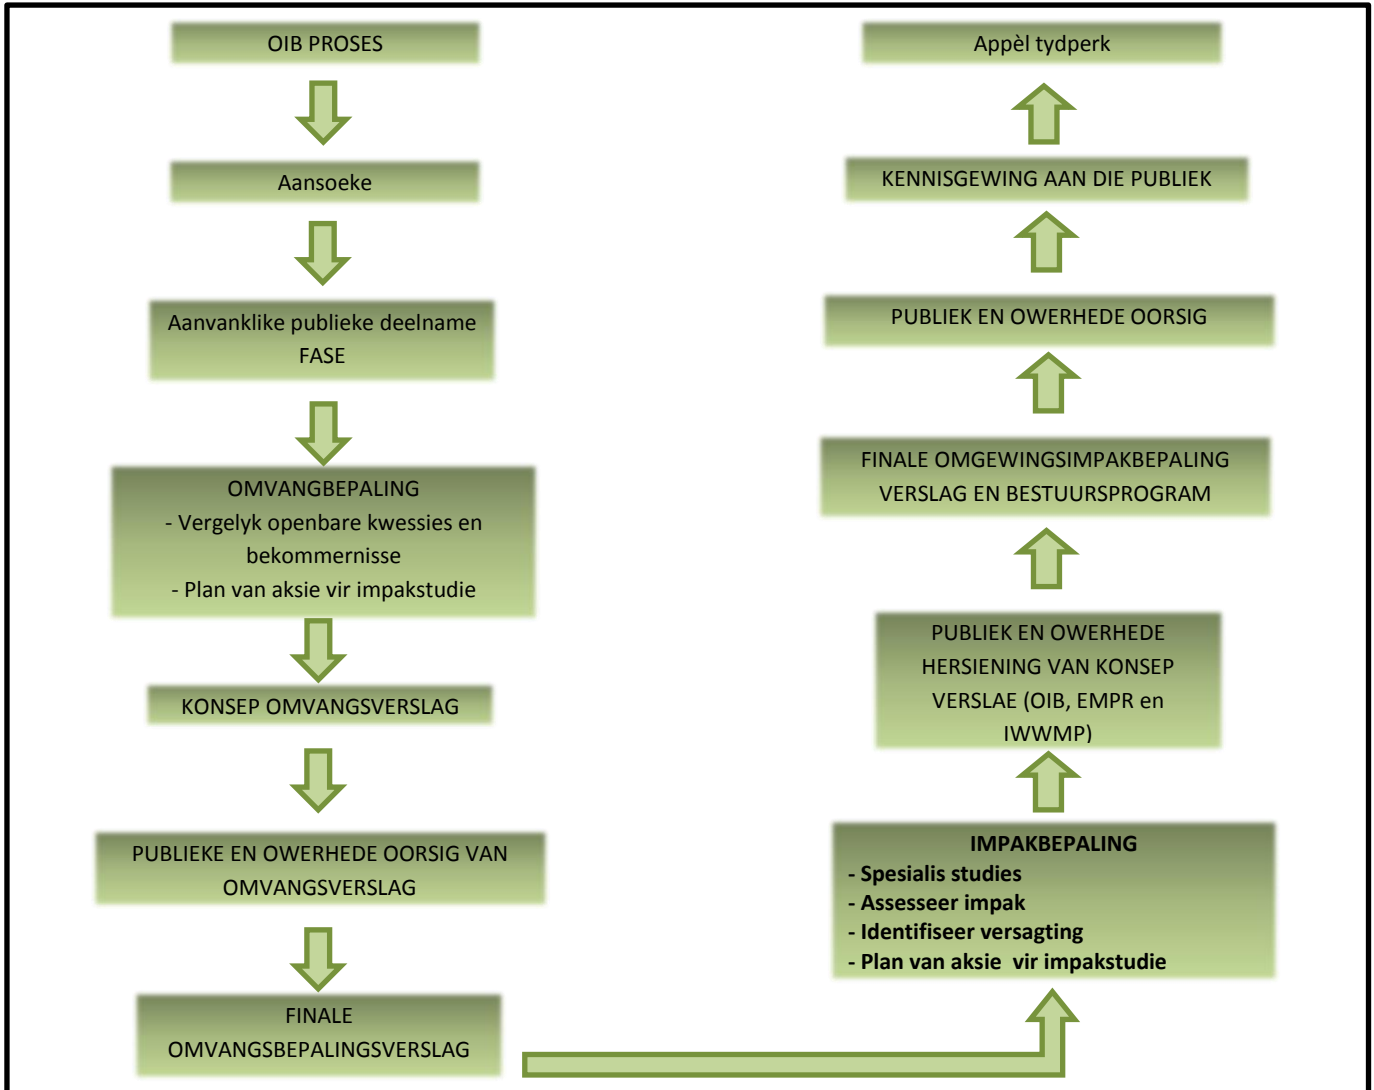

Figure 1: OIB Proses vir die Kolomela uitbreiding projek.

DATE: 2015-04-02

**ATTENTION: INTERESTED & AFFECTED PARTIES**

Dear Sir/ Ma'am

**EXPANSION OF KOLOMELA MINE**

**ENVIRONMENTAL IMPACT ASSESSMENT: NOTIFICATION OF AMENDED LAYOUT, APPLICATION IN TERMS OF THE NEW EIA REGULATIONS (2014) UNDER THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT AND APPLICATION OF IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT**

**1. INTRODUCTION**

Sishen Iron Ore Company (Pty) Ltd, part of Kumba Iron Limited is proposing the amendment of mining operations at Kolomela Mine, 12.5 km south west of Postmasburg in the Northern Cape Province.

The amendment includes expansion of the existing of waste rock dumps, the mining of new pits on the farms Ploegfontein and Kapstevél and the inclusion of Dense Media Separation (DMS) processing as well as additional workshops. This will allow for an increase in production from 9 to 16 million tonnes per annum (Mtpa). A new explosives magazine, haul roads and sewage treatment works will also be constructed.

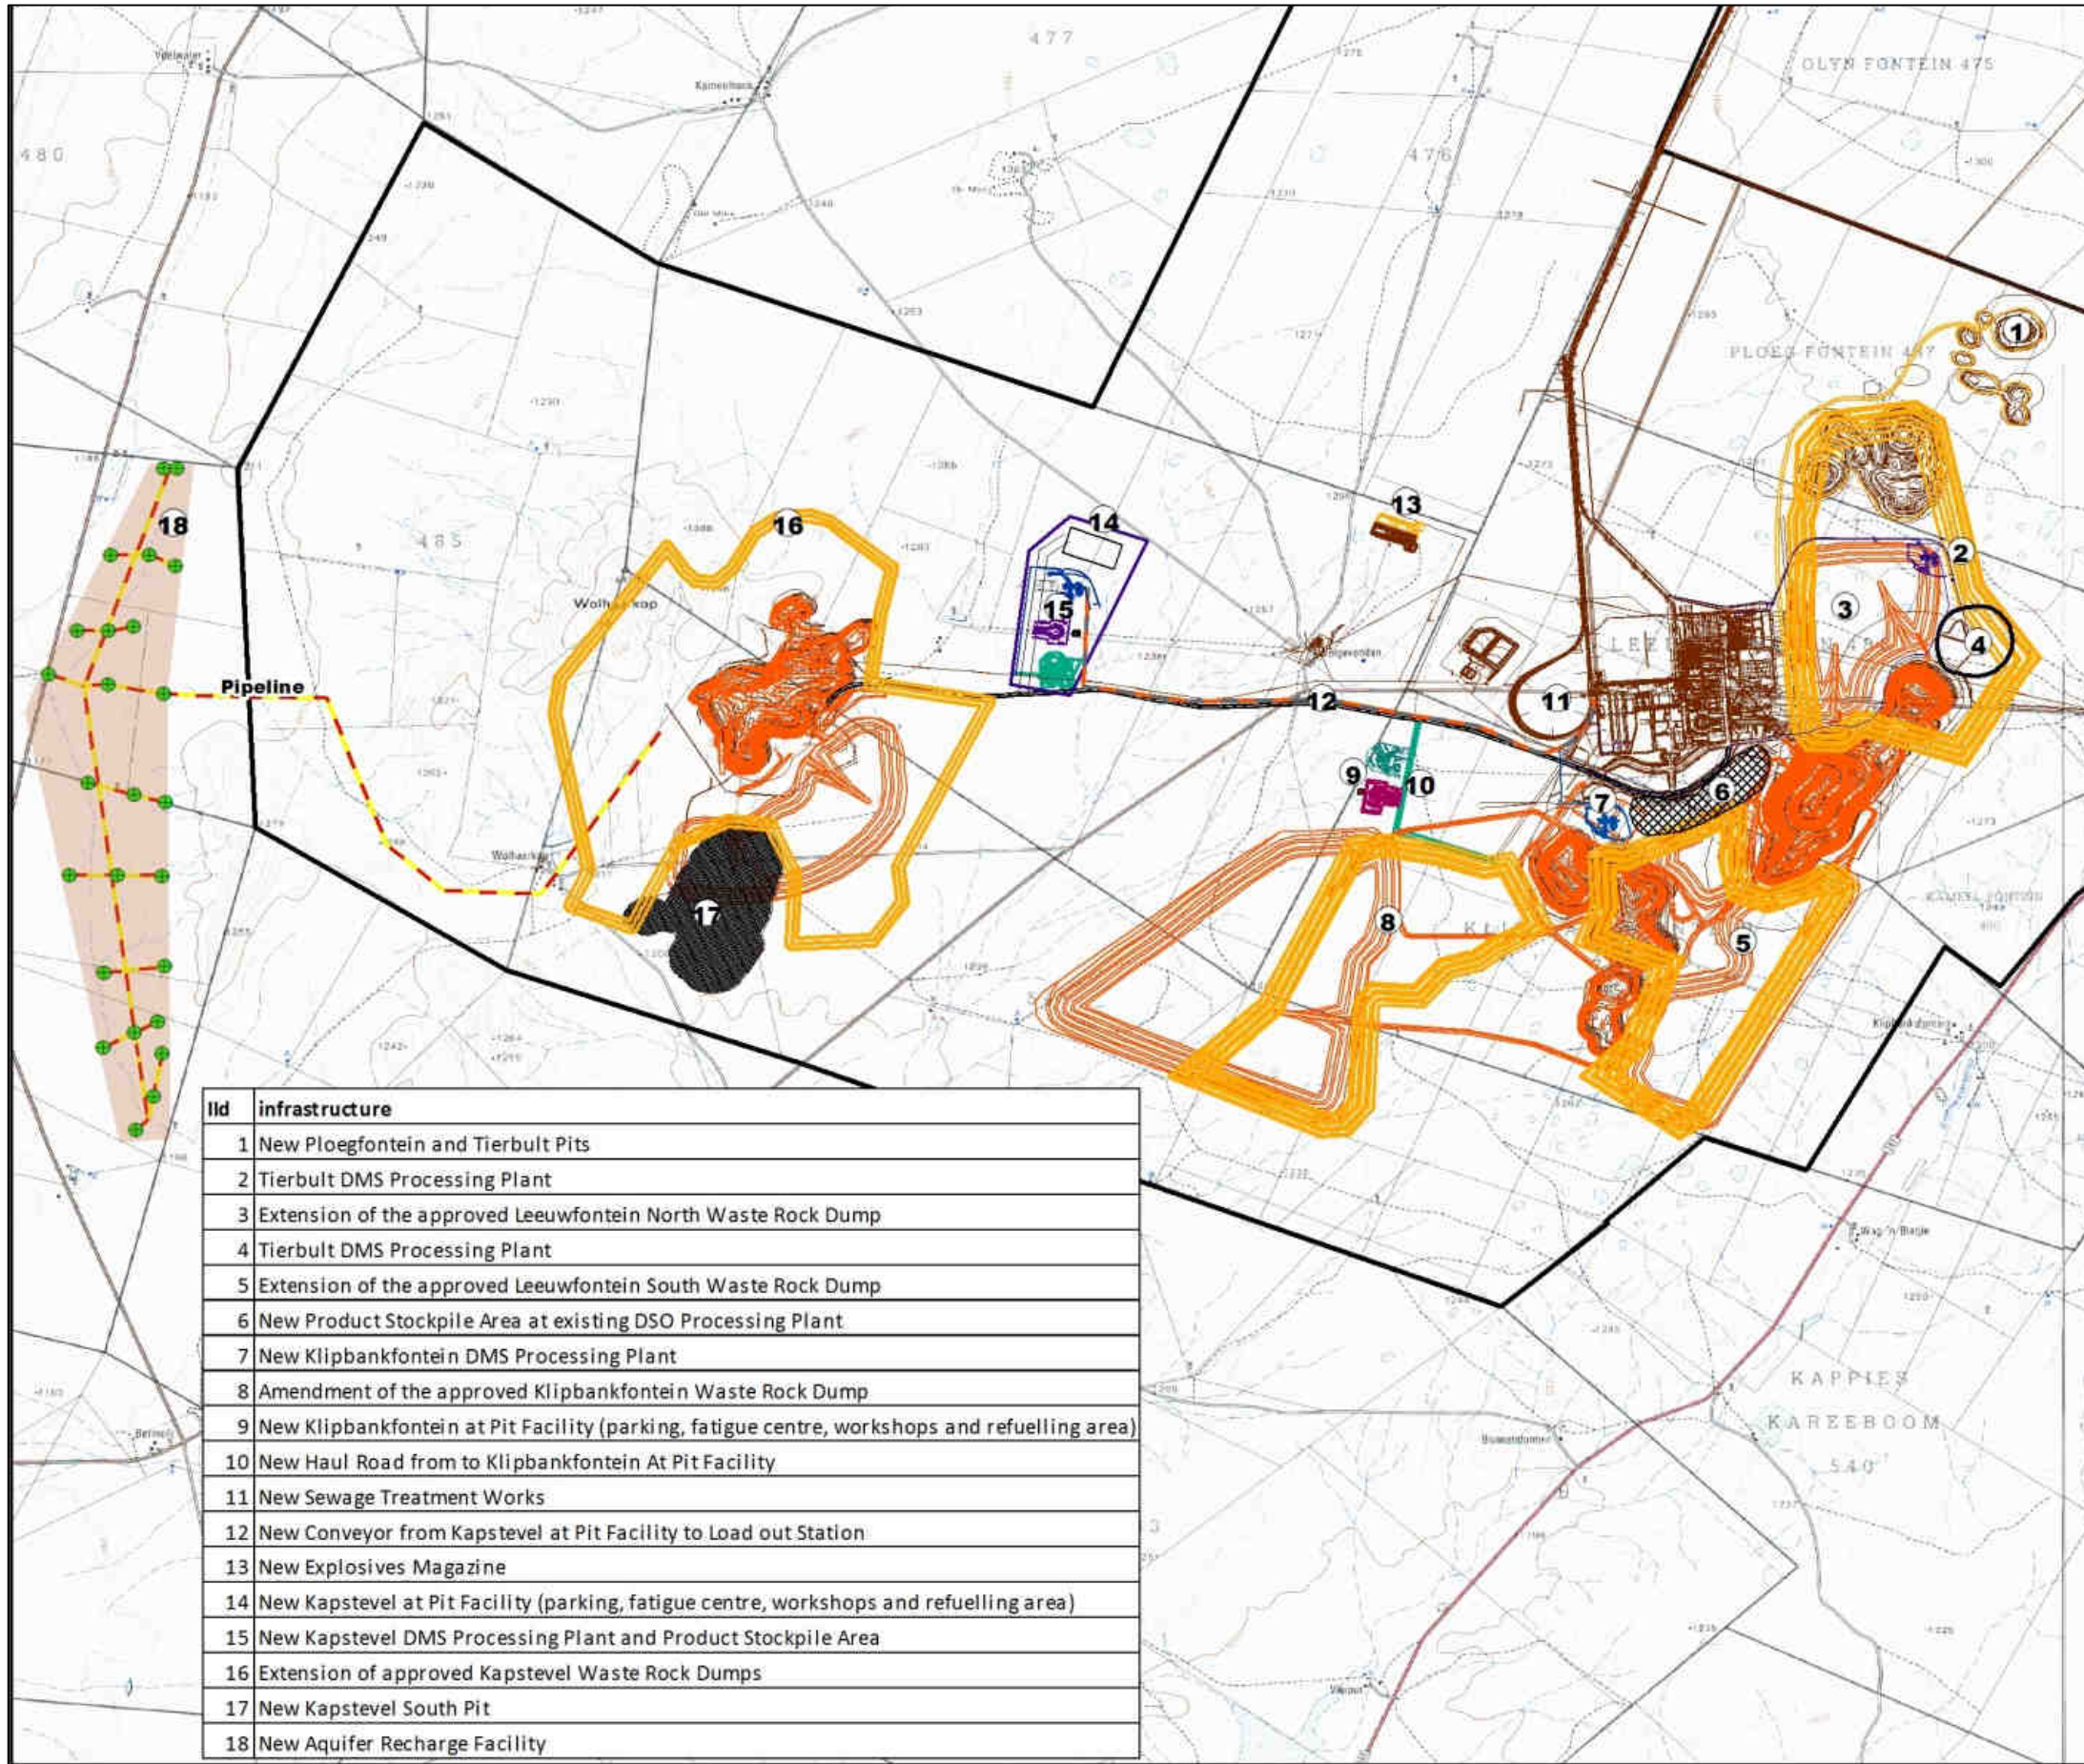

Public participation for the expansion of Kolomela Mine commenced in November 2013. An Environmental Scoping Report was completed as part of the Environmental Impact Assessment (EIA) process in mid-2014. Comments on the reports were received from interested and affected parties (IAPs) and documented.

Subsequently, the details and layout of the proposed expansion activities have been finalised. In addition, the legislation governing the EIA process under the National Environmental Management Act has also changed, and mining waste is now also included under the definition of waste as defined in the National Environmental Management: Waste Management Act.

This letter serves to inform you of the:

- proposed layout and objectives of the expansion activities at Kolomela Mine;
- submission of a new application to the Department of Mineral Resources for authorisation of activities listed under the National Environmental Management Act, EIA Regulations (GN983, 984 and 985) of 2014;
- submission of an application for waste management activities as listed (GN921) under the National Environmental Management Waste Act.

Proposed Layout Plan for Kolomela Mine

## 2. PROJECT DESCRIPTION

The Kolomela Mine is currently planning to increase production from 9 to 16 Mtpa by 2018. This increase in production will involve:

- increasing production of iron ore from the existing pits and the inclusion of additional pits,
- increasing the processing capacity of the existing beneficiation plant (to 14 Mtpa); and
- inclusion of an additional DMS processing plant (1 to 2 Mtpa) to process lower grade ore to be sited at 3 different locations.

To support the increase in production, various additional infrastructure will also be required. The changes will be undertaken within the existing mining right area. In addition, Kolomela intends developing a second aquifer recharge project on a tributary of the Soutloop River, to the west of the mining right area on the farm Floradale (Floradale 230 and Floradale 484).

A breakdown of the additional activities that are required to facilitate the production increase and to be approved during the EIA process:

Activity	Infrastructure Requirement
New Pits	New Kapstevél South Pit
	New Ploegfontein Pits
	New Tierbult Pit
Expansion of Waste Rock Dumps (WRD)	Extension of the Kapstevél Waste Rock Dump
	Extension of Leeuwfontein North WRD
	Extension of Leeuwfontein South WRD
	Amendment of Klipbankfontein WRD
Services	Construction of a Haul Road to the New Ploegfontein Pits
	Construction of Support Facilities at Kapstevél and Klipbankfontein Pits that includes: <ul style="list-style-type: none"> <li>• Heavy Vehicle Parking,</li> <li>• Maintenance Workshops,</li> <li>• Refuelling Facilities, and</li> <li>• Operator Fatigue Centres</li> </ul>
	Expansion of the Existing Explosives Magazine
	A new Sewage Treatment Facility at the Rail Balloon
	A new product stockpile area at the current DSO Plant
	Construction of a Conveyor System from the Kapstevél DMS Plant to the Railway Load-Out Station
	Recharge of Underground Water Aquifer on the Farm Floradale <b>(outside the existing mining right area)</b>

Activity	Infrastructure Requirement
Processing Plants	A DMS, discard and product stockpiles that will operate at: <ul style="list-style-type: none"> <li>• The Kapstevél Pit,</li> <li>• The Tierbult Pit, and</li> <li>• The Klipbankfontein Pit.</li> </ul>

It should be noted that the inclusion of additional pit areas means that although the production will be increased, the life of mine will not be reduced and operations at Kolomela Mine will continue until 2040, beyond the previous life of mine plan that ended in 2036.

### 3. ANTICIPATED IMPACTS OF THE PROPOSED EXPANSION

The following impacts are anticipated for the activities associated with the expansion:

Activity	Aspect	Impacts/Risk
New Pits	Site clearance Vehicle movement Blasting Pit development Loss of land capability Sustained life of mine Employment	Biodiversity loss Noise Dust Increased emissions Change in drainage patterns Loss of wetland pans Change in landscape (views, aesthetics) Social and economic benefits
Expansion of Waste Rock Dumps	Site clearance Vehicle movement Blasting Pit development Loss of land capability Employment	Biodiversity loss Heritage loss Noise Dust Increased emissions Change in drainage patterns Loss of wetland pans Social and economic benefits Risk of groundwater contamination
Services	Site clearance Vehicle movement Waste production Storage and handling of hazardous chemicals (e.g. diesel, oil greases) Employment	Biodiversity loss Noise Dust Heritage loss Risk of soil contamination Risk of groundwater contamination

Activity	Aspect	Impacts/Risk
		Change in drainage patterns (aquifer recharge) Social and Economic benefits
Processing Plants	Site clearance Vehicle movement Materials handling Waste production Employment	Biodiversity loss Noise Dust Risk of soil contamination Risk of groundwater contamination Social and Economic benefits

#### 4. FURTHER WORK

The plan of study for the EIA process has been updated to provide for the proposed layout and revised production targets. The specialist studies initiated in 2014 are in the process of being updated to facilitate the proposed changes. As indicated in the Scoping Report (2014) the following specialist studies are being undertaken in order to inform the EIA:

- Traffic Impact Assessment (Jeffares & Green)
- Aquifer Recharge Feasibility (Groundwater Africa)
- Social Impact Assessment (G3 Business Solutions)
- Economic Impact Assessment (Demacon Market Studies)
- Heritage Impact Assessment (PGS Heritage)
- Noise Impact Assessment (Airshed Planning Professionals)
- Air Quality Impact Assessment (Airshed Planning Professionals)
- Ecological Impact Assessment (Omni Eko)
- Visual Impact Assessment (Synergistics)
- Wetland Impact Assessment (Scientific Aquatic Studies)

In addition to the above, a Wetland Pan Hydrological Assessment is also being undertaken by Jones & Wagener Consulting Civil Engineers (Pty) Ltd in order to determine the impact on the catchment of wetland pans and to inform layout planning.

The waste rock material is being assessed in accordance with regulations published under the National Environmental Management: Waste Act (GN635), to be undertaken by Jones & Wagener. This will serve to inform the risk to groundwater as a result of continuous disposal of mining waste at Kolomela Mine and to propose mitigation measures to address this.

The EIA Report is to be compiled based on the outcomes of the above specialist work and made available for public review and comment in May 2015.

## 5. PUBLIC PARTICIPATION PROCESS

**As an Interested and Affected Party we would like to afford you an opportunity to provide additional comment, given the revised application process, finalised layout and new production objectives for Kolomela Mine.** Note that comments already made in the consultation process undertaken to date are still valid and have been incorporated.

All additional issues and concerns must be submitted to Synergistics by the **30 April 2014** for inclusion and consideration during the compilation of the EIA report. Comments are to be submitted in writing to:

**Shelley Seton-Rogers**

Synergistics Environmental Services

Tel: 011 467 0945

Post: PO Box 1596, Cramerview, 2060, South Africa

## 6. CONCLUSION

Your input during the EIA process is valued and important to the operation of the Kolomela Mine. Should you have any further questions on the proposed expansion please do not hesitate to contact Synergistics.

Yours Faithfully

Dear Jannie

**SISHEN IRON ORE COMPANY (PTY) LTD**  
**Kolomela Expansion Project, Tsantsabane Local Municipality**

**LANDOWNER NOTIFICATION**

IN ACCORDANCE WITH SECTION 15 (1) OF EIA REGULATION 543 (18 JUNE 2010)

**1. INTRODUCTION AND PURPOSE**

The Kolomela Mine is an open pit mining operation in the Northern Cape Province. The mine is located approximately 12 kilometres south west from the town of Postmasburg. The Kolomela Expansion (KolEx) Project will comprise a brownfields expansion of the current Kolomela Mining operations to increase the overall production of the mine by approximately 3 million tonnes per annum.

Synergistics Environmental Services (Pty) Ltd has been appointed as independent environmental consultants responsible for undertaking the necessary work required to inform the authority decisions of the Department of Mineral Resources (DMR), Department of Water Affairs (DWA), and Northern Cape Department Environment and Nature Conservation (DENC).

A Scoping and Environmental Impact Assessment process will be undertaken in order to identify potential environmental and social impacts associated with the development as well as possible mitigation measures. The environmental impact assessment process will serve to support of the following applications:

- **Amendment to the existing Environmental Management Programme report (DMR Ref: NC 30/5/3/2/1/069EM) in terms of Section 102 of the Minerals and Petroleum Resources Development Act No 28 of 2002;**
- **Amendment to the existing integrated water use licence (DWA Licence Number: 25051648) in terms of Section 21 of National Water Act No 36 of 1998;**
- **Environmental Authorisation in terms of GNR 544; Activity 9,11,12,18,22,23,28,37&42; GNR 545 Activity 3,5&15.**

## 2. ACKNOWLEDGEMENT OF RECEIPT OF NOTICE

In accordance with Section 15 (1) of the Environmental Impact Assessment (EIA) Regulation 543 (18 June 2010), written notice is hereby given to you, the owner of the land that Kolomela intends to utilise for activities listed in terms of the EIA Regulations on Farm Floradale 230. The activities proposed for the farm Floradale, only include activities relating to the second phase of the aquifer recharging project and include:

+ Farm 484 

- Artificial recharge will involve pumping water under pressure into injection boreholes within the tributary of the Soutloop River to recharge the local aquifer on the farm Floradale (Located on the western boundary of the Kolomlea Mine). The scheme will most likely comprise of the following infrastructure:
  - Construction of a pump station at Kolomela Mine;
  - Drilling of injection boreholes within the tributary of the Soutloop River, ephemeral stream, on the farm Floradale.
  - Laying a pipeline from Kolomela Mine to the injection boreholes; and
  - The installation of injection infrastructure at each borehole (pipes, flow meters, air valves, etc.).

The development of the proposed recharge scheme will trigger activities 11 and 18, listed in GN 544 of the 2010 NEMA Regulations and therefore requires environmental authorisation. In addition, all aquifer recharge schemes require a water use license in terms of section 21 of the National Water Act (No 36 of 1998). Additional management measures would also need to be included into an amendment to the mines existing EMPr in terms of the MPRDA.

We kindly request that you acknowledge receipt of this notification by signing the form attached at the end of this notification. Acknowledgement of receipt of this notification does in no way give consent for any activities to take place on properties under your ownership or control, but simply serves as proof of that you have been notified of the proposed activities in terms of the environmental impact assessment process.

A copy of this letter and proof of receipt will be attached to the project application form that needs to be submitted to the Northern Cape Department of Environment and Nature Conservation (DENC) in order for the environmental impact assessment process to formally commence.

### **3. PUBLIC PARTICIPATION PROCESS**

Synergistics Environmental Services (Pty) Ltd will conduct a public participation process, as part of the Environmental Impact Assessment (EIA). An affected party will be automatically registered on the interested and affected party database and will receive correspondence circulated as part of the public participation process.

You are invited to participate in this process by submitting your questions, issues or concerns to:

Roelof Letter for Synergistics Environmental Services (Pty) Ltd

Tel: 011 326 4158

Fax: 011 326 4118

Email: rletter@slrconsulting.com

PO Box 68221, Bryanston, 2021

Yours faithfully

**Roelof Letter**  
Environmental Assessment Practitioner

**Subject:** RE: SO533\_KENNISGEWING VAN BISKIKBAARHEID VAN DIE KONSEP OMVANGBEPALINGSVERSLAG VIR DIE KOLOMELA MYN UITBREIDINGS PROJEK, POSTMASBURG  
**Attachments:** K0097-P-Z45000-IX-RPT-C0003-0001\_Kolomela\_Draft Scoping Report 2014 (Rev03) Public Review low res.pdf  
**Importance:** High

### Geagte Belanghebbende en Geaffekteerde Party

#### **KENNISGEWING VAN KONSEP OMVANGBEPALINGSVERSLAG VIR DIE KOLOMELA MYN UITBREIDINGSPROJEK, POSTMASBURG**

Die Sishen Iron Ore Company (Pty) Ltd (SIOC), deel van Kumba Iron Ore Limited (Kumba), besit en bedryf Kolomela-myn (voorheen bekend as die Sishen Suid Myn) geleë ongeveer 12 km suid oos van Postmasburg in die Noord-Kaap Provinsie. Die gebied binne die distrik van die ZF Mgcawu Distriksmunisipaliteit en Tsantsabane Plaaslike Munisipaliteit.

Die Konsep Omvangsbepalingverslag, deel van die omgewingsimpakstudie (EIA) vir die Kolomela Uitbreidingsprojek, is beskikbaar vir hersiening. Synergistics Environmental Services (Pty) Ltd (Synergistics) was verantwoordelik vir die voltooiing van die verslag. Die huidige en toekomstige vereistes by Kolomela-myn sal die volgende omgewings goedkeurings vereis as deel van die omgewingsimpakstudie:

- **Wysiging van die bestaande Omgewingsbestuur Program verslag (DMR Ref: NC 30/5/3/2/1/069EM)** in terme van **Artikel 102** van die Minerale en Petroleum hulpbron ontwikkeling Wet, 2002.
- **Wysiging van die bestaande geïntegreerde watergebruiks-lisensie (DWA Lisensie Nr: 25051648)** in terme van **Artikel 21** van die Nasionale Water Wet, 1998.
- **Omgewingsmagtiging in terme van regulasies (GN 544; Aktiwiteite 9,11,12,18,22,23,28,37,42&53; GN 545 Aktiwiteite 3,5&15 openbaar gemaak kragtens Nasionale Omgewingsbestuur Wet, 1998 (DENC Ref No: NC/EIA/15/ZFM//TSA/POS3/2013).**

**U word hiermee in kennis gestel in terme van Artikel 30 regulasie 28 (f) van die Regulasies oor Omgewingsimpakbepaling van die beskikbaarheid van die Konsep Omvangbepalingsverslag.**

Belanghebbende en Geaffekteerde Partye het **30 kalender** dae om **kommentaar** te lewer op die Konsep Omvangbepalingsverslag. Die verslag is beskikbaar vir hersiening van die **14 April tot die 19 Mei 2014**. 'n Afskrif van die verslag is ook beskikbaar gemaak by die Kolomela-myn hoofingang by sekuriteit en by die Tsantsabane Plaaslike Munisipaliteit (munisipale biblioteek). Sien aangehegte lae kwaliteit weergawe van die verslag. Jy kan ook 'n elektroniese kopie van die verslag op CD-ROM van Roelof Letter aanvrae (sien kontakbesonderhede hieronder). As U wil kommentaar lewer op die verslag moet U asseblief die kommentaar stuur na Synergistics **voor of op 19 Mei 2014**.

Dear Commenting Authority

### NOTIFICATION OF DRAFT SCOPING REPORT FOR THE KOLOMELA MINE EXPANSION PROJECT, POSTMASBURG

The Sishen Iron Ore Company (Pty) Ltd (SIOC), part of Kumba Iron Ore Limited (Kumba), owns and operates Kolomela Mine (previously called the Sishen South Mine) located approximately 12 km south east of Postmasburg in the Northern Cape Province. The area falls within the district of the ZF Mgcawu District Municipality and Tsantsabane Local Municipality.

The Draft Scoping Report as part of the Environmental Impact Assessment (EIA) for the Kolamela Expansion Projects available for review. Synergistics Environmental Services (Pty) Ltd (Synergistics) was responsible for completing the scoping report

The current and future requirements at Kolomela Mine will require the following main environmental approvals as part of the subject EIA:

- **Amendment to the existing Environmental Management Programme (DMR Ref: NC 30/5/3/2/1/069EM)** in terms of **Section 102** of the Minerals and Petroleum Resources Development Act No 28 of 2002;
- **Amendment to the existing Integrated Water Use Licence (IWUL) (Licence Number: 25051648)** in terms of **Section 21** of National Water Act No 36 of 1998;
- **Environmental Authorisation** in terms of **GNR 544**; Activity 9,11,12,18,22,23,28,37,42&53; **GNR 545** Activity 3,5,&15 (**DENC Ref No: NC/EIA/15/ZFM//TSA/POS3/2013**).

**You are hereby notified in terms of Section 30 regulation 28(f) of the Environmental Impact Assessment Regulations of the availability of the attached Draft Scoping Report DENC Ref No: NC/EIA/15/ZFM//TSA/POS3/2013).**

Commenting Authorities have **40 calendar days to comment** on the Draft Scoping Report. The reports is therefore available for review form the **14<sup>th</sup> April until 29 May 2014**. If you would like to comment on the reports please submit your comments to Synergistics on or before **29 May 2014**. A low resolution copy has been attached and CDs submitted to your offices.

**Subject:** SO533\_NOTIFICATION OF PUBLIC PARTICIPATION PROCESS FOR THE FOR THE KOLOMELA MINE EXPANSION PROJECT AT THE KOLOMELA MINE, POSTMASBURG

**Importance:** High

Dear Commenting Authority

**NOTIFICATION OF PUBLIC PARTICIPATION PROCESS FOR THE KOLOMELA MINE EXPANSION PROJECT AT THE KOLOMELA MINE, POSTMASBURG**

You have been identified as a potential interested and affected party (IAP) and are hereby given notice of the public participation process in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), Minerals and Petroleum Resource Developments Act, 2002 (Act No. 28 of 2002) (MPRDA) and the National Water Act (Act 36 of 1998) (NWA) of the new activities to be undertaken at the Kolomela Mine, which include the following:

- **Amendment to the existing Environmental Management Programme report (DMR Ref: NC 30/5/3/2/1/069EM) in terms of Section 102 of the MPRDA;**
- **Amendment to the existing integrated water use licence (DWA Licence Number: 25051648) in terms of Section 21 of NWA;**
- **Environmental Authorization in terms of GNR 544; Activity 9,11,12,18,22,23,28,37,42&53; GNR 545 Activity 3,5&15 promulgated under NEMA (DENC Ref No: NC/EIA/15/ZFM/TSA/POS3/2013).**

Please find attached Background Information Document (BID); which provides further details on the proposed projects.

Sishen Iron Ore Company (Pty) Ltd appointed Synergistics Environmental Services (Pty) Ltd (Synergistics) as the independent Environmental Assessment Practitioner responsible for the applications required under South African environmental legislation and to undertake the Environmental Impact Assessment (EIA) process.

**To receive further information on the project please complete the registration forms contained within the attached BID and return it to the undersigned before the 29<sup>th</sup> January 2014:**

Geagte Belanghebbende en Geaffekteerde Party

### **KENNISGEWING VAN OPENBARE DEELNAME PROSES VIR DIE KOLOMELA MYN UITBREIDINGS PROJEK OP DIE KOLOMELA MINE, POSTMASBURG**

Jy is geïdentifiseer as 'n moontlike belanghebbende en geaffekteerde party (B&GP) en word in kennis gestel van openbare deelname proses in terme van die Nasionale Omgewingsbestuur Wet, 1998 (Nr 107 van 1998) (NEMA), Minerale en Petroleum Hulpbronne Ontwikkelings Wet, 2002 (Nr. 28 van 2002) (MPRDA) en die Nasionale Water Wet, 1998 (Nr 36 of 1998) (NWA) van die volgende voorgestelde aktiwiteite by die Kolomela-myn, Postmasburg:

- **Wysiging van die bestaande Omgewingsbestuur Program verslag (DMR Ref: NC 30/5/3/2/1/069EM) in terme van Artikel 102 van die MPRDA.**
- **Wysiging van die bestaande geïntegreerde watergebruiks-lisensie (DWA Lisensie Nr: 25051648) in terme van Artikel 21 van die NWA**
- **Omgewingsmagtiging in terme van regulasies (GN 544; Aktiwiteite 9,11,12,18,22,23,28,37,42&53; GN 545 Aktiwiteite 3,5&15 openbaar gemaak kragtens NEMA (DENC Ref No: NC/EIA/15/ZFMI/TSA/POS3/2013).**

Vind asseblief aangeheg Agtergrondinligtingsdokument (AID), wat verdere besonderhede verskaf oor die voorgestelde projek.

Synergistics Environmental Services (Edms) Bpk is aangestel deur Sishen Iron Ore Company (Edms) Bpk as onafhanklike omgewings-konsultante wat verantwoordelik is om die Omgewingsimpak-bepaling(OIB) uit te voer,

sowel as al die aansoeke in te dien wat volgens die Suid Afrikaanse Omgewingswet verpligtend is rakende die projek.

**Om verdere inligting oor die projek te ontvang voltooi asseblief die registrasie vorm in die aangehegte AID en stuur terug aan die ondergetekende persoon voor die 29 Januarie 2014:**

Dear Interested and Affected Party

**NOTIFICATION OF PUBLIC PARTICIPATION PROCESS FOR THE PUBLIC PARTICIPATION  
PROCESS FOR THE KOLOMELA MINE EXPANSION PROJECT AT THE KOLOMELA MINE,  
POSTMASBURG**

You have been identified as a Interested and Affected Party (IAP) and are hereby given notice of the public participation process in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), Minerals and Petroleum Resource Developments Act, 2002 (Act No. 28 of 2002) (MPRDA) and the National Water Act (Act 36 of 1998) (NWA) of the new activities to be undertaken at the Kolomela Mine, which include the following:

- **Amendment to the existing Environmental Management Programme report (DMR Ref: NC 30/5/3/2/1/069EM) in terms of Section 102 of the MPRDA;**
- **Amendment to the existing integrated water use licence (DWA Licence Number: 25051648) in terms of Section 21 of NWA;**
- **Environmental Authorization in terms of GNR 544; Activity 9,11,12,18,22,23,28,37,42&53; GNR 545 Activity 3,5&15 promulgated under NEMA (DENC Ref No: NC/EIA/15/ZFM/TSA/POS3/2013).**

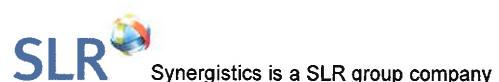

Please find attached Background Information Document (BID); which provides further details on the proposed projects.

Sishen Iron Ore Company (Pty) Ltd appointed Synergistics Environmental Services (Pty) Ltd (Synergistics) as the independent Environmental Assessment Practitioner responsible for the applications required under South African environmental legislation and to undertake the Environmental Impact Assessment (EIA) process.

**To receive further information on the project please complete the registration forms contained within the attached BID and return it to the undersigned before the 29<sup>th</sup> January 2014:**

Geagte Belanghebbende en Geaffekteerde Party

**KENNISGEWING VAN OPENBARE DEELNAME PROSES VIR DIE KOLOMELA MYN  
UITBREIDINGS PROJEK OP DIE KOLOMELA MINE,  
POSTMASBURG**

Jy is geïdentifiseer as 'n moontlike belanghebbende en geaffekteerde party (B&GP) en word in kennis gestel van openbare deelname proses in terme van die Nasionale Omgewingsbestuur Wet, 1998 (Nr 107 van 1998) (NEMA), Minerale en Petroleum Hulpbronne Ontwikkelings Wet, 2002 (Nr. 28 van 2002) (MPRDA) en die Nasionale Water Wet, 1998 (Nr 36 of 1998) (NWA) van die volgende voorgestelde aktiwiteite by die Kolomelamyn, Postmasburg:

- **Wysiging van die bestaande Omgewingsbestuur Program verslag (DMR Ref: NC 30/5/3/2/1/069EM) in terme van Artikel 102 van die MPRDA.**
- **Wysiging van die bestaande geïntegreerde watergebruiks-lisensie (DWA Lisensie Nr: 25051648) in terme van Artikel 21 van die NWA**
- **Omgewingsmagtiging in terme van regulasies (GN 544; Aktiwiteite 9,11,12,18,22,23,28,37,42&53; GN 545 Aktiwiteite 3,5&15 openbaar gemaak kragtens NEMA (DENC Ref No: NC/EIA/15/ZFM//TSA/POS3/2013).**

Vind asseblief aangeheg Agtergrondinligtingsdokument (AID), wat verdere besonderhede verskaf oor die voorgestelde projek.

Synergistics Environmental Services (Edms) Bpk is aangestel deur Sishen Iron Ore Company (Edms) Bpk as onafhanklike omgewings-konsultante wat verantwoordelik is om die Omgewingsimpak-bepaling(OIB) uit te voer, sowel as al die aansoeke in te dien wat volgens die Suid Afrikaanse Omgewingswet verpligtend is rakende die projek.

**Om verdere inligting oor die projek te ontvang voltooi asseblief die registrasie vorm in die aangehegte AID en stuur terug aan die ondergetekende persoon voor die 29 Januarie 2014:**
