## OMGEWINGSIMPAKEVALUERING (OIE) VIR DIE BEOOGDE ONTWIKKELING VAN DIE RONDEKOP WINDKRAGAAANLEG NABY SUTHERLAND, NOORD- EN WES-KAAPPROVINSIE

Ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA) soos gewysig, en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies) kragtens Staatskennisgewing R982, R983, R984 en R985 wat op 4 Desember 2014 afgekondig en op 7 April 2017 gewysig is, geskied kennis hiermee dat Rondekop Wind Farm (Edms.) Bpk. SiVEST SA (Edms.) Bpk. aangestel het as die onafhanklike Omgewingsevalueringpraktisyn (OEP) om die nodige Omgewingsimpakevaluering en Openbare Deelnameprosesse (ODP's) vir die onderstaande ontwikkeling te onderneem.

### PROJEKBESKRYWING

Ter ondersteuning van die behoefte om weg te beweeg van steenkool as ons hoofbron van elektrisiteit en om meer volhoubare en omgewingsvriendelike energiehulpbronne te kry, het Suid-Afrika 'n program vir die ontwikkeling van infrastruktuur van stapel gestuur wat deur verskeie staatsinisiatiewe ondersteun word. In antwoord op hierdie doel, beoog Rondekop Wind Farm (Edms.) Bpk. om die Rondekop Windkragaanleg (WEF) naby Sutherland in die Noord- en Wes-Kaapprovinsie te ontwikkel. Die oorhoofse doelwit van die projek is om elektrisiteit aan die hand van hernubare kragtegnologieë op te wek deur windkrag in te span en om dit by die nasionale kragnet in te voer.

Op hierdie stadium sal die beoogde Rondekop WEF na verwagting uit hoogstens 48 windturbines en gepaardgaande infrastruktuur met 'n totale opwekkingsvermoë van hoogstens 325 MW bestaan. Die uiteindelijke aantal turbines en uitleg van die WEF sal egter afhang van die uitkoms van die spesialisstudies wat tydens die OIE-proses onderneem word.

### PROJEKLIIGING

Die WEF-projekgebied is sowat 45 km suidwes van Sutherland geleë en strek oor die grens van die Noord- en Wes-Kaapprovinsie. Die beoogde aanleg is in die Witzenberg- en Karoo Hoogland Plaaslike Munisipaliteit geleë, wat onderskeidelik in die Kaapse Wynlande en Namakwa Distriksmunisipaliteit geleë is. Die projek sluit die volgende plase in:

Restant van Amandelboom No. 158	Restant van Roodeheuveld No. 170	Gedeelte 3 van Venters Kraal No. 166
Ashoek No. 224	Gedeelte 1 van Roodeheuveld No. 170	Gedeelte 1 van Venters Kraal No. 166
Restant van Bloem Fontein No. 192	Gedeelte 1 van Urias Gat No. 193	Restant van Wind Heuveld No. 190
Gedeelte 1 van Bloem Fontein No. 192	Gedeelte 2 van Urias Gat No. 193	Gedeelte 1 van Wind Heuveld No. 190
Gedeelte 1 van Lange Huis 174	Restant van Vinke Kuil 171	Restant van Zeekoegat No. 169
Restant van Hout Hoek No. 191	Restant van Venters Kraal No. 166	Restant van Plaas 220

**Om as 'n Belangstellende en/of Geaffekteerde Party (B&GP) te registreer en/of om bykomende inligting te bekom**, moet u asseblief u naam, kontakbesonderhede (telefoonnommer, pos- en e-posadres) en die belang wat u by die aansoek het aan SiVEST by die onderstaande besonderhede verstrek en die verwysing "Rondekop WEF" in u korrespondensie gebruik:

## ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED DEVELOPMENT OF THE RONDEKOP WIND ENERGY FACILITY NEAR SUTHERLAND, NORTHERN AND WESTERN CAPE PROVINCES

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as amended and the Environmental Impact Assessment (EIA) Regulations, under Government Notices No R982, R983, R984 and R985 promulgated on 4 December 2014 and amended on 07 April 2017, notice is hereby given that Rondekop Wind Farm (Pty) Ltd has appointed SiVEST SA (Pty) Ltd, as the independent Environmental Assessment Practitioner (EAP), to undertake the required Environmental Impact Assessment and Public Participation Processes (PPP) for the below-mentioned development.

### PROJECT DESCRIPTION

In support of the need to divert from coal as our main source of electricity and to find more sustainable and environmentally friendly energy resources, South Africa has embarked on an infrastructure growth programme supported by various government initiatives. In response to this goal; Rondekop Wind Farm (Pty) Ltd is proposing to develop the Rondekop Wind Energy Facility (WEF) near Sutherland in the Northern and Western Cape Provinces. The overall objective of the project is to generate electricity by means of renewable energy technologies capturing wind energy and to feed into the national grid.

At this stage it is anticipated that the proposed Rondekop WEF will comprise of up to 48 wind turbines and associated infrastructure with a total generation capacity of up to 325MW. The final number of turbines and layout of the WEF will, however, be dependent on the outcome of the specialist studies conducted during the EIA process.

### PROJECT LOCATION

The WEF project area is located approximately 45 km south-west of Sutherland and straddles the boundary of the Northern and Western Cape Provinces. The proposed facility is located in the Witzenberg and Karoo Hoogland Local Municipalities which fall within the Cape Winelands and Namakwa District Municipalities respectively. The project includes the following farms:

Remainder of Amandelboom No 158	Remainder of Roodeheuvel No 170	Portion 3 of Venters Kraal No 166
Ashoek No 224	Portion 1 of Roodeheuvel No 170	Portion 1 of Venters Kraal No 166
Remainder of Bloem Fontein No 192	Portion 1 of Urias Gat No 193	Remainder of Wind Heuvel No 190
Portion 1 of Bloem Fontein No 192	Portion 2 of Urias Gat No 193	Portion 1 of Wind Heuvel No 190
Portion 1 of Lange Huis 174	Remainder of Vinke Kuil 171	Remainder of Zeekoegat No 169
Remainder of Hout Hoek No 191	Remainder of Venters Kraal No 166	Remainder of Farm 220

**To register as an Interested and / or Affected Party (I&AP) and / or to obtain additional information** please submit your name, contact details (telephone number, postal address and email address) and the interest which you have in the application to SiVEST as per the details below and please reference the 'Rondekop WEF' in your correspondence:

Dear Interested and/or Affected Party,

**ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED 325MW RONDEKOP WIND ENERGY FACILITY BETWEEN MATJIESFONTEIN AND SUTHERLAND IN THE NORTHERN CAPE PROVINCE**

**INVITATION TO PARTICIPATE IN THE ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

In terms of the EIA Regulations and the National Environmental Management Act, 1998 (Act No. 107 of 1998), SiVEST SA (Pty) Ltd (hereafter referred to as SiVEST) has been appointed as the independent Environmental Assessment Practitioner (EAP) by Rondekop Wind Farm (Pty) Ltd (hereafter referred to as Rondekop Wind Farm) to conduct the Environmental Impact Assessment (EIA) process for the proposed development of the 325MW Rondekop Wind Energy Facility Between Matjiesfontein and Sutherland in the Northern Cape Province.

SiVEST would like to invite you, as a potential Interested and/or Affected Party (I&AP), to become actively involved in the EIA and Public Participation Process (PPP) for this proposed project. The aim of this process is as follows:

- To ensure that all the relevant environmental impacts are taken into consideration;
- To ensure public input; and
- Provide decision-makers with sufficient information to make an informed decision on the proposed activities.

Attached is the Background Information Document (BID), which contains information regarding the proposed project as well as the EIA and PPP, which is currently being undertaken.

We would like to thank you, in advance, for becoming part of the Public Participation Process and are looking forward to receiving your valuable comments relating to the proposed project.

**OMGEWINGSIMPAKEVALUERING (OIE) VIR DIE BEOOGDE 325 MW RONDEKOP WINDKRAGAAANLEG TUSSEN MATJIESFONTEIN EN SUTHERLAND IN DIE NOORD-KAAPROVINSIE**

**UITNODIGING OM DEEL TE NEEM AAN DIE OMGEWINGSIMPAKEVALUERINGSPROSES**

Ingevolge die OIE-regulasies en die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998), is SiVEST SA (Edms.) Bpk. (hierna SiVEST genoem) deur Rondekop Wind Farm (Edms.) Bpk. (hierna Rondekop Wind Farm genoem) aangestel as die onafhanklike Omgewingsevalueringpraktisyn (OEP) om die Omgewingsimpak-evalueringproses (OIE) vir die beoogde ontwikkeling van die 325 MW Rondekop Windkragaanleg tussen Matjiesfontein en Sutherland in die Noord-Kaapprovinsie te onderneem.

SiVEST nooi u, as 'n potensiele belangstellende en/of geaffekteerde party (B&GP), uit om aktief betrokke te raak by die OIE en Openbare Deelnameproses (ODP) vir hierdie beoogde projek.

Die doel van hierdie proses is om:

- toe te sien dat oorweging aan al die tersaaklike omgewingsimpakte geskenk word;
- openbare insette te verseker; en
- besluitnemers van genoegsame inligting te voorsien om 'n ingeligte besluit oor die beoogde aktiwiteite te maak.

Aangeheg is die Agtergrondinligtingsdokument (AID) wat inligting rakende die beoogde projek, asook die OIE en ODP bevat wat tans onderneem word.

Ons bedank u by voorbaat dat u deel word van die openbare deelnameproses en ons sien uit daarna om u waardevolle insette betreffende die beoogde projek te ontvang.

Kind Regards

**ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED 325MW RONDEKOP WIND ENERGY FACILITY BETWEEN MATJIESFONTEIN AND SUTHERLAND IN THE NORTHERN CAPE PROVINCE**

**INVITATION TO PARTICIPATE IN THE ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

In terms of the EIA Regulations and the National Environmental Management Act, 1998 (Act No. 107 of 1998), SiVEST SA (Pty) Ltd (hereafter referred to as SiVEST) has been appointed as the independent Environmental Assessment Practitioner (EAP) by Rondekop Wind Farm (Pty) Ltd (hereafter referred to as Rondekop Wind Farm) to conduct the Environmental Impact Assessment (EIA) process for the proposed development of the 325MW Rondekop Wind Energy Facility Between Matjiesfontein and Sutherland in the Northern Cape Province.

SiVEST would like to invite you, as a potential Interested and/or Affected Party (I&AP), to become actively involved in the EIA and Public Participation Process (PPP) for this proposed project. The aim of this process is as follows:

- To ensure that all the relevant environmental impacts are taken into consideration;
- To ensure public input; and
- Provide decision-makers with sufficient information to make an informed decision on the proposed activities.

Attached is the Background Information Document (BID), which contains information regarding the proposed project as well as the EIA and PPP, which is currently being undertaken.

We would like to thank you, in advance, for becoming part of the Public Participation Process and are looking forward to receiving your valuable comments relating to the proposed project.

Yours sincerely

# OMGEWINGSIMPAKEVALUERING (OIE) VIR DIE BEOOGDE 325 MW RONDEKOP WINDKRAGANLEG TUSSEN MATJIESFONTEIN EN SUTHERLAND IN DIE NOORD-KAAPROVINSIE

**DO Verw. No.: (Moet nog verskaf word)**

## INLEIDING

Rondekop Wind Farm (Edms.) Bpk. (hierna Rondekop Wind Farm genoem) beoog die ontwikkeling van 'n Windkragaanleg (WEF) wat die Rondekop WEF heet, op 'n terrein 45 km suidwes van Sutherland in die Noord-Kaapprovinsie, Suid-Afrika. Die beoogde aanleg is geleë in die Karoo Hoogland Plaaslike Munisipaliteit, wat in die Namakwa Distriksmunisipaliteit val.

Die Rondekop WEF is die onderwerp van 'n volledige Omgewingsimpevaluering ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA), soos gewysig, aangesien die WEF 'n Omgewingsmagtiging (OM) sal vereis.

Gevolglik het Rondekop Wind Farm vir SiVEST SA (Edms.) Bpk. (hierna SiVEST genoem) aangestel as die onafhanklike Omgewingsimpevalueringpraktisyn (OEP) om die vereiste OIE-proses te onderneem.

## DOEL VAN HIERDIE DOKUMENT

Die doel van hierdie Agtergrondinligtingsdokument (AID) is om belangstellende en/of geaffekteerde partye (B&GP's) in te lig oor die OIE-proses wat vir die beoogde Rondekop WEF onderneem word.

Daarbenewens sal hierdie AID ook aan B&GP's die geleentheid bied om:

- die beoogde ontwikkeling beter te verstaan om kommentaar te lewer en knelpunte te opper;
- die OIE-proses te verstaan om doeltreffend te kan deelneem;
- voorstelle te maak om die beoogde ontwikkeling te verbeter;
- kommentaar te lewer oor die OIE en die spesialisstudies wat onderneem gaan word; en
- tot plaaslike kennis by te dra.

## AGTERGROND BETREFFENDE DIE BEOOGDE PROJEK

Ter ondersteuning van die behoefte om weg te beweeg van steenkool as hoofbron van elektrisiteit en om meer volhoubare en omgewingsvriendelike energiebronne te kry, het Suid-Afrika 'n program vir die ontwikkeling van infrastruktuur van stapel gestuur wat deur verskeie staatsinisiatiewe ondersteun word. In antwoord op hierdie doel, beoog Rondekop Wind Farm om die Rondekop Windkragaanleg (WEF) naby Sutherland in die Noord-Kaapprovinsie te ontwikkel. Die oorhoofse doelwit van die projek is om elektrisiteit aan die hand van hernubare kragtegnologieë op te wek deur windkrag in te span en dit by die nasionale kragnet in te voer.

Alle tersaaklike wetgewing en riglyne (insluitende die Ekwator-beginsels) sal tydens die OIE-proses geraadpleeg en aan voldoen word.

## TEGNIÛSE BESONDERHEDE VAN WINDPLAAS

Die beoogde Rondekop WEF sal 'n kragopwekkingsvermoë (teen 132 kV nutsmaatskappy verbindingpunt) van hoogstens 325 megawatt (MW) hê, en sal die volgende insluit:

- Hoogstens 48 windturbines, elk met 'n opwekkingsvermoë van tussen 3 MW en 6,5 MW naamplaatvermoë, met 'n fondasie van hoogstens 30 m in deursnee en hoogstens 5 m in diepte.
- Turbines met 'n naafhoogte van tussen 90 m en hoogstens 140 m en 'n lemdeursnee van tussen 100 m en hoogstens 180 m.
- Permanent gekompakteerde vasteladgebiede (ook bekend as hyskraanblaaie) van sowat 4 500m<sup>2</sup> (90 m x 50 m) per turbine (totale voetspoor 21,6 ha) gedurende oprigting en vir voortgesette instandhoudingsdoeleindes vir die leeftyd van die turbines.
- Elektriese transformators (690 V/33 kV) langs elke turbine (oppervlak van hoogstens 100 m<sup>2</sup>) om die spanning tot op 33 kV te verhoog.
- Mediumspanningskabels wat die turbines met die interne substasie verbind. Op party plekke sal hierdie kabels ondergronds gelê word en bogronds op ander plekke, afhangende van tegniese uitvoerbaarheid.
- Interne paaie met 'n breedte van hoogstens 12 m, wat toegang tot elke turbine en die interne substasie bied. Waar moontlik, sal bestaande paaie opgegradeer word. Draaie sal 'n radius van hoogstens 50 m hê sodat abnormale vragte (veral turbinelemme) toegang tot die verskeie turbineposisies kan kry.
- Toegangspaaie na die terrein toe sal sowat 9 m wyd wees, terwyl toegangspaaie na die substasie toe sowat 6 m wyd sal wees.
- 'n Nuwe 33/132 kV interne substasie, wat 'n gebied van sowat 2,25 ha beslaan.
- Hoogstens 4 (die hoogte sal dieselfde wees as die finale naafhoogte van die windturbines) windmetingtraliemaste om data in te win oor windtoestande tydens die bedryfsfase.
- 'n Tydelike konstruksiebergings-/steiergebied van sowat 13 ha wat ook 'n betonlotaanleg en bedryfs- en instandhoudingsgeboue sal huisves.
- Omheining sal beperk wees tot rondom die konstruksiekamp en lotaanleg. Die hele aanleg sal nie omhein wees nie. Die hoogte van heinings om die konstruksiekamp sal na verwagting hoogstens 6 m wees.

- Tydlike infrastruktuur om water uit beskikbare plaaslike bronne/nuwe of bestaande boorgate te bekom en te berg, wat potensieel 'n bogrondse pyplyn en waterbergingstens insluit.

## PROJEKLISSING

Die beoogde Rondekop WEF projekgebied sal sowat 45 km suidwes van Sutherland in die Karoo Hoogland Plaaslike Munisipaliteit in die Noord-Kaaprovinsie geleë wees, soos aangedui op die kaart op die keersy.

## OIE-PROSES

### Wat is 'n OIE?

'n OIE is 'n proses van inwinning, organisering, ontleding, vertolking en kommunikasie van inligting wat betrekking het op 'n beoogde ontwikkeling ten einde potensiele omgewingsimpakte te identifiseer. Hierdie inligting bied die Bevoegde Owerheid (die DO) 'n konkrete grondslag vir hul besluitneming met betrekking tot Omgewingsmagtiging.

### Wetlike vereistes

Ingevolge die Regulasies op Omgewingsimpakevaluering (OIE-regulasies) wat op 4 Desember 2014 gepubliseer en op 7 April 2017 gewysig is, word verskeie aspekte van die beoogde projek as gelyste aktiwiteite geag wat 'n impak op die omgewing kan hê en derhalwe word omgewingsmagtiging van die Nasionale Departement van Omgewingsake (DO) vereis alvorens sodanige aktiwiteite 'n aanvang kan neem.

Die beoogde WEF ontwikkeling is deels geleë in die Komsberg Hernubare Kragontwikkelingsone (REDZ 2), een van die agt REDZ wat formeel in Suid-Afrika se staatskoerant afgekondig<sup>1</sup> is wat die prosedure aandui wat gevolg moet word om aansoek te doen om omgewingsmagtiging (OM) vir grootskaal son- en windkragopwekkingsaanlegte. In die lig van die feit dat 'n gedeelte van die beoogde aanleg buite die Komsberg REDZ geleë is, sal die Rondekop WEF onderhewig wees aan 'n volledige Omgewingsimpakevaluering (OIE) ingevolge die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998) (NEMA), soos gewysig, en die OIE-regulasies, 2014 (soos gewysig).

Die primêre doel van die OIE-proses is om omgewingskwessies en impakte te evalueer wat verband hou met die beoogde aktiwiteit en om die wesenslikheid van hierdie impakte te evalueer. Die volgende spesialisstudies sal hierdie proses toelig:

- Landbou en Grondsoorte
- Akwatiese Ekologie
- Avifauna
- Vlermuis
- Erfenis, insluitende Paleontologie, Argeologie & Kultuurlandskap
- Geraas
- Sosio-ekonomies
- Terrestrïële Ekologie
- Verkeer
- Visueel

Die OIE proses wat gevolg sal word, word hieronder geïllustreer.

## OMGEWINGSIMPAKEVALUERINGSPROSES

## HOE OM BETROKKE TE RAAK

Openbare deelname is die hoeksteen van enige OIE, met die primêre doelwit om toe te sien dat alle belangstellende en geaffekteerde partye, insluitende staatsinstansies, die geleentheid kry om deel te neem aan die OIE-proses en om toegang te hê tot alle tersaaklike inligting en dokumente wat verband hou met die beoogde ontwikkeling.

Openbare kennisgewing van die OIE-proses sal die volgende insluit:

- Advertensies sal in 'n plaaslike koerant geplaas word.
- 'n Agtergrondinligtingsdokument (AID) sal versprei word.
- Kennisgewings in die vorm van e-posse, pos, faks en SMS'e, waar van toepassing.
- Terreinkennisgewings sal by die ontwikkelingsterrein aangebring word.
- Alle tersaaklike dokumentasie sal aanlyn en in openbare biblioteke beskikbaar gestel word.

Daarbenewens sal die tersaaklike verslae beskikbaar gemaak word vir openbare insae en kommentaar en openbare/fokusgroepvergaderings sal gehou word.

As u as 'n B&GP wil registreer, kan u dit doen deur:

- te reageer (telefonies, per faks, pos of e-pos) op die uitnodiging wat in die pers geadverteer is;
- die vergaderings by te woon wat gedurende die verloop van die projek gehou sal word. Sou u as 'n B&GP registreer, sal u outomaties 'n uitnodiging na hierdie vergaderings toe ontvang;
- ons te kontak (telefonies, per faks, pos of e-pos) met enige navrae, kommentaar of versoeke vir verdere projekinligting; en
- kommentaar oor die Konsep Bestekopname-/Omgewingsimpakverslag (KBV's/KOIEV's) in te dien binne die oorsigtydperke wat uiteengesit sal word.

As u self as B&GP vir hierdie beoogde projek ag, moedig ons u aan om gebruik te maak van die geleentheid wat deur die openbare deelnameproses geskep word om aktief by die proses betrokke te raak en kommentaar te lewer of daardie vraagstukke of knelpunte te opper wat u raak en/of waarin u belangstel en waarvoor u meer inligting verlang. U inset in hierdie proses vorm 'n belangrike deel van die omgewingstudies en ons hoor graag van u om u siening oor die beoogde projek in te win.

*Neem asseblief kennis dat alle tersaaklike publieke dokumente gedurende die insaetydperke afgelaai kan word by:*

<http://data.g7energies.com/eia/rondekop>

<sup>1</sup> Formeel in Staatskoerant geplaas op 16 Februarie 2018 (Staatskennisgewing 114).

# ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED 325MW RONDEKOP WIND ENERGY FACILITY BETWEEN MATJIESFONTEIN AND SUTHERLAND IN THE NORTHERN CAPE PROVINCE

DEA Ref No: (To be provided)

## INTRODUCTION

Rondekop Wind Farm (Pty) Ltd (hereafter referred to as Rondekop Wind Farm) is proposing to develop a Wind Energy Facility (WEF) known as the Rondekop WEF, on a site 45 km south-west of Sutherland, in the Northern Cape Province, South Africa. The proposed facility is located in the Karoo Hoogland Local Municipality, which falls within the Namakwa District Municipality.

The Rondekop WEF is the subject of a full Environmental Impact Assessment in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as amended, as the WEF will require an Environmental Authorisation (EA).

Accordingly, Rondekop Wind Farm has appointed SiVEST SA (Pty) Ltd (hereafter referred to as SiVEST) as the independent Environmental Assessment Practitioner (EAP), to undertake the required EIA process.

## PURPOSE OF THIS DOCUMENT

The purpose of this Background Information Document (BID) is to inform Interested and/or Affected Parties (I&APs) about the EIA process that is being conducted for the proposed Rondekop WEF.

In addition, this BID will also provide I&APs with the opportunity to:

- Better understand the proposed development to provide comments and raise issues of concern;
- Understand the EIA process to participate effectively;
- Make suggestions to enhance the proposed development;
- Comment on the EIA and the specialist studies that will be conducted; and
- Contribute to local knowledge.

## BACKGROUND TO THE PROPOSED PROJECT

In support of the need to divert from coal as the main source of electricity and to find more sustainable and environmentally friendly energy resources, South Africa has embarked on an infrastructure growth programme supported by various government initiatives. In response to this goal; Rondekop Wind Farm is proposing to develop the Rondekop Wind Energy Facility (WEF) near Sutherland in the Northern Cape Province. The overall objective of the project is to generate electricity by means of renewable energy technologies capturing wind energy and to feed into the national grid.

All relevant legislation and guidelines (including Equator Principles) will be consulted during the EIA process and will be complied with.

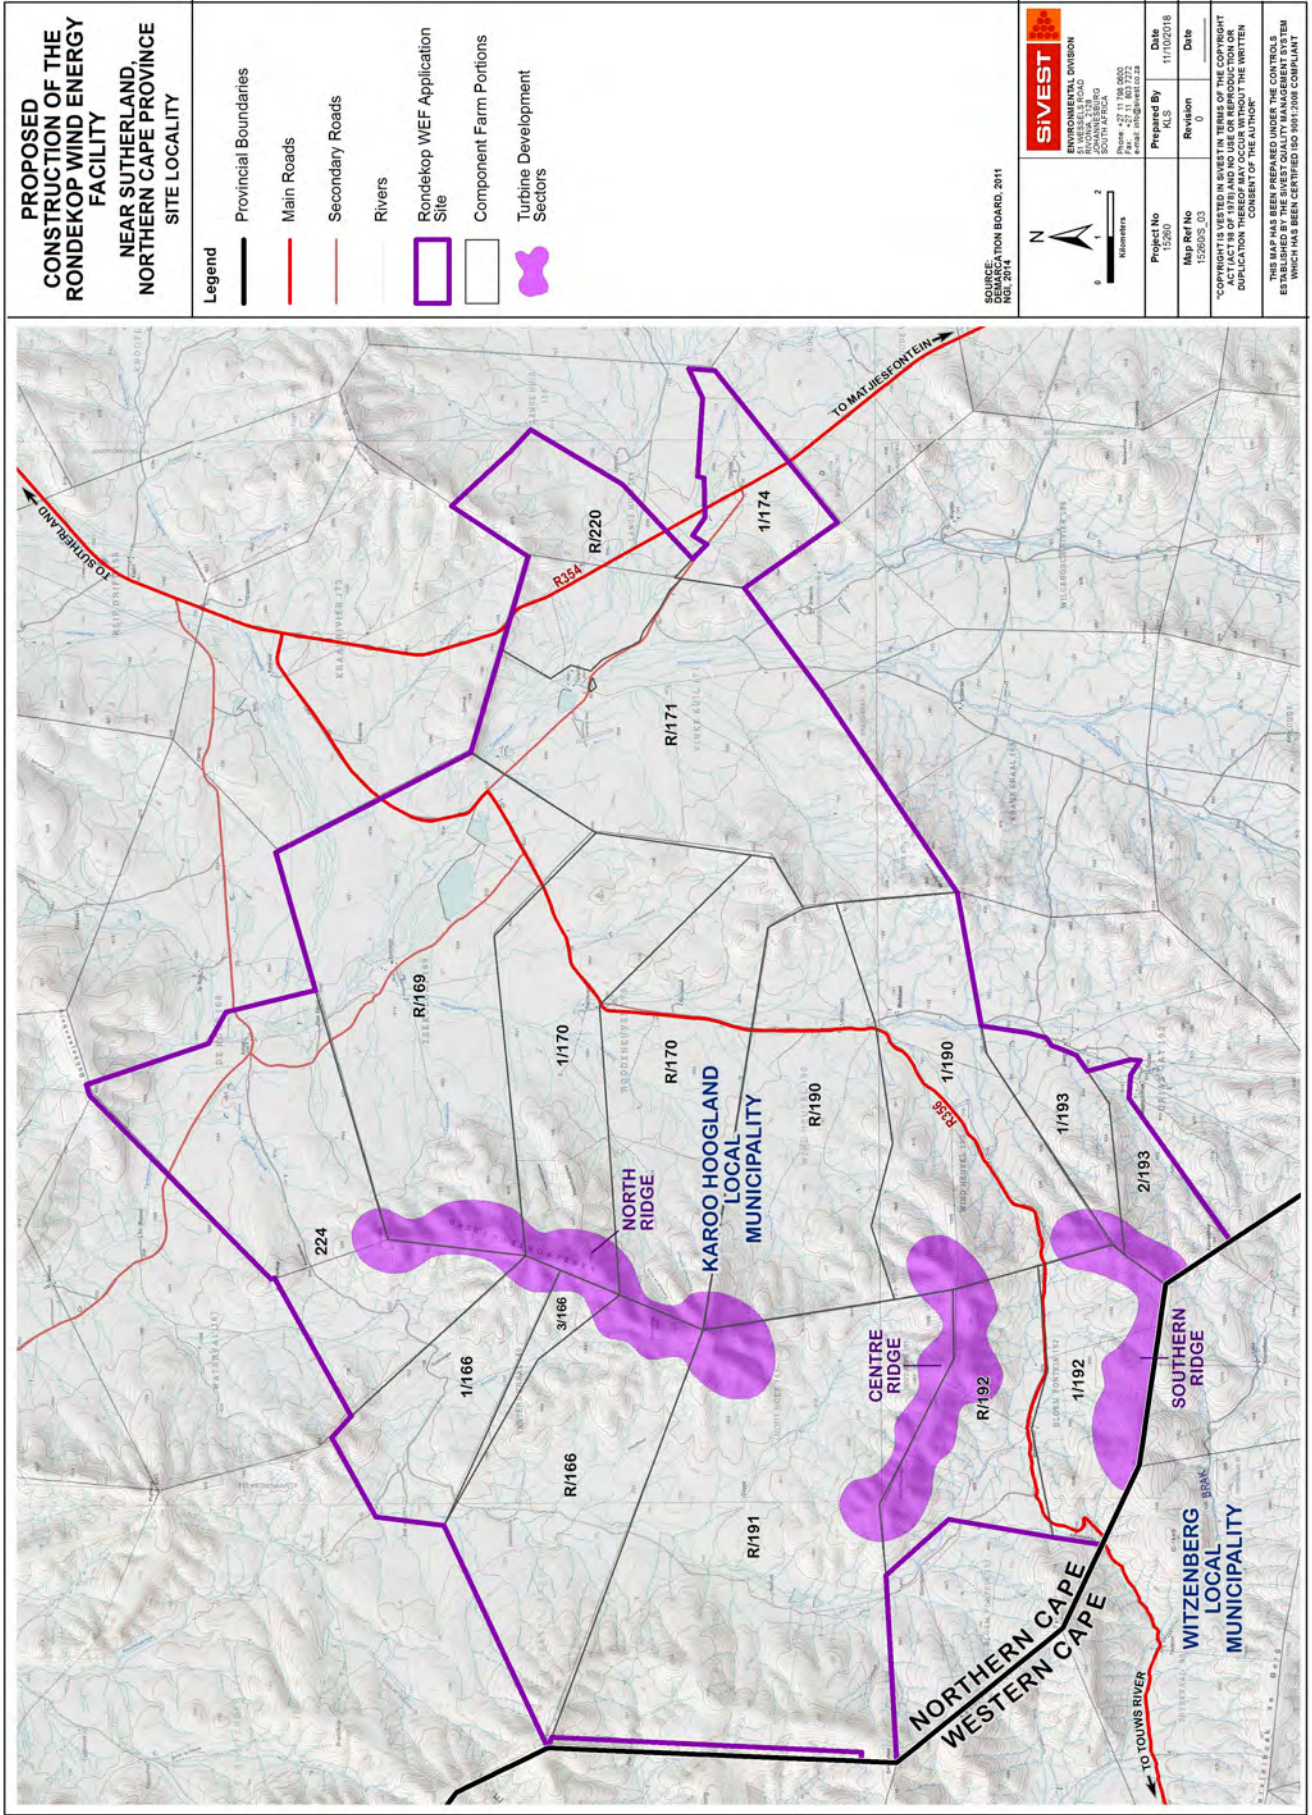

## WIND FARM TECHNICAL DETAILS

The proposed Rondekop WEF will have an energy generation capacity (at 132kV point of utility connection) of up to 325 megawatt (MW), and will include the following:

- Up to 48 wind turbines, each with a generation capacity of between 3MW and 6.5MW nameplate capacity with a foundation of up to 30m in diameter and up to 5m in depth.
- Turbines with a hub height of between 90m and up to 140m and a rotor diameter between 100m and up to 180m.
- Permanent compacted hardstand areas (also known as crane pads) of approximately 4 500m<sup>2</sup> (90m x 50m) per turbine (total footprint 21.6ha) during construction and for ongoing maintenance purposes.
- Electrical transformers (690V/33kV) adjacent to each turbine (up to 100m<sup>2</sup> in area) to step up the voltage to 33kV.
- Medium voltage cabling connecting the turbines to the on-site substation. These cables will be laid underground in some places and above ground in others depending on technical feasibility.
- Internal roads up to 12m wide, providing access to each turbine and to the on-site substation. Where possible, existing roads will be upgraded. Turns will have a radius of up to 50m in order for abnormal loads (especially turbine blades) to access the various turbine positions.
- Access roads to the site will be approximately 9m wide while access roads to the substation will be approximately 6m wide.
- A new 33/132kV onsite substation, occupying a site of approximately 2.25ha.
- Up to 4 (the height will be the same as the final wind turbine hub height) wind measuring lattice masts to collect data on wind conditions during the operational phase.
- A temporary construction laydown/staging area of approximately 13ha which will also accommodate a concrete batching plant and operation and maintenance buildings.
- Fencing will be limited around the construction camp and batching plant. The entire facility would not be fenced off. The height of fences around the construction camp are anticipated to be up to 6m.
- Temporary infrastructure to obtain and store water from available local sources / new or existing boreholes, potentially including an above ground pipeline and water storage tanks.

## PROJECT LOCATION

The proposed Rondekop WEF project area will be located approximately 45 km south-west of Sutherland, in the Karoo Hoogland Local Municipality within the Northern Cape Province, as shown on the map overleaf.

## EIA PROCESS

### What is an EIA?

An EIA is a process of collecting, organising, analysing, interpreting and communicating information relevant to a proposed development to identify potential environmental impacts. This information provides the Competent Authority (the DEA) with a sound basis for their decision-making regarding Environmental Authorisation.

### Legal requirements

In terms of the Environmental Impact Assessment (EIA) Regulations, which were published on 4 December 2014 and amended on 7 April 2017, various aspects of the intended development are considered listed activities which may have an impact on the environment and therefore require authorisation from the National Department of Environmental Affairs (DEA) prior to the commencement of such activities.

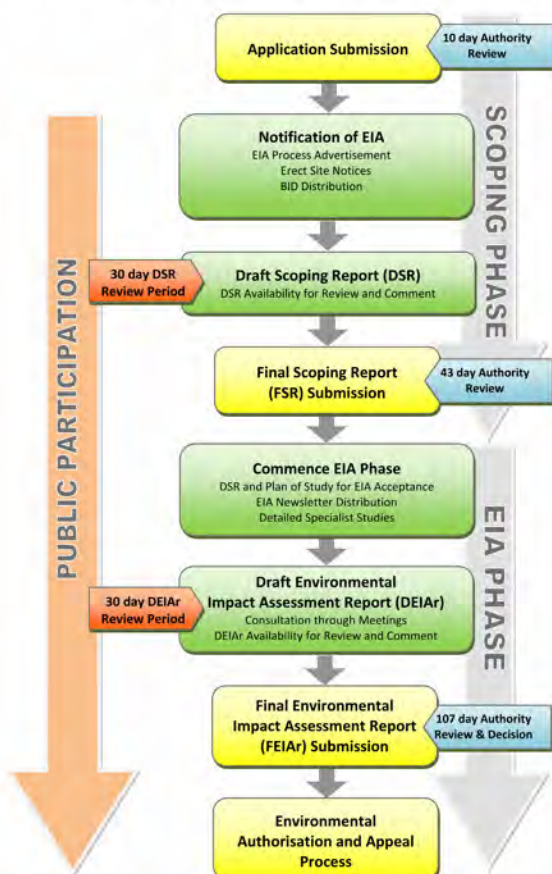

The proposed WEF development is located partially within the Komsberg Renewable Energy Development Zone (REDZ 2), one of the eight REDZ formally gazetted<sup>1</sup> in South Africa indicating the procedure to be followed in applying for environmental authorisation (EA) for large scale solar and wind energy generation facilities. Considering that a portion of the proposed facility is located outside of the Komsberg REDZ, the Rondekop WEF will be subject to a full Environmental Impact Assessment (EIA) process in terms of the National Environmental Management Act (Act 107 of 1998) (NEMA) as amended and EIA Regulations, 2014 (as amended).

The ultimate purpose of the EIA process is to identify environmental issues and impacts associated with the proposed activity and to assess the significance of these impacts. The following specialist studies will inform this process:

- Agricultural and Soils
- Aquatic Ecology
- Avifauna
- Bats
- Heritage, including Palaeontology, Archaeology & Cultural Landscape
- Noise
- Socio-Economic
- Terrestrial Ecology
- Traffic
- Visual

The EIA process that will be followed is outlined below.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

## HOW TO BECOME INVOLVED

Public participation is the cornerstone of any EIA, with the key objective being to ensure that all interested and affected parties, including organs of state are afforded the opportunity to participate in the EIA process and have access to all relevant information and documents related to the proposed development.

Public notification of the EIA process will include the following:

- Advertisements will be placed in a local newspaper;
- Distribution of a Background Information Document (BID);
- Notifications in the form of emails, post, fax and SMS where applicable;
- Site notices will be placed on the development site;
- All relevant documentation will be made available online and in public libraries .

In addition, the relevant reports will be made available for public review and comment and public/focus group meetings will be held.

If you wish to register as an I&AP, you can do so by the following methods:

- Respond (by phone, fax, post or e-mail) to the invitation advertised in the printed media;
- Attend the meetings to be held during the course of the project. Should you register as an I&AP you will automatically receive an invitation to these meetings;
- Contact us (by phone, fax, post or e-mail) with any queries, comments or requests for further project information; and
- Submit comments on the Draft Scoping/Environmental Impact Reports (DSRs/DEIRs) within the review periods that will be stipulated.

If you consider yourself an I&AP for this proposed project, we urge you to make use of the opportunities created by the public participation process to become actively involved in the process and provide comment or concerns which affect and/or interest you, or about which you would like more information. Your input into this process forms a key part of the environmental studies and we would like to hear from you to obtain your views on the proposed project.

Please be informed that all relevant public documents can be downloaded during the review periods from:

<http://data.g7energies.com/eia/rondekop>

<sup>1</sup> Formally gazetted on 16 February 2018 (government notice 114).

**Appendix 7C**  
**Proof of Advertisements**

**ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED DEVELOPMENT OF THE  
RONDEKOP WIND ENERGY FACILITY BETWEEN MATJIESFONTEIN AND SUTHERLAND,  
NORTHERN CAPE PROVINCE**

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as amended and the Environmental Impact Assessment (EIA) Regulations, under Government Notices No R982, R983, R984 and R985 promulgated on 4 December 2014 and amended on 07 April 2017, notice is hereby given that Rondekop Wind Farm (Pty) Ltd has appointed SiVEST SA (Pty) Ltd, as the independent Environmental Assessment Practitioner (EAP), to undertake the required Environmental Impact Assessment and Public Participation Processes (PPP) for the below-mentioned development to be submitted to the National Department of Environmental Affairs for decision-making.

**PROJECT DESCRIPTION**

In support of the need to divert from coal as our main source of electricity and to find more sustainable and environmentally friendly energy resources, South Africa has embarked on an infrastructure growth programme supported by various government initiatives. In response to this goal; Rondekop Wind Farm (Pty) Ltd is proposing to develop the Rondekop Wind Energy Facility (WEF) near Sutherland in the Northern Cape Province. The overall objective of the project is to generate electricity by means of renewable energy technologies capturing wind energy and to feed into the national grid.

At this stage it is anticipated that the proposed Rondekop WEF will comprise of up to 48 wind turbines and associated infrastructure with a total generation capacity of up to 325MW. The final number of turbines and layout of the WEF will, however, be dependent on the outcome of the specialist studies conducted during the EIA process.

**PROJECT LOCATION**

The WEF project area is located approximately 45 km south-west of Sutherland in the Northern Cape Province. The proposed facility is located in the Karoo Hoogland Local Municipality which falls within the Namakwa District Municipality. The project includes the following farms (some which are only affected by the public road upgrade):

Ashoek No 224	Remainder of Vinke Kuil 171
Portion 1 and Remainder of Bloem Fontein No 192	Portion 1, 3 and Remainder of Venters Kraal No 166
Portion 1 of Lange Huis 174	Portion 1 and Remainder of Wind Heuvel No 190
Remainder of Hout Hoek No 191	Remainder of Zeekoegat No 169
Portion 1 and Remainder of Roodeheuvel No 170	Remainder of Farm 220
Portion 1 and 2 of Urias Gat No 193	

**To register as an Interested and / or Affected Party (I&AP) and / or to obtain additional information** please submit your name, contact details (telephone number, postal address and email address) and the interest which you have in the application to SiVEST as per the details below and please reference the 'Rondekop WEF' in your correspondence. SiVest shall keep all registered I&APs informed of the process.

**OMGEWINGSIMPAKEVALUERING (OIE) VIR DIE BEOOGDE ONTWIKKELING VAN DIE  
RONDEKOP WINDKRAGAAANLEG TUSSEN MATJIESFONTEIN EN SUTHERLAND,  
NOORD-KAAPPROVINSIE**

Ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA), soos gewysig, en die Regulasies op Omgewingsimpakevaluering (OIE), kragtens Staatskennisgewing R982, R983, R984 en R985 wat op 4 Desember 2014 afgekondig en op 7 April 2017 gewysig is, geskied kennis hiermee dat Rondekop Wind Farm (Edms.) Bpk. SiVEST SA (Edms.) Bpk. aangestel het as die onafhanklike Omgewingsevalueringpraktisyn (OEP) om die nodige Omgewingsimpakevaluering- en Openbare Deelnameproses (ODP) vir die onderstaande ontwikkeling te onderneem wat by die Nasionale Departement van Omgewingsake ingedien moet word vir besluitneming.

**PROJEKBESKRYWING**

Ter ondersteuning van die behoefte om weg te beweeg van steenkool as ons hoofbron van elektrisiteit en om meer volhoubare en omgewingsvriendelike energiehulpbronne te kry, het Suid-Afrika 'n program vir die ontwikkeling van infrastruktuur van stapel gestuur wat deur verskeie staatsinisiatiewe ondersteun word. In antwoord op hierdie doel, beoog Rondekop Wind Farm (Edms.) Bpk. om die Rondekop Windkragaanleg (WEF) naby Sutherland in die Noord-Kaapprovinsie te ontwikkel. Die oorhoofse doelwit van die projek is om elektrisiteit aan die hand van hernubare kragtegnologieë op te wek deur windkrag in te span en dit by die nasionale kragnet in te voer.

Op hierdie stadium word aan die hand gedoen dat die beoogde Rondekop WEF uit hoogstens 48 windturbines en gepaardgaande infrastruktuur met 'n totale opwekkingsvermoë van hoogstens 325 MW sal bestaan. Die uiteindelijke aantal turbines en uitleg van die WEF sal egter afhang van die uitkoms van die spesialisstudies wat tydens die OIE-proses onderneem word.

**PROJEKLIIGING**

Die WEF-projekgebied is sowat 45 km suidwes van Sutherland in die Noord-Kaapprovinsie geleë. Die beoogde aanleg is geleë in die Karoo Hoogland Plaaslike Munisipaliteit, wat in die Namakwa Distriksmunisipaliteit val. Die projek sluit die volgende plase in (waarvan party slegs deur die opgradering van die openbare pad geraak word):

Ashoek No. 224	Restant van Vinke Kuil 171
Gedeelte 1 en Restant van Bloem Fontein No. 192	Gedeelte 1, 3 en Restant van Venters Kraal No. 166
Gedeelte 1 van Lange Huis 174	Gedeelte 1 en Restant van Wind Heuvel No. 190
Restant van Hout Hoek No. 191	Restant van Zeekoegat No. 169
Gedeelte 1 en Restant van Rootheuvel No. 170	Restant van Plaas 220
Gedeelte 1 en 2 van Urias Gat No. 193	

**Om as 'n belangstellende en/of geaffekteerde party (B&GP) te registreer en/of om bykomende inligting te bekom**, moet u asseblief u naam, kontakbesonderhede (telefoonnommer, pos- en e-posadres) en die belang wat u by die aansoek het aan SiVEST by die onderstaande besonderhede verstrek en die verwysing "Rondekop WEF" in u korrespondensie gebruik. SiVEST sal alle geregistreerde B&GP's op hoogte van die proses hou.

## 1/166 Venters Kraal Toestemmingsbrief - impakstudie Rondekop

Rudolf Steenkamp &lt;rudolfjsteenkamp@gmail.com&gt;

1 November 2018 at 13:35

To: Blanche Ortlepp &lt;blanche@g7energies.com&gt;

Hi Blanche

Geen tydelike besetters nie.

Oom en tannie van die dorp wat so een keer per maand of self minder vir n naweek in die huisie gaan bly. Wil net bietjie uit die dorp kom.

Groetnis

Rudolf

On 01 Nov 2018 11:24 AM, "Blanche Ortlepp" &lt;blanche@g7energies.com&gt; wrote:

Hi Rudolf,

Baie dankie. Sal jy ook asseblief bevestig dat daar niemand tydelik op die eiendom bly nie.

Dankie,

Blanche

2018-10-31 20:27 GMT+02:00 Rudolf Steenkamp &lt;rudolfjsteenkamp@gmail.com&gt;:

Hi Blanche

Daar woon niemand permanent op die betrokke eiendom nie.

Groetnis

Rudolf

On 31 Oct 2018 3:17 PM, "Blanche Ortlepp" &lt;blanche@g7energies.com&gt; wrote:

Hi Rudolf,

Soos genoem op die foon wil ek graag vra dat jy asseblief die aangehegde toestemmingsbrief uit-print en teken en dan terugstuur.

Dit bevestig dat jy kennis dra van die omgewings impakstudie wat plaasvind op die Rondkop Wind Plaas waarvan jou plaas deel vorm, 1/166 Venters Kraal.

Ons het 'n derde party aangestel om die Omgewings Impakstudie te beheer. Een van die vereistes is om te bevestig dat alle mense wat tydelik of permanent op jou plaas woon in kennis gestel word van die beplande ontwikkeling. Dus moet jy asseblief bevestig of daar enige mense is wat op jou plaas / grond woon en indien so, asseblief vir ons hul kontak besonderhede aanstuur. Indien daar niemand woon nie, kan jy net vir laat ons weet per epos en indien daar wel mense woon, maar jy nie die informasie wil aanstuur nie moet jy dit asseblief bevestig per epos. Jy kan somer "reply" op hierdie epos.

Bestudeer asseblief die kaart aangeheg wat aanduiding gee van die beplande infrastruktuur op jou plaas. Laat ons gerus wees indien jy enige iets wil bespreek rakende die kaart en uitleg. Of as daar iets is wat onduidelik is. Dit is die huidige beplanning vir die wind plaas.

Ons hoor graag van jou.

Vriendelike groete,

Blanche

PS. Jy kan gerus die Engelse weergawe teken en dit afneem met jou foon en mooi in-zoom sodat die hele skerm van jou foon die hele dokument mooi van bo tot onder inkry, en dit dan afneem en stuur. My besonderhede is hier onder.

Hi Corlia & Nicolaas,

I hope this email finds you well. As you are aware G7 are in the process of applying for Environmental Authorisation for the Rondekop Wind Farm of which you are a landowner involved in the development. Additionally G7 have another wind farm, known as the Kudusberg Wind Farm, located on properties adjacent to your property 224 Ashoek.

G7 have currently appointed separate environmental consultants to undertake the respective Environmental Impact Assessments (EIAs) required for both the wind farms. Part of the EIA process requires us to notify all occupiers of the land on and adjacent to the land where the proposed developments are occurring.

Based on this requirement, as a directly Affected Landowner associated with the Rondekop Wind Farm and Adjacent Landowner to the Kudusberg Wind Farm we would like to request that you provide us with the details of (if any) persons residing on, leasing or managing your land (name, cell phone number, postal address and / or email address), so that we can ensure that all potentially Interested and / Affected Parties (I&APs) are notified of the proposed developments. If there is no one residing / leasing or managing your land please can you also confirm that.

Your assistance with this matter would be greatly appreciated. Please feel free to contact myself if you wish to discuss this matter further or have any questions or queries.

Warm regards,

Veronique Fyfe | Project Manager

U verwysing: Grondeienaarsbrief  
Ons verwysing: 15260 Rondekop WEF  
Datum: 8 November 2018

Geagte Grondeenaar

## **KENNISGEWING VAN 'N OMGEWINGSIMPAKEVALUERINGSPROSES (OIE) VIR DIE BEOOGDE 325 MW RONDEKOP WINDKRAGAAANLEG TUSSEN MATJIESFONTEIN EN SUTHERLAND IN DIE NOORD-KAAPPROVINSIE**

As 'n geïdentifiseerde belanghebbende, stel ons u hiermee in kennis van die Omgewingsimpakevaluering (OIE) wat aan die gang is vir die beoogde ontwikkeling van die Rondekop Windkragaanleg (WEF) tussen Matjiesfontein en Sutherland, Noord-Kaapprovinsie. Hierdie skrywe is om alle grondeienaars en/of okkupeerders van grond waar ontwikkeling beoog word, te verwittig en in kennis te stel van die beoogde OIE-proses.

Ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA), soos gewysig, en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), kragtens Staatskennisgewing R982, R983, R984 en R985 wat op 4 Desember 2014 afgekondig en op 7 April 2017 gewysig is, geskied kennis hiermee dat Rondekop Wind Farm (Edms.) Bpk. SIVEST SA (Edms.) Bpk. aangestel het as die onafhanklike Omgewingsevalueringpraktisyn (OEP) om die nodige OIE- en Openbare Deelnameproses (ODP) vir die onderstaande ontwikkeling te onderneem wat by die Nasionale Departement van Omgewingsake ingedien moet word vir besluitneming.

### **AGTERGROND & BESKRYWING VAN PROJEK**

Ter ondersteuning van die behoefte om weg te beweeg van steenkool as ons hoofbron van elektrisiteit en om meer volhoubare en omgewingsvriendelike energiehulpbronne te kry, het Suid-Afrika 'n program vir die ontwikkeling van infrastruktuur van stapel gestuur wat deur verskeie staatsinisiatiewe ondersteun word. In antwoord op hierdie doel, beoog Rondekop Wind Farm (Edms.) Bpk. om die Rondekop WEF tussen Sutherland en Matjiesfontein in die Noord-Kaapprovinsie te ontwikkel. Die oorhoofse doelwit van die projek is om elektrisiteit aan die hand van hernubare kragtegnologieë op te wek deur windkrag in te span en dit by die nasionale kragnet in te voer.

Op hierdie stadium word aan die hand gedoen dat die beoogde Rondekop WEF uit hoogstens 48 windturbines en gepaardgaande infrastruktuur met 'n totale opwekkingsvermoë van hoogstens 325 MW sal bestaan. Die uiteindelijke aantal turbines en uitleg van die WEF sal egter afhang van die uitkoms van die spesialisstudies wat tydens die OIE-proses onderneem word.

## PROJEKLISSING

Die WEF-projekgebied is sowat 45 km suidwes van Sutherland in die Noord-Kaapprovinsie geleë. Die beoogde aanleg is geleë in die Karoo Hoogland Plaaslike Munisipaliteit, wat in die Namakwa Distriksmunisipaliteit val. Die projek sluit die volgende plase in (waarvan party slegs deur die opgradering van die openbare pad geraak word):

Ashoek No. 224	Gedeelte 1 en Restant van Roodeheuvel No. 170	Gedeelte 1 en Restant van Wind Heuvel No. 190
Gedeelte 1 en Restant van Bloem Fontein No. 192	Gedeelte 1 en 2 van Urias Gat No. 193	Restant van Zeekoegat No. 169
Gedeelte 1 van Lange Huis 174	Restant van Vinke Kuil 171	Restant van Plaas 220
Restant van Hout Hoek No. 191	Gedeelte 1, 3 en Restant van Venters Kraal No. 166	

As 'n direk **geaffekteerde of naburige grondeienaar** versoek ons hiermee dat u ons voorsien van die besonderhede van alle mense wat op u grond woon, dit huur of bestuur (naam, selfoonnommer, pos-en/of e-posadres), sodat ons kan verseker dat alle potensiele belangstellende en/of geaffekteerde partye (B&GP's) op ons projekdatabasis ingesluit is. Ons versoek vriendelik dat u die verlangde besonderhede teen sluitingstyd op **Maandag, 12 November 2018** aan SiVEST stuur volgens die besonderhede hieronder.

Your reference: Landowner Letter  
Our reference: 15260 Rondekop WEF  
Date: 8<sup>th</sup> November 2018

Dear Landowner

## **NOTIFICATION OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS (EIA) FOR THE PROPOSED 325MW RONDEKOP WIND ENERGY FACILITY BETWEEN MATJIESFONTEIN AND SUTHERLAND IN THE NORTHERN CAPE PROVINCE**

As an identified stakeholder, we wish to notify you of the Environmental Impact Assessment (EIA) underway for the proposed development of the Rondekop Wind Energy Facility (WEF) between Matjiesfontein and Sutherland, Northern Cape Province. This letter serves to inform and notify all landowners and/or occupants of the land where development is proposed of the EIA process.

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as amended and the Environmental Impact Assessment (EIA) Regulations, under Government Notices No R982, R983, R984 and R985 promulgated on 4 December 2014 and amended on 07 April 2017, notice is hereby given that Rondekop Wind Farm (Pty) Ltd has appointed SIVEST SA (Pty) Ltd, as the independent Environmental Assessment Practitioner (EAP), to undertake the required EIA and Public Participation Processes (PPP) for the below-mentioned development to be submitted to the National Department of Environmental Affairs for decision-making..

### **PROJECT BACKGROUND & DESCRIPTION**

In support of the need to divert from coal as our main source of electricity and to find more sustainable and environmentally friendly energy resources, South Africa has embarked on an infrastructure growth programme supported by various government initiatives. In response to this goal; Rondekop Wind Farm (Pty) Ltd is proposing to develop the Rondekop WEF between Sutherland and Matjiesfontein in the Northern Cape Province. The overall objective of the project is to generate electricity by means of renewable energy technologies capturing wind energy and to feed into the national grid.

At this stage it is anticipated that the proposed Rondekop WEF will comprise of up to 48 wind turbines and associated infrastructure with a total generation capacity of up to 325MW. The final number of turbines and layout of the WEF will, however, be dependent on the outcome of the specialist studies conducted during the EIA process.

## **PROJECT LOCATION**

The WEF project area is located approximately 45 km south-west of Sutherland in the Northern Cape Province. The proposed facility is located in the Karoo Hoogland Local Municipality which falls within the Namakwa District Municipality. The project includes the following farms (some which are only affected by the public road upgrade):

Ashoek No 224	Portion 1 and Remainder of Roodeheuvel No 170	Portion 1 and Remainder of Wind Heuvel No 190
Portion 1 and Remainder of Bloem Fontein No 192	Portion 1 and 2 of Urias Gat No 193	Remainder of Zeekoegat No 169
Portion 1 of Lange Huis 174	Remainder of Vinke Kuil 171	Remainder of Farm 220
Remainder of Hout Hoek No 191	Portion 1, 3 and Remainder of Venters Kraal No 166	

As a directly **Affected or Adjacent Landowner** we hereby request that you provide us with the details of all persons residing on, leasing or managing your land (name, cell phone number, postal address and / or email address), so that we can ensure that all potentially Interested and / Affected Parties (I&APs) are included on our project database. We kindly request that you send the requested details to SiVEST as per the details below by close of business (COB) on **Monday 12<sup>th</sup> November 2018**.

**Reply Requested:** When Convenient

Beste Mnr van der Merwe,

Soos u reeds weet is die WNNR deur G7 Renewable Energies aangestel om die Basiese Omgewing Assesseringsproses (*Basic Assessment Process*) namens G7 te hanteer vir goedkeuring van hul beplande windplaas ontwikkeling in die area. As deel van die publieke deelname proses moet ons nie net u as grondeienaars van die plase waarop die ontwikkeling moontlik sal plaasvind in kennis stel nie, maar ook die aangrensende grondeienaars (bure) aan die voorgenome windplaas.

Dit het egter onder ons aandag gekom dat daar heelparty persone tans wel woonagtig is op van die gelyste plase wat nie noodwendig u as die grondeenaar is nie i.e. *landowner vs occupant*. Ons is dus nou opsoek na name en, waar moontlik ook kontakbesonderhede van hierdie persone (inwoners of *occupants*) vir doeleindes van die publieke deelname proses aangesien ons as WNNR geskrewe bewys moet kan lewer dat elkeen van hierdie persone/gesinne in kennis gestel is van die beplande windplaas ontwikkeling. Vir diegene wat nie kontakbesonderhede (telefoon/epos) het nie, sal ons kennisgewings in persoon moet laat aflewer waarby hulle geskrewe ontvangs daarvan erken.

**Sal u asb so gaaf wees om ons te help met inligting rakende die volgende:**

- > Bevestig of u as grondeenaar self tans woonagtig is op die plaas al dan nie?
- > Indien nie, kan u asb bevestig of daar enige ander persone tans woonagtig is op u plaas i.e. *occupants*?
- > Indien wel, sal u asb so gaaf wees om die persone se name en kontakbesonderhede aan ons te verskaf vir doeleindes van ons belanghebbende databasis (*stakeholder database*)?
- > En laastens, kan u asb bevestig of ons as WNNR u toestemming dra om self met u plaas inwoners te kontak (epos/telefoon) of kennisgewings af te lewer in persoon?

By voorbaat baie dankie, ons waardeer u vriendelike hulp in die verband ontsettend baie! Voel asb vry om vir my, Lizande (021 888 2489 / 083 799 0949) of die projekbestuurder, Minnelise (021 888 2495 / 083 309 8159) te kontak sou u enige vrae hê.

Vriendelike groete,  
Lizande

Beste Santa,

Ons telefoniese gesprek vroeër die week verwys. Baie dankie vir jou vriendelike hulp in die verband en die inligting voorsien.

Hierby die epos waarna ek tydens ons gesprek verwys het, asook aangeheg 'n liggingskaart en agtergrond inligting oor die beplande Kudusberg windplaas ter inligting.

Laat weet gerus indien julle enige vrae het.

Vriendelike groete  
 Lizande

[The e-mail server of the sender could not be verified (SPF Record)]

Goeiemiddag Lizande

Soos telefonies bespreek, woon ek nie op die plaas Kraairivier nie, maar ons bestuurder daar is Fanie Spamer. Daar is geen landlyn nie, en sy selfoon nommer is: 082 810 7764. Ek sal hom in kennis stel dat hy gekontak mag word.

Hennie en Annemarie Steenkamp, wat die derde deel van die plaas besit, se nommers is: 023 5712 635 en 083 741 6680.

Hoop jy is suksesvol om almal in die hande te kry!

Hantam-groete

Alta Coetzee

Beste Alta,

Baie dankie vir die gesels vroeër, jou vriendelike hulp met kontakbesonderhede word opreg waardeer!

Soos per ons telefoniese gesprek vanoggend is die WNNR deur G7 Renewable Energies aangestel om die Basiese Omgewingsimpakstudie (*Basic Assessment Process*) namens G7 te hanteer vir goedkeuring van hul beplande windplaas ontwikkeling in die area. As deel van die publieke deelname proses moet ons nie net u as grondeienaars van die plase waarop die ontwikkeling moontlik sal plaasvind in kennis stel nie, maar ook die aangrensende grondeienaars (bure) aan die voorgenome windplaas. Sien asb aangeheg agtergrond inligting rakende die voorgenome Kudusberg windplaas.

Dit het egter onder ons aandag gekom dat daar heelparty persone tans wel woonagtig is op van die gelyste plase wat nie noodwendig u as die grondeienaar is nie i.e. *landowner vs occupant*. Ons is dus nou opsoek na name en, waar moontlik ook kontakbesonderhede van hierdie persone (inwoners of *occupants*) vir doeleindes van die publieke deelname proses aangesien ons as WNNR geskrewe bewys moet kan lewer dat elkeen van hierdie persone/gesinne in kennis gestel is van die beplande windplaas ontwikkeling. Vir diene wat nie kontakbesonderhede (telefoon/epos) het nie, sal ons kennisgewings in persoon moet laat aflewer waarby hulle geskrewe ontvangs daarvan erken.

**Sal u asb so gaaf wees om ons te help met inligting rakende die volgende:**

- > Bevestig of u as grondeienaar self tans woonagtig is op die plaas al dan nie?
- > Indien nie, kan u asb bevestig of daar enige ander persone tans woonagtig is op u plaas i.e. *occupants*?
- > Indien wel, sal u asb so gaaf wees om die persone se name en kontakbesonderhede aan ons te verskaf vir doeleindes van ons belanghebbende databasis (*stakeholder database*)?
- > En laastens, kan u asb bevestig of ons as WNNR u toestemming dra om self met u plaas inwoners te kontak (epos/telefoon) of kennisgewings af te lewer in persoon?

Soos bespreek, sal jy asb so gaaf wees om ook vir my Hentie Steenkamp (Kraai Rivier 2/173) se kontakbesonderhede te stuur dan kan ek vir hulle ook 'n epos stuur.

By voorbaat baie dankie, ons waardeer jou vriendelike hulp in die verband ontsettend baie! Skakel gerus sou daar enige vrae is.

Vriendelike groete,  
Lizande

Goeiedag

Plaas: Venterskraal  
Eienaar: Elias Nel Basson  
Ek gebruik die plaas as 'n winterplaas.  
Somer-maande is ek op my ander plaas.  
Daar is nie ander bewoners nie.  
Ek bevestig dat u as WNNR toestemming het om voort te gaan met die projek.

Groete  
Elias

## RE/170 Roodeheuvél - Inquiry regarding current land occupiers

---

Veronique Fyfe <veronique@g7energies.com>

31 October 2018 at 11:24

To: aandblom@roggeveld.co.za, Karen de Bruyn <karen@g7energies.com>

Hi Datie,

I hope this email finds you well. As you are aware G7 are in the process of applying for Environmental Authorisation for the Rondekop & Kudusberg Wind Farm of which you are a landowner of RE/170 Roodeheuvél involved in the development.

G7 have currently appointed separate environmental consultants to undertake the respective Environmental Impact Assessments (EIAs) required for both the wind farms. Part of the EIA process requires us to notify all occupiers of the land on and adjacent to the land where the proposed developments are occurring.

Based on this requirement, as a directly Affected Landowner associated with the Rondekop & Kudusberg Wind Farm and we would like to request that you provide us with the details of (if any) persons residing on, leasing or managing your land (name, cell phone number, postal address and / or email address), so that we can ensure that all potentially Interested and / Affected Parties (I&APs) are notified of the proposed developments. If there is no one residing / leasing or managing your land please can you also confirm that.

Your assistance with this matter would be greatly appreciated. Please feel free to contact myself if you wish to discuss this matter further or have any questions or queries.

## RE/193, 2/193 & 1/193 Urias Gat - Inquiry regarding current land occupiers

---

Riaan & Johan le Roux <boesmansfontein@gmail.com>

2 November 2018 at 16:58

To: Veronique Fyfe <veronique@g7energies.com>

Good day Veronique

As per phone conversation about workers etc occupying on my property. There isn't any workers living on the property.

Some years when grazing is possible due to rainfall conditions, me and my workers stay on the farm for more or less 4 days every 2 weeks and leave when activities finished. This happens in time period between June and November.

Above-mentioned may vary at any time. If there stay somebody for a while G7 can notify them by themselves. I will receive notice of any activities by G7 as in the past?

Kind regards

Johan

Beste Annamarie,

Baie dankie vir die gesels vroeër, jou vriendelike hulp met kontakbesonderhede word opreg waardeer!

Soos per ons telefoniese gesprek vanmiddag is die WNNR deur G7 Renewable Energies aangestel om die Basiese Omgewingsimpakstudie (*Basic Assessment Process*) namens G7 te hanteer vir goedkeuring van hul beplande windplaas ontwikkeling in die area. As deel van die publieke deelname proses moet ons nie net u as grondeienaars van die plase waarop die ontwikkeling moontlik sal plaasvind in kennis stel nie, maar ook die aangrensende grondeienaars (bure) aan die voorgenome windplaas. sien asb aangeheg agtergrond inligting rakende die voorgenome Kudusberg windplaas.

Dit het egter onder ons aandag gekom dat daar heelparty persone tans wel woonagtig is op van die gelyste plase wat nie noodwendig u as die grondeenaar is nie i.e. *landowner vs occupant*. Ons is dus nou opsoek na name en, waar moontlik ook kontakbesonderhede van hierdie persone (inwoners of *occupants*) vir doeleindes van die publieke deelname proses aangesien ons as WNNR geskrewe bewys moet kan lewer dat elkeen van hierdie persone/gesinne in kennis gestel is van die beplande windplaas ontwikkeling. Vir diegene wat nie kontakbesonderhede (telefoon/epos) het nie, sal ons kennisgewings in persoon moet laat aflewer waarby hulle geskrewe ontvangs daarvan erken.

**Sal u asb so gaaf wees om ons te help met inligting rakende die volgende:**

-> Bevestig of u as grondeenaar self tans woonagtig is op die plaas al dan nie?

-> Indien nie, kan u asb bevestig of daar enige ander persone tans woonagtig is op u plaas i.e. *occupants*?

-> Indien wel, sal u asb so gaaf wees om die persone se name en kontakbesonderhede aan ons te verskaf vir doeleindes van ons belanghebbende databasis (*stakeholder database*)?

-> En laastens, kan u asb bevestig of ons as WNNR u toestemming dra om self met u plaas inwoners te kontak (epos/telefoon) of kennisgewings af te lewer in persoon?

Soos bespreek, sal jy asb so gaaf wees om ook vir my Hentie Steenkamp (Kraai Rivier 2/173) se kontakbesonderhede te stuur dan kan ek vir hulle ook 'n epos stuur.

By voorbaat baie dankie, ons waardeer jou vriendelike hulp in die verband ontsettend baie! Skakel gerus sou daar enige vrae is.

Vriendelike groete,

Lizande

Beste Annie,

Ons telefoniese gesprek vroeër die week verwys. Baie dankie vir jou vriendelike hulp in die verband en die inligting voorsien.

Hierby die epos waarna ek tydens ons gesprek verwys het, asook aangeheg 'n liggingskaart en agtergrond inligting oor die beplande Kudusberg windplaas ter inligting.

Laat weet gerus indien julle enige vrae het.

Vriendelike groete  
 Lizande
