#### 1 PROJECT DESCRIPTION

South Africa Mainstream Renewable Power Developments (Pty) Ltd (herein after referred to as "Mainstream") has appointed SiVEST SA (Pty) Ltd (hereafter referred to as "SiVEST") to undertake a Basic Assessment (BA) Process for the proposed construction of 132 kV overhead powerlines between the proposed (and authorised) 100MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4); and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa.

The powerline from the Loeriesfontein 3 PV SEF to the Dwarsrug WEF is proposed to link the SEF to the WEF in order to create a hybrid renewable energy facility, which will ensure that electricity is constantly supplied to the national grid by at least one (1) or both technologies (namely solar PV and wind), at any given time. The powerline from the Dwarsrug WEF is proposed to tie the, above mentioned, hybrid renewable energy facility into the approved Narosies substation to feed the National grid. Separate BA processes to add battery energy storage systems (BESS) to both renewable energy facilities [Loeriesfontein 3 BESS DEFF Reference number: <a href="https://dx.nd/1/2263">14/12/16/3/3/1/2263</a> and Dwarsrug BESS DEFF Reference number: <a href="https://dx.nd/1/2263">14/12/16/3/3/1/2263</a>) are currently underway. The BESS will contribute to the hybrid renewable energy facility by storing and providing electricity for the national grid.

Two (2) powerline alternatives will be assessed to link the Loeriesfontein 3 PV SEF to the Dwarsrug WEF and a single powerline is proposed to link these two (2) facilities to the National grid from the Dwarsrug WEF. All three (3) powerline route alignments will be assessed within a 300m wide assessment corridor (150m on either side of powerline).

The route alternatives that are being considered and assessed as part of the BA process will be refined to avoid identified environmental sensitivities. As mentioned above, these alternatives provide for two (2) different power line route alignments, each contained within an assessment corridor (each 300m wide, 150m on either side of powerline).

The 'no-go' alternative is the option of not constructing the powerline project, which would prevent the realization of the hybrid facility and thus prevent electricity generated from renewable sources being fed into the national grid. This alternative would result in no additional environmental impact other than that assessed during the BA for the Renewable Energy (RE) facilities.

The 'no-go' option is a feasible option; however, this would prevent the hybrid facility from contributing to the environmental, social and economic benefits associated with the development of the renewables sector.

Accordingly, Mainstream has appointed SiVEST SA (Pty) Ltd (hereafter referred to as "SiVEST") to act as the independent Environmental Assessment Practitioner (EAP) to undertake the BA process as required in terms of Regulation 32 of GN R326 of the EIA Regulations, 2014 (as amended on 07 April 2017).

In addition, the following specialists will subsequently be commissioned to assess the various impacts of the proposed amendment:

- Avifauna;
- Soils and Agricultural Potential;
- Biodiversity (including fauna and flora);
- Surface Water;
- Heritage and Palaeontology;
- Socio-Economic;
- Geotechnical;
- Visual.

The competent authority for the BA process is the National Department of Environment, Forestry and Fisheries (DEFF). However, the provincial authority (namely the Northern Cape Department of Environment and Nature Conservation - NC DENC) will also be consulted. All relevant legislation and guidelines will also be consulted during the BA process and will be complied with at all times.

#### 2 ASSESSMENT OF PUBLIC INTEREST<sup>1</sup>

To determine the appropriate level of public participation, it is important to assess the degree to which the public considers the proposed development to be significant and of public interest. The public will become involved according to its perception of the development.

It must be noted that the closest town (namely Loeriesfontein) is more than 50km away from the proposed project development area.

Therefore, it is important to anticipate the public's level of interest or concern regarding a project or program. The assessment is based on prior project experience in the area and consultation with the DEFF.

Page 2

<sup>&</sup>lt;sup>1</sup> Assessment adapted from the Portland Development Commission 10-steps to creating PPP guide

| Questions |   | Very Low /<br>Level 1 | Low /<br>Level 2 | Moderate /<br>Level 3 | High /<br>Level 4 | Very High /<br>Level 5 |
|-----------|---|-----------------------|------------------|-----------------------|-------------------|------------------------|
| 1         | What is the anticipated level of conflict, concern, controversy, or opportunity?          |                       | x                |                       |                   |                        |
| 2         | How significant are the potential impacts to the public                                   |                       | х                |                       |                   |                        |
| 3         | How much do the major stakeholders care about this issue, project or program?             |                       |                  |                       | x                 |                        |
| 4         | What degree of involvement does the public appear to desire?                              |                       | х                |                       |                   |                        |
| 5         | What is the potential for public impact on the potential decision or project?             |                       |                  | х                     |                   |                        |
| 6         | How significant are the possible benefits of involving the public?                        |                       | x                |                       |                   |                        |
| 7         | How serious are the potential ramifications of NOT involving the public?                  |                       |                  | х                     |                   |                        |
| 8         | What level of public participation does the Authority desire/expect?                      |                       |                  | х                     |                   |                        |
| 9         | What is the possibility that the media will become interested?                            | x                     |                  |                       |                   |                        |
| 10        | What is the probable level of difficulty in solving the problem or advancing the project? |                       | x                |                       |                   |                        |
|           | Sub Total   | 1                     | 5                | 3                     | 1                 | 0                      |
|           | Sub Total multiplied by level   | 1                     | 10               | 9                     | 4                 | 0                      |
|           | Total (addition of levels)  |                       |                  | 24                    |                   |                        |
|           | Level of PP required (Total / 10)   |                       |                  | 2.4                   |                   |                        |

#### 3 DETERMINE LEVEL OF PUBLIC INTEREST

The Public Participation Spectrum below illustrates the four (4) levels of public participation: Public Information, Public Input, Public Involvement and Public Collaboration. Each of these levels serves a different purpose with a different outcome.

Based on our results from the assessment in **Chapter 2**, the Public Participation Spectrum below identifies the appropriate level of public participation as: "Solicit Input / Consult".

|   | Public Participation Spectrum               |   |   |  |  |  |  |  |  |  |
|---|---|---|---|--|--|--|--|--|--|--|
| Inform (1-1.9)  | Solicit Input / Consult (2-2.9)             | Involve (3-3.9)   | Collaborate (4-4.9)   |  |  |  |  |  |  |  |
| One-way communication between Dwarsrug WEF and Loeriesfontein 3 PV and the public to provide the public with balanced and objective information to assist them in understanding the problems, alternatives, opportunities and/or solutions. |   | Work directly with the public throughout the process to ensure that issues, aspirations and concerns are consistently understood and considered. Includes elements of public information and outreach, but adds a third dimension of two-way communication. | s some or all aspects of the planning d or decision including the development of alternatives and   |  |  |  |  |  |  |  |
| Public Engagement   |   |   |   |  |  |  |  |  |  |  |
| Keep stakeholders informed, and acknowledge concerns, a and provide feedback on he input influenced the decision.   |   | Work with stakeholders to ensure that their concerns, aspirations and issues are directly reflected in the alternatives developed and provide feedback on how public input influenced the decision.   | Look to stakeholders for direct advice and innovation in formulating solutions and incorporate their recommendations into the decisions to the maximum extent possible. |  |  |  |  |  |  |  |

## 4 PUBLIC PARTICIPATION PLAN, STAKEHOLDER IDENTIFICATION AND ENGAGEMENT

#### 4.1 PUBLIC PARTICIPATION PROCESS: LEGISLATIVE REQUIREMENTS

Public participation is the cornerstone of any BA process. The principles of NEMA as well as the EIA Regulations, 2014 (as amended), govern the BA process, including public participation. These include provision of sufficient and transparent information on an on-going basis to Interested and/or Affected Parties (I&APs) (**Appendix 1**) and key stakeholders, such as Organs of State (OoS) / authorities (**Appendix 2**), to allow them to comment, and to ensure the participation of previously disadvantaged people, women and the youth.

The public participation process is primarily based on two (2) factors, namely:

- 1. Firstly, on-going interaction with the environmental specialists and the technical teams in order to achieve integration of technical assessment and public participation throughout; and
- Secondly, to obtain the bulk of the issues to be addressed early on in the process, with the
  latter half of the process designed to provide environmental and technical evaluation of these
  issues. These findings are presented to stakeholders for verification that their issues have
  been captured and for further comment.

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 982). The primary aims of the Public Participation Process are:

- To inform I&APs and key stakeholders of the proposed development;
- To initiate meaningful and timeous participation of I&APs and key stakeholders;
- To identify issues and/or concerns of key stakeholders and I&APs with regards to the proposed development;
- To promote transparency and an understanding of the proposed development and its potential environmental impacts;
- To provide information used for decision-making;
- To provide a structure for liaison and communication with I&APs and key stakeholders;
- To assist in identifying potential environmental impacts associated with the proposed development;
- To ensure inclusivity (the views, needs, interests and values of I&APs and key stakeholders must be considered in the decision-making process);
- To focus on issues relevant to the proposed development and issues considered important by I&APs and key stakeholders;
- To provide responses to I&AP and key stakeholder queries / comments / concerns;
- To encourage co-regulation, shared responsibility and a sense of ownership; and
- Meet the requirements for Public Participation as stated in Chapter 6 of the EIA Regulations, 2014 (as amended).

In addition to the guidance of the Public Participation Process in the EIA Regulations, 2014 (as amended), every effort was also made to conform to the requirements of the Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000).

#### 4.1.1 COMPLIANCE WITH REGULATIONS AND SUBSEQUENT CIRCULARS

In terms of Chapter 6 of the EIA Regulations, 2014 (as amended), a BA application requires a 30-day Public Participation Process (PPP). However, in light of the country wide restriction enforced in terms of Government Gazette 43096 (GN R 313) which has resulted in the entire country being placed in a national state of disaster and limits the movement and gatherings of people in an effort to curb the spread CoVID-19, the public participation process has been amended and adjusted in light of these restrictions<sup>2</sup>.

As a result, **alternative means** of undertaking the required stakeholder engagement has been designed and implemented by SiVEST to ensure that all I&APs are afforded reasonable opportunity to engage meaningfully. As such, SiVEST are proposing the following amendments to the public participation process, described in more detail below. This Public Participation plan, detailed below, is being submitted to the DEFF for their review and approval.

#### 4.2 PROPOSED PUBLIC PARTICIPATION

**Figure 1** below provides an overview of the tools that are available to I&APs and stakeholders to access project information and interact with the public participation team to obtain project information and resolve any queries that may arise, and to meet the requirements for public participation.

Page 5

<sup>&</sup>lt;sup>2</sup> General Notice issued by the DEFF on 24 March 2020

- 1. Stakeholder Identification and registration of I&APs
- Register as an I&AP via SiVEST PPP office, via SMS, email or telephonically
- State interest in the project
- All project Information will be shared in preferred medium
- 2.Public Involvement and Consultation
- Submissions of questions / queries or information requests to SiVEST PPP via email, SMS or telephonically
- Availability of DBAR on online platfrom
- Availability of DBAR on a Zero Data website
- 3. Advert and Notifications
- Site Notices to be placed on site in **December 2020**
- Advert will be placed in Noordwester in December 2020
- Notifications regarding BA process and availability of project report for public review to be sent via email or SMS notifications
- 4. Comment on the EA Amendment Assessment Report
- Availability of the BA Report for a 30-day comment period
- Submission of comments on the BA Report via email, SMS or via telephone
- 5. Identification and recording of comments recieved
- Comments and Response Report (C&RR), including all comments received, and included within the final BA Report for decision making

|                                       | (same method used during public consultation described above).   | Regulations    |      |
|                                       | <ul> <li>Notification will be available on the project website, as well as the Data Free Portal.</li> </ul>  | regarding PPP  |      |

#### 4.3 PUBLIC PARTICIPATION WAY FORWARD

We thank the DEFF for their input to this process to date. We kindly request confirmation that a 30-day public comment period would suffice, based on Chapter 6 of the EIA Regulations, 2014 (as amended). Based on the assumption that this would be supported, the plan going forward is as follows:

#### Release of Draft BA Report for public comment:

- The Draft BA Report for the proposed development will be released for public review and comment for a period of 30 days (excluding public holidays) from **08 January 2021 to 08 February 2021**.
- The report will be uploaded on to the SiVEST Website at <a href="http://enviroenergy.sivest.co.za/download/16606BA">http://enviroenergy.sivest.co.za/download/16606BA</a> (the link to this portal will be on the main website whereby all registered I&APs can download the document at no cost).

#### Notification of I&APs, landowners and OoS / authorities:

- All affected landowners, the relevant provincial authority (namely the Northern Cape Department of Environment and Nature Conservation – NC DENC) and I&APs will be notified of the BA process.
- All landowners (affected and surrounding) and I&APs will be notified of the submission of the Draft BA Report and the 30-day public review and comment period accordingly.
- In addition, all Organs of State (OoS) / authorities will be sent electronic copies of the Draft BA Report.
- The 30-day review and comment period will be provided for both the public and for OoS / authorities, as required by the EIA Regulations (2014), as amended.
- All I&APs will be notified via Email and SMS, which is deemed suitable considering that contact details are available (i.e. a cellphone number confirms access to a cellphone).

#### Comments and Response Report (C&RR):

Comments received on the Draft BA Report will be included in the Final BA Report, which will be submitted to the DEFF for decision making at a later stage (within the timeframes as stipulated in the EIA Regulations, 2014, as amended). A full C&RR will also be drafted to capture all comments received during the BA process, including responses thereto. The C&RR will be included in the Final BA Report.

The public participation process will come to a close for the BA process when the decision on the BA is received and is made available to the public. All registered I&APs / stakeholders will be notified of the EA (should this be granted) and appeal process accordingly<sup>4</sup>.

#### 5 CONCLUSION

The Public Participation Plan, as set out above, has been drafted for the BA process for the to ensure that reasonable opportunity is provided to I&APs / stakeholders and that all administrative actions are reasonable. Proof of all correspondence and notifications will be included in the public participation appendix included in the BA Report(s).

The Public Participation Plan is submitted to the DEFF, for discussion and agreement before the Public Participation Process is undertaken for the proposed amendment process.

<sup>&</sup>lt;sup>4</sup> Section 43(1) of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA)

### 6 SCHEDULE

The public participation process will commence in January 2021. The Draft BA Report will be made available from 08 January 2021 to 08 February 2021.

The project schedule is presented below:

## **Appendix 1**

## **I&AP Database**

PROPOSED CONSTRUCTION OF 132 KV POWERLINES BETWEEN THE AUTHORISED LOERIESFONTEIN 3 PV SOLAR ENERGY FACILITY (12/12/20/2321/2/AM4) AND THE AUTHORISED DWARSRUG WIND ENERGY FACILITY (14/12/16/3/3/2/690/AM4), AND FROM THE DWARSRUG WIND ENERGY FACILITY TO THE AUTHORISED NAROSIES SUBSTATION (12/12/20/2049/3), LOCATED NEAR LOERIESFONTEIN IN THE HANTAM LOCAL MUNICIPALITY, NAMAKWA DISTRICT IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA.
