NOTICE OF A BASIC ASSESSMENT PROCESS FOR THE PROPOSED LEEUWMAX SOLAR PHOTOVOLTAIC (PV) PROJECT AND ASSOCIATED GRID INFRASTRUCTURE NEAR LEEUDORINGSTAD, NORTH WEST PROVINCE (Ref No: To be announced)

In terms of the National Environmental Management Act: 1986 (Act No. 107 of 1986) (NEMA) as amended and the Environmental Impact Assessment (EIA) Regulations under Government Notice No R983, R983, R984 and R985 promulgated on 4 December 2014 and amended on 07 April 2017, notice is hereby given that Upgrade Energy (Pty) Ltd (hereafter referred to as "Upgrade Energy"), has appointed SIVEST SA (Pty) Ltd, as the independent Environmental Assessment Practitioner (EAP), to undertake the required Basic Assessments (BAs) and Public Participation Processes (PPPs) for the above mentioned developments. The competent authority for the required Environmental Processes is the North West Department of Economic Development, Environment, Conservation and Tourism (NW DEDET).

PROJECT DESCRIPTION

In support of the need to diversify from coal as a main source of electricity and to find more sustainable and environmentally friendly energy resources, South Africa has embarked on an infrastructure growth programme supported by various government initiatives. In response to this goal, Upgrade Energy is proposing to construct a solar Photovoltaic (PV) facility with a generation capacity of up to 12MW, near Leeudoringstad in the North West Province. The overall objective of the project is to generate electricity by capturing solar energy to feed into the national electricity grid.

PROJECT LOCATION

The proposed PV project will be located approximately 5km north-east of Leeudoringstad in the Masepale Local Municipality within the Dr. Kenneth Kaunda District Municipality of the Northwest Province. The BEE application site falls on the following property:

- Portion 37 of the Farm Leeuwbosch No. 44

Centre Point Coordinates:
27°12'24.91"S
26°18'1.14"E

To register as an Interested and / or Affected Party (I/AAP) and / or to obtain additional information please submit your name, contact details (telephone number, postal address and email address) and the details which you have in the application to SIVEST as per the details below and please reference the "Leeuwx PV" in your correspondence:

SIVEST
Omgewingsuïding

KENNISGEWING VAN REGISTRASIEPROSES INGEVOLGE STAATSKENNISGEWING 2313 VIR DIE BEOOGDE ONTWIKKELING VAN DIE LEEUDORINGSTAD 132 kV KRAAGLYN TOT BY VAAL REEF TEN-KRAGTASIE, NOORDWES-PROVINSIE

Ingevolge die Nasionale Wet op Omgewingsuïding, 1989 (Wet 107 van 1989) (NEMA) soos gewysig, en die Aanvoeding van die Standaard vir die Ontwikkeling en Uitbreiding van Kraglyne en Substansies in Oorheersende Oorgaafreëls, Geleëde en die Uitbreiding van hierdie Infrastruktuur by die verskeie Omgewingsuïdinge te bekome, ingevolge Staatskennisgewing 2313 wat op 27 Julie 2022 afgekondig is, geskied kennisgewing dat Upgrade Energy (Ems.) Bpk. SIVEST SA (Ems.) Bpk. aangestel het om die onafhanklike Omgewingsuïdingepraktisiër (OEP) van die verskeie Registrasieprosesse ingevolge die Standaard en Oorheersende Oorgaafreëls (OEP) vir die onderstaande ontwikkeling te onderstaan.

PROJEKTOESKRYWING

Die projek bestaan uit die oprigting van 'n 132 kV kraglyn en verskeie substansies en infrastruktuur om die beoogde Leeudoringstad-omgewingsuïdinge met die Vaal Reef ten-Kragtasie te verbind. Die oorspronklike doeleinde van die beoogde ontwikkeling is om 'n dooiegeleëde 132 kV kraglyn van die verskeie sub-132 kV kraglyne te gebruik wat die Mercury- en Hemes-substansie aan die Vaal Reef ten-Kragtasie verbind. Hierdie projek sal die beoogde 132 kV kraglyn en verskeie substansies en infrastruktuur van Leeu-Thorn 500 kV tot by die Vaal Reef ten-Kragtasie (ongeveer 42 km).

PROJEKTOESKRYWING

Die projek bestaan uit die oprigting van 'n 132 kV kraglyn en verskeie substansies en infrastruktuur om die beoogde Leeudoringstad-omgewingsuïdinge met die Vaal Reef ten-Kragtasie te verbind. Die oorspronklike doeleinde van die beoogde ontwikkeling is om 'n dooiegeleëde 132 kV kraglyn van die verskeie sub-132 kV kraglyne te gebruik wat die Mercury- en Hemes-substansie aan die Vaal Reef ten-Kragtasie verbind. Hierdie projek sal die beoogde 132 kV kraglyn en verskeie substansies en infrastruktuur van Leeu-Thorn 500 kV tot by die Vaal Reef ten-Kragtasie (ongeveer 42 km).

Dear Interested and/or Affected Party (I&AP) / Stakeholder,

NOTICE OF THE ENVIRONMENTAL REGISTRATION PROCESS ITO GN 2313 FOR LEEUDORINGSTAD 132KV POWERLINE NORTH WEST PROVINCE

• AVAILABILITY OF DRAFT ENVIRONMENTAL SENSITIVITY REPORT FOR PUBLIC REVIEW

Please find attached an English letter notifying you of the review period as well the Background Information Document that provides further detail on the process being followed.

Should no comment be received within the 30-day review and commenting period ending 11 December 2022, it will be assumed that the relevant I&AP / stakeholder or State Department has no further comment to provide on the application.

SiVEST urge you to make use of the opportunities created by the public participation process to become actively involved in the process and provide comment or concerns which affect and/or interest you, or about which you would like more information. Your input into this process forms a key part of the environmental studies and we would like to hear from you to obtain your views on the proposed projects.

We would like to thank you in anticipation of your active and meaningful contribution to the registration and public participation processes.

Kind Regards,

Hlengiwe Ntuli

Project Secretary & PPP Administrators

NOTICE OF THE ENVIRONMENTAL AUTHORISATION PROCESS: LEEUMAX PV

Notice is hereby given of a Public Participation Process (PPP) to be undertaken in terms of the National Environment Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment (EIA) Regulations. **DEDECT Reference Number:** To be allocated upon submission of application

Nature and Location of Activity: The applicant, Upgrade Energy (Pty Ltd), is proposing to expand their already approved solar Photovoltaic (PV) facility at Leeubosch with a further generation capacity of up to 15MW. The PV site (Leeumax) is located approximately 6km north-east of Leeudoringstad in the Maquassi Hills Local Municipality, within the Dr Kenneth Kaunda District Municipality of the Northwest Province. The overall objective of the project is to generate electricity (by capturing solar energy) to feed into the national electricity grid.

Applications for Basic Assessment (BA) process for the proposed Solar Energy Facility and associated infrastructure will be submitted to the competent authority, the North West Department of Economic Development, Environment, Conservation and Tourism (NW DEDECT), for a decision.

To register as an Interested and / or Affected Party (I&AP) and / or to obtain additional information please submit your name, contact details (telephone number, postal address and email address) and the interest which you have in the application to SIVEST as per the details below and please reference the 'Leeumax PV' in your correspondence.

I, T.O POPIA, you hereby declare and confirm that you, as an I&AP providing information, consent for your information to be gathered, stored and distributed for the purpose of this project.

KENNISGEWING VAN DIE OMGEWINGSMAGTIGINGSPROSES: LEEUMAX FV

Kennis geskied hiermee van 'n Openbare Deelnameproses (ODP) wat ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 1998 van 107) soos gewysig, en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), onderneem moet word. **DEDECT-verwysingsnommer:** Sal toegeken word met indiening van aansoek

Aard en ligging van aktiwiteit: Die applikant, Upgrade Energy (Edms.) Bpk., beoog om hul reeds goedgekeurde Fotovoltaïese (FV) Sonkragaanleg te Leeubosch uit te brei met 'n verdere opwekkingsvermoë van hoogstens 15 MW. Die FV-terrein (Leeumax) is sowat 6 km noordoos van Leeudoringstad in die Maquassi Hills Plaaslike Munisipaliteit, in die Dr Kenneth Kaunda Distriksmunisipaliteit van die Noordwes-provinsie geleë. Die oorkoepelende doelwit met die projek is om elektrisiteit op te wek (deur sonkrag in te span) om by die nasionale kragnet in te voer.

Aansoeke vir die Basiese Evaluerings- (BE-) prosesse vir die beoogde Sonkragaanleg en verwante infrastruktuur sal by die bevoegde owerheid, die Noordwes Departement van Ekonomiese Ontwikkeling, Omgewing, Bewaring en Toerisme (NW DEDECT) ingedien word vir 'n besluit.

Om as 'n belangstellende en/of geaffekteerde party (B&GP) te registreer en/of om bykomende inligting te bekom, moet u asseblief u naam, kontakbesonderhede (telefoonnommer, pos- en e-posadres) en die belang wat u by die aansoek het by die onderstaande besonderhede aan SIVEST verstrek en die verwysing 'Leeumax PV' in u korrespondensie gebruik.

Ingevolge die Popi-wet, verklaar en bevestig u hiermee dat u, as 'n B&GP wat inligting verskaf, toestem dat u inligting vir die doel van hierdie projek ingewin, gestoor en versprei mag word.

Correspondence throughout the remainder of the PPP and BA Process will only be distributed to Registered I&APs.

Registration is possible throughout the BA Process.

Korrespondensie regdeur die res van die ODP en OIE-prosesse, sal slegs aan Geregistreerde B&GP's versprei word.

Registrasie kan regdeur die OIE-prosesse gedoen word.

A copy of the draft Basic Assessment Reports can be obtained on the SIVEST website at the following address: <https://www.sivest.com/za/download/> or at the Maquassi Hills Library, 56 Smuts Street Leeudoringstad, North West, 2891, or at Kgakala Library, 415 Tladi Street, Leeudoringstad, North West. The comment period for the Draft Basic Assessments will run from **21 NOVEMBER 2022 TO 12 JANUARY 2023.**

NOTICE OF THE ENVIRONMENTAL REGISTRATION PROCESS ITO GN 2313

Notice is hereby given of a Public Participation Process (PPP) to be undertaken in terms of the National Environment Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment (EIA) Regulations.

Nature and Location of Activity: The applicant, Upgrade Energy (Pty) Ltd, is proposing the construction and operation of electricity distribution infrastructure, to connect the proposed Leeudoringstad solar plants to the Vaal reef ten Power Station, in the Maquassi Hills and City of Matlosana Local Municipalities, within the Dr Kenneth Kaunda District Municipality, Northwest (NW) Province. The project is located within the gazetted Klerksdorp Renewable Energy Development Zone (REDZ) and EGI Corridor. The site verification process has confirmed the area as being of medium or low environmental sensitivity by the relevant specialists. The Standard for the Development and Expansion of Power Lines and Substations within Identified Geographical Areas and the Exclusion of this Infrastructure from the Requirement to obtain Environmental Authorisation will therefore apply and the determining authority for the proposed development will be the Department of Forestry, Fisheries and the Environment (DFFE). DFFE will be responsible for registering the proposed development.

Application for Registration for the proposed Leeudoringstad 132kV power line, and associated substations and infrastructure, will be submitted to the competent authority, the Department of Forestry, Fisheries and Environment (DFFE).

To register as an Interested and / or Affected Party (I&AP) and / or to obtain additional information please submit your name, contact details (telephone number, postal address and email address) and the interest which you have in the application to SIVEST as per the details below and please reference the **'Leeudoringstad 132kV power line'** in your correspondence.

I.T.O POPIA, you hereby declare and confirm that you, as an I&AP providing information, consent for your information to be gathered, stored and distributed for the purpose of this project.

KENNISGEWING VAN DIE OMGEWINGSMAGTIGINGSPROSES

Kennis geskied hiermee van 'n Openbare Deelnameproses (ODP) wat ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) soos gewysig, en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), onderneem moet word.

Aard en ligging van aktiwiteit: Die applikant, Upgrade Energy (Edms.) Bpk., beoog die konstruksie en bedryf van 'n elektrisiteitsverspreidingsinfrastruktuur, om die voorgestelde Leeudoringstad se Sonkragaanleg (SEF) te verbind met die Vaal Reef Ten Kragstasie, in die Maquassi Hills en Stad van Matlosana Plaaslike Munisipaliteite, geleë in Dr Kenneth Kaunda Distrik Munisipaliteit, Noordwes(NW) Provinsie. Die projek is geleë in die Klerksdorp Ontwikkelingsone vir Hernubare Energie(REDZ) en EGI Korridor, soos afgekondig in Staatskoerant. Die perseel verifikasie proses, onderneem deur spesialiste, het bevestig dat die area van medium tot lae omgewingssensitiwiteit is. Die Standaard vir die Ontwikkeling en Uitbreiding van kraglyne en substasies binne geïdentifiseerde areas, en die uitsluiting van hierdie infrastruktuur van die vereiste om omgewings magtiging te verkry, sal dus geld en die bevoegde owerheid vir die voorgestelde ontwikkeling sal die Departement van Bosbou, Visserye en die Omgewing(DBVO) wees. DBVO sal verantwoordelik wees vir die registrasie van die voorgestelde ontwikkeling.

Aansoeke om Registrasie vir die voorgestelde Leeudoringstad 132KV kraglyn en verwante infrastruktuur sal by die bevoegde owerheid, synde die Departement van Bosbou, Visserye en die Omgewing (DBVO) ingedien word.

Om as 'n Belangstellende en/of Geaffekteerde Party (B&GP) te registreer en/of om bykomende inligting te bekom, moet u asseblief u naam, kontakbesonderhede (telefoonnommer, pos- en e-posadres) en die belang wat u by die aansoek het, aan SIVEST verstrek by die onderstaande besonderhede en die verwysing **'Leeudoringstad 132kV power line'** in u korrespondensie gebruik.

Ten opsigte van die Popi-wet, verklaar en bevestig u hiermee dat u, as 'n B&GP wat inligting verskaf, toestem dat u inligting vir die doel van hierdie projek ingewin, gestoor en versprei mag word.

Die Stap-Lichtstapklub van Lichtenburg was baie bevoorreg om die Luiperdroete in Baviaanskloof in Oktober te kon beleef. Die roete behels ongelooflike mooi landskaptonele, rotsformasies, pragtige blomme en mooi oornagplekke soos op die foto’s gesien kan word. Stappers het onder geweldige hitte gestap en ongelukkig geen water op die roete gehad nie behalwe op een dag. Daar was nie bome vir koelte teen die hitte bo op die berge nie, maar hulle kon darem in die klowe bietjie koelte kry. Hulle was egter bederf om sementdamme by die oornagplekke te kon hê waarin hulle heerlik kon afkoel en daar was ook oorgenog water by die hutte om te drink en hul waterbottels te kon vul.

Stappers geniet die Luiperdroete in Baviaanskloof

Liggies se kultuursterre skitter helder

Baie geluk aan Juf. Shante Hayes (Beste Kleingroep – Senior Sêrgroep), Cara Odendaal (Beste kreatiewe Skryfkuns) en Miko Ferreira (Mees veelsydigste leerder vir Gr. 1 -12) van Hoërskool Lichtenburg wat trofee-wenners was tydens die Forte.

Baie geluk aan Cara Odendaal van Hoërskool Lichtenburg wat aan Con Spirito deelgeneem het, sy is as nasionale wenner in die kreatiewe Skryfkunsafdeling (Afrikaanse Poësie) aangewys.

Baie geluk aan Marilie Rossouw van Hoërskool Lichtenburg wat aan Con Spirito deelgeneem het, sy is as nasionale wenner in die Redenaarsafdeling aangewys vir toespraak – tweetalig.

Baie geluk aan Emmie Ferreira van Hoërskool Lichtenburg wat aan die Con Spirito deelgeneem het en as nasionale wenner in die volgende afdelings aangewys is: Instrumentaal – Piano, Ensemble – Yhe Entertainer Instrumentaal – Piano La Pasteur, Technical work, Reading – prepared reading poem, Reading – prepared reading, Lees – voorbereidig gedig en lees asook Drama – monoloog.

infrastructure Notice is hereby given of a Public Participation Process (PPP) to be undertaken in terms of the National Environment Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment (EIA) Regulations.

Nature and Location of Activity: The applicant, Upgrade Energy (Pty) Ltd, is proposing the construction and operation of electricity distribution infrastructure, to connect the proposed Leeudoringstad solar plants to the Vaal reef ten Power Station, in the Maquassi Hills and City of Matlosana Local Municipalities, within the Dr Kenneth Kaunda District Municipality, Northwest (NW) Province. The project is located within the gazetted Klerkdorp Renewable Energy Development Zone (REDZ) and EGI Corridor. The site verification process has confirmed the area as being of medium or low environmental sensitivity by the relevant specialists. The Standard for the Development and Expansion of Power Lines and Substations within Identified Geographical Areas and the Exclusion of this Infrastructure from the Requirement to obtain Environmental Authorisation will therefore apply and the determining authority for the proposed development will be the Department of Forestry, Fisheries and the Environment (DFFE). DFFE will be responsible for registering the proposed development.

Application for Registration for the proposed Leeudoringstad 132kV power line, and associated substations and infrastructure, will be submitted to the competent authority, the Department of Forestry, Fisheries and Environment (DFFE).

To register as an Interested and / or Affected Party (I&AP) and / or to obtain additional information please submit your name, contact details (telephone number, postal address and email address) and the interest which you have in the application to SiVEST as per the details below and please reference the 'Leeudoringstad 132kV power line' in your correspondence.

I.T.O POPIA, you hereby declare and confirm that you, as an I&AP providing information, consent for your information to be gathered, stored and distributed for the purpose of this project.

KENNISGEWING VAN DIE OMGEWINGSMAGTIGINGSPROSES

Kennis geskied hiermee van 'n Openbare Deelnameproses (ODP) wat ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) soos gewysig, en die Regulasies op Omgewingsimpakevaluerings (OIE-regulasies), onderneem moet word.

Aard en ligging van aktiwiteit: Die applikant, Upgrade Energy (Edms.) Bpk., beoog die konstruksie en bedryf van 'n elektrisiteitsverspreidingsinfrastruktuur, om die voorgestelde Leeudoringstad se Sonkragaanleg (SEF) te verbind met die Vaal Reef Ten Kragstasie, in die Maquassi Hills en Stad van Matlosana Plaaslike Munisipaliteit, geleë in Dr Kenneth Kaunda Distrik Munisipaliteit, Noordwes(NW) Provinsie. Die projek is geleë in die Klerksdorp Ontwikkelingsone vir Hernubare Energie(REDZ) en EGI Korridor, soos afgekondig in Staatskoerant. Die perseel verifikasie proses, onderneem deur spesialiste, het bevestig dat die area van medium tot lae omgewingsensitieweit is. Die Standaard vir die Ontwikkeling en Uitbreiding van kraglyne en substasies binne geïdentifiseerde areas, en die uitsluiting van hierdie infrastruktuur van die vereiste om omgewings magtiging te verkry, sal dus geld en die bevoegde owerheid vir die voorgestelde ontwikkeling sal die Departement van Bosbou, Visserye en die Omgewing(DBVO) wees. DBVO sal verantwoordelik wees vir die registrasie van die voorgestelde ontwikkeling.

Aansoek om Registrasie vir die voorgestelde Leeudoringstad 132KV kraglyn en verwante infrastruktuur sal by die bevoegde owerheid, synde die Departement van Bosbou, Visserye en die Omgewing (DBVO) ingedien word.

Om as 'n Belangstellende en/of Geaffekteerde Party (B&GP) te registreer en/of om bykomende inligting te bekom, moet u asseblief u naam, kontakbesonderhede (telefoonnommer, pos- en e-posadres) en die belang wat u by die aansoek het, aan SiVEST verstrek by die onderstaande besonderhede en die verwysing 'Leeudoringstad 132kV power line' in u korrespondensie gebruik.

Ten opsigte van die Popi-wet, verklaar en bevestig u hiermee dat u, as 'n B&GP wat inligting verskaf, toestem dat u inligting vir die doel van hierdie projek ingewin, gestoor en versprei mag word.

MOPANE SOLAR PV 4 & 5
MOPANE POWER LINE

Mopane Solar PV 1 is proposed on the Remainder of the farm Douglasdale 95 IQ, located within JB Marks Local Municipality, Dr Kenneth Kaunda District. North West Province.

Mopane Solar PV 2 & 3 are proposed on Portion 12 of the farm Blaauwbank 125 IQ, located within Merafong City Local Municipality, West Rand District, Gauteng Province.

Mopane Solar PV 4 & 5 are proposed on Portion 2 of the farm Rooidraai 85 IQ, located within JB Marks Local Municipality, Dr Kenneth Kaunda District, North West Province.

The proposed powerline will connect the five proposed facilities with the existing Eskom Carmel Main Transmission Substation (MTS) which is located on Portion 23 of the farm Doornfontein 118 IQ, located within the Merafong City Local Municipality, West Rand District Municipality, Gauteng Province.

Power Line No. 1 (Preferred Alternative) will traverse the following properties:

- Portion 12 of the farm Blaauwbank 125 IQ
- Portion 15 of the farm Blaauwbank 125 IQ
- Portion 13 of the farm Blaauwbank 125 IQ
- Portion 1 of the farm Varkenslaagte 119 IQ
- Portion 11 of the farm Varkenslaagte 119 IQ
- Portion 12 of the farm Varkenslaagte 119 IQ
- Portion 4 of the farm Varkenslaagte 119 IQ
- Portion 5 of the farm Varkenslaagte 119 IQ
- Portion 28 of the farm Doornfontein 118 IQ
- Portion 23 of the farm Doornfontein 118 IQ

Power Line No. 2 will traverse the following properties:

- Portion 12 of the farm Blaauwbank 125 IQ
- Remainder of the farm Welverdiend 754 IQ
- Portion 1 of the farm Welverdiend 754 IQ
- Portion 2 of the farm Varkenslaagte 119 IQ
- Portion 3 of the farm Varkenslaagte 119 IQ
- Portion 12 of the farm Varkenslaagte 119 IQ
- Portion 18 of the farm Varkenslaagte 119 IQ
- Portion 19 of the farm Varkenslaagte 119 IQ
- Portion 4 of the farm Varkenslaagte 119 IQ
- Portion 5 of the farm Varkenslaagte 119 IQ
- Portion 28 of the farm Doornfontein 118 IQ
- Portion 23 of the farm Doornfontein 118 IQ

An Environmental Impact Assessment (EIA) process is required for the PV power plants and the powerline. This process is currently being undertaken by AGES Limpopo (Pty) Ltd to determine whether the proposed activity will result in any significant environmental impacts. An application will be submitted to obtain environmental authorisation from the Department of Forestry, Fisheries and the Environment (DFFE) for the development of the proposed PV power plants and powerline.

An Integrated Water Use License Application (IWULA) will be submitted to Department of Water and Sanitation for all applicable water uses listed in Section 21 of the National Water Act, 1998 (Act 36 of 1998).

Municipality: Merafong City and JB Marks Local Municipalities
Proponent: Volitalia South Africa (Pty) Ltd
AGES (Pty) Ltd, PO Box 2526, POLOKWANE, 0700.
Consultants: Tel: (015) 291-1577 (Ref: Ms. H. von Well)
E-mail: hvonwell@ages-group.com

To ensure that you are identified as an interested and/or affected party (I&AP) ONLY in terms of environmental concerns regarding the above-mentioned processes, please submit your name, contact information and interest to the contact person given above within 30 days from publication of this notice.

RE: NOTICE OF THE ENVIRONMENTAL REGISTRATION PROCESS ITO GN 2313 FOR LEEUDORINGSTAD 132KV POWERLINE NORTH WEST PROVINCE - TELKOM/ OPENSERVE AFFECTED

With reference to your above-mentioned application, I hereby inform you that the proposed services are approved in terms of section 22 of the Electronic Communications Act 36 of 2005.

Underground crossing(s)/pipelines marked BLUE are important, and require supervisions by this Company.

Your attention is particularly directed to the marked paragraph(s).

1. Approved on conditions that, should if later be found necessary to deviate the existing communication line due to existing noise interference, the cost of such remedial action shall be repayable.
2. Crossing(s) marked BLUE do not meet these requirements, and the existing communication lines will have to be deviated to eliminate excessive noise interference and the cost will be for the power provider.
3. Paragraph 2.4.1 of the Code of Practice stipulates the minimum acceptable horizontal separation between power and the communication lines and where this cannot be met, the design of the power line is also stipulated. This could apply between the attached plan and these requirements should strictly be adhered to.
4. Calculations have shown that earth fault on the high voltage power lines will induce excessive low frequency induction into the communication line. As a result of this, the cost to deviate / alter the communication lines to prevent this induction will be for the power provider.

Telkom SA SOC Limited: Reg no 1991/005476/30. **Directors:** JA Mabuza (Chairman), SN Maseko (Group Chief Executive Officer), DJ Fredericks (Chief Financial Officer), S Botha, G Dempster, T Dinga, N Kapila*, I Kgaboesele, K Kweyama, K Mzondeki, F Petersen-Lurie, R Tomlinson, H Touré**, LL Von Zeuner. **Company Secretary:** E Motlhamme *India **Mali

5. At the points where this Company's existing or projected underground communication cable will be crossed by an underground cable, the latter should be laid at a depth of at least 300 mm below the communication cable - normally laid at depth of + 600 mm. If the power cables is not enclosed in a suitable pipe, protection in the form of a concrete slab should be provided immediately above the power cable for a minimum of 2 (two) meter on either side of the crossing.
6. In case where an underground power cable will run parallel with an existing or projected underground communication cable, a separation as great as possible should be maintained with minimum separation of 600mm. Should the separation be less than 600mm and the power cable is not enclosed in a suitable pipe, a concrete slab must be provided immediately above the power cable for the length of parallelism. If the separation is less than 300mm, additional protection is required by placing concrete slabs between. The TELKOM cables / pipes and the power cables.
7. The underground crossing(s) is/are important and require supervision by this Company. Please make arrangements for site visit 2(two) weeks prior to commencement of proposed work.
8. On completion of this project, please certify that all requirements as stipulated in this letter, have been met. If any alterations have to be made to this Company's services because above mentioned stipulations have not been met, the costs of such alterations will be for the account of the power provider.
9. Approval of the proposed route is valid for 6 months. If construction has not yet commenced within this time period the file must be resubmitted for approval. Any changes / deviations from the original planning during or prior to construction must be immediately communicated to this office.
10. Repayable estimated cost would be provided within 21 days of notification to proceed with the proposed service.
11. In order to minimize noise induction into the telecommunication System, the angle of crossing between the overhead power line and all communication lines, should be as near to a right angle as possible -the following deviation from the right angle as possible - the following deviation for the right angle being permitted at:

Power voltage of 48 kV and higher - 30 degrees
Power voltage of lower than 48 kV - 45 degrees
12. Suitable protection as laid down in section 5 of the Code of Practice should be provided at all important crossings.
13. At points of crossing, the overhead power lines should cross over the overhead communication lines with a minimum vertical separation of Meter(s).
14. Any damage to Telkom infrastructure please contact Cable Network Services.

Please acknowledge receipt of this letter and inform this Company in writing of the approximate date on which this work will commence and confirm on completion that this Company's requirements have been met.

PLEASE CONTACT BELOW FOR KICK-OFF MEETINGS: TELKOM/OPENSERVE INFRASTRUCTURE TO BE VERIFIED ON SITE PRIOR TO COMENCEMENT OF WORK.

Contact: (Cable Network Services, Operations Manager) **Henry Van Jaarsveld, 012 381 3223 or 081 362 5606, HenryVJ@openserve.co.za**
(Cable Network Services Manager) **Mark Langridge, 011 234 5552 or 081 317 5408**

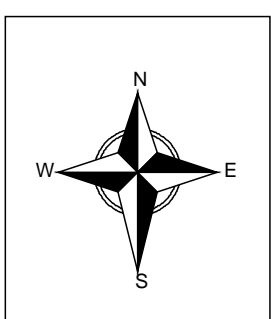

All Telkom SA SOC LTD rights remain reserved.

Yours Sincerely,

.....
