**DEFF-verwysingsno.: Moet nog toegeken word**

Ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA) (soos gewysig) en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), 2014 (soos gewysig), geskied kennisgewing hiermee dat SiVEST SA (Edms.) Bpk. aangestel is as die onafhanklike Omgewingsvalueringpraktisyn (OEP) om aansoek te doen om 'n Basiese Evaluering (BE) vir die bogenoemde projek.

**PROJEKBESKRYWING**

South Africa Mainstream Renewable Power Developments (Edms.) Bpk. (hierna "Mainstream" genoem) het SiVEST SA (Edms.) Bpk. (hierna "SiVEST" genoem) aangestel om 'n Basiese Evaluering (BE) vir die beoogde oprigting van 132 kV oorhoofse kraglyne tussen die beoogde (en gemagtigde) 100 MW Loeriesfontein 3 Fotovoltaïese (FV) Sonkragaanleg (SEF) (12/12/20/2321/2/AM4) en die beoogde (en gemagtigde) 140 MW Dwarsrug Windkragaanleg (WEF) (14/12/16/3/3/2/690/AM4); en tussen die Dwarsrug WEF en die beoogde (en gemagtigde) Narosies-substasie (12/12/20/2049/3) wat naby Loeriesfontein in die Noord-Kaapprovinsie van Suid-Afrika geleë is, te onderneem.

Daar word beoog dat die kraglyn vanaf die Loeriesfontein 3 FV SEF tot by die Dwarsrug WEF die SEF met die WEF sal verbind ten einde 'n hibriede hernubare kragaanleg te skep, wat sal verseker dat elektrisiteit konstant aan die nasionale kragnet voorsien word deur minstens een (1) of albei tegnologieë (naamlik FV-sonkrag en wind), op enige gegewe tyd. Daar word beoog dat die kraglyn vanaf die Dwarsrug WEF die bogenoemde hibriede hernubare kragaanleg by die goedgekeurde Narosies-substasie sal laat inskakel om die nasionale kragnet te voer.

Twee kraglynalternatiewe sal geëvalueer word om die Loeriesfontein 3 FV SEF met die Dwarsrug WEF te verbind en 'n enkele kraglyn word beoog om hierdie twee aanlegte vanaf die Dwarsrug WEF met die nasionale kragnet te verbind. Al drie kraglynroetebelynings sal binne-in 'n 300 m-wye evalueringkorridor (150 m aan elke kant van die kraglyn) geëvalueer word.

Die volgende Gelyste Aktiwiteite sal geaktiveer word:

Aktiwiteit-no.:	Voorsien die tersaaklike Basiese Evaluering (BE) aktiwiteit(e) soos uiteengesit in Lyskennisgewing 1 van die OIE-regulasies, 2014, soos gewysig	Beskryf die gedeelte van die beoogde projek waarop die toepaslike gelyste aktiwiteit betrekking het.
11 (i)	Die ontwikkeling van aanlegte of infrastruktuur vir die oorbring en verspreiding van elektrisiteit— (i) buite stedelike gebiede of nywerheidskomplekse met 'n vermoë van meer as 33, maar minder as 275 kilovolt.	Die beoogde ontwikkeling behels die oprigting van oorhoofse kraglyne wat buite 'n stedelike gebied geleë sal wees. Die beoogde kraglyne sal oor 'n vermoë van 132 kV beskik.
19	Die invulling of afsetting van enige materiaal van meer as 10 kubieke meter in, of die baggering, uitgraving, verwydering of verplasing van grond, sand, skulpe, skulpgruis, klippies of klip van meer as 10 kubieke meter, vanaf 'n waterloop.	Die beoogde kraglyne sal die baggering, uitgraving, verwydering of verplasing van grond, sand, skulpe, skulpgruis, klippies of klip van meer as 10 kubieke meter vanaf 'n waterloop behels.
28 (ii)	Residensiële, gemengde, kleinhandel-, kommersiële, nywerheids- of institusionele ontwikkelings, waar sodanige grondgebruik vir landbou, wildsboerdery, perdroyeleindes of bosaanplanting was op of ná 1 April 1998 en waar sodanige ontwikkeling: (ii) buite 'n stedelike gebied sal plaasvind waar die totale oppervlak van die grond wat ontwikkel moet word, groter as 1 hektaar is.	Die beoogde ontwikkelingsterrein is tans vir landbou gesoneer en die gebied wat ontwikkel moet word sal groter as 1 ha wees.

**PROJEKLISSING**

Die beoogde oprigting van 'n 132 kV kraglyn is geleë naby Loeriesfontein in die Hantam Plaaslike Munisipaliteit, Nama-Kwa-distrik in die Noord-Kaapprovinsie van Suid-Afrika.

**PROPOSED CONSTRUCTION OF 132 KV POWERLINES BETWEEN THE AUTHORISED LOERIESFONTEIN 3 PV SOLAR ENERGY FACILITY AND THE AUTHORISED DWARSRUG WIND ENERGY FACILITY, AND FROM THE DWARSRUG WIND ENERGY FACILITY TO THE AUTHORISED NAROSIES SUBSTATION, LOCATED NEAR LOERIESFONTEIN IN THE HANTAM LOCAL MUNICIPALITY, NAMAKWA DISTRICT IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA.**

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended), notice is hereby given that have SiVEST SA (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), to apply for a Basic Assessment (BA) for the above mentioned project.

**PROJECT DESCRIPTION**

South Africa Mainstream Renewable Power Developments (Pty) Ltd. (herein after referred to as "Mainstream") has appointed SiVEST SA (Pty) Ltd (hereafter referred to as "SiVEST") to undertake a Basic Assessment (BA) Process for the proposed construction of 132 kV overhead powerlines between the proposed (and authorised) 100MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4); and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa.

The powerline from the Loeriesfontein 3 PV SEF to the Dwarsrug WEF is proposed to link the SEF to the WEF in order to create a hybrid renewable energy facility, which will ensure that electricity is constantly supplied to the national grid by at least one or both technologies (namely solar PV and wind), at any given time. The powerline from the Dwarsrug WEF is proposed to tie the, above mentioned, hybrid renewable energy facility into the approved Narosies substation to feed the National grid.

Two powerline alternatives will be assessed to link the Loeriesfontein 3 PV SEF to the Dwarsrug WEF and a single powerline is proposed to link these two facilities to the National grid from the Dwarsrug WEF. All three powerline route alignments will be assessed within a 300m wide assessment corridor (150m on either side of powerline).

The following Listed Activities will be triggered:

Activity No(s):	Provide the relevant Basic Assessment Activity(ies) as set out in Listing Notice 1 of the EIA Regulations, 2014 as amended	Describe the portion of the proposed project to which the applicable listed activity relates.
11 (i)	<i>The development of facilities or infrastructure for the transmission and distribution of electricity— (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts.</i>	- The proposed development involves the construction of overhead powerlines which will be located outside an urban area. The proposed powerlines will have a capacity of 132 kV.
19	<i>The infilling or depositing of any material of more than 10 cubic meters into, or the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse.</i>	- The proposed powerlines will involve the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse
28 (ii)	<i>Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;</i>	- The proposed development site is currently zoned for agriculture, and the area to be developed will be larger than 1 ha.

**PROJECT LOCATION**

Proposed construction of 132 kV powerline is located near Loeriesfontein, in the Hantam Local Municipality, Namakwa District in the Northern Cape Province of South Africa.

## SiVEST

Autumnweg 12, Rivonia, 2128  
Posbus 2921, Rivonia, 2128  
Gauteng, Suid-Afrika

Gestig in 1952

Afdeling: Environmental Consulting  
U verwysing: South Africa Mainstream Renewable Power Developments  
Ons verwysing: 16606  
Datum: 08 Januarie 2021

Geagte Belangstellende en/of Geaffekteerde Party,

### KENNISGEWING VAN BASIESE EVALUERINGSPROSES (BE) VIR DIE BEOOGDE ONTWIKKELING VAN DIE 132 KV KRAGLYNE NABY LOERIESFONTEIN, NOORD-KAAPPROVINSIE

- DEFF-verwysingsno.: **Moet toegeken word**

Geliewe kennis te neem dat South Africa Mainstream Renewable Power Developments (Edms.) Bpk. (hierna 'Mainstream' genoem) SiVEST SA (Edms.) Bpk. aangestel het as die Omgewingsevalueringspraktisyn (OEP) vir die bogenoemde projek. SiVEST is besig om die Basiese Ewalueringsproses (BE-proses) vir die beoogde ontwikkeling te onderneem.

Ons gebruik hierdie geleentheid om u te verwittig dat die Konsep Basiese Ewalueringsverslag (KBEV) vir die bogenoemde projek ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA) (soos gewysig), vanaf **Vrydag, 08 Januarie 2021 tot Maandag, 08 Februarie 2021** (teen sluitingstyd) beskikbaar sal wees vir openbare kommentaar en insae.

'n Elektroniese kopie van die KBEV kan op 'n tablet besigtig word wat by die volgende openbare plek voorsien word. Die tablet sal by die volgende plek beskikbaar wees vir insae op die onderstaande toegewese tyd:

Plek	Adres	Ure oop	Kontak**
Loeriesfontein Biblioteek	Pleinstraat, Loeriesfontein	08:00 – 17:00	027 662 1603

Die verslag, sowel as die meegaande bylaes, sal ook op die volgende webwerf beskikbaar gestel word: <http://enviroenergy.sivest.co.za/download/16606BA>. As u 'n elektroniese kopie van die KBEV in u elektroniese medium van u keuse wil ontvang, moet u dit asseblief skriftelik by ons versoek. Kommentaar kan ingedien word by:

#### Hlengiwe Ntuli

Dear Interested and/or Affected Party (I&AP),

**NOTIFICATION OF BASIC ASSESSMENT (BA) PROCESS FOR THE PROPOSED DEVELOPMENT OF THE 132KV POWER LINES NEAR LOERIESFONTEIN, NORTHERN CAPE PROVINCE**

- **DEFF Ref No: To be allocated**

SiVEST SA (Pty) Ltd has been appointed by South Africa Mainstream Renewable Power Developments (Pty) Ltd (herein after referred to as "Mainstream") as the Environmental Assessment Practitioner (EAP) for the above-mentioned project. SiVEST is in the process of undertaking the Basic Assessment (BA) process for the proposed development.

We would like to take this opportunity to inform you that, in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended), the Draft Basic Assessment Report (DBAR) for the above-mentioned project will be available for public comment and review as from **Friday 08 January 2021 to Monday 08 February 2021** (end of business day).

An electronic copy of the DBAR can be reviewed on a Tablet provided at the following public place. The tablet will be located at the following location and will be available for review at the below designated time:

Locations	Address	Open Hours	Contact**
Loeriesfontein Library	Plein Street, Loeriesfontein	08:00 – 17:00	027 662 1603

The report as well as the accompanying appendices will also be made available on the following website: <http://enviroenergy.sivest.co.za/download/16606BA>. Should you wish to receive an electronic copy of the DBAR in your preferred electronic medium, please forward your request in writing to us. Comments can be submitted to:

**Hlengiwe Ntuli**

### ATTENTION: TO WHOM IT MAY CONCERN

To Whom it may concern,

**PROPOSED CONSTRUCTION OF 132KV POWERLINES BETWEEN THE AUTHORISED LOERIESFONTEIN 3 PV SOLAR ENERGY FACILITY AND THE AUTHORISED DWARSRUG WIND ENERGY FACILITY, AND FROM THE DWARSRUG WIND ENERGY FACILITY TO THE AUTHORISED NAROSIES SUBSTATION, LOCATED NEAR LOERIESFONTEIN IN THE HANTAM LOCAL MUNICIPALITY, NAMAKWA DISTRICT IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA – DEFF Reference Number: To be Allocated**

#### ▪ REQUEST FOR COMMENT FOR CIVIL AVIATION COMPLIANCE STATEMENT

SiVEST SA (Pty) Ltd (hereafter referred to as “SiVEST”) is undertaking a Basic Assessment (BA) process for the proposed construction of 132 kilovolt (kV) overhead powerlines between the proposed (and authorised) 100MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4); and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa (hereafter referred to as “the proposed development”).

The Draft Basic Assessment Report (DBAR) for the above-mentioned proposed development is currently being circulated for public participation for a period of 30 days (excluding public holidays), **from 08 January 2021 until 08 February 2021**. All I&APs and key stakeholders, such as Organs of State (OoS) / authorities, who are registered on the project database were subsequently notified of the submission of the DBAR and the above-mentioned, DEFF approved 30-day public review and comment period accordingly. It should be noted that both the SACAA and Air Traffic and Navigation Services Company Limited (ATNS) have been registered on the project database and have been notified about the proposed development accordingly, using the contact details below:

As part of the Protocol for the Assessment and Reporting of Environmental Impacts on Civil Aviation Installations<sup>1</sup>, an applicant intending to undertake an activity identified in the Scope of this Protocol, proposed on a site identified by the national web based environmental screening tool as being of “very high”, “high”, “medium” or “low” sensitivity for civil aviation must submit a Civil Aviation Compliance Statement. According to the above-mentioned Protocol, the Civil Aviation Compliance Statement must contain, as a minimum, the following information:

- 1) A comment, in writing, from the South African Civil Aviation Authority (SACAA), which may include inputs from the Obstacle Evaluation Committee (OEC), if appropriate, confirming no unacceptable impact on civil aviation installations;
- 2) Should comment from the SACAA require further assessment, a copy of the assessment report and mitigation measures is to be attached with the Compliance Statement as part of the Basic Assessment Report (BAR).

Inputs from the SACAA will be considered by the relevant competent authority (namely the National Department of Environment, Forestry and Fisheries – DEFF) for decision making. In addition, a signed copy of the Civil Aviation Compliance Statement must be appended to the BA Report.

It should be noted that SiVEST undertook a preliminary screening of the proposed development site using the DEFF’s web based environmental screening tool (<https://screening.environment.gov.za/screeningtool/>). Based on the results of the National Web Based Environmental Screening Tool Report (attached), the proposed development site was confirmed to have a **“High Sensitivity”** with regards to the Civil Aviation Theme, as a portion of the proposed development is located *“within 8km of other civil aviation aerodrome”* (see attached Environmental Screening Tool Report). According to the Protocol for the Assessment and Reporting of Environmental Impacts on Civil Aviation Installations, a High Sensitivity Rating means that there is potential for negative impacts on the civil aviation installations that can potentially be mitigated. In addition, it is likely that further assessment and mitigation measures are required (Footnote 1).

Although the proposed development is potentially expected to impact directly on aviation and air traffic safety and impacts on the civil aviation installations are expected (although not significant), due to its high sensitivity, ATNS and the SACAA have been consulted throughout the BA process as OoS in order to confirm this and to ensure that the required approvals are obtained, where necessary.

In light of the above, SiVEST kindly requests that your Department provide comment and/or inputs on the DBAR for inclusion in the Final BA Report no later than Monday the 01<sup>st</sup> of February 2021.

Your earliest possible response in this regard will be greatly appreciated. Please also do not hesitate to contact SiVEST should there be any issues or should you wish to discuss this matter.

---

<sup>1</sup> As published in Government Notice No. 648 of 10 May 2019:

## Environmental screening results and assessment outcomes

The following sections contain a summary of any development incentives, restrictions, exclusions or prohibitions that apply to the proposed development site as well as the most environmental sensitive features on the site based on the site sensitivity screening results for the application classification that was selected. The application classification selected for this report is: Utilities Infrastructure | Electricity | Distribution and Transmission | Powerline | Powerline.

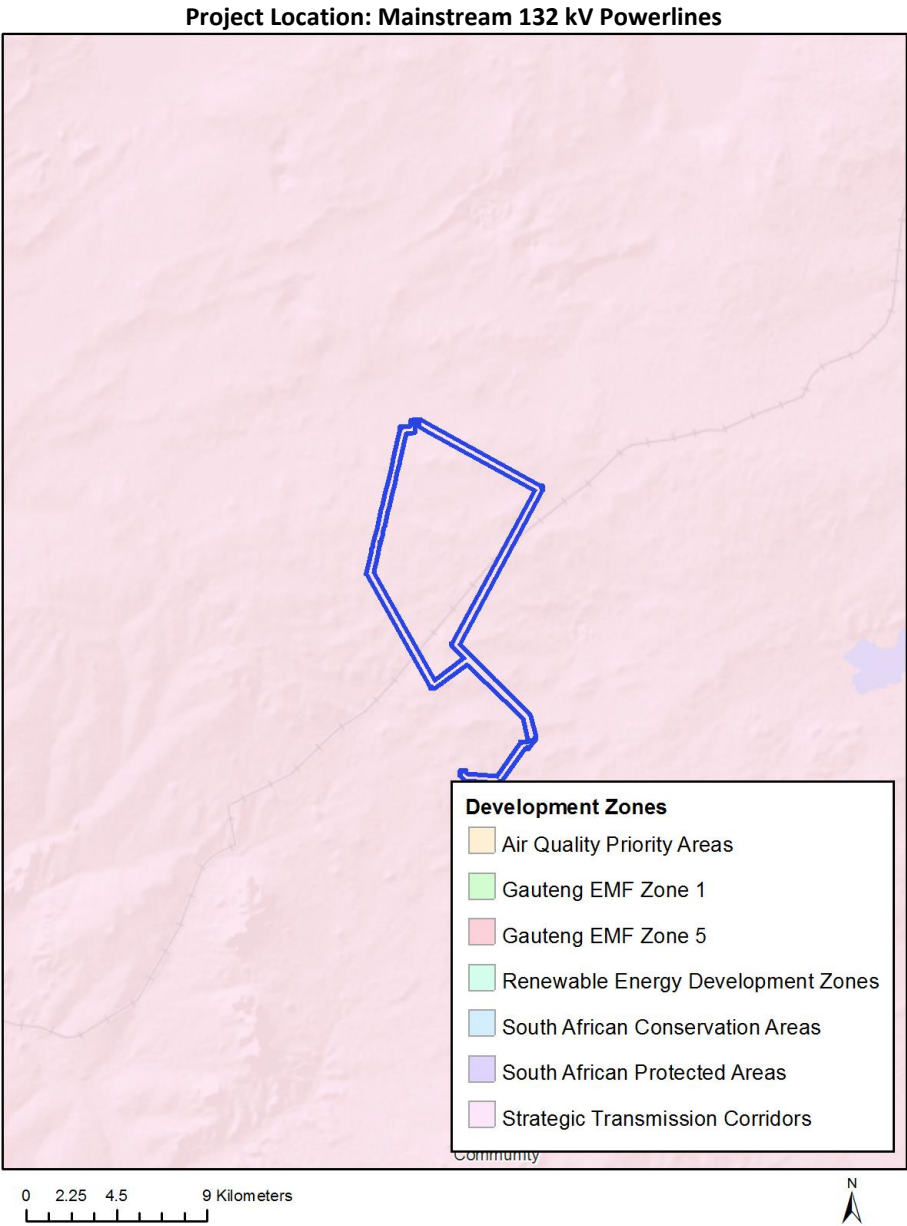

## Relevant development incentives, restrictions, exclusions or prohibitions

The following development incentives, restrictions, exclusions or prohibitions and their implications that apply to this site are indicated below.

Incentive, restriction or prohibition	Implication
Strategic Transmission Corridor- Western corridor	<a href="https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/GN11316February2018.pdf">https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/GN 113 16 February 2018.pdf</a>

<sup>1</sup> “development footprint”, means the area within the site on which the development will take place and includes all ancillary developments for example roads, power lines, boundary walls, paving etc. which require vegetation clearance or which will be disturbed and for which the application has been submitted.

Map indicating proposed development footprint within applicable development incentive, restriction, exclusion or prohibition zones

**Proposed Development Area Environmental Sensitivity**

The following summary of the development site environmental sensitivities is identified. Only the highest environmental sensitivity is indicated. The footprint environmental sensitivities for the proposed development footprint as identified, are indicative only and must be verified on site by a suitably qualified person before the specialist assessments identified below can be confirmed.

Theme	Very High sensitivity	High sensitivity	Medium sensitivity	Low sensitivity
Agriculture Theme			X	
Animal Species Theme		X		

Aquatic Biodiversity Theme	X			
Archaeological and Cultural Heritage Theme		X		
Civil Aviation Theme		X		
Defence Theme				X
Paleontology Theme	X			
Plant Species Theme			X	
Terrestrial Biodiversity Theme	X			

### Specialist assessments identified

Based on the selected classification, and the environmental sensitivities of the proposed development footprint, the following list of specialist assessments have been identified for inclusion in the assessment report. It is the responsibility of the EAP to confirm this list and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation.

<b>N o</b>	<b>Special ist assessm ent</b>	<b>Assessment Protocol</b>

12 Autumn Road, Rivonia, 2128  
PO Box 2921, Rivonia, 2128  
Gauteng, South Africa

Established 1952

Obstacle Evaluation Committee (OEC)

**Via Email:**

**ATTENTION: TO WHOM IT MAY CONCERN**

vision: Environmental Consulting  
our Reference: Dwarsrug-Loeriesfontein Compliance Statement  
ur Reference: 16606 – Dwarsrug-Loeriesfontein Grid BA  
ate: 08 January 2021

To Whom it may concern,

### **PROPOSED CONSTRUCTION OF 132KV POWERLINES BETWEEN THE AUTHORISED LOERIESFONTEIN 3 PV SOLAR ENERGY FACILITY AND THE AUTHORISED DWARSRUG WIND ENERGY FACILITY, AND FROM THE DWARSRUG WIND ENERGY FACILITY TO THE AUTHORISED NAROSIES SUBSTATION, LOCATED NEAR LOERIESFONTEIN IN THE HANTAM LOCAL MUNICIPALITY, NAMAQUA DISTRICT IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA – DEFF Reference Number: To be Allocated**

#### **▪ REQUEST FOR COMMENT FOR DEFENCE COMPLIANCE STATEMENT**

SiVEST SA (Pty) Ltd (hereafter referred to as “SiVEST”) is undertaking a Basic Assessment (BA) process for the proposed construction of 132 kilovolt (kV) overhead powerlines between the proposed (and authorised) 100MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4); and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa (hereafter referred to as “the proposed development”).

The Draft Basic Assessment Report (DBAR) for the above-mentioned proposed development is currently being circulated for public participation for a period of 30 days (excluding public holidays), **from 08 January 2021 until 08 February 2021**. All I&APs and key stakeholders, such as Organs of State (OoS) / authorities, who are registered on the project database were subsequently notified of the submission of the DBAR and the above-mentioned, DEFF approved 30-day public review and comment period accordingly. It should be noted that the Department of Defence / SA Army has been registered on the project database and has been notified about the proposed development accordingly using the contact details below:

#### **Department of Defence / SA Army:**

As part of the Protocol for the Assessment and Reporting of Environmental Impacts on Defence Installations<sup>1</sup>, an applicant intending to undertake an activity identified in the Scope of this Protocol proposed on a site identified by the national web based environmental screening tool as being of “very high”, “high”, “medium” or “low” sensitivity for defence must submit a Defence Compliance Statement. The Defence Compliance Statement must indicate whether or not the proposed development will have an unacceptable negative impact on defence installations. In addition,

<sup>1</sup> As published in Government Notice No. 648 of 10 May 2019:

[https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/DraftGazetted\\_Defence\\_Installations\\_Assessment\\_Protocols.pdf](https://screening.environment.gov.za/ScreeningDownloads/AssessmentProtocols/DraftGazetted_Defence_Installations_Assessment_Protocols.pdf)

In South Africa & Mauritius

according to the above-mentioned Protocol, the Defence Compliance Statement must contain, as a minimum, the following information:

- 1) A comment, in writing, from the Obstacle Evaluation Committee (OEC) confirming no unacceptable impact on military areas of interest;
- 2) Should the comment from the OEC require further assessment, a copy of the assessment report and mitigation measures is to be attached with the Compliance Statement as part of the Basic Assessment Report or Environmental Impact Assessment Report. The assessment must be in accordance with the requirements stipulated by the OEC.

Inputs from the OEC will be considered by the relevant competent authority (namely the national Department of Environment, Forestry and Fisheries - DEFF) for decision making. In addition, a signed copy of the full Defence Compliance Statement must be appended to the BA Report.

It should be noted that SiVEST undertook a preliminary screening of the proposed development site using the DEFF's web based environmental screening tool (<https://screening.environment.gov.za/screeningtool/>). Based on the results of the National Web Based Environmental Screening Tool Report (attached), the proposed development site was confirmed to have a "**Low Sensitivity**" with regards to the Defence Theme. According to the Protocol for the Assessment and Reporting of Environmental Impacts on Defence Installations, a Low Sensitivity Rating means that no negative impacts on the defence installation are expected in low sensitivity areas. In addition, it is unlikely for further assessment and mitigation measures are required (Footnote 1).

Although the proposed development is not expected to impact negatively on defence installations, due to its low sensitivity, the OEC is being consulted throughout the BA process in order to confirm this and to ensure that the required approvals are obtained, where necessary.

In light of the above, SiVEST kindly requests that the OEC provide comment and/or inputs or advise whether further assessment will be required for the proposed BESS Facility and associated infrastructure for inclusion in the Final BA Report no later than Monday the 01<sup>st</sup> of February 2021. A signed copy of the Defence Compliance Statement or a copy of the assessment report and mitigation measures attached with the Compliance Statement will be appended to the Final BA Report accordingly (depending on which is required).

Your earliest possible response in this regard will be greatly appreciated. Please also do not hesitate to contact SiVEST should there be any issues or should you wish to discuss this matter.

Yours faithfully

**BEOOGDE OPRIGTING VAN 132 KV KRAGLYNE TUSSEN DIE GEMAGTIGDE LOERIESFONTEIN 3 FV-SONKRAGAANLEG EN DIE GEMAGTIGDE DWARSRUG WINDKRAAGANLEG EN, VANAF DIE DWARSRUG WINDKRAAGANLEG TOT BY DIE GEMAGTIGDE NAROSIES SUBSTASIE GELEE NABY LOERIESFONTEIN IN DIE HANTAM PLAASLIKE MUNISIPALITEIT, NAMAKWA-DISTRIK IN DIE NOORD-KAAPROVINSIE VAN SUID-AFRIKA.**  
**DEFF-verwysingsno.: Moet nog toegeken word**

Ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA) (soos gewysig) en die Regulasies op Omgewingsimpak-evaluering (OIE-regulasies), 2014 (soos gewysig), geskied kennisgewing hiermee dat SIVEST SA (Edms.) Bpk. aangestel is as die onafhanklike Omgewings-evalueringpraktisyn (OEP) om aansoek te doen om 'n Basiese Evaluering (BE) vir die bogenoemde projek.

**PROJEK BESKRYWING**  
 South Africa Mainstream Renewable Power Developments (Edms) Bpk. (hierna "Mainstream" genoem) het SIVEST SA (Edms) Bpk. (hierna "SIVEST" genoem) aangestel om 'n Basiese Evaluering (BE) te doen van die nasionale kragnet voorsien deur minstens een (1) of albei tegnologieë (naamlik FV-sonkrag en wind) op enige gegewe tyd. Daar word beoog dat die kraglyn vanaf die Dwarsrug WEF die bogenoemde hibriede hernubare kragaanleg by die goedgekeurde Narosies-substasie sal laat inskakel om die nasionale kragnet te voer. Daar word beoog dat die kraglyn vanaf die Loeriesfontein 3 FV SEF tot by die Dwarsrug WEF die SEF met die WEF sal verbind ten einde 'n hibriede hernubare kragaanleg te skep, wat sal verseker dat elektrisiteit konstant aan die nasionale kragnet voorsien word deur minstens een (1) of albei tegnologieë (naamlik FV-sonkrag en wind) op enige gegewe tyd. Daar word beoog dat die kraglyn vanaf die Dwarsrug WEF die bogenoemde hibriede hernubare kragaanleg by die goedgekeurde Narosies-substasie sal laat inskakel om die nasionale kragnet te voer. Twee kraglyneroute sal geëvalueer word om die Loeriesfontein 3FV SEF met die Dwarsrug WEF te verbind en 'n enkele kraglyn word beoog om hierdie twee aanlegte vanaf die Dwarsrug WEF met die nasionale kragnet te verbind. Al drie kraglynroetebelynings sal binne-in 'n 300 m-wye evalueringkorridor (150 m aan elke kant van die kraglyn) geëvalueer word. Die volgende Gelyste Aktiwiteite sal geaktiveer word.

Aktiwiteit Nr.:	Voorsien die tersaaklike Basiese Evalueringstiwiteit(e) soos uiteengesit in Lyskennisgewing 1 van die OIE-regulasies, 2014, soos gewysig	Beskrif die gedeelte van die beoogde projek waarop die toepaslike gelyste aktiwiteit betrekking het.
11 (i)	Die ontwikkeling van aanlegte of infrastruktuur vir die oorbring en verspreiding van elektrisiteit— (i) buite stedelike gebiede of nywerheidskomplekse met 'n vermoë van meer as 33, maar minder as 275 kilowatt.	* Die beoogde ontwikkeling behels die oprigting van oorhoofse kraglyne wat buite 'n stedelike gebied geleë sal wees. Die beoogde kraglyn sal oor 'n vermoë van 132 kV beskik.
19	Die invulling of afsetting van enige materiaal van meer as 10 kubieke meter in, of die baggering, uitgraving, verwydering of verplasing van grond, sand, skulpe, skulpgruis, klipplies of klip van meer as 10 kubieke meter, vanaf 'n waterloop.	* Die beoogde kraglyn sal die baggering, uitgraving, verwydering of verplasing van grond, sand, skulpe, skulpgruis, klipplies of klip van meer as 10 kubieke meter vanaf 'n waterloop behels.
28 (ii)	Residensiële, gemengde, kleinhandel, kommersiële, nywerheids- of institusionele ontwikkelings, waar sodanige grondgebruik vir landbou, wildsboerdery, perdrydoel-eindes of bosaanplanting was op of ná 1 April 1998 en waar sodanige ontwikkeling: (i) buite 'n stedelike gebied sal plaasvind waar die totale oppervlak van die grond wat ontwikkel moet word, groter as 1 hektaar is.	* Die beoogde ontwikkelingssterrein is tans vir landbou gesoneer en die gebied wat ontwikkel moet word sal groter as 1 ha wees.

**PROJEKLISSING**  
 Die beoogde oprigting van 'n 132 kV kraglyn is geleë naby Loeriesfontein in die Hantam Plaaslike Munisipaliteit, Namakwa-distrik in die Noord-Kaapprovinsie van Suid-Afrika.

**TLU KLIM ONDER MALEMA IN****Hy is aangekla van terrorisme**

PRETORIA — Die dreigemente van Julius Malema oor die polisie is vir TLU SA onaanvaarbaar en 'n bedreiging vir stabiliteit in die land.

Suid-Afrika, en spesifiek die regering, staan op die oomblik voor een van sy grootste toetse van geloofwaardigheid en stabiliteit, in hulle hantering van die voorval.

Die leier van die EFF het tydens 'n byeenkoms in die Vrystaat gesê dat hulle polisie die in hulle huise sal aanval.

Die president van TLU SA, mnr. Henry Geldenhuys, het in Sheepmoor, Mpumalanga 'n klag van terrorisme en ondermyning teen mnr. Malema gelê oor hierdie uitsprake. "Dit is totaal onaanvaarbaar dat enige persoon blaat en in die openbaar 'n aanslag teen die SAPD en sy lede loods," sê mnr. Geldenhuys. "Die SAPD verteenwoordig die gesag in ons land en sodanige aanslag moet dus in die ernstigste moontlike lig gesien word. Die feit dat hy ook 'n sittende lid van die Parlement is, behoort verswaerd te word teen hom te tel.

"Die staats behoort alle regsmiddele tot hul beskikking in werking te stel, om kortte mette te maak van hierdie soort gedrag en uitsprake. "Dit is vir ons as landbouers onaanvaarbaar dat ongegronde stellings soos hierdie gemaak word," sê mnr. Geldenhuys. "Dit is kommerwekkend dat 'n klimaat geskep word waarin verskille met fisiese geweld besleg kan word. Mnr. Malema en sy trawante se uitsprake dra gewis by tot die geweldskultuur wat Suid-Afrika teister en elke wetsgehoorsame burger se toekoms steel. "Die regering moet in hul optrede teen mnr. Malema wys of hulle regtig die land regteer en of hulle maar eintlik — soos baie keer beweerd word — net pionne in die EFF se spel is."

**SIVEST**  
Established 1952

**PROPOSED CONSTRUCTION OF 132 KV POWERLINES BETWEEN THE AUTHORISED LOERIESFONTEIN 3 PV SOLAR ENERGY FACILITY AND THE AUTHORISED DWARSRUG WIND ENERGY FACILITY, TO THE AUTHORISED NAROSIES SUBSTATION LOCATED NEAR LOERIESFONTEIN IN THE HANTAM LOCAL MUNICIPALITY, NAMAKWA DISTRICT IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA.**  
**DEFF REF No. To be allocated**

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended), notice is hereby given that SIVEST SA (Pty) Ltd has been appointed as the Independent Environmental Assessment Practitioner (EAP), to apply for a Basic Assessment (BA) for the above mentioned project.

**PROJECT DESCRIPTION**

South Africa Mainstream RENEWABLE Power Developments (Pty) Ltd (herein after referred to as "Mainstream") has appointed SIVEST SA (Pty) Ltd (hereafter referred to as "SIVEST") to undertake a Basic Assessment (BA) Process for the proposed construction of 132 KV overhead powerlines between the proposed (and authorised) 100 MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140 MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4), and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa.

The powerline from the Loeriesfontein 3 PV SEF to the Dwarsrug WEF is proposed to link the SEF to the WEF in order to create a hybrid renewable energy facility, which will ensure that electricity is constantly supplied to the national grid by at least one or both technologies (namely solar PV and wind), at any given time. The powerline from the Dwarsrug WEF is proposed to tie the, above mentioned, hybrid renewable energy facility into the approved Narosies substation to feed the National grid.

Two powerline alternatives will be assessed to link the Loeriesfontein 3 PV SEF to the Dwarsrug WEF and a single powerline is proposed to link these two facilities to the National grid from the Dwarsrug WEF. All three powerline route alignments will be assessed within a 300m wide assessment corridor (150m on either side of powerline).

The following Listed Activities will be triggered:

Activity No(s)	Provide the relevant Basic Assessment Activity(ies) as set out in Listing Notice 1 of the EIA Regulations, 2014 as amended	Describe the portion of the proposed project to which the applicable listed activity relates.
11 (i)	The development of facilities or infrastructure for the transmission and distribution of electricity – (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts.	* The proposed development involves the construction of overhead power lines which will be located outside an urban area. The proposed power line will have a capacity of 132 kV.
19	The infilling or depositing of any material of more than 10 cubic meters into, or the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse.	* The proposed power lines will involve the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse
28 (ii)	Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;	* The proposed development site is currently zoned as for agriculture, and the area to be developed will be larger than 1 ha.

**PROJECT LOCATION**

Proposed construction of 132 kV powerline is located near Loeriesfontein, in the Hantam Local Municipality, Namakwa District in the Northern Cape Province of South Africa.

**DEFF-verwysingsno.: Moet nog toegeken word**

Ingevolge die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA) (soos gewysig) en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), 2014 (soos gewysig), geskied kennisgewing hiermee dat SiVEST SA (Edms.) Bpk. aangestel is as die onafhanklike Omgewingsevalueringpraktisyn (OEP) om aansoek te doen om 'n Basiese Evaluering (BE) vir die bogenoemde projek.

**PROJEKBESKRYWING**

South Africa Mainstream Renewable Power Developments (Edms.) Bpk. (hierna "Mainstream" genoem) het SiVEST SA (Edms.) Bpk. (hierna "SiVEST" genoem) aangestel om 'n Basiese Evaluering (BE) vir die beoogde oprigting van 132 kV oorhoofse kraglyne tussen die beoogde (en gemagtigde) 100 MW Loeriesfontein 3 Fotovoltaïese (FV) Sonkragaanleg (SEF) (12/12/20/2321/2/AM4) en die beoogde (en gemagtigde) 140 MW Dwarsrug Windkragaanleg (WEF) (14/12/16/3/3/2/690/AM4); en tussen die Dwarsrug WEF en die beoogde (en gemagtigde) Narosies-substasie (12/12/20/2049/3) wat naby Loeriesfontein in die Noord-Kaapprovinsie van Suid-Afrika geleë is, te onderneem.

Daar word beoog dat die kraglyn vanaf die Loeriesfontein 3 FV SEF tot by die Dwarsrug WEF die SEF met die WEF sal verbind ten einde 'n hibriede hernubare kragaanleg te skep, wat sal verseker dat elektrisiteit konstant aan die nasionale kragnet voorsien word deur minstens een (1) of albei tegnologieë (naamlik FV-sonkrag en wind), op enige gegewe tyd. Daar word beoog dat die kraglyn vanaf die Dwarsrug WEF die bogenoemde hibriede hernubare kragaanleg by die goedgekeurde Narosies-substasie sal laat inskakel om die nasionale kragnet te voer.

Twee kraglynalternatiewe sal geëvalueer word om die Loeriesfontein 3 FV SEF met die Dwarsrug WEF te verbind en 'n enkele kraglyn word beoog om hierdie twee aanlegte vanaf die Dwarsrug WEF met die nasionale kragnet te verbind. Al drie kraglynroetebelynings sal binne-in 'n 300 m-wye evalueringkorridor (150 m aan elke kant van die kraglyn) geëvalueer word.

Die volgende Gelyste Aktiwiteite sal geaktiveer word:

Aktiwiteit-no.:	Voorsien die tersaaklike Basiese Evaluering (BE) aktiwiteit(e) soos uiteengesit in Lyskennisgewing 1 van die OIE-regulasies, 2014, soos gewysig	Beskryf die gedeelte van die beoogde projek waarop die toepaslike gelyste aktiwiteit betrekking het.
11 (i)	Die ontwikkeling van aanlegte of infrastruktuur vir die oorbring en verspreiding van elektrisiteit— (i) buite stedelike gebiede of nywerheidskomplekse met 'n vermoë van meer as 33, maar minder as 275 kilovolt.	Die beoogde ontwikkeling behels die oprigting van oorhoofse kraglyne wat buite 'n stedelike gebied geleë sal wees. Die beoogde kraglyne sal oor 'n vermoë van 132 kV beskik.
19	Die invulling of afsetting van enige materiaal van meer as 10 kubieke meter in, of die baggering, uitgraving, verwydering of verplasing van grond, sand, skulpe, skulpgruis, klippies of klip van meer as 10 kubieke meter, vanaf 'n waterloop.	Die beoogde kraglyne sal die baggering, uitgraving, verwydering of verplasing van grond, sand, skulpe, skulpgruis, klippies of klip van meer as 10 kubieke meter vanaf 'n waterloop behels.
28 (ii)	Residensiële, gemengde, kleinhandel-, kommersiële, nywerheids- of institusionele ontwikkelings, waar sodanige grondgebruik vir landbou, wildsboerdery, perdroydoeleindes of bosaanplanting was op of ná 1 April 1998 en waar sodanige ontwikkeling: (ii) buite 'n stedelike gebied sal plaasvind waar die totale oppervlak van die grond wat ontwikkel moet word, groter as 1 hektaar is.	Die beoogde ontwikkelingsterrein is tans vir landbou gesoneer en die gebied wat ontwikkel moet word sal groter as 1 ha wees.

**PROJEKLISSING**

Die beoogde oprigting van 'n 132 kV kraglyn is geleë naby Loeriesfontein in die Hantam Plaaslike Munisipaliteit, Nama-Kwa-distrik in die Noord-Kaapprovinsie van Suid-Afrika.

**PROPOSED CONSTRUCTION OF 132 KV POWERLINES BETWEEN THE AUTHORISED LOERIESFONTEIN 3 PV SOLAR ENERGY FACILITY AND THE AUTHORISED DWARSRUG WIND ENERGY FACILITY, AND FROM THE DWARSRUG WIND ENERGY FACILITY TO THE AUTHORISED NAROSIES SUBSTATION, LOCATED NEAR LOERIESFONTEIN IN THE HANTAM LOCAL MUNICIPALITY, NAMAKWA DISTRICT IN THE NORTHERN CAPE PROVINCE OF SOUTH AFRICA.**

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended), notice is hereby given that have SiVEST SA (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), to apply for a Basic Assessment (BA) for the above mentioned project.

**PROJECT DESCRIPTION**

South Africa Mainstream Renewable Power Developments (Pty) Ltd. (herein after referred to as "Mainstream") has appointed SiVEST SA (Pty) Ltd (hereafter referred to as "SiVEST") to undertake a Basic Assessment (BA) Process for the proposed construction of 132 kV overhead powerlines between the proposed (and authorised) 100MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4); and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa.

The powerline from the Loeriesfontein 3 PV SEF to the Dwarsrug WEF is proposed to link the SEF to the WEF in order to create a hybrid renewable energy facility, which will ensure that electricity is constantly supplied to the national grid by at least one or both technologies (namely solar PV and wind), at any given time. The powerline from the Dwarsrug WEF is proposed to tie the, above mentioned, hybrid renewable energy facility into the approved Narosies substation to feed the National grid.

Two powerline alternatives will be assessed to link the Loeriesfontein 3 PV SEF to the Dwarsrug WEF and a single powerline is proposed to link these two facilities to the National grid from the Dwarsrug WEF. All three powerline route alignments will be assessed within a 300m wide assessment corridor (150m on either side of powerline).

The following Listed Activities will be triggered:

Activity No(s):	Provide the relevant Basic Assessment Activity(ies) as set out in Listing Notice 1 of the EIA Regulations, 2014 as amended	Describe the portion of the proposed project to which the applicable listed activity relates.
11 (i)	<i>The development of facilities or infrastructure for the transmission and distribution of electricity— (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts.</i>	- The proposed development involves the construction of overhead powerlines which will be located outside an urban area. The proposed powerlines will have a capacity of 132 kV.
19	<i>The infilling or depositing of any material of more than 10 cubic meters into, or the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse.</i>	- The proposed powerlines will involve the dredging, excavation, removal or moving of soil, sand shells, shell grit, pebbles or rock of more than 10 cubic meters from a watercourse
28 (ii)	<i>Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;</i>	- The proposed development site is currently zoned for agriculture, and the area to be developed will be larger than 1 ha.

**PROJECT LOCATION**

Proposed construction of 132 kV powerline is located near Loeriesfontein, in the Hantam Local Municipality, Namakwa District in the Northern Cape Province of South Africa.

Afdeling: Environmental Consulting  
U verwysing: South Africa Mainstream Renewable Power Developments  
Ons verwysing: 16606  
Datum: 08 Januarie 2021

Geagte Grondeienaar,

### **KENNISGEWING VAN BASIESE EVALUERINGSPROSES (BE) VIR DIE BEOOGDE ONTWIKKELING VAN DIE 132 KV KRAGLYNE NABY LOERIESFONTEIN, NOORD-KAAPPROVINSIE**

- **DEFF-verwysingsno.: Moet toegeken word**

As 'n geïdentifiseerde belanghebbende, stel ons u in kennis van die Basiese Evalueringproses (BE) wat onderneem word vir die beoogde ontwikkeling van die 132 kV kraglyne naby Loeriesfontein in die Noord-Kaapprovinsie. Hierdie skrywe dien om alle grondeienaars en/of okkuperende van grond waar die ontwikkeling beoog word, te verwittig en in kennis te stel van die BE-proses. Ons versoek hiermee dat u hierdie kennisgewing met enigiemand deel wat tans u grond op u grond is/daarop woon.

Kragtens die Nasionale Wet op Omgewingsbestuur, 1998 (Wet 107 van 1998) (NEMA), soos gewysig, en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), 2014, soos gewysig, ingevolge Staatskennisgewing R982, R983, R984 en R985 (soos gewysig), geskied kennisgewing hiermee dat SiVEST SA (Edms.) Bpk. aangestel is as die onafhanklike Omgewingsevalueringpraktisyn (OEP) om die nodige BE- en Openbare Deelnameproses (ODP) vir die bogenoemde beoogde ontwikkeling te onderneem, wat by die Nasionale Departement van Omgewingsake, Bosbou en Visserye (DEFF) ingedien moet word vir besluitneming.

### **AGTERGROND & BESKRYWING VAN PROJEK**

South Africa Mainstream Renewable Power Developments (Edms.) Bpk. (hierna "Mainstream" genoem) het SiVEST SA (Edms.) Bpk. (hierna "SiVEST" genoem) aangestel om 'n Basiese Evalueringproses (BE) te onderneem vir die beoogde oprigting van 132 kV oorhoofse kraglyne tussen die beoogde (en gemagtigde) 100 MW Loeriesfontein 3 Fotovoltaïese (FV) Sonkragaanleg (SEF) (12/12/20/2321/2/AM4) en die beoogde (en gemagtigde) 140 MW Dwarsrug Windkragaanleg (WEF) (14/12/16/3/3/2/690/AM4), en tussen die Dwarsrug WEF en die beoogde (en gemagtigde) Narosies substasie (12/12/20/2049/3) wat naby Loeriesfontein in die Noord-Kaapprovinsie van Suid-Afrika geleë is.

Die kraglyn van die Loeriesfontein 3 PV SEF af tot by die Dwarsrug WEF word beoog om die SEF met die WEF te verbind ten einde 'n hibriede hernubare kragaanleg te skep wat sal verseker dat elektrisiteit op enige gegewe tyd konstant aan die nasionale kragnet voorsien deur minstens (1) of albei tegnologieë (naamlik FV-sonkrag en wind). Die kraglyn van die Dwarsrug WEF af word beoog om die bogenoemde hibriede kragaanleg met die goedgekeurde Narosies-substasie te verbind om die nasionale kragnet te voer.

Twee (2) kraglynalternatiewe sal geëvalueer word om die Loeriesfontein 3 FV SEF met die Dwarsrug WEF te verbind en 'n enkele kraglyn word beoog om hierdie twee (2) aanlegte vanaf die Dwarsrug WEF met die nasionale kragnet te verbind. Al drie (3) kraglynroetebelynings sal binne 'n 300 m wye evalueringkorridor (150 m aan elke kant van die kraglyn) geëvalueer word.

### **PROJEKLISSING**

Die beoogde kraglyne is naby Loeriesfontein in die Noord-Kaapprovinsie van Suid-Afrika geleë.

Dear Landowner,

### **NOTIFICATION OF BASIC ASSESSMENT (BA) PROCESS FOR THE PROPOSED DEVELOPMENT OF THE 132KV POWER LINES NEAR LOERIESFONTEIN, NORTHERN CAPE PROVINCE**

- **DEFF Ref No: To be allocated**

As an identified stakeholder, we wish to notify you of the Basic Assessment (BA) process that is being undertaken for the proposed development of the 132kV Power Lines near Loeriesfontein in the Northern Cape Provinces. This letter serves to inform and notify all landowners and/or occupants of the land where the development is proposed, of the BA process. We hereby request that you share this notification with anyone currently occupying / residing on your land.

In terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), as amended, and the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, under Government Notices No R982, R983, R984 and R985 (as amended), notice is hereby given that SiVEST SA (Pty) Ltd has been appointed, as the independent Environmental Assessment Practitioner (EAP), to undertake the required BA and Public Participation processes (PPP) for the above-mentioned proposed development to be submitted to the National Department of Environment, Forestry and Fisheries (DEFF) for decision-making.

### **PROJECT BACKGROUND & DESCRIPTION**

South Africa Mainstream Renewable Power Developments (Pty) Ltd (herein after referred to as "Mainstream") has appointed SiVEST SA (Pty) Ltd (hereafter referred to as "SiVEST") to undertake a Basic Assessment (BA) Process for the proposed construction of 132 kV overhead powerlines between the proposed (and authorised) 100MW Loeriesfontein 3 Photovoltaic (PV) Solar Energy Facility (SEF) (12/12/20/2321/2/AM4) and proposed (and authorised) 140MW Dwarsrug Wind Energy Facility (WEF) (14/12/16/3/3/2/690/AM4); and between the Dwarsrug WEF and the proposed (and authorised) Narosies Substation (12/12/20/2049/3) located near Loeriesfontein in the Northern Cape Province of South Africa.

The powerline from the Loeriesfontein 3 PV SEF to the Dwarsrug WEF is proposed to link the SEF to the WEF in order to create a hybrid renewable energy facility, which will ensure that electricity is constantly supplied to the national grid by at least one (1) or both technologies (namely solar PV and wind), at any given time. The powerline from the Dwarsrug WEF is proposed to tie the, above mentioned, hybrid renewable energy facility into the approved Narosies substation to feed the National grid.

Two (2) powerline alternatives will be assessed to link the Loeriesfontein 3 PV SEF to the Dwarsrug WEF and a single powerline is proposed to link these two (2) facilities to the National grid from the Dwarsrug WEF. All three (3) powerline route alignments will be assessed within a 300m wide assessment corridor (150m on either side of powerline).

### **PROJECT LOCATION**

The proposed power lines are located near Loeriesfontein in the Northern Cape Province of South Africa. A summary of properties affected by power line corridors are provided below:

Dear Interested and/or Affected Party (I&AP),

**NOTIFICATION OF BASIC ASSESSMENT (BA) PROCESS FOR THE PROPOSED DEVELOPMENT OF THE 132KV POWER LINES NEAR LOERIESFONTEIN, NORTHERN CAPE PROVINCE**

- **DEFF Ref No: To be allocated**

SiVEST SA (Pty) Ltd has been appointed by South Africa Mainstream Renewable Power Developments (Pty) Ltd (herein after referred to as "Mainstream") as the Environmental Assessment Practitioner (EAP) for the above-mentioned project. SiVEST is in the process of undertaking the Basic Assessment (BA) process for the proposed development.

We would like to take this opportunity to inform you that, in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended), the Draft Basic Assessment Report (DBAR) for the above-mentioned project will be available for public comment and review as from **Friday 08 January 2021 to Monday 08 February 2021** (end of business day).

An electronic copy of the DBAR can be reviewed on a Tablet provided at the following public place. The tablet will be located at the following location and will be available for review at the below designated time:

Locations	Address	Open Hours	Contact**
Loeriesfontein Library	Plein Street, Loeriesfontein	08:00 – 17:00	027 662 1603

The report as well as the accompanying appendices will also be made available on the following website: <http://enviroenergy.sivest.co.za/download/16606BA>. Should you wish to receive an electronic copy of the DBAR in your preferred electronic medium, please forward your request in writing to us. Comments can be submitted to:

**Importance:** High

Good Afternoon Constance,

I trust you are well.

The emails below refer.

Please be advised that there are no specific issues related to the amendment process which SiVEST would like to discuss and therefore a pre-application meeting is not really necessary. We however require the Public Participation Plan (PPP), and subsequently the public participation process, which will form part of the BA process to be approved by the Department.

Therefore, can SiVEST forward you the PPP which we have compiled for review and approval? See attached.

We have application for EA and Draft BA Report ready to submit and need to submit before 16:00 (before online portal closes). Would you be able to review the document and provide feedback before then??

Apologies for the short notice but we only just receive feedback from your Department regarding this.

Your earliest possible response will be greatly appreciated.

Thanks and Kind Regards,

**Stephan Jacobs**

Environmental Consultant

Dear Constance.

Please note that you have been allocated an application:

**Type of Application:** Pre-Application Meeting Request;

**Reference Number:** 2020-12-0013;

**Date Received:** 10/12/2020;

**Action Required:** Decide on meeting request.

Kindly let Ephron know which date the meeting is to be held, if it will be set.

\*EAP/Applicant: please use this reference number when submitting the application for EA/amendment application (page 1 of the application form), as well as attach the approved PP Plan if the application requires a PP process.

**EIA Applications**

Integrated Environmental Authorisations

Department of Environment, Forestry and Fisheries

**Please note that this email is for the receipt and processing of online applications only, and is not monitored for responses. All queries must be directed to [EIAAdmin@environment.gov.za](mailto:EIAAdmin@environment.gov.za).**

**You are advised that this mailbox has a 48 hour response time.**

*Please note that this mailbox has a 5mb mail limit. No zip files are to be attached in any email.*

**Subject:** Request for Pre-App Meeting for BA process for 132kV Power Lines between Authorised Loeriesfontein 3 PV Solar Energy Facility and Authorised Dwarsrug Wind Energy Facility, and from Dwarsrug Wind Energy facility to Authorised Narosies Sub, Northern Cape

**Importance:** High

To whom it may concern,

Please find attached an electronic copy of the [Pre-Application Meeting Request Form](#) for the Basic Assessment (BA) process for the Proposed Construction of 132kV Power Lines between the Authorised Loeriesfontein 3 PV Solar

Energy Facility and the Authorised Dwarsrug Wind Energy Facility, and from the Dwarsrug Wind Energy facility to the Authorised Narosies Substation, Located near Loeriesfontein in the Hantam Local Municipality, Namakwa District in the Northern Cape Province of South Africa.

Please be advised that the **primary aim of this pre-application meeting is to discuss the Public Participation Plan (PPP) which will form part of the BA process and subsequently have this approved by the Department.** There are no specific issues related to the BA process which SiVEST would like to discuss and therefore a pre-application meeting is not really necessary. We however require the Public Participation Plan (PPP), and subsequently the public participation process, which will form part of the BA process to be approved by the Department. This is mentioned in the Agenda (see attached).

We trust you will find everything is in order.

Your earliest possible response will be greatly appreciated.

Regards,

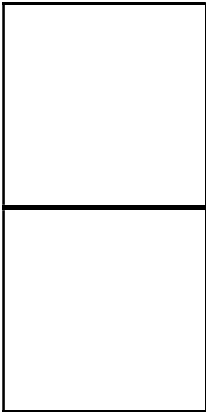

**Stephan Jacobs**
