Dear James

RE: Huddle Park Estate- Gas Supply

Egoli Gas confirms supply to the Huddle Park Estate development subject to a gas mains extension of 300m.

The location of our gas main is directly opposite no. 5 Edward Street in Sandringham and does not extend the length of Edward Street to the agreed entry point, thus the required extension.

The size of the existing gas main is 230mm in diameter and is a high pressure line capable of delivering a consistent 10 Kpa of pressure which is more than adequate for the entire development.

I have attached a provisional quote from the contractor responsible for Egoli Gas mains extensions. The quote incorporates the extension + the crossing of the stream within the Golf Course to a central point where the reticulation will expand into the development. Please note that this is just a provisional quotation and is for your budgeting purpose.

Rayhaan Mayet
Business Development Consultant.
