Attention: Ms Thulisile Nyalunga

THE PROPOSED BATTERY ENERGY STORAGE SYSTEM (BESS) AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE PROVINCE (DEFF REF: 14/12/16/3/3/1/2236)

Notification of extension of the 2014 EIA Regulations prescribed timeframes

Dear Ms Nyalunga,

The Basic Assessment (BA) process currently being undertaken by Savannah Environmental (Pty) Ltd for the proposed Battery Energy Storage System for the Gunstfontein Wind Farm, Northern Cape Province has reference. The BA is being undertaken in terms of the National Environmental Management Act, NEMA (Act 107 of 1998, as amended) and the 2014 Environmental Impact Assessment Regulations (as amended).

An application for Environmental Authorisation was submitted to the Department on 16 October 2020 together with the draft Basic Assessment Report. The draft BAR was made available for a 30-day review period from 16 October 2020 to 17 November 2020. All comments received by interested and affected parties (I&APs) during this review period have been recorded and will be included as part of the final Basic Assessment Report.

Following the submission of the application and draft BA Report to the DEFF, fine-scale walk-down surveys have been conducted by the environmental specialists and technical team allowing for more refined layout adjustments. Following the results of the walkthroughs, it was identified that minor layout updates were required for the proposed BESS in order to accommodate environmental sensitivities and technical considerations. In order to ensure the updated layout has been included into the Basic Assessment report and Environmental Management Programme (EMPr), for approval together with the Environmental Authorisation (should one be issued), the draft Basic Assessment report and EMPr have been updated to reflect the revised layout. This updated draft Basic Assessment report and EMPr will also be submitted for a further 30 days public participation review period to I&APs and Stakeholders in order to provide I&APs an opportunity to comment on the refined layout.

Importance: High

Good day EIA Applications, EIA Admin and Thulisile,

Please find attached the notification letter for extension of the prescribed timeframes for the proposed Gunstfontein Battery Energy Storage System (BESS) Basic Assessment application (DEFF Ref: 14/12/16/3/3/1/2236), for your review, record and note. Kindly acknowledge receipt of the request in writing.

Please do not hesitate to contact us should you have any queries on the above mentioned.

Thank you,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

Considering the changes to the layout and the further 30-day public review period being provided on the report, this letter serves to formally notify the Department of Environment, Forestry and Fisheries (DEFF) that the final BA Report will be submitted within 140 days of receipt of the application by the competent authority for the proposed BESS project in accordance with Regulation 19(1)(b).

Please acknowledge receipt of the notification and advise should any further clarification be required.

Kind regards,

Subject: Approval of PP plan for the Gunstfontein BESS project, Great Karoo BESS project and Gunstfontein OHL Project, Northern Cape Province

Dear Ethanne,

The public participation plans for the Gunstfontein BESS project, Great Karoo BESS project and Gunstfontein OHL Project, Northern Cape Province, on page 83 - 110 of the attached document, have reference.

The Department has reviewed the attached Public Participation Plans, submitted in terms of the Directions Regarding Measures to Address, Prevent and Combat the Spread of COVID-19 Relating to National Environmental Management Permits and Licences. The proposed plans contain suitable public consultation measures, and are hereby **approved**, however please make provision for supplying (e.g. posting) hard copy executive summaries of the draft report to I&APs who request it, because they are unable to access the e-version, and where hard copies could not safely be made available at a suitable location (e.g. library). You may proceed with the implementation of the PP plan.

Further note that the attached directions apply for submitting draft documents to the Competent Authority for comment.

Regards,

Fiona Grimett
