

Photograph 1: Showing the proposed site from the M10 road in a South Western Direction.

Photograph 2: Showing the proposed site in a North Eastern Direction towards the M10 road in background. Pollution on site can be seen.

Photograph 3: Showing the proposed site in a South Eastern Direction. The existing access road from M10 to the cemetery can also be seen. Illegal dumping on site can also be seen.

Photograph 4: Showing the proposed site in a Northern Direction from one of the existing internal streets. Illegal dumping on site can again be seen.

Photograph 5: Showing the site in a Eastern Direction towards the M10 were it goes over the railway line.

Photograph 6: Showing major illegal refuse dumping taking place on site.

Photograph 7: Showing the site in Eastern Direction. Existing roads and road lights can be seen.

Photograph 8: Showing the site in a Western Direction. Many invasive plant species can be seen to have taken over the site.

Photograph 9: Showing the site in North Western Direction.

Photograph 10: Showing the site in Eastern Direction from one of existing internal roads that will form part of cemetery. East end industrial building can be seen on the left background of picture.

Photograph 11: Showing existing infrastructure building on site. More illegal refuse and building rubble dumping can be seen.

Photograph 12: Showing the site on Northern Direction with railway line and East End in background.

Photograph 13: Showing more illegal garden waste dumping on site.
