

SKY CITY FILLING STATION (ON ERF 7258 OF WATERVALSPRUIT X38)

Photos of the Development Site

View across the development site taken in a northerly direction (with Sky City Mall in the distance)

View from centre of the development site taken in a north-westerly direction with an extension of Sky City residential development in the background

**Current status of the development area –
Overgrown with invader plants and dumping of construction material and general waste is evident**

Spoil heaps from nearby construction activities (relating to civil infrastructure such as roads, water and sewage pipelines, etc.) which will have to be flattened and/or removed for the purpose of the filling station
