

APPENDIX B

Photographs

Photo 1: View of the western portion of the pipeline route near the Orange River.

Photo 2: Another view of the western portion of the pipeline route, which is dominated by reedbeds and alluvial vegetation.

Photo 3: View of the eastern portion of the pipeline route, which consists mainly of natural vegetation, although of an arid nature.

Photo 4: View of dirt tracks and an irrigation canal along the pipeline route.

Photo 5: View of portion of pipeline route adjacent to the Plangeni Settlement.

Photo 6: View of one of several watercourses along the pipeline route.

Photo 7: View of reedbeds at the banks of the Orange River along the pipeline route.

Photo 8: View of the banks of the Orange River where abstraction is planned.

(Photos taken from the Ecological and Wetland Assessment by DPR Ecologists & Environmental Services)
