Applicant: Eastern Platinum (Pty) Limited

Location: Turffontein 462 JQ Portion 3

Mining Right Number: NW30/5/1/2/2/109 MR

Project description:

Sibanye-Stillwater owns and operates the Marikana Operations located near Marikana, in the North-West Province. The Marikana Operations are divided into Western Platinum (Pty) Ltd (WPL) and Eastern Platinum (Pty) Ltd (EPL), each with its own set of mining rights. Marikana Operations are currently mining both the Merensky and Upper Group 2 Reef (UG2) for Platinum Group Metals (PGMs).

The EPL Tailings Dam Complex comprises two tailings dams, namely Tailings Dam 1 (TD1) and Tailings Dam 2 (TD2). TD1 has been dormant since October 2004 and re-mining of this facility commenced in February 2018. TD2 has been operational since 2002 with tailings deposited from EPL and Eastern Platinum Concentrator (EPC) plants.

It is the intension of Sibanye-Stillwater to commence with the re-mining of TD2, once the re-mining of TD1 is completed. Re-mining will be undertaken via a hydraulic mining process. Before Sibanye-Stillwater may commence with the re-mining of TD2, environmental authorisation need to be obtained.
