NOTICE OF EIA PROCESS - PUBLIC PARTICIPATION PROCESS
150MW PROJECT SOLIS CONCENTRATED SOLAR POWER (CSP) TOWER FACILITY II NEAR UPINGTON, NORTHERN CAPE PROVINCE
 (DEA REF: 14/12/16/3/3/2/621)
NOTIFICATION OF APPLICATION FOR AMENDMENT TO AUTHORISATION

Project Name: The Proposed Commercial Concentrated Solar Power (CSP) Tower Facility II Project
Applicant: Solis Power II (Pty) Ltd
Proposed Amendments: The environmental authorisation (EA) for the Solis II CSP Project dated 27 November 2015, authorised listed activity GN R 983 Item 12 (construction within a watercourse), as there are three ephemeral streams on site. The EA, however, lists two Specific Conditions that restrict the implementation of this approved activity: Condition 36 states "The main riverbed of the Helbrandeegte River as well as all watercourses within the footprint of the site is regarded as no-go area. The area must be properly cordoned off and no activities are allowed in this area" and Condition 41 states that "A 32 meter buffer area must be maintained around all identified watercourses on the property during all phases of the development".

The design of the CSP facility does not allow for the avoidance of all watercourses within the site. Application is therefore made such that Special conditions 36 and 41 of the EA are removed or amended to allow for the construction of the heliostats, roads, water pipeline and underground evacuation transmission cables within watercourses on the property.

The properties affected by the proposed amendment are: Van Roois Vley Farm 446, Van Roois Vley Farm 447 and Van Roois Vley Farm 448

In terms of Condition 1.6 of the Environmental Authorisation and Chapter 5 of the EIA Regulations of December 2014, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Therefore, application in this regard has been made to the Department of Environmental Affairs (DEA).

It has been confirmed by the DEA that this application constitutes a Part 2 amendment in terms of Regulation 32 of the EIA Regulations 2014. In this regard, opportunity is being provided to the public to provide comment on the proposed amendments. An Amendment Motivation Report has been compiled and is available for public review from **9 May 2016 to 8 June 2016** at www.savannahsa.com. CD copies are available on request from the contact person below. Interested and affected parties can request further information or provide comments on the proposed amendment via email or telephone correspondence from the contact person below.

NOTICE OF EIA PROCESS - PUBLIC PARTICIPATION PROCESS
100MW MULILO SONNEDIX PRIESKA PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE ON FARM HOEKPLAAS (REMAINDER OF FARM 146), NEAR COPPERTON, NORTHERN CAPE PROVINCE
 (DEA REF: 12/12/20/2503)
NOTIFICATION OF APPLICATION FOR AMENDMENT TO AUTHORISATION

Project Name: Mulilo Sonnedix Prieska PV Facility on Farm Hoekplaas
Applicant: Mulilo Sonnedix Prieska PV (Pty) Ltd
Proposed Amendments: Mulilo Sonnedix Prieska PV (Pty) Ltd obtained Environmental Authorisation for the photovoltaic facility on the Farm Hoekplaas near Copperton, Northern Cape in January 2013. The power line and substation were assessed separately from the PV facility in the original EIA report (Aurecon, April 2012), however a single EIA process was followed and a single EA received for both the facility and the grid connection. A separate authorisation is now required for the grid connection component in terms of Eskom's requirements. It is proposed that the original application be split into two separate applications.
 1) Main Facility Authorization for the 100MW PV Facility
 2) Grid Connection Authorization for the substation and power line associated with the PV facility

It is proposed that the original EIA report be amended into 2 separate documents in support of the separate authorisations, i.e. one considering and assessing the impacts associated with the main facility and one considering and assessing the impacts associated with the grid connection respectively. The EMPr will also be amended to separately consider the PV facility and the grid connection.

In terms of Regulation 28 of the EIA Regulations of December 2014, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. An amendment application was lodged with DEA on 8 April 2016 and it was confirmed that a Part 2 amendment process should be followed, as detailed in Regulation 32.

In terms of Chapter 6 of the EIA Regulations 2014, opportunity is being provided to the public to provide comment on the proposed amendments. A split report has been prepared and is available for a 30 day review period from **4 May 2016 to 3 June 2016**. Please submit comment no later than 3 June 2016. The report is available for download on www.savannahsa.com/projects or on request from Savannah Environmental.

nuutste wetenskaplike bevinding is t.o.v klimaatsverandering.

Scenario's is voorgestel met 'n bespreking op twee gevalle studies vir die Hoedspruit en Vredendal landbou areas. Die navorsing het getoon wat die moontlike negatiewe finansiële implikasies kan wees, sou die mikro klimaats toestande verander.

Die organiseerders wil baie dankie sê aan die IDC, Landbank, ORC, KKK en Kaap Agri wat gehelp het om die aanbieding moontlik te maak.

Die oggend is bygewoon deur belangstellendes uit die omgewing. Daar was ook geleentheid vir vroeë vrag wat die aanbieding baie interessant gemaak het.

Tracy Davids (BFAP) het gepraat oor makro tendense in die landbou.

Dr Trevor Taft het gesels oor Agri parkte wat deur die regering beplan word.

KENNISGEWINGS

KENNISGEWING VAN 'N OIE-PROSES - OPENBARE DEELNAMEPROSES
100 MW MULILO SONNEDIX PRIESKA FOTOVOLTAÏESE SONKRAGAANLEG EN GEPAARDGAANDE INFRASTRUKTUUR OP DIE PLAAS HOEKPLAAS
(RESTANT VAN PLAAS 146), NABY COPPERTON, NOORD-KAAPPROVINSIE (DO VERW.: 12/12/20/2503)
KENNISGEWING VAN AANSOEK OM WYSIGING VAN MAGTING

Projeknaam: Mulilo Sonnedix Prieska FV-aanleg op die plaas Hoekplaas

Applikant: Mulilo Sonnedix Prieska PV (Edms.) Bpk.

Beoogde Wysigings: Mulilo Sonnedix Prieska PV (Edms.) Bpk. het in Januarie 2013 Omgewingsmagtiging ontvang vir die fotovoltaïese aanleg op die plaas Hoekplaas naby Copperton, Noord-Kaap. In die oorspronklike OIE-verslag (Aurecon, April 2012) is die kraglyn en substasie apart van die FV-aanleg geëvalueer, hoewel 'n enkele OIE-proses gevolg en 'n enkele OM vir beide die aanleg en die roosterkonneksie ontvang is. Ingevolge Eskom se vereistes word 'n aparte magtiging nou vir die roosterkonneksiekomponent vereis. Daar word aan die hand gedoen dat die oorspronklike aansoek soos volg in twee aparte aansoeke opgedeel word:

- 1) Hoofaanlegmgtiging vir die 100 MW FV-aanleg; en
- 2) Roosterkonneksiemgtiging vir die substasie en kraglyn wat gepaard gaan met die FV-aanleg.

Daar word aan die hand gedoen dat die oorspronklike OIE-verslag gewysig word na twee aparte dokumente ter staving van die aparte magtigings, d.i. een dokument wat die hoofaanleg oorweeg en evalueer en 'n ander dokument wat die impakte van die roosterkonneksie oorweeg en evalueer. Die OBR sal ook gewysig word om aparte oorweging aan die FV-aanleg en die roosterkonneksie te skenk.

Ingevolge Voorwaarde 28 van die OIE-regulasies van Desember 2014, kan 'n applikant skriftelik by die bevoegde owerheid aansoek doen om goedkeuring van 'n verandering of afwyking van die projekbeskrywing. 'n Aansoek om wysiging is op 8 April 2016 by die DO ingedien en dit is bevestig dat 'n Deel 2-wysigingsproses gevolg moet word, soos uiteengezet in Regulasie 32.

Ingevolge Hoofstuk 6 van die 2014 OIE-regulasies, word die publiek die geleentheid gebied om kommentaar op die beoogde wysigings te lewer. 'n Opgedeelde verslag is opgestel en is beskikbaar vir 'n 30-dae insaetdperk vanaf 4 Mei 2016 tot 3 Junie 2016. Dien asseblief u kommentaar in voor op 3 Junie 2016. Die verslag is beskikbaar by www.savannahsa.com/projects of op versoek van Savannah Environmental.
