## NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunstfontein BESS')

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Gunstfontein Wind Energy Facility, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

**Project details:** Gunstfontein Wind Farm (Pty) Ltd is applying for environmental authorisation for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein WEF (DEA Ref: 14/12/16/3/3/2/826) in the Northern Cape. The BESS is planned near the facility substation and will be approximately 3-4ha in total extent. Medium voltage cabling (33kV or less) will connect the BESS to the authorised substation. An access road to the BESS will be developed.

**Project Location:** The BESS is wholly contained within the footprint of the authorised WEF, located on Farm Gunstfontein 131, Sutherland.

The proposed BESS infrastructure will consist of:

- Access road to the BESS (which will branch off the WEF roads to the BESS)
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or approximately 4m wide road around the BESS, inside the fencing; and
- 4ha Laydown Area.

**Basic Assessment Process:** In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

**Basic Assessment Report Available for Review & Comment:** A BA Report for the project has been compiled and is available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/energy-generation/gunstfontein-wind-energy-facility/> The 30-day review and comment period of the BA Report is from **Friday, 16 October until Monday, 16 November 2020**. Please submit written comments to the contact person below on or before **Monday, 16 November**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

## AGRI NK GESKOK

KIMBERLEY – Agri Noord-Kaap en RPO Noord-Kaap veroordeel die moord op wyle mnr. Leon Brits te Pofadder.

"Ons is uiters geskok en teleurgesteld oor die barbaarse wyse waarop 'n deelydse boer en lid van Agri Noord-Kaap vermoor is" sê mnr. Joe Scholtz.

Ons wil ook Noord-Kaapse Polisie bedank vir hulle vinnige optrede nadat die moord aangemeld is. Ons versoek die polisie om alles binne hul vermoë te doen om saam met georganiseerde landbou alles in die stryd te werp om plase en landelike gemeenskappe te help beveilig. "Ons glo en vertrou dat die Noord-Kaap Polisie baie vinnig 'n deurbraak sal behaal deur die verdagtes in hegtenis te neem" sê mnr. Joe Scholtz.

Dit is kommerwekkend dat sulke tipe misdade in die Noord-Kaap begin toeneem.

## Neef Gert se Sêgoed

As jy swak betaal word is dit jou verdiende loon. Mensse word betaal vir wat hulle weet en nie vir wat hulle doen nie.

## CSV UITREIK

LEDE van Hoërskool Calvinia se CSV het by Sorgvliet gaan kuier op Woensdag 7 Oktober 2020. Hul sien uit daarna om volgende maand weer daarheen te gaan. Van links agter: Nathan Baadjies, Marna Brundyn, Samantha Koopman, Johann Burger en Lindi Dietrich. Voor: Shanel Bradley, Magriet Delport en Shannon Le Bretton.

## 25 Jaar gelede

NOORDWESTER: 27 Oktober 1995. 'n Graad A voertuig toetsstasie is in die ampstermy van die huidige burgemeester op Calvinia inge-rig wat 'n groot gerief en besparing vir Calvinia se gemeenskap asook die buurdorpe inhou. Dit is ook 'n bron van inkomste.

## HANTAM MUNISIPALITEIT HANTAM MUNICIPALITY

Herewith Hantam Municipality would like to inform prospective service providers that the following formal quotations are being advertised:

**1. SCM15/2020: Supply, Delivery and Fitment of Various Tyres for the Vehicles of Hantam Municipality.**

The full advertisement can be found on the municipal website [www.hantam.gov.za](http://www.hantam.gov.za) and on the e-portal website [www.etenders.gov.za](http://www.etenders.gov.za).

**Mr. J. I. Swartz**  
Municipal Manager

## Dankbetuiging Pampoenoport Primêr

1. ATKV - De Aar - Krobossie (Marié Fouche) vir grondslag fase stoele - speletjies - tydskrifte - naslaanboeke - vloerteëls - kombuiske - verf en alles gepaardgaande. Dankie vir julle jaarlikse bystand en ondersteuning.
  2. Me Suzette Victor vir skoolklere vir 2021
  3. Mnr. Leon Dreyer vir bystand en hulp by voeding van leerders.
- God se seën aan almal wat ons bestaan en ondersteun.  
"Vra en aan julle sal gegee word." Matteus 7:7.

## NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunstfontein BESS')

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Gunstfontein Wind Energy Facility, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

**Project details:** Gunstfontein Wind Farm (Pty) Ltd is applying for environmental authorisation for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein WEF (DEA Ref: 14/12/16/3/3/2/826) in the Northern Cape. The BESS is planned near the facility substation and will be approximately 3-4ha in total extent. Medium voltage cabling (33kV or less) will connect the BESS to the authorised substation. An access road to the BESS will be developed.

**Project Location:** The BESS is wholly contained within the footprint of the authorised WEF, located on Farm Gunstfontein 131, Sutherland.

The proposed BESS infrastructure will consist of:

- \* Access road to the BESS (which will branch off the WEF roads to the BESS)
- \* Medium Voltage cabling (above ground or overhead) between the BESS and substation. \* Fencing around the BESS.
- \* Possible firebreak (i.e. vegetation trimmed low) or approximately 4m wide road around the BESS, inside the fencing; and
- \* 4ha Laydown Area.

**Basic Assessment Process:** In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 - R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

**Basic Assessment Report Available for Review & Comment:** A BA Report for the project has been compiled and is available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/energy-generation/gunstfontein-wind-energy-facility/>. The 30-day review and comment period of the BA Report is from **Friday, 16 October until Monday, 16 November 2020**. Please submit written comments to the contact person below on or before **Monday, 16 November**.

## NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT THE GREAT KAROO WIND ENERGY FACILITY (WEF), NORTHERN CAPE ('Great Karoo BESS')

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Great Karoo Wind Energy Facility, Northern Cape Province	Great Karoo Wind Farm (Pty) Ltd

**Project details:** Great Karoo Wind Farm is applying for environmental authorisation for the installation of a Battery Energy Storage System (BESS) at the authorised Great Karoo WEF (DEA Ref 12/12/20/2370/3) in the Northern Cape. The BESS is planned near the facility substation and will be approximately 3-4ha in total extent. Medium voltage cabling (33kV or less) will connect the BESS to the authorised substation. An access road to the BESS will be developed.

**Project Location:** The BESS is wholly contained within the footprint of the authorised WEF, located on Farm Kentucky 206, Sutherland.

The proposed BESS infrastructure will consist of:

- \* Access road to the BESS (which will branch off the WEF roads to the BESS)
- \* Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- \* Fencing around the BESS.
- \* Possible firebreak (i.e. vegetation trimmed low) or approximately 4m wide road around the BESS, inside the fencing; and
- \* 4ha Laydown Area.

**Basic Assessment Process:** In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 - R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

**Basic Assessment Report Available for Review & Comment:** A BA Report for the project has been compiled and is available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/energy-generation/great-karoo-bess/>. The 30-day review and comment period of the BA Report is from **Friday, 16 October until Monday, 16 November 2020**. Please submit written comments to the contact person below on or before **Monday, 16 November 2020**.

## Revised Basic Assessment Report

**NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY (WEF), NORTHERN CAPE ('Gunstfontein BESS')(DEFF REF: 14/12/16/3/3/1/2236)**

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Gunstfontein Wind Energy Facility, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

**Project details:** Gunstfontein Wind Farm (Pty) Ltd is applying for environmental authorisation for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein WEF (DEFF Ref: 14/12/16/3/3/2/826) in the Northern Cape. The BESS is planned near the facility substation and will be approximately 3-4ha in total extent. Medium voltage cabling (33kV or less) will connect the BESS to the authorised WEF substation. An access road to the BESS will be developed.

**Project Location:** The BESS is wholly contained within the footprint of the authorised WEF, located on the Remainder of Farm Gunstfontein 131, Sutherland.

The proposed BESS infrastructure will consist of:

- ~8m wide access road to the BESS (which will branch off the WEF roads to the BESS)
- Medium Voltage cabling (below ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or approximately 4m wide road around the BESS, inside the fencing; and
- Laydown Area within the BESS footprint.

**Basic Assessment Process:** In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environment, Forestry and Fisheries (DEFF), as the competent authority (DEFF Ref: 14/12/16/3/3/1/2236). Savannah Environmental is undertaking the required Basic Assessment and public participation process.

**Basic Assessment Report Available for Review & Comment:** A BA Report for the project has been compiled and was made available for public review from 16 October to 16 November 2020. Following further layout refinements, a revised Basic Assessment Report has been made available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/energy-generation/gunstfontein-wind-energy-facility/>. The 30-day review and comment period of the Revised BA Report is **11 December 2020 to 01 February 2021**. Please submit written comments to the contact person below on or before **01 February 2021**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

# SO SÊ DIE REDAKTEUR

VRYDAG 11 DESEMBER 2020

## BLINK UIT IN BERADE EN BESLUIT

BERADE en verkiesings hou is ongetwyfeld die regerende ANC se sterkpunte. Besluit word ook by die dosyne geneem, veral in die laaste tyd oor hoe korrupsie beveg moet word sonder om een van die base se vryheid in gedrang te bring. Die probleem lê egter by die uitvoer van die besluite.

Van die besluitiges is veral bekend daarvoor dat hulle aandrang op eers 'n skuldigebeving in die hof voordat hulle hul lonende poste moet verlaat. Een van daardie besluitiges, oud-president Jacob Zuma, is 'n lewende getuie oor hoe daardie skuldigebeving in die hof so te sê permanent uitgestel kan word. Hy maak ruim gebruik van 'n horde regsgeleerdes waarvoor die belastingbetaler toe dusver opgedok het.

Jacob Zuma ontwyk al 'n skuldigebeving sedert hy 15 jaar gelede as adjunk-president ontsetel is toe hy by die wapenskandaal betrokke geraak het. En steeds is daar gate in die wette waardeur hy elke slag kruip.

By die huidige beraad is daar juis vyf uiteenlopende regsopinieë ingewin oor hoe die ANC se sekretaris-generaal nie sy pos moet ontruim noudat hy op borgtog vrygelaat is op etlike baie ernstige beskuldigings van korrupsie ensovoorts. Kom ons raai wat daardie NUK-vergadering wat dae aangehou het oor dié saak gaan besluit.

Voorst moet altyd in gedagte gehou word dat al daardie kaders, of hulle nou in die kabinet sit of in Luthuli Huis of aan die ontvankant van staatsenders, alles uit die staatskas ontvang. 'n Staatskas wat deur belastingbetalers befonds word en in die laaste tyd uit lenings wat in die naam van daardie selfde belastingbetalers aangegaan is en wat nie net die rente daarop moet betaal nie maar ook natuurlik ook die terugbetalings.

Oor die houding van die belastingbetalers wat nie ondersteuners van die ANC is nie, is daar geen twyfel nie. Hulle is hartlik sat van die hele bedroegspul wat nou al 26 jaar aangaan en begin al vertroue verloor in die stembus om van die korrupte spul ontslae te raak. Hoe die meerderheid van kiesers by elke verkiesing vir hulle kan stem, gaan die verstand te bowe totdat die eerste All Pay die end van die maand kom. En die volgende munisipale, of enige ander tender toegeken moet word.

Dit bring ons dan by die egte ANC-ondersteuner wat nie saamry in die sout-trein nie en wat glo in reg en geregtigheid. Wat elke sent moet omdraai en swaar betaal aan diensfooi. Waar is hulle op stemdag? Sit dikbek by die huis sonder om te gaan stem? Is dit nie tyd dat dit end kry nie?

## OORSKRYF WORD 'N TAMELETJIE

MATRIEKLASSE van 2020, nagenoeg 400 000 van hulle wat gedwing word om weer eksamenraestelle te beantwoord wat hulle klaar gedoen het, gaan hulle lot nie gedeweë aanvaar nie. Vier van hulle, met AfriForum se formidabele Gerrie Nel agter hulle, gaan dit in die hof betwis saam met 'n onderwys vakbond of twee.

Hoewel die betrokke minister ongetwyfeld bekwaam is en so ver bekend nog nie van korrupte optrede beskuldig kan word nie, geld dit glad nie vir die kaders wat vir haar departement werk nie. Dis elke jaar dieselfde storie — eksamenraestelle wat voor die tyd uitlek.

Dit is sekerlik te aanvaar dat die uitlekter dit nie verniet gaan doen nie maar die gewone natuurlike ding doen naamlik om geld te aanvaar om wettige optredes te ontduik teen ruim vergoeding.

Of dit die skandalige gebeure gaan stopstip deur 400 000 matrieks die eksamenraestelle te laat oorskryf, is te betwyfel. En hoekom moet hulle nou ly onder iets waaraan hulle geen aandeel gehad het nie?

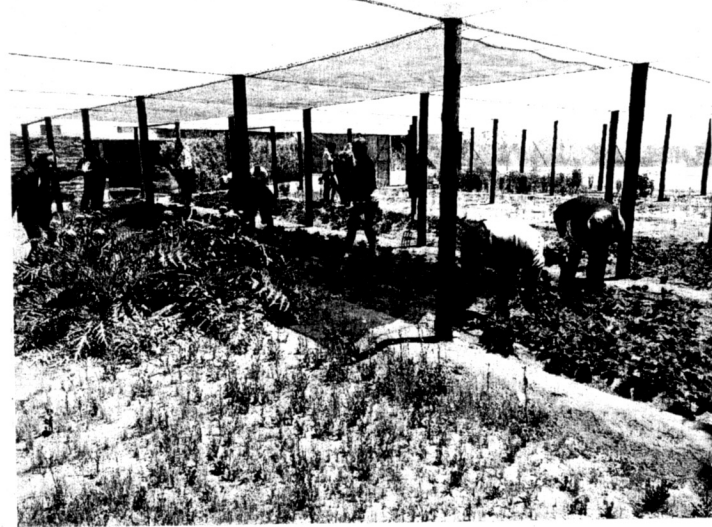

Duidelik het diegene wat besluit het dat die raestelle oorgeskryf moet word deur alle

betrokkenes, nie al die gevolge van hulle besluit deurdink het nie. Getrou aan die denke van tale ANC-staatsamptenare, sal die koste van die operasie die laaste wees waaraan gedink word. Daar sal eerder gedink word aan waar die maand se paaiement van die nuwe motor vandaan moet kom.

Dit sal veel beter wees om 'n deeglike werk te maak om die skuldiges van die uitlekery uit te ruik en hulle die maksimum straf op te lê sonder om eers 'n lekotla te hou.

Die doel van 'n eksamen is immers om die leersde se kennis te toets van die betrokke onderwerp. As sommige van hulle vooraf kennis kry oor wat in die vraestel gaan staan het daardie eksamenkrywer mos 'n onregverdigde voordeel bokant ander wat nie die vooraf kennis het nie. Vandaar die kabaal wat nou ontstaan het.

Die oplossing is egter nie om onskuldige kandidate te straf om die ewel uit te roei nie maar om die uitlekters aan die pen te laat ry. Almal van ons moes een of ander tyd eksamen skryf en daar is maar min van ons wat so 'n vreeslike behae in die proses gehad het. Diegene met die beste geheue het 'n groot voorsprong.

## AARBEEI PLUK

NA afloop van hul afsluitingsvergadering en 'n lekker ete op die plaas Zakfontein kon lede van Williston VLV aarbeie in die groentetuin gaan pluk.

## GELOFTEFEES OP CALVINIA 16 DESEMBER 2020

Plek: Sorgvliet saal

Tyd: 10:00

Program: Erediens

Video oor gebeure op 16 Desember 1838

Voorhou van Gelofte

Klipstapelning

Bring u piekniek mandjie en kom kuier heerlik saam na afloop van die verrigtinge op Ramskop.

Kole sal beskikbaar wees. Bring u eie stoel.

**ALMAL IS WELKOM!**

Kontak besonderhede:

Joppie 027 341 2112; Rynard 027 341 1953;

Jacobus 027 341 2458

## 24 Jaar gelede

NOORDWESTER: 3 Mei 1996. Die bestaande Magnolia-telefoonliens wat die boeregemeenskap van Calvinia distrik bedien, voldoen op die oomblik nie aan die verwagtinge van die plaaslike boeregemeenskap nie. Die deelyn konsep maak dit vir groot boerderye, besigheid en gemeenskapsleiers moeilik om doeltreffend te kommunikeer.

## NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY (WEF), NORTHERN CAPE ("Gunstfontein BESS") (DEFF REF: 14/12/16/3/3/1/2236)

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Gunstfontein Wind Energy Facility, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

**Project details:** Gunstfontein Wind Farm (Pty) Ltd is applying for environmental authorisation for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein WEF (DEFF Ref: 14/12/16/3/3/2/826) in the Northern Cape. The BESS is planned near the facility substation and will be approximately 3-4ha in total extent. Medium voltage cabling (33kV or less) will connect the BESS to the authorised WEF substation. An access road to the BESS will be developed.

**Project Location:** The BESS is wholly contained within the footprint of the authorised WEF, located on the Remainder of Farm Gunstfontein 131, Sutherland.

The proposed BESS infrastructure will consist of:

- \* 8m wide access road to the BESS (which will branch off the WEF roads to the BESS)
- \* Medium Voltage cabling (below ground or overhead) between the BESS and substation.
- \* Fencing around the BESS.
- \* Potential firebreak (i.e. vegetation trimmed low) or approximately 4m wide road around the BESS, inside the fencing; and
- \* Laydown Area within the BESS footprint.

**Basic Assessment Process:** In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environment, Forestry and Fisheries (DEFF), as the competent authority (DEFF Ref: 14/12/16/3/3/1/2236). ## UIT DIE WOORD

## LUISTER NA JOU GEWETE

*Hou vas aan die geloof en behou 'n goeie gewete. Omdat sommige hulle gewete onderduik het, het hulle geloof skipbreuk gely.* 1TIMO-TEUS 1:19

Die alarm gaan af! Dit is nog donker, maar almal skrik wakker. Wat kan dit wees? Is dit 'n inbraak? Is daar gevaar? Dadelik gaan daar ligte in die huis aan. Oomblikke later bel die sekuriteitsmaat-skappy... gelukkig was dit net 'n vals-alarm!

Selfs al waarsku alarms ons soms verkeerdlik, het ons tog sulke waarskuwingsne in ons gevaarlike wêreld nodig. Miskien ken jy die storie van die sentjie, wat spelerig "Wolf, Wolf" geskeu het. Daar was geen gevaar nie. Hy wou maar net die reaksie van mense toets. Toe hy egter op

'n dag regtig 'n wolf gesien het en vinnig sy dorpsmense van die gevaar wou inlig, wou niemand meer op sy "Wolf, Wolf"-krete reageer nie!

Ignoreer jy nie ook soms sulke tekens nie? Dalk wil 'n pyn in jou bors, iemand se kortaf antwoord of 'n flikkerlig jou teen moontlike gevaar waarsku. Ek het so 'n paneelligte, wat altyd gebrand het (selfs al was daar geen fout met my motor nie), later eenvoudig geignoreer!

Toe daar op 'n dag nog ander paneelligies ook begin brand, was ek dus oortuig dat dit ook nie ernstig kon wees nie. So het my motor se enjin toe vasgebrand! So, selfs al is waarskuwingsne soms vals, moet ons tog maar daarna luister.

Ons gewete is ook 'n waarskuwingsne. Dit waarsku ons teen moontlike geestelike gevaar. Paulus het mense geken, wat geestelik skipbreuk gely het net omdat hulle nie na hulle gewete geluister het nie. So luister, asseblief, vandag na jou gewete. Dit wil jou weerhou van verkeerde, sondige optrede. Dit wil jou aanmoedig om die goeie geloofstryd te blystry!

GEBED: Here, dankie dat U vir my 'n gewete geegee het en my so lei. Mag my gewete altyd deur U Gees beheer word. Amen.

SKRYWER: Willem van der Colff het in die Paarl groot geword. Tans bly hy met sy gesin in Vinnitsa, Oekraïne, waar hy sendingwerk doen. Sy webwerf is <https://ua4u.weebly.com/>. Jy kan hom e-pos by [willeam.ua4u@gmail.com](mailto:willeam.ua4u@gmail.com).

## SITE NOTICES

# NOTICE OF A BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

## PROPOSED BATTERY ENERGY STORAGE SYSTEM (BESS) FOR THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE

<b>Project Name:</b>	<b>Applicant:</b>
Battery Energy Storage System (BESS) for the Gunstfontein Wind Farm, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

**Proposed Activity:** Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein Wind Farm (DEA Ref: 14/12/16/3/3/2/826) in the Northern Cape.

**Project Location:** The BESS is proposed to be located near to the wind farm facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation. An area of ~500m around the boundary of each facility substation is to be assessed, to allow for the optimization of the placement of the BESS. An access road to the BESS will be developed. The BESS is envisaged to become an integral component of the authorised WEF.

The affected properties will include the following:

- » RE of the Farm Gunstfontein 131, Sutherland, Northern Cape

**Basic Assessment Process:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Basic Assessment (BA) is required for the Environmental Authorisation of this project. Savannah Environmental is undertaking the required BA and public participation process for the project.

## Process Notification

# NOTICE OF A BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

## PROPOSED BATTERY ENERGY STORAGE SYSTEM (BESS) FOR THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE

<b>Project Name:</b>	<b>Applicant:</b>
Battery Energy Storage System (BESS) for the Gunstfontein Wind Farm, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

**Proposed Activity:** Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein Wind Farm (DEA Ref: 14/12/16/3/3/2/826) in the Northern Cape.

**Project Location:** The BESS is proposed to be located near to the wind farm facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation. An area of ~500m around the boundary of each facility substation is to be assessed, to allow for the optimization of the placement of the BESS. An access road to the BESS will be developed. The BESS is envisaged to become an integral component of the authorised WEF.

The affected properties will include the following:

- » RE of the Farm Gunstfontein 131, Sutherland, Northern Cape

**Basic Assessment Process:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Basic Assessment (BA) is required for the Environmental Authorisation of this project. Savannah Environmental is undertaking the required BA and public participation process for the project.
