NOTICE OF A BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

PROPOSED GRID CONNECTION INFRASTRUCTURE FOR THE GUNSTFONTEIN WIND FARMS (PTY) LTD, NORTHERN CAPE PROVINCE

| Project Name: | Applicant: |
|--|----------------------------------|
| Grid extension infrastructure for the Gunstfontein Wind Farm, Northern Cape Province | Gunstfontein Wind Farm (Pty) Ltd |

Proposed Activity: Gunstfontein Wind Farm (Pty) Ltd proposes the development of a double circuit 132kV overhead power line to connect the already authorised Gunstfontein Wind Energy Facility to the national grid via the Hidden Valley substation Northern Cape Province.

Project Location: The proposed grid connection infrastructure is 7.5km long and includes an assessment corridor of 300m wide around the proposed power line and 200m wide around the starting and terminating substations (Soetwater Substation and Hidden Valley Substation respectively). Please note, these substations do not form part of this application and are already separately authorised. The proposed grid connection infrastructure will be located within the vicinity of Sutherland, Matjiesfontein and Laingsburg in the Northern Cape Province, contained within the Karoo Hoogland Municipality and the greater Namakwa District Municipality.

The affected properties will include the following:

- » Portion 1 of the Farm Orange Fontein 203; Sutherland, Northern Cape,
- » RE of the Farm Orange Fontein 185; Sutherland, Northern Cape,
- » RE of the Farm Leeuwe Hoek 183; Sutherland, Northern Cape and
- » RE of the Farm De Hoop 202; Sutherland, Northern Cape

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Basic Assessment (BA) is required for the Environmental Authorisation of this project. Savannah Environmental is undertaking the required BA and public participation process for the project.

NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR THE EXTENSION OF GRID CONNECTION INFRASTRUCTURE FOR THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE

| Project Name | Applicant |
|--|----------------------------------|
| Extension of grid connection infrastructure for the Gunstfontein Wind Farm, Northern Cape Province | Gunstfontein Wind Farm (Pty) Ltd |

Project details: Gunstfontein Wind Farm (Pty) Ltd proposes the development of a double circuit 132kV overhead power line to connect the already authorised Gunstfontein Wind Energy Facility to the national grid via the Hidden Valley substation, Northern Cape Province. The proposed grid connection infrastructure is situated approximately 38km south of Sutherland in the Karoo Hoogland Municipality, Namakwa District Municipality, Northern Cape Province.

The proposed double-circuit 132kV overhead power line will be an extension of the authorised Gunstfontein Grid connection (DEA ref.no. 14/12/16/3/3/1/1619 (as amended)) near the end point of the already authorised power line and will extend to Eskom's Hidden Valley Transmission Substation. The proposed extension overhead power line project will consist of:

- A double circuit 132kV overhead power line consisting of two sets of cables on a single set of pylon structures.
- A 300m wide assessment corridor (150m on either side of the powerline) and a 200m assessment area around the proposed start- and end-points of the powerline, used for assessment purposes in the Basic Assessment Report.
- Pylons will be up to 32m in height.
- The Length of proposed overhead power line corridor is approximately 7.5 km.
- Registered servitude of up to 40m wide.
- Service tracks (jeep tracks only – no formal roads) will employ the existing Soetwater power line service track as far as possible.
- Temporary laydown area and construction camp.

Project Location: The proposed grid connection extension powerline traverses four (4) affected properties, namely:

| | | | |
|--|---|---------------------------------------|-----------------------------|
| 1) Portion 1 of the Farm Orange Fontein No. 203; | 2) RE of the Farm Annex Orange Fontein No. 185; | 3) RE of the Farm Leeuwe Hoek No. 183 | 4) The Farm De Hoop No. 202 |
|--|---|---------------------------------------|-----------------------------|

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327 (as amended), a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report Available for Review & Comment: A BA Report for the project has been compiled and is available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/grid-infrastructure/gunstfontein-wind-farm/>. The 30-day review and comment period of the BA Report is from **Friday, 4th of September** until **Monday, 5th of October 2020**. Please submit written comments to the contact person below on or before **Monday, 5th of October 2020**

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

BY SORGVLIT

CALVINIA – Mej Catharina du Toit van Hoërskool Calvinia en haar CSV kinders het Donderdag 29 Augustus 2020 'n uitreik na Sorgvliet gemaak.

Hulle het vir die inwoners liedere opgevoer en daarna 'n teksvers uit die Bybel gedeel. Die inwoners is gekroet met 'n kaartjie en 'n lekerny.

Die doel van die uitreik was om waardering en omgee te betoon aan die inwoners vir alles wat hulle al vir ander gedoen en beteken het oor die jare.

Dit was vir die kinders 'n voorreg en plesier om te kon teruggee aan die gemeenskap. Alle veiligheidsmaatreëls is nagekom.

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS
FOR THE EXTENSION OF GRID CONNECTION INFRASTRUCTURE FOR
THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE

| Project Name | Applicant |
|--|----------------------------------|
| Extension of grid connection infrastructure for the Gunstfontein Wind Farm, Northern Cape Province | Gunstfontein Wind Farm (Pty) Ltd |

Project details: Gunstfontein Wind Farm (Pty) Ltd proposes the development of a double circuit 132kV overhead power line to connect the already authorised Gunstfontein Wind Energy Facility to the national grid via the Hidden Valley substation Northern Cape Province.

The proposed grid connection infrastructure is situated near Sutherland in the Karoo Hoogland Municipality, Namakwa District Municipality, Northern Cape Province.

The proposed double-circuit 132kV overhead power line will be an extension of the authorised Gunstfontein Grid connection (DEA ref.no. 14/12/16/3/1/1619 (as amended)) near the end point of the already authorised power line and will extend to Eskom's Hidden Valley Transmission Substation. The proposed extension overhead power line project will consist of:

- * A double circuit 132kV overhead power line consisting of two sets of cables on a single set of pylon structures.
- * A 300m wide assessment corridor (150m on either side of the powerline), and a 200m assessment area around the proposed start- and end-points of the powerline used for assessment purposes in the Basic assessment report.
- * Pylons will be up to 32m in height.
- * The Length of proposed overhead power line corridor is approximately 7.5 km
- * Registered servitude of up to 40m wide.
- * Service tracks (jeep tracks only – no formal roads) will employ the existing Soetwater power line service track as far as possible.
- * Temporary laydown area and construction camp.

Project Location: The proposed grid connection extension powerline traverses four (4) affected properties, namely:

| | | | |
|--|---|---------------------------------------|-----------------------------|
| 1) Portion 1 of the Farm Orange Fontein No. 203; | 2) RE of the Farm Annex Orange Fontein No. 185; | 3) RE of the Farm Leeuwe Hoek No. 183 | 4) The Farm De Hoop No. 202 |
|--|---|---------------------------------------|-----------------------------|

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 - R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report available for Review:

The Basic Assessment Report is available for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/grid-infrastructure/gunstfontein-wind-farm/> The 30-day review and comment period of the BA Report is from **Friday, 4th of September until Monday, 5th of October 2020**. Please submit written comment to the contact person below on or before **Monday, 5th October 2020**.

September 2020

Revised Basic Assessment Report

NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR THE EXTENSION OF GRID CONNECTION INFRASTRUCTURE FOR THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE (DEFF REF: 14/12/16/3/3/1/2228).

| Project Name | Applicant |
|--|----------------------------------|
| Extension of grid connection infrastructure for the Gunstfontein Wind Farm, Northern Cape Province | Gunstfontein Wind Farm (Pty) Ltd |

Project details: Gunstfontein Wind Farm (Pty) Ltd proposes the development of a single- or double-circuit 132kV overhead power line to connect the already authorised Gunstfontein Wind Energy Facility to the national grid via the Hidden Valley substation, Northern Cape Province. The proposed grid connection infrastructure is situated approximately 38km south of Sutherland in the Karoo Hoogland Municipality, Namakwa District Municipality, Northern Cape Province. The proposed 132kV overhead power line will be an extension of the authorised Gunstfontein Grid connection (DEFF ref.no. 14/12/16/3/3/1/1619 (as amended)) near the end point of the already authorised power line and will extend to Eskom's Hidden Valley Transmission Substation. The proposed extension overhead power line project will consist of:

- A single- or double-circuit 132kV overhead power line on a single set of pylon structures.
- A 300m wide assessment corridor (150m on either side of the power line) and a 200m assessment area around the proposed start- and end-points of the power line, used for assessment purposes in the Basic assessment report.
- Pylons will be up to 32m in height.
- The length of proposed overhead power line corridor is approximately 7.5 km.
- Registered servitude of up to 40m wide.
- Access roads and service tracks
- Temporary laydown area and construction camp.
- A single 132kV Incoming Line Bay at the Hidden Valley Substation, of up to 0.1ha, located within the HV yard of the substation.

Project Location: The proposed grid connection extension power line traverses four (4) affected properties, namely:

| | | | |
|---|---|---------------------------------------|-----------------------------|
| 1) RE Portion 1 of the Farm Orange Fontein No. 203; | 2) RE of the Farm Annex Orange Fontein No. 185; | 3) RE of the Farm Leeuwe Hoek No. 183 | 4) The Farm De Hoop No. 202 |
|---|---|---------------------------------------|-----------------------------|

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environment, Forestry and Fisheries (DEFF), as the competent authority (DEFF REF: 14/12/16/3/3/1/2228). Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report Available for Review & Comment: A BA Report for the project has been compiled and was made available for public review from 04 September to 05 October 2020. Subsequently, an extension notice was submitted in terms of Regulation 19(1)(b) of the EIA regulations, 2014 (as amended), following further layout refinements. The report and updated layout is therefore made available again for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/grid-infrastructure/gunstfontein-wind-farm/>. The 30-day review and comment period of the BA Report is from **11 December 2020 to 01 February 2021**. Please submit written comments to the contact person below on or before **01 February 2021**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

24 Jaar gelede

NOORDWESTER: 3 Mei 1996. Raadslid J.G.L. Strauss was die enigste lid van die oorgangsraad van Calvinia wat gestem het teen 'n besluit om raadslede se vergoeding met 'n derde te verhoog. Mnr. Strauss het daarop aangedring dat sy teenstem in die notule van die raad opgeneem word.

24 Jaar gelede

NOORDWESTER: Die museum op Vanwyksvlei wat in 1980 deur wyle mnr. Carel van der Merwe geopen is, en alles daarin, is verkoop aangesien sy eggenote nie haar weg oopgesien het om verder daarmee aan te gaan nie. Met 'n tikkie hartseer kan ons amper sê die dorp is op 22 Maart gesloop van al die ou dinge.

Sagmaak.
Die wenresep

Sagmaak is 'n groot probleem, as buurman wyngeel soek, as hy geld kom leen. "Dis vir sy vrou gepla met kroep". Dis vir haar medikasie wat hy die geldjies soek. Sy sagmaak storie het beslis gewerk toe ek hom in sy kwaad versterk.

Die bedelaar het ook sy kaartje mooi gespeel toe hy 'n brood se geld wil hê. Selfs my laaste rand met hom gedeel toe hy sy hand op sy honger maag plat laat lê.

Sagmaak het nou so gewild geword. Dis trane wat die maskers nat laat word. Maar die mond wat vir die aalmoes vra, lê weggesteek agter die masker wat hy dra.

Daar is niks wat die hart so sag laat word as toneelspel met 'n geld-tekort.
Danie J. van Zyl

DIS MEER DROOG-AS NAT = BOERNEEF

Dis altyd te vroeg om moed te verloor

Geagte Leser,

As iemand sê dat ons weet dat ons omgewing 'n droë wêreld is en dat ons droogte moet verwag, is hy mos nie verkeerd nie. Ons ken die wêreld so. Soms is dit nat, soms is dit droog. Ek dink dit is Boerneef wat gesê het dat dit meer dikwels droog is. Dit verstaan ons.

Dit is waarom alles aangepas is by hierdie omstandighede. Die mooiste voorbeeld hiervan is hoe ons plante hierby aangepas het. Nie net kan hulle met min reën nog produseer nie, maar kan hulle oorleef wanneer die reën vir lang periodes wegby. Ons as boere het ook deur die jare aangepas. Ons vegetasie en lewenstyl is konserwatief, omdat ons weet dit word droog. Wanneer 'n droogte soos die huidige een toeslaan, is ek bevrees dat ons dit nie verwag het nie. Ons het nie verwag dat dit vir soveel aaneenlopende jare so droog kan wees nie. En tog moet ons dit op 'n manier hanteer.

Die logiese en goeie besluit is om vee te verminder. Dit help met die kontantvloei en boonop verlig dit die druk op die weiveld.

Ook hierdie strategie kan nie vir altyd aanhou nie. Weens 'n gebrek aan alternatiewe word die kudde kleiner as 'n kernkudde. Wat dan gebeur is dat die kooperasie (landbouesigheid) nie meer voer verkoop nie en sukkel dit om debiteure te finansier. Wat meer is, is dat die abattoirs daaronder begin ly. Aan die begin is slagtings selfs hoër a.g.v. die likwidasië van aanleef. Wanneer daardie bron uitgeput raak, neem die slagtings dramaties af. Daar word mos gesê 'n slagpale is soos 'n krokodil. As jy hom nie voer nie, vreet hy jou.

Hier waar ek kyk na die klompie oë wat op 'n mieliestrep staan en vreet, weet ek nie waar dit alles gaan eindig nie. Wat ons menslik gesproke kon doen, het ons gedoen. Hoe lank dit gaan aanhou weet ons nie. Ons weet ook nie hoe lank dit sal neem om te herstel nie. Sal ons besighede wat afhanklik is van ons boere se produkte kan oorleef?

Wat selfs meer jammer is, is dat jong mense nie meer kans sien om aan hierdie soort omstandighede blootgestel te wees nie. Jy kan hulle ook nie kwalik neem nie. Saam hiermee is dit jammer dat ons 'n infrastruktuur geskep het wat moeilik is om in stand te hou. Selfs die kerke ly daaronder.

Dit is altyd te vroeg om moed te verloor. Dit is egter ook so dat 'n mens sekere realiteite in die oë moet kyk en daarop reageer. Mag dit so wees dat die uitkoms veel nader is as wat ons kan dink en dat ons die genade sal ontvang om met entoesiasme ons boerdery voort te sit en dit weer lewenskragtig te maak.

Groete, Japie.

NOORDWESTER: 10 Mei 1996. In die vroeë oggendure van Vrydag 3 Mei 1996 het inwoners van Calvinia alles in hulle vermoë gedoen om die brand wat in die kerksaal van die NG Hantam gemeente uitgebreek het, onder beheer te kry. Gelukkig was dit 'n windstil oggend en het die brand nie na die kerk, kerkkantoor of omliggende huise versprei nie. Die oorsaak van die brand is nog nie vasgestel nie en die polisie is tans besig met hul ondersoek.

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS FOR THE EXTENSION OF GRID CONNECTION INFRASTRUCTURE FOR THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE (DEFF REF: 14/12/16/3/3/1/2228).

| Project Name | Applicant |
|--|----------------------------------|
| Extension of grid connection infrastructure for the Gunstfontein Wind Farm, Northern Cape Province | Gunstfontein Wind Farm (Pty) Ltd |

Project details: Gunstfontein Wind Farm (Pty) Ltd proposes the development of a single- or double-circuit 132kV overhead power line to connect the already authorised Gunstfontein Wind Energy Facility to the national grid via the Hidden Valley substation, Northern Cape Province. The proposed grid connection infrastructure is situated approximately 38km south of Sutherland in the Karoo Hoogland Municipality, Namakwa District Municipality, Northern Cape Province. The proposed 132kV overhead power line will be an extension of the authorised Gunstfontein Grid connection (DEFF ref. no. 14/12/16/3/3/1/1619 (as amended)) near the end point of the already authorised power line and will extend to Eskom's Hidden Valley Transmission Substation. The proposed extension overhead power line project will consist of:

- * A single- or double-circuit 132kV overhead power line on a single set of pylon structures.
- * A 300m wide assessment corridor (150m on either side of the power line) and a 200m assessment area around the proposed start- and end-points of the power line, used for assessment purposes in the Basic assessment report.
- * Pylons will be up to 32m in height.
- * The length of proposed overhead power line corridor is approximately 7.5 km.
- * Registered servitude of up to 40m wide.
- * Access roads and service tracks.
- * Temporary laydown area and construction camp.
- * A single 132kV Incoming Line Bay at the Hidden Valley Substation, of up to 0.1ha, located within the HV yard of the substation.

Project Location: The proposed grid connection extension power line traverses four (4) affected properties, namely:

| | | | |
|---|---|---------------------------------------|-----------------------------|
| 1) RE Portion 1 of the Farm Orange Fontein No. 203; | 2) RE of the Farm Annex Orange Fontein No. 185; | 3) RE of the Farm Leeuwe Hoek No. 183 | 4) The Farm De Hoop No. 202 |
|---|---|---------------------------------------|-----------------------------|

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environment, Forestry and Fisheries (DEFF), as the competent authority (DEFF REF: 14/12/16/3/3/1/2228). Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report Available for Review & Comment: A BA Report for the project has been compiled and was made available for public review from 04 September to 05 October 2020. Subsequently, an extension notice was submitted in terms of Regulation 19(1)(b) of the EIA regulations, 2014 (as amended), following further layout refinements. The report and updated layout is therefore made available again for download, review and comment on the Savannah Environmental website: <https://www.savannahsa.com/public-documents/grid-infrastructure/gunstfontein-wind-farm/>. The 30-day review and comment period of the BA Report is from **11 December 2020 to 01 February 2021**. Please submit written comments to the contact person below on or before **01 February 2021**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

NOORDWESTER: 3 Mei 1996. Vodacom, een van die selfoonreus in Suid-Afrika het die raad van Calvinia genader vir 'n stukkie grond in die omgewing van die TV-stasie waar hulle 'n basis stasie wil oprig.

Stoepsitstories

Neef Gert vertel:

Die paartjie is in die huwelik bevestig en sien uit na die witbrood.

Ma, Pa, Skoonma, Skoonpa, dogter en skoonseun groet mekaar die aand na die onthaal. Die tweeties wat by die tyd al oorloop van opgewondenheid, vertrek op hul hoogsegeime wegkomans.

Twee weke later het ouers en skoonouers nog niks van die honeymoon couple gehoor nie. "Gaan seker goed", het die bruidspaar se ouers mekaar bemoedig ten spyte van die stilte.

Na 'n buitengewone stilte van drie weke, laat die jong bruid van haar hoor.

"Ma, dit gaan baie goed. Ek en Gert geniet die witbrood ter-dee. Ons slaap darem nou al snags deur."
