

Revised

Basic Assessment Report

(Friday, 11 December 2020 – Monday, 01 February 2021)

Organs of State Correspondence

09 December 2020

Dear Stakeholder,

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunsfontein BESS') (DEFF Ref.No.: 14/12/16/3/3/1/2236)

NOTIFICATION OF REVISED BASIC ASSESSMENT REPORT AVAILABLE FOR REVIEW AND COMMENT

Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein Wind Energy Facility (WEF) (DEA Ref 14/12/16/3/3/2/826) in the Northern Cape Province. The BESS is proposed to be located near to the WEF substation and will be up to 4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

An access road to the BESS of up 8m in width will be developed. The BESS is envisaged to become an integral component of the authorised Gunstfontein WEF which is located on the remainder of Farm Gunstfontein 131, near Sutherland.

The proposed BESS project will consist of:

- A Battery Energy Storage System (BESS) inside containers or similar housing structures with a footprint of up to 4ha in extent.
- ~8m wide access road to the BESS (which will branch off the WEF roads to the BESS).
- Medium Voltage cabling (below ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha laydown area within the BESS footprint.

An area of ~500m around the boundary of the facility substation (assessment area) was assessed, to allow for the optimization of the placement of the BESS anywhere within this assessment area. This assessment area allows for the assessment of several location alternatives for the BESS and owing to the continuously advancing and emerging BESS technologies, there are several alternatives that can be considered for the BESS technology.

BASIC ASSESSMENT PROCESS

The proposed developments are subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. In terms of the EIA Regulations of 2014, as amended, and promulgated under Sections 24 and 24D of the NEMA, various aspects of the project are listed as activities that may have an impact on the environment. Due to the triggering of GNR 327, Listing Notice 1, Activities 27, 28 and GNR 327, Listing Notice 3, Activities 4(g)(ii)(ee) and 12(g)(ii) amongst others, of the EIA Regulations 2014 (as amended), a Basic Assessment process must be undertaken in order to obtain Environmental Authorisation for the construction and operation of the Gunstfontein BESS for the Gunstfontein Wind Farm.

Savannah Environmental was appointed as the independent environmental consultant to undertake the Basic Assessment and public participation process for the project to identify and assess all potential environmental impacts associated with the proposed upgrades and recommend appropriate mitigation measures in the Environmental Management Programme (EMPr).

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a BA process. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the Department of Environment, Forestry and Fisheries (DEFF). Our PP Plan is in compliance with the DEFF Directions issued on the 5th of June 2020. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation: visit <https://www.savannahsa.com/public-documents/energy-generation/gunstfontein-wind-energy-facility/>.

Alternative means of undertaking consultation have been designed to ensure that I&APs are afforded sufficient opportunity to raise comments on the project, predominately through an interactive web-based platform readily available and accessible to any person with interest in the project, enabling the public participation process to be undertaken in line with Regulations 41 to 44 of the EIA Regulations, 2014, as amended. This online stakeholder engagement platform allows the EAP to visually present details regarding the project and our consultation documentation, including project maps and plans, presentations and posters regarding the project, and reports available for review. The use of online tools enables stakeholders and I&APs to explore the project-specific content in their own time, and allows participation in the consultation process in a meaningful way. The online platform allows for instant feedback and comments to be submitted, in so doing saving

time for the stakeholder and also giving the assurance that their comments have been submitted for inclusion in the project reporting.

Your Department, which you represents as a commenting Official, has been identified as an Organ of State in terms of the EIA Regulations, 2014, as amended, Regulation 41.(2)(b)(iii) to (v) for the proposed project as described above.

AVAILABILITY OF REVISED BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

A Basic Assessment Report (BAR) for the project has been compiled and was made available for public review and comment from Friday, 14 October 2020 to Monday, 16 November 2020. Following further layout refinements by the applicant, a revised BAR in which these refinements of the layout has been included is available for a 30-day review and comment period from **Friday, 11 December 2020** until **Monday, 01 February 2021**. The revised BAR is available for download from our website / stakeholder engagement platform on the above-mentioned link and the release code is: **q9'wHP**.

All comments received during the previous BAR review and comments period have been included in the updated comments and responses report which is included as **Appendix C6** of the revised BAR. All written comments received during this review period will be recorded and included in the Final BAR for submission to the DEFF in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the BARs available at public places such as libraries and municipal offices. As per our approved public participation plan submitted to the DMRE, you can also request that an electronic copy of the BARs be send to you via file transfer services such as WeTransfer or Dropbox or a compact disk (CD).

In terms of the EIA Regulations, 2014, Regulation 43.(1) your Department is requested to please submit your written comments on the BAR to us by latest **Monday, 01 February 2021** via our website / stakeholder engagement platform (link provided above) or via:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including messages and *please call me* notification)
- Fax: 086 684 0547
- Post: PO Box 148, Sunninghill, 2157
- E-mail: publicprocess@savannahsa.com

to Nicolene Venter or Ronald Baloyi.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

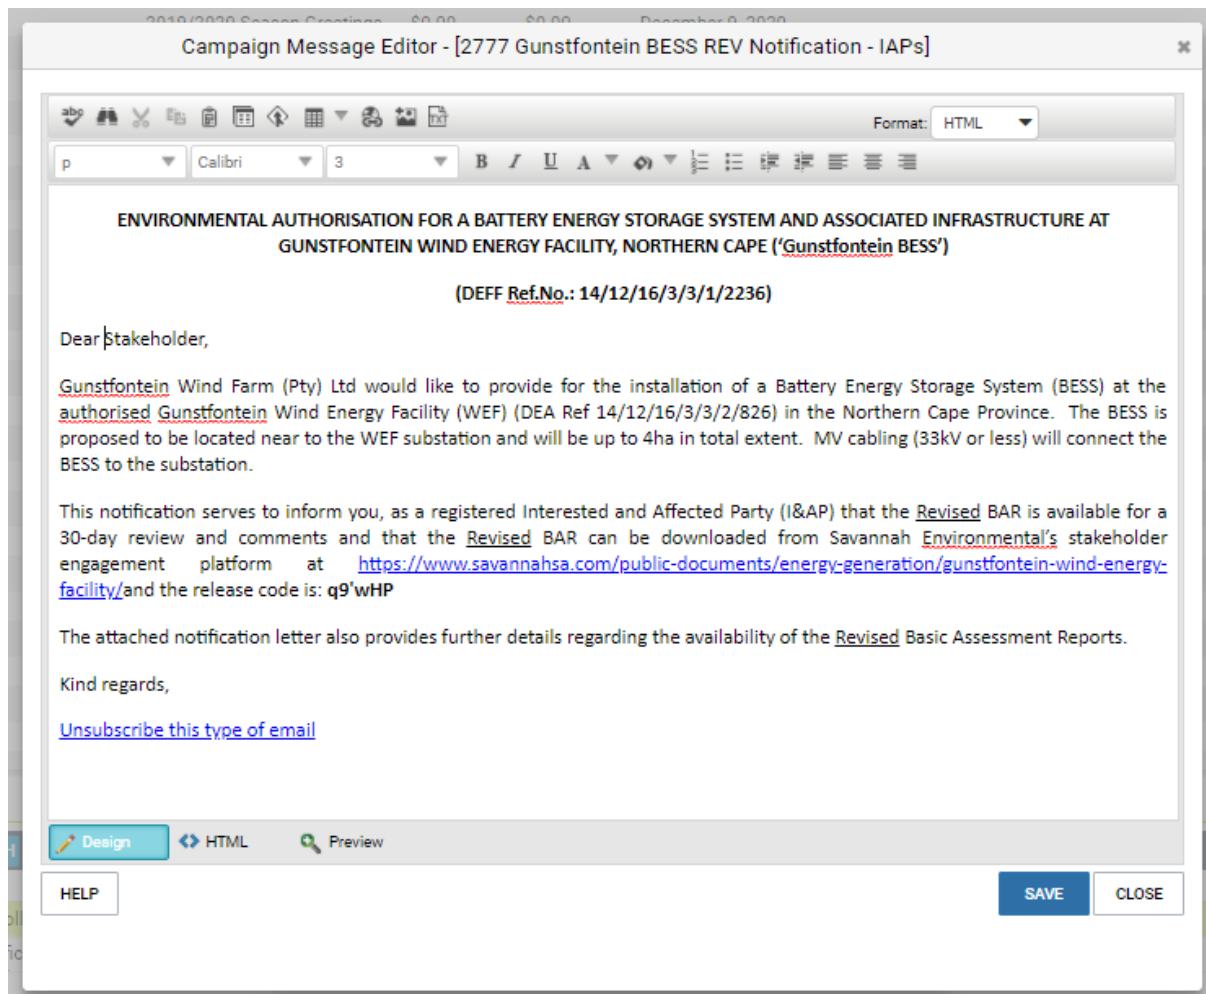

Nicolene Venter

Public Participation and Social Consultant

Gunstfontein Wind Energy Facility

NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE (Gunstfontein BESS)

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Gunstfontein Wind Energy Facility, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

Project details: Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein WEF (DEA Ref: 14/12/16/3/3/2/826) in the Northern Cape. The BESS is proposed to be located near to the facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

An access road to the BESS will be developed. The BESS is envisaged to become an integral component of the authorised WEF which is located on Farm Gunstfontein 131, Sutherland.

The proposed BESS project will consist of:

- Access road to the BESS (will branch off the WEF roads to the BESS).
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha Laydown Area.

Project Location: The proposed BESS and associated infrastructure is located on one (1) affected property, namely:

Farm Gunstfontein 131, Sutherland, Northern Cape

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report available for Review: The Basic Assessment Report is available for review and comment. The 30-day review and comment period of the BA Report is from **Friday, 16 October 2020** until **Monday, 16 November 2020**. The report is also available for download on www.savannahsa.com/projects. The due date for written comment is **Monday, 16 November 2020**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunstfontein BESS')

(DEFF Ref.No.: 14/12/16/3/3/1/2236)

Dear Stakeholder and Interested and Affected Party,

With reference to the attached notification letter sent on Wednesday, 09 December 2020 per e-mail, this e-mail serves to inform you that the comment period for the Basic Assessment Report (BAR) is ending on **Monday, 01 February 2021**.

As you may recall, the review and comment period for the BAR was from Friday, 11 December 2020 to Monday, 01 February 2021.

Thank you to those Stakeholders and Interested and Affected Parties who submitted their written comments and those who had not yet submitted written comments, we kindly request that you do so before or on **Monday, 01 February 2021**

Kind regards,

**EXTENSION OF GRID CONNECTION INFRASTRUCTURE FOR THE GUNSTFONTEIN WIND FARM, NORTHERN
CAPE PROVINCE
(DEFF Ref.No.: 14/12/16/3/3/1/2228)**

Dear Stakeholder and Interested & Affected Party,

With reference to the e-mail notification sent to you on Friday, 11 December 2020, we noticed that one of the Appendices did not upload onto our website.

Please be informed that **Appendix C7: Extension OHL Approved PP Plan** has been uploaded and can be downloaded from Savannah Environmental's stakeholder engagement platform at <https://www.savannahsa.com/public-documents/grid-infrastructure/gunstfontein-wind-farm1/> and the release code is: **8y{XD,**

Attached for ease of reference is Appendix C7.

As a reminder, please remember that the Revised BAR is available for a 30-day review and comments from **Friday, 11 December 2020** until **Monday, 01 February 2021**.

Kind regards,

EXTENTION OF GRID CONNECTION INFRASTRUCTURE FOR THE GUNSTFONTEIN WIND FARM, NORTHERN CAPE PROVINCE

Dear Stakeholder and Interested and Affected Party,

With reference to the attached notification letter sent on Friday, 11 December 2020 per e-mail, this e-mail serves to inform you that the comment period for the Basic Assessment Report (BAR) is ending on **Monday, 01 February 2021**.

As you may recall, the review and comment period for the BAR was from Friday, 11 December 2020 to Monday, 01 February 2021.

Thank you to those Stakeholders and Interested and Affected Parties who submitted their written comments and those who had not yet submitted written comments, we kindly request that you do so before or on **Monday, 01 February 2021**

Kind regards,

Basic Assessment Report

(Friday, 04 September 2020 – Monday, 05 October 2020)

Organs of State Correspondence

16 October 2020

Dear Interested & Affected Party,

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunstfontein BESS')

NOTIFICATION OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein Wind Energy Facility (WEF) (DEA Ref 14/12/16/3/3/2/826) in the Northern Cape Province. The BESS is proposed to be located near to the WEF substation and will be up to 4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation. An access road to the BESS of up 8m in width will be developed. The BESS is envisaged to become an integral component of the authorised Gunstfontein WEF which is located on the remainder of Farm Gunstfontein 131, near Sutherland.

The proposed BESS project will consist of:

- A Battery Energy Storage System (BESS) inside containers or similar housing structures with a footprint of up to 4ha in extent.
- Access road to the BESS (which will branch off the WEF roads to the BESS).
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha laydown area within the BESS footprint.

An area of ~500m around the boundary of the facility substation (assessment area) was assessed, to allow for the optimization of the placement of the BESS anywhere within this assessment area. This assessment area allows for the assessment of several location alternatives for the BESS and owing to the continuously advancing and emerging BESS technologies, there are several alternatives that can be considered for the BESS technology.

BASIC ASSESSMENT PROCESS

The proposed developments are subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. In terms of the EIA Regulations of 2014, as amended, and promulgated under Sections 24 and 24D of the NEMA, various aspects of the project are listed as activities that may have an impact on the environment. Due to the triggering of GNR 327, Listing Notice 1, Activities 14 , 27(ii), 28 and GNR 327, Listing Notice 3, Activities 4(g)(ii)(ee), 10(g)(iii)(ee) and 12(g)(ii) amongst others, of the EIA Regulations 2014 (as amended), a Basic Assessment process must be undertaken in order to obtain Environmental Authorisation for the construction and operation of the Gunstfontein BESS for the Gunstfontein Wind Farm.

Savannah Environmental was appointed as the independent environmental consultant to undertake the Basic Assessment and public participation process for the project to identify and assess all potential environmental impacts associated with the proposed upgrades and recommend appropriate mitigation measures in the Environmental Management Programme (EMPr).

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a BA process. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the Department of Environmental Affairs (DEA). Our PP Plan is in compliance with the Department of Environment, Forestry and Fisheries (DEFF) Directions issued on the 5th of June 2020. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation: visit <https://www.savannahsa.com/public-documents/energy-generation/gunstfontein-wind-energy-facility/>.

Alternative means of undertaking consultation have been designed to ensure that I&APs are afforded sufficient opportunity to raise comments on the project, predominately through an interactive web-based platform readily available and accessible to any person with interest in the project, enabling the public participation process to be undertaken in line with Regulations 41 to 44 of the EIA Regulations, 2014, as amended. This online stakeholder engagement platform allows the EAP to visually present details regarding the project and our consultation documentation, including project maps and plans, presentations and posters regarding the project, and reports available for review. The use of online tools enables stakeholders and I&APs to explore the project-specific content in their own time, and allows participation in the consultation process in a meaningful way.

The online platform allows for instant feedback and comments to be submitted, in so doing saving time for the stakeholder and also giving the assurance that their comments have been submitted for inclusion in the project reporting.

You and/or the organisation, which you represent, has been identified as an Interested and Affected Party (I&AP) for the proposed project as described above. Should you have an interest in the project, please register yourself as an I&AP by completing and returning the attached registration and comment form. By registering on the project database, you will be kept informed of the BA process being undertaken for the project and will be provided with an opportunity to provide comment and input.

AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report (BAR) is available for your review and comment from **Friday, 15 October 2020** until **Monday, 16 November 2020**. The report is available for download from our website / stakeholder engagement platform on the above-mentioned link.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the BARs available at public places such as libraries and municipal offices. As per our approved public participation plan submitted to the DMRE, you can also request that an electronic copy of the BARs be send to you via file transfer services such as WeTransfer or Dropbox or a compact disk (CD).

Please submit your written comments on the BARs to us by latest **Monday, 16 November 2020** via our website / stakeholder engagement platform (link provided above) or via:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including messages and *please call me* notification)
- Fax: 086 684 0547
- Post: PO Box 148, Sunninghill, 2157
- E-mail: publicprocess@savannahsa.com

to Nicolene Venter or Ronald Baloyi.

All comments received during the 30-day review and comment period will be recorded and included in the Final BAR for submission to the DEA in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

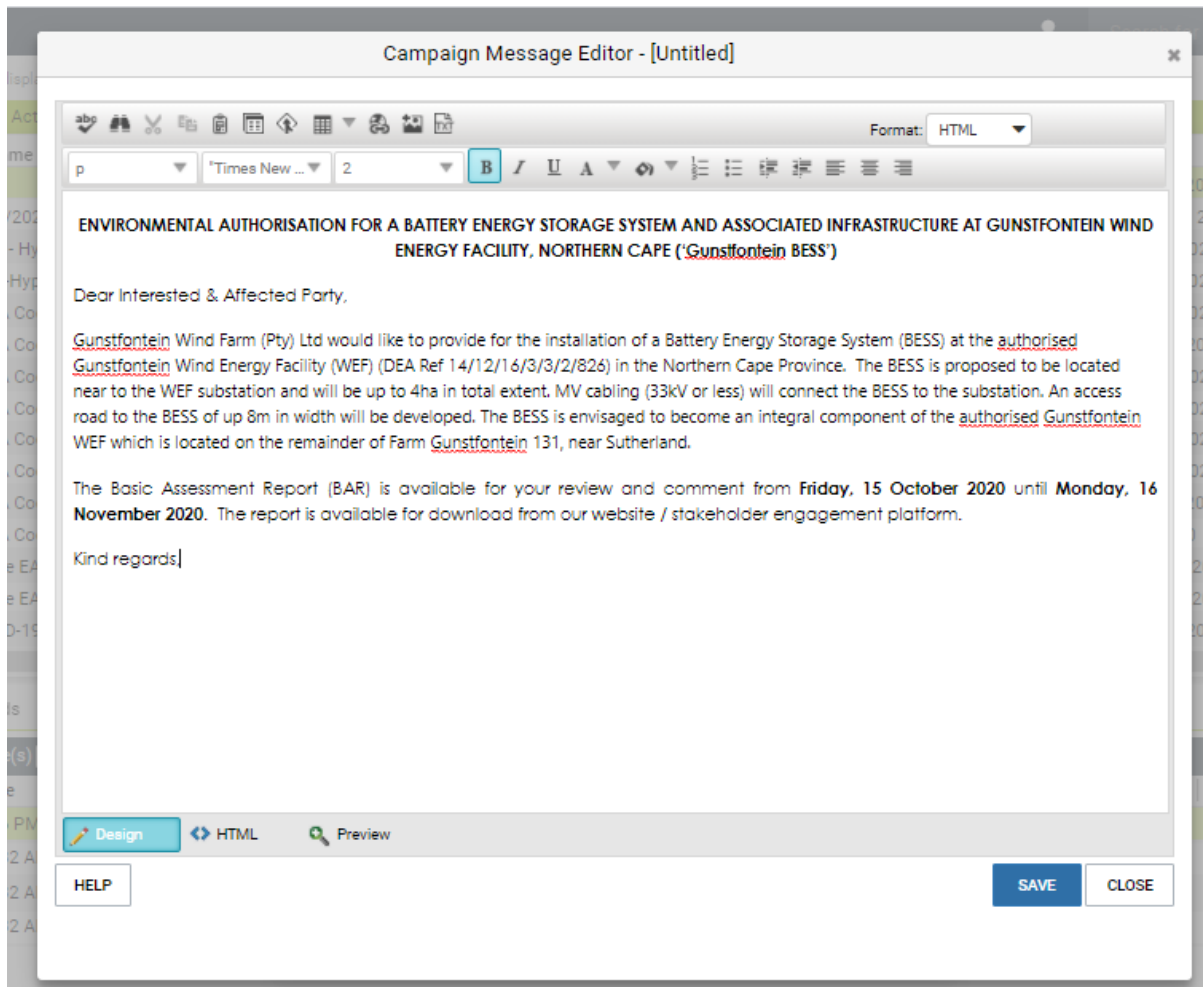

Kind regards

Nicolene Venter
Public Participation and Social Consultant

Gunstfontein Wind Energy Facility

NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE (Gunstfontein BESS)

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Gunstfontein Wind Energy Facility, Northern Cape Province	Gunstfontein Wind Farm (Pty) Ltd

Project details: Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein WEF (DEA Ref: 14/12/16/3/3/2/826) in the Northern Cape. The BESS is proposed to be located near to the facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

An access road to the BESS will be developed. The BESS is envisaged to become an integral component of the authorised WEF which is located on Farm Gunstfontein 131, Sutherland.

The proposed BESS project will consist of:

- Access road to the BESS (will branch off the WEF roads to the BESS).
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha Laydown Area.

Project Location: The proposed BESS and associated infrastructure is located on one (1) affected property, namely:

Farm Gunstfontein 131, Sutherland, Northern Cape

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 – R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report available for Review: The Basic Assessment Report is available for review and comment. The 30-day review and comment period of the BA Report is from **Friday, 16 October 2020** until **Monday, 16 November 2020**. The report is also available for download on www.savannahsa.com/projects. The due date for written comment is **Monday, 16 November 2020**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:
