NOTICE OF BASIC ASSESSMENT PROCESS PUBLIC PARTICIPATION PROCESS

RIPPONN WIND FARM, EASTERN CAPE PROVINCE

Project Name: Ripponn Wind Farm, Eastern Cape Province

Applicant: Ripponn (Pty) Ltd

Proposed Activity: The development of a wind farm with a contracted capacity of up to 324MW which will include up to 36 wind turbines and associated infrastructure including a collector substation, 132kV power line, access roads (gravel in nature), concrete foundations and hardstands, laydown areas, cabling to be laid underground where practical, temporary concrete batching plant, staff accommodation, and operation and maintenance buildings.

Location: The project site is located between Somerset East and Makhanda, approximately 37km south-east of Somerset East, within the Blue Crane Route Local Municipality and the Sarah Baartman District Municipality in the Eastern Cape Province. The site falls within Focus Area 3 of the Renewable Energy Development Zones (REDZ), which is known as the Cookhouse REDZ.

Eight (8) properties comprise the wind farm project site: Remaining Extent of Farm No 381, Remaining Extent of Farm Wilton No 409, Portion 7 of Farm No 381, Remaining Extent of Farm Hartebeest Kuil No 220, Portion 1 of Farm Hartebeest Kuil No 220, Portion 2 of Farm Haartebeestkuil No 220, Portion 2 of Farm No 230, Remaining Extent of Portion 4 (Pruim Plaas) of Farm Draai Hoek No 221.

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the project. As the project site is located within a REDZ, a Basic Assessment (BA) process is required to be undertaken in accordance with GNR114 (February 2018). Savannah Environmental is undertaking the required environmental assessment and public participation process.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

KENNISGEWING VAN 'N BASIESE EVALUERINGSPROSES OPENBARE DEELNAMEPROSES

RIPPONN WINDPLAAS, OOS-KAAPPROVINSIE

Projeknaam: Ripponn Windplaas, Oos-Kaapprovinsie

Applikant: Ripponn (Edms.) Bpk.

Beoogde aktiwiteit: Die ontwikkeling van 'n windplaas met 'n gekontrakteerde vermoë van hoogstens 324 MW, wat tot 36 windturbines en verwante infrastruktuur sal insluit, met insluiting van 'n kollektorsubstasie, 132 kV kraglyn, toegangspaaie (gruis van aard), betonfondasies en vasteblaaie, stapelwerfgebiede, kables wat ondergronds gelê moet word waar prakties moontlik, tydelike betonlotaanleg, personeelverblyf en bedryfs- en instandhoudingsgeboue.

Ligging: Die projekterrein is geleë tussen Somerset-Oos en Makhanda, sowat 37 km suidoos van Somerset-Oos in die Bloukraanvoëlroete Plaaslike Munisipaliteit en die Sarah Baartman Distriksmunisipaliteit in die Oos-Kaapprovinsie. Die terrein is in Fokusgebied 3 van die Hernubare Kragontwikkelingsones (REDZ), wat bekendstaan as die Cookhouse REDZ.

Die windplaasprojek beslaan agt (8) eiendomme: Die Restant van Plaasno. 381, Restant van die plaas Wilton No. 409, Gedeelte 7 van Plaasno. 381, Restant van die plaas Hartebeest Kuil No. 220, Gedeelte 1 van die plaas Hartebeest Kuil No. 220, Gedeelte 2 van die plaas Haartebeestkuil No. 220, Gedeelte 2 van Plaasno. 230 en Restant van Gedeelte 4 (Pruim Plaas) van die plaas Draai Hoek No. 221.

Basiese Evalueeringsproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmagtiging vir die projek onderneem word. Aangesien die projekterrein in 'n REDZ geleë is, moet 'n Basiese Evalueeringsproses (BE) ingevolge Staatskennisgewing R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewingsevaluering en openbare deelnameproses.

Ten einde meer inligting te bekom en om op die projek se databasis te registreer, verstrek asseblief u naam, kontakbesonderhede en belang by die projek aan:

Board lacks civil society presence to ensure sustainable development, civic and eco-rights groups argue

Nuclear watchdogs rip into regulator

Guy Rogers
rogers@theherald.co.za

Environmental and civil rights watchdogs have raised concerns about the absence of civil society representation on the board of the National Nuclear Regulator, an element required by law.

Koeborg Alert Alliance representative Peter Becker said according to the National Nuclear Regulator (NNR) Act, one member of the board had to be a civil society representative. 'However, when the cabinet announced a new board for the regulator on August 5, no such representative was included.

'This lack of representation is contributing to the ongoing weak governance at the regulator, the role of which is to monitor regulations compliance to ensure safety and the prevention of nuclear accidents.'

Wildlife and Environment Society Algoa Bay chair Gary Koekemoer said the legal requirement for civil society representation on the board of the nuclear regulator was an example of how to ensure SAs democracy balanced environmental and citizen interests with those of the state and industry.

'Sustainable development and collective stewardship requires citizen participation and this becomes key in the nuclear industry where the mismanagement of toxic

waste, for instance, has severe consequences for future generations.'

Koekemoer said he had been actively involved, as part of NoPEnuke, in protesting against Eskom's bid to build a nuclear reactor at Thyspunt, between Cape St Francis and Oyster Bay, and supporting groups like the Thyspunt Alliance in their opposition on environmental and heritage grounds.

That decade-long battle resulted in the national environment department's record of decision in 2017 that the project should rather proceed at Duynfontein in the Western Cape, adjacent to the existing Koeborg reactor.

He said when democracy came into effect in 1994 it had included excellent environmental legislation with checks and balances.

'But lately some of the regulations coming out of the department have been used as a rubber-stamp exercise where government and industry attempt to short-cut the process.

'We would hope that we have learnt from the state capture debacle that short cuts serve vested interests only and not the interests of citizens.'

Thyspunt Alliance spokesperson Trudi Malan said the organisation had, in fact, raised the lack of civil society representation on the board of the regulator while they were opposing the Thyspunt bid.

'That was about three years

ago and all these years later we have still not heard back from them.'

Southern African Faith Communities Environment Institute (Safcei) executive director Francesca de Gasparis said the situation was unacceptable.

'Affected communities such as people living near Vaalputs, a radioactive waste dump in the Northern Cape, have the right to have a representative on the board who will represent their community and their interests for a safe and healthy environment.

'It is not right that mineral resources and energy minister Gwede Mantashe has not appointed a representative as stipulated in the Act.'

Organisation Undoing Tax Abuse representative Liz McDaid said the organisation had also been trying without success to get answers from the authorities.

Makoma Lekalakala from Earthlife Africa Johannesburg said the organisation was concerned that the lack of a civil society representative on the regulator's board would mean no progress on cleaning up uranium-heavy toxic mine tailings around Johannesburg.

Becker noted that after Japan's 2011 Fukushima disaster, the International Atomic Energy Agency had recommended that nuclear regulators should be strengthened.

'Yet, according to the regulator's annual financial statements for 2018/2019, the gov-

PRIME PROPERTY: An aerial photograph of the Thyspunt area where Eskom had intended to build a nuclear reactor until its bid was quashed in 2017 by the environment department. The picture also shows the stone traps early Khoisan residents used to lay in the shallows to catch fish. Picture: THYSPUNT ALLIANCE

ernment grant was R16.5m, nearly 20% less than the R20m grant in 2010/2011, just before the Fukushima disaster.'

The regulator's annual report also showed that more than one in 10 posts at the agency were vacant, he said.

'If it is both underfunded and understaffed, is the regulator still able to adequately monitor safety at Koeborg?'

'We would stand a better chance of knowing if we had a representative on the board, as required by law.'

'The minister should immediately start the process of selecting a true representative of

civil society to serve on the National Nuclear Regulator board,' he said.

Becker said that in addition to the non-compliance with the NNR Act, the prescribed process was also questionable.

'It is deeply problematic that we, as civil society, cannot elect our own representative, and that the Act allows this so-called representative to be appointed by the same minister who openly promotes nuclear power.'

Mineral resources and energy department spokesperson Johannes Mokobane said the process to bring civil society

representation on the board of the regulator was under way.

'The minister has initiated a comprehensive consultative process with the National Economic Development and Labour Council and the South African National Civic Organisation aimed at identifying suitable candidates to be considered for appointment,' Mokobane said.

'Upon conclusion of this process, the identified individuals will be considered by cabinet prior to their appointment being made effective and their identities being made public.'

Still no word on lifting traditional circumcision ban

Lulamile Feni

Contralesa, the provincial health department and NGOs have stepped up efforts to ensure a safe summer initiation season by making traditional surgeons and nurses aware of the regulations governing SAs Covid-19 response.

Co-operative governance and traditional affairs minister Nkosazana Dlamini-Zuma has not yet lifted the ban on traditional circumcisions, though the pressure to do so is mounting.

There have already been a series of illegal circumcisions in Buffalo City, OR Tambo and Amathole.

Contralesa provincial secretary Nkosi Mkhanyiseli Dudumayo said the surgeons and nurses were being taught how to apply Covid-19 regulations to the traditional practice.

Both Contralesa and the SA National Civic Organisation (Sanco), which met this week, are angry that an announcement lifting the circumcision ban has not been made.

Sanco provincial secretary Tony Duba said communities had been patient since June, but 'that patience is fading'.

'We do not want anarchy caused by illegal initiations,' Duba said.

'We do not want an uncontrollable situation.'

'We want things to be done in accordance with the law, all Covid-19 regulations being observed.'

Dudumayo said that at the meeting Contralesa deputy provincial chair Nkosi Langa

Mavuso had presented a proposal submitted to premier Oscar Mabuzyane to open the summer season.

Dudumayo said Contralesa and Sanco were disappointed that traditional leadership had not yet received a response.

'While we are treated with contemptuous attitudes, there has been no supervision of the traditional initiation rite.'

'There has been one fatality and initiates hospitalised.'

'To avert such a situation, we call for the summer season to be opened.'

'Sanco leadership and NGOs in the health sector will take responsibility, and a programme will see to it that a refresher course is undertaken by traditional surgeons to minimise any blunders that may occur,' Dudumayo said.

Contralesa and Sanco agreed that both structures would engage Mabuzyane and Cogta MEC Xolile Nqatha.

'The traditional initiation rite is not a recreational activity but a tradition of passage from boyhood to manhood.'

'It is important that this institution which is protected in the main by the traditional leadership must be given the green light to continue.'

'When the opening of [academic] schools was touted, it was said that schools were a controlled environment.'

'We advance the same argument because there are responsible adults who are involved in the administration of the traditional rite of initiation,' Dudumayo said. — Daily Dispatch

KALEIDOSKOOP VAN LEWE

Soeke na 'n lewe van sin en betekenis ...

Ds Paul Odendaal

Seëls was klein gegraveerde voorwerpe, meestal in die vorm van 'n ring om afdrucke in klei of was te maak. Seëlfdrucke wys dat die dokument eg is, of dat die dokument nog nie oopgemaak is nie.

Op die seël was gewoonlik die eienaar se naam of kop, amp of familiewapen gegraveer. 'n Seël kon aan 'n persoon gegee word, om aan hom die mag te gee om die eienaar van die seël te verteenwoordig. So lees ons in Gen 41:42 dat koning Farao aan Josef, wat 'n slaaf was in Egipte, sy seëlring gee as teken dat hy nou die tweede hoogste is in die Egiptiese Ryk en dat hy met die Farao se seëlring namens die Farao kon regeer.

Die Bybel noem twee gevalle waar seëls gebruik is om ingange te verseël. Toe die profeet Daniël in die leeu kuil gegooi is, staan daar in Dan 6:18: "Daar is 'n klip gebring en op die opening van die leeu kuil gesit. Die koning het die opening verseël met sy seëlring en met dié van sy hoofamptenare sodat daar niks aan Daniël se lot verander sou kon word nie." Toe Jesus Christus se liggaam in 'n graf gesit is, het die Romeine ook sy graf verseël, sodat die Jode nie kon sê dat Jesus se liggaam gesteel is nie.

Daarom het 'n seëlring deur die geskiedenis van duisende jare altyd die rol vervul om iets te bevestig as outentiek, eg en oorspronklik. Wanneer 'n dokument 'n koninklike seël opgehad het, was dit altyd die finale opdrag van die koning en kan niks daaraan verander word nie. Daarom het die opstellers van die Heidelbergse Kategismus ook die doop beskryf as 'n seël, dat die Drie Enige God die dopeling aanneem om sy kind te wees.

Jou verlossing word as't ware verseël. Jesus Christus het werklik vir jou ook gesterf. Daar word verseël dat jy deel het aan al God se beloftes.

Prof Willie Jonker skryf dat dit in die kinderdoop gaan oor God se voorkomende genade wat die dopeling red. Jesus Christus het gesterf vir my erfsonde en ook alle sonde wat ek nog in my lewe sal doen. Dit is nie die dopeling se geloof en bekering wat die oorsaak of grond van die verlossing is nie. Dit is God wat uit vrye inisiatief sy verlossingsplan met die doop aan die dopeling kom beseël het.

kinders van Abraham. Ons kry deel aan die gemeente. Ons as gemeente ontvang die dopelinge as medebroers en -susters in die Here. Ons as gemeente het net soos hulle ouers en grootouers, die verantwoordelikheid om vir die twee jongelinge die regte pad te wys.

Die dopelinge gaan groot word. Hulle gaan leer om te dans. Dan gaan hulle met hulle metgeselle en lewensmaat dans. Om te dans moet jy leer. Verbondopvoeding is om te leer om in ritme saam met die Drie Enige God te dans. In ritme met die Drie Enige God, beteken om volgens die wil van God te dans. In die doop wat plaasvind "in die naam van die Vader en die Seun en die Heilige Gees", dans die Drie Enige God met die doopplegtigheid. Die Griekse woord om saam met God te dans is "perichoresis".

Die jongeling moet net leer, om soos hulle ouer word, ook saam met die Drie Enige God te dans. Daarom word 'n lewe saam met Christus, so goed opgesom in die lied van: "The Lord of the dance." Die Drie Enige God gee die melodie en die ritme aan. Die dopeling moet net inval by God se dans. Johannes Calvyn het gesê dat die twee vernaamste elemente van geloofsopvoeding moet liefde en strengheid wees. Liefde kweek geborgenheid en strengheid kweek sekuriteit. Met geborgenheid en sekuriteit het 'n kind alles om 'n suksesvolle grootmenslewe eendag te betree. 'n Jong boompie moet ook konstant gesnoei word om vorm aan te neem. As 'n Kareeboom gelos word, word dit 'n bos. Wanneer 'n Kareeboom gedurig gesnoei word, word dit 'n pragtige boom waaronder jy kan sit en waaronder

Fraudsters Target Legal Practitioners In Latest Fund Scam

The Legal Practitioners Fidelity Fund (LPFF) wishes to alert the public about a current scam attempting to defraud legal professionals by pretending to represent our organisation. This is of great concern to the LPFF, especially given our desire to enhance justice and contribute to the growth of the legal fraternity.

The modus operandi of the fraudsters is to contact legal practitioners about an

their bank accounts, purportedly by the LPFF. They then request the practitioner to refund a certain amount to them urgently to correct this error. Fraudsters have long used this technique to scam companies and individuals and as such, the LPFF feels this warning is equally relevant to those outside the legal profession.

We encourage legal practitioners to remain vigilant and to contact the LPFF to verify any communications bearing our name that raises suspicion.

Bonfils Barendereka, (Public Relations and Communications) at the LPFF, is available for media interviews to discuss this scam and the red flags that legal practitioners, and other individuals, can look out for to protect themselves from similar fraud attempts.

Amen.

(Ds. Paul Odendaal is leraar van die NG Kerk Adelaide.)

KENNISGEWING VAN BASIESE EVALUERINGSPROSESSE OPENBARE DEELNAMEPROSESSE

ONTWIKKELING VAN 'N GROEP HERNUBARE KRAGANLEGTE TUSSEN SOMERSET-OOS EN GRAHAMSTAD, OOS-KAAP

Beoogde aktiwiteit: Die ontwikkeling van 'n groep hernubare kragaanlegte bestaande uit nege (9) projekte, insluitend ses (6) windplase, twee (2) sonkragaanlegte en een (1) hooftransmissiesubstasie (HTS).

Ligging: Tussen Somerset-Oos en Grahamstad in die Cookhouse Hernubare Kragontwikkelingsone (REDZ) en die Oostelike Strategiese Transmissiekoridor. Die totale omvang van die projekte is in die Sarah Baartman Distrikmunisipaliteit en in die Blou Kraanvoëltoete- en die Makana Plaaslike Munisipaliteit.

Basic Assessment Report Advertisements

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

CLUSTER OF RENEWABLE ENERGY FACILITIES BETWEEN SOMERSET EAST AND MAKHANDA, EASTERN CAPE PROVINCE

Project Names: Hamlett Wind Farm, Rippon Wind Farm, Redding Wind Farm, Aeolus Wind Farm, and REDZ 3 Power Corridor 400MTS

Applicant: Hamlett (Pty) Ltd, Rippon (Pty) Ltd, Redding (Pty) Ltd, Aeolus (Pty) Ltd, and Wind Relic (Pty) Ltd

Proposed Activities: The development of four separate wind energy facilities and electrical grid infrastructure, which includes, a 400kV Main Transmission Substation (MTS) and two (2) 400kV power lines, to connect the wind farms to the national grid. The connection points into the national grid will be the existing Poseidon-Grassridge No.2 400kV power line and the existing Poseidon – Dedisa No.1 400kV power line. Associated infrastructure for each wind farm includes an on-site switching station, collector substation, a 132kV power line (twin turn dual circuit), access roads (gravel in nature), concrete foundations and hardstands, laydown area, cabling to be laid underground where practical, temporary concrete batching plant, temporary staff accommodation, and operation and maintenance buildings. Details of each wind farm are provided below:

Project	Capacity	No. of Turbines
Hamlett Wind Farm	333MW	37
Rippon Wind Farm	324MW	36
Redding Wind Farm	576MW	64
Aeolus Wind Farm	297MW	33

Location: Located between Somerset East and Makhanda, ~36km south of Cookhouse, within the Blue Crane Route Local Municipality, Sarah Baartman District Municipality in the Eastern Cape Province, and within the Cookhouse Renewable Energy Development Zone (REDZ) and the Eastern Strategic Transmission Corridor. The affected properties include:

Hamlett Wind Farm	Rippon Wind Farm	Redding Wind Farm	Aeolus Wind Farm	REDZ 3 Power Corridor 400MTS
Farm Vaalkop No 164	Remaining Extent of Farm No 381	Farm No 369	Remainder of Farm Brand Rug No 268	Farm 434
Remainder of Portion 1 (Middlevale) of Farm Van Aardts Kraal No 163	Remaining Extent of Farm Wilton No 409	Portion 2 of Farm Shepherds Rest No 272	Remainder of Farm Varkens Kuil No 269	Portion 3 of Farm Driefontein 259

Remainder of Farm Riet Fontein A No 159	Remaining Extent of Farm Hartebeest Kuil No 220	Portion 3 (Vlak Leegte) of Farm Driefontein No 259	Portion 1 of Farm Vaalkdrans No 299	
Portion 1 of Farm Riet Fontein A No 159	Portion 1 of Farm Hartebeest Kuil No 220	Portion 1 (Opmeet Fontein) of farm Gras Fonteyn No 258	Portion 1 Glen Roy of Farm Varkens Kuil No 269	
Remainder of Farm Jaskraal No 160	Portion 2 of Farm Haartebeestkuil No 220	Remainder of Farm Draai Van Klein Visrivier 254	Portion 3 Glen Roy a portion of Portion 1 of Farm Modderfontein No 302	
Remainder of Farm Nieuwe Grond A No 129	Remaining Extent of Portion 4 (Pruim Plaas) of Farm Draai Hoek No 221	Portion 1 of Farm Bothas Hoop 358m	Portion 2 Spitzkop of Farm Varkens Kuil No 269	
Remainder of Farm Wilton No 409	Portion 2 of Farm No 230	Remainder of 271 of Farm Request 271		
Portion 2 of Farm Middleton No 219		Portion 2 of Farm Request 271		
Remainder of Farm Bloemhof No 166		Portion 1 of Farm Request 271		
Farm Wilde Honden Kloof No 216		Portion 9 of Farm Britzkraal No 253		
Portion 1 of Farm Bloemhof No 166		Portion 8 (a Portion of Portion 7) of Farm Britzkraal No 253		

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the projects. As the project sites are located within a REDZ and the Eastern Strategic Transmission Corridor, Basic Assessment (BA) processes are required to be undertaken in accordance with GN R.113 and GN R.114 (February 2018). Savannah Environmental is undertaking the required environmental assessments and a combined public participation process.

Basic Assessment Reports available for review: The Basic Assessment (BA) Reports for Redding Wind Farm, Aeolus Wind Farm and the REDZ 3 Power Corridor 400MTS are available for review and comment from **Friday, 03 September 2021** until **Tuesday, 19 October 2021**, and the due date for written comments on these reports is **Tuesday, 19 October 2021**. The BA Reports for Hamlett Wind Farm and Rippon Wind Farm are available for review and comment from **Friday, 10 September 2021** until **Tuesday, 26 October 2021**, and the due date for written comments on both reports is **Tuesday, 26 October 2021**. All reports for the projects can be viewed at / downloaded from: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. Please see contact details below for submission of written comments.

Public Meetings: Interested and affected parties (I&APs) are invited to attend any one of the two public meetings which will take place on **Tuesday, 21 September at 18:00** and **Wednesday, 22 September at 14:00 and 18:00**. The meetings are being hosted via MS Teams, in compliance with COVID-19 protocols, as well as to ensure that attendance is unrestricted. Please contact Nicolene Venter (details below) to receive the virtual link for attendance.

To obtain further information and register on the projects database and to submit comments or queries, please refer to the contact information below.

● Real fails to lure most exciting young talent in the game to Madrid

Mbappe stays with PSG as Ronaldo seals move to United

Real Madrid failed in their attempt to sign France striker Kylian Mbappe from Paris Saint Germain on the final day of the transfer window as Cristiano Ronaldo completed his move from Juventus to Manchester United.

After a window which saw Lionel Messi's shock move from Barcelona to PSG, Real had hoped to create another upset by luring the most exciting young talent in the game to Madrid.

Multiple media reports in Spain said Real offered transfer fees ranging from €150m (R2.56bn) to €200m (R3.41bn) for the World Cup-winning forward.

A source close to PSG said the club had no intention of selling one of their key players in a year in which they were targeting Champions League success and said there was scepticism about whether Real were in a position to pay such a fee.

"It's been bemusing to see some take Real Madrid's supposedly credible bids at face value," the source said.

United announced last week that they had reached agreement with Juve to sign their former player, 36-year-old Ronaldo, a five-time Ballon d'Or winner.

Having passed a medical, secured a visa and agreed personal terms, Ronaldo said he was ready to recreate the glory years he had enjoyed under former United boss Alex Ferguson.

"I'm back where I belong," he said in an Instagram post. "Let's make it happen once again... Sir Alex, this one is

STAYING PUT: Kylian Mbappe is a key player for PSG. Picture: GONZALO FUENTES/REUTERS

for you.' Real did manage to bring in one Frenchman — teenage midfielder Eduardo Camavinga — who is joining on a six-year contract from French side Stade Rennes.

Local media reported that the fee for the 18-year-old France international was about €30m (R512.3m).

Despite the absence of another blockbuster deal there was plenty of movement elsewhere.

The most eye-catching deal saw Mbappe's France teammate Antoine Griezmann leave Barcelona to rejoin Atletico Madrid — initially on loan.

Griezmann left Atleti for the Nou Camp two years ago and his new club said there was an

option to extend the loan by a further year, while Barca said there was an obligation to make the move a permanent one.

Spain midfielder Saul Niguez departed Atletico to join Thomas Tuchel's European champions Chelsea — also on an initial loan basis.

Premier League club West Ham United signed Croatia attacking midfielder Nikola Vlasic from Russian side CSKA Moscow on a five-year contract and Czech midfielder Alex Kral on loan from Spartak Moscow.

Tottenham Hotspur, who held on to England forward Harry Kane in the window

despite interest from Manchester City, signed right-back Emerson Royal from Barcelona on a five-year deal for €25m (R427.3m).

Ronaldo's arrival had the knock-on effect of seeing United's Wales winger Dan James leave for Leeds United for a reported fee of £25m (R497.3m).

Juventus filled the gap in their attack left by Ronaldo by bringing Italy striker Moise Kean, 21, back to the club on a two-year loan worth €7m (R119.6m) from Everton.

Arsenal signed Japanese full-back Takehiro Tomiyasu from Serie A club Bologna to replace Spanish right-back Hector Bellerin, who has moved to Real Betis on a season-long loan. — Reuters

Aussies make SA players clean their own rooms, but they're bOK for it

Liam Del Carme

In a country where they are used to observing near-endless rules and regulations, the Springboks are taking Covid-19 protocols and restrictions in their stride as they remain in quarantine on the Australian east coast.

The team, with Argentina, are fenced off in a 'red zone' as they sit out their mandatory quarantine period before the remainder of their Rugby Championship obligations.

With no contact allowed with locals, including hotel staff, the Boks have to clean their own rooms, remain there when laundry is collected and dish their own food in the dining area.

A late-night burger courtesy of room service is clearly out of the question.

They have no access to the swimming pool, but in consultation with Los Pumas are allowed to alternate the use of the gym and training field.

Springbok coach Jacques Nienaber gave a glimpse of what life is like in their near dystopian, if not Orwellian, existence in Queensland.

In fact, during an online media briefing on Tuesday, Nienaber and No 8 Duane Ver-

THE BEAUTY OF IT: Springbok coach Jacques Nienaber says each team has its own unique DNA and they play towards what strengthens it. Picture: RICHARD HUGGARD/GALLO IMAGES

meulen were reduced to wry smiles as a stern voice over the public address system reminded the hotel inmates to remain in their rooms while laundry was being collected.

"We are in a red zone and no-one is allowed in," said Nienaber. For meals, we are told via the public address system when the food is ready and then we have to go to the dining area and Argentina have to eat at the same time."

Nienaber stressed, however,

that the Boks and Argentina were working well together to help ease the quarantine burden, which ends on Friday next week.

The Boks bio bubble was thought to have been pricked when one of their staff members returned a false positive Covid-19 test.

The team had to go into isolation while two more tests were conducted on the staff member, who subsequently returned negative tests.

It meant the Boks could not train on Monday, but preparations for their clash against the Wallabies next week have now started in earnest.

The Boks go into the Rugby Championship on the back of a series win over the British and Irish Lions, but questions have been raised about their preparedness for this competition in the absence of the exposure the now-defunct Super Rugby would have given them. — TimesLIVE

Tour de Yorkshire cancelled for third straight year

The 2022 edition of the Tour de Yorkshire cycling race has been cancelled due to 'escalating financial challenges' following the Covid-19 pandemic.

The last two editions of the multi-stage race have been cancelled due to continued uncertainty about the pandemic.

The event came into being after the successful Grand Depart of the 2014 Tour de France in Yorkshire.

James Mason, the CEO of Welcome to Yorkshire which organises the event along with Tour de France owners Amaury Sport Organisation (ASO), said

the two bodies had mutually agreed to cancel the event.

"We had every intention for the race to go ahead but unfortunately some of the circumstances were out of our control and sometimes you have to make big calls for the right reasons," Mason said.

"People from Yorkshire are proud and we only want the best for the county.

"We still have ambitions for large events to put Yorkshire on the world stage and we will continue to work with our partners to plan for those." — Reuters

FUNERAL NOTICES

KLEINBOOI

Valerie

The funeral service for the late Valerie will take place on Friday, 3 September 2021 at 10h00 from St. Michael's Anglican Church, Jameson Road, Schauderville. Deeply mourned and sadly missed by his family and friends.

OFFICIALS AND TENDERS

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES CLUSTER OF RENEWABLE ENERGY FACILITIES BETWEEN SOMERSET EAST AND MAKHANDA, EASTERN CAPE PROVINCE

Project Names: Hamlett Wind Farm, Rippon Wind Farm, Redding Wind Farm, Aeolus Wind Farm, and RED3 Power Corridor 400MTS

Applicant: Hamlett (Pty) Ltd, Rippon (Pty) Ltd, Redding (Pty) Ltd, Aeolus (Pty) Ltd, and Wind Relic (Pty) Ltd

Proposed Activities: The development of four separate wind energy facilities and electrical grid infrastructure, which includes, a 400kV Main Transmission Substation (MTS) and two (2) 400kV power lines, to connect the wind farms to the national grid. The connection points into the national grid will be the existing Poseidon-Grassridge No.2 400kV power line and the existing Poseidon - Dedisa No.1 400kV power line. Associated infrastructure for each wind farm includes an on-site switching station, collector substation, a 132kV power line (twin turn dual circuit), access roads (gravel in nature), concrete foundations and hardstands, laydown area, cabling to be laid underground where practical, temporary concrete batching plant, temporary staff accommodation, and operation and maintenance buildings. Details of each wind farm are provided below:

Project	Capacity	No. of Turbines
Hamlett Wind Farm	333MW	37
Rippon Wind Farm	324MW	36
Redding Wind Farm	576MW	64
Aeolus Wind Farm	297MW	33

Location: Located between Somerset East and Makhanda, ~36km south of Cookhouse, within the Blue Crane Route Local Municipality, Sarah Baartman District Municipality in the Eastern Cape Province, and within the Cookhouse Renewable Energy Development Zone (REDZ) and the Eastern Strategic Transmission Corridor. The affected properties include:

Hamlett Wind Farm	Rippon Wind Farm	Redding Wind Farm	Aeolus Wind Farm	RED3 Power Corridor 400MTS
Farm Vaalkop No 164	Remaining Extent of Farm No 381	Farm No 369	Remainder of Farm Brand Rug No 268	Farm 434
Remainder of Portion 1 (Middlevale) of Farm Van Aardt's Kraal No 163	Remaining Extent of Farm Wilton No 409	Portion 2 of Farm Shepherds Rest No 272	Remainder of Farm Varkens Kull No 269	Portion 3 of Farm Driefontein 259
Portion 1 of Farm Jaskraal No 160	Portion 7 of Farm No 381	Remainder of Farm Varkens Kull No 269	Remainder of Portion 3 of Farm Commadagga No 266	
Remainder of Farm Riet Fontein A No 159	Remaining Extent of Farm Hartebeest Kull No 220	Portion 3 (Vlak Leepte) of Farm Driefontein No 259	Portion 1 of Farm Vaalkrans No 299	
Portion 1 of Farm Riet Fontein A No 159	Portion 1 of Farm Hartebeest Kull No 220	Portion 1 (Opmeit Fontein) of Farm Gras Fonteyn No 258	Portion 1 Glen Roy of Farm Varkens Kull No 269	
Remainder of Farm Jaskraal No 160	Portion 2 of Farm Hartebeestkull No 220	Remainder of Farm Draai Van Klein Visviver 254	Portion 3 Glen Roy a portion of Portion 1 of Farm Modderfontein No 302	
Remainder of Farm Nieuwe Grond A No 129	Remaining Extent of Portion 4 (Pruim Plaas) of Farm Draai Hoek No 221	Portion 1 of Farm Bothas Hoop 358m	Portion 2 Spitzkop of Farm Varkens Kull No 269	
Remainder of Farm Wilton No 409	Portion 2 of Farm No 230	Remainder of 271 of Farm Request 271		
Portion 2 of Farm Middleton No 219		Portion 2 of Farm Request 271		
Remainder of Farm Bloemhof No 166		Portion 1 of Farm Request 271		
Farm Wilde Honden Kloof No 216		Portion 9 of Farm Britzkrak No 253		
Portion 1 of Farm Bloemhof No 166		Portion 8 (a Portion of Portion 7) of Farm Britzkrak No 253		

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the projects. As the project sites are located within a REDZ and the Eastern Strategic Transmission Corridor, Basic Assessment (BA) processes are required to be undertaken in accordance with GN R.113 and GN R.114 (February 2018). Savannah Environmental is undertaking the required environmental assessments and a combined public participation process.

Basic Assessment Reports available for review: The Basic Assessment (BA) Reports for Redding Wind Farm, Aeolus Wind Farm and the RED3 Power Corridor 400MTS are available for review and comment from Friday, 03 September 2021 until Tuesday, 19 October 2021, and the due date for written comments on these reports is Tuesday, 19 October 2021. The BA Reports for Hamlett Wind Farm and Rippon Wind Farm are available for review and comment from Friday, 10 September 2021 until Tuesday, 26 October 2021, and the due date for written comments on these reports is Tuesday, 26 October 2021. All reports for the projects can be viewed at / downloaded from: https://savannahsa.com/public-documents/eastern-cape-cluster-of-renewable-energy-facilities/. Please see contact details below for submission of written comments.

Public Meetings: Interested and affected parties (I&APs) are invited to attend any one of the two public meetings which will take place on Tuesday, 21 September at 18:00 and Wednesday, 22 September at 14:00 and 18:00. The meetings are being hosted by MS Teams, in compliance with COVID-19 protocols, as well as to ensure that attendance is unrestricted. Please contact Nicolelene Venter (details below) to receive the virtual link for attendance.

To obtain further information and register on the projects database and to submit comments or queries, please refer to the contact information below.

KENNISGEWING VAN BASIESE EVALUERING EN OPENBARE DEELNAMEPROSESSE

GROEPERING VAN HERNUBARE KRAGANLEGTE TUSSEN SOMERSET-OOS EN MAKHANDA, OOS-KAAPROVINSIE

Projekname: Hamlett Windplaas, Rippon Windplaas, Redding Windplaas, Aeolus Windplaas en REDZ 3 Kragkorridor 400 HTS

Applikant: Hamlett (Edms.) Bpk., Rippon (Edms.) Bpk., Redding (Edms.) Bpk., Aeolus (Edms.) Bpk. en Wind Relic (Edms.) Bpk.

Beoogde aktiwiteite: Die ontwikkeling van vier aparte windkragaanlegte en elektriese kragnetinfrastruktuur, wat 'n 400 kV Hooftransmissiesubstasie (HTS) en twee (2) 400 kV kraglyne insluit, om die windplase met die nasionale kragnet te verbind. Die verbindingpunte met die nasionale kragnet sal die bestaande Poseidon-Grassridge No.2 400 kV kraglyn en die bestaande Poseidon-Dedisa No.1 400 kV kraglyn wees. Verwante infrastruktuur vir elke windplaas sluit 'n interne skakelstasie, kollektorsubstasie, 'n 132 kV kraglyn (gedraaide tweelingkraglyn), toegangspaaie (gruis van aard), betonfondasies en vasteblaaie, 'n stapelwerfgebied, kables wat ondergronds gelê moet word waar dit prakties moontlik is, 'n tydelike betonlotaanleg, tydelike personeelverblyf en bedryfs- en instandhoudingsgeboue in. Besonderhede van elke windplaas word hieronder voorsien:

Projek	Vermoë	Aantal turbines
Hamlett Windplaas	333 MW	37
Rippon Windplaas	324 MW	36
Redding Windplaas	576 MW	64
Aeolus Windplaas	297 MW	33

Ligging: Geleë tussen Somerset-Oos en Makhandia, ~36 km suid van Cookhouse in die Bloukraanvoëlroete Plaaslike Munisipaliteit, Sarah Baartman Distriksmunisipaliteit in die Oos-Kaapprovinsie en in die Cookhouse Hernubare Kragontwikkelingsone (REDZ) en die Oostelike Strategiese Transmissiekorridor. Die geaffekteerde eiendomsluist in:

Hamlett Windplaas	Rippon Windplaas	Redding Windplaas	Aeolus Windplaas	REDZ 3 Kragkorridor 400 HTS
Plaas Vaalkop No. 164	Restant van Plaas No. 381	Plaas No. 369	Restant van plaas Brand Rug No. 268	Plaas 434
Restant van Gedeelte 1 (Middlevale) van plaas Van Aardts Kraal No. 163	Restant van plaas Wilton No. 409	Gedeelte 2 van plaas Shepherds Rest No. 272	Restant van plaas Varkens Kuil No. 269	Gedeelte 3 van plaas Driefontein 259
Gedeelte 1 van plaas Jaskraal No. 160	Gedeelte 7 van Plaas No. 381	Restant van plaas Varkens Kuil No. 269	Restant van Gedeelte 3 van Plaas Commadagga No. 266	
Restant van plaas Riet Fontein A No. 159	Restant van plaas Hartebeest Kuil No. 220	Gedeelte 3 (Vlak Leegte) van plaas Driefontein No. 259	Gedeelte 1 van plaas Vaalkdrans No. 299	
Gedeelte 1 van Plaas Riet Fontein A No. 159	Gedeelte 1 van plaas Hartebeest Kuil No. 220	Gedeelte 1 (Opmeet Fontein) van plaas Gras Fonteyn No. 258	Gedeelte 1 (Glen Roy) van plaas Varkens Kuil No. 269	
Restant van plaas Jaskraal No. 160	Gedeelte 2 van plaas Haartebeestkuil No. 220	Restant van plaas Draai Van Klein Visrivier 254	Gedeelte 3 (Glen Roy, 'n gedeelte van Gedeelte 1) van plaas Modderfontein No. 302	
Restant van plaas Nieuwe Grond A No. 129	Restant van Gedeelte 4 (Pruim Plaas) van plaas Draai Hoek No. 221	Gedeelte 1 van plaas Bothas Hoop 358m	Gedeelte 2 (Spitzkop) van plaas Varkens Kuil No. 269	
Restant van plaas Wilton No. 409	Gedeelte 2 van Plaas No. 230	Restant van 271 van plaas Request 271		
Gedeelte 2 van plaas Middleton No. 219		Gedeelte 2 van plaas Request 271		
Restant van plaas Bloemhof No. 166		Gedeelte 1 van plaas Request 271		
Plaas Wilde Honden Kloof No. 216		Gedeelte 9 van plaas Britzkraal No. 253		
Gedeelte 1 van Bloemhof No. 166		Gedeelte 8 ('n gedeelte van Gedeelte 7) van plaas Britzkraal No. 253		

Basiese Evalueringproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmagtiging vir die projekte onderneem word. Aangesien die projekterreine in 'n REDZ en die Oostelike Strategiese Transmissiekorridor geleë is, moet Basiese Evalueringprosesse (BE's) ingevolge Staatskennisgewing R113 en R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewingsevaluering en 'n gekombineerde openbare deelnameproses.

Basiese Evalueringverslae beskikbaar vir insae: Die Basiese Evalueringverslae (BE's) vir die Redding Windplaas, Aeolus Windplaas en die REDZ 3 Kragkorridor 400 HTS is beskikbaar vir insae en kommentaar vanaf **Vrydag, 3 September 2021** tot **Dinsdag, 19 Oktober 2021**, en die sperdatum vir skriftelike kommentaar op hierdie verslae is **Dinsdag, 19 Oktober 2021**. Die BE-verslae vir die Hamlett Windplaas en Rippon Windplaas is beskikbaar vir oorsig en kommentaar vanaf Vrydag, **10 September 2021** tot **Dinsdag, 26 Oktober 2021**, en die sperdatum vir skriftelike kommentaar op albei verslae is **Dinsdag, 26 Oktober 2021**. Al die verslae vir die projekte kan besigtig/afgelaai word by: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. Sien asseblief die onderstaande kontakbesonderhede vir indiening van skriftelike kommentaar.

Openbare vergaderings: Belangstellende en geaffekteerde partye (B&GP's) word uitgenooi om een van die twee openbare vergaderings by te woon wat op **Dinsdag, 21 September om 18:00** en **Woensdag, 22 September om 14:00 en 18:00** gehou sal word. Die vergaderings word aan die hand van MS Teams aangebied, ooreenkomstig COVID-19 protokolle, en ook om te verseker dat bywoning nie beperk word nie. Tree asseblief in verbinding met Nicolene Venter (besonderhede hieronder) om die virtuele skakel vir bywoning te ontvang.

Raadpleeg asseblief die kontakinligting hieronder om meer inligting te bekom, om op die projekte se databasis te registreer en om kommentaar of navrae in te dien:

PROMOSIE-ARTIKEL

Herkouervoeding in Perspektief

So maklik kan mens iets beskou as van nul en gener waarde. Amper soos die steen wat deur die bouers verwerp is, wat 'n hoeksteen geword het. So is ruvesel vir my in diervoeding. Op die oog af van minder belang, maar tog die spil waarom alles in herkouervoeding draai. Die ruggraat waarom elke rantsoenformulering gebou word.

Hierdie skryf die ten doel om die rol wat ruvesel in die ekonomie van herkouervoeding speel, te beklemtoon. Waar gespeende herkouers se optimale ruveselbehoefte in 'n gebalanseerde rantsoen vanaf 5% tot 15% toeneem na mate die dier volwasheid bereik, is volwasse herkouers se optimale ruveselbehoefte 20%. Dit beteken dat 'n skaap wat 50kg weeg en 2kg droë materie per dag inneem, 400g ruvesel/dag sal gebruik. Twee kg van goeie lusern wat uit 30% ruvesel bestaan, sal 600g ruvesel/skaap/dag voorsien, wat genoeg vir 1.5 skape is.

Indien voedingstekorte bestaan, sal herkouers neig om nog meer droë materie in te neem om die tekort te vergoed. Vierhonderd gram ruvesel van 'n gebalanseerde rantsoen wat deur 'n skaap/dag ingeneem word, kan uitgedruk word as 8g ruvesel/kg liggaamsmassa (LM) van die skaap.

Landman Voedingdienste het met betrekking van Landman Premix plus verteringsensiemer daarin geslaag om met 4g ruvesel/kg LM beter resultate te kry as met die tradisionele 8g/kg LM. Die klem val op ruvoerverbruik.

Aangesien ruvesel vanaf die ruvoerverbruik van voere afkomstig is, kan 'n besparing in ruveselverbruik, 'n groot besparing in ruvoer meebring.

Ruvoer wat 600g ruvesel/skaap/dag voorsien, kan met betrekking van Landman Premix 3 skape van voldoende ruvesel voorsien. Indien vervoer en verpakking in ag geneem word, is slegs 'n derde van die gewone uitgawes met betrekking van Landman Premix nodig.

Deur diere slegs ruvoer te voer, soos byvoorbeeld veldweiding, kan deur die gebruik van Landman Premix, 4 diere aangehou word met die ruvesel wat een dier met die tradisionele voedingsmetode inneem. Anders gestel kan 'n plaas se drakrag 4 x vergroot met die gebruik van die nuwe verbeterde voedingsmetode.

Met hierdie nuwe voedingsmetode word die negatiewe invloed van droogte op produksie uitgeskakel, terwyl die tradisionele metode wat tans gebruik word, kwesbaar vir droogtes is.

Om die ekonomiese voordele te verduidelik, het 2-ling skaapoeie in lamhokke 1.8kg voerpille sonder Landman Premix @ R5/kg = R9/ooi/dag ontvang, terwyl 'n ander groep 2-ling ooie 1kg Landman voerpille @ R5/kg = R5/ooi/dag met welslae gevoer is. 'n Besparing van R4/ooi/dag. Dit beteken dat met die geld waarmee 5 skaapoeie op die tradisionele metode gevoer is, 9 ooie volgens die nuwe verbeterde metode gevoer is. Dus 80% meer diere word teen dieselfde koste gevoer.

Deur die belangrikheid van ruvesel en beter vertering in diervoeding in ag te neem, kan groot winste vir Suid-Afrika se veeboere verseker word!

Vir meer inligting, kontak Landman Voedingdienste

BLUE CRANE ROUTE MUNICIPALITY

NOTICE NUMBER : 29/2021

Integrated Development Plan, Performance Management and Budget Process Plan Review 2022/2023

Section 28(3) of the Local Government Municipal Systems Act requires the municipality to give notice to the local community of particulars of the process it intends to follow.

Notice is hereby given that BCR Municipality Council as mandated by Section 28 of the Local Government Municipal Systems Act has adopted IDP/PMS/Budget Process Plan for 2022/2023 financial year in its Special Council meeting held on the 31 August 2021.

The documents are available in the following offices for the members of the community who want to comment /input and also in the Municipal website: www.bcrm.gov.za

* BCR Municipal offices (Somerset East) and Municipal libraries (Somerset East, Pearston and Cookhouse)

Comments may also be submitted in writing to the following address/email address not later than 21 days after the advert has been issued.

The Office of the Municipal Manager, Blue Crane Route Municipality, P.O. Box 21, 67 Nojoli Street, Somerset East, 5850

WOLMARKVERSLAG

PORT ELIZAETH - 01 SEPTEMBER 2021

MARKANALISE

Die 3de wolveiling van die 2021/2022 seisoen, het op 01 September plaasgevind. Die Cape Wools Merino aanwyser het met 1.6% gedaal teenoor die vorige veiling en teen 'n skoonprys van R164.95/kg gesluit. Die Australiese EMI het ook met 1.3% verswak teenoor die vorige veiling. Die Rand het, ooreenstemmend dieselfde tyd van die vorige veiling, 3.1% sterker verhandel teen die VSA Dollar en het ook 2.4% versterk teen die Euro. Die grootste daling van 4.6% op hierdie veiling, was in die 19.0 mikron segment. Standard Wool SA het op hierdie veiling die grootste hoeveelheid bale gekoop, gevolg deur Tianyu SA, G. Modiano SA en Stucken & Co. Daar is in totaal 7 263 bale aangebied, waarvan 86.2% verkoop is. Op die OVK veiling is 2 019 bale aangebied waarvan 87.1% verkoop is. Die hoogste prys op die OVK veiling, van R190.00/kg, is behaal vir 'n 1 baal lot BH van 17.4 mikron, uit die skeersel van IF Nel, van Aliwal-Noord. Die koper was Segard Masurel SA. Baie geluk met hierdie prestasie!

VOORUITSIGTE

Die daling in die SA wolmark hierdie week, kan grootliks toegeskryf word aan die versterking van die Rand teenoor die vernaamste geldeenheide, asook die verswakking in die Australiese wolmark. Dit wil egter voorkom asof die Australiese wolmark wel besig is om te stabiliseer, wat 'n positiewe invloed op die Suid-Afrikaanse wolmark behoort te hê. As gevolg van die lae volumes wol ontvang die afgelope tyd, is daar besluit om katalogis 4 met een week aan te skuif. Katalogis 4 en 5 sal dan gelyktydig verkoop word op die 15de September. Wol ontvang in die makelaars se store hierdie week, is 8.0% laer, vergeleke die ooreenstemmende tyd van die vorige seisoen. Een van die redes vir die laer ontvangstes, kan die gevolg wees van die erge koue wat die afgelope weke ondervind is in groot produksiegebiede en skeertye dus aangepas moes word. Volhoubaar gesertifiseerde (RWS), goeie kwaliteit Merinowol, het weereens goeie aandag geniet op die veiling en gesorg vir gesonde kompetisie tussen kopers. Ons nooi produsente uit om te skakel met OVK, om u by te staan in die sertifiseringsproses. Die volgende veiling is geskeduleer vir 15 September 2021.

OVK bied voorskotte op vesel wat by ons gelewer word, asook produksieleninge. Skakel gerus die OVK Veselkantoor in Port Elizabeth of u Tegnie se Veldbeaamte vir meer inligting. Vind ook meer uit oor die opwindende nuwe kommissiestruktuur op vesel bemerk deur OVK. Produsente word ook herinner aan die loyaliteitskema van OVK, waar boere beloon word met 23.9 sent vir elke kilogram vesel wat deur OVK bemerk word.

KENNISGEWING VAN BASIESE EVALUERING EN OPENBARE DEELNAMEPROSESSE

GROEPERING VAN HERNUBARE KRAGANLEGTE TUSSEN SOMERSET-OOS EN MAKHANDA, OOS-KAAPROVINSIE

Projekname: Hamlet Windplaas, Rippon Windplaas, Redding Windplaas, Aeosuis Windplaas en RED3 3 Kragkelder 400 HTS

Aplikant: Hamlet (Edms.) Bpk., Rippon (Edms.) Bpk., Redding (Edms.) Bpk., Aeosuis (Edms.) Bpk. en Windkalk (Edms.) Bpk.

Beoogde aktiwiteite: Die ontwikkeling van vier aparte windkragaanlegte en elektriese kragverleerstrukture, wat 'n 400 kV owertransmissiesubstansie (HTS) en twee (2) 400 kV kraglyne insluit, om die windplase met die nasionale kraglyn te verbind. Die verbindingspunte met die nasionale kraglyn sal die bestaande Posidon-Grasligging No. 2 400 kV kraglyn en die bestaande Posidon-Grasligging No. 1 400 kV kraglyn wees. Verrekte Instruktuur vir elke windplase sal 'n interne skakelstelsel, kollektiesubstansie, 'n 132 kV kraglyn (geïntegreerde spanning) (geïntegreerde (geval van aard), betonfundasies en verbindings), 'n stapelvergeleed, kobalt wat ondiergrond gegrê moet word wat dit prakties moontlik is, 'n hydrauliese betonklaarleg, tydlike personeelverblyf en bedryfs- en instandhoudingsgeboue is. Besonderhede van elke windplase word hieronder voortsien:

Projek	Vermoë	Aantal turbines
Hamlet Windplaas	333 MW	37
Rippon Windplaas	324 MW	36
Redding Windplaas	576 MW	64
Aeosuis Windplaas	297 MW	33

Ligging: Geleë tussen Somerset-Oos en Makhanda, ~36 km suid van Cookhouse in die Bloubaard-waarderde Plaaslike Munisipaliteit, Sarah Baatman Oorstromingsmunisipaliteit in die Oos-Kaapprovinsie en in die Cookhouse-Hernubare Kragaanlegteprojek (RED3) en die Oostelike Strategiese Transmissiekoridor. Die geografiese oorsprong van die HTS is:

Basiese Evalueeringsproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmoedigheid vir die projekte onderneem word. Aangesien die projekteroute in 'n RED3 en die Oostelike Strategiese Transmissiekoridor geleë is, moet Basiese Evalueeringsprosesse (BE's) Ingevolge Staatskennisgewing R113 en R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewings-evalueerings en 'n gekombineerde openbare deelnameproses.

Basiese Evalueeringsproses beskikbaar vir insake: Die Basiese Evalueeringsproses (BE's) vir die Redding Windplaas, Aeosuis Windplaas en die RED3 3 Kragkelder 400 HTS is beskikbaar vir insake en kommentaar vanaf Vrydag, 3 September 2021 tot Dondag, 19 Oktober 2021, en die spesifieke kommentaar op hierdie versie is Dondag, 19 Oktober 2021. Die BE-versie vir die Hamlet Windplaas en Rippon Windplaas is beskikbaar vir insake en kommentaar vanaf Vrydag, 10 September 2021 tot Dondag, 24 Oktober 2021, en die spesifieke kommentaar op hierdie versie is Dondag, 24 Oktober 2021. Al die versies vir die projekte kan besoegbaar gemaak word by: <https://savannah.com/public-documents/energy-generation/central-coast-state-of-south-africa-energy-facilities/>. sien ook die oorspronkele kontakbesonderhede vir indringing van die basiese kommentaar.

Openbare vergaderings: Belangstellende en geïnteresseerde partye (B&GP's) word uitgenooi om een van die twee openbare vergaderings by te woon wat op Dondag, 21 September om 18:00 en Woensdag, 22 September om 14:00 en 18:00 gehou sal word. Die vergaderings word aan die hand van NS Teams aangebied, ooreenkomstig COVID-19 protokolle, en ook om te verseker dat bywoning nie beperk word nie. Treë asof in verbinding met Nicolette Venter (besonderhede hieronder) om die virtuele skakel vir bywoning te ontvang.

Roadploeg asof die kontakligging hieronder om meer inligting te bekom, om op die projekte se databasis te registreer en om kommentaar of navoe in te dien:

BG Sekuriteit vang nog 3 rowers

SOMERSET-OOS

BG Sekuriteit het weereens hul waarde bewys en 3 rowers, gewapen met messe, op 25 Augustus gearresteer.

Die rowers het by Rory en Ester Love se huis omstreeks 03:00 ingebreek. Die alarm het afgegaan en BG was vinnig op die toneel om die 3 rowers vas te trek.

Volgens mnr Barnard Goosen het hulle die laaste 2 maande baie goeie suksesse gehad en verkeie suksesvolle arrestasies gedoen.

Ons wil graag vir mnr Goosen en sy span baie dankie sê vir hul werk terwyl ons en ons geliefdes rus na n lang dag.

Op die oomblik is daar weer 'n baie kommerwekkende toename in inbrake. Ons moedig die publiek aan om asseblief enige agterdoeltige persone of situasies aan te meld by die polisie of een van die sekuriteitsfirmas.
