REVIEWED BY

Mrs Ashlea Strong
Principal Consultant

This Comments and Responses Report report (Report) has been prepared by WSP Environmental Proprietary Limited (WSP) on behalf and at the request of Coega Development Corporation (Client), to provide the Client with an understanding of the stakeholder consultation process associated with the Wild Coast Strategic Economic Zone (SEZ).

Unless otherwise agreed by us in writing, we do not accept responsibility or legal liability to any person other than the Client for the contents of, or any omissions from, this Report.

To prepare this Report, we have reviewed only the documents and information provided to us by the Client or any third parties directed to provide information and documents to us by the Client. We have not reviewed any other documents in relation to this Report, except where otherwise indicated in the Report.

1 INTRODUCTION

1.1 BACKGROUND INFORMATION

The Department of Trade and Industry (DTI) developed the SEZ policy to support and accelerate industrial development in targeted regions where socio-economic growth has been problematic. This would be achieved by the provision of special measures needed to develop targeted industrial and agricultural capabilities and attract targeted foreign and domestic direct investment. The SEZ policy has four (4) specific objectives:

- Support the development of targeted industrial capabilities and attract foreign and domestic direct investments in support of the Industrial Policy Action Plan (IPAP) and Provincial Industrial Development Strategies (PIDS's), under the over-arching National Development Plan (NDP);
- Develop world-class industrial infrastructure in line with the requirements of the targeted industries and investments;
- Promote beneficiation and further value addition of the country's mineral and agricultural resources; and
- Contribute to the creation of sustainable jobs and increase exports of beneficiated commodities in the targeted regions.

The Wild Coast Special Economic Zone (WCSEZ) is intended to address the under-development of industry and agriculture in the Wild Coast region, the elevated unemployment levels, particularly among the youth, and unacceptable high levels of poverty.

The viability of the proposed WCSEZ will depend on the suggested approach, which will be phased.

- 1) Phase 1 – mainly Sector development cluster (Agro-processing Sector) housing facilities to unlock the primary sector with the hub near Mthatha Airport.
- 2) Phase 2 – Services Sector that will focus on the support industries for Agro-processing. This could include Logistics and Distribution, Business Process Outsourcing (BPO), Call Centres and others. Further investigations need to be done to enhance the value proposition and viability of this Sector. This second Phase will also contain value added support infrastructure such as accommodation, skills and training centre, a commercial node and innovation and industrial services nodes.

It is envisioned that increased commercial activity in the area will assist in the development of the tourism sector.

The Coega Development Corporation (CDC) is a state-owned enterprise (SoE) based in the Nelson Mandela Bay Municipality with operations throughout South Africa. The CDC is mandated to develop and operate the 11 500 ha Coega Industrial Development Zone (IDZ), which was established in 1999. To this end, the CDC is tasked with the responsibility to create employment, provide training and development, and Small and Medium Sized Enterprises (SMME) support and development opportunities, in order to reduce unemployment, inequalities, and to eradicate poverty in the Eastern Cape (EC), with a focus on Nelson Mandela Bay Metro, in particular. Therefore, the CDC's vision is to be the leading catalyst for the championing of socio-economic growth. Its mission is to provide a competitive investment location supported by value added business services that effectively enables socio-economic development in the EC and the rest of South Africa. In the 17 years since its establishment, the CDC has become South Africa's most successful IDZ and has matured to become one of the biggest drivers of job creation and development of the EC economy. It is purpose-designed following the cluster model, which strategically positions related and synergistic industries and their supply chains in close proximity to one another in order to maximise efficiency and minimize turnaround times. The Coega IDZ is demarcated into 14 zones, with the focus being placed on the following sectors:

- Metals/Metallurgical;
- Automotive;
- BPO;
- Chemicals;
- Agro-processing;
- Logistics;

- Public participation is proper, fair conduct in public decision-making activities. Focus on vulnerable and disadvantaged person and offer equitable participation due to historical issues.
- A way to ensure that projects meet the citizens' needs and are suitable to the affected public.
- The project carries more legitimacy, and less hostility, if IAPs are able to influence the decision-making process.
- Finally, the final decision is informed when local knowledge and values are included and when expert knowledge is publicly examined.

1.2.1 OBJECTIVES

The objectives of the public participation process can be summarised as follows:

- Identify relevant individuals, organisations and communities who may be interested in or affected by the Proposed Project;
- Clearly outline the scope of the Proposed Project, including the scale and nature of the existing and proposed activities;
- Identify viable Proposed Project alternatives that will assist the relevant authorities in making an informed decision;
- Identify shortcomings and gaps in existing information;
- Identify key concerns, raised by Stakeholders that should be addressed in the subsequent specialist studies;
- Highlight the potential for environmental impacts, whether positive or negative; and
- To inform and provide the public with information and an understanding of the Proposed Project, issues and solutions.

1.2.2 WHAT IS AN INTERESTED AN AFFECTED PARTY?

An I&AP is defined as any person, group of persons or organisations interested in or affected by an activity, and any organ of state that may have jurisdiction over any aspect of the activity.

The difference between an I&AP and a registered I&AP:

- An I&AP can be directly or indirectly impacted on by a proposed activity.
- A registered I&AP is a person whose name has been placed on the register of registered I&APs. According to the PPP Guidance document, 2017, only registered I&APs will be notified:
 - Of the availability of reports and other written submissions made to the CA by the Applicant, and be entitled to comment on these reports and submissions; and
 - Of the outcome of the application, the reasons for the decision, and that an appeal may be lodged against a decision.

For the purpose of this report, registered I&APs will be referred to as Stakeholders.

RIGHTS, ROLES AND RESPONSIBILITIES OF THE STAKEHOLDER

Registered stakeholders have the right to bring to the attention of the competent authority any issues that they believe may be of significance to the consideration of the application. The rights of stakeholder are qualified by certain obligations, namely:

- Stakeholders must ensure that their comments are submitted within the timeframes that have been approved by the Department of Environmental Affairs (DEA), or within any extension of a timeframe agreed by the Proponent, EAP or competent authorities;
- Serve a copy of the comments submitted directly to the competent authorities, the Proponent or the EAP; and
- Disclose to the EAP any direct business, financial, personal or other interest that they might have in the approval or refusal of the application.

The roles of stakeholders in a public participation process usually include one or more of the following:

- Assisting in the identification and prioritisation of issues that need to be investigated;

- Making suggestions on alternatives and means of preventing, minimising and managing negative impacts and enhancing Proposed Project benefits;
- Assisting in or commenting on the development of mutually acceptable criteria for the evaluation of decision options;
- Contributing information on public needs, values and expectations;
- Contributing local and traditional knowledge; and
- Verifying that their issues have been considered.

In order to participate effectively, stakeholders should:

- Become involved in the process as early as possible;
- Register as a stakeholder;
- Advise the EAP of other stakeholders who should be consulted;
- Contribute towards the design of the public participation process (including timeframes) to ensure that it is acceptable to all stakeholders;
- Follow the process once it has been accepted;
- Read the material provided and actively seek to understand the issues involved;
- Give timely responses to correspondence;
- Be respectful and courteous towards other stakeholders;
- Refrain from making subjective, unfounded or ill-informed statements; and
- Recognise that the process is confined to issues that are directly relevant to the application.

1.3 APPROACH TO STAKEHOLDER ENGAGEMENT

Our approach to stakeholder engagement is based on the following principles:

- Undertake meaningful and timely participation with stakeholders;
- Focus on important issues during the process;
- Undertake due consideration of alternatives;
- Take accountability for information used;
- Encourage co-regulation, shared responsibility and a sense of ownership over the Proposed Project lifecycle;
- Apply “due process” particularly with regard to public participation as provided for in the EIA Regulations; and
- Consider the needs, interests and values of stakeholders.

The Public Participation guideline in terms of NEMA EIA Regulations, drafted by the Department of Environmental Affairs, 2017, tabulates the level of Public Participation required for various levels of anticipated project impacts. This table has been used to identify additional Public Participation methods which are required for the project. Highlighted cells indicate the applicable response to the anticipated impacts. Results of the process are shown in **Table 1-1** below.

Table 1-1: Level of Public Participation (Department of Environmental Affairs (2017), Public Participation guideline in terms of NEMA EIA Regulations, Department of Environmental Affairs, Pretoria, South Africa.)

SCALE OF ANTICIPATED IMPACTS:	RECOMMENDED RESPONSE	
	IF “YES”	IF “NO”
Are the impacts of the project likely to extend beyond the boundaries of the local municipality?	Formal Consultation with other affected municipalities should be carried out during the PPP.	No need to have a formal consultation with other municipalities during PPP. Minimum requirements for public participation in accordance to EIA

SCALE OF ANTICIPATED IMPACTS:	RECOMMENDED RESPONSE	
	IF “YES”	IF “NO”
Are the impacts of the project likely to extend beyond the boundaries of the province?	Formal Consultation with other affected provinces should be carried out during the PPP.	No need to have a formal consultation with other provinces during PPP. Minimum requirements for public participation in accordance to EIA must be met.
Is the project a greenfields development (a new development in a previously undisturbed area)?	Extensive consultation with Registered Interested and Affected Parties (RI&APs) might be required before a decision is taken on the project to in order to gather more information, and to ensure that there is minimal impact on the	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Does the area already suffer from socio-economic problems (e.g. job losses) or environmental problems (e.g. pollution), and is the project likely to exacerbate these?	Extensive consultation with RI&APs within the area should be undertaken, to gather more information on both the socio-economic and environmental problems.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Is the project expected to have a wide variety of impacts (e.g. socio-economic and ecological)?	Thorough consultation needs to be conducted with RI&APs, in order to address variety of impacts.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Public and environmental sensitivity of the project:		
Are there widespread public concerns about the potential negative impacts of the project?	Broader consultation with all RI&APs will need to be undertaken.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Is there a high degree of conflict among RI&APs?	There might need to be more consultation to ensure that there is consensus reached among RI&APs.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Will the project impact on private land other than that of the applicant?	Consultation with the private land owner must be done, and all their concerns need to be addressed.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Does the project have the potential to create unrealistic expectations (e.g. that a new factory would create a large number of jobs)?	Thorough consultation that addresses the perceptions of unrealistic expectations needs to be carried out.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Potentially affected parties:		
Has very little previous public participation taken place in the area?	More thorough public participation should take place within the area, to ensure that all potential and RI&APs participate.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Did previous public participation processes in the area result in conflict?	Additional consultation might be needed to ensure that issues of conflict are addressed effectively.	Minimum requirements for public participation in accordance to EIA Regulations must be met.

SCALE OF ANTICIPATED IMPACTS:	RECOMMENDED RESPONSE	
	IF “YES”	IF “NO”
Are there existing organisational structures (e.g. local forums) that can represent I&APs?	Organizational structures might minimise conflict whilst maximising the participation.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Is the area characterised by high social diversity (i.t.o. socio-economic status, language or culture)	Proper consultations that address language and cultural diversity should be promoted.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Were people in the area victims of unfair expropriations or relocation in the past?	PPP should be extensive and address any unfair practices that occurred in the past.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Is there a high level of unemployment in the area?	The PPP should ensure that there are no unrealistic expectations created due to the project. The consultation should ensure that any unrealistic expectations are adequately addressed before the project starts.	Minimum requirements for public participation in accordance to EIA Regulations must be met.
Do the RI&APs have special needs (e.g. a lack of skills to read or write, disability, etc)?	Consultation should include mechanisms that will ensure full participation by people with special needs.	Minimum requirements for PP in accordance to the Act must be met as well as best practices relating to PP.

The results of the above assessment show that the following additional mechanisms would need to be employed for this project:

→ A public meeting with the landowners, the Link Community, was organised in order to present the EIA process and DSR. Members of the King Sabata Dalindyebo Local Municipality (KSDLM) were also invited to attend the meeting. The Link Community acquired the land following a successful land claim as explained in the FSR. This meeting was scheduled to be held on 24 April 2018, the day the EAP was also conducting distribution of the DSR and site notices at the public venues and the local authorities in Mthatha. On arrival at the venue, the EAP was informed that some members of the community were not happy with how the land claim process was proceeding.

It must be noted that the disagreement was not targeted at the project, but was related to leadership power struggles within the community. A faction of the community had formed a parallel committee to the existing one with regards to the land claim issue. The root of the problem can be linked to the fact that the project will generate income for the individuals listed on the land claim in the form of rentals paid by the eventual inhabitants of the project area. Due to this dispute, the public meeting to present the EIA process and the potential projects impacts was cancelled and was set to be rescheduled. The EAP and the CDC proceeded to have a meeting with the KSDLM members and the community leadership at the CDC Mthatha Office. A key output of the meeting was a suggestion to employ a Social Facilitator to assist in dealing with the key issues in the community as well as engage the Chief of the local area in order to resolve the community issue. The meeting minutes and the attendance register for this follow-up meeting are attached as **Appendix D-1** of this report.

It must be noted that the conflict is related to the community leadership with respect to the client and is not related to the EIA Process. The CDC has since engaged the Chief of KwaNcise Community (Chief Makaula) in order to have the issue resolved. During this meeting, it was agreed that the Chief would be approached for any potential communication with the community. He would then be responsible for communicating the outcome to the community members so that the consultants do not directly engage with the community outside of the Chief's presence. The meeting minutes for this follow-up meeting are attached as **Appendix D-2** of this report.

→ Notification letter to notify adjacent landowners.

2 PUBLIC PARTICIPATION TO DATE

2.1 SCOPING PHASE PROCESS

There was no formal pre-application public participation process undertaken to obtain comments on the proposed project prior to submission of the S&EIA application. During the pre-application phase, the EAP used attendance registers of the community and landowner meetings to get stakeholder details and informally brief them on the proposed development. An advert was published in the Daily Dispatch Newspaper on 25 April 2018. Site notices were put up on 24 April 2018 at the following points:

- Mthatha High School;
- Mthatha Public Library;
- Fence on Site Boundary; and
- King Sabata Dalindyebo Municipality.

2.1.1 IDENTIFICATION OF KEY STAKEHOLDERS

Section 41 of the 2017 EIA Regulations states that written notices must be given to identified stakeholders as outlined in **Table 2-1**.

Relevant authorities (Organs of State) have been automatically registered as I&APs. In accordance with the EIA Regulations, 2017, all other persons must request in writing to be placed on the register, submit written comments or attend meetings in order to be registered as stakeholders and included in future communication regarding the project.

Table 2-1: Interested and Affected Parties Table

IDENTIFIED STAKEHOLDER	EAP COMMENT
<i>(i) the owner or person in control of that land if the applicant is not the owner or person in control of the land</i>	The project activity is located on a portion of land owned by the Link Community. The community members have been included on the stakeholder database based on the attendance registers from previous meetings held with regards to the land claim.
<i>(ii) the occupiers of the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken</i>	The land is unoccupied at the moment but is adjacent to the Mthatha Airport.
<i>(iii) owners and occupiers of land adjacent to the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken</i>	Adjacent landowner details were collected and the landowners were notified via a project notification letter via email and sms notification.
<i>(iv) the municipal councillor of the ward in which the site or alternative site is situated and any organisation of ratepayers that represent the community in the area</i>	Ward Councillor of Ward 13 (King Sabata Dalindyebo Local Municipality) has been included on the stakeholder database.
<i>(v) the municipality which has jurisdiction in the area</i>	The relevant personnel responsible for environmental authorisations at King Sabata Dalindyebo Local Municipality and O.R. Tambo District Municipality were included on the stakeholder database.
<i>(vi) any organ of state having jurisdiction in respect of any aspect of the activity</i>	The Department of Environmental Affairs (DEA) and the Eastern Cape Department of Economic Development, Environmental Affairs and Tourism (DEDEAT) have been consulted.

(vii) any other party as required by the competent authority.

The Department of Agriculture, Forestry & Fisheries (DAFF) and the Biodiversity & Conservation Unit of the DEA.

Appendix A provides a list of stakeholders registered on the project database. The stakeholders along with the date on which they registered and reference to comments received, where applicable are indicated in **Table 2-4**. The stakeholder database will be updated throughout the Scoping and EIA process.

2.1.2 NOTIFICATION PROCEDURES

DIRECT NOTIFICATION

Notification of the proposed project was issued to potential Interested and Affected Parties (I&APs) and stakeholders, via direct correspondence (i.e. site notices, email and sms) on 24 April 2018. The purpose of the notification was to offer potential I&APs and Stakeholders the opportunity to register on the project database and provide input into the process at a very early stage of the process (i.e. prior to the submission of the application forms) to ensure the major concerns had been considered adequately, reducing the potential for amendments to the report following formal commencement of the process.

All notifications distributed to registered stakeholders are included in **Appendix C-3** of this report.

ADVERTISEMENT

Notification of the proposed project was issued to the general public via an advertisement on 25 April 2018. As above, the purpose of the advertisement was to notify the general public of the proposed application and provide an opportunity to register on the project database and provide input into the process. A copy of the advertisement is included as **Appendix C-1**. The advertisement publication details are provided in **Table 2-2**.

Table 2-2: Dates on which the Advert was published

NEWSPAPER	PUBLICATION DATE
The Daily Dispatch	25 April 2018

SITE NOTICES

The EIA Regulations require that site notices be fixed at places conspicuous to the public at the boundary or on the fence of the site where the activity (to which the application relates) is to be undertaken, as well as at any alternative sites. Posters (English), conforming to the size specifications of the EIA Regulations, were placed at the locations in **Table 2-3** and photographic evidence can be found in **Appendix C-2**.

Table 2-3: Venues where site notices were placed

VENUE	ADDRESS	GPS COORDINATES
Mthatha High School	55 Victoria Street, Mthatha	31°35'30.48"S, 28°47'9.62"E
Mthatha Public Library	34 Owen Street, Mthatha	31°35'20.36"S, 28°47'12.86"E
Fence on Site Boundary	Airport Road	31°33'18.46"S, 28°40'12.85"E
King Sabata Dalindyebo Local Municipality	Munitata Building, Sutherland Street	31°35'18.82"S, 28°47'16.20"E

AVAILABILITY OF THE DRAFT SCOPING REPORT

The Draft Scoping Report was placed on public review for a period of 30 days from **24 April 2018** to **28 May 2018**, at the following venues:

- Mthatha High School (55 Victoria Street); and
- Mthatha Public Library (34 Owen Street).

Additionally, an electronic version of the report was placed on the WSP website to be accessed by the public at the following link: <http://www.wspgroup.com/en/WSP-Africa/What-we-do/Services/All-Services-A-Z/Technical-Reports/>.

FINAL SCOPING REPORT

The Final Scoping Report (FSR) was submitted to the DEA on 8 June 2018 as well as on the WSP website on the link provided above. The DEA accepted the FSR on 17 July 2018 and allowed the application to progress to the environmental impact assessment phase.

AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT

The Draft Environmental Impact Assessment Report (EIAR) was placed on public review for a period of 30 days from **10 August 2018** to **10 September 2018** at the following venues:

- Mthatha High School (55 Victoria Street); and
- Mthatha Public Library (34 Owen Street).

Additionally, an electronic version of the report was placed on the WSP website to be accessed by the public at the link referenced above.

2.1.3 STAKEHOLDER REGISTRATION

The Application form was submitted to the DEA on **25 April 2018**. This was the same day the advertisement notifying I&APs was published in the Daily Dispatch. Stakeholders have since called in or sent emails to the EAP requesting to be added to the stakeholder register as well as ask questions regarding the project. All the stakeholders who contacted the EAP are indicated in **Table 2-4**.

2.1.4 SCOPING PHASE COMMENTS RECEIVED

Comments received from registered stakeholders during the Scoping Phase have been captured and responded to within the comments and response tables included in **Table 2-4**. The original comments and responses are included in **Appendix E**.

Table 2-4: Scoping Phase Comments and Responses

EIA Admin 22 May 2018 Email	6.1	<p>The DEA sent an email with an attachment letter with its comments listed from 1.1 (a) to (c).</p> <p>Good day.</p> <p>Please find herein the attached letter for the above mentioned.</p> <p>I hope you find all in order.</p> <p>Thank you.</p>		Appendix C
	6.1 (a)	If the activities applied for in the application form differ from those mentioned in the final DSR, an amendment application form must be submitted.	The activities applied for in the application form have not been changed and are still the same as those indicated in the Final Scoping Report (FSR). No amendment application will be required.	Appendix C
	6.1 (b)	The impacts of the No-go alternative in Section 6.1 (Page 34) of the draft SR are noted. Please include positive impacts that are likely to result from the No-go alternative.	The positive impacts of the No-go alternative were added to Section 6.1 of the FSR as requested.	Section 6.1 of the FSR
	6.1 (c)	i. Comments must be obtained from the Biodiversity and Conservation Unit of this Department.	i. WSP contacted the Case Officer, Ms Bathandwa Ncube, via email to request the contact person for the Biodiversity and Conservation Unit of the DEA. WSP were provided the contact details of Mr Stanley Tshitwamulomoni who was later contacted to confirm the number of copies of the report required. Since the public review period was almost over, WSP decided to submit the first copies to the Biodiversity Conservation Unit when making FSR submissions to authorities and stakeholders.	Appendix C
		ii. Please ensure that all organs of state which have jurisdiction in respect of the proposed activity, as well as Interested and Affected Parties (I&APs), are given an opportunity to comment on the proposed development. These include, but are not	ii. The O.R. Tambo District Municipality was given the opportunity to comment as copies of the reports were hand delivered to their offices in Mthatha. Proof of delivery has been attached. No comments have been received from them to date,	Appendix B

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		<p>limited to, The O.R. Tambo District Municipality, the Department of Water and Sanitation (DWS), the South African Heritage Resource Authority (SAHRA), the Department of Agriculture, Forestry and Fisheries (DAFF) and Mthatha Airport.</p>	<p>however, email communications of the relevant personnel to communicate with going forward were provided.</p> <p>The DWS was given the opportunity to comment as copies of the reports were hand delivered to their offices in King Williams Town. Proof of delivery has been attached. No comments have been received from them to date.</p> <p>The Mthatha Airport (facilities managed by the Department of Transport) have been involved in the process as they have helped with arranging access for specialists to conduct site visits on the proposed sites. However, there was no specific report that was provided to the Mthatha Airport. The advert published in the Daily Dispatch (Regional Newspaper) and the notifications sent via email and sms were used to notify potential I&APs to comment on the report provided at public platforms. A copy will be sent to Mr Andre de Vries of the DoT who is responsible for the Mthatha Airport. Mr Paullin Naidoo from Airports Company South Africa (ACSA) is the Mthatha Airport Manager. Both parties were added to the stakeholder database.</p> <p>SAHRA and DAFF had not received copies of the DSR during the public review period. Copies of the FSR will be submitted to both entities when distribution is done.</p>	
		<p>iii. Proof of submission of the draft SR to all organs of state which have jurisdiction in respect of the proposed activity must be included in the final SR.</p>	<p>iii. The proof of submission of the draft SR to all organs of state has been as Appendix B-3 of this report.</p>	Appendix B-3
		<p>iv. Please ensure that copies of original comments received from I&APs and organs of state, which have jurisdiction in respect of the proposed activity are submitted to the Department with the final SR. Should you be unable to obtain such comments,</p>	<p>iv. The copies of original comments have been attached as Appendix C of this report. The proof of steps taken to obtain comments in the form of project notification emails, sms and the advert are attached to this report as well.</p>	Appendix C

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		proof should be submitted to the Department of the attempts that were made to obtain the comments.		
		v. All issues raised and comments received during the circulation of the draft SR from I&APs and organs of state which have jurisdiction in respect of the proposed activity are to be adequately addressed in the final SR, including comments from this Department, and must be incorporated into the Comments and Responses Report (CRR).	v. All comments from the I&APs have been addressed in this CRR and the relevant sections of the FSR. This also includes the comments from the DEA.	Section 2.2 Appendix C
Ms Bathandwa Ncube (DEA)				
Bathandwa Ncube 22 May 2018 Email	7.1	Ms Bathandwa Ncube responded to the email. Goodday Chifadza Concerning the request for comments from Biodiversity and Conservation, please address the report to: Contact person: Mr. Stanley Tshitwamulomoni His contact details are: Contact Number: 012 399 9587 Email: StanleyT@environment.gov.za	WSP sent an email to Ms Bathandwa Ncube on 22 May 2018 to enquire about the contact details for the Biodiversity Conservation Unit of the DEA. Good morning, With regards to the comments we received for the Wildcoast project with reference above, comment c) requires us to obtain comments from the Biodiversity and Conservation Unit of the DEA. Can you please help in identifying the responsible personnel from this unit we can courier or email the report to.	Appendix C
Mcebisi Langa Nyati, Operations Director (Embo Farms (Pty) Ltd)				
Mcebisi Nyati 27 May 2018 Email	8.1	Dear Tutayi, Thank you for providing us a platform to raise issues on this very important initiative by the Coega Development Corporation (CDC). Who we are: We represent Embo Farms (Pty) Ltd (reg no. 2018/081989/07), which is a 100% black woman-owned company. It has intentions of establishing	Good day, The purpose of this report is for the scoping phase for the clearance of the site to allow for future projects to take place. The environmental authorisation of individual activities that will occur on the site will be done separately if they trigger any listed activities. Issue 1	Appendix C

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		<p>commercial farming operations that are located, but not limited to the King Sabata Dalindyebo (KSD) local municipality.</p> <p>Our intended farming operations fall within the scope of the 14-sector development projects identified in Page 32 of the Draft Scoping Report.</p> <p>Issue 1</p> <p>As the document was read, we were weary of making offside comments as there was some degree of confusion as to whether solicited comments were on the Environmental Impact Assessment (EIA) aspects covered in the report or the WSEZ project scope and its feasibility. The confusion arose due to the fact that, it seems, the Final Scoping Report purpose is the required approval by the Department of Environmental Affairs (DEA) on the environmental impacts of this project.</p> <p>Issue 2</p> <p>There is a need to tightly align the Wildcoast Special Economic Zone (WSEZ) Final Scoping Report with the King Sabata Dalindyebo (KSD) local municipality's Integrated Development Plan (IDP) 2017/18 - 2022 programmes that are related to or have an impact on this project.</p> <p>As a key stakeholder, KSD IDP programmes speak of the development of Mqanduli as an agricultural node with AGRO processing capabilities, Viedgesville as a Logistics hub and Mthatha Airport as a spatial economic zone for linking business opportunities.</p> <p>On the other hand, this project speaks of Phase 1 as focussing on 14 sector development projects (agro-processing sector) housing facilities to unlock the primary sector with the hub near Mthatha Airport. Reference is to Page 32 of the WSEZ Draft Scoping Report. Its Phase 2 speaks of developing the Services Sector within the hub, including but not limited to Logistics and Distribution.</p> <p>At face value there seems to be a duplication of efforts between the two entity initiatives, i.e. KSD IDP high impact programmes and this Coega Development Corporation (CDC) initiative. The needs to be a clear</p>	<p>The EIA application is for the clearance of the site not the activities, the activities will need separate application after the area have been granted.</p> <p>Issue 2</p> <p>There has been a series of meetings that were between the KSD and the District Municipality about the WCSEZ. This means that the KSD Municipality is aware of the WCSEZ.</p> <p>Issue 3</p> <p>This issue is more of the strategic stance in the province that has to be directed to Coega when the individual activities are to be considered. This phase only covers land clearance to allow for future development.</p> <p>Following this email trail, Mr Nyati contacted the EAP via telephone and it was further clarified that the current EIA process was separate from specific projects as it targeted getting the EA to clear the area before any future projects on the area are then individually authorised.</p>	

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		<p>resolution, - or a mapped way forward towards such a resolution, of this apparent overlap between the KSD IDP and the WSEZ Final Scoping Report. This will ensure that limited financial resources will not be spread thin on projects seeking to achieve the same goal.</p> <p>Issue 3</p> <p>There seems to be a gap in understanding the production capacity of current primary sector players within the Wild Coast region. Will that capacity be able to provide enough production input to profitably drive the agro-processing facilities at full capacity or will the intended production within the allocated 164ha be able to fill the production gap? Are there initiatives and budget allocations, perhaps by the Department of Rural Development and Agrarian Reform (DRDAR) and/or KSD local municipality to capacitate local players within the Wild Coast region.</p> <p>We express our excitement and declare our full support for this project and wish it success in its endeavours.</p> <p>Best regards</p> <p>Mcebisi Langa Nyati</p> <p>Operations Director</p> <p>084 439 2898</p> <p>cc:</p> <p>Nomazizi Sihlahla</p> <p>Founder & Managing Director</p> <p>081 597 5529</p>

ENVIRONMENTAL IMPACT ASSESSMENT PHASE				
Anele C. Mtshemla (Beta Advisory (Pty) Ltd)				
Anele Mtshemla 28 June 2018 Email	9.1	<p>Dear Tutayi,</p> <p>I came across a draft scoping report you wrote when I was doing research on Coffee Bay. I have been working on some plans for tourism developments in the Coffee Bay area and I believe that with the Coega supported SEZ initiative, the plans could be linked to what Coega is driving.</p> <p>I am not sure what the next steps are in your process, however I would like to be included as a stakeholder in any future interactions with affected and interested parties in the SEZ development.</p> <p>Please use my contact details shown below.</p>	<p>Good day,</p> <p>We are still in the scoping phase of the EIA process. We have since submitted the final scoping report to the authorities so that they give their decision. If they accept our scoping phase findings, we will proceed to the EIA phase. We will then submit another draft EIA report for authorities and public review for 30 days. After this stage, we then submit the final EIA report to the authorities for them to grant the authorisation or not.</p> <p>I will add you to the stakeholder database in the meantime so that you will be in our correspondence in the EIA phase. We are operating as the Environmental Assessment Practitioner on behalf of the CDC to acquire the Environmental Authorisation for the clearance of the area and the setting up of service infrastructure. However, the individual businesses that will set up will then run their individual environmental authorisation processes depending on the activities they will conduct. With regards to your project, you will need to approach the CDC as we are only responsible for the EIA process.</p>	Appendix C-9
	9.2	<p>Dear Tutayi,</p> <p>Thank you for your response.</p> <p>I look forward to future correspondence from you.</p> <p>I will liaise with Coega regarding the SEZ developments.</p>		Appendix C-9

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
Portia Makitla (DEA Biodiversity Conservation Unit)				
Portia Makitla 17 July 2018 Email	10.1	The DEA Biodiversity Conservation Unit sent an email with an attachment letter with its comments. Good day Please find the attached comments.		
	10.1.1	According to the Eastern Cape Biodiversity Conservation Plan (ECBCP), aquatic conservation priorities highlighted for the project area and planned development site include the catchment draining north towards the Mthatha Dam which has been identified as an aquatic Critical Biodiversity Area (CBA) 1 and 2; therefore the land-use planning must take into account the linkages between catchments, important rivers and sensitive estuaries, with a key focus around limiting transformation in CBA catchments.	The wetland habitat impact assessment report attached as Appendix E-3 of the EIR takes into account the linkages between catchments, important rivers and sensitive estuaries. It provides mitigation measures to limit transformation in CBA catchments and these have been included in the EMPr to ensure they are binding when the authorisation is issue.	Appendix E-3 of EIR Appendix G of EIR
	10.1.2	The Environmental Impact Assessment Report (EIR) must explore the mitigation measures that will compensate for the loss of biodiversity and/or maintain biodiversity in a natural state as possible.	The EIR explores the mitigation measures that will compensate for the loss of biodiversity and/or maintain biodiversity in a natural state as possible. The mitigation measures are explored in the impact section of the EIR, the EMPr under the biodiversity section of Table 7-2. Furthermore the terrestrial ecological impact assessment which contains all the required mitigation measures has been attached as Appendix E-2 of the EIR.	Section 9.7 of EIR Table 7-2 of EMPr (Appendix G of EIR) Appendix E-2 of the EIR
	10.1.3	The EIR must include at least one A3 regional map of the area, ecological sensitivity map and the locality map illustrating different alternatives.	A regional map is attached as Appendix F-2 (Locality Map). An environmental sensitivities map is attached as Appendix F-5. The alternatives were considered in Section 7 of the EIAR.	Appendix F-2 of EIAR Appendix F-5 of EIAR Section 7 of EIAR

EIA Admin on behalf of Ms Bathandwa Ncube, Case Officer (DEA)				
Bathandwa Ncube 18 July 2018 Email	11.1	<p>The DEA sent an email with an attachment letter with its comments listed from 1.1 (a) to (r).</p> <p>Good day.</p> <p>Please find herein the attached letter for the above mentioned.</p> <p>I hope you find all in order.</p> <p>Thank you.</p>		
	11.1 (a)	The EIAR must provide the four coordinate points for the proposed development site(s) (note that if the site has numerous bend points, at each bend point coordinates must be provided).	The coordinates for both the north and south portions of the proposed project sites have been indicated in Table 6-1 and Table 6-2 in the EIAR under Section 6.1.	Table 6-1 and Table 6-2 of the EIAR
	11.1 (b)	Table 2-1 in the final Scoping Report dated June 2018 does not have a description of each listed activity applied for. You are kindly requested to include a description of each listed activity applied for, as you have done in Section 6 of the application form.	The descriptions of all listed activities applied for have been added to Table 2-1 as requested.	Table 2-1 of the EIAR
	11.1 (c)	Section 1.2 of the final Scoping Report dated June 2018 states that the Wild Coast Special Economic Zone (WCSEZ) will be phased (this application is for phase 1), however, Activity 67 of GNR 983 (as amended), which could be triggered, has not been included as a triggered listed activity. Please confirm that this activity is not triggered by the proposed development and explain why.	<p>This activity is not be triggered because each phase of the SEZ project will not be seen as an extension to Phase 1 as the location will be different from the one proposed in the current project. As such, each phase of the SEZ project will conduct its own impact assessment process based on the proposed activities and location.</p> <p>Furthermore, the proposed activities of this project have been described as already exceeding the thresholds and as such, does not require to look at cumulative exceedance of thresholds.</p>	
	11.1 (d)	Activity 9; 10; 12 and 24 of GN R.983 (as amended), as well as 4 and 14 of GN R.985 (as amended): The thresholds/capacities of the proposed	The threshold capacities have been defined for the activities listed in the listed activity descriptions. It must be noted that the design stage of the proposed infrastructure for each relevant listed activity has not been	Table 2-1 of the EIAR

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		activities must be determined and the project activity descriptions amended accordingly, as they are currently ambiguous and indefinite.	reached yet. As such, an assumption has been made to use the worst case scenario of the infrastructure triggering the thresholds so that the activities are applicable. In the event that the infrastructure is deemed to be under the threshold during the design stage, these can then be ignored as the authorisation would allow for smaller designs.	
	11.1 (e)	If the activities applied for, or project descriptions in the application form differ from those mentioned in the EIAR, an amended application form must be submitted.	The listed activities applied for have not changed, however, the activity project descriptions in the EIAR differ from those in the application form. As such, the application form has been amended and will be resubmitted to the DEA.	
	11.1 (f)	The Public Participation Process (PPP) must be conducted in terms of Regulation 39, 40, 41, 42, 43 and 44 of the NEMA, EIA Regulations, 2014 (as amended).	<p>The PPP conducted has been detailed in Section 3.3 of the final EIAR.</p> <p>The PPP has been conducted in terms of the relevant regulations as required. Prior to the submission of the application, the CDC conducted stakeholder consultation, specifically landowner consultation as the proposed project site was part of a land claim that was awarded to local community members (Link community) in order to get approval to use the land for the project.</p> <p>During the scoping phase, site notices were put up at the project site boundary fence, the local High School (Mthatha High School), Mthatha Library and at the King Sabata Dalindyebo Local Municipality. An advert was placed in the Daily Dispatch on 25 April 2018 as required. The site notices and the advert invited any member of the public interested to register on the stakeholder database. I&APs were added to the database through the scoping phase as required. The site notices and the advert also indicated the locations of the draft scoping report for their perusal in order to provide comments as well as the duration of the comment period.</p> <p>Notifications in the form of email and sms were sent to the I&APs on the existing database before new additions were made in order to alert them on the availability of the draft scoping report. When the final scoping report was submitted to the DEA and the commenting authorities, the original I&APs as well as the new additions made during the registration</p>	Section 3.3 of the draft EIAR

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
			and comment period were also notified via email and sms of the progress of the project.	
	11.1 (g)	Comments on the draft EIAR must be obtained from the Biodiversity and Conservation unit of this department.	The final scoping report was submitted to the Biodiversity and Conservation unit as required in a bid to solicit comments. The comment were received on 17 July 2018 and have been responded to in Comment Reference 10 of this table.	Section 2.2 Comment Reference 10
	11.1 (h)	Please ensure that copies of original comments received from I&APs and organs of state, which have jurisdiction in respect of the proposed activity are submitted to the Department with the EIAR. Should you be unable to obtain such comments, proof should be submitted to the Department of the attempts that were made to obtain the comments.	All comments from the scoping phase have been collated in this CRR and the original comments attached as Appendix C of this CRR.	Table 2-4 of this CRR Appendix C of this CRR
	11.1 (i)	All issues raised and comments received during the circulation of the final Scoping Report from I&APs and organs of state, which have jurisdiction in respect of the proposed activity, are to be adequately addressed in the EIAR, including comments from this Department, and must be incorporated into the Comments and Response Report.	All comments from the scoping phase have been collated in this CRR and the original comments attached as Appendix C of this CRR.	Table 2-4 of this CRR Appendix C of this CRR
	11.1 (j)	A Phase 2 Heritage Impact Assessment study for Plot 2 must be included in the EIAR, as recommended in the desktop Heritage impact assessment, dated 28 February 2018.	The Phase 2 HIA was conducted by Frans Prins of Active Heritage and has been attached to the EIAR as Appendix E-5.	Appendix E-5 of the final EIAR
	11.1 (k)	A Phase 1 Palaeontological Impact Assessment study for Plots 1 and 2 must be included in the EIAR, as recommended in the desktop Heritage impact assessment, dated 28 February 2018.	The Phase 1 PIA was conducted by John Almond of Natura Viva cc and has been attached to the EIAR as Appendix E-6.	Appendix E-6 of the draft EIAR
	11.1 (l)	A detailed Terrestrial Ecological Assessment and Wetland Assessment must be included in the EIAR, as per Section/Chapter 4 of the desktop Aquatic and Terrestrial Ecological Assessment, dated 18 January 2018.	The detailed Terrestrial Ecological Assessment and Wetland Assessment have been included as Appendix E-2 and Appendix E-3 respectively of the draft EIAR.	Appendix E-2 and Appendix E-3 of the draft EIAR

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
	11.1 (m)	Signed specialist declaration of interest forms, for all specialist studies conducted as part of the proposed development, must be submitted together with the EIAR.	All the specialist declarations have been included as Appendix E-7 of the draft EIAR.	Appendix E-7 of the draft EIAR
	11.1 (n)	<p>Where specialist studies are conducted in-house or by a specialist other than a suitably qualified specialist in the relevant field, such specialist reports must be peer reviewed by a suitably qualified external specialist in the relevant field. The terms of reference for the peer review must include:</p> <ul style="list-style-type: none"> i. A CV clearly showing expertise of the peer reviewer; ii. Acceptability of the terms of reference; iii. Is the methodology clearly explained and acceptable; iv. Evaluate the validity of the findings (review data evidence); v. Discuss the suitability of the mitigation measures and recommendations; vi. Identify any short comings and mitigation measures to address the short comings; vii. Evaluate the appropriateness of the reference literature; viii. Indicate whether a site-inspection was carried out as part of the peer review; and ix. Indicate whether the article is well-written and easy to understand. 	No specialist studies were conducted in-house and all specialists are suitably qualified in their respective fields as indicated in their CVs attached as part of Appendix E-7 of the draft EIAR.	Appendix E-7 of the draft EIAR
	11.1 (o)	The EMPr to be submitted as part of the EIAR must comply with all the requirements in terms of the content of EMPrs in accordance with Appendix 4 of the NEMA, EIA Regulations, 2014 (as amended).	The EMPr complies with all the requirements in terms of the content of EMPrs in accordance with Appendix 4 of the NEMA, EIA Regulations, 2014 (as amended). Table 1-2 in Section 1.3of the EMPr defines the EMPr	Appendix G of the draft EIAR

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
			structure as required referencing all areas where the requirements are met. The EMPr is attached as Appendix G of the draft EIAR.	
	11.1 (p)	The EMPr must include the plans required as management measures, which include (but are not limited to):	The emergency response plan has been included as Section 8.6 of the EMPr as required.	Section 8.6 of the EMPr
		i. Emergency response		
		ii. Invasive alien plant management	The invasive alien plant management plan has been included as Section 8.2 of the EMPr as required.	Section 8.2 of the EMPr
		iii. Dust suppression	Dust suppression has been addressed as part of the air quality section of the environmental management programme in Table 7-2.	Air quality section of Table 7-2
		iv. Waste management	The waste management plan has been included as Section 8.1 of the EMPr as required.	Section 8.1 of the EMPr
		v. Site rehabilitation	Site rehabilitation has been addressed as part of the rehabilitation section of the environmental management programme in Table 7-2.	Rehabilitation section of Table 7-2
	11.1 (q)	The EMPr must not contain any ambiguity. Where applicable, statements must contain the word “must” instead of “should” or “may”.	All ambiguity has been removed from the EMPr with the word “must” replacing words such as “should” or “may”.	Appendix G of the draft EIAR
	11.1 (r)	Recommendations and mitigation measures recorded in the reports, including those from specialist studies, must be incorporated as part of the EMPr.	Recommendations and mitigations from the specialist studies have been incorporated as part of the EMPr in Table 7-2 as required.	Table 7-2 of the EMPr

2.2 EIA PHASE PROCESS

The key stakeholder engagement activities to be undertaken during the EIA Phase are described below.

In accordance with the requirements of GNR 326, notification of the availability of the Draft Environmental Assessment Report for stakeholder review were announced via email and sms.

Hard copies of the full report will be made available for a period of 30 days for review at the following venues:

Table 2-5: Venues where hard copies of the report will be placed for public comment.

<u>VENUE</u>	<u>ADDRESS</u>	<u>GPS COORDINATES</u>
<u>Mthatha High School</u>	<u>55 Victoria Street, Mthatha</u>	<u>31°35'30.48"S, 28°47'9.62"E</u>
<u>Mthatha Public Library</u>	<u>34 Owen Street, Mthatha</u>	<u>31°35'20.36"S, 28°47'12.86"E</u>

Additionally, an electronic version of the report will be placed on the WSP website to be accessed by the public.

Table 2-6: Website where an electronic version of the report will be placed for public comment.

<u>WEBSITE</u>	<u>ADDRESS</u>
<u>WSP Website.</u>	<u>https://www.wsp.com/en-ZA/services/public-documents</u>

The draft EIAR was made available for public review at the venues listed above from **10 August 2018** to **10 September 2018**. Comments received during the public review period are addressed in **Table 2-7** below. The final EIAR will incorporate all comments and responses from the draft EIAR phase and will be submitted to the authorities for decision making on **29 October 2018**. A copy will be made available for public review for a period of 30 days from **29 October 2018** on the WSP website so that any changes made in the final report can be highlighted to the public. Any comments following submission of the final EIAR can either be sent to the DEA directly or to WSP to relay to the DEA.

2.2.1 EIAPHASE COMMENTS RECEIVED

Comments received from registered stakeholders during the EIA Phase have been captured and responded to within the comments and response tables included in **Table 2-7**. The original comments and responses are included in **Appendix E**.

Table 2-7: EIA Phase Comments and Responses

Thobekile Zungu (DEA: Biodiversity Conservation Unit)				
<u>Thobekile Zungu</u> <u>16 August 2018</u> <u>Email</u>	1.1	<p><u>The DEA: BCU sent an email requesting a site visit.</u></p> <p><u>Good Day Tutayi,</u></p> <p><u>DEA: Biodiversity Conservation Directorate would like to conduct a site inspection for uMthatha project on the first week of September or after the final EIR submission.</u></p>	<p><u>WSP responded to the email following a phone call to try and ascertain a specific date that would be shared with other authorities</u></p> <p><u>Good day,</u></p> <p><u>As discussed telephonically, I will update you on the preferred date once I get clarity from the client. I will also engage the DEA Integrated Environmental Authorisation Case Officer if they also intend on conducting a site visit so that it will be one trip.</u></p>	<u>Appendix C-11</u>
	1.2		<p><u>Good day,</u></p> <p><u>The ECPTA and DEA Integrated Impact Assessment Section have agreed to your proposed date of 17 September for the site visit. Before I confirm the meeting time, can you please indicate your proposed travel arrangements to the Mthatha Airport, which is where we all meet before we start with the site visit. At this point, I am working under the assumption that the DEA personnel will take the first flight out of O.R. Tambo on the day and use the first available flight out of Mthatha and that the ECPTA will require 4 hours from East London to Mthatha, making 10:00 am a suitable time. Please clarify proposed arrangements from your end so that we set a solid time for the meeting.</u></p>	<u>Appendix C-11</u>
	1.3			<p><u>WSP sent a formal meeting invitation to all relevant authorities.</u></p> <p><u>Good day,</u></p>

<u>AUTHORITY DETAILS</u>	<u>COMMENT REF</u>	<u>COMMENT</u>	<u>RESPONSE</u>	<u>REPORT REFERENCE</u>
			<p><u>As advised yesterday, accept this meeting invitation for the proposed Authorities' site visit. We will all meet at the Mthatha Airport and wait for the Airport Security Manager to provide security to walk us over the property. I have put an allowance for three hours for the meeting in case there are delays. The Airport Security Manager has also indicated that there are boardrooms on the site that we can use if we need to have an pre- or post-site visit meeting. If they are occupied on the day, the client can organise access to their Mthatha branch office. The address for the Mthatha Airport is shown below:</u></p> <p><u>R61 Road,</u> <u>Mthatha Airport</u> <u>5099 Mthatha</u></p> <p><u>Please let me know if you have any questions.</u></p>	
<u>Thobekile Zungu</u> <u>11 September 2018</u> <u>Email</u>	1.4	<u>Good Afternoon,</u> <u>Please find the attached comment from DEA: Biodiversity Conservation.</u> <u>The comments are outlined and responded to below:</u>	<u>Good day,</u> <u>Noted. Thank you.</u>	<u>Appendix C-11</u>
	1.4.1	<u>As stated in a letter from the Department dated 17 July 2018; the proposed project area falls within CBA 1 therefore, the Directorate Biodiversity Conservation recommends that you explore the mitigation measures that will compensate for the loss of biodiversity and/or maintain biodiversity in a natural state as possible. You are advised to consider the use of an offset as a mitigation measure to loss of biodiversity in the area. The Biodiversity Offset Study must be submitted</u>	<u>A Biodiversity Offset Plan will not be developed as it is typically a complex and costly exercise. As a result, a compromise has been made to conserve part of the site (a third of the site) to protect the wetlands and biodiversity on the site and only make use of the rest. Furthermore, due to site limitations, this is the best available site for productive use of land considering lack of available land close to the airport and for access to main roads (R61 and N2) for logistics linkages.</u>	<u>Appendix C-11</u> <u>Appendix F-3 of final EIAR</u>

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		<p><u>as part of the final report and be approved prior to issuing of the Environmental Authorisation.</u></p>	<p><u>Due to the high costs and amount of time required, an offset plan is considered as a last resort. As such, this project will not pursue a Biodiversity Offset Plan but will rather settle to conserve a good part of the site and not develop it based on the new proposed layout as in Appendix F-3 of the final EIAR. An alternative plan has been made to limit the amount of sensitive area cleared for development and conserve part of it on the site. As such, no development will occur on Wetlands 1 and 2 including on the grassland area enclosed by Wetland 2. Therefore, development will only occur on the space between Wetland 1 and 2 as well as to the east of Wetland 2 (outside the buffer) including over Wetlands 3 and 4. A water use licensing process will be followed separately for the development within the regulated area of watercourses as required</u></p>	
	<p><u>1.4.2</u></p>	<p><u>With regard to the Biodiversity Offset Study please ensure that you obtain comments from this Department's Directorate Biodiversity Planning and incorporate them in the Final Environmental Impact Assessment Report.</u></p>	<p><u>Due to the expected high costs, a Biodiversity Offset Study will not be conducted, however, the project team has decided to limit the area to be developed by preserving all of Wetland 2 as seen on the new maps and develop around it.</u></p> <p><u>As such, this project will not pursue a Biodiversity Offset Plan but will rather settle to conserve a good part of the site and not develop it based on the new proposed layout as in Appendix F-3 of the final EIAR. 			provide your direct line and cell number if you are comfortable so that any future developments in the project can be relayed to you.	
Shane Gertze 27 August 2018 Email	3.2	Dear Tutayi Hope you are well. Please can you send me a kml/kmz or shp outlining the locality of the proposed Mthatha SEZ. I would like to upload the files to QGIS with our sensitivity data and distribute the maps and Report to my colleagues for comments.	Hi Shane, We acknowledge had not added you to the stakeholder database at the beginning of the project, hence there was no communication to you during the scoping phase. The draft EIAR was submitted on 10 August 2018 to the stakeholders, commenting and competent authorities that were identified during the scoping phase. This was done via publication of a Newspaper advert, The Daily Dispatch, which was published on 25 April 2018 as well as site notices that were put up at the Mthatha Library, Mthatha High School, King Sabata Dalindyebo Local Municipality and at the site fence on 24 April 2018. The hard copies of the draft EIAR for public engagement were made available at the Mthatha Library and Mthatha High School as well as our company website under the link below on 10 August 2018: https://www.wsp.com/en-ZA/services/public-documents Stakeholders were informed of the availability of the report via email and sms. The public comment period is expected to end on 10 September 2018, however, since the meeting is only occurring during the week of the 17th of September, we can incorporate your comments if you can relay them to us on the day of the proposed site visit before we then submit the final EIAR. Please note that the report is available on the link above, however, due to size constraints all appendices are available on request as will be indicated on the website.	Appendix C-12
Shane Gertze 28 August 2018 Email	3.3	<u>The ECPTA responded by forwarding an internal email which indicated their project team and the suggested attendee for the meeting</u> Dear Nobusika The email communication below refers.	Good day, Please find the attached. Please let me know if you have any questions. Have the people from your team decided on a date. The DEA Biodiversity Unit have said they are okay with Monday 17 September.	Appendix C-12

<u>AUTHORITY DETAILS</u>	<u>COMMENT REF</u>	<u>COMMENT</u>	<u>RESPONSE</u>	<u>REPORT REFERENCE</u>
		<p><u>Please can you assist by attending a site meeting in Mthatha on Monday, 17 September. I will be on leave that week.</u></p> <p><u>Dean – please can you confirm if SS will be able to join Nobusika.</u></p>		
<p><u>Shane Gertze</u> <u>28 August 2018</u> <u>Email</u></p>	3.4	<p><u>The ECPTA attendee responded by forwarding an internal email indicating that she would attend the meeting</u></p> <p><u>Hello Shane</u></p> <p><u>I can attend, please send me the details of the site meeting.</u></p> <p><u>Regards</u></p> <p><u>Nbsk</u></p>		<u>Appendix C-12</u>
<p><u>Shane Gertze</u> <u>28 August 2018</u> <u>Email</u></p>	3.5	<p><u>Dear Mr Chifadza</u></p> <p><u>Please note that my colleague, Ms Makeleni (cc'd in this email) will attend the site meeting on 17 September. Please can you send us more information regarding the location of the meeting as well as time.</u></p>	<p><u>Good day,</u></p> <p><u>Thank you for the response. I will confirm with the team regarding the date so that they can make their travel arrangements. I will send a formal meeting request to ensure we are all on the same page. As shown in the kmz, the two proposed land parcels are directly adjacent to the Mthatha Airport with one on the north and the other to the south. For security reasons, we arrange all site visits in conjunction with the Mthatha Airport Security Manager to arrange for access to the land parcels, hence, we will congregate at the airport security desk first so that we all move as a group.</u></p> <p><u>At this point, my assumption is that the DEA personnel and myself will be using the first flight out of Johannesburg and arrive at 07:30. In order to accommodate those traveling from East London, we can set the meeting to start at 10:00 as this will give your team enough time to drive back during the day, although we will have to wait 2,5 hours for your arrival and after your departure. If Ms Makeleni is from the Mthatha office of the ECPTA, please let me know so that we can set travel times that allow for more flexible travel. I will send a formal meeting request</u></p>	<u>Appendix C-12</u>

<u>AUTHORITY DETAILS</u>	<u>COMMENT REF</u>	<u>COMMENT</u>	<u>RESPONSE</u>	<u>REPORT REFERENCE</u>
			<u>tomorrow to Ms Makeleni after I find out how the DEA personnel intend to travel so that we do not assume anything.</u>	
Shane Gertze 5 October 2018 Email	3.6	<p><u>Following a conversation with Mrs Gertze over the phone, she indicated that the Protected Areas map indicating the Nature Reserves (Nduli and Luchaba Reserves) in the report was wrong. She pointed out that on the actual GIS layers, the site was not within the Nature Reserve boundary and that this would be indicated in the comments. She also indicated that she would send the correct layers to use for the maps as indicated below:</u></p> <p><u>Hi Tutayi</u></p> <p><u>Our conversation of the yesterday refers.</u></p> <p><u>Please find attached file containing all the locality information of the protected areas under the management of the Eastern Cape Parks and Tourism Agency (ECPTA). Also, please find below to the Department of Environmental Affairs database for all the protected areas in the country:</u></p> <p><u>http://mapservice.environment.gov.za/PAR/map.aspx</u></p>	<p><u>WSP responded on the same day to the email:</u></p> <p><u>Good day,</u></p> <p><u>Thank you very much. On another note, when can I expect the letter from your end?</u></p>	<u>Appendix C-12</u>
	3.6.1	<p><u>The ECPTA sent the comments on 15 October 2018:</u></p> <p><u>Hi Tutayi</u></p> <p><u>Hope you are well.</u></p> <p><u>Please find attached our comments.</u></p> <p><u>Please feel free to contact me should you have any queries</u></p>	<p><u>Good day,</u></p> <p><u>Thank you for the response. We will add to the final EIAR.</u></p>	<u>Appendix C-12</u>
	3.6.1.1	<u>We have noted that the delineated boundary of Luchaba Nature Reserve within the Figure 8-19: <i>Extent of the Nduli Luchaba Nature Reserve</i> on page</u>	<u>The spatial data provided by the ECPTA was received and the map provided was used as the new map showing the extent of the Luchaba</u>	<u>Appendix C-12</u>

AUTHORITY DETAILS	COMMENT REF	COMMENT	RESPONSE	REPORT REFERENCE
		<p>78 of the Draft BAR is incorrect. Please correct the map with the spatial data provided to WSP on 5 October.</p> <p>We note that the Special Economic Zone comprise of two preferred sites, namely Phase 1 North and Phase 1 South. Based on our spatial information only the preferred site for Phase 1 North falls within 5 km buffer of our nearest protected area, Luchaba Nature Reserve which fall within the Mthatha Moist Grassland in the Grassland Biome (Mucina and Rutherford). Due to the different land uses in between Luchaba Nature Reserve and proposed preferred site for the Special Economic Zone, we foresee no negative impact on the Luchaba Nature Reserve.</p>	<p>Nature Reserve relative to the site location. This is indicated as Figure 8-19 of the final EIAR.</p>	<p>Figure 8-19 of final EIAR</p>
	3.6.1.2	<p>The ECPTA is also the custodian of the Eastern Cape Protected Area Expansion Strategy (ECPAES). None of the proposed development sites does not fall in any of the priority expansion areas identified by the ECPAES. However, based on the landscape characteristics and different land uses between the proposed Special Economic Zone and priority expansion areas, we foresee no threat to the priority expansion areas identified within the ECPAES.</p>	<p>Noted</p>	<p>Appendix C-12</p>
<u>Qondile Paliso (Eastern Cape Department of Economic Development, Environmental Affairs and Tourism)</u>				
<p>Sizakele Gabula 29 August 2018 Email</p>	4.1	<p><u>DEDEA sent an email informing that one of their representatives would attend the site visit.</u></p> <p>Good day Chifadza</p> <p>I wish to apologize for interfering in your email, I was copied by a colleague in ECPTA Ms. October this message. I took liberty to alert our <u>Manager Environmental Impact Management Mr. Qondile Paliso (who is copied here) based in Mthatha.</u></p> <p><u>My request is that you extend the invitation to him as well.</u></p>	<p><u>WSP responded to the email extending the invitation</u></p> <p><u>Good day Mr Paliso,</u></p> <p><u>As can be seen below, the DEA Biodiversity Conservation Unit and the Integrated EIA team requested a site visit for the proposed project. They also requested we invite the ECPTA to attend the meeting. We would like the a representative from DEDEA to be present as well so that by the end of the meeting, the whole team will be on the same page regarding the way forward. As such, I would like to extend this meeting invitation for 17 September 2018. The provisional time is 10:00 am but I will be collating information from other authorities as to their travel arrangements so</u></p>	<p>Appendix C-4</p>

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT

NOTICE OF THE PROPOSED DEVELOPMENT OF THE WILDCOAST SPECIAL ECONOMIC ZONE IN MTHATHA, EASTERN CAPE PROVINCE

Notice is given in terms of Regulation 41(2) of GNR 326 as Amended (7 April 2017) published under section 24 and 24D of the National Environmental Management Act (No. 107 of 1998) (NEMA) for submission of applications for environmental authorisations (EAs) in respect of activities identified in terms of GNR 324 and 325 as Amended (7 April 2017)

Notice is given in terms of Section 41(1) of the National Water Act (No. 36 of 1998) for the intent to submit a Water Use Licence Application to the Department of Water and Sanitation (DWS)

BACKGROUND AND LOCATION

The Coega Development Corporation (CDC) proposes to develop a Special Economic Zone (SEZ) in the Wildcoast area of Mthatha around the Mthatha airport. The SEZ will be for commercial and industrial development and will be occupied by various types of businesses, which in turn, will require their own individual authorisations when they intend to develop. Due to the nature of the construction, the CDC is required to follow a Scoping and Environmental Impact Reporting (S&EIR) process to gain environmental approval prior to the commencement of the Proposed Project.

ENVIRONMENTAL APPLICATION

The following legislative requirements are applicable:

- NEMA: GNR 327, Activities 9, 10, 12, 19 and 24;
- NEMA: GNR 325, Activity 15; and
- NEMA: GNR 324, Activities 4, 12, 14 and 15.

The following legislative requirements are applicable for triggered water use activities:

- NWA: Section 21(c) impeding or diverting the flow of water in a watercourse and Section 21(i) altering the bed, banks, course or characteristic of a watercourse.

REGISTRATION

WSP Environment and Energy (WSP) has been appointed as the independent Environmental Assessment Practitioner (EAP), to manage the S&EIR process. Parties wishing to formally register as stakeholders in order to offer their comment on the Proposed Project are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence, and notified individually of additional opportunities to participate in the process.

AVAILABILITY OF DRAFT SCOPING REPORT

The Draft Scoping Report will be made available at the venues below for review and comment for 30 days from **24 April 2018** to **28 May 2018**:

Public Place	Locality	Contact	Telephone
Umtata High School	55 Victoria Street, Mthatha	School Reception	047 531 2981

Surefire Rafa is Master of his craft – yet again

Spaniard ends Kei's hopes with his effective play

TENNIS
RAFAEL Nadal said he's looking to carry the momentum from his 11th Monte Carlo Masters title into

the rest of the clay-court season after beating Kei Nishikori in Sunday's final. The world number one showed no signs of rustiness in Monaco as he raced through his first ATP tournament since January without coming close to dropping a set. The 31-year-old will now turn his attention to upcoming bids for 11th titles in Barcelona and at the French Open.

"It's important for my confidence. It's true that the longest match here was one hour 30 (minutes). That's great news," said Nadal. "Today is a day to enjoy this because winning a tournament like this one doesn't happen every day. "But tomorrow I need to start being focused on the next week. It's not the moment to stop and disconnect your mind. "It's the moment to stay focused and to keep holding that good momentum after winning seven matches in a row on clay now this year." Nadal only returned from a hip injury in Spain's Davis Cup quarterfinal against Germany earlier this month, where he won both of his singles matches in straight sets. The Spaniard had retired from his Australian Open last-eight clash with Marin Cilic in January, but showed no signs of fitness problems in Monte Carlo. "There remains a lot of the clay-court season, hopefully, hopefully, a lot of matches," he said. "I hope to have the chance to be healthy for the whole clay-court season. That's it, yeah, it's an important beginning. "My goal is always the same thing – to be healthy, because if I am not healthy, I cannot have

any goals." The victory kept Nadal ahead of Roger Federer at the top of the world rankings and was also an outright record 31st Masters title, pulling him out of a tie with Novak Djokovic. "Twenty-four of those successes have come on clay, on which Nadal has now won 36 consecutive sets. The 16-time Grand Slam champion said that he's just trying to enjoy every moment of the latter part of his career. "My true feeling is that these kind of things are not going to happen forever, so I just try to enjoy and to play with full passion and with full energy and concentration, full love for the sport for as long as I can," he added. "I know the day to say goodbye is closer than 10 years ago. "It's something that I am not worried about, but it's a real thing. So I'm just enjoying every day and trying to play with the best attitude possible, to keep being happy playing tennis." Nadal extended his Open-era record as the man to have won the most titles at the same event, having first won in Monaco as an 18-year-old in 2005, and he knows it will be a hard mark for future players to beat. "Eleven titles here, it's unbelievable, so... It's something difficult to imagine," he said. — AFP

TRUE WINNER: Rafael Nadal just cannot go wrong in the Monte Carlo Masters after securing his 11th title Picture: GETTY IMAGES

Mr. L. Mahlaka
 Municipal Manager

University of Fort Hare
Together in Excellence

EXPRESSION OF INTEREST

Service Providers are hereby invited to register on the UHF Database for the following UHF projects:

PROJECT NAME	CONTRACT NUMBER
UNIVERSITY OF FORT HARE: ALICE CAMPUS REPAIRS AND RENOVATIONS PROGRAMME	UHF-SCM-01/2018
UNIVERSITY OF FORT HARE: EAST LONDON CAMPUS REPAIRS AND RENOVATIONS PROGRAMME	UHF-SCM-02/2018
UNIVERSITY OF FORT HARE: BISHO CAMPUS REPAIRS AND RENOVATIONS PROGRAMME	UHF-SCM-03/2018

The University of Fort Hare is currently embarking on Infrastructure Maintenance projects across all its Campuses, as part of its continuous efforts to sustain, grow, and develop university infrastructure. In line with the Preferential Procurement Policy Framework Act, 2000, Preferential Procurement Regulations 2017, the University has set aside 20% of the budget on the above-mentioned projects for the participation of SMMEs. This EOI therefore aims to assist the University in establishing a database that will be utilised on an on-going basis by the University in identifying suitably qualified service providers. The University is empowered through the Preferential Procurement Regulations 2017 to apply a Pre-qualification Criteria in its selection process. It is in this regard that preference for the above project will be given to (Section 4.1) (c) (i) EME or QSE which is at least 51% owned by black people who are youth; (ii) an EME or QSE which is at least 51% owned by black people who are women.

Due to resource limitations, the following targets will apply.

DESIGNATED GROUP (BLACK-OWNED ENTITIES)	TARGET
PEOPLE WITH DISABILITIES	15
WOMEN	15
YOUTH	10

Accordingly the University invites all interested service providers to submit their applications and relevant documents as outlined below.

PROJECT SCOPE: Aluminium Shopfronts • Office Furniture • Brickwork and Plaster • Electrical and Mechanical Installation • Gym Equipment • Heat, Ventilation, Servicing and Air Conditioning Installation • HVAC Installations • Installation of SCADA System • Intersect Screens • Joinery Fixings • Lecture Hall Seating • Painting • Prefabricated Roof Trusses • Refurbishment of Substations • Replacing of Substation MV Switchgear and T3Us • Security Installations • Signage • Simulation Mannequins • Substation Distribution Boards • Tiling • Upgrading of Existing Cables from SMVA to BMVA • Upholstery Repairs.

DOCUMENTS: • Completion of UHF supplier database form downloadable via www.uhf.ac.za/procurement • Proof of registration with Treasury's Centralised Supplier Database (CSD) or provide a Treasury CSD Registration number e.g. MAAA0; The Tax Status of the bidders will be verified through CSD and SARS website • Company Profile • List of projects previously undertaken with relevant references • Valid Tax Clearance Certificate • Official company registration documents • ID Copies of the owners • Letter of Good Standing • Valid BBBEE Certificate or BBBEE Sworn Affidavit.

Service Providers shall take note of the following conditions: • Tenderers are required to have a relevant CIDB Contractor grading designation • Service providers need to be registered with all relevant industry bodies governing their line of work • Late submissions will not be accepted • E-mailed submissions will not be accepted • Failure to complete all supplementary information may result in the application being eliminated.

Faxed, e-mailed or electronic documents will not be accepted as a form of bid document.

Submissions: Valid original bid offers must be submitted on or before 08 May 2018 at 12h00, in the tender box (Yellow and Blue Box) situated on the foyer, at 50 Church Street, Administration Building or by post to address: 50 Church Street, Gasson Building, Room 425, 4th Floor, Quigney, East London, 5200.

Enquiries: For further enquiries, please don't hesitate to call the Supply Chain Management office, on tel. (043) 704 7251.

University of Fort Hare reserves the right to cancel the above EOI.

EIA PUBLIC PARTICIPATION

DEDEAT EIA Reference No: EC/7/A/ LN1, LN2/M/17-02 EA Oceans & Coasts: 2016/001/EC/Hood Point WWTW Availability of the Draft EIA Report

Project Title: Proposed Development of the West Bank WWTW Marine Outfall Pipeline, East London, Eastern Cape Province

Project Description and Location: The Buffalo City Metropolitan Municipality (BCM) proposes to upgrade the West Bank WWTW, including the construction and operation of a 1.4 km deep-water marine outfall pipeline, replacing the existing surzone discharge. The proposed outfall pipeline will be constructed from the existing valve chamber, located within the TNPA area, extending approximately 1.4 km seawards in a south-easterly direction.

Listed Activities: Application for Environmental Authorisation (EA) is to be submitted to undertake the following activities:
 • GNR 327 (Listing Notice 1): 10, 15, 17, 19A, 32, 34, 46 and 65; and
 • GNR 325 (Listing Notice 2): 6 and 14

Opportunity to Participate: A Draft Environmental Impact Assessment Report is available for a 30 day public commenting period from 24 April 2018 to 25 May 2018 at: the East London Public Library, the BCM Offices on Oxford Street and the WSP website (<http://www.wsp-pb.com/en/WSP-Africa/What-we-do/Services/All-Services-A-Z/Technical-Reports/>). A Public Meeting, where the project will be discussed, will be held at the Robbie Delange Hall from 18:00 until 20:00 on Wednesday, 16 May 2018. You are kindly requested to confirm your intention to attend the meeting with the consultant below. Stakeholders are invited to submit any comments you may have to the consultant indicated below. Please provide your full name, full postal address, phone numbers, email and state your area of interest and/or concern to:

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT

NOTICE OF THE PROPOSED DEVELOPMENT OF THE WILDCOAST SPECIAL ECONOMIC ZONE IN MTHATHA, EASTERN CAPE PROVINCE

Notice is given in terms of Regulation 41(2) of GNR 326 as Amended (7 April 2017) published under section 24 and 24D of the National Environmental Management Act (No. 107 of 1998) (NEMA) for submission of applications for environmental authorisations (EAs) in respect of activities identified in terms of GNR 324 and section 5 as Amended (7 April 2017)

Notice is given in terms of Section 41(1) of the National Water Act (No. 36 of 1998) for the intent to submit a Water Use Licence Application to the Department of Water and Sanitation (DWS)

BACKGROUND AND LOCATION

The Coega Development Corporation (CDC) proposes to develop a Special Economic Zone (SEZ) in the Wildcoast area of Mthatha around the Mthatha airport. The SEZ will be for commercial and industrial development and will be occupied by various types of businesses, which in turn, will require their own individual authorisations when they intend to develop. Due to the nature of the construction, the CDC is required to follow a Scoping and Environmental Impact Reporting (S&EIR) process to gain environmental approval prior to the commencement of the Proposed Project.

ENVIRONMENTAL APPLICATION

The following legislative requirements are applicable:
 – NEMA: GNR 327, Activities 9, 10, 12, 19 and 24;
 – NEMA: GNR 325, Activity 15; and
 – NEMA: GNR 324, Activities 4, 12, 14 and 15.

The following legislative requirements are applicable for triggered water use activities:
 – NWA: Section 21(c) impeding or diverting the flow of water in a watercourse and Section 21(i) altering the bed, banks, course or characteristic of a watercourse.

REGISTRATION

WSP Environment and Energy (WSP) has been appointed as the independent Environmental Assessment Practitioner (EAP), to manage the S&EIR process. Parties wishing to formally register as stakeholders in order to offer their comment on the Proposed Project are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence, and notified individually of additional opportunities to participate in the process.

AVAILABILITY OF DRAFT SCOPING REPORT

The Draft Scoping Report will be made available at the venues below for review and comment for 30 days from 24 April 2018 to 28 May 2018:

Dear Sir/ Madam

ACKNOWLEDGEMENT OF RECEIPT OF THE NEW APPLICATION FOR ENVIRONMENTAL AUTHORISATION (ENVIRONMENTAL IMPACT ASSESSMENT PROCESS) AND SCOPING REPORT FOR THE PROPOSED WILD COAST SPECIAL ECONOMIC ZONE IN MTHATHA, EASTERN CAPE PROVINCE

The Department confirms having received the Application for Environmental Authorisation and draft Scoping Report for the abovementioned project on 25 April 2018. You have submitted these documents to comply with the Environmental Impact Assessment (EIA) Regulations, 2014, as amended.

Please take note of Regulation 40(3) of the EIA Regulations, 2014, as amended, which states that potential Interested & Affected Parties, including the Competent Authority, may be provided with an opportunity to comment on reports and plans contemplated in Regulation 40(1) of the EIA Regulations, 2014, as amended, prior to the submission of an application but must be provided an opportunity to comment on such reports once an application has been submitted to the Competent Authority.

Note that in terms of Regulation 45 of the EIA Regulations, 2014, as amended, this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted by the Department in terms of Regulation 3(7) of the EIA Regulations, 2014, as amended.

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Officer Hours which are available on the Departmental Website (https://www.environment.gov.za/contacts/national_office). No faxed and e-mailed applications; applications delivered to Security or applications placed in the Departmental Tender Box will be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No. 107 of 1998, as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

Mr Sabelo Malaza

PER EMAIL / MAIL

Dear Sir/Madam

ACKNOWLEDGEMENT OF RECEIPT OF THE ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND AN AMENDED APPLICATION FORM FOR THE PROPOSED DEVELOPMENT OF A SPECIAL ECONOMIC ZONE IN MTHATHA, EASTERN CAPE PROVINCE

The Department confirms having received the draft Environmental Assessment Report and amended Application Form for the abovementioned project on 10 August 2018. You have submitted these documents to comply with the Environmental Impact Assessment (EIA) Regulations, 2014, as amended.

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Office Hours which is visible on the Departmental gate. EIA related documents (includes application forms, reports or any EIA related submissions) that are faxed; emailed; delivered to Security or placed in the Departmental Tender Box will not be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act (NEMA), Act No. 107 of 1998, as amended, that no activity may commence prior to an Environmental Authorisation (EA) being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

Mr Sabelo Malaza

Chief Director: Integrated Environmental Authorisations

Department of Environmental Affairs:

Good day,

Thank you for your response. In light of your comments, we will update the Comments and Responses Report accordingly going forward and we will include the cited policy and legislation, I&AP list as well as to add to the Needs and Desirability Section. This will be indicated in the Final Scoping Report which we will submit to you following the public review period. For future reference, how many hard copies and CDs should we submit to you?

Subject: DRAFT EIA SCOPING REPORT FOR WC SEZ

Good Day WSP

Let me thank for posting the document for comment; I have taken liberty to circulate to our counterparts within the Department for their perusal and possible comment. I have just a few issues to raise:

1. Policy and legislation
 - There is a Provincial piece of legislation called Transkei Environmental Conservation Decree No.9 of 1992
2. I & AP list/Stakeholders
 - EC Provincial Department of Transport as the Airport facility Manager
 - Traditional Authority of Mpeko where the Traditional Council is under Chief Noltally to which Ncise Traditional Authority reports
3. Need & Desirability
 - The O. R. Tambo District Municipality Council has endorsed the Wild Coast SEZ a number times in its Strategic Planning and IDPs. It currently has a draft District Development Plan Vision 2030 that again integrates the SEZ.

Kind Regards

To: 'Qondile Paliso'
Cc: Sizakele Gabula
Subject: RE: Proposed Mthatha Special Economic Zone

Good day Mr Paliso,

As can be seen below, the DEA Biodiversity Conservation Unit and the Integrated EIA team requested a site visit for the proposed project. They also requested we invite the ECPTA to attend the meeting. We would like the a representative from DEDEA to be present as well so that by the end of the meeting, the whole team will be on the same page regarding the way forward. As such, I would like to extend this meeting invitation for 17 September 2018. The provisional time is 10:00 am but I will be collating information from other authorities as to their travel arrangements so that we set a suitable time for all. I will send a formal meeting request with the final details hopefully by end of today.

Subject: RE: Proposed Mthatha Special Economic Zone

Good day,

Thank you for the response. I will confirm with the team regarding the date so that they can make their travel arrangements. I will send a formal meeting request to ensure we are all on the same page. As shown in the kmz, the two proposed land parcels are directly adjacent to the Mthatha Airport with one on the north and the other to the south. For security reasons, we arrange all site visits in conjunction with the Mthatha Airport Security Manager to arrange for access to the land parcels, hence, we will congregate at the airport security desk first so that we all move as a group.

At this point, my assumption is that the DEA personnel and myself will be using the first flight out of Johannesburg and arrive at 07:30. In order to accommodate those traveling from East London, we can set the meeting to start at 10:00 as this will give your team enough time to drive back during the day, although we will have to wait 2,5 hours for your arrival and after your departure. If Ms Makeleni is from the Mthatha office of the ECPTA, please let me know so that we can set travel times that allow for more flexible travel. I will send a formal meeting request tomorrow to Ms Makeleni after I find out how the DEA personnel intend to travel so that we do not assume anything.

Hi Shane,

We acknowledge had not added you to the stakeholder database at the beginning of the project, hence there was no communication to you during the scoping phase. The draft EIAR was submitted on 10 August 2018 to the stakeholders, commenting and competent authorities that were identified during the scoping phase. This was done via publication of a Newspaper advert, The Daily Dispatch, which was published on 25 April 2018 as well as site notices that were put up at the Mthatha Library, Mthatha High School, King Sabata Dalindyebo Local Municipality and at the site fence on 24 April 2018.

The hard copies of the draft EIAR for public engagement were made available at the Mthatha Library and Mthatha High School as well as our company website under the link below on 10 August 2018:

<https://www.wsp.com/en-ZA/services/public-documents>

Stakeholders were informed of the availability of the report via email and sms. The public comment period is expected to end on 10 September 2018, however, since the meeting is only occurring during the week of the 17th of September, we can incorporate your comments if you can relay them to us on the day of the proposed site visit before we then submit the final EIAR. Please note that the report is available on the link above, however, due to size constraints all appendices are available on request as will be indicated on the website.

Regards,

Tutayi Chifadza

Importance: High

Hi Tutayi

Thanks for the email and informing us regarding the project.

Please can you provide information regarding the public participation process and dates of the EIA. Also was the draft EIA out for public comment as we did not receive an request to comment. Can you also send us website link to where all the full report can be downloaded.

Note that I will request my colleagues to stand in for me – will cc you in the communication.

Kind Regards,

Shanè October

Subject: Proposed Mthatha Special Economic Zone

Good day,

As discussed over the phone, we are the Environmental Assessment Practitioner on the proposed development of a Special Economic Zone on 2 land parcels adjacent to the Mthatha Airport. The project is now in the Environmental Impact Assessment (EIA) phase as the scoping phase passed and was approved by the Department of Environmental Affairs (DEA). Please find the attached copy of the draft EIA report for your perusal. Due to size requirements, I have only put up the report and any appendices will be available on request.

The DEA: Biodiversity Conservation Unit have requested for a site visit and have asked us to ensure that you are also part of the meeting. We have proposed that the meeting be held in the week of the 17th of September. The actual date is still to be decided but it will be for that week. You have indicated that you are not available from the second week of September until October, but you can link us to another person who can attend. Please provide his/her details after your internal discussion. I will also add your details to the stakeholder database. Please provide your direct line and cell number if you are comfortable so that any future developments in the project can be relayed to you.

Regards,

Tutayi Chifadza

PER MAIL / E-MAIL

Dear Sir/ Madam

APPLICATION FOR ENVIRONMENTAL AUTHORISATION: PROPOSED WILD COAST SPECIAL ECONOMIC ZONE (SEZ) IN MTHATHA, EASTERN CAPE PROVINCE.

The final Scoping Report (SR) and Plan of Study (PoS) for Environmental Impact Assessment dated June 2018 and received by the Department on 08 June 2018, refer.

The Department has evaluated the submitted final SR and the PoS for Environmental Impact Assessment dated June 2018 and is satisfied that the said documents comply with the minimum requirements of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended. The FSR is hereby accepted by the Department in terms of Regulation 22(1)(a) of the EIA Regulations, 2014, as amended.

You may proceed with the environmental impact assessment process in accordance with the tasks contemplated in the Plan of Study for Environmental Impact Assessment as required in terms of the EIA Regulations, 2014, as amended.

In addition, the following amendments and additional information are required for the EIAR:

- a) The EIAR must provide the four corner coordinate points for the proposed development site(s) (note that if the site has numerous bend points, at each bend point coordinates must be provided).

Listed Activities

- b) Table 2-1 in the final Scoping Report dated June 2018 does not have a description of each listed activity applied for. You are kindly requested to include a description of each listed activity applied for, as you have done in Section 6 of the application form;
- c) Section 1.2 of the final Scoping Report dated June 2018 states that the Wild Coast Special Economic Zone (WCSEZ) will be phased (this application is for phase 1), however, Activity 67 of GN R.983 (as amended), which could be triggered, has not been included as a triggered listed activity. Please confirm that this activity is not triggered by the proposed development and explain why;

- d) Activity 9; 10; 12 and 24 of GN R.983 (as amended), as well as 4 and 14 of GN R.985 (as amended): The thresholds/capacities of the proposed activities must be determined and the project activity descriptions amended accordingly, as they are currently ambiguous and indefinite;
- e) If the activities applied for, or project descriptions in the application form differ from those mentioned in the EIAR, an amended application form must be submitted.

Public Participation Process

- f) The Public Participation Process (PPP) must be conducted in terms of Regulation 39, 40, 41, 42, 43 and 44 of the NEMA, EIA Regulations, 2014 (as amended).
- g) Comments on the draft EIAR must be obtained from the Biodiversity and Conservation unit of this Department;
- h) Please ensure that copies of original comments received from I&APs and organs of state, which have jurisdiction in respect of the proposed activity are submitted to the Department with the EIAR. Should you be unable to obtain such comments, proof should be submitted to the Department of the attempts that were made to obtain the comments;
- i) All issues raised and comments received during the circulation of the final Scoping Report from I&APs and organs of state, which have jurisdiction in respect of the proposed activity, are to be adequately addressed in the EIAR, including comments from this Department, and must be incorporated into the Comments and Response Report;

Specialist Studies

- j) A Phase 2 Heritage Impact Assessment study for Plot 2 must be included in the EIAR, as recommended in the desktop Heritage impact assessment, dated 28 February 2018.
- k) A Phase 1 Palaeontological Impact Assessment study for Plots 1 and 2 must be included in the EIAR, as recommended in the desktop Heritage impact assessment, dated 28 February 2018.
- l) A detailed Terrestrial Ecological Assessment and Wetland Assessment must be included in the EIAR, as per Section/Chapter 4 of the desktop Aquatic and Terrestrial Ecological Assessment, dated 18 January 2018.
- m) Signed specialist declaration of interest forms, for all specialist studies conducted as part of the proposed development, must be submitted together with the EIAR;
- n) Where specialist studies are conducted in-house or by a specialist other than a suitably qualified specialist in the relevant field, such specialist reports must be peer reviewed by a suitably qualified external specialist in the relevant field. The terms of reference for the peer review must include:
 - i. A CV clearly showing expertise of the peer reviewer;
 - ii. Acceptability of the terms of reference;
 - iii. Is the methodology clearly explained and acceptable;
 - iv. Evaluate the validity of the findings (review data evidence);
 - v. Discuss the suitability of the mitigation measures and recommendations;
 - vi. Identify any short comings and mitigation measures to address the short comings;

- vii. Evaluate the appropriateness of the reference literature;
- viii. Indicate whether a site-inspection was carried out as part of the peer review; and
- ix. Indicate whether the article is well-written and easy to understand.

Environmental Management Programme (EMPr)

- o) The EMPr to be submitted as part of the EIAR must comply with all the requirements in terms of the content of EMPs in accordance with Appendix 4 of the NEMA, EIA Regulations, 2014 (as amended).
- p) The EMPr must include the plans required as management measures, which include (but are not limited to):
 - i. Emergency response;
 - ii. Invasive alien plant management;
 - iii. Dust suppression;
 - iv. Waste management;
 - v. Site rehabilitation.
- q) The EMPr must not contain any ambiguity. Where applicable, statements must contain the word "must" instead of "should" or "may";
- r) Recommendations and mitigation measures recorded in the reports, including those from specialist studies, must be incorporated as part of the EMPr.

The applicant is hereby reminded that the EIAR to be submitted to this Department must comply with all the requirements in terms of the scope of assessment and content of EIARs in accordance with Appendix 3 and Regulation 23 of the NEMA, EIA Regulations, 2014 (as amended).

Please comply with the requirements of Regulation 45 of the Environmental Impact Assessment Regulations, 2014 published under Government Notice R982 in Government Gazette No. 38282 dated 04 December 2014, as amended ('the EIA Regulations, 2014'), with regard to the time period allowed for complying with the requirements of the Regulations.

Please ensure that the EIAR includes at least one A3 regional map of the area and the locality maps included in the EIAR illustrate the different proposed alignments. The maps must be of acceptable quality and as a minimum, have the following attributes:

- Maps are relatable to one another;
- Cardinal points;
- Co-ordinates;
- Legible legends;
- Indicate alternatives;
- Latest land cover;
- Vegetation types of the study area; and
- A3 size locality map.

Further, it must be reiterated that, should an application for Environmental Authorisation be subject to the provisions of Chapter II, Section 38 of the National Heritage Resources Act, 1999 (Act No. 25 of 1999), then this Department will not be able to make nor issue a decision in terms of your application for Environmental Authorisation pending a letter from the pertinent heritage authority categorically stating that the application fulfils the requirements of the relevant heritage resources authority as described in Chapter II, Section 38(8) of the National Heritage Resources Act, 1999.

You are requested to submit two (2) copies of the Environmental Impact Report (EIAR) to the Department and at least one electronic copy (CD/DVD) of the complete final report with the hard copy documents.

You are hereby reminded of Section 24F of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended, that no activity may commence prior to an environmental authorisation being granted by the Department.

Yours sincerely

Mr Sabelo Malaza

Dear Sir/ Madam

COMMENTS ON THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR THE PROPOSED WILD COAST SPECIAL ECONOMIC ZONE (SEZ) IN MTHATHA, EASTERN CAPE PROVINCE.

The draft Environmental Impact Assessment Report (EIAR) dated August 2018 and received by the Department on 10 August 2018 refers.

This Department has the following comments on the draft EIAR:

a) Public Participation Process

- Comments on the draft EIAR must be obtained from the Biodiversity and Conservation unit of this Department;
- Proof of submission of the draft EIAR to all organs of state which have jurisdiction in respect of the proposed activity must be included in the final EIAR.
- Please ensure that copies of original comments received from I&APs and organs of state, which have jurisdiction in respect of the proposed activity are submitted to the Department with the final EIAR. Should you be unable to obtain such comments, proof should be submitted to the Department of the attempts that were made to obtain the comments;
- All issues raised and comments received during the circulation of the draft EIAR from I&APs and organs of state which have jurisdiction in respect of the proposed activity are to be adequately addressed in the final EIAR, including comments from this Department, and must be incorporated into the Comments and Response Report;

General

You are further reminded that the final EIAR to be submitted to this Department must comply with all the requirements in terms of the scope of assessment and content of Environmental Impact Assessment Reports in accordance with Appendix 3 and Regulation 23(1) of the EIA Regulations, 2014, as amended.

Further note that in terms of Regulation 45 of the EIA Regulations 2014, as amended, this application will lapse if the applicant fails to meet any of the timeframes prescribed in terms of the these Regulations, unless an extension has been granted in terms of Regulation 3(7).

You are requested to submit two (2) copies of the final EIAR to the Department and at least one (1) electronic copy (CD/DVD) of the complete final report with the hard copy documents.

You are hereby reminded of Section 24F of the National Environmental Management Act (Act No 107 of 1998) as amended, that no activity may commence prior to an environmental authorisation being granted by the Department.

Yours sincerely

Good day,

We have sent all the reports to date (Draft Scoping, Final Scoping and Draft EIA) to the DWS, however, we have not had a response to date. Follow ups will be made as well. Furthermore, there will be formal consultation done again when the Water Use Licence is applied for.

Good afternoon Bathandwa

Thanks for the attendance register.

Will be speaking for the regional Environmental Impact Management (EIM) section.

Apart from other Biodiversity issues, one major concern was the issue of wetlands around and on the proposed site for the SEZ. However, it was comforting to note that this issue is covered in the studies conducted and submitted to your offices. Would also advise for consultation with Department of Water Affairs, just to get their stand on the issue, and maybe considering recreational facilities for one of the least degraded wetlands as part of compensating for the severely degraded wetlands. Municipality was part of the site visit and meeting, so will not talk to availability of infrastructure, I believe the issue was tackled during the meeting.

If there is anything you would like clarity on please do not hesitate to contact me.

Warm regards
Vuyokazi Silo

Cc: nomazisis@icloud.com
Subject: RE: Comments on the Wild Coast SEZ Draft Scoping Report

Good day,

The purpose of this report is for the scoping phase for the clearance of the site to allow for future projects to take place. The environmental authorisation of individual activities that will occur on the site will be done separately if they trigger any listed activities.

Issue 1

The EIA application is for the clearance of the site not the activities, the activities will need separate application after the area have been granted.

Issue 2

There has been a series of meetings that were between the KSD and the District Municipality about the WCSEZ. This means that the KSD Municipality is aware of the WCSEZ.

Issue 3

This issue is more of the strategic stance in the province that has to be directed to Coega when the individual activities are to be considered. This phase only covers land clearance to allow for future development.

Subject: Comments on the Wild Coast SEZ Draft Scoping Report

Dear Tutayi,

Thank you for providing us a platform to raise issues on this very important initiative by the Coega Development Corporation (CDC).

Who we are:

We represent Embo Farms (Pty) Ltd (reg no. 2018/081989/07), which is a 100% black woman-owned company. It has intentions of establishing commercial farming operations that are located, but not limited to the King Sabata Dalindyebo (KSD) local municipality.

Our intended farming operations fall within the scope of the 14-sector development projects identified in Page 32 of the Draft Scoping Report.

Issue 1

As the document was read, we were weary of making offside comments as there was some degree of confusion as to whether solicited comments were on the Environmental Impact Assessment (EIA) aspects covered in the report or the WSEZ project scope and its feasibility. The confusion arose due to the fact that, it seems, the Final Scoping Report purpose is the required approval by the Department of Environmental Affairs (DEA) on the environmental impacts of this project.

Issue 2

There is a need to tightly align the Wildcoast Special Economic Zone (WSEZ) Final Scoping Report with the King Sabata Dalindyebo (KSD) local municipality's Integrated Development Plan (IDP) 2017/18 - 2022 programmes that are related to or have an impact on this project.

As a key stakeholder, KSD IDP programmes speak of the development of Mqanduli as an agricultural node with AGRO processing capabilities, Viedgesville as a Logistics hub and Mthatha Airport as a spatial economic zone for linking business opportunities.

On the other hand, this project speaks of Phase 1 as focussing on 14 sector development projects (agro-processing sector) housing facilities to unlock the primary sector with the hub near Mthatha Airport. Reference is to Page 32 of the WSEZ Draft Scoping Report. Its Phase 2 speaks of developing the Services Sector within the hub, including but not limited to Logistics and Distribution.

At face value there seems to be a duplication of efforts between the two entity initiatives, i.e. KSD IDP high impact programmes and this Coega Development Corporation (CDC) initiative. The needs to be a clear resolution, - or a mapped way forward towards such a resolution, of this apparent overlap between the KSD IDP and the WSEZ Final Scoping Report. This will ensure that limited financial resources will not be spread thin on projects seeking to achieve the same goal.

Issue 3

There seems to be a gap in understanding the production capacity of current primary sector players within the Wild Coast region. Will that capacity be able to provide enough production input to profitably drive the agro-processing facilities at full capacity or will the intended production within the allocated 164ha be able to fill the production gap? Are there initiatives and budget allocations, perhaps by the Department of Rural Development and Agrarian Reform (DRDAR) and/or KSD local municipality to capacitate local players within the Wild Coast region.

We express our excitement and declare our full support for this project and wish it success in its endeavours.

Best regards

Good day,

We are still in the scoping phase of the EIA process. We have since submitted the final scoping report to the authorities so that they give their decision. If they accept our scoping phase findings, we will proceed to the EIA phase. We will then submit another draft EIA report for authorities and public review for 30 days. After this stage, we then submit the final EIA report to the authorities for them to grant the authorisation or not.

I will add you to the stakeholder database in the meantime so that you will be in our correspondence in the EIA phase. We are operating as the Environmental Assessment Practitioner on behalf of the CDC to acquire the Environmental Authorisation for the clearance of the area and the setting up of service infrastructure. However, the individual businesses that will set up will then run their individual

environmental authorisation processes depending on the activities they will conduct. With regards to your project, you will need to approach the CDC as we are only responsible for the EIA process.

Dear Tutayi,

I came across a draft scoping report you wrote when I was doing research on Coffee Bay. I have been working on some plans for tourism developments in the Coffee Bay area and I believe that with the Coega supported SEZ initiative, the plans could be linked to what Coega is driving.

I am not sure what the next steps are in your process, however I would like to be included as a stakeholder in any future interactions with affected and interested parties in the SEZ development.

Please use my contact details shown below.

PER E-MAIL

Dear Sir/Madam

COMMENTS ON FINAL SCOPING REPORT FOR THE PROPOSED WILD Coast SPECIAL ECONOMIC ZONE, MTHATHA , EASTERN CAPE PROVINCE

The final Scoping Report (FSR) dated June 2018 and received by this Department on 11 June 2018 refers;

After the evaluation of FSR and Plan of Study submitted for the proposed development, it is recommended that the following be considered during the Environmental Impact Assessment Process:

- According to the Eastern Cape Biodiversity Conservation Plan (ECBCP), aquatic conservation priorities highlighted for the project area and planned development site include the catchment draining north towards the Mthatha Dam which has been identified as an aquatic Critical Biodiversity Area (CBA) 1 and 2; therefore the land-use planning must take into account the linkages between catchments, important rivers and sensitive estuaries, with a key focus around limiting transformation in CBA catchments;
- The Environmental Impact Assessment Report (EIR) must explore the mitigation measures that will compensate for the loss of biodiversity and/or maintain biodiversity in a natural state as possible; and
- The EIR must include at least one A3 regional map of the area, ecological sensitivity map and the locality map illustrating the different alternatives.

The overall biodiversity objective is to minimise loss to biodiversity as possible. Therefore, in order to achieve this objective the above mentioned recommendations must be adhered to.

Yours faithfully

Stanley Tshitwamulomoni
Acting Director: Biodiversity Conservation
Department of Environmental Affairs

Good day,

Thank you for your response. We will run the Water Use Licensing process separately using the specialist studies conducted as supporting documentation for the application for the Water Use License. Please note that we have sent copies of all reports since the scoping phase to them, with no comment so far, however, when we run their process, we will initiate a pre-application meeting so that we clarify from the beginning what we will be applying for. In the meantime, we will continue with the Environmental Authorisation process.

Subject: RE: Proposed Mthatha Special Economic Zone

Good day,

Thank you for the response. I will confirm with the team regarding the date so that they can make their travel arrangements. I will send a formal meeting request to ensure we are all on the same page. As shown in the kmz, the two proposed land parcels are directly adjacent to the Mthatha Airport with one on the north and the other to the south. For security reasons, we arrange all site visits in conjunction with the Mthatha Airport Security Manager to arrange for access to the land parcels, hence, we will congregate at the airport security desk first so that we all move as a group.

At this point, my assumption is that the DEA personnel and myself will be using the first flight out of Johannesburg and arrive at 07:30. In order to accommodate those traveling from East London, we can set the meeting to start at 10:00 as this will give your team enough time to drive back during the day, although we will have to wait 2,5 hours for your arrival and after your departure. If Ms Makeleni is from the Mthatha office of the ECPTA, please let me know so that we can set travel times that allow for more flexible travel. I will send a formal meeting request tomorrow to Ms Makeleni after I find out how the DEA personnel intend to travel so that we do not assume anything.

Dear Tutayi

Hope you are well.

Please can you send me a kml/kmz or shp outlining the locality of the proposed Mthatha SEZ. I would like to upload the files to QGIS with our sensitivity data and distribute the maps and Report to my colleagues for comments.

Kind Regards,

Shanè October

Subject: RE: Proposed Mthatha Special Economic Zone

Hi Shane,

We acknowledge had not added you to the stakeholder database at the beginning of the project, hence there was no communication to you during the scoping phase. The draft EIAR was submitted on 10 August 2018 to the stakeholders, commenting and competent authorities that were identified during the scoping phase. This was done via publication of a Newspaper advert, The Daily Dispatch, which was published on 25 April 2018 as well as site notices that were put up at the Mthatha Library, Mthatha High School, King Sabata Dalindyebo Local Municipality and at the site fence on 24 April 2018.

The hard copies of the draft EIAR for public engagement were made available at the Mthatha Library and Mthatha High School as well as our company website under the link below on 10 August 2018:

<https://www.wsp.com/en-ZA/services/public-documents>

Stakeholders were informed of the availability of the report via email and sms. The public comment period is expected to end on 10 September 2018, however, since the meeting is only occurring during the week of the 17th of September, we can incorporate your comments if you can relay them to us on the day of the proposed site visit before we then submit the final EIAR. Please note that the report is available on the link above, however, due to size constraints all appendices are available on request as will be indicated on the website.

Regards,

Tutayi Chifadza

Hi Tutayi

Thanks for the email and informing us regarding the project.

Please can you provide information regarding the public participation process and dates of the EIA. Also was the draft EIA out for public comment as we did not receive an request to comment. Can you also send us website link to where all the full report can be downloaded.

Note that I will request my colleagues to stand in for me – will cc you in the communication.

Kind Regards,

Shanè October

Subject: Proposed Mthatha Special Economic Zone

Good day,

As discussed over the phone, we are the Environmental Assessment Practitioner on the proposed development of a Special Economic Zone on 2 land parcels adjacent to the Mthatha Airport. The project is now in the Environmental Impact Assessment (EIA) phase as the scoping phase passed and was approved by the Department of Environmental Affairs (DEA). Please find the attached copy of the draft EIA report for your perusal. Due to size requirements, I have only put up the report and any appendices will be available on request.

The DEA: Biodiversity Conservation Unit have requested for a site visit and have asked us to ensure that you are also part of the meeting. We have proposed that the meeting be held in the week of the 17th of September. The actual date is still to be decided but it will be for that week. You have indicated that you are not available from the second week of September until October, but you can link us to another person who can attend. Please provide his/her details after your internal discussion. I will also add your details to the stakeholder database. Please provide your direct line and cell number if you are comfortable so that any future developments in the project can be relayed to you.

Regards,

FOR ATTENTION: TUTAYI CHIFADZA

Delivered By: Email (Tutayi.Chifadza@wsp.com)

RE: DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR THE PROPOSED WILDCOAST SPECIAL ECONOMIC ZONE, MTHATHA.

Dear Mr Chifadza

Thank you for providing the Eastern Cape Parks and Tourism Agency (ECPTA) with the opportunity to review the Draft Environmental Impact Assessment (EIA) Report for the proposed Wild Coast Special Economic Zone, Mthatha. The ECPTA conducted a desktop study with the locality information of the preferred site proposed for Special Economic Zone and noted the following:

ECPTA Protected Areas

We have noted that the delineated boundary of Luchaba Nature Reserve within the Figure 8-19: *Extent of the Nduli Luchaba Nature Reserve* on page 78 of the Draft BAR is incorrect. Please correct the map with the spatial data provided to WSP on 5 October.

We note that the proposed Special Economic Zone comprise of two preferred sites, namely Phase 1 North and Phase 1 South. Based on our spatial information only the preferred site for Phase 1 North falls within 5km buffer of our nearest protected area, Luchaba Nature Reserve which fall

within the Umtata Moist Grassland in the Grassland Biome (Mucina & Rutherford). Due to the different land uses in between Luchaba Nature Reserve and the proposed preferred site for the Special Economic Zone, we foresee no negative impact on the Luchaba Nature Reserve.

Eastern Cape Protected Area Expansion Strategy

The ECPTA is also the custodian of the Eastern Cape Protected Area Expansion Strategy (ECPAES). None of the proposed development sites does not fall in any of the priority expansion areas identified by the ECPAES. However, based on the landscape characteristics and different land uses between the proposed Special Economic Zone and priority expansion areas, we foresee no threat to the priority expansion areas identified within the ECPAES.

Conclusion

Should you wish to discuss the above comments please do not hesitate to contact the ECPTA Environmental Planner, Ms Shanè October (Email: shane.october@ecpta.co.za). Note the ECPTA reserves the right to revise initial comment and request further information based on any additional information that may be received. It would be appreciated if ECPTA could be included in all future correspondence relating to this application.

Yours sincerely

Vuyani Dayimani

D MEETINGS

APPENDIX

D-1 COMMUNITY LEADERSHIP MEETING MINUTES & ATTENDANCE REGISTER

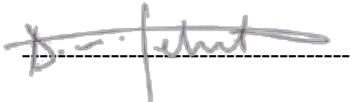

STRICTLY CONFIDENTIAL

TYPE OF MEETING : *Wild Coast SEZ EIA Public Participation Meeting*
MEETING NO : *01/2018*
DATE : *24th April 2018*
TIME : *11H00*
VENUE : *Coega Mthatha Office*

PRESENT: *See Attachment attendance register*

ITEM	DESCRIPTION	ACTION
1	<p>INTRODUCTION / WELCOME</p> <p>(a) The chairperson welcomed everyone present.</p>	<p>David Lefutso</p>
2	<p>SIGNING OF ATTENDANCE REGISTER</p> <p>(a) The attendance register was circulated and signed by all present.</p>	
3	<p>BACKGROUND AND DISCUSSION</p> <p>(a) Environmental Impact Assessment (EIA) Public participation meeting that was scheduled to take place at Link Location on the day.</p> <p>(b) The WCSEZ Program team spent about an hour 30 minutes on open area talking to the members of the community.</p> <p>(c) The aim of the meeting was for the Environmental Specialists consultants (WSP) to present to kwa Link community the environmental impacts by the project and the community be given a period of thirty days to express their comments on the information provided to them regarding the work.</p> <p>(d) Upon arrival we the team was welcomed by the Members of the large number of community who claimed to have appointed new leadership in the community.</p> <p>(e) We were told by these members that if we want to talk about development in their land we must talk to them and disregard the leadership we know.</p> <p>(f) Secondly, if we want to meet they are prepared to meet on one condition that we go to kwa Bhodi (community leader) and not where we usually hold our meetings at Mr. Tinzi's.</p>	

- (g) The EIA meeting was arranged with the assumption that the WCSEZ Committee will invite the community and by judging by the number of people who were there on our arrival, it was clear that the community was indeed invited.
- (h) The community refused to allow the meeting to continue, claiming that the meeting must take place in kwa Bodi. Their conduct was threatening, saying that if we don't do their way, we must go.
- (i) It was mentioned that the public participation process is legislative and must take place, so that public views must be noted and documented.
- (j) The community suggested that we consult with their Chief (Chief Makawula) who is responsible for that area.
- (k) It was noted that the project team already met with chief Makawula who gave a go ahead to operate on the land.
- (l) Before the meeting with the chief, the project team would have had a meeting with Mr. Chifadza (WSP) to explain the implications of not proceeding with the community meeting.
- (m) It was mentioned that Public participation process was to be advertised on the Mthatha express and The Daily Dispatch the following day, 25th April 2018. The members of the community has thirty days to comment, then they can comment via email, letter.
- (n) Mr. Chifadza to assure the team that the relevant documentation have been lodged with the relevant statutory authorities such as municipalities, schools, library.
- (o) The community present was guaranteed that the at that moment there was nothing stopping the project.
- (p) It was explained that the thirty days (30) period is for the lodging and noting of the comments by the members of the public on environmental implications. The EIA consultants (WSP) will then compile a Comments and Responses Report which will be submitted together with Final Scoping.
- (q) No technical issues regarding the EIA, only the community issues that needs to be sorted out.

<p>4</p>	<p>WAY FOWARD</p> <p>(a) Attendees from the Link community were asked to report any invaders to the land intended for SEZ.</p> <p>(b) The WCSEZ Project team to write the letter requesting the meeting with Chief Makawula to discuss a way forward on this matter.</p> <p>(c) The letter to the Chief to include a request for a permission to invite the Councilor for Ward 12 (Mrs Rhor) and KSD representatives.</p> <p>(d) A suggestion to employ the Social Facilitator to deal with social issues which seem to be the burning issue was noted.</p> <p>(e) The community committee was encouraged to involve everybody, when there's a scheduled meeting, they must not exclude anyone.</p> <p>(f) The community of Kwa Link was encouraged to sit down, talk and resolve their differences/ issues.</p> <p>(g) The Community committee must meet with the Department of Rural Development and arrange a Community Property Association (CPA).</p> <p>(h) After the formation of CPA, Department of Rural Development needs to create a transactional advisor which will act as commercial arm to be the link between the community and the SEZ.</p>	
<p>5</p>	<p>CLOSURE</p> <p>(a) The chairperson thanked everyone in attendance.</p> <p>(b) There being no further business discussed, the meeting was adjourned at 13H05.</p>	
<p>8</p>	<p>APPROVAL OF MINUTES</p> <p>Signed by the chairperson, on behalf of all the members present, to confirm that the minutes are a true and accurate record of the meeting.</p> <p>Approval : </p> <p>Date : 24 April 2018</p>	

APPENDIX

D-2 MEETING WITH CHIEF MAKAULA

STRICTLY CONFIDENTIAL

TYPE OF MEETING : Meeting with Chief Makaula of Ncise Location - Wild Coast SEZ
MEETING NO : 01/2018
DATE : 22nd May 2018
TIME : 09H00
VENUE : Chief Makaula – Ncise Location

PRESENT: See Attachment attendance register

ITEM	DESCRIPTION	ACTION
1	<p>INTRODUCTION / WELCOME</p> <p>(a) The chairperson welcomed everyone present.</p>	David Lefutso
2	<p>SIGNING OF ATTENDANCE REGISTER</p> <p>(a) The attendance register was circulated and signed by all present.</p>	
3	<p>PURPOSE OF THE MEETING AND DISCUSSION</p> <p>(a) The meeting was to inform the Chief of KwaNcise Location about the progress in the Mthatha Wild Coast SEZ project and to report back about the EIA Public Participation meeting that was scheduled to take place at Link Location on the 24th April 2018.</p> <p>(b) Report back on progress made on compliance issues around environmental impact and the progress of the Mthatha WCSEZ project.</p> <p>(a) The Project Executive briefed the Chief regarding the EIA Public participation meeting that was scheduled to take place on the 24th April 2018. Explaining what transpired on the day.</p> <p>(b) The presentations on WCSEZ Master plan was presented and explained, the need for a long term lease agreement and how the community will benefit from the project.</p>	

<p>4</p>	<p>WAY FOWARD</p> <p>(a) It was suggested that the EIA Public participation meeting was supposed to have been organized via Chief then the Chief would spread the word to all the locations involved.</p> <p>(b) The meeting that will involve all the stakeholders was to be organized, it was suggested that all the signed agreements pertaining the Mthatha WCSEZ must be tabled in that meeting.</p> <p>(c) The chief must be present in that meeting and not send a representative.</p> <p>(d) It was suggested that the Mthatha WCSEZ Team must seek guidance and assistance from Komkhulu especially with issues involving the community.</p> <p>(e) The corporation from all stakeholders involved was encouraged.</p> <p>(f) It was mentioned that the EIA Process is anticipated to be concluded by November 2018.</p> <p>(g) The need for social facilitator to act as a link between the community and all involved stakeholders was raised.</p> <p>(h) It was mentioned that the EIA for Phase 2 of the project will start soon.</p>	
<p>5</p>	<p>CLOSURE</p> <p>(a) The chairperson thanked everyone in attendance.</p> <p>(b) There being no further business discussed, the meeting was adjourned at 10H05.</p>	
<p>8</p>	<p>APPROVAL OF MINUTES</p> <p>Signed by the chairperson, on behalf of all the members present, to confirm that the minutes are a true and accurate record of the meeting.</p> <p>Approval : -----</p> <p>Date : -----</p>
