Hi Liandra,

If no NEMA activities are triggered, as per your email, then I don't foresee the need to add the road to the freshwater ecological report.

I mentioned to Stephan in a call earlier today that regravelling might require some form of authorisation from DWS (my colleague Jana is busy with the WUA process for Oya WEF), which will potentially require the need for a specialist study for the road to be undertaken, however we are still considering the need thereof for the WULA process or not.

*Regards,*

**Subject:** 16235 Kudusberg Split Part 2 Amendment process ((DEFF Reference Number: 14/12/16/3/3/1/1976/AM2))

Dear Specialists

Please see the map below and attached for ease of reference:

This existing road was not reflected on previous layouts, but was accessed during the Kudusberg Split Part 2 Amendment process (DEFF Reference Number: 14/12/16/3/3/1/1976/AM2).

The roads will be maintained (re-gravelled) during construction and operation but will not be widened and as such do not trigger any listed Activity under the National Environmental Management Act (NEMA): Environmental Impact Assessment (EIA) Regulations of 2014 as amended.

Please confirm if this road will have any bearing on your specialist findings.

Please respond to this email, we would like to submit this in Friday 22 January 2021.

Kind regards

**Liandra Scott-Shaw (Pr.Sci.Nat)**
