The Environmental Authorisation application will be lodged with the North West Department of Rural, Environmental and Agricultural Development (the Competent Authority) in terms of the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), as amended, and the Environmental Impact Assessment (EIA) Regulations, 2014 (Regulations in terms of sections 24(5) and 44 of the NEMA, 1998). A Water Use Licence application in terms of Chapter 4 and Section 21 of the National Water Act (NWA), 1998 (Act No. 36 of 1998), as amended, will also be submitted to the Department of Water and Sanitation (DWS).

Labesh (Pty) Ltd has been appointed by the applicant, RCL Foods Limited, in terms of Regulation 12 of the Environmental Impact Assessment Regulations (GNR. 982 of 4 December 2014), as the independent Environmental Assessment Practitioner (EAP) tasked with conducting the above mentioned application processes. Labesh complies with the necessary requirements of Regulation 13 of GNR. 982 of 4 December 2014.

BACKGROUND OF THE APPLICANT

RCL Foods Limited owns Rainbow Chicken Farms, which is the largest integrated chicken company in South Africa. The company supplies 4.7 Million broiler chickens into the South African consumer market per week. Of this total, the Northern region (Gauteng and the North West Provinces) supplies 1.7 Million chickens per week.

DESCRIPTION OF CURRENT OPERATIONS

The project site is currently divided into two parts. The northern part of the site is the existing Roodewal Breeder Farm consisting of nine (9) poultry farms, namely three (3) rearing farms and six (6) laying farms. The southern part of the site is mostly undeveloped and is used for game farming. The Kwa Mmathu Wildlife Reserve (conservancy) is also situated on one of the project properties.

PROJECT DESCRIPTION

The proposed project will include the changing, upgrading and expansion of the Roodewal Breeder Farm. Existing rearing farms will be upgraded, expanded and converted into laying farms, while the existing laying farms will also be upgraded and expanded. The northern part of the project site will contain all of the laying farms. New rearing farms will be built on the southern part of the project site. In total, there will be 16 laying farms, each consisting of eight (8) laying houses, and eight (8) rearing farms, each consisting of 10 rearing houses.

The following will also be constructed:

- An Egg Bank where eggs will be separated into commercial- and production- egg rooms;
- A Wastewater Treatment Plant to treat sewage, wastewater and wash water;
- Water reservoirs;
- A Solar PV plant; and
- Existing services, including water supply, electricity supply, roads and employee housing will be upgraded and expanded upon.

Thank you for notifying SAHRA of the proposed Roodewal Breeder Farm Expansion on the several farms in the Kgetlengrivier Local Municipality, Bojanala Platinum District Municipality, North West Province.

In terms of the National Heritage Resources Act, no 25 of 1999, heritage resources, including archaeological or palaeontological sites over 100 years old, graves older than 60 years, structures older than 60 years are protected. They may not be disturbed without a permit from the relevant heritage resources authority. This means that before such sites are disturbed by development it is incumbent on the developer to ensure that a **Heritage Impact Assessment (HIA)** is done as per Section 38(8) of the NHRA. This must include the archaeological component (Phase 1) any other applicable heritage components. 2022 REPTILE REPORT

Over the course of the year, we have seen a variety of reptiles and amphibians in our area. The most common species seen were lizards, snakes, and turtles. We also saw a few frogs and toads. The reptiles and amphibians we saw were mostly in the same areas as last year, which is good news for us. It shows that the environment is still healthy and that the animals are still able to find food and shelter. We will continue to monitor the population of these animals and report any changes to you.

Thank you for your support and interest in our work. We look forward to seeing you again soon.
