DIGBY WELLS

ENVIRONMENTAL

Project No: SAS3869

AMENDMENT AND CONSOLIDATION OF THE SASOL THUBELISHA, TRICHARDTSFONTEIN AND VAALKOP ENVIRONMENTAL MANAGEMENT PROGRAMME REPORTS (EMPRs), MPUMALANGA PROVINCE

Dear Stakeholder,

Sasol Mining (Pty) Ltd (Sasol Mining) holds mining rights for the Twistdraai Colliery: Thubelisha Shaft (TCTS) and Vaalkop mining area (Ref: MP30/5/1/2/2/138MR). Further to this, the mining right for the Trichardtsfontein Mine (Ref: MP30/5/1/2/2/10056MR) was ceded from Glencore Operations South Africa (Pty) Ltd in accordance with Section 11 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA) to Sasol Mining. It is therefore required that the Environmental Management Programme Reports (EMPRs) for the above-mentioned mining right areas be consolidated and updated to reflect changes in the mining plans and methodologies and consider additional infrastructure requirements.

1 Project Background and Description

The mining method which is currently being undertaken at TCTS includes bord and pillar mining method as well as high extraction mining in some areas. This mining method has also been proposed for Vaalkop. However, the mining method proposed for the extraction of coal at Trichardtsfontein only included the conventional bord-and-pillar method.

Twistdraai Thubelisha is now proposing that in addition to the bord-and-pillar mining method, high extraction mining will be undertaken at the Trichardtsfontein Mine. Since this activity was excluded from the previous approved EMPr (2014), an amendment of the Trichardtsfontein EMPr is required to identify and assess the impacts associated with high extraction mining, particularly relating to surface subsidence. Sasol Mining therefore undertook the required specialist studies to determine the impact that may be experienced from high extraction mining methods.

Additionally it is proposed that Twistdraai Thubelisha will construct two ventilation shafts at TCTS (known as East ventilation shaft) and two ventilation shafts on Trichardtsfontein (known as South ventilation shaft). A listed activity under Listing Notice 1 is triggered in accordance with the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended), promulgated in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) for the construction and operation of the ventilation shafts.

Digby Wells further proposes a submission in terms of the provisions of Regulation 31 of the EIA Regulations 2014 (as amended) promulgated in terms of the NEMA to obtain the required authorisation for both the amendment and consolidation process of the EMPRs (referred to in general as the Environmental Authorisation (EA) Amendment process). A basic assessment process will also be undertaken to obtain the EA for the construction and operation of the ventilation shafts. This will be undertaken as a consolidated process in accordance with the one environmental system.

2 Project Location

The Project area and is located between the towns of Trichardt and Bethal in the Mpumalanga Province. The project area and coal reserve is located within the Highveld East Magisterial District, the Gert Sibande District Municipality and the Govan Mbeki Local Municipality (see Plan 1 below). The Project is situated on the farms listed in Table 1, Table 2 and Table 3 below.

Table 1: Trichardtsfontein Properties

Plan 1: Site Location

3 Regulatory Requirements

The NEMA EIA Regulations, 2014 provides the way EAs may be amended. Regulation 54(2) of the EIA Regulations 2014 provides for an application to amend an EMPr which was granted in terms of the MPRDA must be dealt with as set out in Chapter 5 of the EIA Regulations. If the requested amendment will result in a change to the scope of an EA the process of amendment will be as per Regulation 31. Additionally, a Basic Assessment process will be undertaken to obtain EA for the construction and operation of the ventilation shafts (as per Listing Notice 1, Activity 27). This project will be undertaken as a consolidated process in accordance with the one environmental system.

In terms of the process to be followed, an application for consent to consolidate and amend the EMPr as well as to obtain environmental authorisation for the construction of the ventilation shafts will be compiled and submitted for consideration. The following amendments will be made:

- Inclusion of all impacts associated with high extraction mining method for the Trichardtsfontein mining area;
- Inclusion of all impacts associated with the construction of the venation shafts; and
- Compilation of the EMPr for Vaalkop;
- Consolidation of Trichardtsfontein mining right into Sasol Mining Right; and
- Consolidation of the TCTS EMPr, Vaalkop EMPr and the Trichardtsfontein EMPr (referred to as the consolidation project).

The IWUL for the TCTS was approved in 2011 (04/B11C/ACGIJ/995). It is determined that no IWUL will be applied for the Trichardtsfontein as no activities are triggered for the mining of the area. It is noted that mining of Vaalkop will require an IWUL however this will be applied for separately at a later stage. It should be noted that a general authorisation for a WUL for the construction of the ventilation shafts must be obtained due to the ventilation shafts being located within 500 m of a wetland. Should it be determined that an amendment to the TCTS IWULA is required this will be undertaken by Sasol Mining.

4 Specialist Studies

The following studies are considered in support of the regulatory process:

- Hydrogeology;
- Hydrology;
- Heritage;
- Wetlands;
- Aquatic Ecology;
- Fauna and Flora;
- Visual;
- Noise;
- Air Quality
- Soil, Land Use and Land Capability; and
- Rehabilitation and Closure Plan.

The Public Participation Process (PPP) will be undertaken as per the requirements of the NEMA EIA Regulations (2014).

5 Public Participation Process

The PPP has been initiated with the purpose of sharing project information and gathering comments from stakeholders. Stakeholders are hereby invited to register as Interested and Affected Parties (I&APs) and to submit comments regarding the proposed project. The following key steps and actions are applicable to the PPP:

- **Project Announcement:** The project will be announced making use of the following media - An advertisement will be published in the Echo/Ridge Times; Site Notices erected on the proposed project site and at strategic locations within the greater area and prospective I&APs will be provided with this Background Information Letter (BIL) and Registration and Comment Form (attached). All I&APs are requested to register with Digby Wells should they wish to receive information on the progress of the proposed project.
- **Comment on Reports:** The draft EMPr and specialist studies will be available for public comment for 30 days **Wednesday, 31 January 2018 to Thursday, 1 March 2018** on the Digby Wells website and at Public Libraries indicated in the table below.
- **Public Meeting:** A public meeting will be held on 12 February 2018 from 14:00 to 16:00 at the Multilink Conference Venue (4 Grey Street Trichardt) to present the project and specialist findings as well as to obtain comments and answer questions from I&APs.

How to register and/or comment on the proposed project application process:

You are welcome to address your comments, concerns or suggestions to Digby Wells through any one of the following:

- Completing and submitting the attached Registration and Comment Form;
- A letter or other form of written submission;
- Attending the Public Meeting and providing comments; or
- By email, fax or telephone correspondence.

Should you wish to be registered as an I&AP, obtain additional information or comment on the proposed project, please contact Nondumiso Gwala at Tel: (011) 789 9495 or Fax: (011) 069 6801, Post: Private Bag X10046, Randburg, 2125 or Email: nondumiso.gwala@digbywells.com

REGISTRATION AND COMMENT FORM

January - March 2018

Registered Interested and Affected Parties (I&APs) will be informed of ongoing developments via their preferred means of communication (SMS, email, post or fax). The draft Report will be available for comment on www.digbywells.com (under Public Documents) and various public places, as per the announcement letter. Comments raised by stakeholders will assist in informed decision-making for authorities and provides information to be considered by the project team and specialists conducting the Authorisation process. Please register as an Interested and Affected Party (I&AP) and provide comments by sending this form, or other written correspondence, to the contact details provided below:

Nondumiso Gwala of Digby Wells Environmental Stakeholder Engagement Office:
Fax: 011 069 6801, **Telephone:** (011) 789 9495, **Postal Address:** Private Bag X10046, Randburg, 2125

Environmental Impact Assessment Regulations of 2014, promulgated in terms of the National Environmental Management Act, as amended, Section 44 (1) requires that we *gather comments* from I&APs. Please complete the questions below. Should you require assistance in completing these questions please contact the Stakeholder Engagement Office at contact information provided above.

How do you think the project might impact (affect) you?
How do you think the project might impact (affect) your socio-economic conditions? (e.g. livelihoods, farm, business, household)

How can these impacts be managed, avoided and / or fixed?
If you are a landowner or occupier, what is your land currently being used for?
Are there any environmental, social or heritage features on the proposed project area we need to be aware of?
Where are these found?
Do you think the project could impact (affect) infrastructure you might have? (e.g. houses, buildings, roads)
If so how can these impacts (affects) be managed, avoided or fixed?

General Comments

If there are any other stakeholders we should include onto the stakeholder database for the proposed project, please provide their contact details.

SASOL MINING (PTY) LTD (SASOL)

AMENDMENT AND CONSOLIDATION OF THE SASOL THUBELISHA, TRICHARDTSFONTEIN AND VAALKOP ENVIRONMENTAL MANAGEMENT PROGRAMME REPORTS (EMPRS), MPUMALANGA PROVINCE

Introduction: Sasol Mining (Pty) Ltd (Sasol Mining) holds mining rights for the Twistdraai Colliery: Thubelisha Shaft (TCTS) and Vaalkop mining area (Ref: MP30/5/1/2/2/138MR). Further to this, the mining right for the Trichardtsfontein Mine (Ref: MP30/5/1/2/2/10056MR) was ceded from Glencore Operations South Africa (Pty) Ltd in accordance with Section 11 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA) to Sasol Mining.

Digby Wells is therefore proposing a submission in terms of the provisions of Regulation 31 of the Environmental Impact Assessment (EIA) Regulations 2014 (as amended) promulgated in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) to obtain the required authorisation for both the amendment and consolidation process of the EMPs (referred to in general as the Environmental Authorisation (EA) Amendment process). A basic assessment process will also be undertaken to obtain environmental authorisation for the construction and operation of the ventilation shafts. This will be undertaken as a consolidated process in accordance with the one environmental system.

Project Location: The Thubelisha Consolidated EMPr Project (the Project) includes the Trichardtsfontein Mine, TCTS and the Vaalkop area and is located between the towns of Trichardt and Bethal in the Mpumalanga Province. The project area and coal reserve is located within the Highveld East Magisterial District, the Gert Sibande District Municipality and the Govan Mbeki Local Municipality.

Public Participation: Stakeholders affected by or interested in the Project are invited to register as an Interested and Affected Party to become involved in the consultation process. Comments and or questions can be addressed to the Digby Wells Stakeholder Engagement Office using the information as provided below. The draft EMPr, specialist studies, will be available for public comment for 30 days **Wednesday, 31 January 2018 to Thursday, 1 March 2018** on the Digby Wells website and at Public Libraries indicated in the table below.

SASOL MINING (PTY) LTD (SASOL)

AMENDMENT AND CONSOLIDATION OF THE SASOL THUBELISHA, TRICHARDTSFONTEIN AND VAALKOP ENVIRONMENTAL MANAGEMENT PROGRAMME REPORTS (EMPRs), MPUMALANGA PROVINCE

Introduction

Sasol Mining (Pty) Ltd (Sasol Mining) holds mining rights for the Twistdraai Colliery: Thubelisha Shaft (TCTS) and Vaalkop mining area (Ref: MP30/5/1/2/2/138MR). Further to this, the mining right for the Trichardtsfontein Mine (Ref: MP30/5/1/2/2/10056MR) was ceded from Glencore Operations South Africa (Pty) Ltd in accordance with Section 11 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA) to Sasol Mining.

Digby Wells is therefore proposing a submission in terms of the provisions of Regulation 31 of the Environmental Impact Assessment (EIA) Regulations 2014 (as amended) promulgated in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) to obtain the required authorisation for both the amendment and consolidation process of the EMPRs (referred to in general as the Environmental Authorisation (EA) Amendment process). A basic assessment process will also be undertaken to obtain environmental authorisation for the construction and operation of the ventilation shafts. This will be undertaken as a consolidated process in accordance with the one environmental system.

Project Location

The Thubelisha Consolidated EMPr Project (the Project) includes the Trichardtsfontein Mine, TCTS and the Vaalkop area and is located between the towns of Trichardt and Bethal in the Mpumalanga Province. The project area and coal reserve is located within the Highveld East Magisterial District, the Gert Sibande District Municipality and the Govan Mbeki Local Municipality.

Public Participation

Stakeholders affected by or interested are invited to register as an Interested and Affected Party to become involved in the consultation process. Comments and or questions can be addressed to the Digby Wells Stakeholder Engagement Office using the information as provided below. The draft EMPr, specialist studies, will be available for public comment for 30 days **Wednesday, 31 January 2018 to Thursday, 1 March 2018** on the Digby Wells website and at Public Libraries indicated in the table below.

Venue	Address	Contact Person	Contact Number
Bethal Public Library	Danie Nortje Street, Bethal, 2310	Ms Betty Jordaan	017 624 3029
Secunda Public Library	Lauren Muller Street, Secunda, 2302	Mr Sekwane	017 620 6183
Sasol Twistdraai Colliery: Thubelisha Shaft Mine Security Gate	26 27'45.25" S 29 17'17.13" E	Security Guard	017 614 8401

The reports are also available on the Digby Wells website: www.digbywells.com under Public Documents or Phone and request a CD copy at (011) 789 9495
