PURPOSE OF THIS DOCUMENT

The purpose of this document is to provide all interested and affected parties (I&APs) with information relevant to the environmental regulatory process for the decommissioning and rehabilitation of the Twistdraai access road, Twistdraai conveyor belt servitude and quarry located near Twistdraai East Shaft, Mpumalanga Province.

This document aims to:

- Provide a description of the proposed Project;
- Provide an overview of the environmental regulatory processes which will be undertaken;
- Provide details of the Public Participation Process in accordance with the South African legislation; and
- Invite all I&APs to register as stakeholders, provide comment, raise issues or concerns, and provide suggestions for the enhanced benefit of the Project.

TO REGISTER AND FOR MORE INFORMATION PLEASE USE THE FOLLOWING CONTACT INFORMATION

PROJECT DESCRIPTION

Sasol Mining (Pty) Ltd (hereinafter Sasol Mining), is the holder of a mining right for coal with Department of Mineral Resources (DMR) reference number MP 30/5/1/2/2/138 MR (known as the Secunda Complex) over various farms and collieries, which include the

Twistdraai Colliery where mining activities have ceased and rehabilitation is being attended to

Sasol Mining currently operates six coal mines that supply feedstock (coal) for their Secunda (Sasol Synfuels) and Sasolburg (Sasolburg Operations) complexes in South Africa.

As part of daily management of the different shaft areas, the Secunda Complex has been subdivided, with each of the shaft areas having its own separate Environmental Management Programme (EMPR). The Twistdraai Colliery's EMPR with DMR reference number: MP 30/5/1/2/3/2/1(138) EM was amended and submitted to the DMR in 2010. The DMR approved the EMPR amendment on 29 February 2012.

The Twistdraai Colliery is made up of three separate shafts namely:

- Twistdraai West Shaft;
- Twistdraai East Shaft; and
- Twistdraai Central Shaft.

Of these three shafts two (namely Central and West Shaft) have been decommissioned, partially rehabilitated or renovated for alternative purposes. The Twistdraai East shaft is the last shaft to be decommissioned with most of the infrastructure already being decommissioned. The decommissioning of the infrastructure located at all of these shafts was undertaken in accordance with its approved Amended EMPR, approved in 2012 (Ref No. MP 30/5/1/2/3/2/1(138) EM).

This application relates specifically to the decommissioning activities (access road, conveyor belt servitude and quarry) to be undertaken at Twistdraai East Shaft which triggers listing activities under the Environmental Impact Assessment (EIA) Regulation 2014 (as amended) Government Notice No. R982 of 4 December 2014 as amended by Government Notice No. 326 of 7 April 2017) referred to now as the EIA Regulations, 2014 (as amended) and therefore

requires both an Environmental Authorisation in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) and a General Authorisation in accordance with the National Water Act, 1998 (Act No. 36 of 1998) (NWA).

The following activities are to be undertaken which require environmental authorisation:

- Decommissioning and rehabilitation of an access road and associated culverts which was constructed between Mynpad Road and the Twistdraai East Shaft which permits access to the Shaft;
- Decommissioning and rehabilitation of the conveyer belt servitude including access road, water supply pipeline and culverts which was previously utilised to transport coal from Twistdraai Colliery to Twistdraai Export Plant; and
- Infilling and rehabilitation of a quarry located near the conveyer belt servitude.

The proposed project is a decommissioning and rehabilitation project with the aim to ensure all mining infrastructure is removed with minimal impact to the surrounding environment and ensure the area is rehabilitated. Thereby reducing the impact to the environment caused by previous mining activities. The proposed project aims to have an overall positive impact on the surrounding environment.

PROJECT LOCATION

The project activities subject to this application are being undertaken at the Twistdraai East Shaft. The project is located approximately 15 km east of Secunda, within Govan Mbeki Local Municipality (GMLM) in the Gert Sibande District Municipality (GSDM) of the Mpumalanga Province.

ENVIRONMENTAL AUTHORISATIONS

Digby Wells Environmental has been appointed by Sasol Mining to undertake a Basic Assessment (BA) process to decommission the above mentioned activities

To undertake the decommissioning activities Listing Notice 1 Activity 19 – “*The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse*”, will be triggered.

Activities identified as water uses in terms of Section 21 of the NWA may not be undertaken without a Water Use Licence (WUL) or General Authorisation.

The following Section 21 Water Uses will be triggered from the project:

- Section 21(c): impeding or diverting the flow of water in a watercourse;
- Section 21(i): altering the bed, banks, course or characteristics of a watercourse.

PUBLIC PARTICIPATION PROCESS

Stakeholders affected or interested in the proposed project are invited to register as an I&AP in order to become involved in the Public Participation Process (PPP)

Registered I&APs will be informed about availability of reports via their preferred means of communication (SMS, email, post or fax).

Contributions from stakeholders will assist in informed decision-making for authorities and provides information to be considered by the project team and specialists conducting the specialist studies. All comments can be submitted using the contact details which appear on the cover page or as part of the Comment and Registration Sheet.

The Draft Basic Assessment Report will be available for public comment from **Wednesday 24 July 2019 to Friday 23 August 2019** at the following places

REGISTRATION AND COMMENT FORM

July 2019

Registered Interested and Affected Parties (I&APs) will be informed of ongoing developments via their preferred means of communication (SMS, email, post or fax). The draft Scoping Report for comment is available between **Wednesday 24 July 2019 to Friday 23 August 2019** on www.digbywells.com (under Public Documents) and various public places, as per the announcement letter. Comments raised by stakeholders will assist in informed decision-making for authorities and provides information to be considered by the project team and specialists conducting the Environmental Assessment process. Please register as an Interested and Affected Party (I&AP) and provide comments by sending this form, or other written correspondence, to the contact details provided below:

Environmental Impact Assessment Regulations of 2014, promulgated in terms of the National Environmental Management Act, as amended, Section 44 (1) requires that we *gather comments* from I&APs. Please complete the questions below. Should you require assistance in completing these questions please contact the Stakeholder Engagement Office at contact information provided above.

How do you think the project might impact (affect) you?
How do you think the project might impact (affect) your socio-economic conditions? (e.g. livelihoods, farm, business, household)
How can these impacts be managed, avoided and / or fixed?

If you are a landowner or occupier, what is your land currently being used for?
Are there any environmental, social or heritage features on the proposed project area we need to be aware of?
Where are these found?
Do you think the project could impact (affect) infrastructure you might have? (e.g. houses, buildings, roads)
If so how can these impacts (affects) be managed, avoided or fixed?

General Comments

If there are any other stakeholders we should include onto the stakeholder database for the proposed project, please provide their contact details.

ENVIRONMENTAL REGULATORY PROCESS TO OBTAIN AN ENVIRONMENTAL AUTHORISATION FOR THE DECOMMISSIONING AND REHABILITATION OF TWISTDRAAI ROAD, A CONVEYOR BELT AND QUARRY AT TWISTDRAAI COLLIERY, MPUMALANGA PROVINCE

Introduction

Sasol Mining (Pty) Ltd (hereinafter Sasol Mining), is the holder of a mining right for coal with Department of Mineral Resources (DMR) reference number MP 30/5/1/2/2/138 MR (known as the Secunda Complex) over various farms and collieries, which include the Twistdraai Colliery where mining activities have ceased and rehabilitation is being attended to.

Digby Wells Environmental has been appointed by Sasol Mining to undertake an Environmental Authorisation Application process at the Twistdraai Colliery East Shaft to obtain the required authorisation for the following activities:

- The decommissioning and rehabilitation of an access road and associated culverts which was constructed between Mynpad Road and the Twistdraai East Shaft which permits access to the Shaft;
- The decommissioning and rehabilitation of the conveyer belt servitude including the adjacent access road, water supply pipeline and culverts which was previously utilised as supporting infrastructure to convey coal from Twistdraai Colliery to Twistdraai Export Plant; and
- Backfilling and rehabilitation of a quarry located near the conveyer belt servitude.

The decommissioning of the aforementioned infrastructure at Twistdraai triggers Listed Activities in terms of the Environmental Impact Assessment (EIA) Regulation 2014 (as amended) Government Notice No. R982 of 4 December 2014 as amended by Government Notice No. 326 of 7 April 2017) referred to now as the EIA Regulations, 2014 (as amended) promulgated under the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), therefore, a Basic Assessment (BA) process must be followed to obtain the required Environmental Authorisation.

Project Location

The project site is located approximately 15 km east of Secunda, within Govan Mbeki Local Municipality in the Gert Sibande District Municipality of the Mpumalanga Province.

Public Participation

Stakeholders affected by or interested in the Environmental Authorisation required for the Project are invited to register as an Interested and Affected Party to become involved in the consultation process. Comments and or questions can be addressed to the Digby Wells Stakeholder Engagement Office using the information as provided below. The draft Basic Assessment will be available for public comment for 30 days on the Digby Wells website from the **Wednesday 24 July 2019 – Friday 23 August 2019** and at Public Libraries indicated in the table below.

Venue	Address	Contact Person	Contact Number
Secunda Public Library	Lauren Muller Street, Secunda 2302	Mr Sekwane	017 620 6183
