Noordjies vat die pad see toe met lekker skaterlagkonsert

Riana Joubert

POLOKWANE - Die jongspan van Noordjieland het hulself behoorlik voorberei vir die stranduitstappie wat groot genot verskaf het tydens die jaarlikse konsert.

Eerste aan die beurt was die *Monkey Class* onder leiding van Cornell Brink wat met danspassies en sang saam met die res van die kleuterskool die liedjies My Emmertjie Loop Oor en Dis So Lekker Om Die Here Te Dien vertolk het.

Die Leeutjieklas onder leiding van juffrou Noelien Jordaan het die liedjie Dit is Weer Vakansietyd saam met die res van die kleuterskool uitgebeeld met dans en sang terwyl die *Turtle Class* onder leiding van Marene van de Venter die jonges laat aantrek het vir hul vertoning van *Itsy Bitsy Teeny Weenie Yellow Polka Dot Bikini*.

Die seuns van die klas het prettig ritme gehou terwyl die meisies die dansvloer gekielie het.

Die *Butterfly Class* onder leiding van Magdel Lee het Come On *Let's Twist Again* weer nuwe lewe laat kry.

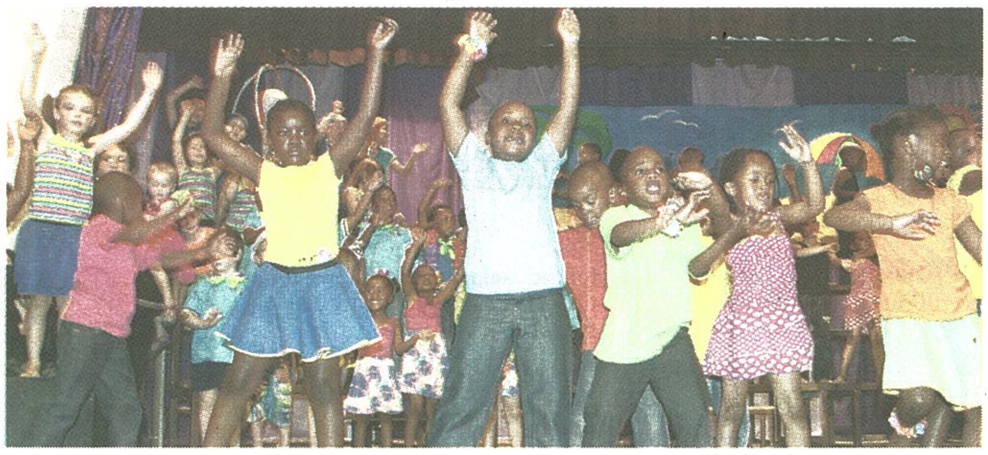
Liedjies soos Hoeka Toeka, *I'm Too Sexy For My Shirt, Timothy* en *Lollipop* was ook flink en vlytig uitgebeeld met sang en speelse dans deur die *Dolphin, Bear* en *Flower*-klasse onder leiding van Minette Riekert, Annatjie Knel en Bertilda Bouwer.

Die aand is in 'n rustige luim afgesluit met die liedjie *Dream a Little Dream of Me*.

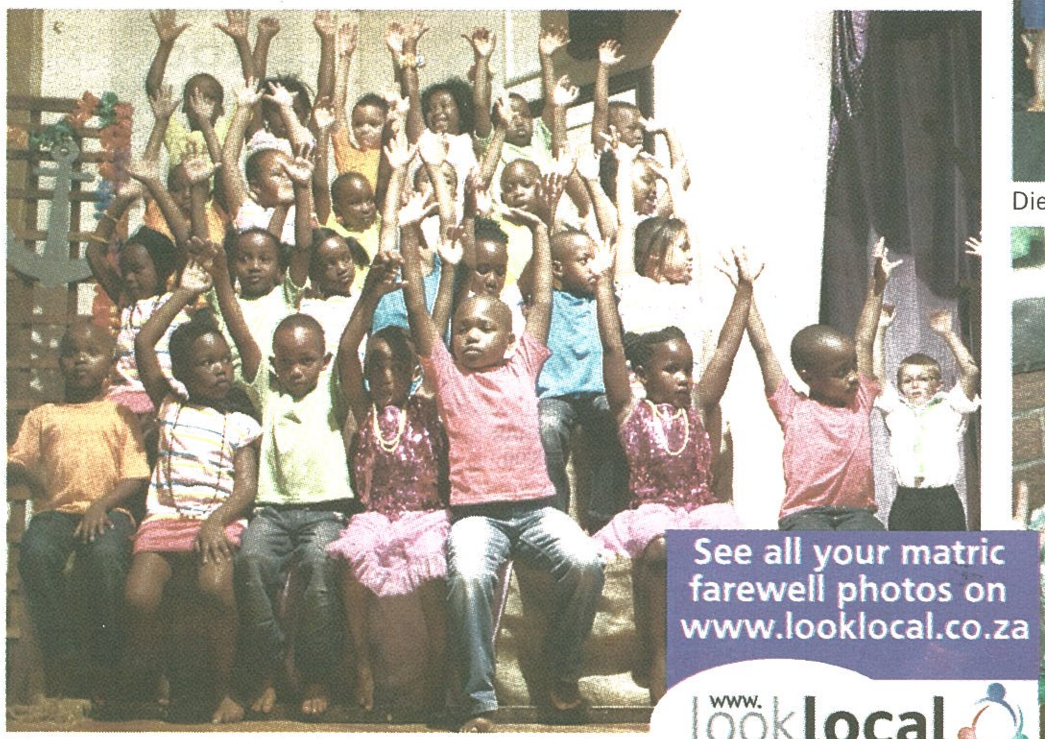
Volgens ouers en onderwysers was die aand 'n groot sukses en word daar baie opgewonde uitgesien na volgende jaar se vertoning.

Fluit-Fluit is hul storie uit, tot volgende jaar...

Dis So Lekker Om Die Here Te Dien, sing dié spannetjie.



Die seevakansie is verby en dis tyd om te groet.



Dis somer en almal is baie opgewonde vir die seevakansie wat voorlê.

Met die vlinders in die maag wat so 'n bietjie rondvladder kry die jongspan 'n kans om 'n glimlaggie en 'n vriendelike waai van die hande in te kry.

PROPOSED PHOTOVOLTAIC (PV) ALLDAYS SOLAR FACILITY PHOTOVOLTAIC (PV)/ CONCENTRATED PHOTOVOLTAIC (CPV) SOLAR ENERGY FACILITY PHASE 1 (75MW), LIMPOPO PROVINCE
DEA REF NO: 14/12/16/3/3/2/329

PREVIOUSLY KNOWN AS VENETIA SOLAR FACILITY PHOTOVOLTAIC (PV)/ CONCENTRATED PHOTOVOLTAIC (CPV) SOLAR ENERGY FACILITY PHASE 1 (75MW), LIMPOPO PROVINCE

Project Name: Alldays PV/CPV Plant Phase 1 - Up to 75 MW
Applicant: BioTherm Energy (Pty) Ltd
Location: The project is proposed on the Farm Gotha 102 M, Musina Local Municipality.
Proposed Activity: BioTherm Energy (Pty) Ltd is proposing to establish commercial photovoltaic solar energy facilities (utilising either photovoltaic (PV) or concentrated photovoltaic (CPV) technology) on a site near Musina, Limpopo Province.

The facility would include the following infrastructure:
- Photovoltaic (PV) or Concentrated Photovoltaic (CPV) panels with an export capacity of up to 75 MW. Panels are proposed to be up to 20m in height (should CPV technology be utilised).
- A new on-site substation to evacuate the power from the facility into the Eskom grid via the Venetia Substation located adjacent to the proposed development site. The alternative would be to connect directly to the existing Transmission line which runs along the north eastern boundary of the site.
- Mounting structure to be either rammed steel piles or piles with pre-manufactured concrete footings to support the PV/CPV panels.
- Cabling between the project components, to be lain underground where practical.
- Internal access roads and fencing.
- Workshop area for maintenance, storage, and offices

Public Feedback Meeting: All interested and affected parties are invited to attend a public meeting to be held as follows:
- Date: 15 November 2012
- Time: 17:00 - 18.30
- Venue: Abend Ruhe Gotha Guest Lodge

Akademie Reformia gee vir Borg 'n Bybel

Maretha Swanepoel

POLOKWANE - Die gr. 4's van Akademie Reformia het gedurende die jaar verskeie klasverkopings, entrepreneursdae en geldinsamelingsgeleenthede gehou - alles natuurlik vir 'n goeie doel.

"Hulle het dikwels vir my gevra of ek hier 'n sjokolade of daar 'n koekie wil koop," glimlag die skoolhoof Marietha Nel. Die klas het besluit om die opbrengs van hul insamelings aan Projek: Borg 'n Bybel te skenk.

"Hierdie geld word gebruik om Bybels te druk wat dan deur Bybelverspreiding versprei word," vertel die klas se registerjuffrou Lana Steyn.

Om een Bybel te druk kos R52.

Die leerders is hartlik bedank deur ds. Murray Louw, hoofuitvoerendebeampte van die Suid-Afrikaanse Aksie vir Wêreldevangelisasie wat die geld in ontvangs geneem het.

"Dit is regtig wonderlik dat leerders van so 'n jong ouderdom reeds teruggee van dit wat hulle ontvang," het hy gesê.

Die gr. 4's van Akademie Reformia het geld ingesamel en dit aan Projek: Skenk 'n Bybel geborg. Van voor is Stephani Esterhuizen, Miemie Saaiman, Milayla Swanepoel, Sulize Loots, Zanica Ferns, Reinhardt de Beer, Michael Booysen, Janko Enslin en Marthinus Grimbeek. In die middel is Dominique Basson, Michelle Fox, Suné van der Hoff, Jané van der Hoff, Anell Bezuidenhout, Marileen Hoogendyk, Lumari van der Merwe, Casper Badenhorst, Johan du Plessis, GD van Eeden, Arzëlle Venter, Gerhard van Aswegen, Dean Jardim en Buksie Swart. Agter staan Lana Steyn, gr. 4 onderwyseres. Marietha Nel, skoolhoof, Hennie Dekker, Hester Dekker en ds. Murray Louw, die hoofuitvoerendebeampte van die Suid-Afrikaanse Aksie vir Wêreldevangelisasie.

Krieketspelers van Laerskool Louis Trichardt ontvang trofeë tydens die skool se senior-fase prysuitdeling op 23 Oktober. Voor, van links na regs, is DJ du Preez (krieketspeler van die jaar), Richard Lambert (bouler van die jaar), Dewald Stroebel (kolwer van die jaar), Allie Sefole (beste veldwerker) en Christiaan Waldeck (beste krieketspeler: tweedespan). Agter is Rickus Nel (beste O/11-krieketspeler), LJ Fick (beste O/10-krieketspeler), David Stolz (beste vordering: eerstespan), Vele Mulaudzi (beste vordering: tweedespan), Gerhard Grobler (beste vordering: O/11) en Franco Knoetze (beste vordering: O/10).

Tennisspelers van Laerskool Louis Trichardt ontvang trofeë tydens die skool se senior-fase prysuitdeling op 23 Oktober. Voor, van links na regs, is Dewald Stroebel (beste senior tennisspeler: seuns) en Minelise Reynders (beste senior tennisspeler: meisies). Agter is Marcelle Oberholzer (beste beginner-tennisspeler: meisies), Stefan Corbett (beste beginner-tennisspeler: seuns), Alida du Preez (beste vordering in tennis: meisies) en LJ Fick (beste vordering in tennis: seuns).

Sokkertrofeë is oorhandig tydens Laerskool Louis Trichardt se senior-fase prysuitdeling op 23 Oktober. Van links na regs is Lorraine Mandobe, beste meisiesokkerspeler, Justice Chirandu, beste sokkerspeler in die A-span, en Christiaan Waldeck, beste sokkerspeler in die B-span.

Hokkietrofeë is toegeken tydens Laerskool Louis Trichardt se senior-fase prysuitdeling op 23 Oktober. Voor, van links na regs, is Chantal Scott (beste hokkiespeler: eerstespan meisies) en André Viljoen (beste hokkiespeler: eerstespan seuns). Agter is Richard Lambert (beste opkomende hokkiespeler: eerstespan), Tiaan König (beste vordering: eerstespan seuns) en Karla Maré (beste vordering: eerstespan meisies).

VOORGESTELDE FOTOVOLTAÏESE (FV) ALLDAYS SONKRAGAANLEGFOTOVOLTAÏESE (FV)/KONSENTRERENDE FOTOVOLTAÏESE (KFV) SONKRAGAANLEG – FASE 1 (75 MW), LIMPOPO-PROVINSIE

DO VERWYSINGSNOMMER: 14/12/16/3/3/2/329

VOORHEEN BEKEND AS VENETIA FOTOVOLTAÏESE (FV) SONKRAGAANLEG/ KONSENTRERENDE FOTOVOLTAÏESE (KFV) SONKRAGAANLEG – FASE 1 (75 MW), LIMPOPO-PROVINSIE

Projeknaam: FV/KFV Aanleg Fase 1 – Tot 75 MW
Applikant: BioTherm Energy (Edms.) Bpk.
Ligging: Die projek word voorgestel op die plaas Gotha 102 M, Musina Plaaslike Munisipaliteit.

Voorgestelde akitiwiteit: Biotherm Energy (Edms.) Bpk. stel die oprigting van 'n kommersiële fotovoltaïese sonkragaanleg voor (wat hetsy van fotovoltaïese (FV) of konsentrerende fotovoltaïese (KFV) tegnologie gebruik sal maak) op 'n terrein naby Musina, Limpopo-provinsie.

Die aanleg sal die volgende infrastruktuur insluit:

- Fotovoltaïese (FV) of Konsentrerende Fotovoltaïese (KFV) panele met 'n uitvoervermoë van tot 75 MW. Die voorstel is dat die panele tot 20 m hoog sal wees (sou KFV tegnologie gebruik word).
- 'n Nuwe substasie op die terrein om die krag van die aanleg af na Eskom se kragrooster te evakueer via die Venetia Substasie wat langs die voorgestelde ontwikkelingsterrein geleë is. Die alternatief sou wees om direk by die bestaande Transmissielyn in te skakel wat met die noordoostelike grens van die terrein langs loop.
- Monteerstrukture van hetsy vasgestampte staalsuile of suile met voorafvervaardigde betonfondamente om die FV/KFV panele te dra.
- Kabels tussen die projekkomponente, ondergronds gelê waar prakties moontlik.
- Interne toegangspaaie en 'n heining.
- 'n Werkswinkelgebied vir instandhouding, berging en kantore.

Openbare Terugvoervergadering: Alle belangstellende en geaffekteerde partye word uitgenooi om die volgende openbare vergadering by te woon:

- Datum: 15 November 2012
- Tyd: 17:00 – 18.30pm
- Plek: Abend Ruhe Gotha Guest Lodge (Gastehuis)

Please address any comments to Shawn Johnston at the above address.

EIA PROCESS PUBLIC MEETING:
PROPOSED ALLDAYS SOLAR ENERGY FACILITY

Venue: Gotha Lodge
Date: Thursday, 15 November 2012
Time: 18h30 – 19h30

MEETING ATTENDEES

Name	Organisation & Position
Shawn Johnston	Sustainable Futures ZA- Public Participation Specialist
Umeshree Naicker	Savannah Environmental
Marc Wright	Bio Therm Energy
Marli Nel	Abend-Rune Gotha Guest House
Nelia Erasmus	Gotha Boy
Johan Erasmus	Gotha Boy
Frikkie van Heerden	Alldays Farmers Association

APOLOGIES

Apologies were received from Martie C.C. Heinlein and Hannie Nel.

BACKGROUND & TECHNICAL ASPECTS REGARDING THE PROPOSED PROJECT

Umeshree Naicker presented the findings of the draft environmental impact assessment report to the stakeholders present.

DISCUSSION SESSION

Question / Comment	Response
Johan Erasmus: Thank you for the input and the clarity that there are no fatal flaws on this project. We support the project.	Shawn Johnston: Comment noted.
Johan Erasmus: Please make sure that BioTherm Energy follow-up with the landowners about the final design and	Marc Wright: Comment noted.

Question / Comment	Response
layout of the project.	
Johan Erasmus: Please make sure you make use down lights which are not bright as it will attract millions of insects. You can consult with the landowners.	Marc Wright: Comment noted.
Johan Erasmus: Be aware of the large number of snakes in the area for the construction and operational phases.	Marc Wright: Comment noted.
Johan Erasmus: We suggest you remove and keep grass short by mechanical means. Please do not use pesticides as it will affect the environmental and kill all the big trees in the area.	Marc Wright: Comment noted.
Johan Erasmus: Were will your entrance to the site be?	Marc Wright: We will utilise existing roads and upgrade it to a very good state.
Johan Erasmus: Would it be possible for BioTherm Energy to provide the surrounding farmers with a solar power unit that could take them off the grid. A solar power unit that farmers can purchase to make them independent from Eskom.	Marc Wright: I can only note your request at this point.
Frikkie van Heerden: As stated during the scoping phase, the Alldays farmers would like to know how this project would benefit all the surrounding farmers. Can BioTherm support the surrounding farmers through the Alldays Fire Protection Association, the Alldays Water User Association. We need assistance with equipment to maintain safety and security in the area and to fight wild fires. All of our concerns and request were raised in the scoping phase focus group meetings and public meeting.	Marc Wright: I note your comments for the record.

WAY FORWARD AND CLOSURE

Shawn Johnston thanked all for attending the public meeting and undertook to keep all registered interested and affeted parties informed of the outcome of the environmental impact assessment processes.

The meeting closed at 19h30.
