

PLATREEF RESOURCES FOCUS GROUP MEETING - MEETING MINUTES
FOR
ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED PLATREEF UNDERGROUND
MINE PROJECT, NEAR MOKOPANE IN THE LIMPOPO PROVINCE

Project No: PLA1677

Date: 28 November 2013

1 PRESENT:

The civic organisations were represented at the meeting. Attendance registers are attached to these minutes (Appendix A)

Table 1: Project Team

Jacob Motswaledi	Platreef	General Manager Sustainability
Charles Phahlane	Platreef	Communications and Public Affairs Manager
Barbara Wessels	Digby Wells	Project Manager
Steve Horak	Digby Wells	Public Participation
Liza Ralele	Digby Wells	Public Participation
Zanda Jakavula	Digby Wells	Public participation
Patricia Makhesha	Barnstone	Stakeholder Engagement
Werner Botha	Barnstone	Stakeholder Engagement Alignment
Erika Du Plessis	Golder & Associates	Public Participation
Moses Mathebula	Golder & Associates	Public Participation
Thys De Beer	DRA	Lead Project Engineer

2 MEETING PROCEDURE

2.1 Welcome and Introductions

10:30 – 10:40 Steve Horak

Everyone was welcomed and thanked for the opportunity provided. The project team was introduced and it was highlighted that Digby Wells will be presenting the ESIA process as the appointed independent Environmental Assessment Practitioner (EAP).

2.2 Meeting Presentation

10:40 – 11:50 Steve Horak, – Digby Wells (Presenter)

Digby Wells and Associates (South Africa) (Pty) Ltd (Subsidiary of Digby Wells & Associates (Pty) Ltd). Co. Reg. No. 2010/008577/07. Fern Isle, Section 10, 359 Pretoria Ave Randburg Private Bag X10046, Randburg, 2125, South Africa
Tel: +27 11 789 9495, Fax: +27 11 789 9498, info@digbywells.com, www.digbywells.com

Directors: A Sing*, AR Wilke, LF Koestag, PD Tanner (British)*, AJ Reynolds (Chairman) (British)*, J Leaver*, GE Trusler (C.E.O)
*Non-Executive

11:50 – 13:30

Steve Horak – Digby Wells (Facilitator)

Moses Mathebula – Golder & Associates (Translator)

See Appendix B for the presentation that was used during the meeting.

3 COMMENTS RAISED

Comments raised by stakeholders during the meeting and responses provided are included as part of Table 2.

Table 2: Stakeholder Comments

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Lesego Kgopule	Mogalakwena Community Forum	Why is bulk sampling not shown on the Platinum Mining Process (slide 3)?	Bulk sampling forms part of prospecting.
Mr Lesego Kgopule	Mogalakwena Community Forum	Have the bulk sampling activities commenced?	Bulk sampling forms part of the prospecting stage of the process, activities have commenced with the construction of the wall around the shaft area.
Mr Isaac Nyoni	Mogalakwena Community Forum	The information on the studies undertaken by Digby Wells is appreciated, the environmental findings are impressive but the social aspect is not addressed satisfactory. A school programme must be initiated to educate and prepare the children to work at the mine one day.	There is a plan to roll out awareness campaigns, a consultant has been appointed to undertake this process. Educational programmes are also being developed.
Mr Madimetja Pale	Mogalakwena Community Forum	It was mentioned that additional road signs will be placed to mitigate the expected increase in traffic, the various mining houses should work together to upgrade the route since the N11 is already a very dangerous road.	Platreef is engaging with SANRAL. SANRAL plans to upgrade the N11 and Platreef will be building new turn offs to the project site. These upgrades will also service the communities. Platreef is also looking at the possible upgrade of the Turfspruit road. If these plans are successful then most of the traffic related

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
			to the proposed mine will be directed along the Turfspruit route. Platreef acknowledges that the N11 is a dangerous route.
Mr Madimetja Pale	Mogalakwena Community Forum	What has been done to date in terms of skills development?	The mine will be highly mechanised, people will be trained to operate and maintain the machinery. Training will commence before mining takes place. Aveng is one of the companies that have been contracted for the construction of the shaft and Platreef has requested Aveng to employ from the local community and the local community will need to be trained.
Mr Madimetja Pale	Mogalakwena Community Forum	It was mentioned that Platreef has no resettlement plan, but if there is any possibility that people will be relocated Platreef must indicate this now not when the damage is already done.	Prospecting began in Madiba and Tshamahansi, the plan then was for an open cast mine but after the studies were conducted, Platreef decided on an underground mine. There are people who recently moved into the mining area so that they would be relocated and compensated by Platreef. Engagements will take place with these people occupying the mining area.
Mr Madimetja Pale	Mogalakwena Community Forum	All people from the affected villages should get an opportunity to work. How does the Mining Charter and the law define Affected Parties?	Preference will be given to the people in the directly affected communities during the recruitment process. Platreef identified 8 affected communities but 9 other communities have also indicated that they

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
			are also affected. When mining commences, Platreef will look into how the additional 9 communities can also benefit from the project.
Mr Jacob Mashala		Does the Public Participation Process solve problems faced by communities or is it just an information session?	The PPP is a legal requirement forming part of the licensing process. All comments and issues raised to date have been compiled into a single report, the Comments and Response Report. This report is submitted to the authorities for them to consider the inputs from the I&APs during the decision making process. The government is responsible for making a final decision in terms of the licenses and they must read the report and take the issues into consideration.
Ms Docky Mashitisho	Mzombane	Children from Mzombane walk to school in Tshamahansi and cross the N11 which is very dangerous. The safety of the children is a concern.	A recommendation to SANRAL can be made to include walkways as part of the N11 upgrade. The recommendations will be made at a director level.
Mr Percy Nketsi	Mogalakwena	What does the mining charter say about affected communities?	According to the SLP and the mining charter affected communities must receive preferential treatment. The radius for affected communities is 50km.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Lesiba Kgonyane	Mogalakwena Community Forum	The B-BBEE should be amended to cover the 50km radius.	The Social and Labour Plan makes provision for the 50km radius.
Mr Jacob Motswaledi	Platreef General Manger Sustainability	Later clarified that the mining charter and SLP do not in fact specify 50km.	Comment noted
Mr Lesiba Kgonyane	Mogalakwena Community Forum	What will happen to the indigenous plants and animals found on the site? How will this be managed and how will the children get to know these plants and animals if they are destroyed?	If there are any indigenous plants that need to be removed then special permits will be applied for from the relevant authorities. The medical plants were identified with a traditional healer from the community.
Mr Lesiba Kgonyane	Mogalakwena Community Forum	Where will the waste be dumped?	<p>There are 2 proposed dump sites. The waste rock berm to be situated on the outside of the mining area. The berm will shield people from the mine. A Landfill site will be constructed for the domestic waste and has a life span of approximately 35 years.</p> <p>There is also a tailings waste dam called a tailings storage facility (TSF), this is the waste from the plant. The waste is very fine. Four sites were investigated for the waste of which two are fatally flawed. The Rietfontein and Bultongfontein sites are being investigated further. The studies will inform of the final decision of which site or</p>

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
			sites to use.
Mr Jonas Makhubela	Monoplane Interested and Affected Community Development Forum (MIACDF)	Platreef must provide proof that payment was made for the fields because families are fighting.	Platreef made the last payment in October, 317 people were paid an amount of R5,250 each. The department of Land Reform and Rural Development will have a meeting with all the affected communities and the resolution will be conveyed to the minister.
Mr Jonas Makhubela	MIACDF	Drilling is taking place in Tshamahansi but nobody has been compensated.	Comment noted this will be investigated.
Mr Jonas Makhubela	MIACDF	A tailing dam is very dangerous, if it fails lives will be in danger yet there is no relocation plan.	Comment noted.
Mr Jonas Makhubela	MIACDF	It is unclear on the map where the stock piles and tailing dams will be located.	Please remain after the meeting so that this can be explained on the maps available.
Mr Robert Mogatle	MIACC	Who will be hiring the 2500 people? The people do not know where to obtain information for employment.	There will be a number of contractors who will be hiring people. People will be informed of the recruitment process.
Mr Lesiba Lamola	Kgobudi Community Forum	There are private meetings being held with farmers, these meetings should be held publicly.	Comment noted.
Mr Lesiba Lamola	Kgobudi Community Forum	There are local economic development plans but only a few will	Comment noted

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		benefit, Platreef must ensure that all affected parties benefit equally.	
Mr Lesiba Lamola	Kgobudi Community Forum	Please inspect the water being consumed by the people to ensure that it is not contaminated.	Comment noted, there is a monitoring programme in place which monitors water quality.
