3 COMMENTS RAISED

Comments raised by stakeholders during the meeting and responses provided are included in Table 2.

**Table 2: Stakeholder Comments**

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Oseng Kopole	Masehlaneng Development Committee	The community activists who were against mining activities by Platreef have now been employed by Platreef. Is this a way of silencing them?	There were people who disrupted the community meeting which was held on 17 November 2013. If these people were to seek employment from Platreef, their applications would go through a fair recruitment process with no discrimination, the same applies to the community activists.
Mr Oseng Kopole	Masehlaneng Development Committee	Will Platreef employ people who do not have Grade 12 certificates and can you specify what the additional jobs mentioned in the presentation are?	The mine will be highly mechanised, therefore it is necessary to set the minimum employment requirement of Grade 12, but subcontractors will employ unskilled people and there are projects on the Uitloop farm where people who are not in possession of a Grade 12 certificate will be employed.
Mr Oseng Kopole	Masehlaneng Development Committee	It was mentioned that communities were consulted for the Social and Labour Plan (SLP), can Platreef provide proof of this?	The Mining Charter stipulates how the plan should be compiled. The municipality develops an Integrated Development Plan (IDP), this plan is incorporated into the Social and Labour Plan (SLP) to establish what needs to be done in the community.
Mr Matsemela	Masehlaneng	Who did Platreef speak to before coming to the community?	The Department of Mineral Resources (DMR) requirement is that all affected parties be consulted and that the meetings be held in neutral places, section 93 states that the meetings should be held with affected communities therefore no meetings will be held in secret or with certain individuals.
Mr John Magongoa	Magongoa	The people do not object to the mining activities, all that they want is surface lease agreements in writing stating what Platreef is binding themselves to.	The Department of Land Reform and Rural Development will oversee all consultations regarding the surface lease agreements this will be an open and transparent process.
Mr John Magongoa	Magongoa	The mine should train young people from	Platreef will have training centres where young

		the affected communities to operate the machinery that will be used.	people will be trained.
Mr Seli Maleka	Ga -Madiba	Will there be jobs for those who furthered their studies after Grade 12?	Yes.
Mr Seli Maleka	Ga - Madiba	Platreef is dishonest, the people were told that the Mokopane mine will be the same as the Rustenburg mines, but that does not seem to be the case.	The mine belt in Mokopane will be much bigger than the one in Rustenburg but the mine will operate in the same fashion as the mines in Rustenburg because they are both platinum mines.
Mr Kekana		Why did Digby Wells conduct studies on agricultural land when prospecting should be done on industrial land?	Prospecting can be undertaken on agricultural land one does not need to do a rezoning during prospecting.
Mr Kekana		The lowering of the water table will impact on ground water, is there a mitigation plan?	The shaft will be sealed off so that no water leaves or enters the shaft there should be no impact on ground water.
Mr Kekana		The IDP does not have a procurement or HR department, the Social and Labour Plan is Platreef's responsibility.	This is correct the SLP has a section dealing with both HR development and procurement.
Mr Kekana		What the people want is for Platreef to bring along written agreements to these meetings.	Thank you, comment noted
Mr Kekana		Why is Platreef not talking about beneficiation?	At this stage the concentrate will be sold to a smelter for beneficiation.
Mr Tshepo Maponya	Sekgagapeng	The money that should be received by communities has gone to the chief that is why he is not in the meeting.	Comment noted.
Mr Tshepo Maponya	Sekgagapeng	As the panel upfront consists of white people, it will not be any different when Platreef recruits for employment, white people will get the jobs because Platreef has Japanese shareholders to please.	Comment noted.
Mr Tshepo Maponya	Sekgagapeng	The black people working for Platreef are serving their own interests instead of ensuring that their people benefit and are treated justly.	Comment noted

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Sello Khoza	Tshamahansi	Will there be any resettlement of the people of Magongoa or mining will take place while they are still there?	Resettlement was discussed and it was concluded that there will not be resettlement because the mine will be an underground mine. The surface infrastructure will not be affected by underground mining but there will be engagements with the people of Magongoa to discuss lease agreements.
Ms Mangaleka		What criteria is used to appoint subcontractors because since these meetings began, Platreef has been using the same catering company?	People were informed in previous meetings about the procurement system in place where companies can submit their documents and be added to the procurement database.
Mr Bushy Ledwaba	Moshate	Platreef must not decide what the affected communities need. Communities should tell Platreef what they need and Platreef should not obtain this information from individuals but from the entire community because individuals seek to serve their own interests.	Noted
Mr Frans Mphele	Masesetjane	Platreef sent out people to shoot community members.	This allegation should be substantiated as this is a serious allegation.
Mr France Makhafola	Masehlaneng Development Committee	The affected communities want an agreement that will serve both the interests of the community and Platreef.	Comment noted.
Mr France Makhafola	Masehlaneng Development Committee	There are bulk sampling activities taking place without permission from the community, communities will apply for a court interdict to stop the mining activities, it is the only way to solve this problem.	Thank you, Comment noted.
Ms Elizabeth Ngobeni	Tshamahansi	The Nduna and the Chief are in those positions because of the people their duty is to serve and protect the people.	Thank you, comment noted.
Ms Elizabeth Ngobeni	Tshamahansi	Platreef will not talk about resettlement until the houses start cracking.	Comment noted.
Ms Elizabeth Ngobeni	Tshamahansi	When will training start and will Platreef educate the people about mining?	The training will start if the mining right is awarded and training will be focused on mining.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Ms Elizabeth Ngobeni	Tshamahansi	Platreef should not hold separate meetings for Tshamahansi and Mokopane because these villages belong to one chief.	Noted
Mr Frans Makhafola	Masesetjane	The community will not benefit from the mining activities and these activities must be stopped before it is too late, all those who are against the mining activities should leave this meeting now and sign a petition that will be taken to court so that these activities do not commence.	Noted
Mr William Matlu	Mahwelereng	Platreef should also employ the disabled so that they are empowered as well.	Noted
