

**PLATREEF RESOURCES MAGONGOUA PUBLIC MEETING - MEETING MINUTES**

**FOR**

**ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED PLATREEF UNDERGROUND MINE PROJECT, NEAR MOKOPANE IN THE LIMPOPO PROVINCE**

**Project No:** PLA1677

**Date:** 07 July 2013

**1 PRESENT:**

Community members from the following villages were represented at the meeting.

- Ga-Magongoa;
- Ga-Kgubudi;
- Madiba;
- Tshamahansi;
- Mzumbani (also known as 7 Miles);
- Masodi;
- Sekgoboko; and
- Masehlaneng.

The general public were also free to attend this meeting. Attendance registers are attached to these minutes Appendix A

**Table 1: Project Team**

<b>Jacob Motswale</b>	<b>Platreef</b>	<b>Public Relations Officer</b>
Barbara Wessels	Digby Wells	Project Manager
Grant Beringer	Digby Wells	Project Sponsor
Lerato Ratsoenyane	Digby Wells	Public Participation – Minute Taker
Reinhardt Weidemann	Golder Associates Africa	Ground Water Specialist
Oliver Bonstein	Golder Associates Africa	Surface Water Specialist
Praticia Makhesha	Barnstone	Facilitator
Carl Legodi	Barnstone	Facilitator

## 2 PRESENTATIONS

### 2.1 Welcome and Introductions

09:45 – 09:55 Mr Jacob Motswaledi

Everyone was welcomed and thanked for the opportunity provided. The project team was introduced and it was highlighted that Digby Wells will be presenting the ESIA process as the appointed independent Environmental Assessment Practitioner (EAP).

### 2.2 Meeting Proceedings

09:55 – 11:00 Ms Barbara Wessels – Digby Wells (Presenter)

11:00 – 16:00 Ms Patricia Makhesh – Barnstone (Facilitator)

Mr Carl Legosi – Barnstone (Translator)

12:45 – 13:45 Lunch

16:00 Meeting was closed

The presentation made at the meeting is attached as Appendix B

## 3 COMMENTS/ISSUES AND SUGGESTIONS

Comments raised by stakeholders during the meeting and responses provided are included as part of Table 2.

**Table 2: Stakeholder Issues and Comments**

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Jan Mokoena	Masodi	Will the mine be an underground mine? Concerned about the cracking of houses due to blasting activities, noise impacts from the mining activities and visual impacts.	The operation will be underground mining, approximately 1 km below the surface. There will be no noise or vibration impacts anticipated as a result of blasting from the underground mine activities. The supporting infrastructure such as the mining shaft head gear and moving of mine vehicles will be visible to the communities and may cause a visual impact in the area. An assessment to determine whether there are existing cracks in houses and the potential impacts of blasting will be undertaken. The communities are encouraged to communicate with mine management and report any house cracks if they occur due to mining activities.
Mr Jan Mokoena	Masodi	The impact on water quality in the area is a concern.	There will be continuous monitoring of water quality throughout the life of the mine. Changes to water quality will be assessed by a specialist and information will be made available to the communities.
Mr Nduma	Tshamahansi	This is not the first meeting that has been held for this project. Platreef walked out of one of the previous meetings without providing responses to communities. When will Platreef provide responses to the issues raised by communities? Digby Wells must distribute information in advance prior to public meetings. The majority of community members only heard half of the information presented as they do not	Approximately ten consultation meetings have been held to date. The last meeting was not conducted appropriately. There were people who disrupted the meeting and the mine employees had to withdraw from the meeting due to security concerns. Platreef is appreciative of the fact that today's meeting is more organised as everyone is participating and listening to the discussions. This meeting forms part of an independent

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		understand due to lack of information.	process facilitated by Digby Wells. The mine cannot be directly involved in environmental licensing processes as it needs to be an independent process.
Mr Nduma	Tshamahansi	The manner in which the presentation was conducted was not good since the projection screens are off. This affects old people who do not understand such proceedings.	The comment is noted
Mr Nduma	Tshamahansi	The presentation listed the main laws and regulations about the project. What other laws are applicable to this project and why were they not explained in detail? What is the reason that Digby Wells did not elaborate on other legislation? Could it be attributed to being evasive about certain information?	There is a team of lawyers entrusted to ensure that there is full compliance with all relevant legislation. The laws and regulations presented in Slide 16 are critical to the environmental processes. A complete list of all the laws and regulations applicable to this project is included in the Draft Scoping Report which is available for public review.
Mr Aubrey Langa	Masehlaneng	Were stakeholders informed of the information presented or were only a selected group informed of the information. Did Digby Wells take the initiative to consult with specialists who act on behalf of the community? The presentation was too technical. It is proposed that Digby Wells consult with respective community representatives who can then explain the technical information to the public to avoid the public from being confused and not being able to answer questions.	During the previous consultation meetings held, it was indicated that a separate meeting will be held at Tshamahansi. Letters were sent to the Chiefs and the Induna's prior to the meetings. A Tribal Community meeting was held last week to inform the leaders of the communities about the project as well as to provide the necessary documentation for distribution to the communities. A Key Stakeholder Forum meeting will also be held on 07 July 2013 to inform and engage with the community leadership about this project.
Mr Aubrey Langa	Masehlaneng	The presentation makes mention of the farm Rietfontein? How does this area fit into the project? If the farm is to be affected by the	The farm Rietfontein has been included as an alternative site for the Tailings Storage Facility. The Rietfontein community was consulted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		proposed project, were there any engagements or consultation with the communities?	
Mr Aubrey Langa	Masehlaneng	It was mentioned that the land belongs to the Government. It needs to be clarified as to who is in control of the land as the land belongs to the communities? The Government is the guardian of the land not the owner.	The comment is noted.
Mr Aubrey Langa	Masehlaneng	Skills development is of major concern. Issues pertaining to socio-economic development must be thoroughly addressed.	With regard to the skills development, Digby Wells developed a database of the skills and existing business in the Mokopane area. However, this was not completed. Industrial psychologists have been appointed in order to complete the process. This process will commence in September 2013. Platreef will establish an enterprise development program which will assist small businesses with finance and business skills.
Mr Aubrey Langa	Masehlaneng	It is estimated that approximately 2000 people will be employed at the mine. It is recommended that local people be trained and capacitated in order to operate the heavy duty machinery and physical manual labour which will be required by the mine. The communities should be trained to use the machines in order to qualify for job opportunities at the mine. This training must be implemented soon, prior to the mine commencing.	Thank you, your comment has been noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Thabo	Mapela	Mr Thabo was not allowed to ask any questions. The community members contested that he does not belong within the affected community.	The comment is noted.
Mr Lekia	Youth Member Masodi	The presentation made mention of skills development. There is uncertainty around the Skills Development and a Spatial Development Plan (SDP) that needs to be integrated and considered for this project. What is the SDP?	A Skills Survey was conducted by Digby Wells in order to have a database of the available skills in the area. Industrial psychologists have been appointed to further assess the database. There were also meetings held with the Department of Labour to address the issues related to skills development.
Mr Lekia	Youth Member Masodi	I am against the concept of skills development as this usually results in people being taught how to perform hard labour such as brick-making.	The comment is noted.
Mr Lekia	Youth Member Masodi	What minerals will be mined?	Platreef proposes to mine primarily Platinum, Palladium, Rhodium, Gold and Nickel.
Mr Lekia	Youth Member Masodi	Who will Platreef target for the development plan as the community would not want the mine to source specialists like geologists from outside the Province.	The comment noted.
Mr Lekia	Youth Member Masodi	What impact will the mine have on the community in terms of health and safety?	A health impact assessment will be completed for this project. Once completed, detailed feedback will be provided to the communities in respect to the potential health and safety impacts.
Mr Lekia	Youth Member Masodi	What benefits will be received by the affected communities?	A Business Enterprise Development company has been appointed to assess how the mine can assist in local skills development. The mine cannot employ everyone, but will try as far as possible to accommodate those who do not

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
			have the necessary certificates and/or skills.
Mr Lawrence Manama	Sekgagapeng - African National Congress (ANC)	What will happen to the holes in the ground once mining has been completed? Are there any plans for rehabilitation?	Platreef is responsible for the rehabilitation of the land. As the mine progresses, the areas affected will be rehabilitated. This is a legislative requirement in terms of the Minerals and Petroleum Development Act (MPRDA). In this regard, the Department of Mineral Resources has established a fund where money is deposited for rehabilitation.
Ms Mabusi Mamodiyi	Magongoa Zone 2 Refentse Community Development Forum	The mine must support local skills development and businesses in the area, and not to only provide training in order to empower the communities. There is a shortage of clinics and information centres in the community.	Thank you, your comment it is noted.
Mr Daniel Phele	Magongoa Zone 1	I can see that the consultations are still continuing. Has there been an agreement reached between the communities and the mine in terms of the mine continuing its operations?	More than often Platreef is accused for not fulfilling their promises in most of the meetings. During the previous meetings in February, everyone agreed that they want to see the mine developing in the area but things must be conducted correctly. If the mine was not in agreement with the communities, they would continue with their operations. However, the mine believes that there will be an understanding with the communities through on-going communication and consultation. As people have indicated, the mine has taken the decision that they will continue to mine. According to Platreef, there is an agreement with the communities that mining must proceed. The Department of Mineral Resources (DMR) then informed the mine to proceed with the

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
			<p>Mining Right Application (MRA) and continue to conduct engagements with communities. This meeting forms part of the engagements for the MRA.</p> <p>The majority of affected people in the area indicate that land has been damaged due to the drilling of holes and thus compensation is required. It is important to note that the mine did stop its prospecting operations due to the DMR's Section 93 decision. People must understand what the facts are. There were meetings held with the officials from the Department of Rural Development and Land Reform and the DMR. The mine has invited the DMR to come to these meetings.</p>
Mr Sello Kekana	Mosesetjane	The manner in which the Platreef prospecting activities have been undertaken has not been satisfactory to the affected communities.	<p>Previous mistakes were made, but Platreef wishes to conduct prospecting according to the law.</p> <p>The DMR had granted the prospecting right and the community was in agreement with the mining operation.</p> <p>With regard to the Department of Land Affairs enquiry, a representative from the department is present but he could not attend all the weekend meetings due to other commitments.</p>
Mr Sello Kekana	Mosesetjane	The Surface Use Agreement and how it has been rolled out is of major concern. The relationship between the community and the traditional leadership is divided and taken advantage of by Platreef.	The comment is noted
Mr Sello Kekana	Mosesetjane	The relationship with the community and the traditional leadership gave rise to the Section	The comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		93 directive being issued. In terms of the Minerals and Petroleum Development Act (MPRDA), this means that the mine was ordered to rectify what they had done to the communities. The rectification has not been started by Platreef.	
Mr Sello Kekana	Mosetjane	On the 15 February 2012, the DMR directed the Mine to disband the mining committees and to stop making payment to traditional leaders in accordance with the Surface Agreement and start consultation with the communities. The DMR should be present.	The comment is noted.
Mr Sello Kekana	Mosetjane	On the 3 January and 18 July 2013, the communities were victims of brutality and the mine was ordered to stop making payments to Chief Kekana and other tribal officials as this was only benefiting the minority groups.	The comment is noted.
Mr Sello Kekana	Mosetjane	The community requested Platreef for new stakeholder engagement with involvement from the DMR. The mine can continue to "brag" that they have complied with the DMR requirements and have consulted. However, the consultation has not yet commenced.	The comment is noted.
Mr Sello Kekana	Mosetjane	It was also indicated that the people must be paid for the loss of their fields and impacts caused by the prospecting activities. The community requested all of the above issues be addressed and has sent letters to the mine but nothing has been done.	The comment is noted.
Mr Sello Kekana	Mosetjane	The mine does not listen and is not complying with the community's requests.	The comment is noted.
Mr Sello Kekana	Mosetjane	On the Platreef website dated March 2013, it	The comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		was indicated by Platreef that four surface agreements that have been completed.	
Mr Sello Kekana	Mosesetjane	In terms of the March report, it is stated that the Department of Rural Development and Land Reform was present at meetings; this is not true.	The comment is noted.
Mr Sello Kekana	Mosesetjane	There are also resettlement issues not being addressed. Tshamahansi and Madiba villages will be relocated. Why is this not communicated to these villages?	The comment is noted.
Mr Sello Kekana	Mosesetjane	During the meeting with Mr Motswaledi, it was indicated that there was a business report to compensate the family at stand number 156 which was affected by water quality issues. To date, the community has not received any feedback regarding this report.	The comment is noted.
Mr Sello Kekana	Mosesetjane	Digby Wells presentation was vague and not applicable to the issues raised by the communities.	The comment is noted.
Mr Sello Kekana	Mosesetjane	I propose that the community disperse.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	Platreef is disrespecting the communities. When were the consultations with tribal leaders held as indicated by Digby Wells? Digby Wells must be fair in their process and speak to the Chief and Indunas prior to any consultations being conducted and invite them to attend the meetings.	The Chief, Indunas and the DMR were invited to the meeting but were unable to attend.
Mr Donas Makhubela	Tshamahansi	Kabelo from Digby Wells was replaced by a white woman so that she could relay a different version of events to the community.	The comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Donas Makhubela	Tshamahansi	In terms of the social contributions, the mine is indicating that they invest money into the community but in actual fact, they do not support local communities.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	Platreef continues to indicate that they are spending money in the community but there is no evidence of this. If the mine can collaborate with the traditional leaders and communities, then the mine can continue. The communities will no longer participate in these meetings until such time that all issues are addressed with the communities.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	How can there be a meeting without the presents of official leaders? It was indicated by the people that the mine must come directly to the village communities and not in a tent in this area like today. When there is a meeting, we want our Chief and Indunas present so that they can also engage with the people on these issues.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	Platreef was supposed to install computers, however, they have failed to do so.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	The people in the villages are aware of the surface agreement signed but do not have the knowledge of when and by whom it was signed. We want proof of the signed agreement. This must be made public.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	Digby Wells must stop sending short message services (SMSs) and involving other people who are not affected by the project.	The comment is noted.
Mr Donas Makhubela	Tshamahansi	It was indicated at the first meetings that there were possible households to be resettled?	The comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		When and which houses will be resettled?	
Mr Donas Makhubela	Tshamahansi	Why did two consultations taking place, and who is in charge of the meeting taking place in Tshamahansi.	The Tshamahansi community requested its own public participation meeting.
Mr Donas Makhubela	Tshamahansi	Platreef has caused a division amongst the communities and the Chief and therefore Platreef should re-unite them.	The comment is noted.
Mr Emile Honiball	Community Legal Representative	Platreef treats people like “donkeys” – they are telling people what to do. They do not listen; they do things their own way.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	During a meeting at the Oasis Lodge, the President of Platreef did not provide them with the opportunity to speak as part of the engagement process.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	Are the Directors of Platreef responsible for their actions as they claim? The community was not notified adequately regarding consultation meetings.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	The people have asked for a legal opinion. The Lawyers for Human Rights have asked Platreef for information, which has not been provided yet.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	People must be consulted first, prior to any meetings. This has not been done.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	The leaders of the mine need to be taught responsibility as they are not responsible.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	Since the mine has been present in the area, family structures have been broken up. This is not right. If there are no good leaders, there will be confusion. Before Platreef has even commenced with their mining operation, there	Thank you, your comment has been noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		has already been confusion.	
Mr Emile Honiball	Community Legal Representative	The lawyers have requested proof of the DMR directive letter from Platreef. This has not been provided. Platreef wants cooperation with the communities but they do not want to give communities the required proof and documentation. This is very confusing.	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	I will be commenting formally on the Scoping Report. Digby Wells has ignored the issues below which need to be addressed in their studies:	Thank you, your comment has been noted.
Mr Emile Honiball	Community Legal Representative	1. In the report, Digby Wells has not acknowledged that the area is densely populated. The socio economic impacts due to the highly populated area must be properly investigated. Specifically, impacts on people in terms of their basic needs.	Thank you, your comment is noted.
Mr Emile Honiball	Community Legal Representative	2. The meeting was arranged badly. A bigger venue should have been organised; there were several screens not working and people could not hear the presentation as the venue was too small.	Thank you, your comment is noted.
Mr Emile Honiball	Community Legal Representative	3. The area is water-scarce. Water is a challenge. The Municipality is struggling to supply basic services one of them being water. I am of the opinion that the Draft Scoping Report does not address the issue of water significantly.	Thank you, your comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Emile Honiball	Community Legal Representative	4. Digby Wells must note that there is existing information available on the Mogalakwena River completed by Professor Terence McCarthy and the Centre for Environmental Rights and World Wide Fund for Nature (WWF) which includes a complete study of the ecosystem. The area which will be mined is a very unique system (three river system functions). This must be studied. The entire ecosystem not only in the project site. The people depend on the river. The source of water for the mine is of concern as the communities also depend on the same water.	Thank you, your comment is noted.
Mr Emile Honiball	Community Legal Representative	In terms of consultation with the tribal authorities, it must be noted that there are certain issues not acknowledged by the masses. Digby Wells must speak with Platreef regarding this issue and not just follow through on what Platreef wants them to do.	Thank you, your comment is noted.
Mr Emile Honiball	Community Legal Representative	The land belongs to the people as there are individual people who have rights and how are they going to be affected needs to be clarified.	Thank you, your comment is noted.
Ms Maria Mogongoa	Magongoa - Zone 2	All people from all the affected villages must have an opportunity to work.	Thank you, your comment is noted.
Ms Maria Mogongoa	Magongoa - Zone 2	Platreef is not honest with communities. If they were honest, they would have been already in operation. There is favouritism at the mine. When they started the prospecting activities, there were people who benefited and others	Thank you, your comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		suffered at the cost of the mine. The mine must stop their favouritism. If they can do things right, then they can proceed and the community will be happy.	
Mr Oupa Mphila	Mosetjane	The people demand proof of the signed Surface Agreement.	Thank you, your comment is noted.
Ms Margaret Makgabo	Mogongoa	In 2011, Digby Wells was conducting door-to-door surveys during the day when most of the people are at work. They came to elderly people and saying if they don't sign, then they will not get their grant pension money. In March 2012, a team from Digby Wells came to her field and she asked what they wanted and that they must show her who has sent them to her fields. She then indicated that they must come back again, until today this has not been done.	Thank you, your comment is noted.
Ms Margaret Makgabo	Mogongoa	She is not happy with the Surface Agreement as stipulated by Platreef.	Thank you, your comment is noted.
Mr Lekau Kekane	Magongoa - Community Forum	Appreciates the gathering but is not happy as to how people were informed about the meeting. Only affected parties must be invited to the meeting and not interested parties who just ate food and left the meeting, leaving the affected communities with no food.	Thank you, your comment is noted.
Mr Lekau Kekana	Magongoa - Community Forum	He has sent emails requesting information in order to discuss with the public but to date, this information has not been provided to the community. Thus there is minimal participation from the community. It is for this reason that the community are asking questions that are not related to the presentation as they do not	A copy of the EIA and scoping report will be provided to Mr Kekana.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		understand the presentation due to lack of information.	
Mr Lekau Kekana	Magongoa - Community Forum	There was a request for the EMP which was approved for the prospecting right application. To date, that information has not been forthcoming. The public needs this information in order to engage fully. This process is undermining rights of the public.	A copy of the EIA and scoping report will be provided to Mr Kekana.
Mr Lekau Kekana	Magongoa - Community Forum	It is indicated that 20 hectare of land is required from the fields. Considering the stockpile and other infrastructure as mentioned, the 20 hectare will not be sufficient. People rely on farming within the 20 hectare of land. Is there an alternative land available for the landowners for them to proceed with the farming activities? A lot of people within the community rely on the livestock to make ends meet.	Thank you, your comment is noted.
Mr Lekau Kekana	Magongoa - Community Forum	Digby Wells must investigate the impacts on the existing animals and plants in the communities.	Thank you, your comment is noted.
Mr Lekau Kekana	Magongoa - Community Forum	The community requires information pertaining to water. What will be the strategy to ensure minimal impacts on the river systems in the area – avoid water pollution? Particularly how water pollution in Mogalakwena will be prevented.	Thank you, your comment is noted.
Mr Lekau Kekana	Magongoa - Community Forum	Platreef wants to build a dam on the graves. Requests details of what will happen to the old graves at Makoka, Lejwana, Motlhwathwa commentary.	In terms of the grave relocation process, Digby Wells is working hand in hand with the South African Heritage Resources Agency (SAHRA) and will have to lodge and application. All grave sites will need to be identified and marked and

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
			then feedback given to the authorities. Then the authorities need to be consulted to request permission to relocate the graves. Once this is done, then the affected graves' families will be consulted. Thus, there will be no relocation of graves without consultation with the affected families.
Mr Lekau Kekana	Magongoa - Community Forum	No mention around blasting was made in the presentation. There is no mine that can proceed without blasting and there is no indication as to how the blasting will affect the communities. For example, we can hear blasting from the Anglo mine which is approximately 7 km away. The documents must indicate how the blasting will be managed and how the community can develop a community forum to report such issues.	Thank you, your comment is noted.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	The farm areas of Machalakaskop and Turfspruit are directly affected by the operation. Platreef is proposing to develop their operations across eight villages. Within the two farms, there are 17 plots. How can Platreef divide the plots? The leaders are in control of the two farms.	Three site alternatives including Kruspruit, Rietfontein (within project area) and Bultenfontein are being investigated as the possible location for the Tailings dam. Further details will be provided once the studies have been completed.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	There is a special consultation meeting being held at Tshamahansi. They are not living in separately but are part of the same community. There are challenges and divisions within the communities. The Tshamahansi people are saying they do not have a Chief and don't respect the Kekana Chief. The mine must not promote this	Thank you, your comment is noted.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		division. They must stay away and call one meeting so that the DMR can be aware of these issues.	
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	Platreef should not support community uprisings and divisions.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	The contractors of Platreef advertised a post which indicated that they required matric qualifications. Applicants were requested to bring proof of address from the tribal authority. The closing date was on 27 June 2013. This must not be done. The post must be re-advertised. The mine contractor must require proof of address from the municipality and not from the tribal authority. A lot of people came here because they are looking for employment opportunities. Applications for employment from the mine's side must be managed in a satisfactory manner.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	In terms of Public Participation Process, the meetings must not go through the Kgoros, even if they have space in the Kgoros. These meetings must rather be conducted in public. Even if people do not come to meetings, they can address the matter with the DMR.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	Reports indicate that all public participation meetings went well, but the meetings did not go well.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum	The employment criteria used by Platreef is flawed, as they only require individuals from the Kgoro and not residents who fall under the Mogalakwena Municipality.	Thank you for your comment.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	It is the responsibility of the Department of Rural Affairs to be present at these meetings as well as to bring in evaluators who can assess and develop lease agreements for the communities.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	The mine's drilling machines are still operating in the area but there are no surface agreements signed to date.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	When the communities request the DMR to come to meetings, they do not come but when they are called by the mine, then they are present.	Thank you for your comment.
Mr Lekau Kekana	Magongoa - Community Forum and ANC secretary leader	Made a plea to the youth of Mokopane to acquire the necessary skills without relying on the mine.	Thank you for your comment.
Mr Machau	Mzombane	Do Platreef and Digby Wells know the status of Mzombane village? I have been in leadership since 2008 and, the village is still being formalised. The mine indicated that they came for consultations during prospecting, but did not.	Thank you for your comment.
Mr Machau	Mzombane	People are concerned about the safety of houses. There are houses in the area and owners must be informed as to what will happen to them.	Thank you for your comment.
Mr Machau	Mzombane	Will Platreef be able to mine in an area or village where there is no electricity such as at Mzumbane?	Electricity is an issue for the Municipality to resolve.
Mr Machau	Mzombane	We as the people are the owners of land. When Platreef will mine the area, what benefits can communities expect from the mine?	Thank you for your comment.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Machau	Mzombane	What benefits will be received by the families whose graves will be resettlement?	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	Work is being provided to white contractors and not black companies.	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	I have 12 cattle and a household within the fields area. How will I benefit from the proposed operation?	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	Platreef said they will employ local people, but this is not happening. The mine can push for the community to get skills but they might only select a few people for employment.	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	I submitted a business profile to the contractor who promised to look into it. I have not received any response to date. The contractor is renewing their contract every three months but they are not fulfilling their promises of employing local people.	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	Platreef is using consultants who are in turn being used. People get irritated and become violent due to manipulation and dishonesty from Platreef.	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	If local people are being employed, then it should be people from Mzombane and other local areas. The mine has been making empty promises.	Thank you for your comment.
Mr Dimpho Matlhaka	Mzombane – and PCP Construction	Promises of job creation is merely a bribe by Platreef to obtain a mining licence.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Platreef is only interested in obtaining the mining licence.	Thank you for your comment.

<b>NAME AND SURNAME</b>	<b>VILLAGE/ORGANISATION</b>	<b>COMMENT</b>	<b>RESPONSE</b>
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Platreef involved people from Hammanskraal and Seleka for the purposes of receiving votes.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	It was said that there will be cooperation. Platreef is not intending to work with the communities of Mokopane. In a meeting in Sandton, we indicated that they wanted 17 villages to be included in the affected villages. Now Platreef is only focusing on eight villages that are affected. We within the affected villages are being played as fools. The people will not participate until the issues have been resolved.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	People who signed the Surface Agreement contracts are not here today. This is a problem as everything is done in the Kgoros. How will information be received by the community if it is only circulated amongst the councillors of the Kgoros? Communities experience discrimination currently.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Today, there are separate meetings, Why? They are promoting the division within communities.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	These are the fields of Magongoa, if the community members are not employed from this area. No Mining will start.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee	In terms of Section 93 of the MPRDA, it was indicated that Platreef must consult and engage with the communities but this has not	Thank you for your comment.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
	(MIACC)	happened. It was indicated that there must be structures formed, but to date this has not happened. Therefore the drilling machines must stop operating immediately.	
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Were communities consulted to assist with the tent. From which company and from which village was the tent hired and the catering was provided from which village? The local people of Magongoa should be doing the catering.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	The consultations have not begun at all. It is required that consultation be done at the fields and agreement be reached.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Platreef must take the 2000 people to be employed from the villages and train them in order for them to have the necessary skills to work for the mine. The affected people from the village must have first preference for employment opportunities.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Platreef must provide training to the local community's youth and in so doing; provide food, accommodation and education to such youth whilst they are undergoing training.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee	Digby Wells was informed previously that all communities must be engaged. But this is not happening as separate meetings are being held.	Thank you for your comment.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
	(MIACC)		
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Digby Wells consulted with certain individuals in Mzombane and not the whole community.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Platreef must bring the document and proof of the Surface Rights Agreement for the fields prior to operations. Platreef must ask for forgiveness before any activities start.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	We demanded names of the individuals who signed the Surface Lease Agreement.	Thank you for your comment.
Mr Elvis Molwatse	Chairperson of Mokopane Interested and Affected Community Committee (MIACC)	Why did Digby Wells mislead the elderly within the community?	Thank you for your comment.
Mr John Chauke	Tshamahansi	Platreef has indicated that they have invested a lot of money in the area. Where did this money go to? Who received this money? Mr Motswaledi must tell the truth in front of the people as the people are still poor.	Thank you for your comment.
Mr John Chauke	Tshamahansi	The community indicated that the drilling machines must not come back until the compensation for the fields is completed.	Thank you for your comment.

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr John Chauke	Tshamahansi	Platreef brought the drilling machines back by force. The machines are back now without resolving issues raised by the communities. Who did Mr Motswaledi agree with to bring the drilling machines back into the area?	Thank you for your comment.
Mr John Chauke	Tshamahansi	According to the community, they want an agreement to be made. Until then, they will not talk. Platreef are thieves.	Thank you for your comment.
Ms Maria	Magongoua	How is it possible that they can continue without the issuing of compensation for the affected fields has been resolved? Why were some individuals paid R10 000 and others were not?	Response could not be relayed as the meeting was adjourned due to disruptions from the community.
Ms Maria	Magongoua	We have been working with Digby Wells during the agricultural survey and they promised employment at the mine. They were employed for a week and indicated that they will come back, but now Digby Wells is continuing without local people. This is unfair. Digby Wells must do things correctly.	Response could not be relayed as the meeting was adjourned due to disruptions from the community.
Ms Maria	Magongoua	How it is possible that not even one person from the village is sitting at the table. We want these opportunities. We are not dumb. We can also do what everyone else can do.	Response could not be relayed as the meeting was adjourned due to disruptions from the community.
Mr Kgaugelo	Magongoua	I am also entitled to the R10 000.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Unidentified resident of Magongoua	Magongoua	During the first meeting, it was requested that the location of the supporting infrastructure be clarified in detail during the studies. This includes the location of workshops, offices, tailings dam. We want to know what negative	Response could not be relayed as the meeting was adjourned due to disruptions from the community

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		impacts can be expected. When we ask for information from Digby Wells, we do not get it.	
Unidentified resident of Magongoua	Magongoua	There were other people who were not allowed to participate in the Broad Based Black Economic Empowerment (BBBEE) workshops. Other people have not been provided with the opportunity to get the detailed explanation of how they will benefit from the operations. This is not clearly explained in the presentation. The community has not accepted the Black Economic Empowerment (BEE) structure from Platreef. The community has been made aware that the Memorandum of Understanding (MOA) for the BEEE structure has been finalised. The MOA has not been addressed at the Kgoros. Platreef is misusing the traditional structures.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Unidentified resident of Magongwa	Magongoua	The official from Department of Rural Development is not here. They must explain how the process must proceed without proper consultation.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Unidentified resident of Magongoua	Magongoua	Local people will not be employed. There must be a Community Labour Desk and officers to take the statistics of skills in the area. The people must be taken to school for training prior to the mine coming into operation.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Unidentified resident of Magongoua	Magongoua	We want the names of the individuals who signed the Surface Lease Agreement	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Unidentified resident of Magongoua	Magongoua	Why are people from outside working as security guards, if local people are not employed?	Response could not be relayed as the meeting was adjourned due to disruptions from the community

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
Mr Kenneth	Tshamahansi – member of MIACC	All the issues must be recorded and noted accordingly. Platreef must do things right.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Kenneth	Tshamahansi – member of MIACC	I have worked at the mines and have experience. Platreef is unfair.	Response could not be relayed as the meeting was adjourned due to disruptions from the community.
Mr Kenneth	Tshamahansi – member of MIACC	The drilling machines must stop operating by end of the day.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Robert-	Member of MIACC	People have come here since 1965 and my grandfather came here since 1967 (43 years). Why are they not being compensated for their fields when other people have been paid three times?	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Masenya	Mzombane	Platreef does not comply with skills development requirements. There was a post advertised by the contractors. They wanted a matric and maths and science. A lot of youth dropped out of school to work for the mines. How are they supposed to get opportunities if they are asked for qualifications?	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Masenya	Mzombane	From today's meeting, there are no agreements. If there is another company that wants to mine they should proceed.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Molala	Gobudi	There is no more land for a mine to operate on. For this reason, I am against the mine operating in this area	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Molala	Gobudi	The people who were given money, let the mine go to them not us.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr John	Magongoua	Digby Wells cannot come to the fields and	Response could not be relayed as the meeting

NAME AND SURNAME	VILLAGE/ORGANISATION	COMMENT	RESPONSE
		explain the presentation to people. There is no truth in this. When will Platreef give back a detailed report on all the issues raised? They call the people for food; it is just a show for the community.	was adjourned due to disruptions from the community
Mr John	Magongoua	What is the exact date of when the reports will be complete?	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr John	Magongoua	This is the second meeting. People travel and spend money but they are not being told the truth.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr John	Magongoua	We do not know any of the people at the table. They are not from the community.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Samuel Matha	Gaguru	I am working for the mine. If the community is saying that the drilling machines must stop, must he also stop working? This would be unfair since it will have a negative impact on my family's wellbeing.	Response could not be relayed as the meeting was adjourned due to disruptions from the community
Mr Samuel Matha	Gaguru	He pleaded with the community not to stop the mine operation.	
Mr Isaac		I am employed by Platreef. Have heard everyone talking. Everyone present is attacking Platreef.	Response could not be relayed as the meeting was adjourned due to disruptions from the community.
<b>Please note that the meeting was adjourned as the meeting participants threatened the last two speakers.</b>

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT FOR  
THE PROPOSED PLATREEF UNDERGROUND MINE

DIGBY WELLS  
ENVIRONMENTAL

NEMA ref No: 12/1/9/2-W32;  
LIM/EIA/0000538/2013,  
NEMWA ref no: 12/9/11/L1224/5,  
MPRDA ref no: LP30/5/1/2/2/10067MR

**PUBLIC MEETING**

**July 2013**

[www.digbywells.com](http://www.digbywells.com)

## AGENDA

- Welcome, Introductions and Objectives
- Background and Description of the Project
- Content of the Draft Scoping Reports
- Public Participation Process
- Questions and Answers

## INTRODUCTIONS

### Platreef

- Jacob Motswaledi

### Barnstone

- Patricia Makhesha
- Carl Legodi

### Digby Wells Environmental

- Barbara Wessels
- Lerato Ratsoenyane
- Grant Beringer

### Golder Associates Africa

- Reinhardt Weidemann
- Oliver Bonstein

## ROLE OF CONSULTANTS

- Digby Wells, together with Golder Associates, has been appointed as independent consultants to undertake the EIA/EMP, PP processes and relevant specialist investigations for the proposed Platreef Underground Mine for a Mining Right Application and other licenses
- Digby Wells, supported by Barnstone, will independently facilitate the consultation process between Interested and Affected Parties (I&APs) and Platreef

## MEETING OBJECTIVES

- To present to I&APs the Draft Scoping Reports content
- To capture comments from I&APs on the Draft Scoping Reports
- To obtain suggestions for the impact assessment and public participation processes going forward

## BACKGROUND TO THE PROPOSED PROJECT

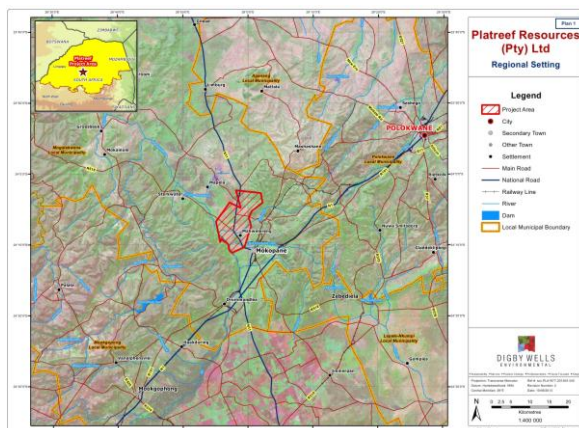

## BACKGROUND

- Platreef is currently 90%-owned by Ivanplats and 10%-owned by Itochu
- This structure will **change should the Mining Rights be awarded** to include the proposed BBBEE Partners (74%/26%)
- Platreef owns prospecting rights over these farms:
  - Turfspruit 241 KR
  - Macalacaskop 243 KR
- Platreef has been prospecting for more than 15 years for platinum and associated Platinum Group Metals
- The various applications for the project have been submitted

## LOCATION

- The project site is approximately 10km north of Mokopane
- The study area includes the farms Macalacaskop 243 KR, Turfspruit 241 KR and Rietfontein 2 KS
- All the farms fall within the Mogalakwena Local Municipality in the Waterberg District Municipality of the Limpopo Province

## MINING METHOD

- Highly mechanised, bulk underground mining methods will be used to mine the reef
- There will be a production shaft and ventilation shafts
- The ore mined may be crushed underground
- All ore and waste will be hoisted from the mine via the production shaft
- Ore is then sent to a concentrator plant for processing
- Concentrate will primarily consist of Platinum, Palladium, Rhodium, Gold and Nickel

## PROCESSING AND LABOUR

- Initially, all the concentrate will be sold to local smelters for further beneficiation with the possibility of a Platreef owned smelter in the future
- The life of mine is expected to be 30 years based on a 3 million ton a year production rate
- In the order of  $\pm 2,000$  people will be employed at full production
- Platreef developed a Social and Labour Plan to address socio-economic development and employment

## INFRASTRUCTURE

The proposed mine will have the following above ground structures, but is not limited to:

- |                               |                           |
|-------------------------------|---------------------------|
| • Concentrator plant          | • Workshops               |
| • Shafts and headgear         | • River crossings         |
| • Waste rock dump             | • Pipelines               |
| • Tailings storage facility   | • Fuel storage facilities |
| • Change houses               | • Power lines             |
| • A waste management site     | • Roads                   |
| • Raw water storage dams      | • Stores                  |
| • Pollution control dams      | • Control rooms           |
| • Offices and training centre | • Medical station         |

## WATER, POWER AND ROADS

- Amount of raw water required is approximately 8 000 – 10 000 cubic litres per day (m<sup>3</sup>/day) – Lebalelo Water Users Association will supply the water
- Power supply is currently being investigated with Eskom, to increase the power supply to 63 Mega Watts (MW)
- The project site will be accessed from the N11 and the R518 to transport equipment onto and off the site

## ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT PROCESS

## PURPOSE

- In order for any mining and mining related activities to commence, Environmental Authorisation is required
- An Environmental and Social Impact Assessment (ESIA) must be conducted
- Purpose of the Environmental Authorisation Process:
  - To identify potential environmental impacts (social and biophysical) and determine their likely significance
  - To ensure public involvement
  - To inform Platreef's and the Government's decision-making

## REGULATORY REQUIREMENTS

- Legislative requirements for the ESIA include:
  - National Environmental Management Act (Act No. 107 of 1998) (NEMA)
  - Minerals and Petroleum Resources Development Act (Act No. 28 of 2002) (MPRDA)
  - National Environmental Management: Waste Act (Act No. 59 of 2008) (NEM:WA)
  - National Water Act (Act No. 36 of 1998) (NWA)
  - National Heritage Resources Act (Act No. 25 of 1999) (NHRA)

## ESIA PROCESS

## PURPOSE OF DRAFT SCOPING REPORT

Identify alternatives and potential impacts requiring more detailed investigation in the EIA phase

Based on:

- Literature reviews
- Professional input (technical and environmental)
- Public input

Forms basis for Plan of Study for ESIA

## PUBLIC REVIEW

Draft Scoping Reports are available for public review is from 21 June to 1 August 2013 at the following places.

Printed Copies		
Name	Location	Contact
Rifilwe Madisa	Mogalakwena Public Library, corner Van Riebeeck and Pretorius Streets	015 491 9729
Lucy Mashetisho	Mahwelereng Public Library, Mahwelereng Village	078 628 3326
Electronic Copies		
Steve Horak	<a href="http://www.digbywells.com">www.digbywells.com</a>	011 789 9495
Steve Horak	Phone and request a CD copy	011 789 9495

Also available in directly affected Villages

## COMMENTS ON DRAFT SCOPING REPORTS

- Captured at public meetings and comment sheets
- All comments responded to in the Comments and Response Report (CRR)
- Scoping Reports and Plan of Study for ESIA will be revised considering I&AP comments
- All comments will be included in Final Scoping Reports submitted to authorities

## SUMMARY OF ENVIRONMENTAL STUDIES

## TOPOGRAPHY/VISUAL

- Aspect
  - Proposed project area is relatively flat with the exception of the mountainous area in the north-eastern corner and several isolated ridges
- Potential Impact
  - The construction of infrastructure such as the production shaft, concentrator plant and a tailings storage facility may have a visual impact
- ESIA Study
  - Determine the visual impact of mine infrastructure on the area

## SOIL, LAND USE & LAND CAPABILITY

- Aspect
  - Dominating land capability – arable
  - Predominant present land uses – include agriculture and housing, with agriculture dominated by grazing
- Potential Impacts
  - Potential contamination from accidental spillages
  - Removal of topsoil can cause erosion
  - Changes in land use
- ESIA Study
  - Determine soil type and depth
  - Determine soil quality

## PLANTS

- Aspect
  - The three vegetation types occur within the study area
    - Clay thorn bushveld
    - Mixed bushveld
    - Waterberg (moist) mountain bushveld
- Potential Impacts
  - Removal of vegetation
  - Possible introduction of invader species
  - Habitat destruction
- ESIA Study
  - Identify the plants (medicinal, protected etc.) in the project area including protected species
  - Determine the conservation importance of the plants

## ANIMALS

- Aspect
  - Protected species found on site
    - Grey Rhebok
    - Yellow-spot Dassie
    - Yellowbilled Stork
    - African Spoonbill
  - Red Data species might be present
- Potential Impacts
  - Removal of vegetation = Habitat degradation/destruction
- ESIA Study
  - Identify the animals in the project area and determine their importance/vulnerability

## AQUATIC ECOSYSTEMS & WETLANDS

- Aspect
  - Two types of systems were identified:
    - Mogalakwena River floodplain
    - Rooisloot, Ngwaditse and Dithokeng Rivers
- Potential Impact
  - Dirty stormwater runoff from the sub-vertical shaft area and other mining infrastructure area such as the workshops and the plant
- ESIA Study
  - Determine the health and importance of the rivers/stream and wetlands

## SURFACE WATER

- Aspect
  - 4 main water courses drain across/adjacent study area
    - The Rooisloot, Dorps and Ngwaditse Rivers and Dithokeng stream. These flow into the Mogalakwena River
- Potential Impacts
  - Siltation because of erosion
  - Accidental spillages of hazardous materials/dirty water
- ESIA Study
  - Sample water from the rivers/streams to determine the quality
  - Analyse rainfall and climate to develop a water management plan for the mine (water quantity)

## GROUNDWATER

- Aspect
  - Turfspruit and Macalacaskop are mainly underlain by intergranular and fractured aquifers
  - Rietfontein - underlain by sedimentary rocks of the Transvaal Sequence and basement granite
- Potential Impacts
  - Seepage from TSF and PCDs
  - Accidental oil or fuel spillages from machinery
  - Dewatering of underground mining areas
- ESIA Study
  - Investigate how much water is available and how to limit impacts on the groundwater

## AIR QUALITY

- Aspect
  - The ambient concentrations of suspended particulates highlight the impact of seasonal changes on dust load in the atmosphere
- Potential Impact
  - Dust generation from
    - Soil stripping
    - Machinery and vehicle movement
- ESIA Study
  - Dust fallout monitoring to see how much dust is in the air
  - Together with climate and topography, determine directions where dust will travel

## NOISE

- Aspect
  - Noise levels are currently characterised by:
    - Vehicular traffic on the main roads, livestock, intermittent periods of noise from children (during specific times of the day)
  - Ambient daytime noise level in the communities are mostly below the SANS guidelines for suburban districts
- Potential Impacts
  - Construction vehicles, heavy machinery, production shaft, concentrator plant and associated infrastructure
- ESIA Study
  - To determine the impact that the mining activities might have on the noise levels in the area

## ARCHAEOLOGY AND HERITAGE

- Aspect
  - Include tangible, physical material culture that was left behind and intangible, living heritage of the people that still inhabit the region
- Potential Impacts
  - Relocation of graves
  - Demolition of old structures and removal of paleontological structures
  - Removal of artefacts and demolishing of structures with archaeological significance
- ESIA Study
  - Identify and investigate all archaeological and heritage sites
  - Determine the significance of each finding

## SOCIO-ECONOMIC ENVIRONMENT

- Aspect
  - Land owner: Government of the Republic of South Africa
  - Traditional Authority has jurisdiction over the land
- Potential Impacts
  - Negative impacts: Loss of access to arable land, population influx, pressure on resources/infrastructure, impacts to cultural heritage, land claim issues
  - Positive impacts: Direct economic development; indirect economic benefit and local investment; skills development
- ESIA Study
  - Determine the impact of the mine on the people living in the area and the local economy

## BASELINE HEALTH ASSESSMENT

- ESIA Study
  - Consider the potential future health impacts of the project on people
  - Determine the existing health needs of the community based on health strategies, infrastructure programs, service priorities, delivery plans and challenges
  - Recommend measures to avoid/mitigate negative and enhance positive impacts resulting from the project at the relevant project stage

## PUBLIC PARTICIPATION PROCESS

The Public Participation Process is an essential component for any ESIA process to ensure I&APs are provided with an opportunity to contribute meaningfully to the ESIA process. Digby Wells, supported by Barnstone, will facilitate the PPP and any comments received from I&APs will be recorded.

## WHAT IS PUBLIC PARTICIPATION

A process leading to a joint effort of

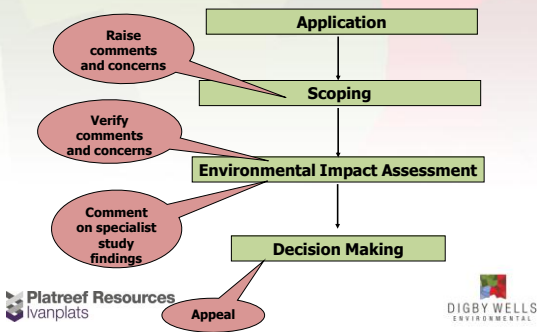

- stakeholders
- technical specialists
- the authorities
- the proponent

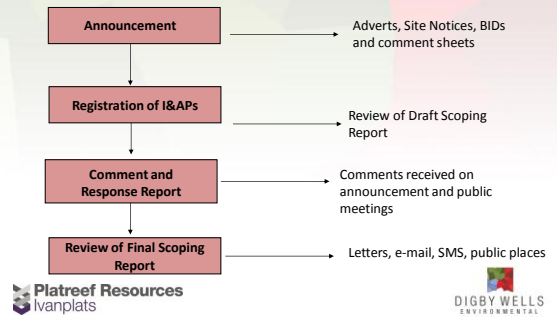

## PROJECT SPECIFIC EIA PROCESS

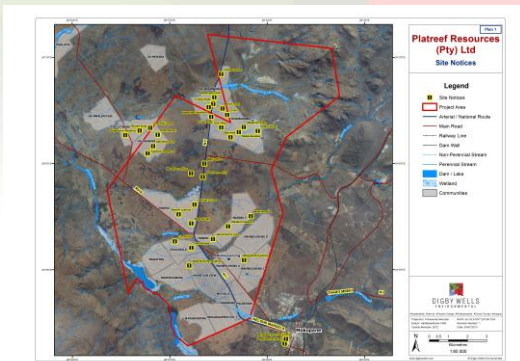

## HOW PUBLIC PARTICIPATION FITS INTO THE ESIA

## PUBLIC PARTICIPATION - SCOPING

## DISTRIBUTION OF SITE NOTICES

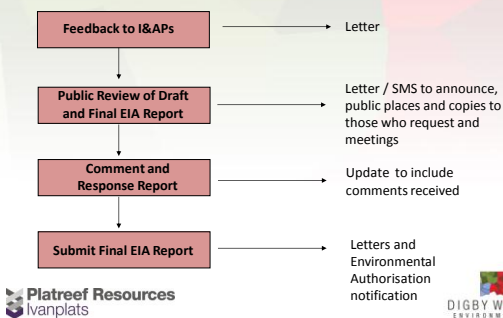

## ADVERTISEMENTS

Advertisements were published on the 21 June 2013 as follows:

- Bosvelder
- Noordlike Nuus
- Limpopo Mirror
- Seipone

## PUBLIC PARTICIPATION – IMPACT ASSESSMENT

# THANK YOU
