Dear Ms Griesel

**RE: POWER LINE ASSESSMENT: BOKAMOSA ENERGY PHOTOVOLTAIC
SOLAR FACILITY, MATJESPRUIT, LEEUDORINGSTAD, MATLOSANA, NORTH
WEST PROVINCE**

Herewith confirmation that the route for the power line of the project listed above, was included in the original survey that had been conducted in 2013: *Terblanche, Reinier F. 2013. Ecological Fauna and Flora Habitat Survey: Remainder of the farm Matjespruit No. 145, City of Matlosana, North-West Province.*

Kindly note that there is then no need for a separate assessment of the power line because the report referred to here has included that assessment already.

Yours sincerely

Reinier F. Terblanche
Ecologist
