

## COMMENTS AND RESPONSE REPORT

*NB: Please note no major comments were received during the notification phase of this project. Comments were only received from one I&AP, Mr Paulos Mahlangu. In general Mr Mahlangu supports the licencing of the landfill and has provided suggestions through a letter emailed to GA Environment on 14 October 2015. Please refer to the letter overleaf for the issues raised and the EAPs response. It is however expected that additional comments will be received once the Draft Scoping Report is reviewed by Interested and Affected parties.*
