Dear Sir/Madam

GA Environment (Pty) Limited has been appointed by the Department of Environmental Affairs on behalf of the Dikgatlong Local Municipality to undertake a Scoping/Environmental Impact Assessment (EIA) and a Waste Licence Application process for the proposed licencing of the existing Windsorton landfill site, Northern Cape province. The Dikgatlong Local Municipality intends to licence the Windsorton landfill for operation. The Windsorton Landfill is located on ERF 1, Windsorton, about 100m to the immediate south of R374 road which provides a link to the site. The Windsorton Oxidation ponds borders the site from the immediate west. The Kutlwano township is to the west of the site. The site co-ordinates are 28°20'2.90"S; 24°42'8.44"E.

The main objective of the process is to obtain the required licencing from the Competent Authority (Northern Cape Department of Environment, Nature and Conservation), for operational purposes. The Scoping and EIA process aims to identify and assess potential environmental impacts associated with the proposed licensing of the landfill site; as well as any alternatives to the development / activity and to compile appropriate mitigation measures.

Should you wish to register as an I&AP or to make suggestions and/or comments on this proposal, kindly provide your name, contact details (preferred method of communication, e.g. e-mail address or fax number) and an indication of any interest which you (or the organisation you represent) have in the application to **Name:** Nkhensani Khandlhela at **Tel:** 011 312 2537, **Fax:** 011 805 1950, **E-mail:** nkhensanik@gaenvironment.com or **Post:** P.O Box 6723 Halfway House 1685. Please register your interest in the project before **16th November 2015**.

Regards

Nkhensani Khandhela
