

Proposed Establishment of a Causeway along the Mhlubulweni Road, near Amatikulu; Five Causeways along the Mahlabathini Road between Dalibha and Ezikotshini; a Causeway along the D1510 Road, near Tongaat; and a Causeway along the Nzuza Road, near Mhlangakazi, all within the Stanger District, KwaZulu-Natal

BACKGROUND INFORMATION DOCUMENT

November 2012

WHAT IS THE PURPOSE OF THIS DOCUMENT?

The purpose of this document is to:

- ◆ Inform Interested and Affected Parties (I&APs) about the proposed project, and to invite them to participate;
- ◆ Provide a brief background on the proposed project; and
- ◆ Explain the aims and objectives of the Environmental Basic Assessment process.

WHAT IS THE BACKGROUND TO THIS DEVELOPMENT?

The Department of Transport proposes to establish a total of eight causeways within the Stanger District, KwaZulu-Natal.

In terms of the Environmental Impact Assessment (EIA) Regulations under Section 24(5), 24M and 44 of the National Environmental Management Act (Act No 107 of 1998) published in Government Notice No. R. 543 of 2010, the proposed development triggers Listed Activities published in Government Notice No R. 544 and 546:

GNR 544	11	The construction of: ii) channels; iii) bridges; v) weirs; where such construction occurs within a watercourse or within 32 metres of a watercourse, measured from the edge of a watercourse...
GNR 544	18	The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand ... from i) a watercourse...
GNR 546	16	The construction of iv) infrastructure covering 10 m ² or more where such construction occurs within a watercourse or within 32 m of a watercourse... ii) outside urban areas, in: hh) Areas within 10 km from National Parks or World heritage Sites or 5 km from any other protected area identified in terms of NEMPAA or from the core area of a biosphere reserve.

Thus a Basic Assessment is required.

The applicant is required to appoint an independent Environmental Assessment Practitioner (EAP) to conduct the environmental authorisation process. The Applicant, Department of Transport, has appointed Green Door Environmental to conduct the Basis Assessment Process for the proposed development.

WHAT IS PROPOSED?

The Department of Transport proposes to establish a total of eight causeways within the Stanger District, KwaZulu-Natal:

- A Causeway along the Mhlubulweni Road, near Amatikulu;
- Five Causeways along the Mahlabathini Road between Dalibha and Ezikotshini;
- A Causeway along the D1510 Road, near Tongaat; and
- A Causeway along the Nzuza Road, near Mhlangakazi.

Refer to Figures 1, 2, 3 & 4 for a locality maps.

WHERE IS THE PROPOSED DEVELOPMENT?

Figure 2: Aerial Map showing the location of the proposed causeway along the D1510 Road and the surrounding land uses (Source: Google Earth).

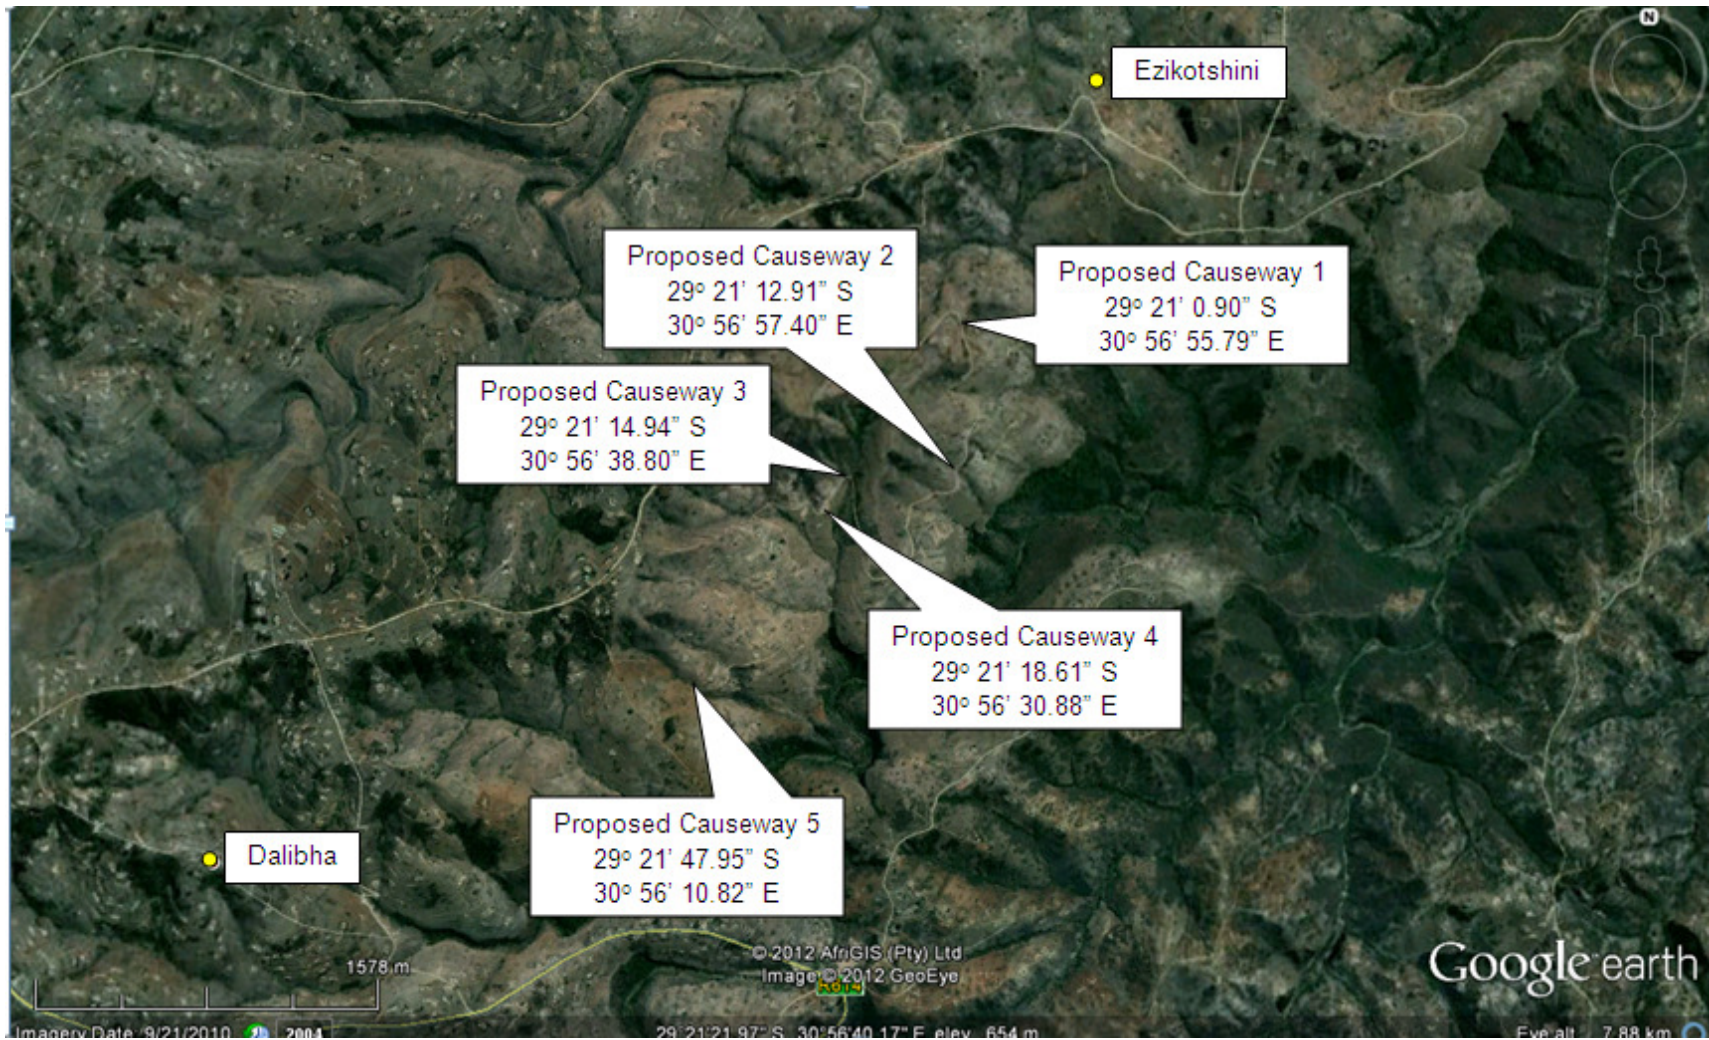

Figure 3: Aerial Map showing the location of the proposed causeways along the Mahlabathini Road and the surrounding land uses (Source: Google Earth).

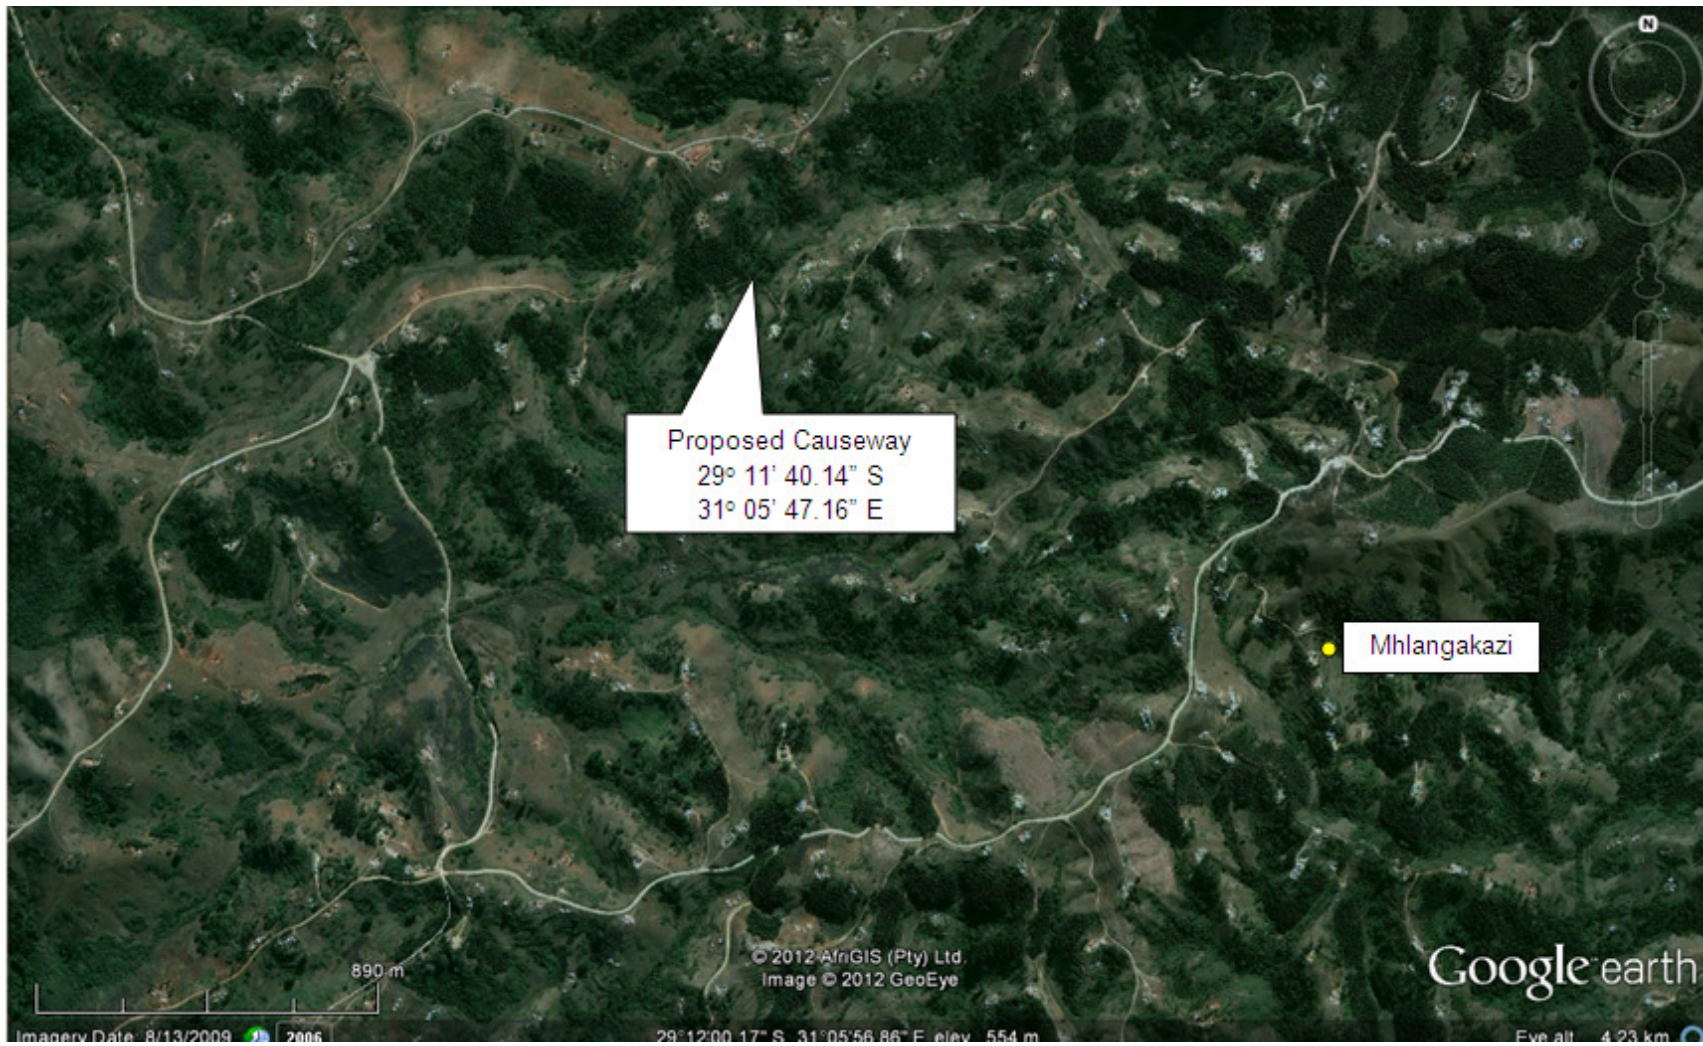

Figure 4: Aerial Map showing the location of the proposed causeways along the Nzuzu Road and the surrounding land uses (Source: Google Earth).

WHAT IS THE AIM OF AN ENVIRONMENTAL BASIC ASSESSMENT (BA)?

The Basic Assessment process aims to:

- ◆ Inform and involve all potentially Interested and Affected Parties (I&APs) of the proposed development;
- ◆ Identify the potential impacts (positive and negative) that the proposed development may have on the ecological and socio-economic environment;
- ◆ Provide recommendations based on the identified impacts and conduct further specialist studies if necessary; and
- ◆ Provide the Department of Agriculture and Environmental Affairs (DAEA) with enough information to make an informed decision regarding the proposed development.

WHAT IS INVOLVED IN THE EIA PROCESS FOR BASIC ASSESSMENT?

The Basic Assessment process can be described as follows:

1. Application Form:

An official Application Form is required to be completed and submitted to the Competent Authority. This Form provides information on the property, a description of the proposed development and lists the relevant listed activities which are triggered by this proposed development.

2. Public Participation:

The general public and relevant Authorities are notified of the proposed development through newspaper adverts, site notices and direct consultation. Alternative methods will be employed to inform those I&APs who may be illiterate, disabled or otherwise disadvantaged. Should you be aware of anyone who might be interested in this project, but has not been notified, please send the relevant contact details to Green Door Environmental. This Background Information Document will be circulated to neighbouring landowners, relevant authorities and any other persons registered as I&APs following the adverts and site notices.

3. Identification of Impacts and Alternatives

Environmental issues, concerns, development constraints and possible development alternatives will be identified using professional judgement, project information, experience of similar projects, a review of available literature, site visits, and consultation with authorities and the public.

4. Impact Evaluation

The significance of environmental issues will be evaluated in terms of their expected extent, intensity, duration and probability of occurrence.

5. Mitigation and Management Measures

Measures to manage and minimise impacts to within acceptable levels, as well as measures to maximise the socio-economic benefits associated with the development, will be identified and recorded in the Basic Assessment Report. An Environmental Management Programme (EMPr) will be compiled to facilitate the implementation of mitigation measures.

6. Reporting

The Basic Assessment Report and Draft EMPr will be made available for review and comment by all I&APs and relevant authorities. A Final Basic Assessment Report and EMPr will be compiled and will include comments received on the circulated Basic Assessment Report.

7. Authority Decision

The Final Basic Assessment Report will be used by DAEA as the basis for the decision on whether the proposed development should be approved or not.

WHAT POTENTIAL ENVIRONMENTAL IMPACTS HAVE INITIALLY BEEN IDENTIFIED?

The following issues have been identified as potentially problematic and will, amongst other issues, be investigated during the Basic Assessment Process:

- ◆ Removal of vegetation such as, aloes and trees;
- ◆ Soil erosion associated with construction activities; and
- ◆ Pollution of watercourses as a result of construction activities.

HOW CAN I&APs COMMENT ON THIS DEVELOPMENT?

The need for public input and involvement is of critical importance. All I&APs (neighbours, authorities, organisations etc.) are invited to comment on the proposed development. Comments can be communicated to us by post, telephone or email (contact details are provided below).

In order to ensure that your comments are addressed and incorporated, please ensure that we have received all comments by **18 December 2012**.

Postal: PO Box 11 Hilton, 3245
Physical: Block H, Quarry Office Park,
400 Old Howick Road, Hilton, 3245
