Fairy garden at Noddy's

Miranda Chauke

Noddy's Playground and Preschool was a fairy garden on 14 May as learners dressed up as their favourite cartoon characters for the day.

Principal, Leonne Herrendoerfer explained that they wanted the children to experience what it would be like to be a cartoon character for a day. "It is very important for children to express their feelings and to feel loved and appreciated. Every child has the right to be happy and it does not take much to make each one of them feel important in their own special way," she said.

She thanked the children's parents for contributing financially, especially in these difficult times. She further thanked the learners and Décor Events for transforming their ordinary classroom into a beautiful fairy garden to make the day extra special.

Best Gr 12's at Flora Park

Miranda Chauke

Awards are aimed at motivating underperforming students to start working hard to produce good results, according to Joseph Ntsiene Masekela.

The Principal of Flora Park Comprehensive High School spoke to **Polokwane Observer** when the school awarded their Gr 12 learners for their hard work during the first term. Masekela said the awards are part of the school's mission to be one of the top five schools in the district.

"The learners, who received the awards, do not need the motivation as they have already shown that they are motivated.

We need to get through to the other

learners because to achieve a 100% pass rate, the work starts in term one," he explained.

Masekela thanked all the teachers for their commitment towards quality results and urged them to continue to work as hard as they have, so that the school can transform into a centre for excellence.

Masekela further thanked Tshilidzi Mukwevho, a parent who donated R2 000, to be divided between the four school terms and award the top learner every term.

"The top learner will receive R500 sponsored by Mukwevho, and we wish to encourage other parents to do the same.

This will motivate our learners to work harder," he concluded.
