- GENERAL REHABILITATION: The environment affected by the prospecting operations will be rehabilitated by the holder, as far as is practicable, to its natural state or to a predetermined and agreed to standard or land use which conforms with the concept of sustainable development. The affected environment will be maintained in a stable condition that will not be detrimental to the safety and health of humans and animals and that will not pollute the environment or lead to the degradation thereof. FINAL REHABILITATION: All infrastructure, equipment, and other items used during the prospecting period will be removed from the site (section 44 of the MPRDA) Waste material of any description, will be removed entirely from the prospecting area and disposed of at a recognised landfill facility. It will not be permitted to be buried or burned on the site.
