1 OVERVIEW

The following document contains copies of the entire public participation process that has been run up to the completion of the final basic assessment report Version 03 (FBARV03). Please refer to Appendix E- DBARV01 (10/10/2017) and Appendix E- DBARV02 (06/08/2018) for a detailed public participation process for DBARV01 and DBARV02. Evidence of correspondence for DBARV01 and DBARV02 is included in this document in Appendix01 and Appendix02. The public participation process is facilitated by the independent assessment service provider (EndemicVision Environmental Services (Pty) Ltd.

The process to date is set out below:

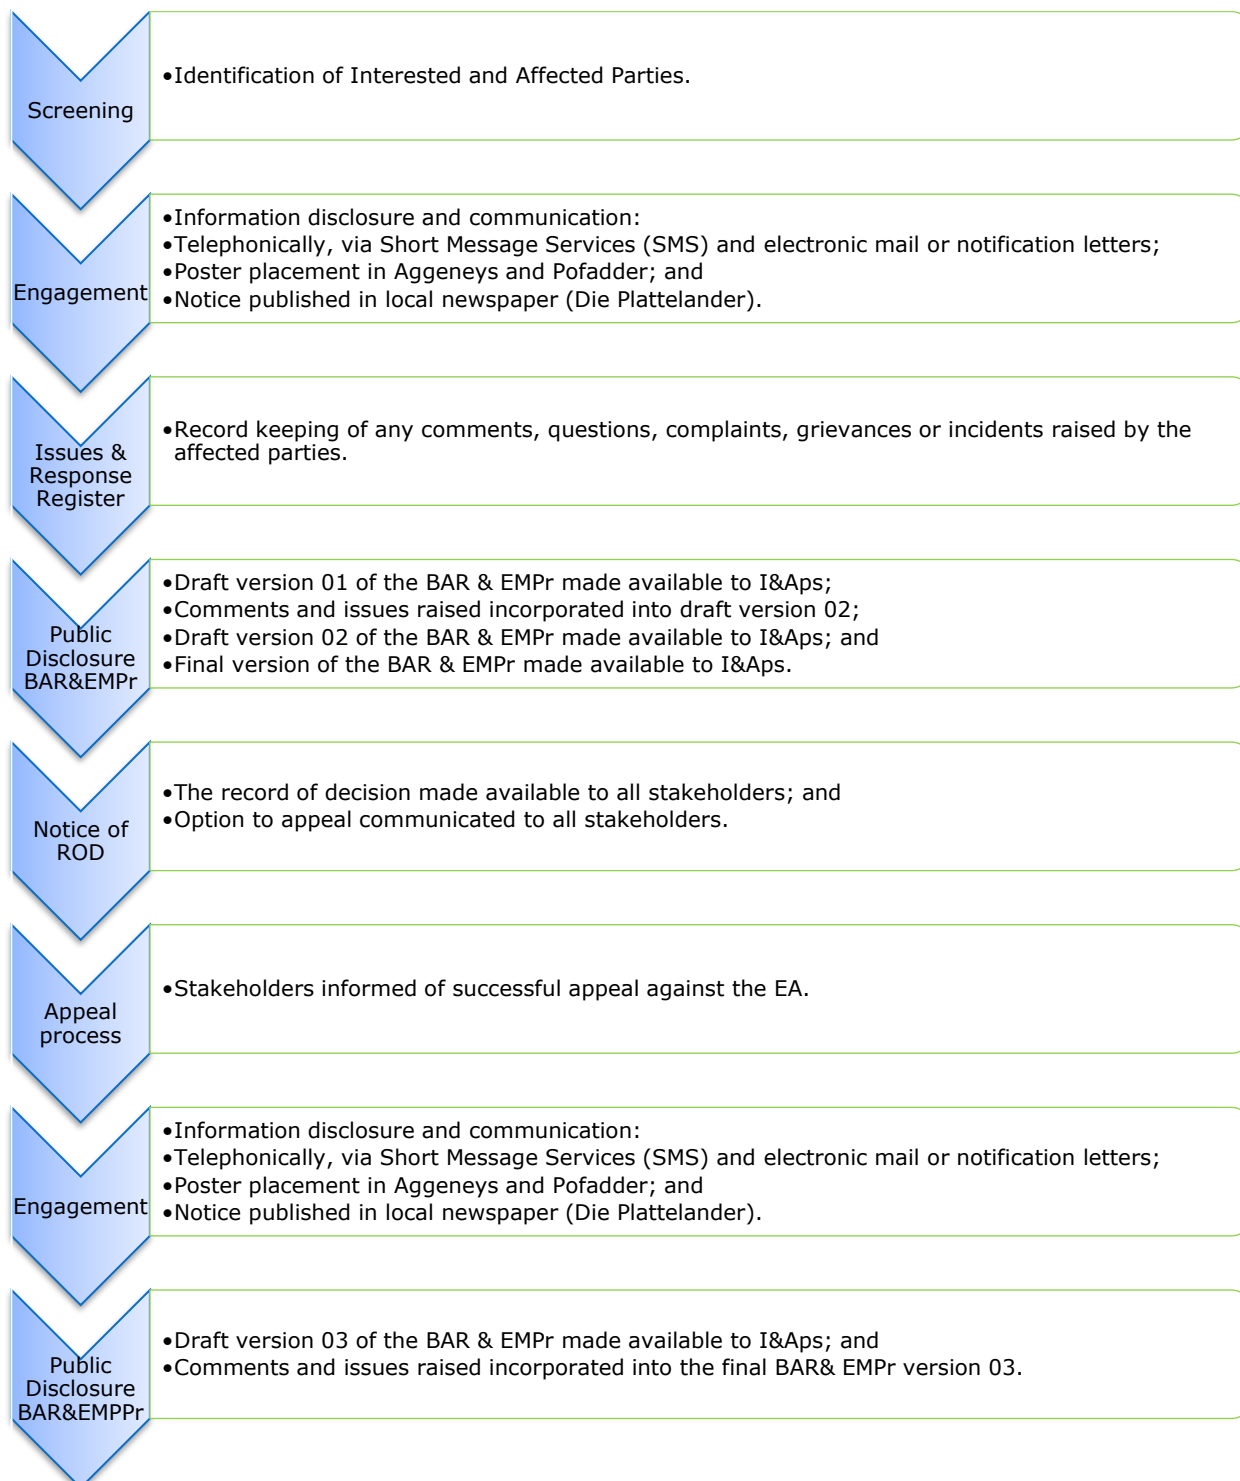

FIGURE 1: STAKEHOLDER ENGAGEMENT FRAMEWORK

Stakeholder engagement is based on the National Environmental Management Act, 1998 (Act No. 107 of 1998) and industry best practice guideline by the Department of Environmental Affairs and Development Planning, the guideline on public participation 2009. Guidance to stakeholder engagement in further phases will be based on comments and issues raised by stakeholders during the commenting period.

The EIA Regulations promulgated in June 2014 in GN R982, Chapter 6 specify the minimum requirements for public participation in an EIA under NEMA: The minimum requirements for public participation in an Environmental Impact Assessment under NEMA requiring public participation are sections 54, 55, 56, 57.

The proposed project and activities that will be undertaken must comply with both the National Environmental Management Act (No.107 of 1998) and the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

The public participation process for BARV03 commenced on 10/07/2020 and the provisional list of stakeholders were notified via email, advertisements, posters and SMS Notifications of its commencement. DBARV03 were made available to all identified stakeholders on 13/10/2020.

2 STAKEHOLDER PROFILE

The affected properties are owned by Black Mountain Mine (Pty) Ltd.

Other I&APs include Organs of State, who have jurisdiction over, or may have an interest in the proposed prospecting project. Adjacent landowners, other non-governmental organisations and/or private persons are included. A list of all the stakeholders is listed below and tabled in detail.

Adjacent landowners were identified through the use of Geographical Information Systems (GIS) maps and consultation with Black Mountain Mine Pty (Ltd) for contact details from their existing stakeholder list.

The project zone of influence is summarised in table 1 below.

TABLE 1: PROJECT ZONE OF INFLUENCE

Project Overview - Zone of Influence	
Formal land use zonation	Mining
Current land use	Mining
Existing Land Users	Black Mountain Mining (Pty) Ltd / Vedanta Plc
Adjacent land users	Farm Gams 60, Portion 4: Black Mountain Mine Farm Achab 59: Black Mountain Mine Farm Bloemhoek 61, Remaining extend: Albertus Roux Farm Kykgat 87, Portion 1: Tertius Visser Farm Bloemhoek 61, Portion 1: Black Mountain Mine Farm Aroams 57, Remaining extend: Black Mountain Mine
Main stakeholder groups	Adjacent landowners Local and District Municipalities Authorities: DWS, DENC, SAHRA, Land Affairs, DMR
Main organised forums	Farmers Union Succulent Society of South Africa (SSSA) Succulent Karoo Ecosystem Programme (SKEP)
Significant receptors	Aggeneys community & Adjacent landowners

Main Government commenting authorities	
1	Department of Environment, Forestry and Fisheries
2	Department of Water Affairs
3	Department of Land Affairs
Authorising and competent authorities	
1	Department of Mineral Resources and Energy
2	South African Heritage Resources Association

Stakeholder Categories and relevance to this project is detailed below.

Landowners

The properties of interest are Black Mountain Mine (Pty) Ltd owned land. The project areas properties form part of the existing mining right.

Communities

- Community Engagement Forum;
- Khai Ma Business Forum;
- Pofadder Landbou Vereniging;
- Farming Community Representative; and
- Boesmanland Farmers Union.

Traditional Leader

No traditional authority was identified for the affected property.

Land Claim

Not applicable.

Municipality

The project is located within the Namakwa District Municipality, in the Khâi-Ma Local Municipality, Northern Cape Province. Local and district municipalities were informed via email and an email to the local municipality councillor.

Relevant Government Departments

The following other departments were informed of the proposed project via e-mail:

- Department of Water and Sanitation (DWS); Kimberley, Regional;
- Northern Cape Department of Environmental Affairs & Nature Conservation (DENC); Upington, Kimberley, Springbok;
- Department of Mineral Resources and Energy (DMRE): Regional Manager Northern Cape & Springbok; and
- Land affairs.

Cultural and Heritage Significance

The South African Heritage Resource Agency (SAHRA) has been informed via the agency information system. The case was uploaded to SAHRIS with the draft documents and heritage report for comment.

Other interested/affected parties

-  Black Mountain Mine (Pty) Ltd;
-  Registered individuals;
-  WESSA;
-  SSSA;
-  EWT; and
-  BirdLife South Africa.

Other interested and/or affected parties were informed via poster placements in the towns of Pofadder, Aggeneys and Pella and a newspaper notification in the local newspaper (Die Plattelander), published 10/07/2020. A Background Information Document (BID) is available for further information on the project. All interested and registered parties were included in notification SMS or emails sent out (where cell phone and email contact details were available).

3 PUBLIC PARTICIPATION PROCESS

3.1 PROCESS TO DATE

To date the stakeholder list has been compiled to determine key stakeholders that will be engaged in the public participation process. This stakeholder list has been continuously updated throughout the participation process.

Initial notification of the DBARV03 is complete. Stakeholder engagement documents have been drafted and distributed to the general public and listed stakeholders notified via electronic mail and personal cell phone messages.

The Background Information Document (BID), advertisements and posters provided a short summary of the project and invite stakeholders to register as interested and/or affected parties. The following information was included:

-  EndemicVision Environmental Services (Pty) Ltd is the independent environmental assessment;
-  A simplified description of the proposed project, and a rationale for it;
-  A map indicating the extent of the proposed project area;
-  The public participation process for the Gamsberg East & South prospecting authorisation as an amendment to the approved Environmental Management Programme (EMPr) of Black Mountain Mine, Namaqualand, Northern Cape has commenced;
-  The Environmental Impact Assessment process and stakeholder engagement process to be followed;
-  That stakeholders are invited to register as an I&AP and to participate in the basic assessment process and public participation process; and
-  A description of how and when stakeholders can contribute during the environmental authorization and public participation process.

Stakeholders have been invited to register as I&APs and to participate in the process before or on 24/07/2020.

An advert was placed in the local newspaper 'Die Plattelander' on 10/07/2020 (refer to Section 9) and posters were distributed in Aggeneys, Pofadder and Pella on 10/07/2020 (refer to Section 8) at strategically positioned sites such as the library and other public places.

An updated BID has been sent to all stakeholders on 28/07/2020 with updated timeframes, extending the registration period to 12/08/2020 (refer to Section 11).

The DBAR / EMP Report V03 were made available to the stakeholders for review on 13/10/2020 and the commenting period ended on 12/11/2020.

All concerns and input received are addressed and presented as the FBAR / EMP Report Version 03.

The comments and response report for DBAR V03 has been opened and all comments received have been captured.

The following public participation activities have been performed to date:

TABLE 2: PUBLIC PARTICIPATION ACTIVITIES FOR DBARV03

Item	Date	Venue	Media	Communication Vehicle	Attendees	Recipients
Distribution of BID	10/07/2020	Pofadder, Aggeneys	Printed media	Verbal & Electronic mail	Not Applicable	General public
Advertisements Published: Die Plattelander	10/07/2020	Not Applicable	Printed media	Printed Media	Not Applicable	General public
Distribution of project posters	10/07/2020	Pofadder, Aggeneys	Printed media	Verbal & Printed Media	Not Applicable	General public
Distribution of BID V02	28/07/2020	Not Applicable	Printed media	Verbal & Electronic mail	Not Applicable	I&AP
Distribution of DBAR V03	13/10/2020	Not Applicable	Printed media	Verbal & Electronic mail	Not Applicable	I&AP

3.1.1 PUBLIC DISCLOSURE OF DRAFT BAR & EMP

The draft BAR and amended EMPr V03 were provided to all I&APs registered on the stakeholder database for a period of 30 days to allow I&AP the opportunity to comment on the findings of the EMPr.

3.1.2 CONCLUDING REMARKS ON STAKEHOLDER CONSULTATION

Concerns and issues have been received from various stakeholders and are presented in this document

These findings and comments are incorporated in this report.

3.1.3 PUBLIC DISCLOSURE OF FINAL BAR & EMP

Final documents will be distributed to all relevant stakeholders and regulatory response in terms of the Record of its Decision will be notified to all registered stakeholders.

3.1.4 APPEAL PROCESS

Stakeholders will be notified of their right to appeal. An appeal must be submitted to the Minister of Environmental Affairs and a courtesy copy of such an appeal to the Department of Mineral Resources (Northern Cape Regional Office), within 20 days from the date of notification, and such appeal must be lodged as prescribed in Chapter 2 of the National Appeal Regulations of 2014.

3.2 PLANNED STAKEHOLDER ENGAGEMENT PROCESS

The following timelines apply to the current stakeholder engagement process:

Activities	Date
Notification of intent to engage stakeholders (posters, electronic mail, telecom notice, advertisement)	10/07/2020
Availability of Amended Environmental Management Programme Reports to all registered stakeholders for comments	13/10/2020 to 12/11/2020
Submit Final BAR & amended EMPr Reports to authorities and availability to all registered stakeholders	20/11/2020

4 REGISTER OF INTERESTED & AFFECTED PARTIES

5 STAKEHOLDER COMMENTS AND RESPONSE REPORT

TABLE 4: STAKEHOLDER COMMENTS AND RESPONSE REPORT – TO DATE

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
Mrs. Tania Anderson	Private	14/07/2020	<p>1. Can I get details of the biodiversity offset agreement and the list of endemic species to be included in the offset properties? I'd like to see a copy of the offset agreement.</p> <p>2. More information on progress with the biodiversity offset. How many properties with endemic species have been purchased to date and declared protected areas? Do they have a Biodiversity Management Plan/conservation management plan and are they being managed effectively according to the plans?</p> <p>3. Can I get a copy of the 2019 independent auditor's report on the biodiversity offset agreement compliance? Also, a copy of the independent performance audit of the performance of the purchased offset areas?</p> <p>4. Is the farm Gams 60 one of the properties that is included in the offset agreement and meant to be a conservation area and declared a Protected Area? If so, prospecting and future mining will likely reduce the size of this offset area and reduce populations of species of conservation concern, and an additional Protected Area will be needed to offset losses on Gams 60.</p> <p>5. I assume the updated search, rescue and protection plan and specific EA conditions will be included in the amended EMPr for comment. Please send me a copy of the search, rescue and protection plan to see if all endemics will be successfully protected and to possible suggest mitigation measures.</p> <p>6. Can I get a report/review on the success of previous rescue and protection operations/translocation operations at Gamsberg as well as the survival rate of the rescued species? This will help to assess the effectiveness of this mitigation measure.</p>	14/07/2020 07/10/2020	<p>Thank you for your response regarding the Gamsberg South & East Environmental Authorization Application.</p> <p>We acknowledge your correspondence and look forward to your continued correspondence and input. Melissa Lewis has been added to the stakeholder list accordingly. A formal response regarding your concerns will be communicated to you soonest.</p>	Concerns addressed. Response letter available on request
Rene de Kock	SANRAL	13/07/2020	<p>Thank you for your email. In future, please forward all Environmental correspondence to Nicole Abrahams at abrahamsn@nra.co.za for comment. Please remove my name of your database.</p>	14/07/2020	Removed from database, Nicole Abrahams already consulted.	Resolved

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
Ina Basson	Pella Community	13/07/2020	Good day Mem as the community off Pella and land owners have a problem, we as the community want them to attend a community meeting in pure Afrikaans so that we know what they want to do on our land please because that mine's don't complied to us.	14/07/2020	Added to stakeholder list. Assured that future communication can proceed in Afrikaans.	Comments noted. Gamsberg situated on BMM (Pty) Ltd property, located app. 30km from Pella
Natasha Higgitt	SAHRA	13/07/2020	Thank you for the notification. Please upload the documents to the original SAHRIS application and change the status of the case to SUBMITTED.	14/07/2020	Documents will be uploaded as the project proceeds	Continues as the project develops
Andrew Young	German society for "other" succulents - Plant Science	14/07/2020	What are your concerns? -- Environmental impact on the succulent flora of inselbergs and surrounding land. Do you have information regarding the location or environmental features on site? -- Knowledge of succulent flora, especially threatened species. On which aspects would you require additional information? -- Remediation plans concerning disturbance or removal of flora; plans for nursery care including survival rates.	14/07/2020 07/10/2020	Thank you for your response regarding the Gamsberg South & East Environmental Authorization Application. We acknowledge your correspondence and look forward to your continued correspondence and input. A formal response regarding your concerns will be communicated to you soonest.	Concerns addressed. Response letter available on request
Seoka Lekota	Department of Environment, Forestry and Fisheries	15/07/2020	Please note that, the Directorate: Biodiversity Conservation hereby acknowledge receipt of Background Information Document (BID) on the above-mentioned project. However, the Directorate would only be able to comment on the proposed development during the submission of the Amended Environmental Management Plan for review.	20/07/2020	Thank you for your response regarding the Gamsberg South & East Environmental Authorization Application. We acknowledge your correspondence and look forward to your continued correspondence and input.	Continues as the project develops
Melissa Lewis	Birdlife South Africa	23/07/2020	Referral to letter dated 2 November 2017 from BirdLife South Africa -- Detailed comments. We look forward to reading and commenting on the amended EMPr Reports. We would like to reiterate several of our key concerns and indicate the aspects in respect of which we require additional information to inform our comments on the forthcoming reports. 1. We note that the appeal decision requires that the original biodiversity offset implementation agreement be augmented or replaced, and we trust that the new agreement will be made available to stakeholders and will be referred to for implementation in the EMPr. We remain of the view that the areas identified for offsets	28/07/2020 07/10/2020	Thank you for your response regarding the Gamsberg South & East Environmental Authorization Application. We acknowledge your correspondence and look forward to your continued correspondence and input. A formal response regarding your concerns will be communicated to you soonest.	Concerns addressed. Response letter available on request

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
			<p>should be secured by the applicant and declared as nature reserves or protected environments under the National Environmental Management: Protected Areas Act (Act No. 57 of 2003) before prospecting is authorised to commence. Please could we be provided with information regarding the steps that have thus far been taken to secure these areas and the systems that have been put in place for their management. We also request the most recent environmental audit reports for the existing mining operation, including information on the manner in which offset areas are being managed to compensate for the current mining footprint.</p> <p>2. We have previously raised concerns regarding this project's potential impacts on various threatened and/or range restricted endemic avian species. We have, in particular, stressed the importance of considering both direct and indirect impacts on the Red Lark (<i>Calendulauda burra</i>), whose preferred habitat type is marginally present within the proposed prospecting area and extensively present in surrounding areas. The habitat of this species is increasingly threatened by renewable energy applications and developments (resulting in a need to consider cumulative impacts) and its very limited range is projected to be under significant threat from climate change within the next 2-3 decades. We therefore request to be provided with any avifaunal assessments that have informed the revised EMPr, as well as information regarding the measures that the applicant is currently taking to monitor and conserve Red Lark populations in terms of its existing EMPr.</p>			
	DENC	07/08/2020	DENC asked for more information on the risk vs quality of the new drill plan and whether any harmful infrastructure will be left on site or whether it will be necessary to go back to the drill site at a later stage leading to any other future impacts.	07/08/2020	BMM explained the exact process of the adapted plan. Although the amount of drill holes on one site leads to unfavourable angles of drilling, new and approved modelling technology makes the adapted plan possible. BMM reassured DENC that this is an adjustment they are happy to make. It was further explained that the risk of the drill holes collapsing has been taken into account and using the latest technology of directional drilling it is possible to drill at shallow angles. The hole will also be	Resolved

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
					stabilised using environmentally friendly chemicals and cased off as far a possible using a steel casing.	
	DENC	07/08/2020	DENC also questioned whether the chemicals to be used during the drilling operation will be stated in the DBARV4.	07/08/2020	BMM explained that the drilling contractor is responsible for providing the list of chemicals to be used, which will then be approved or disapproved by BMM. This will thus only be available once the drilling contractor have been appointed. Drip trays and sheeting will be set up to contain any hazardous chemicals.	Continues as the project develops
	DENC	07/08/2020	DENC requested information on the location of the drill sites in relation to the drainage lines on Gamsberg.	07/08/2020	EndemicVision confirmed that all sites already have WUL authorisations.	Resolved
Mark Botha	Independent Specialist DENC	07/08/2020	Mark Botha noted that a challenging aspect i.t.o. rehabilitation on Gamsberg is to balance the efforts of assessment of impacts on such a micro scale while keeping an eye on the bigger picture in the region and what will be a sensible portion of impact assessment efforts for an appropriate offset outcome across the full suite of impacts. He also mentioned that it might be better not to link all the impacts such as the smelter and other impacts to this project to avoid additional challenges or appeals in this regard.	07/08/2020	Noted	Continues as the project develops
Elsabe Swart	DENC	07/08/2020	DENC also mentioned that there is a process underway, regarding the renewable energy aspect, with the working group which they call restricted land use areas. Criteria at this point includes what is driving the threat in the area that is sensitive or in a CBA up to ecological support areas. Final criteria are not finalised yet. Elsabe Swart noted that she can have a look at the criteria and send it to BMM to incorporate and align which way BMM can go forward. She also noted that she will try to align the criteria so that they don't have to work with several criteria and rather align to the national process where the same process will happen on a provincial level.	07/08/2020	BMM noted that they will have to make sure they align with that criteria as well as in the scope of work for the broader plan and submit as part of the cumulative impact assessment accordingly.	Continues as the project develops

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
	EndemicVision DENC	07/08/2020	EndemicVision asked for verification on the contact details and correspondence from DENC. EndemicVision corresponded on the 10 th of July and the 28 th of July 2020 with the following DENC employees: Elsabe Swart, Enrico Oosthuizen, Onwabile Ndzumo, Monnet Grey, Cazlyn Davids, Ralph van der Poll, and Brian Fisher. No read responses or acknowledgement of receipts were received from DENC. All other regulatory authorizations have responded to date. EndemicVision asked for confirmation that this correspondence was received	07/08/2020	No acknowledgment was received in this regard. DENC informed that Onwabile Ndzumo is no longer the impact officer in the Namakwa District. Nanine van Olmen are also no longer part of DENC, the acting director in her place is Mr. Given Pieterse. The email details for Mr. Given Pieterse were received, which is not working. The contact number is still outstanding. Mrs. Elsabe Swart noted that Mr. Abe Abrahams should indicate who the responsible person is for the acknowledgement of receipt.	Continues as the project develops
Peter Cloete	DENC	07/08/2020	Contact details for Mr. Aviwe Nyakaza, newly appointed Impact Officer for the Namakwa Region, have been provided by Mr. Peter Cloete from DENC for further correspondence regarding the Gamsberg South and East exploration application.	07/08/2020	Added to stakeholder list	Resolved
Elsabe Swart	DENC	11/08/2020	With regard to contingency on a departmental level, Director Abe Abrahams will have to provide guidance. The official recording of receipt of documentation needs to be resolved internally. In my opinion it must be acknowledged through the Environmental Unit Pr4 as the Offset originates from a former DENC EA issued. For future acknowledgement of receipt, it should be with Pr5 (if the future offset aspects are registered with DEFF as workshopped previously) as offsets will be handed to Pr5 under Protected Areas. From where official receipt acknowledgement is captured for record, it can be shared with relevant internal units as needed while recording tracking is done as well. Senior Management will have to nominate a Senior Manager to replace Nanine to ensure activities she attended in the past will still be addressed / attended to (coordination, Steering Committee, etc.). If they feel they cannot nominate a person, they should indicate how the interim period will be managed until such time someone is delegated. Central filing of meeting minutes, communications, negotiations, offset agreements, etc. must be resolved internally. I am unclear of how filing and server capacity is / will be after the merger process has been completed. Also, not clear how these need to be addressed prior to merger finalization - again guidance from Senior Management is	11/08/2020	Noted	Continues as the project develops

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
			needed on how they would want to handle it.			
	DENC	01/10/2020	Does scaffolding refer to floating lay down areas over the sites?	01/10/2020	Yes, minimising contact with the ground. Platforms and PVC liners were used in 2010, reducing pollution impacts from hydrocarbons, sludge, and drill chips.	Resolved
	DENC	01/10/2020	Please align terminology across all documents – refer to restoration instead of rehabilitation. If you use rehabilitation, please define what this entails.	01/10/2020	Final report updated to include definitions.	Resolved
	DENC	01/10/2020	Will soil compaction from heavy machinery does not limit rehabilitation potential (with reference to soil chemistry not being a major limiting factor)?	01/10/2020	Compaction does affect rehabilitation potential. Loosening of the soil may be required where drill rigs stood. A detailed restoration plan is however not part of the scope of the offset recalculation but is a recommendation of the report.	Resolved
	DENC	01/10/2020	I presume dust from drilling will be a short-term issue (assuming the drilling takes place over a short period of time). Also, low dust generation on the gravels. Sustained dust generation from continued blasting activity is probably more of concern. Dust accumulation over years may not remain on the plains themselves but will probably transfer/become embedded in the surrounding soil due to years of build-up. Just to think of... Could affect return to pre-mine state.	01/10/2020	There are no significant dust impacts from drilling as water regulated drilling will take place. This is also called diamond drilling as appose to percussion drilling. No percussion drilling is planned on the current prospecting plan. Dust impact is a mining impact and has an effect on the plant diversity and vegetation structure. Dust impacts (by personal observation) is evident, specifically in C4 plants on Gamsberg. Dust impacts will increase as darker bedrock material is mined later in the life of mine.	Resolved
	DENC	01/10/2020	The plan of the drilling. What is the purpose of the drilling activity? Will the existing drilling layout be sufficient, or will the mine have to go back to drill more later? If the proposed drilling results are positive, what is the vision of the mine going forward?	01/10/2020	The aim is to find the existing orebodies. It is known fact that there is an existing ore body. The level of confidence of this ore body is inferred, BMM aim to increase this to an indicated ore body. Using the existing knowledge of the orebodies, the proposed prospecting plan will be sufficient to deliver the target, however, if the shape of the orebodies	Resolved

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
					<p>significantly changes, the plan may need to be amended. Based on BMM's current knowledge, no new sites will be required, but if the orebody changes in size and shape due to new drilling, there might be a need for additional sites. This should not be considered a "piecemeal" approach, as BMM are using the knowledge they have at hand for planning, and cannot predict these possible changes in ore morphology Gamsberg is like a sock, the perimeter of the mountain is the edge of the sock, the ore is a sheath fold with Gamsberg North having the one side of the sock and overturn on eastern side. The quality of ore varies in thickness and concentration in metals. The mineralization only starts at 350meters at Gamsberg East and South. This makes it unpractical to consider open pit mining in the eastern side. Ore dipping is also amenable to underground mining as appose to open pit mining. With the current knowledge of the orebodies at Gamsberg East and South, open pit mining will not be considered, but the possibility of underground mining would be preferred due to the depth and morphology of the respective orebodies.</p>	
	DENC	01/10/2020	How long will it take to publish the DBAR V03?	01/10/2020	The EAP will aim to publish the DBAR V03 within the next week.	Resolved

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
Natasha Higgitt	SAHRA	15/10/2020	Thank you for the notification. Please upload the documents to the relevant SAHRIS Case application and change the status of the case to SUBMITTED. Please inform me when this has been completed and provide the Case ID number.	15/10/2020	CaseID: 11768 The DBARV03 and accompanying documents have been uploaded to the case as requested. Please note that a final comment was issued for this project on 29/05/2018. Since this comment an updated Phase 1 Heritage Impact Assessment was conducted in 2019 and the DBAR have been updated to Version 03.	Resolved
Andrew Young	Mesemb Study Group	09/11/2020	Comments from the Mesemb Study Group. We welcome the detailed response letter dated 14/09/2020 from Vedanta Zinc International and recognise the work with Dr. Phillip Desmet and Mark Botha to revise the original proposals in light of the environmental concerns that we originally raised. The assessment report and environmental management plan is a detailed document that provides many reassurances regarding the proposed developments on Gamsberg. In particular we note the substantive revision to the drill plan for the Gamsberg east / south area and the work done to complete the baseline assessment of flora, transplanted plants etc. Together the mitigation measures proposed should help reduce the impact on indigenous flora, including threatened endemics, when compared to the original plans. We would like to highlight the following points that we believe are important to consider: 1. Training of staff who will be working in / adjacent to (i.e. acting as a buffer zone) sensitive areas is of critical importance. Given the highly cryptic nature of some of the flora (meaning that they are very easily overlooked, even by experts), anyone working in the area should ideally have training in the field' rather than 'in the classroom' (it is not clear what is proposed). 2. In addition to the measures being taken on-site to reduce the adverse impact of the mining activities, the importance of ex-situ conservation cannot be overstated. We therefore welcome the revised plans for the upgrade of facilities and the management plans for the nursery including the training of nursery staff. Whilst we understand that monitoring sheets are 'available' we	09/11/2020 20/11/2020	Thank you for your response regarding the Gamsberg South & East Environmental Authorization Application. We acknowledge your correspondence. A formal response regarding your concerns will be communicated to you soonest.	Concerns addressed. Response letter available on request

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
			<p>would like to see regular updates from the nursery (number of specimens for each species, survival rates, propagation etc.) published online (ideally) as an example of best practice and openness. Have all the nursery infrastructure improvements been made on-time (September 2020), as stated in the response letter?</p> <p>3. The remediation of the site(s) is an important element of the revised application. The involvement of specialists in the development of the SRT protocol (V02) is a positive development. Similarly, the role of SANBI (Karoo Gardens) in both seed collection and grow-on of donated plants is recognised as an important and positive step. We also welcome the proposed rehabilitation of those areas which have been negatively impacted by historical activities.</p> <p>4. Post-rehabilitation monitoring is planned for several points over at least a 10-year period. However, drone monitoring alone will not be sensitive enough to monitor the (re)establishment on much of the threatened and sensitive flora found on the Gamsberg which can be very cryptic. In addition, the timing of any such monitoring of the flora is critical. On-site (not remote) assessment of the flora therefore needs to be carried out by experts (or properly trained personnel), especially in the first few years following site remediation measures. Who will perform the monitoring and will the results be made available to interested parties., ideally after each assessment takes place? This will help ensure compliance, identify 'technical' issues arising and ultimately the identification of best practice.</p>			
Gerhard Visser	Pofadder Farmers Union	10/11/2020	<p>The following issues need to be address and need to be part of the EMPR. Security in the surrounding communities need to be urgently be installed due to influx of foreigners to the area.</p> <p>The increased water needed for this development can under no circumstance interfere with Vedanta's responsibility to supply the neighbouring farmers with water should the mining activities on Gamsberg affect the underground water levels. As per Impact Management Agreement (2013) between the neighbouring farmers and BMM. Our supply takes first priority.</p>	11/11/2020 20/11/2020	<p>Thank you for your response regarding the Gamsberg South & East Environmental Authorization Application. We acknowledge your correspondence. A formal response regarding your concerns will be communicated to you soonest.</p>	Concerns addressed. Response letter available on request
Natasha Higgitt	SAHRA	12/11/2020	<p>A final comment has been issued to CaseID: 11768 The DBAR notes no-go heritage areas (SG1, SG4-SG7) and that the impact remains consistent for this third</p>	20/11/2020	<p>Thank you for your continued correspondence and assistance in this project. 			<p>layout (V03) with the initial layout (V01) assessed in 2018 and 2019 as stated on page 63 of the report. Conditions provided in the second version of the layout (V02) are to be included in V03 of the layout as shown in Appendix I page 2 and 3. The 2019 report had not yet been submitted for comment and will be discussed below: Rossouw, L. 2019. Phase 1 Heritage Impact Assessment for the proposed exploratory drill holes on the Gamsberg inselberg on Portion 1 of the farms Gams 60, Khai-Ma Local Municipality, NC Province. Weathered Stone Age artefacts were identified at the drill site localities, all of low significance. The previously discussed "Inkruip" Bushman Massacre site was discussed in this report, noting that it is located 2.5 km from the closest drill site in the basin and 1.8 km from the nearest drill site on the top of the inselberg. Recommendations include the permanent no-go buffer for the Inkruip ravine. The following comments are made as a requirement in terms of section 3(4) of the NEMA Regulations and section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and must be included in the Final BAR and EMPr:</p> <ul style="list-style-type: none"> - 38(4)a - The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit has no objections to the proposed development; - 38(4)b - The recommendations of the specialists are supported and must be adhered to. Further additional specific conditions are provided for the development as follows: <ul style="list-style-type: none"> - A report on the investigation of the final positions of the boreholes and access roads must be conducted by a qualified archaeologist and submitted to SAHRA for review and comment prior to the construction phase. No construction activities may occur without comments from SAHRA; - If the prospecting shows that full scale mining is feasible, a comprehensive study inclusive of relevant stakeholder consultation must be conducted as part of the EA and Mining Right Application process to investigate the Inkruip Massacre site. This is a neglected portion of South Africa's history and must be fully understood before any development may occur; - 38(4)c(i) - if any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, 		the final comment will be included in the FBAR (V03)	request

Interested and Affected Parties	Company	Date Comments Received	Comments/ Issues	Date of response	Response	Consultation Status
			<p>indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations) fossils or other categories of heritage resources are found during the proposed development, SAHRA APM Unit (Natasha Higgitt/ Phillip Hine 021 462 5402) must be alerted as per section 35(3) of the NHRA. Non-compliance with section of the NHRA is an offence in terms of section 51(1) of the NHRA and item 5 of the Schedule;</p> <p>- 38(4)c(ii) - if unmarked human burials are uncovered, the SAHRA Burial Grounds and Graves (BGG) Unit (Thingahangwi Tshivhase/ Mimi Seetelo 012 320 8490), must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offence in terms of section 51(1)e of the NHRA and item 5 of the Schedule;</p> <p>- 38(4)d - See section 51(1) of the NHRA;</p> <p>- 38(4)e - The following conditions apply with regards to the appointment of specialists:</p> <p>i) if heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resourced prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA;</p> <p>- The Final BAR and EMPr must be submitted to SAHRA for record purposed;</p> <p>- The decision regarding the EA Application must be communicated to SAHRA and uploaded to the SAHRIS Case application.</p>			

6 MEETINGS

Meeting: Gamsberg SE Exploration Optimisation, Infield Assessment Scope and DBAR Meeting (07/08/2020)

A meeting was held between BMM (Pty) Ltd, independent specialists, DENC and EndemicVision (Pty) Ltd on 07/08/2020. Minutes are available on request.

Purpose of meeting:

Meetings have been held between BMM, Mark Botha and Phill Desmet to determine the best way forward. This meeting was scheduled to get input from DENC on the decisions made to date regarding the new drill layout and the strategic biodiversity plan. Input received during this meeting will also be used as a guide during the infield flora baseline and impact site-specific assessments planned with Phil Desmet.

Attendees:

TABLE 5: ATTENDEES FOR MEETING HELD ON 07/08/2020

Present	Company	Mobile	Email
Jacobus Smit	Black Mountain Mining (Pty) Ltd	072 289 8560	JHSmit@vedantaresources.co.za

Elsche Cronje	EndemicVision Environmental Services (Pty) Ltd	072 182 6937	ec@endemicvision.co.za

Agenda:

- › Opening and welcome;
- › Consultation with DENC regarding the new drill plan for Gamsberg South and East proposed project;
- › Consultation with DENC on BMM's Strategic Biodiversity Plan;
- › Stakeholder engagement status for the Gamsberg South and East proposed project; and
- › Way forward.

Meeting: DENC Feedback – Gamsberg SE Optimisation (01/10/2020)

A meeting was held between BMM (Pty) Ltd, independent specialists, DENC and EndemicVision (Pty) Ltd on 01/10/2020. Minutes are available on request.

Purpose of meeting:

This is the second engagement with DENC with regards to the Gamsberg ES process. This meeting is important to get DENC input and recommendations.

Attendees:**TABLE 6: ATTENDEES FOR MEETING HELD ON 01/10/2020**

Present	Company	Details
Chrizette Neethling	EndemicVision	Environmental Assessment Practitioner
Koos Smit	BMM	Biodiversity Manager
Phil Desmet	Independent Specialist	Ecologist Botanist
Mark Botha	Independent Specialist	Biodiversity Offset specialist
Elsabe Swart	DENC	Research and Development Support Unit
Conrad Geldenhuys	DENC	Research and Development Support Unit
Stuart Sepetla	BMM	Health, Safety and Environment Manager
Hermien Uys	BMM	Head of Legal – VZI international
Peter Cloete	DENC	Research and Development Support Unit
Westley Price	BMM	Exploration Geologist

Apologies:

- › Markus Schaefer – BMM VZI GM Exploration; and
- › Abe Abrahams – DENC Director Biodiversity Manager.

Agenda:

- › Opening, Welcome;
- › Introduction;
- › Attendance and Apologies;
- › Objective of Meeting;
- › Findings of infield assessment at 28 exploration drilling sites, impacts and recommendations and recalculation of offset based on exploration optimisation footprint;
- › Discussion, questions and comments;
- › Way forward; and
- › Closing remarks

AMENDMENT OF THE APPROVED ENVIRONMENTAL MANAGEMENT PROGRAMME IN TERMS
OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002
(ACT 28 OF 2002) ON PORTION 1 OF THE FARM GAMS 60, NAMAQUALAND, NORTHERN CAPE

– Invitation to participate, register and comment

Black Mountain Mining

Gamsberg Mine, a Black Mountain Mine (Pty) Ltd operation was granted environmental authorisation to expand its prospecting program on Gamsberg East and South by the Department of Mineral Resources on 19 February 2019. An appeal was lodged against the decision.

The prospecting expansion area of interest is situated approximately 47 km east from Aggeneys, on Portion 1 of Farm Gams 60, within the Khai-Ma Local Municipality and Namakwa District Municipality, Northern Cape Province.

Before the proposed project may go ahead, the following requirements of the appeal decision must be met:

- Update the plant search, rescue and protection plan;
- Indicate specific environmental authorisation conditions;
- Subject the search, rescue and protection plan and environmental authorisation conditions to public commenting process;
- Biodiversity offset areas should be determined to be appropriate to species that are endemic to the Gamsberg and
- That the original biodiversity offset implementation agreement between the applicant and the Northern Cape Department of Nature Conservation be augmented or a new agreement be entered for the Gamsberg prospecting.

The following authorisation has relevance:

- Section 102 Amendment of the approved EMPr in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). ROD reference number: NCG30/5/1/2/3/2/1 as authorised by the Department of Mineral Resources, Northern Cape Province.

The listed NEMA activities triggered by the undertakings are:

- Activity number 20 of NEMA GN.R.327 (Listing Notice 1)
- Activity number 22 of NEMA GN.R.327 (Listing Notice 1)
- Activity number 12 of NEMA GN.R.324 (Listing Notice 3)

EndemicVision Environmental Services (Pty) Ltd has been appointed as the independent environmental assessment practitioner, to update the approved environmental management plan and undertake the stakeholder engagement process for the amended environmental management plan.

Stakeholders are invited to engage in the process by submitting issues of concerns and suggestions to the amended environmental management plan. Parties wishing to register as Interested and Affected Parties (I&AP) who wish to participate should please register or submit their correspondence in writing to reach EndemicVision (Pty) Ltd no later than 24 July 2020.

Due date for initial comments and stakeholder registration: 24 July 2020

FIGURE 9: GAMSBERG EAST & SOUTH PROJECT POSTER –10/07/2020

11 BACKGROUND INFORMATION DOCUMENT

Background

Gamsberg Mine, a Black Mountain Mine (Pty) Ltd operation was granted environmental authorisation to expand its prospecting program on Gamsberg East and South by the Department of Mineral Resources on 19 February 2019. An appeal was lodged against the decision.

Before the proposed project may go ahead, the following requirements of the appeal decision must be met:

- Update the plant search, rescue and protection plan;
- Indicate specific environmental authorisation conditions;
- Subject the search, rescue and protection plan and environmental authorisation conditions to public commenting process;
- Biodiversity offset areas should be determined to be appropriate to species that are endemic to the Gamsberg and
- That the original biodiversity offset implementation agreement between the applicant and the Northern Cape Department of Nature Conservation be augmented or a new agreement be entered for the Gamsberg prospecting.

Purpose of this document

EndemicVision Environmental Services (Pty) Ltd has been appointed as the independent environmental assessment practitioner, to update the approved environmental management plan and undertake the stakeholder engagement process of the amended environmental management plan.

This document intends to:

- Inform interested and affected parties (I&APs) of the amendment;
- Invite comment and input into the process.

Aim of the Submission

The aim of the stakeholder engagement process is to fulfil the requirements of the appeal decision and invite public comment of the amended environmental management plan.

Authorisation and Activities

The following authorisation has relevance:

- Section 102 Amendment of the approved EMPr in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). ROD reference number: NC30/5/1/2/3/2/1 as authorised by the Department of Mineral Resources, Northern Cape Province.

NEMA Government Notice R327 (2017) and Government Notice 324 (2017) lists activities that require a basic assessment under section 24(2) and 24(D) of the National Environmental Management Act, 1998. The following listed activities have been triggered by the proposed prospecting and related infrastructure:

- **Activity number 20 of GN.R.327 (Listing Notice 1):** "Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No.28 of 2002), including associated infrastructure, structures and earthworks, directly related to prospecting of a mineral resource..."

<p>EMPr Amendment – Stakeholder Engagement Process Black Mountain Mining (Pty) Ltd</p> <ul style="list-style-type: none"> ➤ Activity number 22 of GN.R.327 (Listing Notice 1): <i>"The decommissioning of any activity requiring – (ii) a prospecting right ..., where the throughput of the activity has reduced by 90% or more over a period of 5 years..."</i> ➤ Activity number 12 of GN.R.324 (Listing Notice 3): <i>"The clearance of an area of 300 square metres or more of indigenous vegetation..."</i> <p>Activities will include the reopening and utilisation of all previously existing access tracks / prepared roadways, passing & turning areas and demarcated laydown areas, access or clearance and drilling on all drill sites on Gamsberg East and South</p> <h2>Stakeholder Engagement</h2> <p>The objectives of this stakeholder engagement process are to provide:</p> <ul style="list-style-type: none"> ➤ I&APs with adequate information to understand the potential environmental and socio-economic impacts associated with the proposed project and opportunities for them to comment; ➤ the project team with information that will assist them to incorporate effective measures into the plan and execution of the prospecting activities to minimise negative impacts and enhance benefits of the project; and ➤ the regulatory authorities with sufficient information to serve as a basis for sound decision making. <h2>Public Participation</h2> <p>You are invited to engage in the process by submitting issues of concerns and suggestions to the amended environmental management plan. Parties wishing to register as Interested and Affected Parties (I&AP) who wish to participate should please register or submit their correspondence in writing to reach EndemicVision (Pty) Ltd no later than 24 July 2020.</p>	<p>Background Information Document</p> <h3>How can you get involved?</h3> <ul style="list-style-type: none"> ➤ Register as an I&AP ➤ Propose ideas to solve problems that arise during the consultation process ➤ Voice your concerns about proposals and their potential impacts ➤ Assist with information that will contribute to a thorough study and basic assessment. <h3>Benefits of registering as an I&AP</h3> <p>As a registered I&AP, you are entitled to the following:</p> <ul style="list-style-type: none"> ➤ Project and assessment information ➤ Opportunities to raise issues and concerns throughout the process ➤ Notices to inform you of reports for public comment ➤ Opportunity to comment on reports to find out if your issues and concerns were addressed <p>Please refer to the Registration/Comment Form attached.</p> <p>Public participation is a key component of environmental decision-making and will take place throughout the BAR process.</p> <h2>Project Description & Location</h2> <p>Gamsberg Mine, a Black Mountain Mining (Pty) Ltd operation, has embarked on a project to extend their exploration efforts to include Gamsberg South and East Operation on Farm Gams 60, Portion 1.</p> <p>The applicable area is situated approximately 47 km east from Aggeneys, within the Khâi-Ma Local Municipality and Namakwa District Municipality, Northern Cape Province.</p> <p>The proposed prospecting programme involves both non-invasive and invasive prospecting methods. Initially, prospecting activities will be non-invasive with the proposal to have invasive prospecting thereafter.</p>

Your registration and comments are important to this process.

You are invited to raise issues of concern, identify opportunities and provide suggestions associated with the proposed project, pertaining to potential positive or negative environmental and social impacts which should be investigated during the process.

You are invited to register as an I&AP for this project. If you wish to be registered, please complete attached registration form and return to EndemicVision (details below)

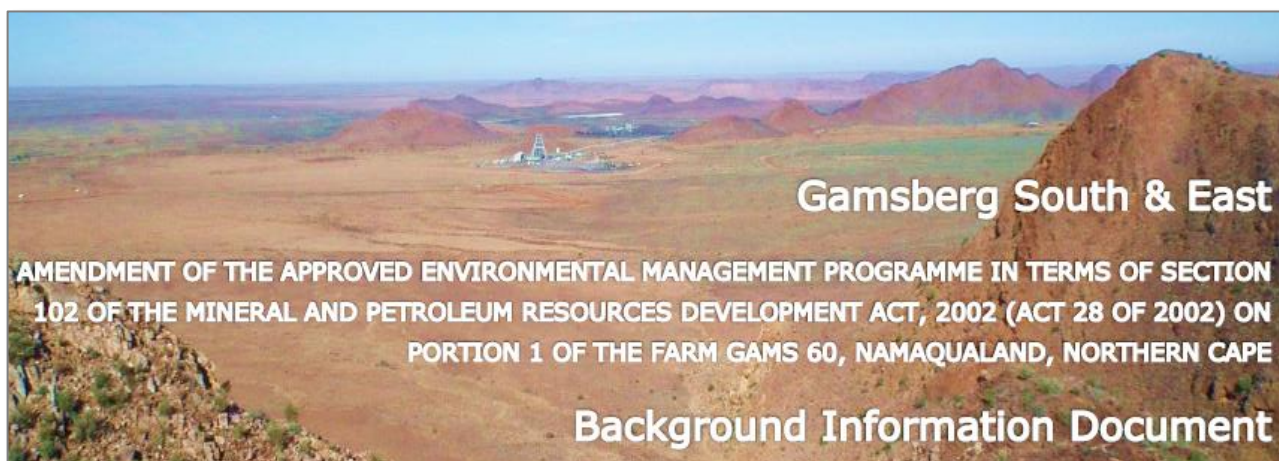

On behalf of: Black Mountain Mining (Pty) Ltd

We thank you for your participation

FIGURE 13: BACKGROUND INFORMATION DOCUMENT –10/07/2020 (P.4)

Gamsberg South & East

AMENDMENT OF THE APPROVED ENVIRONMENTAL MANAGEMENT PROGRAMME IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) ON PORTION 1 OF THE FARM GAMS 60, NAMAQUALAND, NORTHERN CAPE

Background Information Document

Background

Gamsberg Mine, a Black Mountain Mine (Pty) Ltd operation was granted environmental authorisation to expand its prospecting program on Gamsberg East and South by the Department of Mineral Resources on 19 February 2019. An appeal was lodged against the decision.

Before the proposed project may go ahead, the following requirements of the appeal decision must be met:

- Update the plant search, rescue and protection plan;
- Indicate specific environmental authorisation conditions;
- Subject the search, rescue and protection plan and environmental authorisation conditions to public commenting process;
- Biodiversity offset areas should be determined to be appropriate to species that are endemic to the Gamsberg and
- That the original biodiversity offset implementation agreement between the applicant and the Northern Cape Department of Nature Conservation be augmented or a new agreement be entered for the Gamsberg prospecting.

Purpose of this document

EndemicVision Environmental Services (Pty) Ltd has been appointed as the independent environmental assessment practitioner, to update the approved environmental management plan and undertake the stakeholder engagement process of the amended environmental management plan.

This document intends to:

- Inform interested and affected parties (I&APs) of the amendment;
- Invite comment and input into the process.

Aim of the Submission

The aim of the stakeholder engagement process is to fulfil the requirements of the appeal decision and invite public comment of the amended environmental management plan.

Authorisation and Activities

The following authorisation has relevance:

- Section 102 Amendment of the approved EMPr in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). ROD reference number: NC30/5/1/2/3/2/1 as authorised by the Department of Mineral Resources, Northern Cape Province.

NEMA Government Notice R327 (2017) and Government Notice 324 (2017) lists activities that require a basic assessment under section 24(2) and 24(D) of the National Environmental Management Act, 1998. The following listed activities have been triggered by the proposed prospecting and related infrastructure:

- **Activity number 20 of GN.R.327 (Listing Notice 1):** "Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No.28 of 2002), including associated infrastructure, structures and earthworks, directly related to prospecting of a mineral resource..."

Dear Stakeholder

**Gamsberg South and East Prospecting Project: Environmental Authorisation for Prospecting Activities, Portion 01 of Gams 60,
Reference number: NC30/5/1/2/3/2/1,
Namaqualand Magisterial District, Northern Cape Province**

Gamsberg Mine, a Black Mountain Mine (Pty) Ltd operation was granted environmental authorisation to expand its prospecting program on Gamsberg South and East by the Department of Mineral Resources on 19 February 2019. An appeal was lodged and the DEA requirements in terms of the appeal is being addressed.

The following authorisation has relevance:

- Section 102 Amendment of the approved EMPr in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). ROD reference number: NC30/5/1/2/3/2/1 as authorised by the Department of Mineral Resources, Northern Cape Province.

The prospecting expansion area of interest is situated approximately 47 km east from Aggeneys, on Portion 1 of Farm Gams 60, within the Khâi-Ma Local Municipality and Namakwa District Municipality, Northern Cape Province.

Stakeholders are invited to engage in the process by submitting issues of concerns and suggestions to the amended environmental management plan. Parties wishing to register as Interested and Affected Parties (I&AP) who wish to participate should please register or submit their correspondence in writing to reach EndemicVision (Pty) Ltd.

Background information document is attached for your consideration.

Due date for initial comments and stakeholder registration: 24 July 2020

Questions and feedback can be directed to Elsche Cronje; EndemicVision Environmental Services (ec@endemicvision.co.za OR fax to 086 590 7261 OR post to P.O. Box 2061, Kathu, 8446)

Gamsberg South & East Environmental Authorisation Application
APPLICATION FOR AMENDMENT OF THE APPROVED ENVIRONMENTAL MANAGEMENT PROGRAMME IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) ON PORTION 1 OF THE FARM GAMS 60, NAMAQUALAND, NORTHERN CAPE
ROD Reference number NCS 30/5/1/2/3/2/1

Dear Stakeholder

Black Mountain Mine (Pty) Ltd was granted Environmental Authorisation to expand its prospecting program on Gamsberg South and East by the Department of Mineral Resources on 19 February 2019. An appeal was lodged against this decision.

In light of this, a revised draft Basic Assessment Report (DBAR Version 03) were compiled with the accompanying appendices to address the concerns highlighted in the appeal.

The draft Basic Assessment Report (V03) for the Gamsberg South & East Environmental Authorisation Application is available for review.
