1. OVERVIEW

The following document contains copies of the entire Public Participation Process that has been run up to the completion of the Basic Assessment Report (BAR).

The Public Participation Process was planned and facilitated by the independent assessment service provider (EndemicVision Environmental Services) following the following framework:

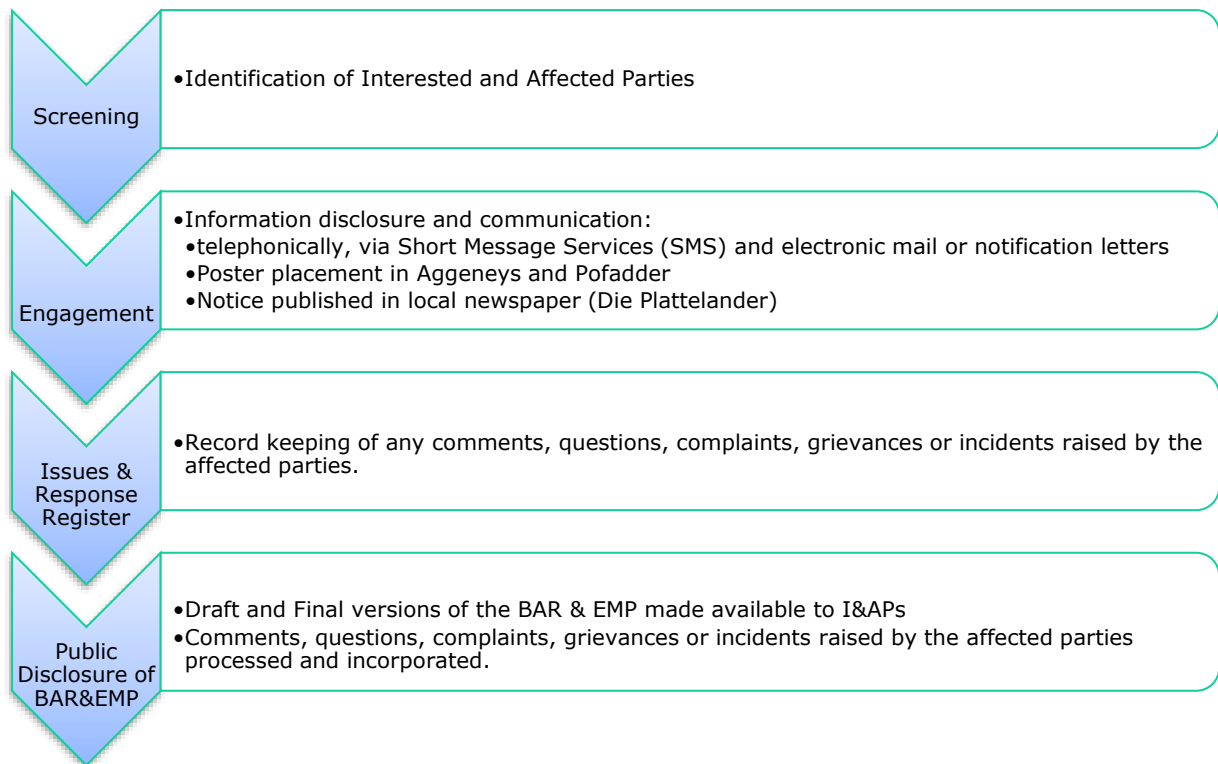

FIGURE 1: STAKEHOLDER ENGAGEMENT FRAMEWORK

Stakeholder engagement was based on the National Environmental Management Act, 1998 (Act No. 107 of 1998) and industry best practice guideline by Department of Environmental Affairs and Development Planning, Guideline on Public Participation 2009. Guidance to stakeholder engagement in further phases will be based on the suggestions that will be made in the Environmental Management Plan (EMP) on the basis of the outcome of the stakeholder engagement process and the subsequent environmental authorization.

Chapter 1 of the NEMA outlines the principles of environmental management, several pertaining to public participation; and

The EIA Regulations promulgated in June 2014 in GN R982, Chapter 6 specify the minimum requirements for public participation in an EIA under NEMA:

The minimum requirements for public participation in an Environmental Impact Assessment under NEMA requiring public participation are sections 54, 55, 56, 57.

The public participation process commenced on 2017/08/04 and the provisional list of stakeholders were notified via SMS Notifications of its commencement.

To date a key stakeholder list has been compiled to determine the key stakeholders that will be engaged in the public participation process. This stakeholder list will continuously be updated throughout the participation process. A Comments & Response Report has also been compiled from all comments received from I & APs.

Communication documents have been drafted and distributed to the general public and identified stakeholders via electronic mail or other requested methods. This includes the Background Information Document (BID); posters and advertisements.

The BID contains the following information:

- A simplified description of the proposed project, and a rationale for it,
- A map indicating the extent of the proposed project area,
- The Environmental Impact Assessment Process and Stakeholder Engagement Process to be followed,

Invitations to register as an I&AP and to participate in the basic Assessment Process and Public Participation Process and a description of how and when stakeholders can contribute during the environmental authorization and Public Participation Process was sent to I&APs via electronic mail, SMS Notifications or other requested methods.

The posters and advertisements indicate that EndemicVision Environmental Services initiated the public participation process for the Gamsberg East & South Prospecting Authorisation as an amendment to the approved Environmental Management Programme (EMPr) of Black Mountain Mine, Namaqualand, Northern Cape.

Furthermore, it indicated the purpose of the proposed project, the activities that will be undertaken, as well as the fact that a Basic Assessment Report (BAR) process need to be completed in terms of the National Environmental Management Act (No.107 of 1998) and the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

Lastly the advertisement specified that EndemicVision Environmental Services (Pty) Ltd. has been appointed to conduct the Basic Assessment and Public Participation Process for the project. Subsequently stakeholders have been invited to register as I&APs and to participate in the process before or on 2017/09/15.

An advert was placed in the local newspaper 'Die Plattelander' on 04 August 2017 and posters were distributed on the Gamsberg and Pella site on 01 August 2017 and in the nearby towns, Pofadder and Aggeneys at strategically positioned sites such as the library and other public places on 02 and 03 August 2017 respectively.

A regulatory waiting period of 30 days has been given for stakeholders to register as interested and/or affected (I&APs).

The DBAR / EMP Report were made available to the stakeholders for review on 10 October 2017 and the commenting period ended on 24 November 2017. Numerous responses were received, amongst which the main requirement is the calculation of biodiversity risk and possible offset requirements of the affected area. To address these concerns adequately, different specialists were appointed in January 2018. All concerns are addressed and presented as the DBAR / EMP report version 02. The regulatory commenting period will then allow for final comments and response on the revised draft BAR / EMP Report.

After the competent authorities have accepted/denied the FBAR / EMP Report, registered I&APs will be notified of authorities' decision and appeals procedure.

2. STAKEHOLDER PROFILE

The affected properties are owned by Black Mountain Mine Pty (Ltd).

Other I&APs include Organs of State, who have jurisdiction over, or may have an interest in the proposed prospecting project. Adjacent landowners, other non-governmental organisations and/or private persons are included. A list of all the stakeholders is listed below and tabled in detail.

Adjacent landowners were identified through the use of Geographical Information Systems (GIS) maps and consultation with Black Mountain Mine Pty (Ltd) for contact details from their existing stakeholder list.

The project zone of influence is summarised in table 1 below.

TABLE 1: PROJECT ZONE OF INFLUENCE

Project Overview - Zone of Influence	
Formal land use zonation	Mining
Current land use	Mining
Existing Land Users	Black Mountain Mining (Pty) Ltd / Vedanta Plc
Adjacent land users	Farm Gams 60, Portion 4: Black Mountain Mine Farm Achab 59: Black Mountain Mine Farm Bloemhoek 61, Remaining extend: Albertus Roux Farm Kykgat 87, Portion 1: Tertius Visser Farm Bloemhoek 61, Portion 1: Black Mountain Mine Farm Aroams 57, Remaining extend: Black Mountain Mine
Main stakeholder groups	Adjacent landowners Local and District Municipalities Authorities: DWS, DENC, SAHRA, Land Affairs, DMR
Main organised forums	Farmers Union Succulent Society of South Africa (SSSA) Succulent Karoo Ecosystem Programme (SKEP)
Significant receptors	Aggeneys community & Adjacent landowners
Main Government commenting authorities	
1	Department of Environmental Affairs
2	Department of Water Affairs
3	Department of Land Affairs
Authorising and competent authorities	
1	Department of Mineral Resources
2	South African Heritage Resources Association

Stakeholder Categories and relevance to this project is detailed below.

Landowners

The properties of interest are Black Mountain Mine Pty (Ltd) owned land. The project areas properties form part of the existing mining right.

Communities

- Community Engagement Forum
- Khai Ma Business Forum
- Pofadder Landbou Vereniging
- Farming Community Representative
- Boesmanland Farmers Union

Traditional Leader

No traditional authority was identified for the affected property.

Land Claim

Not applicable

Municipality

The project is located within the Namakwa District Municipality, in the Khâi-Ma Local Municipality, Northern Cape Province. Local and district municipalities were informed via email and an email to the local municipality councillor.

Relevant Government Departments

The following other departments were informed of the proposed project via e-mail:

- Department of Water Affairs (DWA); Kimberley, Regional
- Northern Cape Department of Environmental Affairs & Nature Conservation (DENC); Upington, Kimberley, Springbok
- Department of Mineral Resources (DMR): Regional Manager Northern Cape & Springbok
- Land affairs

Cultural and Heritage Significance

The South African Heritage Resource Agency (SAHRA) has been informed via the agency information system. The case will be uploaded to SAHRIS with the draft documents and heritage report for comment.

Other interested/affected parties

- Black Mountain Mines Pty (Ltd)
- Registered individuals
- WESSA
- SSSA
- EWT
- BirdLife South Africa

Other interested and/or affected parties were informed via poster placements in the towns of Pofadder and Aggeneys and a newspaper notification in the local newspaper (Die Plattelander), published 04 August 2017. A Background Information Document (BID) is available for further information on the project. All interested and registered parties were included in notification SMS or emails sent out (where cell phone and email contact details were available).

3. PUBLIC PARTICIPATION PROCESS

PROCESS TO DATE

The following public participation activities have been performed to date:

TABLE 2: PUBLIC PARTICIPATION ACTIVITIES TO DATE

Item	Date	Venue	Communication Media	Communication Vehicle	Attendees	Recipients
Initial Compilation of Stakeholder Database	2017/06/20	Not Applicable	Printed media	Verbal & Electronic mail	Not Applicable	I&AP
Distribution of BID	2017/08/04	Pofadder, Aggeneys	Printed media	Verbal	Not Applicable	General public
Advertisements Published: Die Plattelander	2017/08/04	Not Applicable	Printed media	Not Applicable	Not Applicable	General public
Distribution of project posters	2017/08/01	Pofadder, Aggeneys	Printed media	Verbal	Not Applicable	General public
Distribution of the DBAR / EMP Report	2017/10/10	Not Applicable	Printed media	Verbal & Electronic mail	Not Applicable	I&AP

Public Disclosure of Draft BAR & EMP

The draft copy of the BAR and amended EMPr were provided to all I&APs registered on the project database for a period of 30 days to allow I&AP the opportunity to comment on the findings of the EMPr.

The draft copy of the revised BAR and amended EMPr version 02 will be provided to all I&APs registered on the project database for a period of 30 days to allow I&AP the opportunity to comment on the findings of the EMPr. The revised draft BAR & amended EMPr report will be made available to the I&APs in June 2018 and will be available for commenting for a period of 30 days.

Concluding Remarks on Stakeholder Consultation

No key issues have been raised by adjacent landowners to date.

Various issues and concerns have been raised by other I & APs.

These findings and comments will be incorporated in the report and additional comments provided by stakeholders will be updated for the compilation of the final report.

Public Disclosure of Final BAR & EMP

Final documents will be distributed to all relevant stakeholders and regulatory response in terms of the Record of its Decision will be notified to all registered stakeholders.

Records are kept of any comments, questions, complaints, grievances or incidents raised by the registered parties and will be processed and incorporated in the BAR & EMP. All comments received by Stakeholders are included below.

4. REGISTER OF INTERESTED & AFFECTED PARTIES

EndemicVision Environmental Services Pty (Ltd)

BirdLife Africa	South	2018/11/02	2018/06/01	Biodiversity Offset	Page 47 and page 60 of the Basic Assessment report refer to the required mitigation measures to manage the impacts on the plants, habitats and vegetation and obligations for monitoring and conservation. They included the completion of the biodiversity offset calculations to offset the biodiversity loss and the implementation a biodiversity offset programme. These measures need to be finalised before this application for amendment of the approved EMP is granted. It was a condition of the EA granted for the existing mining right area that all mitigating measures are implemented, including the biodiversity offsets. A failure to implement these measures would constitute non-compliance	Continuous as project develops	Concerns addressed
BirdLife Africa	South	2018/11/02	2018/06/01	Biodiversity Offset	Page 66 section n) of the BAR mentions that a gap in this study is that the final biodiversity offset study is not yet available. There is also no reference to the biodiversity offset and its implementation plan and timeframes in the EMP. The offset must be implemented to reduce residual impacts. This is a major gap that is unacceptable and an EA should not be granted without an agreed offset and its inclusion in the EMP	Continuous as project develops	Concerns addressed
BirdLife Africa	South	2018/11/02	2018/06/01	Biodiversity Offset	We are aware of the draft Biodiversity Offset report of April 2013 and have knowledge of the Biodiversity Offset agreement between BMM and DENC signed in 2014. We are of the opinion that there is a lack of transparency in this process if the biodiversity offset agreement is not added as an appendix and referred to for implementation in the EMP	Continuous as project develops	Concerns addressed, documents sent
BirdLife Africa	South	2018/11/02	2018/06/01	Biodiversity Offset	The BAR (page 66) says that the current mining footprint has been offset to compensate for loss of biodiversity. There needs to be evidence of this appended, such as an audit report, and reference to how it fulfils some of the requirements of the biodiversity offset agreement	Continuous as project develops	Concerns addressed, documents sent
BirdLife Africa	South	2018/11/02	2018/06/01	CBA	We are aware that the Biodiversity Offset Agreement included that approx. 13000 ha of land (including Bushmanland Inselberg Shrubland and Aggeneys Gravel Vygieveld which are affected biodiversity no go zones) that must be secured by BMM and declared a Nature Reserve or Protected Environment under the Protected Areas Act, with ongoing management by a management authority. How far has this obligation proceeded? Securing and declaring these CBAs protected should be implemented before the EA for prospecting is granted	Continuous as project develops	Concerns addressed
BirdLife Africa	South	2018/11/02	2018/06/01	habitat loss	The Aggeneys area is noted as one of the most important global core areas for the endemic and Vulnerable Red Lark Calendulauda burra. As a species only found in NC, SA, any impact (direct or indirect) on the core global habitat	Continuous as project develops	Concerns addressed

EndemicVision Environmental Services Pty (Ltd)

				of this species should be avoided and/or carefully quantitated. As part of a Red Lark study implemented by BirdLife South Africa, results reveal red dune habitat, i.e. the preferred habitat type of this species, occurring marginally within extensively throughout the adjacent proposed development area. Both direct, i.e. habitat loss, degradation and fragmentation, as well as indirect impacts, i.e. displacement through noise and dust pollution, need to be fully considered.		
BirdLife South Africa	2018/11/02	2018/06/01	Red Lark	Page 60 indicated a monitoring and conservation obligation to monitor Red Lark populations in the area. Has this obligation been implemented? If so do results corroborate the findings of our study suggesting that Red Lark habitat is marginally present within the proposed development area and extensively present surrounding the proposed development area? The obligated monitoring project should be providing quantified context as to the Red Lark population occurring in the surrounding area and potential impact thereon through proposed prospecting activities.	Continuous as project develops	Concerns addressed, documents sent
BirdLife South Africa	2018/11/02	2018/06/01	avifauna	Other threatened avian species recorded (BirdLife South Africa database) within or adjacent to the respective are include Endangered Martial Eagle, Vulnerable Verreaux's Eagle, Endangered Ludwig's Bustard and Near Threatened Maccao Duck. Non-threatened species that are endemic and/or listed as important Bird and Biodiversity Area's trigger species include Black-eared Sparrow-Lark, Burchell's Sandgrouse and Stark's Lark, amongst others. The Aggeney's are known to host a range of threatened and non-threatened significantly range-restricted endemic avian species. Page 60 indicates that a gap in the regional faunal species data should be conducted. Was this obligatory requirement completed? If so, where are the avifaunal results and how have they influenced the proposed amendment of the approved EMP?	Continuous as project develops	Concerns addressed
BirdLife South Africa	2018/11/02	2018/06/01	Monitoring compliance	Until obligatory conservation and monitoring requirements as stated in be BAR page 60 are completed and available for perusal, environmental authorisation for further amendments should not be granted in light of this non-compliance to obligatory monitoring requirements	Continuous as project develops	Concerns addressed, documents sent
Department of Environmental Affairs	2017/11/10	2018/06/01	Functional Corridor	Maintain functional corridor width by ensuring that no other development occur within a 5km buffer around the mine impact area	Continuous as project develops	Concerns addressed
Department of Environmental Affairs	2017/11/10	2018/06/01	Biodiversity Offset	a Biodiversity specialist must be appointed to develop a diversity offset and a spatial design of biodiversity offsets.	Continuous as project develops	Concerns addressed

EndemicVision Environmental Services Pty (Ltd)

Department of Environmental Affairs	2017/11/10	2018/06/01	Rehabilitated	Vegetation removal must be minimized to smallest possible footprint and damage area should be rehabilitated with assistance of a qualified vegetation rehabilitation specialist.	Continuous as project develops	Concerns addressed
Department of Environmental Affairs		2018/06/01	Biodiversity Loss	All areas with habitat rich and high concentration of fauna and flora should be avoided	Continuous as project develops	Concerns addressed
Department of Environmental Affairs	2017/11/10	2018/06/01	Conservation	Pre-construction walk-through of the facility in order to locate species of conservation concern that can be translocated must be undertaken, provincial and DAFF permit conditions must also be complied with.	Continuous as project develops	Concerns addressed
Department of Environmental Affairs	2017/11/10	2018/06/01	Search and Rescue	Search and rescue operation of all listed species suitable for translocation within the development footprint that cannot be avoided should be conducted. Effected individuals should be translocated to a similar habitat outside of the development footprint and marked for monitor purposes.	Continuous as project develops	Concerns addressed
Department of Environmental Affairs	2017/11/10	2018/06/01	Plant rescue and Protection plan	The plant rescue and protection plan must be compiled by the ecological specialist and implemented.	Continuous as project develops	Concerns addressed, documents sent
Department of Environmental Affairs	2017/11/10	2018/06/01	Fauna and flora	Recommendations stipulated within the fauna and flora impacts specialists' reports are supported and must be adhered during construction and operational phases.	Continuous as project develops	Concerns addressed
Department of Environmental Affairs	2017/11/10	2018/06/01	Loss of habitat	Recommendations outlined must be Implemented and included in the environmental authorisations.	Continuous as project develops	Concerns addressed
Department of Environmental Affairs	2017/11/10	2018/06/01	Alien plant services	Recommendations outlined must be Implemented and included in the environmental authorisations.	Continuous as project develops	Concerns addressed
Andrew Young	2017/11/16	2017/11/16	Information	Request for documents submitted by Vedanta for their Application for Amendment of the Approved Environmental Management Programme in Respect of the Portion 1 of Farm Gams 60, Namaqualand, Northern Cape	Completed	Information and documents sent
Andrew Young	2017/11/16	2017/11/16	Information	Also Request for The Basic Assessment Report and Environmental Management Plan for Gamsberg East & South Prospecting.	Completed	Information and documents sent
Andrew Young	2017/11/20	2018/06/01	Biodiversity Offset	There are no details provided for the calculations for the biodiversity offset proposed and subsequent implementation plans. These are critical elements and need to be put into place and objectively considered before any approval is given.	Continuous as project develops	Concerns addressed

EndemicVision Environmental Services Pty (Ltd)

Andrew Young	2017/11/20	2018/06/01	Biodiversity Mitigation	Has all the biodiversity mitigating measures been put in place for the existing mining area and how effective have these been? Have these been critically assessed (e.g., are annual independent reports available)? This MUST be reviewed and the measures shown to be effective before any further approvals are given.	Continuous as project develops	Concerns addressed, documents sent
Andrew Young	2017/11/20	2018/06/01	Quartz gravel patches	The quartz gravel patches in the area concerned by this Amendment are home to the dwarf succulent <i>Conophytum ratum</i> . This is an important consideration as this species is only found in substantial quantities on this part of the Gamsberg. Moreover, recent fieldwork has established that outlying populations are small and scattered and unlikely in themselves to be viable. Powell (2016) showed that the low-lying plants (on the quartz plains extending east to Achab-se berg) were in fact maintained by the plants on the Gamsberg plateau (via seed dispersal along drainage lines). This species can therefore be considered to be endemic to the eastern end of the Gamsberg plateau and therefore at considerable risk from the proposals. What specific measures are planned to protect this rare and endangered plant species?	Continuous as project develops	Concerns addressed
Andrew Young	2017/11/20	2018/06/01	Genetic diversity	A recent study (Powell, 2016) has shown that the genetic diversity of <i>C. ratum</i> was highest amongst plants located on the Gamsberg plateau than amongst those plants found around the base. The plants on the plateau are physically smaller than those below –in habitat and retain this feature in cultivation. What specific measures are to be undertaken to protect the genetic diversity of this species?	Continuous as project develops	Concerns addressed
Andrew Young	2017/11/20	2018/06/01	Dust	The current emphasis concerns the effect on human activities yet smothering of low-lying (windowed) plant species (e.g., <i>Lithops</i> and <i>Conophytum</i>) by dust may be considerable. What are the likely consequences of the dust produced on the floral communities and what measures are to be taken to minimise these effects?	Continuous as project develops	Concerns addressed
Andrew Young	2017/11/20	2018/06/01	Rescue success rate	Rescue and transplantation measures are mentioned with respect to floral diversity (e.g., pages 23 & 47) but no evidence is given regarding the effectiveness of such measures for the species concerned. Dwarf succulents such as <i>Conophytum</i> and <i>Lithops</i> are notoriously challenging in this regard as they show high specificity for niche environments. This is a major concern. What are the survival rates for rescued plant species from the existing mining area, both under cultivated conditions and when subsequently transplanted to alternative field sites? The	Continuous as project develops	Concerns addressed, documents sent

EndemicVision Environmental Services Pty (Ltd)

				current approach and methodologies need to be shown to be effective before any further approvals are made.		
Andrew Young	2017/11/20	2018/06/01	Search and Rescue	There are great concerns over the ability to rehabilitate much of the site following the proposed activity, especially for those plant species which are habitat specialists. Where are the sites identified for plant transplantation following rescue and what is the basis for their selection? A detailed plan is needed to cover all the niche environmental preferences of the different plant species involved.	Client response under development	Concerns addressed, documents sent
Andrew Young	2017/11/20	2018/06/01	Stockpiling of plants	What specific conditions are in place to permit 'stockpiling' of plants for use in rehabilitation (page 77)? How effective was this approach for the existing mining area?	Continuous as project develops	Concerns addressed, documents sent
Endangered wildlife trust	2018/11/23		Biodiversity Offset	Black Mountain Mining (Black Mountain Complex) agreed, through the signing of the Biodiversity Offset Agreement, to the protection of the biodiversity and ecological functioning of the no-go areas on the Gamsberg inselberg. It is disappointing to note that they now propose to prospect in these areas. These prospecting activities are expected to have a significant residual impact on the biodiversity of the area, particularly the activities in Gams North and Far East. We strongly recommend that an offset calculation and offset feasibility assessment be conducted prior to the issuing of an Environmental Authorisation (EA). Should the offset assessment find that the residual impact can be offset then we would recommend that the EA require the proponent to offset their residual biodiversity impact. However, should the assessment find that the residual biodiversity impact is not "offsetable" then we would urge that the authorisation for the proposed activity not be granted.	Continuous as project develops	Concerns addressed
Endangered wildlife trust	2018/11/23	2018/06/01	Management and Reporting	We believe that evidence of the proponent's ability to effectively manage and report on environmental and biodiversity issues at current and past prospecting sites is required. This will argue for or against their ability to effectively manage the risk at the future proposed prospecting sites. We recommend that the BAR be updated to include an assessment of the proponent's ability to effectively manage environmental and biodiversity on site as a risk for this proposed project.	Continuous as project develops	Concerns addressed, documents sent

EndemicVision Environmental Services Pty (Ltd)

Endangered wildlife trust	2018/11/23	2018/06/01	Mitigation measures.	Pgs. 51 – 64 of the BAR refer Section (i) Assessment of each identified potentially significant impact and risk; and (k) Environmental Impact Statement, Tables 17, 18, 20 and 21. All of the impacts that were predicted to be of high significance in Tables 17 and 18 were reduced in significance in Tables 20 and 21. We believe that this is a very optimistic assessment of the degree to which these impacts can be reduced in significance and would suggest that a more conservative approach be adopted. For example, it is unlikely that a high significance impact of the loss of habitats from the clearing of indigenous vegetation (Table 18) can be reduced to negligible (Table 21) through the implementation of the recommended mitigation measures	Continuous as project develops	Concerns addressed
Endangered wildlife trust	2018/11/23	2018/06/01	EAP Opinion	Pg. 67 of the BAR refers Section (o) Reasoned opinion as to whether the proposed activity should or should not be authorised i) Reasons why the activity should be authorised or not. The Environmental Assessment Practitioner (EAP) has not provided their opinion on whether the proposed activity should or should not be authorised. We request that the EAP provide their opinion on this matter.	Continuous as project develops	Concerns addressed
Endangered wildlife trust	2018/11/23	2018/06/01	Biodiversity Offset	ii) Conditions that must be included in the authorisation. Due to the significance of the biodiversity that will be impacted on by the proposed prospecting activities, particularly those in Gams North and Far East, we strongly recommend that the proponent be required to offset their residual biodiversity impact from these proposed activities.	Continuous as project develops	Concerns addressed
Endangered wildlife trust	2018/11/23	2018/06/01	Biodiversity Mitigation	ii) Conditions that must be included in the authorisation: The level of significance of the anticipated biodiversity related impacts, as assessed by the EAP, decreased significantly with the implementation of the recommended mitigation measures. This was done on the understanding that the proponent would implement the recommended mitigation measures. Therefore, we recommend that all the biodiversity related mitigation measures (including those for the management of water quality and quantity, and rehabilitation) proposed by the EAP in the BAR be included in the environmental authorisation to ensure that the proponent mitigates these impacts such that their significance is reduced.	Continuous as project develops	Concerns addressed
German society for "other" succulents Jörg Ettelt	2018/02/01	2018/02/05	I&AP registration	Request for Background Information and draft reports	Completed	Background Information Document and process sent

Bennie Boekwurm maak draai by skole vir lees-marathon

M. Mostert ontvou.

SPRINGBOK – Lank gelede toe Wieë Walle nog koning op televisie gekraai het, het 'n groen Bennie Boekwurm uit die grond gewurm nadat die maatjies hom herhaaldelik geroep het. Dan het hy die mooiste sprokies vir die jong pienkvoetspan geles. Verlede week het twee nuwe biblioteke in die Nama kwia -streek geopen en so 'n wonderwêreld vir gemenskappe

Verlede week was dit Leesweek. Die Departement van Onderwys het die week ingestel om geletertheid onder die jeug te bevorder. Wanneer kinders met meer begrip lees, verbeter dit die hele breedte-spektrum van lees en leer. Dit is nie net jou begripsvermoë wat in leesstukke verbeter nie. Jy kan ook met meer sandag jou ander inhoudsvakke en sifis woordsom me bestudeeren so

jou punte verbeter.

Skole in die Noord-Kaap het allerhande leesaktiwiteite aangebied om die leerders by die Leesweek te betrek.

Donderdagmiddag, 27 Julie, het 'n groep geharde leers vir 'n marathon van 2 ure opgedaag. Me. Carina Roux het 'n paar hoopies boeke gereed gehad waaruit die leerders kon kies om hulle van 14:00 tot 16:00 besig te hou. Die oplooms was nie baie groot nie, want die graad 10 – 12's het ekstra-klasse en daar was ander buitenuurse aktiwiteite ook aan die gang.

Nazareen Cloete in graad 8 se haar voorkeur leesstof is avontuur en aksie. Robin Dixon kies romanse. Nie een van die twee het 'n spesifieke skrywer nie soos week hulle lees nie. Keane Damon in graad 9 kies rilles van enige skrywer. Christine Bamard, die skaakkampioen van die skool, hou van enige ligte leesstof wat 'n komiese diement in het. Chrizane Visser druk graag haar neus in 'n lekker roman.

Daar agter in die biblioteek het nog leerders deur die rakke gesnuif vir interessante boeke. Die trek is 'n ruk gelede mooi verfraai met knus kussings en matjies op die vloer. Nou nie dat die leerders knusbeen soos laeskoollinders op die matjies sal sit en lees nie. Hulle verlies die sagte kussings op die stoele. In die twee ure het die groep meer as sewe boeke deurgelees.

PROSPECTING EXPANSION: APPLICATION FOR AMENDMENT OF THE APPROVED ENVIRONMENTAL MANAGEMENT PROGRAMME IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) ON PORTION 1 OF THE FARM GAMS 60, NAMAQUALAND, NORTHERN CAPE
– Invitation to participate, register and comment

Gamsberg Mine, a Black Mountain Mine Pty (Ltd) operation is planning the expansion of their prospecting activities and subsequent the amendment to the approved Environmental Management Programme (EMPr).

The prospecting expansion area of interest is located on BMM property, Portion 1 of Farm Gams 60, within the Khâ-Ma Local Municipality and Namakwa District Municipality, Northern Cape Province. The areas are situated approximately 47 km east from Aggenys.

Before the proposed project may go ahead, a Basic Assessment Report (BAR) process need to be completed in terms of the following legislation:

- National Environmental Management Act (No. 107 of 1998) (NEMA)
- Mineral and Petroleum Resources Development Act (No. 28 of 2002)

The submission of a report to the competent authority will contain an assessment of all impacts related to the project with avoidance, mitigation and management measures including amendments to the EMPr.

The listed NEMA activities triggered by the undertakings are:

- Activity number 20 of NEMA GN.R.327 (Listing Notice 1)
- Activity number 22 of NEMA GN.R.327 (Listing Notice 1)
- Activity number 12 of NEMA GN.R.324 (Listing Notice 3)

The following application will be submitted to the competent authority, namely:

- Section 102 Amendment in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). Submission is made to the Department of Mineral Resources, Northern Cape Province.

Endemic Vision Environmental Services (Pty) Ltd has been appointed as the independent environmental assessment practitioner, to undertake the BAR and associated public participation processes on behalf of Black Mountain Mine.

Stakeholders are invited to register as Interested and Affected Parties (I&APs) and to participate in the process. This is to ensure that the environmental impacts is taken in consideration, to ensure public input and to supply sufficient information to the competent authority to make an informed decision on the proposed activity.

Due date for initial comments and stakeholder registration: 15 September 2017

Man betrap met gesteelde vee

ROODEPAN - Verlede jaar was daar 'n foto in die media van 'n man wat gesteelde skape in sy Volkswagen Kewer geprop het en op die vlug probeer slaan het. Hy is gevang. 'n 45-jarige man is saam met 6 beweerde medeplygtiges die naweek in hegtenis geneem vir vermoedelik gesteelde beeste.

Die man, wat glo 'n slaghuis besit, is in besit van 7 beeste betrap. Hy is op 'n plaas naby Roodop an aangeleer na 'n sleepwa vol Bonsmara en 7 afgeslagte beeste gevind is. Volgens 'n voorafon densoek sou die viels by die verdagtes se slaghuis verkoop word. Die verdagtes is op heterdaad betrap waar hulle besig was om een van die beeste af te slag. Die bakke en sleepwa is gekonfiskeer. Die verdagtes het Maandag, 31 Julie, in die landdroshof verskyn.

8. BACKGROUND INFORMATION DOCUMENT

FIGURE 7: BACKGROUND INFORMATION DOCUMENT PAGE 1-5

GAMSBERG SOUTH & EAST
APPLICATION FOR AMENDMENT OF THE APPROVED ENVIRONMENTAL MANAGEMENT PROGRAMME IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) ON PORTION 1 OF THE FARM GAMS 60, NAMAQUALAND, NORTHERN CAPE

Background Information Document

Background

Gamsberg Mine, a Black Mountain Mine Pty (Ltd) (BMM) operation, is planning to extend their exploration efforts to include Gamsberg South and East Operation and subsequent the amendment to the approved Environmental Management Programme (EMPr) of Black Mountain Mine.

The project can be described as prospecting on the BMM properties as part of the existing new order mining right.

Before the proposed project may go ahead, a Basic Assessment Report (BAR) process need to be completed in terms of the following legislation:

- National Environmental Management Act (No. 107 of 1998)
- Mineral and Petroleum Resources Development Act (No. 28 of 2002)

Purpose of this document

EndemicVision Environmental Services (Pty) Ltd has been appointed as the independent environmental assessment practitioner, to undertake the Basic Assessment Reporting (BAR) and associated public participation process for the application.

This document intends to:

- Inform interested and affected parties (I&APs) of the application for amendment;
- Provide I&APs with documents at various stages during the environmental assessment process; and
- Invite comment and input into the process.

You are invited to engage in the process by submitting issues of concern and suggestions to the proposed application

Aim of the Application

The aim of the application is to ensure prospecting on Gamsberg South and East while ensuring legal compliance and sound environmental management of the site. The environmental impacts associated with the activities will be evaluated and mitigation measures applied where applicable.

Application and Activities

The following application will be submitted to the competent authority, namely:

- Section 102 Amendment of the approved EMPr in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). Submission is made to the Department of Mineral Resources, Northern Cape Province.

NEMA Government Notice R327 (2017) and Government Notice 324 (2017) lists activities that require a basic assessment under section 24(2) and 24(D) of the National Environmental Management Act, 1998. The following listed activities have been triggered by the proposed prospecting and related infrastructure:

- **Activity number 20 of GN.R.327 (Listing Notice 1):** "Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No.28 of 2002), including associated infrastructure, structures and earthworks, directly related to prospecting of a mineral resource..."

1

Gamsberg South & East BID | EndemicVision Env

EMPr Amendment – BAR Process
Black Mountain Mining (Pty) Ltd

Background Information Document

- **Activity number 22 of GN.R.327 (Listing Notice 1):** "The decommissioning of any activity requiring – (ii) a prospecting right ..., where the throughput of the activity has reduced by 90% or more over a period of 5 years..."
- **Activity number 12 of GN.R.324 (Listing Notice 3):** "The clearance of an area of 300 square metres or more of indigenous vegetation..."

Activities will include the reopening and utilisation of all previously existing access tracks / prepared roadways, passing & turning areas and demarcated laydown areas, access or clearance and drilling on all drill sites on Gamsberg East and South

Before the proposed project may go ahead, a Basic Assessment Reporting process must be completed. This process must be submitted as part of the Section 102 Amendment of the Environmental Management Programme application.

The submission of reports to the competent authority will include an assessment of all impacts related to the project with avoidance, mitigation and management measures and amendments to the EMPr.

Basic Assessment Report Process

The objectives of the BAR process are to provide:

- I&APs with adequate information to understand the potential environmental and socio-economic impacts associated with the proposed project and opportunities for them to comment on the BAR process;
- the project team with information that will assist them to incorporate effective measures into the plan and execution of the prospecting activities to minimise negative impacts and enhance benefits of the project; and
- the regulatory authorities with sufficient information to serve as a basis for sound decision making.

Public Participation

You are invited to engage in the process by submitting issues of concerns and suggestions to the proposed project. Parties wishing to register as Interested and Affected Parties (I&AP) who wish to participate should please register or submit their correspondence in writing to reach EndemicVision (Pty) Ltd no later than thirty (30) days after the issue of this notice (**15 September 2017**).

How can you get involved?

- Register as an I&AP
- Propose ideas to solve problems that arise during the consultation process
- Voice your concerns about proposals and their potential impacts
- Assist with information that will contribute to a thorough study and basic assessment.

Benefits of registering as an I&AP

- As a registered I&AP, you are entitled to the following:
- Invitations to public meetings if this is deemed necessary
 - Project and assessment information
 - Opportunities to raise issues and concerns throughout the process
 - Notices to inform you of reports for public comment
 - Opportunity to comment on reports to find out if your issues and concerns were addressed

Please refer to the Registration/Comment Form attached.

Public participation is a key component of environmental decision-making and will take place throughout the BAR process.

EMPr Amendment – BAR Process
Black Mountain Mining (Pty) Ltd

Background Information Document

Project Description & Location

Gamsberg Mine, a Black Mountain Mining (Pty) Ltd operation, has embarked on a project to extend their exploration efforts to include Gamsberg South and East Operation on Farm Gams 60, Portion 1. The applicable area is situated approximately 47 km east from Aggeneys, within

the Khâi-Ma Local Municipality and Namakwa District Municipality, Northern Cape Province.

The proposed prospecting programme involves both non-invasive and invasive prospecting methods. Initially, prospecting activities will be non-invasive with the proposal to have invasive prospecting thereafter.

Gamsberg South & East Environmental Authorisation Application
APPLICATION FOR AMENDMENT OF THE APPROVED ENVIRONMENTAL MANAGEMENT PROGRAMME IN TERMS OF SECTION 102 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) ON PORTION 1 OF THE FARM GAMS 60, NAMAQUALAND, NORTHERN CAPE

This letter serves to provide you with a brief introduction to the proposed prospecting project to be undertaken by Black Mountain Mine Pty (Ltd) (BMM) and to inform you of an application for amendment of the approved Environmental Management Programme for BMM.

Gamsberg Mine, a Black Mountain Mine Pty (Ltd) (BMM) operation, is planning to extend their exploration efforts to include Gamsberg South and East Operation and subsequent the amendment to the approved Environmental Management Programme (EMPr) of Black Mountain Mine.

The prospecting expansion area of interest is located on BMM property, Portion 1 of Farm Gams 60, within the Khâi-Ma Local Municipality and Namakwa District Municipality, Northern Cape Province.

Before the proposed project may go ahead, a Basic Assessment Report (BAR) process need to be completed in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act no. 28 of 2002). The application for amendment of the EMPr will be submitted to Department of Mineral Resources, Northern Cape. The submission of a report to the competent authority will include an assessment of all impacts related to the project with avoidance, mitigation and management measures.

EndemicVision Environmental Services Pty (Ltd) has been appointed as the independent environmental assessment practitioner to evaluate the process and environmental impacts on behalf of Black Mountain Mine. As a commenting authority you are invited to participate in the process by providing comments. This is to ensure that the environmental impacts are taken in consideration, to ensure public input and to supply sufficient information to the competent authority to make an informed decision on the proposed activity.

Contact person: Elsche Cronje, Contact details: e-mail: ec@endemicvision.co.za, website: www.endemicvision.co.za, cell: 072 182 6937. To provide *initial* comments and request the draft reports, refer to the above contact details. The Background Information Document (BID) map is attached. The draft BAR and EMPr reports will be available for commenting from 18 September 2017.

Application for the Amendment of a Mining Right, Portion 01 of Gams 60,

Reference number: NCS 30/5/1/2/2/ (518) MR,

Namaqualand Magisterial District, Northern Cape Province

Dear interested and affected party

Thank you kindly for your comments and response to the Draft Basic Assessment Report (DBAR) for prospecting works planned at Gamsberg.

Your comments are important to us and we would like to ensure all concerns are addressed in the best possible way.

The commenting period for the DBAR ended on 24 November 2017 and numerous responses were received, amongst which the main requirement is the calculation of biodiversity risk and possible offset requirements of the affected area.

To address this concern adequately, we are appointing the different specialists in January 2018 and will present the findings and responses to your concerns as soon as this information becomes available.

All other concerns will also be addressed simultaneously and presented as the DBAR version 02 for the application to amend the Mining Right, Portion 01 of Gams 60.

The regulatory commenting period will then allow for final comments and response towards the final submission to the Department of Mineral Resources.

Questions and feedback can be directed to Ms Elsche Cronje of EndemicVision Environmental Services (ec@endemicvision.co.za OR fax to 086 590 7261 OR post to P.O. Box 2061, Kathu, 8446)

Kind Regards,
Elsche Cronje
